WHEREAS, the City has received a request from Dwayne Cain of ECSR (D), LLC for the approval of a Specific Use Permit (SUP) to allow a *guest quarters/secondary living unit* and *barn or agricultural accessory building* in an Agricultural (AG) District on a 10.61-acre portion of a larger 26.078-acre parcel of land described as Tract 2 & 2-4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, addressed as 777 & 839 Cornelius Road, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED** by the City Council of the City of Rockwall, Texas;

SECTION 1. That the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *guest quarters/secondary living unit* and *barn or agricultural accessory building,* as stipulated by Section 1, *Land Use Schedule,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*], on the *Subject Property*; and,

PLANNING
ORDINANCE
09.04.2019

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the requirements set forth in Subsection 2.01*, Agricultural (AG) District,* of Section 2*, Agricultural Districts,* of Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended and as may be amended in the future, and shall be subject to the following:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *guest quarters/secondary living unit* and *barn or agricultural accessory building* on the *Subject Property* and conformance to these conditions is required for continued operations:

1) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall generally conform to the concept plan and building elevations depicted in *Exhibits 'B'* & *'C'* of this ordinance;

2) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall not be utilized for a non-residential and/or non-agricultural land use.

3) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall be ancillary to the existing single-family home.

4) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall not be altered so that the structure is less than 2,000 SF or greater than 4,050 SF.

5) The subject property shall not be subdivided in such a way that the property does not meet the minimum requirement of ten (10) acres in size for a *barn or agricultural accessory building.*

6) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall be located behind the front façade of the primary structure and be subject to the same building setbacks as the primary structure.

7) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall not be sold or conveyed separately without meeting the requirements of the Unified Development Code (UDC).

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Building Permit, should the subject property--which is subject to the guidelines of this ordinance--fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF JUNE, 2019.

CITY OF ROCKWALL

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	May 20, 2019
APPLICANT:	Scott Lewis; *RRDC, LTD*
CASE NUMBER:	Z2019-011; *Amendment to Planned Development District 47 (PD-47)*

SUMMARY

Hold a public hearing to discuss and consider a request by Scott Lewis of RRDC, LTD for the approval of an amendment to Planned Development District 47 (PD-47) [*Ordinances 99-17 & 07-04*] being a 14.4715-acre tract of land identified as Tract 104 of the E. Teal Survey, Abstract No. 207 and Lot 1, Block A, First Christian Church, Disciples of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 47 (PD-47) for Single-Family 10 (SF-10) District land uses, situated within the Scenic Overlay (SOV) District, generally located at the northeast corner of the intersection of Ridge Road [FM-740] and White Road, and take any action necessary.

BACKGROUND

The subject property is located at the northeast corner of the intersection of Ridge Road [*FM-740*] and White Road. On June 7, 1999, the City Council approved *Ordinance No. 99-17* [*Case No. PZ1999-023*], which zoned the subject property to Planned Development District 47 (PD-47) for Single Family 10 (SF-10) District land uses. Since a portion of the subject property was outside of the City's corporate limits (*i.e. situated within Rockwall County*) and another portion was situated within the City of Heath, the case memo required a boundary adjustment agreement be entered into with the City of Heath. The full subject property was annexed into the City of Rockwall on December 20, 1999 by *Resolution No. 99-44* and zoned Planned Development District 47 (PD-47) On January 16, 2007, the City Council approved *Ordinance No. 07-04* [*Case No. Z2006-025*], which amended a portion of *Ordinance No. 99-17* allowing a five (5) acre part of Planned Development District 47 (PD-47) to allow for a commercial antenna in conjunction with a house of worship. On January 16, 2016, the City Council approved a preliminary plat for the Whisper Rock subdivision [*Case No. Z2017-066*], which contained 28 single-family lots on 9.477-acres. On December 11, 2018, the Planning and Zoning Commission approved a site plan [*Case No. SP2018-041*] and recommended approval of a final plat [*Case No. P2018-043*] for the Whisper Rock subdivision. The City Council approved the final plat on December 17, 2018.

PURPOSE

The applicant is requesting to amend the development standards contained in Planned Development District 47 (PD-47) [*Ordinance No. 99-17*]. Specifically, the applicant is requesting three (3) changes to the ordinance. These changes are as follows:

1) The minimum masonry requirement be 60% with all lap-siding being a cementitious fiber material (*e.g. HardiBoard or HardiPlank*);
2) The maximum lot coverage be 55%, and
3) Front-facing garages be allowed provided they are set back a minimum of 20-feet from the front façade of the structure.

ADJACENT LAND USES AND ACCESS

The subject property is located at the northeast corner of the intersection of Ridge Road [*FM-740*] and White Road. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is a single-family residential subdivision (*i.e. Benton Court Subdivision*), which is zoned Planned Development District 40 (PD-40) for Single-Family 10 (SF-10) District land uses. Beyond this there are several single-family homes that are zoned Single-Family 16 (SF-16) District.

South: Directly south of the subject property is a house of worship (*i.e. First Christian Church*) followed by White Road, which is identified as a *Minor Collector* on the City's Master Thoroughfare Plan. This roadway delineates the city limits of the City of Rockwall.

East: Directly east of the subject property is a vacant tract of land and a single-family home that are zoned Agricultural (AG) and Single-Family Estate 4.0 (SFE-4.0) Districts. Beyond this is a single-family residential subdivision (*i.e. Phase 4 of the Foxchase Subdivision*) that is zoned Planned Development District 9 (PD-9) for General Retail (GR), Single-Family 10 (SF-10), Single-Family 12.5 (SF-12.5), and Light Industrial (LI) District land uses.

West: Directly west of the subject property is Ridge Road [*FM-740*], which is identified as a M4D (*major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan. Beyond this is a residential subdivision (*i.e. Chandler's Landing*), which is zoned Planned Development District 8 (PD-8) for single-family and multi-family land uses.

CHARACTERISTICS OF THE REQUEST

Currently, Planned Development District 47 (PD-47) is comprised of two (2) areas. *Area 1* (*i.e. Whisper Rock Subdivision*) is undeveloped and contains 28 single-family residential lots on a 9.477-acre tract of land. *Area 2* is currently occupied by a house of worship (*i.e. First Christian Church*). The applicant is requesting changes to the development standards for *Area 1*. Specifically, the applicant would like to reduce the minimum masonry requirement to 60% from 80%, change the maximum lot coverage from 45% to 55%, and change the garage standards to allow front facing garages provided the garages are setback a minimum of 20-feet from the front of the structure. Currently, the development standards for Planned Development District 47 (PD-47) require all garages to be in a *J-Swing* or *Traditional Swing* format with no garage doors facing the street.

CONFORMANCE WITH THE CITY'S CODES

According to Section 4, *Residential Parking*, of Article VI, *Parking and Loading*, of the Unified Development Code (UDC), "…in single-family districts, garages must be located at least 20-feet behind the front building façade for front-entry garages…" In this case, the applicant's request conforms to the requirements of the Unified Development Code (UDC) for garages, and changing the Planned Development District ordinance does not appear to negatively impact the subject property or surrounding properties. With regard to the masonry and lot coverage requirements, the applicant is requesting to minimally reduce these standards; however, the Planning and Zoning Commission have approved similar requests in previous cases, and if approved it would not negatively impact surrounding or adjacent properties.

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

According to the OURHometown Vision 2040 Comprehensive Plan, the subject property is located in the *Marina District*, which is characterized as a residential district that is significantly developed with medium-density housing. The *Marina District* is not anticipated to change its land use pattern, and is expected to continue to have residential infill development that compliments the existing surrounding properties. This infill development is expected to generally follow the guidelines for medium-density residential development. In this case, the applicant's request does not appear to be contrary to the

district strategies for the *Marina District*. Specifically, the proposed residential subdivision is considered to be a medium-density development and the applicant is not proposing to alter the density of the development.

STAFF ANALYSIS

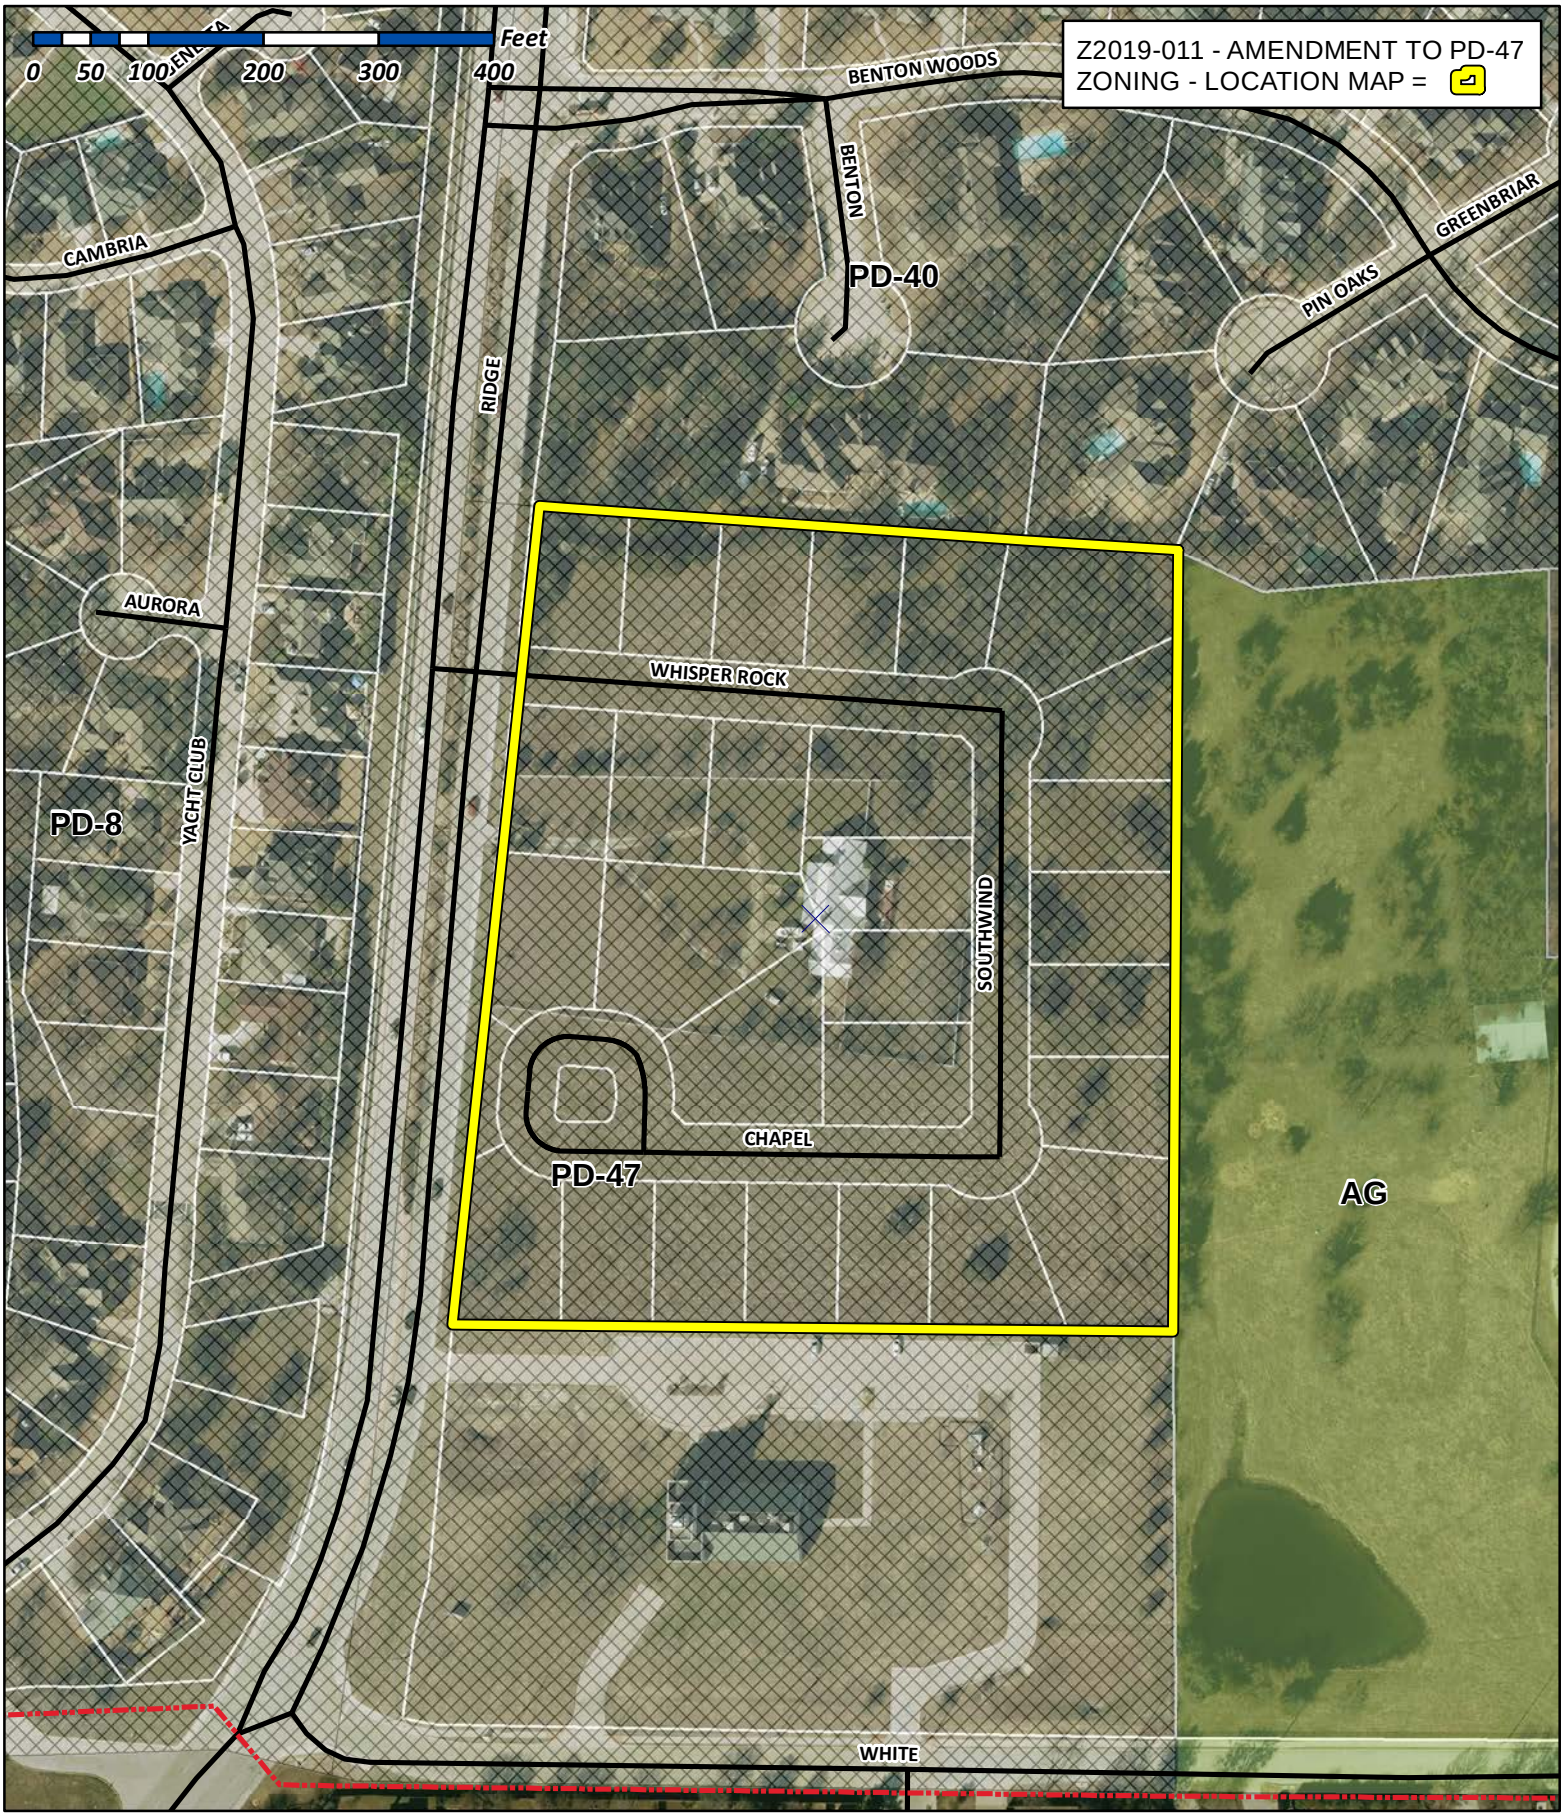
With regard to the applicant's request to increase the maximum lot coverage, staff should note that the only zoning district that allows a similar lot coverage (*i.e. allows 50% lot coverage*) is the Zero Lot Line (ZL-5) District. Although the applicant's request to raise the maximum lot coverage from 45% to 55% does not change the density of the development, the Planning and Zoning Commission should examine the possible visual effects/perception of allowing larger homes on the existing lot size and consider whether or not approval of this request will negatively impact the development and/or neighboring developments. Staff should point out that the side yard setback in the Single Family 10 (SF-10) District is six (6) feet, which means that the minimum distance between homes will be 12-feet. This is consistent with the policies for residential development contain in the OURHometown Vision 2040 Comprehensive Plan. With that being said, approval of this request is a discretionary decision for the City Council, pending a recommendation from the Planning and Zoning Commission.

As has been done in past amendments to planned development districts that consist of several regulating ordinances, staff has taken this opportunity to consolidate the regulating ordinances for Planned Development District 47 (PD-47) into one (1) ordinance; however, while staff has clarified several sections of these ordinances in the new regulating ordinance, no changes with regard to the requirements, intent or permitted land uses have been made to any portion of the planned development district that relates to *Ordinance No. 07-04*, which is identified as the regulating ordinance for *Area 2* (*i.e. First Christian Church*) in the attached draft ordinance.

NOTIFICATIONS

On May 1, 2019, staff mailed 123 notices to property owners and residents within 500-feet of the subject property. Additionally, staff notified Spyglass Phases 2 & 3, the Rainbow Lakes, Chandler's Landing, and Foxchase Homeowner's Associations (HOA's), which are the only HOA's/Neighborhood Associations within 1,500-feet of the subject property and participating in the Neighborhood Notification Program. At the time this report was written, staff had received two (2) notices in favor, one (1) notice in opposition, and one (1) email in favor of the request, with the exception of the front-facing garages.

CONDITIONS OF APPROVAL



If the City Council chooses to approve the applicant's request then staff would propose the following conditions of approval:

(1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

(2) Any construction resulting from the approval of this zoning change shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On May 14, 2019, the Planning and Zoning Commission's motion to recommend approval of the applicant's request passed by a vote of 4-1 with Commissioner Womble dissenting and Commissioners Logan and Moeller absent.

Subject: Neighborhood Notification Program: Notice of zoning request
Date: Wednesday, May 01, 2019 1:36:23 PM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will be published in the Rockwall Herald Banner ***May 3, 2019***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 5/14/2019 at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday 5/20/2019 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at
https://sites.google.com/site/rockwallplanning/development/development-cases

> **Z2019-011- Hold a public hearing to discuss and consider a request by Scott Lewis of RRDC, LTD for the approval of an amendment to Planned Development District 47 (PD-47) [*Ordinances 99-17 & 07-04*] being a 14.4715-acre tract of land identified as Tract 104 of the E. NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2019-011: Amendment to PD-47

Hold a public hearing to discuss and consider a request by Scott Lewis of RRDC, LTD for the approval of an amendment to Planned Development District 47 (PD-47) [Ordinances 99-17 & 07-04] being a 14.4715-acre tract of land identified as Tract 104 of the E. Teal Survey, Abstract No. 207 and Lot 1, Block A, First Christian Church, Disciples of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 47 (PD-47) for Single-Family 10 (SF-10) District land uses, situated within the Scenic Overlay (SOV) District, generally located at the northeast corner of the intersection of Ridge Road [FM-740] and White Road, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 5/14/2019 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 5/20/2019 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Korey Brooks
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **5/20/2019** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

Bad development Plan!

Houses are on too small of lots. There should only be 15 houses - too small houses.

RE: Whisper Rock
Zoning Amendment

Dear Mr. Miller:

We are formally requesting to amend the PD-47 with the following changes:

SECTION 5

Item 2. Any structure constructed on lots in the tract shall have a minimum of 60% masonry exclusive of any windows. Any siding shall be cementous fiber material, with strict HOA over sight.

Item 5. 55% maximum lot coverage of main house only, exclusive of driveway, pools & sidewalks.

Item 9. No garages shall face street unless 20' back from front of structure. J swings allowed.

If you have any questions or have additional comments, please do not hesitate to contact me at 972-941-8410 or by email at matt@ecdlp.com

Thank you,

Todd Wintters, P.E.
Engineering Concepts & Design, L.P.

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 47 (PD-47) [*ORDINANCES 99-17 AND 07-04*] AND THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE DEVELOPMENT STANDARDS APPROVED WITH *ORDINANCE NO. 99-17*, BEING A 14.4712-ACRE TRACT OF LAND IDENTIFIED TRACT 104 OF THE E. TEAL SURVEY, ABSTRACT NO. 207 AND LOT 1, BLOCK A, FIRST CHRISTIAN CHURCH DISCIPLES OF CHRIST ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, ZONED PLANNED DEVELOPMENT DISTRICT 47 (PD-47) AND MORE FULLY DEPICTED HEREIN BY *EXHIBIT 'A'* AND DESCRIBED HEREIN BY *EXHIBIT 'B'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by the applicant Scott Lewis of RRDC, LTD for the approval of an amendment to Planned Development District 47 (PD-47) for the purpose of amending the development standards approved with *Ordinance 99-17*, being a 14.4712-acre tract of land identified as Tract 104 of the E. Teal Survey, Abstract No. 207 and Lot 1, Block A, First Christian Church Disciples of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 47 (PD-47) [*Ordinances 99-17 and 07-04*], generally located at the northeast corner of the intersection of Ridge Road [*FM-740*] and White Road and more fully depicted in *Exhibit 'A'* and described in *Exhibit 'B'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 47 (PD-47) [*Ordinance No.'s 99-17 & 07-04*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No.'s 99-17 & 07-04*;

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District ordinance and the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as may be amended in the future;

SECTION 3. That development of the *Subject Property* shall be in accordance with the

DRAFT 05.21.19

Planned Development Concept Plan, contained in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 4. That development of the *Subject Property* shall be in accordance with the *Planned Development Standards*, described in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* (*$2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 7. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 8. That this ordinance shall take effect immediately from and after its passage;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF JUNE, 2019.

THENCE South 89 degrees 09 minutes 00 seconds East, along the common line of laid Lot 1 and said 9.4769 acre tract, a distance of 625.79 feet to the POINT OF BEGINNING and containing 227,854 square feet or 5.231 acres of land.

DRAFT ORDINANCE 05.20.19

Exhibit 'C':
Location Map/Area Concept Plan

DRAFT 03.07.2019

Exhibit 'D':
PD Development Standards

Area 1: Single-Family 10 (SF-10) District [*9.477-Acres*]

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, *Area 1* as depicted in *Exhibit 'C'* of this ordinance shall be subject to the land uses permitted for the Single-Family 10 (SF-10) District as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as may be amended in the future.

(2) *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, *Area 1* as depicted in *Exhibit 'C'* of this ordinance shall be subject to the development standards for the Single-Family 10 (SF-10) District as stipulated in Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as may be amended in the future. All lots shall conform to the standards depicted in *Table 1*, which are as follows:

Table 1: Density and Dimensional Requirements

Minimum Lot Width [1]	80'
Minimum Lot Depth	100'
Minimum Lot Area	10,000 SF
Minimum Front Yard Setback [2]	25'
Minimum Side Yard Setback	6'
Minimum Distance Between Buildings	10'
Maximum Height	36'
Minimum Rear Yard Setback	10'
Maximum Lot Coverage	55%
Minimum Dwelling Size	3,000 SF

General Notes:
[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.
[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

(3) *Building Standards.* Housing type and construction shall adhere to the following building standards:

(a) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 60% primary materials and/or a maximum of 20% secondary materials, excluding windows and doors. For the purpose of this ordinance, primary materials shall consist of stone, brick, and cementitious materials. The use of cementitious materials (e.g. stucco, cementitious lap siding, or similar materials) shall be limited to 40% of the building's exterior façade.

(b) *Anti-Monotony.* An anti-monotony standard shall not allow the same structure—in terms of materials and elevation--any closer than four (4) houses apart on either side of the street.

(c) *Common Areas and Open Space.* All common areas, dedicated landscape easements, and open space areas shall be maintained by a Homeowner's Association, which shall be created subject to the requirements of the City's Subdivision Ordinance.

(d) *Garage Orientation.* Garages shall be oriented in a traditional swing (or j-swing). Garages configured in a flat, front entry configuration shall be setback a minimum of 20 feet from the front façade of the primary structure. All garage doors shall be required to have upgraded finishes (*e.g. divided garage bay doors, carriage style hardware and lighting elements, cedar clad garage doors, or a similar alternative -- to be approved by staff*)]. All garage configurations not conforming to this section shall meet the

DRAFT ORDINANCE 05.29.19

requirements of Article VI, Parking and Loading, of the Unified Development Code (UDC).

Area 2: Single-Family 10 (SF-10) District [*4.9995-Acres*]

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, *Area 2* as depicted in *Exhibit 'C'* of this ordinance shall be subject to the land uses permitted for the Single-Family 10 (SF-10) District as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as may be amended in the future however, the following conditions shall apply:

The following land use shall be permitted in *Area 2*:

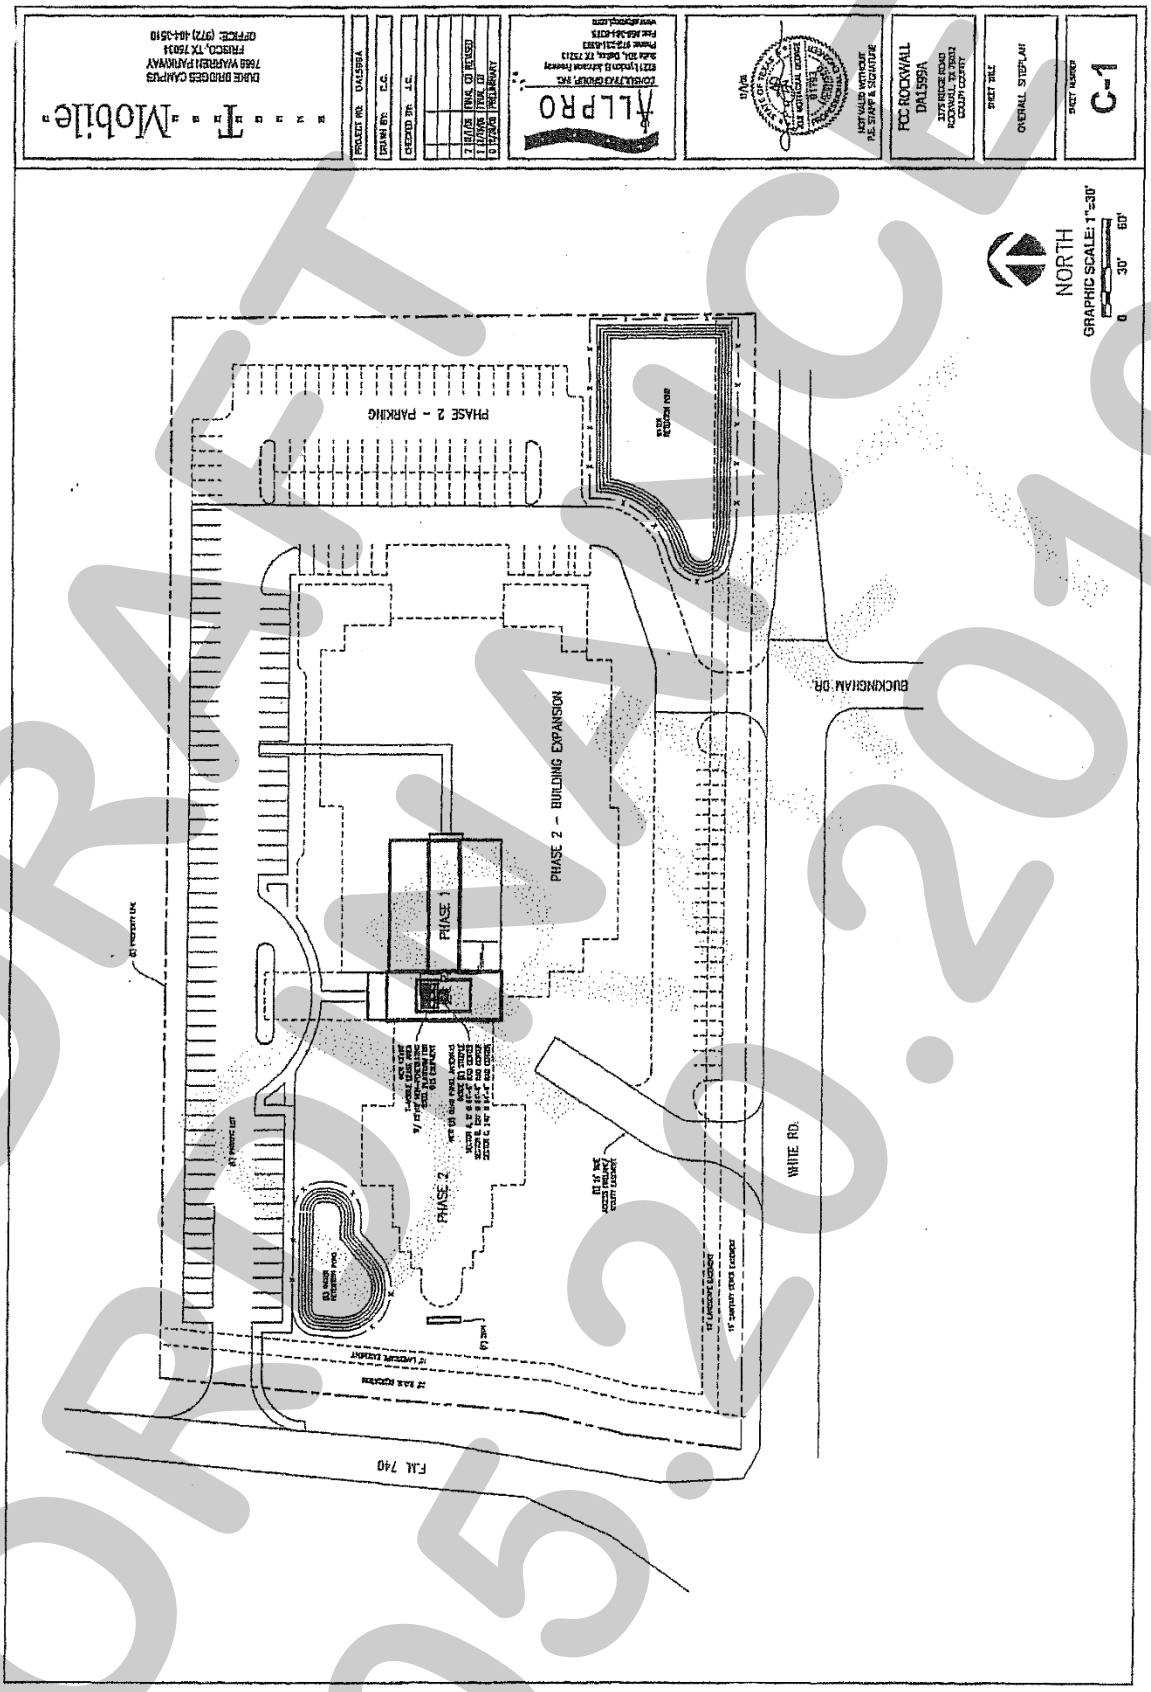
☑ Antenna, Commercial*

NOTES: 1) All equipment shall be contained interior to the building 2) The height of the structure shall remain as depicted in *Exhibit 'E'* of this ordinance.

(2) *Density and Dimensional Requirements.* Any development in Area 2 as depicted in *Exhibit 'C'* of this ordinance shall be subject to the development standards required for properties in a Single-Family 10 (SF-10) District as stipulated by Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as may be amended in the future.

(3) *Building Standards.* Housing type and construction shall adhere to the following building standards:

(a) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 60% primary materials and/or a maximum of 20% secondary materials, excluding windows and doors. For the purpose of this ordinance, primary materials shall consist of stone, brick, and cementitious materials. The use of cementitious materials (e.g. stucco, cementitious lap siding, or similar materials) shall be limited to 40% of the building's exterior façade.



(b) *Anti-Monotony.* An anti-monotony standard shall not allow the same structure--in terms of materials and elevation--any closer than four (4) houses apart on either side of the street.

(c) *Common Areas and Open Space.* All common areas, dedicated landscape easements, and open space areas shall be maintained by a Homeowner's Association, which shall be created subject to the requirements of the City's Subdivision Ordinance.

(4) *Garage Orientation.* Garages shall be oriented in a traditional swing (or j-swing). Garages configured in a front entry configuration shall be setback a minimum of 20 feet from the front façade of the primary structure. All garage doors shall be required to have upgraded finishes (*e.g. divided garage bay doors, carriage style hardware and lighting elements, cedar clad garage doors, or a similar alternative -- to be approved by staff*)]. All garage configurations not conforming to this section shall meet the requirements of Article VI, Parking and Loading, of the Unified Development Code (UDC).

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Honorable Mayor and Council**

FROM: **Jeffrey Widmer, Building Official**

DATE: **May 20, 2019**

SUBJECT: **Special permit request for a front yard fence at 1406-A Ridge Road**

Casey and Andrea Burke have requested to appear before the Council to seek approval of a special permit for a front yard fence for their property located at 1406-A Ridge Road. Any front yard fence in a residentially zoned area requires City Council approval.

Their desire is to build an 8 foot horizontal cedar fence within the front yard of the property.

I am including exhibits provided by the Burke's which contain a letter from the Burke's expressing their desire for the fence, an email between the Burke's and their Architect, a rendering showing what the proposed fence would look like as viewed from Ridge Road, a picture of the type of fence they desire to build and photos of the front of their property. In addition, I am including an aerial picture marked up, to show the proposed location for the fence.

May 14, 2019

Andrea & Casey Burke

PO Box 2514

Rockwall, TX 75087

Re: 1406A Ridge Rd.

Committee Members:

Dean Cathey, our builder, is submitting a request to build for us a contemporary stained cedar fence to abut the existing small brick building in front or our home, behind the 20' build line and turning to extend down the side property lines. If you are unfamiliar with the property, we have recently built the (blue) contemporary home on Ridge Road that faces the Rockwall Commons apartment complex. In order to preserve the existing very large mature trees, the house had to be placed below street level elevation. The driveway was already there when we bought the land and we oriented the house to use it. Having lived on Ridge Road before, we agreed that adapting to the challenges the land presented was worth it.

However, throughout the previous three and a half months since we took occupancy, we have been plagued nightly with red flashing lights from emergency vehicles, headlights from the cars exiting Rockwall Commons, (directly across from our driveway) and approaching northbound vehicles. We have over 250 drivers in the multi-family apartment complex across the street that may decide to leave home after dark and blast us with their head lights. With the traffic on Ridge Road already at a high volume and a second multi-family building opening soon a block away, we are seeking protection from a high volume of non-single-family traffic, nightly emergency vehicles and daily commercial vehicles. The purpose of the fence is to provide protection from intrusion, both visual and physical.

When we moved to Rockwall (1724 Ridge Road) in 2005, the large stone wall fronting Coast Royale was already there, built by its developers. When planning for 1406A Ridge Road, we knew we would need a barrier to protect us from what is not a residential street. We are requesting to use cedar material that will complement the cedar beams used on our home exterior, constructed with a strong horizontal line that will visually tie in with our concrete siding. The cedar material will enable us to install a solid surface gate that will blend in with the fence and provide the needed visual protection from the vehicles on the road and those exiting Rockwall Commons. We will keep the cedar professionally maintained.

Our plan is compliant with building behind the 20' required front yard. The required front yard was previously landscaped with a row of very large old crepe myrtles and other trees on the north side of the driveway and aside from additional pruning, the existing landscape will remain. The ground elevation at the build line is two to three feet lower than the curb, therefore, the fence will feel two to three feet shorter when seen from the street. We are very grateful for your consideration in this matter.

Date Removed

MINUTES

ROCKWALL CITY COUNCIL REGULAR MEETING

Monday, May 20, 2019 - 5:00 PM

City Hall Council Chambers - 385 S. Goliad St., Rockwall, TX 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pruitt called the public meeting to order at 5:00 p.m. Present were Mayor Jim Pruitt, Mayor Pro Tem Kevin Fowler and Council Members Patrick Trowbridge, Dana Macalik, John Hohenshelt, Bennie Daniels and Trace Johannesen. Also present were Assistant City Manager Joey Boyd and the city's legal counsel, Patrick Lindner. City Manager Rick Crowley, Assistant City Manager Mary Smith and City Attorney Frank Garza were absent from the meeting. Mayor Pruitt read the below listed discussion items into the public record before recessing the meeting to go into Executive Session.

II.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding appointment of city council subcommittees, board liaisons and designation of Mayor Pro Tem pursuant to Section, §551.074 (Personnel Matters)
2. Discussion regarding purchase / acquisition of real property in the vicinity of Rockwall Municipal Airport and Downtown pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

III. ADJOURN EXECUTIVE SESSION

The City Council came out of Executive Session at 5:56 p.m.

IV. RECONVENE PUBLIC MEETING (6:00 P.M.)

Mayor Pruitt reconvened the public meeting at 6:00 p.m.

V. SWEARING IN OF NEWLY ELECTED MAYOR AND CITY COUNCIL MEMBERS

Associate Judge of the Rockwall Municipal Court, Matt Scott, came forth and administered Oaths of Office to newly elected Mayor Jim Pruitt and newly elected Council Member for Place 3, Kevin Fowler. Municipal Court Judge David Mallard came forth and administered Oaths of Office to Council Member for Place 1, Bennie Daniels and Council Member for Place 5, Dana Macalik.

VI. Take Any Action as a Result of Executive Session

Mayor Pro Tem Fowler moved to name Dana Macalik as the new Mayor Pro Tem for the next twelve months. Councilmember Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

VII. Invocation and Pledge of Allegiance - Councilmember Johannesen

Councilmember Johannesen delivered the invocation and led the Pledge of Allegiance.

VIII. Proclamations

1. Rockwall ISD Culinary Team Celebration Day

Mayor Pruitt called forth the team and its teacher/advisor, Cody Hayes. He then presented them with this proclamation in recognition of the team recently attaining 1st Place in a national culinary competition that was held in Washington, D.C.

2. Presentation of "Best Practices in Law Enforcement" Award to Rockwall Police Department by Chief Jim Spivey of the Richardson Police Department

Chief Spivey came forth and presented this "Best Practices" award to Rockwall Police Chief Kirk Riggs and the Rockwall Police Department. Indication was given that this is the third time the RPD has attained this high honor.

3. Public Works Week

City Engineer/Director of Public Works, Amy Williams came forth with several of her staff members from the streets, water, and wastewater departments. Mayor Pruitt then read and presented them with this proclamation. He thanked the staff members in these departments for all the hard work they do and the services they provide to citizens.

IX. Open Forum

Mayor Pruitt explained how Open Forum is conducted, asking if anyone would like to come forth and speak at this time.

Jim Turner, 1691 E. Old Quail Run Road, came forth and expressed concern over his recycling not being picked up four times in recent memory. He believes the city's recycling program has regressed. Also, he has concerns about drainage issues that continue to get worse, especially in creeks and areas around his property. He encouraged the city to put a comprehensive drainage plan together to mitigate drainage concerns and prevent future, potential dam failures. He believes the drainage concerns near him currently only impact a small handful of properties; however, he fears the drainage problems will eventually adversely affect the city as a whole.

There being no one else wishing to come forth and speak, Mayor Pruitt closed Open Forum.

X. CONSENT AGENDA

1. Consider approval of the minutes from the May 6, 2019 regular city council meeting, and take any action necessary.
2. Consider authorizing the mayor to execute agreements for Municipal Court Judge and Associate Municipal Court Judge and related services, and taken any action necessary.

Councilman Fowler moved to approve the Consent Agenda (#s 1 and 2). Councilmember Trowbridge seconded the motion, which passed by a vote of 7 ayes to 0 nays.

XI. APPOINTMENT ITEMS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

Chairman of the Planning & Zoning Commission, Johnny Lyons, came forth and briefed the Council on recommendations of the Commission relative to planning-related items on tonight's meeting agenda. Council took no action as a result of this agenda item.

XII. PUBLIC HEARING ITEMS

1. **Z2019-009** - Hold a public hearing to discuss and consider a request by Chris Lam, PE of Lam Consulting Engineering on behalf of Price Pointer of TCB Construction Group, LLC for the approval of an ordinance for a Specific Use Permit (SUP) allowing a restaurant less than 2,000 SF without a drive-through or drive-in on a 0.23-acre parcel of land identified as Block 20B of the Amick Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 50 (PD-50) for Residential Office (RO) District land uses, situated within the North Goliad Corridor Overlay (NGC OV) District, addressed as 505 N. Goliad Street, and take any action necessary **(1st Reading).**

Planning Manager, David Gonzales, provided background information pertaining to this agenda item, indicating that Bonafide Betties Pie Company is currently located at 103 S. San Jacinto Street, but the business is planning to relocate to a larger facility at 505 N. Goliad Street. This location is within Planned Development District 50 (PD-50). The Residential Office (RO) District, which is the underlying zoning designation for Planned Development District 50 (PD-50), requires a Specific Use Permit (SUP) for a restaurant with additional restrictions that stipulate the restaurant be less than 2,000 SF and not have a drive-through or a drive-in. The proposed restaurant is a limited service restaurant, and parking for the facility will be calculated at one (1) parking space per 250 SF of area. This means the restaurant would require eight (8) parking spaces [1916 SF/250 SF = 8 Parking Spaces]. Based on size of the site and the area taken up by the existing single-family home, the applicant is only able to incorporate a total of seven (7) parking spaces on-site. Staff has included an operational condition allowing the reduced number of parking spaces. Staff has also included operational conditions requiring the

installation of a minimum six (6) foot tall, board-on-board, wood fence to be constructed along the western property boundary, floor be used only for storage purposes. These have been included as conditions of approval in the SUP ordinance. Staff mailed out 34 notices to property owners within 500' of the subject property. Staff received a total of four notices back and two emails in favor of the request. Also, the Planning & Zoning Commission has unanimously recommended approval of this request.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed the public hearing.

Councilman Trowbridge moved to approve Z2019-009 with staff recommendations. Mayor Pro Tem Macalik seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-XX
SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 50 (PD-50) [ORDINANCE NO. 17-19] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A *RESTAURANT LESS THAN 2,000 SF WITHOUT A DRIVE-THROUGH OR DRIVE-IN* FACILITY ON A 0.23-ACRE PARCEL OF LAND, ZONED PLANNED DEVELOPMENT DISTRICT 50 (PD-50) FOR RESIDENTIAL OFFICE (RO) DISTRICT LAND USES, AND BEING IDENTIFIED AS BLOCK 20B OF THE AMICK ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 7 ayes to 0 nays.

2. **Z2019-010** - Hold a public hearing to discuss and consider a request by Dwayne Cain of EVSR (D), LLC for the approval of an ordinance for a Specific Use Permit (SUP) allowing a guest quarters/secondary living unit and barn or agricultural accessory building on a 10.61-acre portion of a larger 26.078-acre tract of land identified as Tract 2 & 2-4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, addressed as 777 & 839 Cornelius Road, and take any action necessary **(1st Reading).**

Planning Manager David Gonzales provided background information pertaining to this agenda item. He explained that, currently, there is a single-family home on the subject property and the applicant is requesting approval of a Specific Use Permit (SUP) to allow a guest quarters/secondary living unit and barn or agricultural building in conjunction with this structure. The structure will be ~4,950 SF in total size, with ~576 SF being dedicated to the guest quarters/secondary living unit. The proposed building will be situated behind the main structure, have four (4) roll-up garage doors, and be clad with metal on the exterior. The proposed building will primarily serve as storage for vehicles/equipment and contain a small bathroom with a shower. He went on to share that on May 1, 2019, staff mailed 16

notices to property owners and residents within 500-feet of the subject property. There are no Homeowner's Associations (HOA's)/Neighborhood Associations within 1,500-feet of the subject property participating in the Neighborhood Notification Program. At the time this report was written, staff had received four (4) notices in favor of this request (all from Mr. Cain, as he is the owner of the surrounding properties). On May 1, 2019, staff mailed 16 notices to property owners and residents within 500-feet of the subject property. There are no Homeowner's Associations (HOA's)/Neighborhood Associations within 1,500-feet of the subject property participating in the Neighborhood Notification Program. At the time this report was written, staff had received four (4) notices in favor of this request.

Mr. Dwain Cain - 305 Stonebridge Rockwall, TX – (the applicant) came forth and provided brief comments pertaining to this request, generally asking the Council to act favorably to approve this request.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak. There being no one indicating such, he then closed the public hearing.

Mayor Pro Tem Macalik moved to approve Z2019-010. Councilmember Daniels seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-XX
SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE (UDC) OF THE CITY OF ROCKWALL, ROCKWALL COUNTY TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A *GUEST QUARTERS/SECONDARY LIVING UNIT* AND *BARN OR AGRICULTURAL ACCESSORY BUILDING* IN AN AGRICULTURAL (AG) DISTRICT, SITUATED ON A 10.61-ACRE PORTION OF A LARGER 26.078-ACRE TRACT OF LAND, IDENTIFIED AS TRACT 2 & 2-4 OF THE W. M. DALTON SURVEY, ABSTRACT NO. 72, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 7 ayes to 0 nays.

3. **Z2019-011** - Hold a public hearing to discuss and consider a request by Scott Lewis of RRDC, LTD for the approval of an ordinance amending the development standards contained in Planned Development District 47 (PD-47) [Ordinances 99-17 & 07-04] being a 14.4715-acre tract of land identified as Tract 104 of the E. Teal Survey, Abstract No. 207 and Lot 1, Block A, First Christian Church, Disciples of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 47 (PD-47) for Single-Family 10 (SF-10) District land uses, situated within the Scenic Overlay (SOV) District, generally located at the northeast corner of

the intersection of Ridge Road [FM-740] and White Road, and take any action necessary **(1st Reading).**

Planning Manager David Gonzales provided background information pertaining to this agenda item. The applicant is requesting to amend the development standards contained in Planned Development District 47 (PD-47) [Ordinance No. 99-17]. Specifically, the applicant is requesting three (3) changes to the ordinance. These changes are as follows:

1) The minimum masonry requirement be 60% with all lap-siding being a cementitious fiber material (e.g. HardiBoard or HardiPlank);
2) The maximum lot coverage be 55%, and
3) Front-facing garages be allowed provided they are set back a minimum of 20-feet from the front facade of the structure.

On May 1, 2019, staff mailed 123 notices to property owners and residents within 500-feet of the subject property. Additionally, staff notified Spyglass Phases 2 & 3, the Rainbow Lakes, Chandler's Landing, and Foxchase Homeowner's Associations (HOA's), which are the only HOA's/Neighborhood Associations within 1,500-feet of the subject property and participating in the Neighborhood Notification Program. At the time this report was written, staff had received two (2) notices in favor, one (1) notice in opposition, and one (1) email in favor of the request, with the exception of the front-facing garages. In addition, the Planning & Zoning Commission has recommended approval of this item by a vote of 4 ayes to 1 nay (Womble).

Scott Lewis – 900 Heathland Crossing, Heath, TX – (the applicant) came forth and addressed the Council at this time. He went on to explain additional details and clarify the nature of this request.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time.

Dennis Denney – 162 Meadowlark Circle, Rockwall, TX – came forth and indicated that he represents the First Christian Church (located at 3375 Ridge Road). He went on to provide brief comments pertaining to Ordinance 99-53, expressing that he does not want his church to lose the ability to operate 'as is.' Planning Manager David Gonzales clarified that nothing will be changing in this regard.

Bob Wacker – 309 Featherstone, Rockwall, TX – came forth and provided comments pertaining to this request. He indicated that when he served on the city's Comprehensive Plan Review Committee, he was generally against front-entry garages. He shared that, even with three car garages, people still park in driveways. He wonders if the garages could be pushed back another 5' from the front property line.

Jeff Macalik – 6102 Volunteer Place, Rockwall, TX – came forth and expressed concern about this request. He indicated that he is involved in the HOA of Chandler's Landing, and he does not believe the HOA would be in favor of some aspects of this request (however, the Chandler's HOA was not actually within the notification area associated with this application). He generally spoke in opposition of this request.

There being no one else indicating a desire to come forth and speak at this time, Mayor Pruitt then closed the public hearing.

Councilmember Trowbridge suggested the Council consider limiting the front entry garages. He also believes the requested 'coverage' does in fact relate to density, and he generally has some concern about this.

Indication was given that all of the lots are 80' lots. The applicant came forth again and answered several questions of Council (related to 'coverage,' square footage, lot size, setbacks, front entry garages, front facades, j-swing garages, etc.).

Councilmember Hohenshelt moved to allow 40% front entry and 60% j-swing garages associated with this request. Councilmember Trowbridge seconded the motion, which passed by a vote of 6 ayes with 1 nay (Pruitt).

Councilmember Hohenshelt then moved to have the PD amendment reflect a 55% lot coverage. Councilmember Johannesen seconded the motion, which passed by a vote of 5 ayes with 2 against (Trowbridge and Pruitt).

Councilmember Hohenshelt moved to allow the PD amendment for the hardiboard requirement, as presented (from 80% to 60%). Councilmember Trowbridge seconded the motion, which passed by a vote of 5 ayes with 2 against (Pruitt and Daniels).

The ordinance caption was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 47 (PD-47) [*ORDINANCES 99-17 AND 07-04*] AND THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE DEVELOPMENT STANDARDS APPROVED WITH *ORDINANCE NO. 99-17*, BEING A 14.4712-ACRE TRACT OF LAND IDENTIFIED TRACT 104 OF THE E. TEAL SURVEY, ABSTRACT NO. 207 AND LOT 1, BLOCK A, FIRST CHRISTIAN CHURCH DISCIPLES OF CHRIST ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, ZONED PLANNED DEVELOPMENT DISTRICT 47 (PD-47) AND MORE FULLY DEPICTED HEREIN BY *EXHIBIT 'A'* AND DESCRIBED HEREIN BY *EXHIBIT 'B'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

XIII. ACTION ITEMS

1. Discuss and consider a request from Casey and Andrea Burke for a special permit on a front yard fence to be located at 1406-A Ridge Road, and take any action necessary.

Building Official Jeffrey Widmer came froth and briefed the Council on this front yard fence request. He shared that no notices are required to be sent to adjacent property owners; however, the Burke's have

gone to their neighbors and have received indication that they do not object to this request for a front yard fence.

Dean Cathey - 3066 Rochelle Road – and Mr. and Mrs. Burke – 1406-A Ridge Road – came forth to speak to the Council. Mr. Burke indicated they have lived on Ridge Road for fifteen years. They recently built a new home, and the apartment complex across the street is causing car headlights to shine into their living room. For this reason, they are requesting approval of a front yard fence. They went on to further explain their request and show photos of the lot, the home, a shed on the property and the type of fence they are requesting to construct. The fence would be 8' tall; however, due to elevation abutting the street, it will actually appear to be 5' tall.

Mr. Widmer clarified that the city's current standards for front yard fences are 48" wrought iron on 42" wood fence heights.

Councilmember Fowler expressed concern that the proposed wood fence may make the home look like a 'compound.' Also, he fears that eventually every residential home along this stretch of Ridge Road may end up wanting to install a masonry or wooden front yard fence, and that may result in inhibiting lake views along that stretch of roadway.

Following the dialogue between Council and the Burke's, Mayor Pruitt waited to see if any member of Council wanted to make a motion pertaining to this request. No one offered a motion.

Mayor Pruitt then called for a break and recessed the public meeting at 7:36 p.m. He then reconvened the meeting at 7:43 p.m.

Mayor Pruitt asked if anyone would like to make a motion concerning this agenda item. Since there was no motion made, the item "died" for lack of a motion.

2. Discuss and consider bike lanes on John King Boulevard, and take any action necessary.

Indication was given that Councilman Trowbridge requested this item for tonight's agenda. He pointed out that John King is currently a city-owned street, and he wonders if John King has bike lanes currently, and if it will have bike lanes in the future once TxDOT takes it over.

In the interim, when TxDOT takes it over, there will only be two lanes at 12' each. The ultimate build out of this road way will have three lanes in both directions, and they will have a shared bike lane. The outside lanes that will be closest to the sidewalk will be 14' wide instead of 11' or 12'. Current TxDOT standards call for either a dedicated or a shared bike lane.

No action was taken concerning this agenda item and associated, brief discussion.

XIV. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding appointment of city council subcommittees, board liaisons and designation of Mayor Pro Tem pursuant to Section, §551.074 (Personnel Matters)

2. Discussion regarding purchase / acquisition of real property in the vicinity of Rockwall Municipal Airport and Downtown pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

XV. Reconvene Public Meeting & Take Any Action as Result of Executive Session

Council did not reconvene in Executive Session following the close of the public meeting agenda.

XVI. Adjournment

The meeting was adjourned at 7:47 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 3rd DAY OF JUNE, 2019.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, P.E. Director of Public Works/City Engineer**

DATE: **May 29, 2019**

SUBJECT: **Squabble Creek Watershed Hydrologic & Hydraulic Update – Phase 1**

The City of Rockwall's storm drainage systems and floodplains encompass approximately twenty (20) separate watersheds located totally or partially within the corporate limits and ETJ of the City. When a private development or capital improvement project occurs that potentially impacts floodplain areas or other properties, the development standards require an engineer to perform a flood study to determine the potential impacts and provide a solution to minimize these impacts. Potential impacts include increases in flood elevations, increases in inundation of land, or increases in erosive flood flow velocities.

As part of the City's Strategic Plan, the Public Works Department is assessing the drainage and floodways to provide better information to the development community within the City Limits and ETJ. To assist in providing better information for the development community, City Staff has identified the Squabble Creek Watershed (approximately 7.06 square miles) as a priority area to begin updating the drainage masterplan. This watershed contains many of the City's flooding concerns. The latest drainage (hydrologic and hydraulic) models for Squabble Creek Watershed were developed in September 2005. The hydrologic model studies the amount and flow of drainage with regard to different soil types, precipitation, land use, and types of flow. A hydraulic model uses the data from the hydrologic model to determine the water surface elevation, velocities, and collection of drainage in conveyance systems throughout the City. The drainage models for the master plan were developed using software that is now outdated. As part of this update, the drainage models will be converted using the most recent software available from the United States Army Corps of Engineers (USACE). In addition to the model conversion, several private development improvements will be included in the drainage model update. There are approximately twenty (20) significant detention structures within the watershed that were constructed as part of various developments since the latest master drainage model. These drainage structures will be incorporated into the updated model. Phase 1 of the Squabble Creek Watershed Hydrologic & Hydraulic Update will include the entire hydrologic (amount of water) update to the model and approximately half of the streams within the Squabble Creek Basin will be hydraulically (the effects of the amount of water in the system) updated.

Staff has requested a proposal to preform Phase 1 of the Squabble Creek Watershed Hydrologic & Hydraulic Update from the City's hydrology and hydraulic engineering consultant, Cardinal Strategies Engineering Services, LLC. The engineering fee for Phase 1 is $105,000.00, which will be funded by the Engineering Consulting budget.

Staff is requesting City Council consider approving a contract for professional engineering services with Cardinal Strategies Engineering Services, LLC to perform the Squabble Creek Watershed Hydrologic & Hydraulic Update Phase 1 in an amount not to exceed $105,000.00, to be paid for out of the Engineering Consulting budget, and take any action necessary.

Re: Miscellaneous Consulting on Stormwater Issues – Task Order #0003
Rockwall, Texas

Dear Mr. White:

This letter and the attached documents outline Task Order #0003 of the Miscellaneous Consulting on Stormwater Issues contract as requested by the City of Rockwall.

Scope of Work: Phase 1 of the Squabble Creek hydrology and hydraulic model updates that includes conversion of TR20 hydrology models to HEC-HMS for the entire watershed and conversion of hydraulic models for Squabble Creek Main Stem, Phelps Branch, and Boles Branch (and its tributaries). Refer to Attachment "A" for full detail of scope of work.

Fee: Lump Sum of $105,000

Term of Agreement: All tasks described in Attachment "A" shall be completed by September 30, 2019.

EXECUTED in triplicate originals on this 28 day of MAY 2019.

EXHIBIT A
SCOPE OF SERVICES

TO BE PROVIDED BY CARDINAL STRATEGIES ENGINEERING SERVICES, LLC, TO THE CITY OF ROCKWALL FOR THE MISCELLANEOUS CONSULTING ON STORMWATER ISSUES SQUABBLE CREEK WATERSHED H&H UPDATE - PHASE I

Project Description:

The CITY has identified the Squabble Creek Watershed as the most in need of a masterplan update as it has many of the CITY's flooding concerns and is nearing 15 years old since the last H&H update. A drainage master plan for Squabble Creek was developed in September 2005 that established the local regulatory hydrologic and hydraulic models for Squabble Creek and most of its major tributaries. The hydrologic and hydraulic models for the master plan were developed using software that is now considered to be outdated. Current hydrologic models are in the TR-20 hydrologic model software and the current hydraulic models are in HEC-2 format. The CITY has requested that Cardinal Strategies Engineering Services, LLC ("CARDINAL") convert both the hydrologic and hydraulic models to the most recent software available from the United States Army Corps of Engineers (USACE). TR-20 hydrologic models will be converted to HEC-HMS versions 4.3 and the HEC-2 hydraulic models will be converted to HEC-RAS versions 5.0.5. In addition to the model conversion, the CITY has requested that several improvements be included in the hydrologic and hydraulic models that were constructed after the development of the master plan models. There are approximately twenty (20) new, significant detention structures within the watershed that were constructed as part of various developments since the original master plan model that will be incorporated into the hydrologic model. In addition, there are three (3) Soil Conservation Service reservoirs within the watershed. The update will establish rainfall and peak discharges for the existing and fully developed conditions 5-, 10-, 25-, and 100-year storm events.

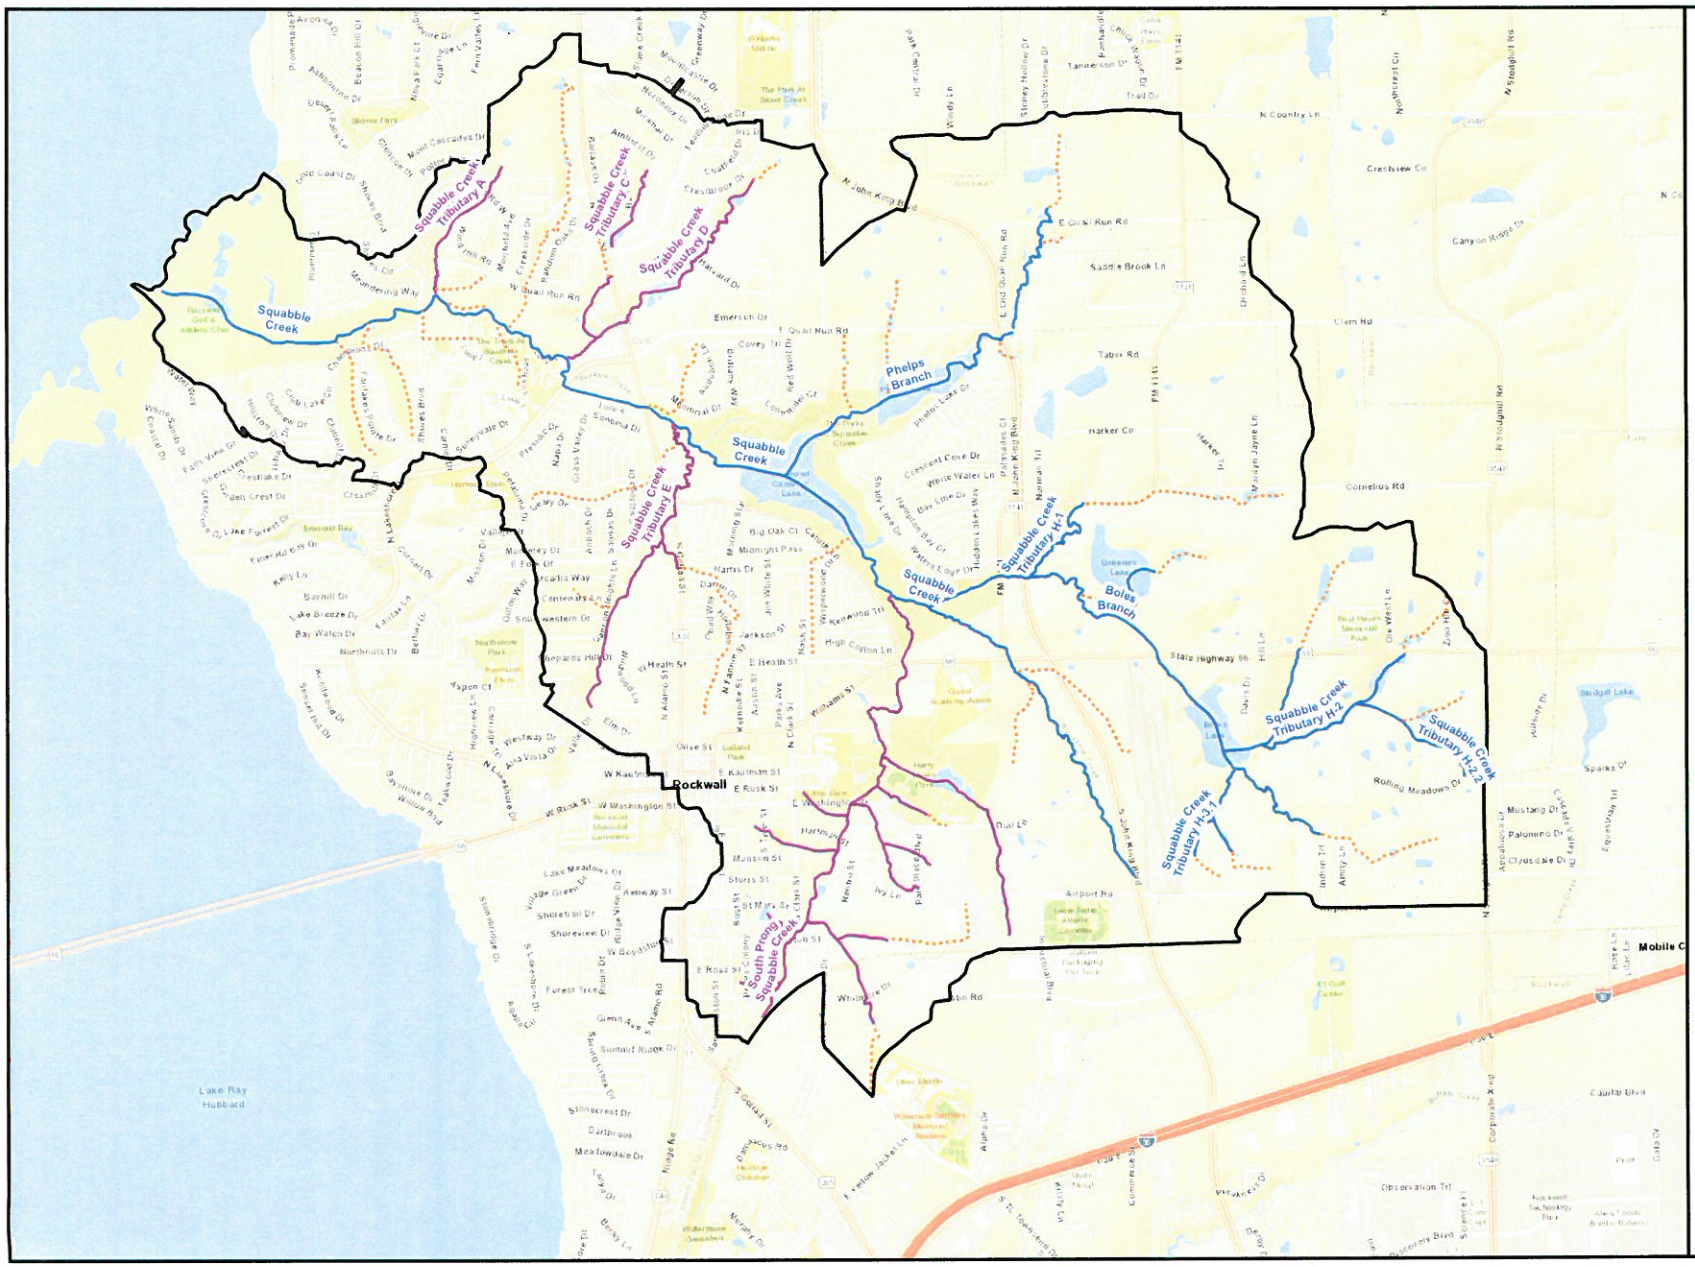
John King Boulevard was constructed in 2009 and included one culvert crossing over Boles Branch and one bridge crossing over Phelps Branch. The hydrologic portion of the Phase 1 study includes the entire Squabble Creek watershed (approximately 7.061 square miles) and the hydraulic limits of the study include Squabble Creek Main Stem, Phelps Branch, and Boles Branch with its tributaries. A future phase of the update will be required to update South Prong of Squabble Creek, Tributary A, Tributary C, Tributary D, Tributary E, and Tributary E-2. The update to the hydrologic and hydraulic models will conform to the CITY's current Flood Hazard Damage and Prevention Ordinance and with the CITY's Standards of Design and Construction.

Additional phases will be required to establish new 100-year floodplain boundaries for the studied portions of Squabble and to formally document the analysis and results in a final report.

A. BASIC SERVICES

1. **Project Kickoff Meeting**: Attend one project kickoff meeting at the CITY to go over the project scope, schedule, and collect additional information about the site.
2. **Data Collection**: Collect data through coordination with the CITY on the following:
    a. Master Drainage Plan hydrologic and hydraulic models and supporting documentation
    b. City of Rockwall Geographic Information Systems (GIS) data for hydrology and hydraulics analysis including:
        i. Record drawings for detention features throughout the CITY that will be incorporated into hydrologic model.
        ii. Record drawings for three (3) SCS reservoirs within the watershed.
    c. Site Visit
3. **Survey**: Collect topographic survey of two crossings on John King Boulevard (one on Phelps Branch and one on Boles Branch).
4. **Hydrology**:

a. Develop HEC-HMS model version 4.3 using data included in the existing TR20 models, as applicable
b. Update subbasin delineations based on new developments
c. Update existing and future land use
d. Incorporate new detention structures into the model from the following developments based on record drawings provided by CITY:
    i. North Lakeshore Valley, Lake View Summit Phase IV, Stone Creek (3 ponds), Kroger, Quail Run Valley (2 ponds), Gideon Grove, The Preserve Phase 1 (2 ponds), Ladera (3 ponds), The Highlands, Park Place Phase II and III, SPR, Whitmore, Ridgecrest
e. Update routing reaches to appropriate methodology in HEC-HMS. Modified Puls routing will be defined using storage-discharge relationships from the CITY effective HEC-2 model. This will establish preliminary updated peak discharges but the reaches will be finalized in Phase II with the new hydraulic model.
f. Update rainfall values to match the current criteria and include additional frequencies as needed to cover the 2-, 5-, 10-, 25-, 50-, 100-, and 500-YR storm events



5. **Hydraulics**: *Squabble Creek Main Stem, Phelps Branch, and Boles Branch (and its tributaries)*
    a. Cut new XS (same locations as Master Drainage Study) against latest CITY LiDAR topography.
    b. Copy over structure data from Master Drainage Study
    c. Evaluate Manning's values using recent aerial imagery and update as necessary
    d. Update applicable routing reaches with Modified Puls based on updated hydraulic models.

Deliverables – Digital copy of the HEC-HMS and HEC-RAS models and associated geographic information systems (GIS) shapefiles.

B. SPECIAL SERVICES

C. ADDITIONAL SERVICES

1. Meetings in excess of those described in Basic Services
2. Additional modeling outside of the study limits described in the Project Description
3. Additional inclusion of developments and detention structures in excess of those described in Basic Services
4. FEMA Submittals
5. Public Involvement
6. Environmental Permitting or Investigations
7. Geotechnical Engineering or Investigations
8. Groundwater Services or Investigations
9. Hydraulic modeling of any tributaries not listed in the Project Description above
10. Extension of hydraulic models beyond the extents of the Master Drainage Study or the limits shown in Figure 1.

CITY OF ROCKWALL

ORDINANCE NO. 19-22

SPECIFIC USE PERMIT NO. S-208

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 50 (PD-50) [ORDINANCE NO. 17-19] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A *RESTAURANT LESS THAN 2,000 SF WITHOUT A DRIVE-THROUGH OR DRIVE-IN* FACILITY ON A 0.23-ACRE PARCEL OF LAND, ZONED PLANNED DEVELOPMENT DISTRICT 50 (PD-50) FOR RESIDENTIAL OFFICE (RO) DISTRICT LAND USES, AND BEING IDENTIFIED AS BLOCK 20B OF THE AMICK ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Chris Lam, P.E. of Lam Consulting for the approval of a Specific Use Permit (SUP) for a *Restaurant Less Than 2,000 SF without a Drive-Through or Drive-In* on a 0.23-acre parcel of land, zoned Planned Development District 50 (PD-50) for Residential Office (RO) District land uses, situated within the North Goliad Corridor Overlay (NGC OV) District, and being identified as Block 20B of the Amick Addition, City of Rockwall, Rockwall County, Texas, addressed as 505 N. Goliad Street, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Planned Development District 50 (PD-50) [*Ordinance No. 17-19*] and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That Planned Development District 50 (PD-50) [*Ordinance No. 17-19*] and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for the establishment of a *Restaurant Less than 2,000 SF without a Drive-Through or Drive-In* as stipulated by Article *IV, Permissible Uses,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be used and developed only in the manner and for

the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in *Planned Development District 50* (*PD-50*), and *Section 1.1, Land Use Schedule,* of *Article IV, Permissible Uses,* and *Subsection 4.02, Residential Office (RO) District, of Section 4, Commercial (C) Districts,* of *Article V, District Development Standards,* and *Subsection 6.04, North Goliad Corridor Overlay (NGC OV) District,* of *Section 6, Overlay Districts,* of *Article V,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be amended in the future, and shall be subject to the following additional conditions:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *Restaurant Less Than 2,000 SF without a Drive-Through or Drive-in* (*restaurant*) land use on the *Subject Property* and conformance to these requirements is necessary for continued operations:

1) The development and operation of a *restaurant* land use shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance;

2) The operation of the *restaurant* land use shall be limited to the area on the first floor as depicted in the *Floor Plan* attached in *Exhibit 'C'* of this ordinance;

3) The use of the second-floor area shall be limited to storage only. Any other use will require additional parking spaces.

4) A minimum of six (6)-foot tall board on board wood fence shall be constructed along the west property boundary -- *adjacent to the residentially zoned property* -- prior to the issuance of a Certificate of Occupancy (CO).

5) Should the land use change from a *Limited Service Restaurant* (*i.e. to a full-service restaurant or any other land use*), the subject property shall comply with the parking requirements contained in Article VI, *Parking and Loading*, of the Unified Development Code. If the parking provided on the subject property does not meet the parking requirements for the proposed land use, this Specific Use Permit will need to be amended in accordance with the procedures contained in Section 4, *Specific Use Permits*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outlined in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this

ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3rd DAY OF June 2019.

CITY OF ROCKWALL

ORDINANCE NO. 19-21

SPECIFIC USE PERMIT NO. S-209

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE (UDC) OF THE CITY OF ROCKWALL, ROCKWALL COUNTY TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A *GUEST QUARTERS/SECONDARY LIVING UNIT* AND *BARN OR AGRICULTURAL ACCESSORY BUILDING* IN AN AGRICULTURAL (AG) DISTRICT, SITUATED ON A 10.61-ACRE PORTION OF A LARGER 26.078-ACRE TRACT OF LAND, IDENTIFIED AS TRACT 2 & 2-4 OF THE W. M. DALTON SURVEY, ABSTRACT NO. 72, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Dwayne Cain of ECSR (D), LLC for the approval of a Specific Use Permit (SUP) to allow a *guest quarters/secondary living unit* and *barn or agricultural accessory building* in an Agricultural (AG) District on a 10.61-acre portion of a larger 26.078-acre parcel of land described as Tract 2 & 2-4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, addressed as 777 & 839 Cornelius Road, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED** by the City Council of the City of Rockwall, Texas;

SECTION 1. That the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *guest quarters/secondary living unit* and *barn or agricultural accessory building,* as stipulated by Section 1, *Land Use Schedule,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*], on the *Subject Property*; and,

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the requirements set forth in Subsection 2.01*, Agricultural (AG) District,* of Section 2*, Agricultural Districts,* of Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended and as may be amended in the future, and shall be subject to the following:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *guest quarters/secondary living unit* and *barn or agricultural accessory building* on the *Subject Property* and conformance to these conditions is required for continued operations:

1) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall generally conform to the concept plan and building elevations depicted in *Exhibits 'B'* of this ordinance;

2) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall not be utilized for a non-residential and/or non-agricultural land use;

3) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall be ancillary to the existing single-family home;

4) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall not be altered so that the structure is less than 2,000 SF or greater than 4,050 SF;

5) The subject property shall not be subdivided in such a way that the property does not meet the minimum requirement of ten (10) acres in size for a *barn or agricultural accessory building*;

6) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall be located behind the front façade of the primary structure and be subject to the same building setbacks as the primary structure; and,

7) The *guest quarters/secondary living unit* and *barn or agricultural accessory building* shall not be sold or conveyed separately without meeting the requirements of the Unified Development Code (UDC).

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Building Permit, should the subject property--which is subject to the guidelines of this ordinance--fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: **Richard Crowley, City Manager**

FROM: **Lea Ann Ewing, Purchasing Agent**

DATE: **May 21, 2019**

SUBJECT: **Cooperative Purchasing Agreement with the City of Mesquite**

An Interlocal Purchasing Agreement for participation in a cooperative purchasing program with the City of Mesquite is attached for City Council consideration.

The interlocal agreement provides for cooperative purchasing between the Cities of Rockwall and Mesquite for goods, materials and services. By participating in this cooperative program, cities realize additional savings through economies of scale when utilizing the coop contracts. Another benefit is by piggybacking other cities' contracts we would meet all the formal bidding requirements pertaining to contract purchases and eliminate the cost of the competitive bidding process for the contracted materials and services. The interlocal agreement would remain in effect until terminated by either the City of Rockwall or Mesquite.

Mesquite has competitively bid and awarded a contract for irrigation install and repair services to Phillips Lawn Sprinkler Co. We would like to piggyback this contract for the irrigation renovations at Northshore Park for $25,000. This project is funded in the Recreation Development fund and includes drainage work as well for a total project estimated cost of $52,000.

Staff asks City Council to consider (1) joining this purchasing cooperative by authorizing the City Manager to execute the cooperative agreement, (2) award a bid to Phillips Lawn Sprinkler Co. for irrigation services for $25,000, and authorize the City Manager to execute a contract for this service.

INTERLOCAL AGREEMENT

This Interlocal Agreement ("Agreement") is made and entered into this ____ day of _____, 2019, by and between the CITY OF ROCKWALL (hereinafter called "ROCKWALL") and the CITY OF MESQUITE, Texas (hereinafter called "MESQUITE"), each acting by and through its duly authorized officials:

WHEREAS, ROCKWALL and MESQUITE are both governmental entities engaged in the purchase of goods and services, which is a recognized governmental function;

WHEREAS, ROCKWALL and MESQUITE wish to enter into this Agreement pursuant to Chapter 791 of the Texas Government Code (hereinafter "Interlocal Cooperation Act") to set forth the terms and conditions upon which ROCKWALL and MESQUITE may purchase various goods and services commonly utilized by each party;

WHEREAS, participation in an interlocal agreement will be highly beneficial to the taxpayers of ROCKWALL and MESQUITE through the anticipated savings to be realized and is of mutual concern to the contracting parties; and

WHEREAS, ROCKWALL and MESQUITE have current funds available to satisfy any fees owed pursuant to this Agreement.

NOW, THEREFORE, in consideration of the foregoing and the mutual promises, covenants and obligations as set forth herein, ROCKWALL and MESQUITE agree as follows:

1. ROCKWALL and MESQUITE may cooperate in the purchase of various goods and services commonly utilized by the participants, where available and applicable, and may purchase goods and services from vendors under present and future contracts.

2. ROCKWALL and MESQUITE shall each be individually responsible for payments directly to the vendor and for the vendor's compliance with all conditions of delivery and quality of purchased items under such contracts. ROCKWALL and MESQUITE shall each make their respective payments from current revenues available to the paying party.

3. Notwithstanding anything herein to the contrary, participation in this Agreement may be terminated by any party upon thirty (30) days written notice to the other participating party.

4. The undersigned officers and/or agents of the parties hereto are duly authorized officials and possess the requisite authority to execute this Agreement on behalf of the parties.

5. This Agreement may be executed separately by the participating entities, each of which shall be deemed an original and all of which together shall constitute one and the same instrument.

6. This Agreement shall become effective on the day and year first written above (the "Effective Date"). The primary term of this Agreement shall be for one (1) year, commencing on the Effective Date and terminating on October 1, 2020, and shall thereafter automatically renew for successive one-year terms, unless terminated according to the terms set forth in Paragraph 3.

7. The laws of the State of Texas shall govern the interpretation, validity, performance and enforcement of this Agreement.

8. The provisions of this Agreement are severable. If any paragraph, section, subdivision, sentence, clause, or phrase of this Agreement is for any reason held by a court of competent jurisdiction to be contrary to law or contrary to any rule or regulation having the force and effect of the law, the remaining portions of the Agreement shall be enforced as if the invalid provision had never been included.

9. This Agreement embodies the entire agreement between the parties and may only be modified in writing executed by both parties.

10. This Agreement shall be binding upon the parties hereto, their successors, heirs, personal representatives and assigns. Neither party will assign or transfer an interest in this Agreement without the written consent of the other party.

11. It is expressly understood and agreed that, in the execution of this Agreement, neither party waives, nor shall be deemed hereby to have waived any immunity or defense that would otherwise be available to it against claims arising in the exercise of governmental powers and functions. By entering into this Agreement, the parties do not create any obligations, express or implied other that those set forth herein, and this Agreement shall not create any rights in parties not signatories hereto.

12. The declarations, determinations and findings declared, made and found in the preamble to this Agreement are hereby adopted, restated and made part of the operative provisions hereof.

EXECUTED hereto on the day and year first above written.

CITY OF ROCKWALL

CITY COUNCIL MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
CC:	Rick Crowley, *City Manager* Mary Smith, *Assistant City Manager* Joey Boyd, *Assistant City Manager*
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	June 3, 2019
SUBJECT:	Abandonment of Aluminum Plant Road

The applicant, Phil Wagner of the Rockwall Economic Development Corporation (REDC), is requesting that the City Council abandon a 0.40-acre tract of right-of-way currently identified as Aluminum Plant Road. The applicant is requesting this abandonment for the purpose of conveying the property as part of an incentive package to Alvaplast US Development, LLC [*SPR Packaging*] for the construction of a new warehouse/manufacturing facility. The right-of-way in question currently dead ends into the property where the new warehouse/manufacturing facility is scheduled to be constructed, and only has the possibility of serving two (2) properties (*i.e. the property owned by the Rockwall Community Playhouse and the property owned by Alvaplast US Development, LLC*). Staff has received a letter from the Rockwall Community Playhouse indicating that they have no interest in the roadway and do not object to the requested abandonment (*see attached packet*). The City Attorney has stated that the City Council could abandon the right-of-way without charging the applicant the fair market value of the land for the stated purpose (*i.e. abandoning the dedicated land to the applicant without compensation*). In accordance with this request, staff has prepared a resolution in the attached packet should the City Council choose to approve the right-of-way abandonment. Staff has also included a copy of the applicant's letter and a location map of the property. Should the City Council have any questions concerning this request staff and the applicant will be available at the meeting on *June 3, 2019*.

Attn: Ryan Miller, Director of Planning

Dear Mr. Miller,

We have been asked by Alvaplast US Development, LLC, to provide you with this letter regarding Aluminum Plant Road, the small street located near the intersection of Industrial Road and Airport Road.

This letter will serve as our notice to the City of Rockwall that we, as owner of the land to the north of Aluminum Plant Road, do not object to the abandonment of the road by the City of Rockwall. It is our understanding that Alvaplast US Development, LLC, will take over ownership of this road once the abandonment is completed.

Sincerely,

The Board of Directors
Rockwall Community Playhouse

49

CITY OF ROCKWALL

RESOLUTION NO. 19-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ABANDONING AND CONVEYING A 0.40-ACRE TRACT OF RIGHT-OF-WAY BEING ALL OF ALUMINIMUM PLANT ROAD TO THE ROCKWALL ECONOMIC DEVELOPMENT CORPORATION; IDENTIFYING A MUNICIPAL PURPOSE AND AN EFFECTIVE DATE.

WHEREAS, Phil Wagner of the Rockwall Economic Development Corporation (REDC) has requested that the City Council of the City of Rockwall abandon and convey a 0.40-acre tract of right-of-way being identified as Aluminum Plant Road (*i.e. the "Property"*) -- *more particularly described by metes and bounds in Exhibit 'A' of this resolution* -- to the REDC for the purpose of economic development; and,

WHEREAS, The *Property* abuts property owned by Alvaplast US Development, LLC [*SPR Packaging*] that is described as Tract 7 of the N. Butler Survey, Abstract No. 20 [*11.3736-acres*], and property owned by the Rockwall Community Playhouse that is described as Tract 68 of the R. Ballard Survey, Abstract No. 29 [*7.497-acres*]; and,

WHEREAS, *Section 272.001(b)* of the *Texas Local Government Code* provides that land, including streets or alleys, owned in fee or used by easement by a political subdivision of the state, may be conveyed, sold or exchanged for less than fair market value with one or more of the abutting property owners who own the underlying fee; and,

WHEREAS, The Rockwall Community Playhouse has provided the City of Rockwall with a letter vacating their interest in the *Property*, and the REDC has stated that the intention of the abandonment is to convey the *Property* to Alvaplast US Development, LLC [*SPR Packaging*]; and,

WHEREAS, the City Council finds that it is in the best interest of the City to convey the *Property* to the REDC; and

WHEREAS, the City of Rockwall wishes to abandon the *Property* subject to the terms and conditions set forth below.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. PROPERTY. The *Property* being a right-of-way of the City of Rockwall is more or less described as:

A tract of land situated in the R. BALLARD SURVEY, ABSTRACT NO. 21, City of Rockwall, Rockwall County, Texas, and being a part of the right-of-way for Aluminum Plat Road per Deed to the City of Rockwall, Texas, as recorded in Volume 67, Page 116 of the Deed Records of Rockwall County, Texas, and which is more particularly described by metes and bounds in Exhibit 'A' (Property), save and except any utility easements used for municipal purposes.

SECTION 2. QUITCLAIM. *Section 272.001(b)* of the Texas Local Government Code allows the city to convey city-owned property at less than fair market value to the REDC. The

DRAFT RESOLUTION 06.03.19

Mayor of the City or the City Manager as the case may be are authorized to quitclaim the *Property* described in *Section 1* hereof to the REDC.

SECTION 3. LIMITATIONS. The abandonment of the *Property* shall extend only to the public right, title and easement in and to the tracts of land described in *Exhibit 'A'* of this resolution, and shall be construed only to that interest the governing body of the City may legally and lawfully abandon.

SECTION 4. MUNICIPAL PURPOSE. The *Property* described in *Section 1*, save and except the municipal utility easements located thereon, is no longer needed for municipal purposes and it is in the public interest of the City, to abandon said described right-of-way to the REDC.

SECTION 5. EXCEPTIONS. In addition to the express reservations provided for in *Section 1* hereof, the conveyance is made subject to any and all valid, conditions, easements, restrictions and the like, whether or record or not in the real property records of Rockwall County Texas.

SECTION 6. INCORPORATION OF RECITALS. The City Council finds the recitals contained in the preamble to this *Resolution* are true and correct and incorporates them as findings of fact.

SECTION 7. EFFECTIVE DATE. This *Resolution* shall be effective immediately following its passage and approval by the City Council.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ON THIS THE 28TH DAY OF MAY, 2019.

CITY OF ROCKWALL

RESOLUTION NO. 19-14

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ABANDONING AND CONVEYING A 0.40-ACRE TRACT OF RIGHT-OF-WAY BEING ALL OF ALUMINIMUM PLANT ROAD TO THE ROCKWALL ECONOMIC DEVELOPMENT CORPORATION; IDENTIFYING A MUNICIPAL PURPOSE AND AN EFFECTIVE DATE.

WHEREAS, Phil Wagner of the Rockwall Economic Development Corporation (REDC) has requested that the City Council of the City of Rockwall abandon and convey a 0.40-acre tract of right-of-way being identified as Aluminum Plant Road (*i.e. the "Property"*) -- *more particularly described by metes and bounds in Exhibit 'A' of this resolution* -- to the REDC for the purpose of economic development; and,

WHEREAS, The *Property* abuts property owned by Alvaplast US Development, LLC [*SPR Packaging*] that is described as Tract 7 of the N. Butler Survey, Abstract No. 20 [*11.3736-acres*], and property owned by the Rockwall Community Playhouse that is described as Tract 68 of the R. Ballard Survey, Abstract No. 29 [*7.497-acres*]; and,

WHEREAS, *Section 272.001(b)* of the *Texas Local Government Code* provides that land, including streets or alleys, owned in fee or used by easement by a political subdivision of the state, may be conveyed, sold or exchanged for less than fair market value with one or more of the abutting property owners who own the underlying fee; and,

WHEREAS, The Rockwall Community Playhouse has provided the City of Rockwall with a letter vacating their interest in the *Property*, and the REDC has stated that the intention of the abandonment is to convey the *Property* to Alvaplast US Development, LLC [*SPR Packaging*]; and,

WHEREAS, the City Council finds that it is in the best interest of the City to convey the *Property* to the REDC; and

WHEREAS, the City of Rockwall wishes to abandon the *Property* subject to the terms and conditions set forth below.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. PROPERTY. The *Property* being a right-of-way of the City of Rockwall is more or less described as:

> *A tract of land situated in the R. BALLARD SURVEY, ABSTRACT NO. 21, City of Rockwall, Rockwall County, Texas, and being a part of the right-of-way for Aluminum Plat Road per Deed to the City of Rockwall, Texas, as recorded in Volume 67, Page 116 of the Deed Records of Rockwall County, Texas, and which is more particularly described by metes and bounds in Exhibit 'A' (Property), save and except any utility easements used for municipal purposes.*

SECTION 2. QUITCLAIM. *Section 272.001(b)* of the Texas Local Government Code allows the city to convey city-owned property at less than fair market value to the REDC. The

Mayor of the City or the City Manager as the case may be are authorized to quitclaim the *Property* described in *Section 1* hereof to the REDC.

SECTION 3. LIMITATIONS. The abandonment of the *Property* shall extend only to the public right, title and easement in and to the tracts of land described in *Exhibit 'A'* of this resolution, and shall be construed only to that interest the governing body of the City may legally and lawfully abandon.

SECTION 4. MUNICIPAL PURPOSE. The *Property* described in *Section 1*, save and except the municipal utility easements located thereon, is no longer needed for municipal purposes and it is in the public interest of the City, to abandon said described right-of-way to the REDC.

SECTION 5. EXCEPTIONS. In addition to the express reservations provided for in *Section 1* hereof, the conveyance is made subject to any and all valid, conditions, easements, restrictions and the like, whether or record or not in the real property records of Rockwall County Texas.

SECTION 6. INCORPORATION OF RECITALS. The City Council finds the recitals contained in the preamble to this *Resolution* are true and correct and incorporates them as findings of fact.

SECTION 7. EFFECTIVE DATE. This *Resolution* shall be effective immediately following its passage and approval by the City Council.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ON THIS THE 3rd DAY OF June, 2019.

CITY OF ROCKWALL

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	June 3, 2019
APPLICANT:	Robert Howman; *Glen Engineering*
CASE NUMBER:	P2019-020; *Lot 2, Block A, RISD Elementary School Addition*

SUMMARY

Consider a request by Robert Howman of Glenn Engineering on behalf of William Salee of the Rockwall Independent School District (RISD) for the approval of replat for Lot 2, Block A, RISD Elementary School Addition being a 17.2922-acre tract of land being identified as Lot 1, Block A, RISD Elementary School Addition and Tract 2-7 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall, Texas, zoned Planned Development District 70 (PD-70) for single family land uses, located at the southeast corner of Greenway Boulevard and FM-552, and take any action necessary.

PLAT INFORMATION

☑ The objective of this request is to final plat a 17.2922-acre tract of land [*i.e. Lot 1, Block A, RISD Elementary School Addition & Tract 2-7 of the W. T. Deweese Survey*], creating one (1) tract of land [*i.e. Lot 2, Block A, RISD Elementary School Addition*] for the purpose of constructing a single-story, 91,983 SF public school facility [*i.e. RISD Elementary School No. 15*], and adding the necessary fire lane and utility easements for this development. The property is zoned Planned Development District 70 (PD-70) for single-family land uses and is addressed as 2911 Greenway Drive.

☑ On October 19, 2009, the City Council approved Planned Development District 70 (PD-70) [*i.e. Ordinance No. 09-44*] allowing for Single Family 10 (SF-10) and limited General Retail (GR) District land uses on the subject property.

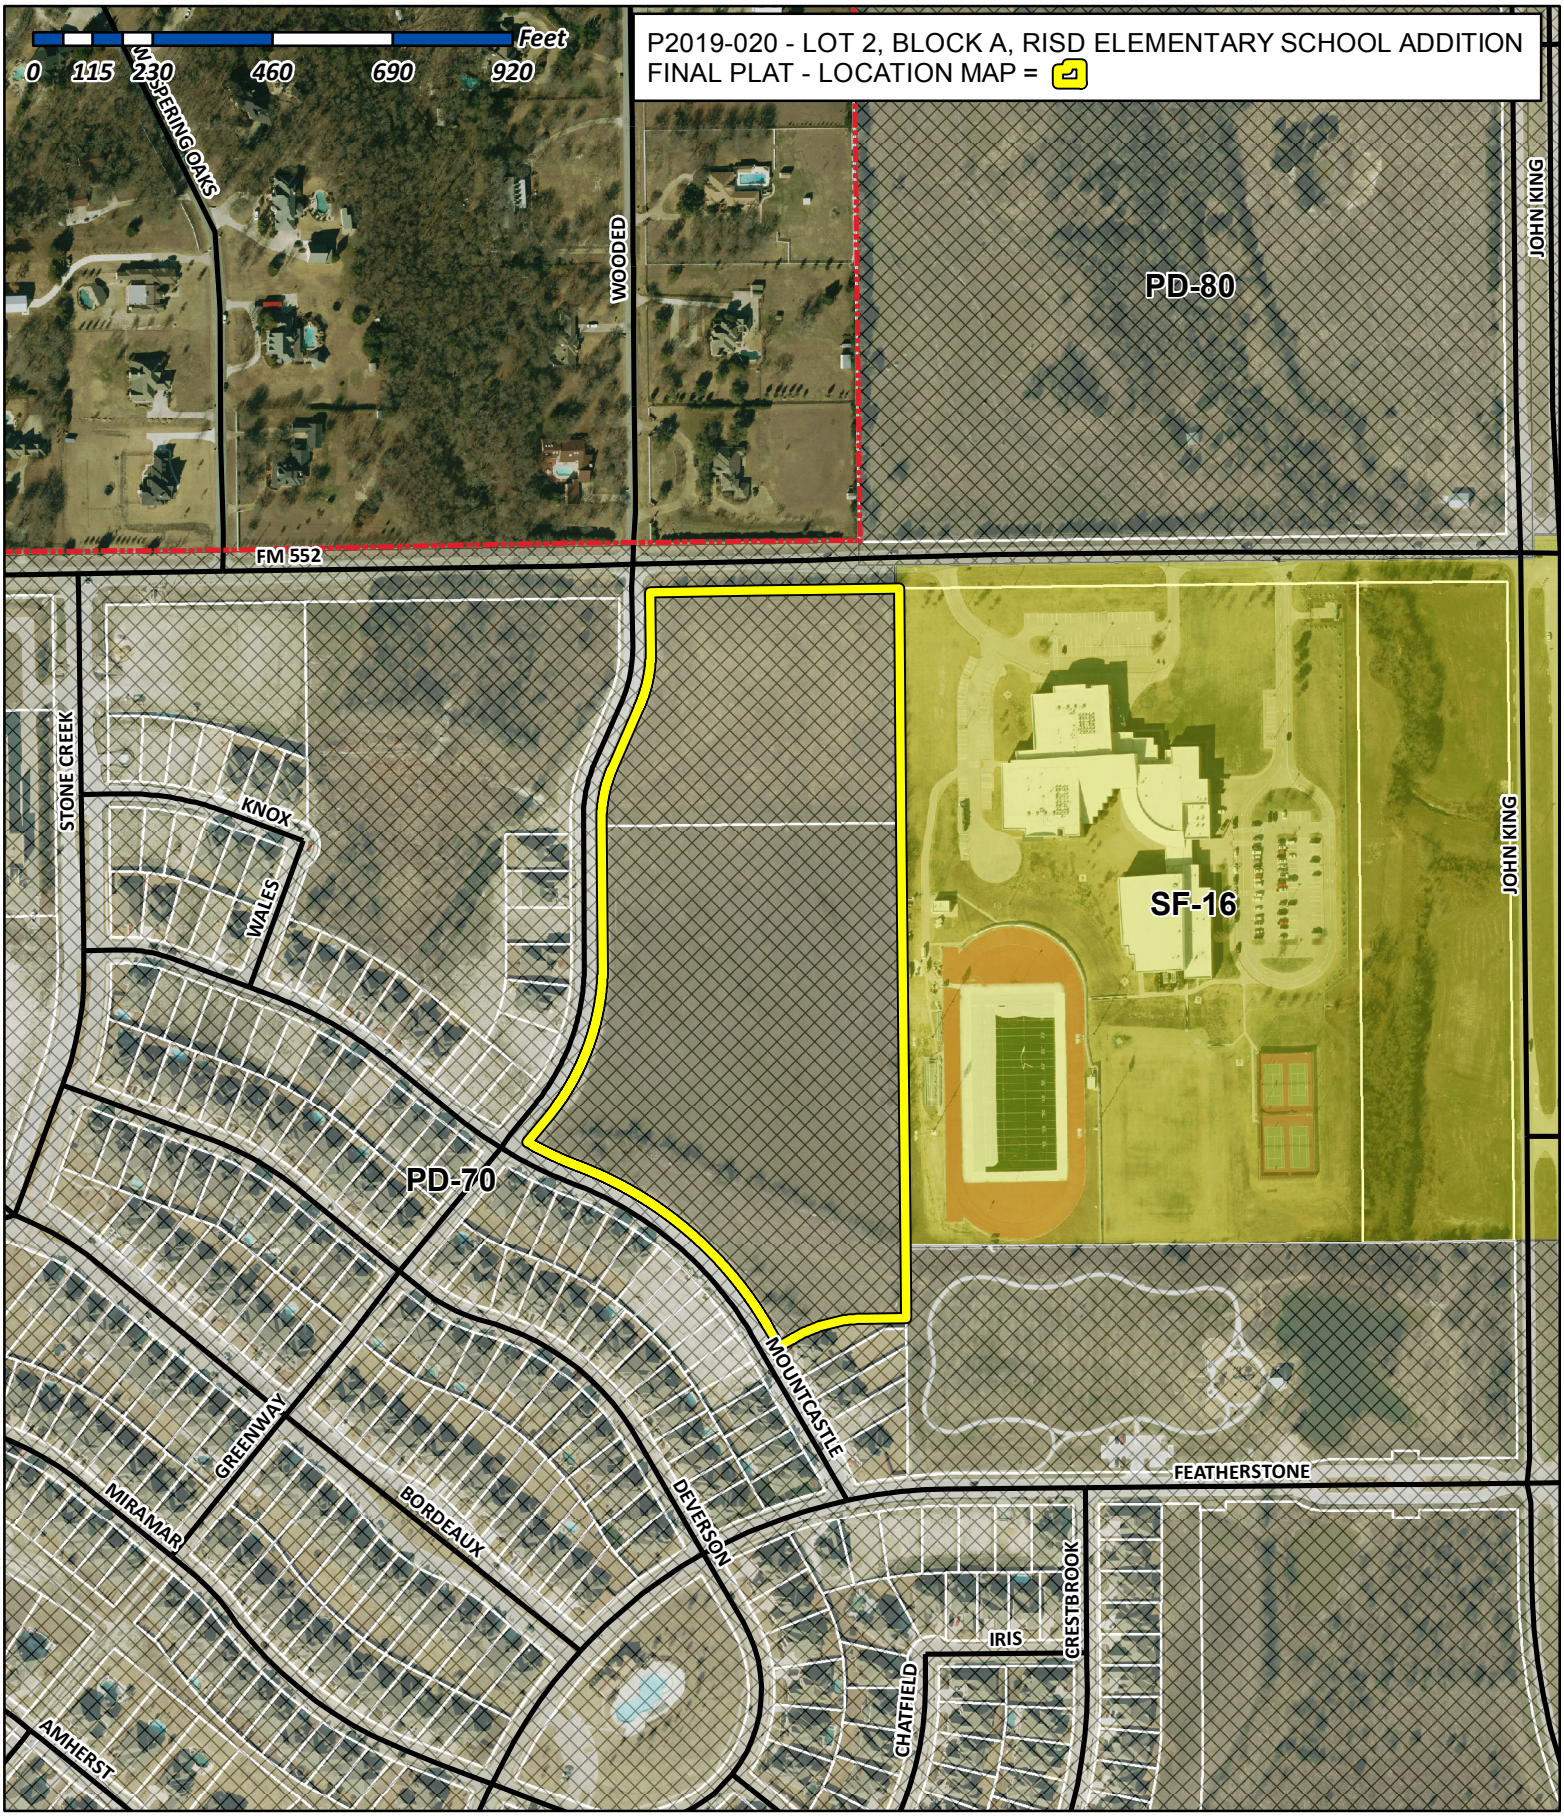
☑ On November 11, 2018, the Planning and Zoning Commission approved a site plan [*i.e. SP2018-032*] allowing for the construction of a public-school facility. As a condition of approval of this case, a treescape plan was required to be submitted with the final plat. The applicant has provided a treescape plan indicating a total of 224-caliper-inches will be removed from the site. Additionally, the applicant has also provided a landscape plan showing mitigation for all the inches being removed [*i.e. 75, three (3)-inch trees = 225-caliper inches*]. This satisfies the mitigation requirements. Approval of this plat shall constitute the approval of the proposed treescape and mitigation plans.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the *Municipal Code of Ordinances*.

CONDITIONS OF APPROVAL

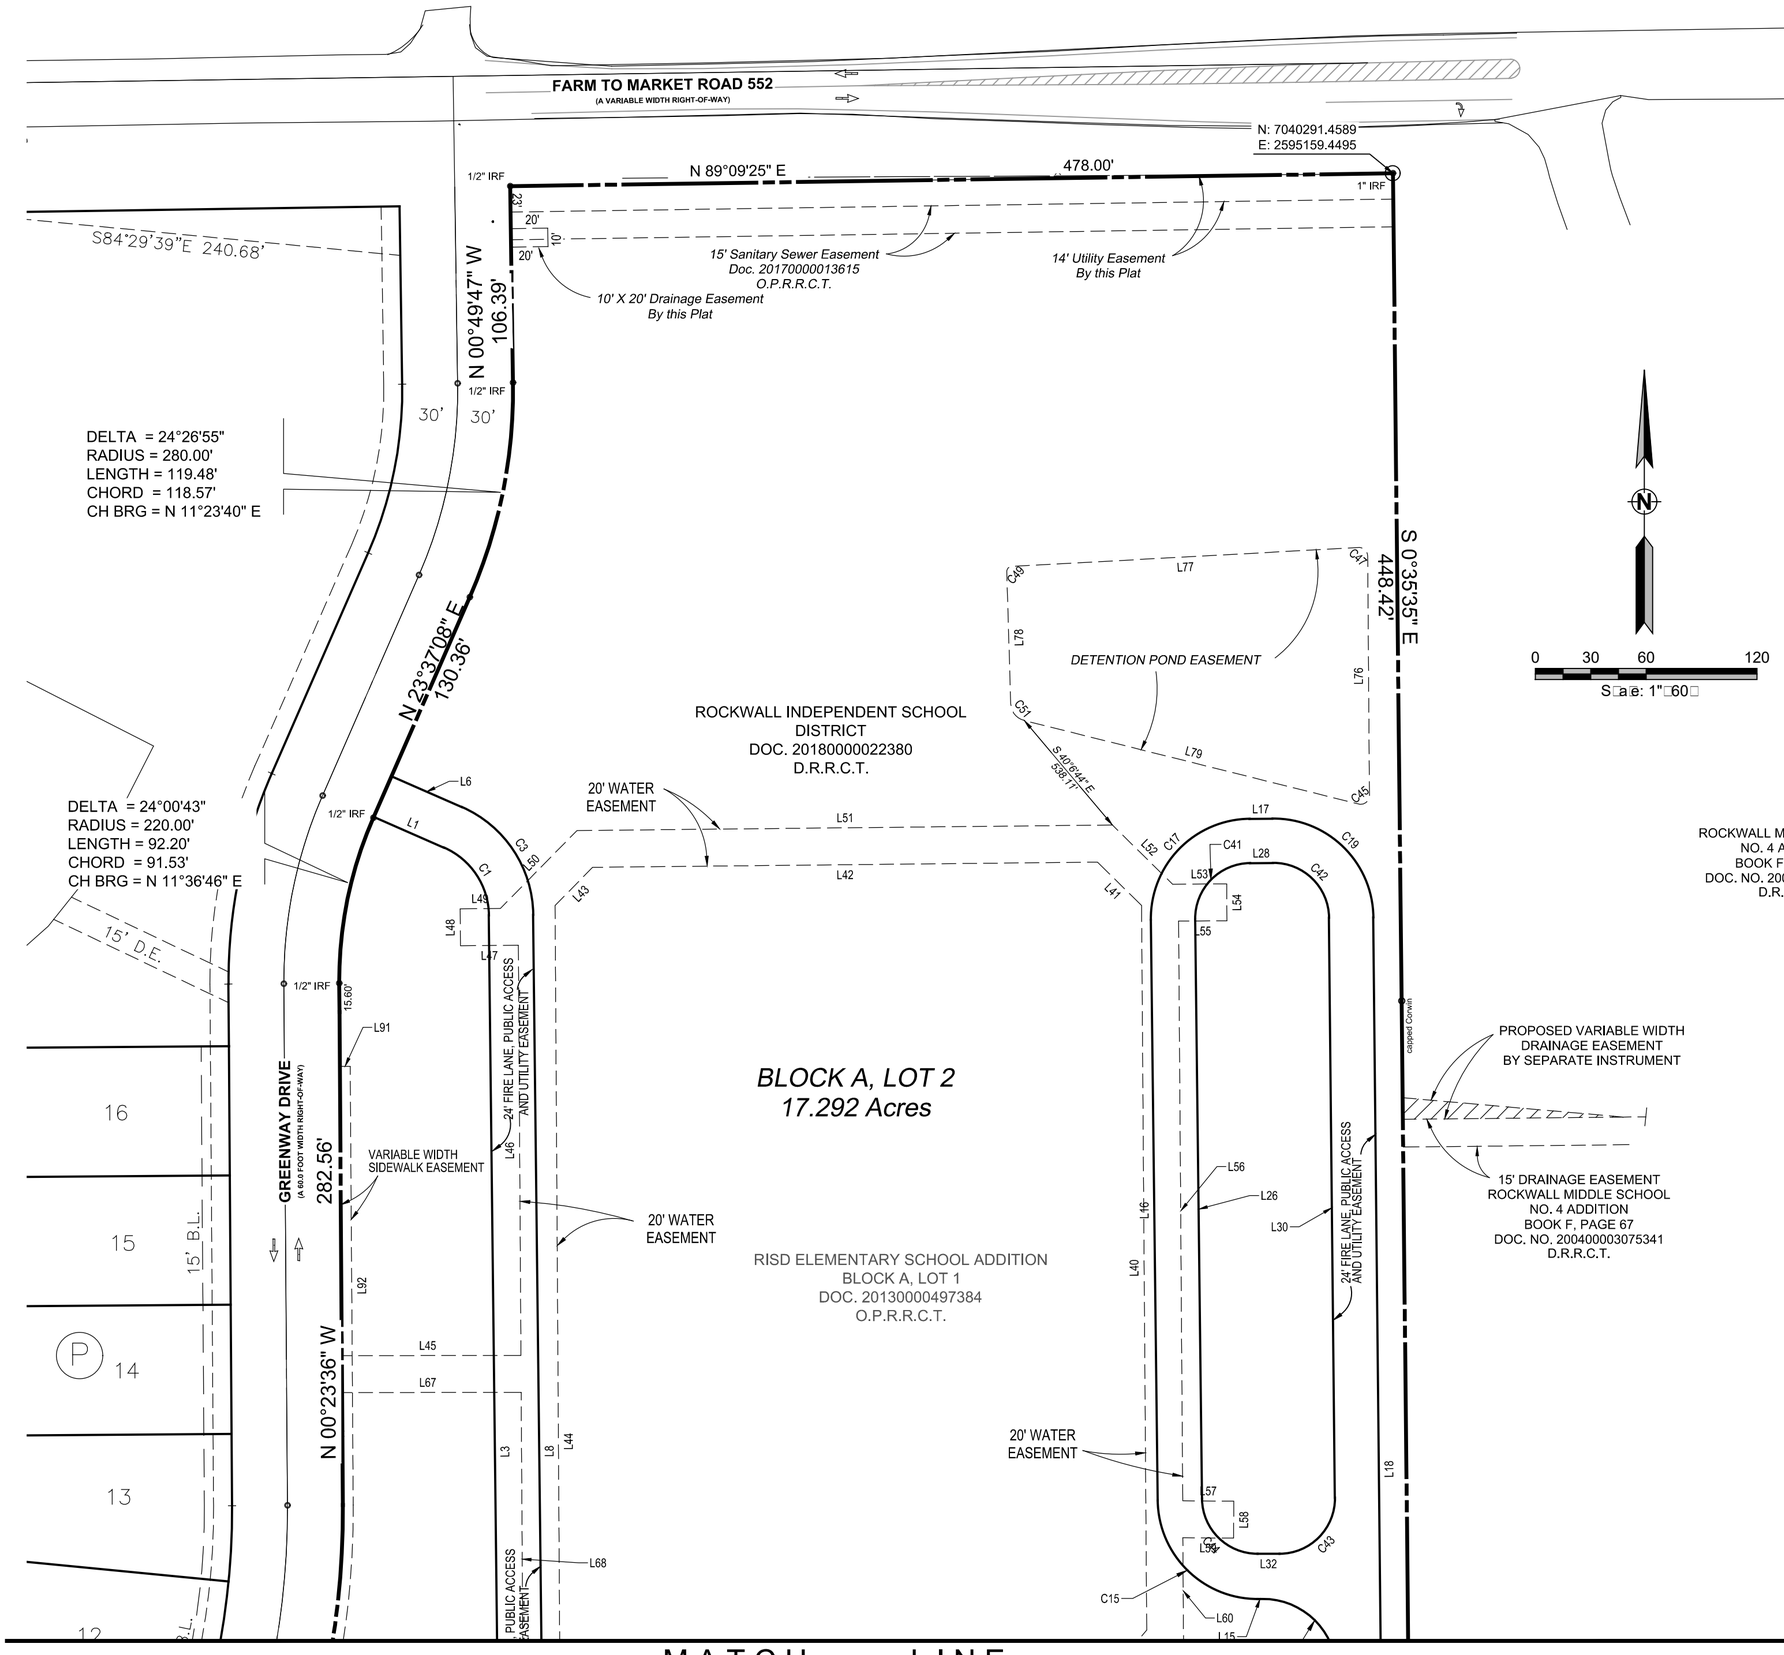


If the City Council chooses to approve the final plat for *Lot 2, Block A, RISD Elementary School Addition*, staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION



On May 28, 2019, the Planning and Zoning Commission's motion to recommend approval of the final plat with staff conditions passed by a vote of 7 to 0.

OWNER'S CERTIFICATE

WHEREAS Rockwall Independent School District is the owner of a 17.292 acre tract of land situated in the W.T. DeWeese Survey, Abstract No. 71 in the City of Rockwall, Rockwall County, Texas, and being all of a Lot 1, Block A, RISD Elementary School Addition to the City of Rockwall as recorded in Document No. 20130000497134, official Public Records, Rockwall County, Texas, and being all of a 5.288 acre tract of land conveyed to Rockwall Independent School District according to the deed recorded in Document No. 20180000022380, Deed Records, Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a ½ inch iron rod found at the southwest corner of a Rockwall Middle School No. 4 Addition, an addition to the City of Rockwall, as described in Cabinet F, Page 67, in the Plat Records of Rockwall County, Texas;

THENCE, South 00° 35'35" East, for a distance of 130.00 feet, to a ½ inch iron rod set with Yellow Cap;

THENCE South 89°25'13" West, for a distance of 77.24 feet, to a ½ inch iron rod set with Yellow Cap at the point of curvature of a curve to the left, having a radius of 285.00 feet, a central angle of 29°28'01", and a tangent of 74.95 feet;

THENCE, continuing along said curve to the left for an arc distance of 146.57 feet (Chord Bearing South 74°41'12" West - 144.96 feet), to a ½ inch iron rod set with Yellow Cap at the point of tangency;

THENCE, South 59°57'12" West, for a distance of 30.14 feet, to a ½ inch iron rod set with Yellow Cap;

THENCE, North 30°02'48" West, for a distance of 41.62 feet, to a ½ inch iron rod set with Yellow Cap at the point of curvature of a curve to the left, having a radius of 710.00 feet, a central angle of 39°08'51", and a tangent of 252.45 feet;

THENCE, along said curve to the left for an arc distance of 485.11 feet (Chord Bearing North 49°37'14" West - 475.73 feet), to a ½ inch iron rod set with Yellow Cap at the point of reverse curvature of a curve to the right, having a radius of 790.00 feet, a central angle of 08°02'52", and a tangent of 55.57 feet;

THENCE, along said curve to the right for an arc distance of 110.96 feet (Chord Bearing North 65°10'13" West- 110.87 feet), to a ½ inch iron rod set with Yellow Cap;

THENCE, North 39°00'21" East, for a distance of 67.60 feet, to a ½ inch iron rod set with Yellow Cap at the point of curvature of a curve to the left, having a radius of 455.00 feet, a central angle of 39°23'57", and a tangent of 162.91 feet;

THENCE, along said curve to the left for an arc distance of 312.88 feet (Chord Bearing North 19°18'22" East - 306.75 feet), to a ½ inch iron rod set with Yellow Cap at the point of tangency;

THENCE, North 00°23'36" West, for a distance of 282.56 feet passing the northwest corner at 266.96 feet of said Block A, Lot 1, to a ½ inch iron rod set with Yellow Cap, said point being the beginning of a curve to the right having a central angle of 24°00'43", a radius of 220.00 feet and a chord bearing of North 11°36'46" East and a chord distance of 91.53 feet;

THENCE, along said curve to the right an arc length of 92.20 feet to a point for corner;

THENCE, North 23°37'06" East, a distance of 130.36 feet to a point for corner, said point being the beginning of a curve to the left having a central angle of 24°26'55", a radius of 280.00 feet, a chord bearing of North 11°23'40" East and a chord distance of 118.57 feet;

THENCE, along said curve to the left an arc length of 119.48 feet to a point for corner;

THENCE, North 00°49'47" West, a distance of 106.39 feet to a point for corner;

THENCE, North 89° 09'25" East, a distance of 478.00 feet to a point for corner;

THENCE, South 00°35'35" East, along the west line of said Rockwall Middle School No. 4 Addition, for a distance of 1270.03 feet, to the POINT OF BEGINNING and containing 17.292 acres of land.

GENERAL NOTES

General Notes:

1) It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

SURVEYOR'S CERTIFICATE

NOW, THEREFORE KNOW ALL MEN BY THESE PRESENTS:

THAT I, Jeremy Luke Deal, do hereby certify that I prepared this plat from an actual and accurate survey of the land, and that the corner monuments shown thereon were properly placed under my personal supervision.

_____

Jeremy Luke Deal, Registered Public Surveyor No. 5696

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS §

COUNTY OF ROCKWALL §

We the undersigned owner of the land shown on this plat, and designated herein as the REPLAT, BLOCK A,LOT 2, RISD ELEMENTARY ADDITION, a subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I (we) further certify that all other parties who have a mortgage or lien interest in the [SUBDIVISION NAME] subdivision have been notified and signed this plat. I (we) understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I (we) further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that I (we) may have as a result of the dedication of exactions made herein.

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	June 3, 2019
APPLICANT:	Cameron Slown; *FC Cuny Corporation*
CASE NUMBER:	P2019-021; *Lots 1, 2, & 3, Block A, Town Place Marriott Addition*

SUMMARY

Consider a request by Cameron Slown of FC Cuny Corporation on behalf of Tom Kirkland of Greencrest TPS Hotel, LP for the approval of a final plat of Lots 1-3, Block A, Town Place Marriott Addition being an 8.715-acre tract of land identified as a portion of Lot 1, Block B, Goldencrest Addition and Tract 4 of the J. D. McFarland Survey, Abstract No. 145, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, situated north of the intersection of Greencrest Boulevard and the IH-30 Frontage Road, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting to final plat an 8.715-acre tract of land (*i.e. a portion of Lot 1, Block B, Goldencrest Addition and Tract 4 of the J. D. McFarland Survey, Abstract No. 145*) into three (3) lots (*i.e. Lots 1, 2, & 3, Block A, Town Place Marriott Addition*) for the purpose of establishing the necessary firelane, drainage, detention, and utility easements necessary to develop the subject property.

☑ On February 6, 2017, the City Council approved *Case No. Z2016-045* for a Specific Use Permit (SUP) [*Ordinance No. 17-07; SUP No. S-161*] for a residence hotel on Lot 2. On February 19, 2017, the City Council approved *Case No. MIS2018-004* for a one (1) year extension of the Specific Use Permit (SUP) [*Ordinance No. 17-07; SUP No. S-161*].

☑ On September 4, 2018, the City Council approved a treescape plan [*Case No. MIS2018-018*] on Lot 3 for the purpose of removing trees to facilitate future development on this site.

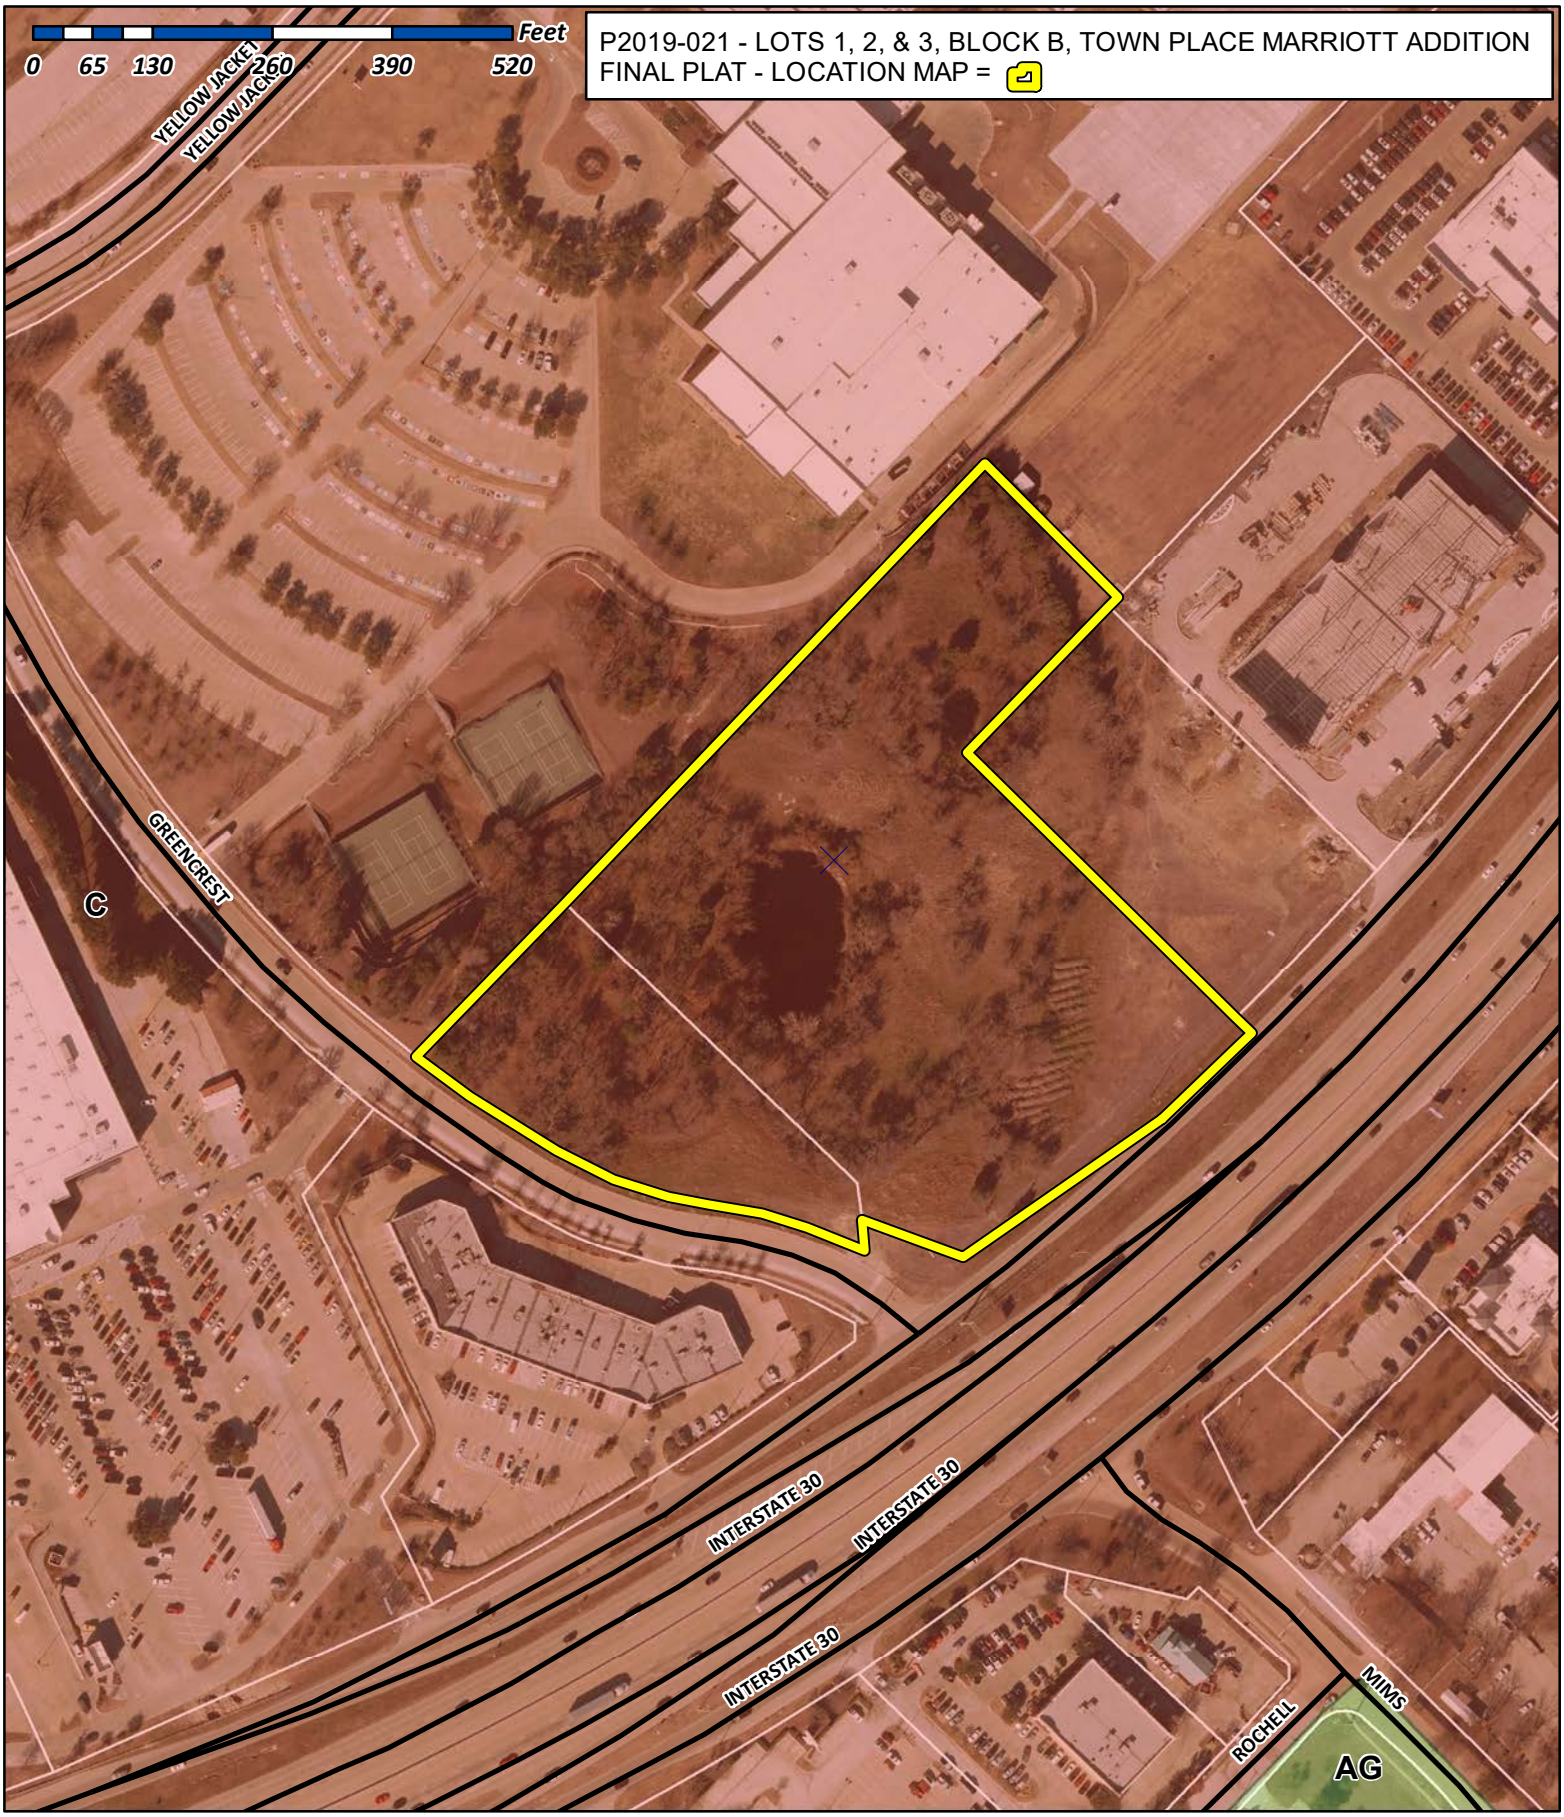
☑ On October 9, 2018, the Planning and Zoning Commission approved a site plan [*Case No. SP2019-029*] and recommended approval of variances associated with residence hotel on Lot 2. Subsequently, on November 11, 2019, the City Council approved the requested variances.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the *Municipal Code of Ordinances*.

CONDITIONS OF APPROVAL



If the City Council chooses to approve the final plat for *Lots 1, 2, & 3, Block A, Town Place Marriott Addition*, staff would propose the following conditions of approval:

(1) The Final Plat shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government

PLANNING AND ZONING COMMISSION

On May 28, 2019, the Planning and Zoning Commission's motion to recommend approval of the applicant's request was approved by a motion of 7-0.

OWNERS DEDICATION

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS}
COUNTY OF ROCKWALL}

I the undersigned owner of the land shown on this plat, and designated herein as TOWN PLACE MARRIOTT ADDITION to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. Drainage/Detention Easements/Facilities shall be owned, operated, maintained and repaired by property owner.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Addition upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	June 3, 2019
APPLICANT:	Cameron Slown; *F.C. Cuny Corporation*
CASE NUMBER:	P2019-022; *Lot 5, Block A, Harbor Village Addition*

SUMMARY

Consider a request by Cameron Slown of F. C. Cuny Corporation on behalf of Phillip McNeill of MHC Rockwall, LLC and Jason Lentz of Atticus of Atticus Summer Lee Townhomes for the approval of a replat for Lot 5, Block A, Harbor Village Addition, being a 2.12-acre tract of land currently identified as Lot 3, Block A, Harbor Village Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Scenic Overlay (SOV) District, located on the south side of Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting the approval of a replat for a 2.12-acre parcel of land [i.e. *Lot 3, Block A, Harbor Village Addition*] for purpose of establishing the necessary easements (*i.e. fire lane, public access, drainage and utility easements*) in order to develop the lot. The new parcel of land [*i.e. Lot 5, Block A, Harbor Village Addition*] will allow for the construction of a four (4) story, ~45,900 SF hotel containing 98 traditional hotel rooms [*i.e. TRU Hilton*]. The *subject property* is located within the *Interior, Horizon/Summer Lee* and *Residential Subdistricts* of Planned Development District 32 (PD-32).

☑ On March 5, 2018, the City Council approved *Ordinance No. 18-16* [*Case No. Z2018-001*] granting a *PD Development Plan* for a hotel on the 2.12-acre subject property. This ordinance also granted the hotel the ability to extend the height of the structure above 36-feet, which is the maximum height permitted in the Scenic Overlay (SOV) District without a Specific Use Permit (SUP).

☑ On September 11, 2018, the Planning and Zoning Commission approved the site plan, and recommended approval of the variances, waivers, and exceptions associated with the construction of the hotel to the City Council. On September 17, 2018, the City Council approved the associated variances, waivers, and exceptions requested by the applicant.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL

If the City Council chooses to approve the replat for *Lot 5, Block A, Harbor Village Addition,* staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION

On May 28, 2019, the Planning and Zoning Commission's motion to recommend approval of the replat with staff conditions passed by a vote of 7 to 0.

OWNERS DEDICATION

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS}
COUNTY OF ROCKWALL}

I the undersigned owner of the land shown on this plat, and designated herein as HARBOR VILLAGE ADDITION to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. Drainage/Detention Easements/Facilities shall be owned, operated, maintained and repaired by property owner.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Addition upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL

ORDINANCE NO. 19-24

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 47 (PD-47) [*ORDINANCES 99-17 AND 07-04*] AND THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE DEVELOPMENT STANDARDS APPROVED WITH *ORDINANCE NO. 99-17*, BEING A 14.4712-ACRE TRACT OF LAND IDENTIFIED TRACT 104 OF THE E. TEAL SURVEY, ABSTRACT NO. 207 AND LOT 1, BLOCK A, FIRST CHRISTIAN CHURCH DISCIPLES OF CHRIST ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, ZONED PLANNED DEVELOPMENT DISTRICT 47 (PD-47) AND MORE FULLY DEPICTED HEREIN BY *EXHIBIT 'A'* AND DESCRIBED HEREIN BY *EXHIBIT 'B'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by the applicant Scott Lewis of RRDC, LTD for the approval of an amendment to Planned Development District 47 (PD-47) for the purpose of amending the development standards approved with *Ordinance 99-17*, being a 14.4712-acre tract of land identified as Tract 104 of the E. Teal Survey, Abstract No. 207 and Lot 1, Block A, First Christian Church Disciples of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 47 (PD-47) [*Ordinances 99-17 and 07-04*], generally located at the northeast corner of the intersection of Ridge Road [*FM-740*] and White Road and more fully depicted in *Exhibit 'A'* and described in *Exhibit 'B'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 47 (PD-47) [*Ordinance No.'s 99-17 & 07-04*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No.'s 99-17 & 07-04*;

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District ordinance and the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as may be amended in the future;

SECTION 3. That development of the *Subject Property* shall be in accordance with the *Planned Development Concept Plan*, contained in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of

approval of the amended zoning classification for the *Subject Property*;

SECTION 4. That development of the *Subject Property* shall be in accordance with the *Planned Development Standards*, described in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* (*$2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 7. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 8. That this ordinance shall take effect immediately from and after its passage;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF JUNE, 2019.

Area 1: Single-Family 10 (SF-10) District [*9.477-Acres*]

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, *Area 1* as depicted in *Exhibit 'C'* of this ordinance shall be subject to the land uses permitted for the Single-Family 10 (SF-10) District as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as may be amended in the future.

(2) *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, *Area 1* as depicted in *Exhibit 'C'* of this ordinance shall be subject to the development standards for the Single-Family 10 (SF-10) District as stipulated in Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as may be amended in the future. All lots shall conform to the standards depicted in *Table 1*, which are as follows:

Table 1: Density and Dimensional Requirements

Minimum Lot Width [1]	80'
Minimum Lot Depth	100'
Minimum Lot Area	10,000 SF
Minimum Front Yard Setback [2]	25'
Minimum Side Yard Setback	6'
Minimum Distance Between Buildings	10'
Maximum Height	36'
Minimum Rear Yard Setback	10'
Maximum Lot Coverage	55%
Minimum Dwelling Size	3,000 SF

General Notes:
[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.
[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

(3) *Building Standards.* Housing type and construction shall adhere to the following building standards:

(a) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 60% primary materials and/or a maximum of 20% secondary materials, excluding windows and doors. For the purpose of this ordinance, primary materials shall consist of stone, brick, and cementitious materials. The use of cementitious materials (e.g. stucco, cementitious lap siding, or similar materials) shall be limited to 40% of the building's exterior façade.

(b) *Anti-Monotony.* An anti-monotony standard shall not allow the same structure—in terms of materials and elevation--any closer than four (4) houses apart on either side of the street.

(c) *Common Areas and Open Space.* All common areas, dedicated landscape easements, and open space areas shall be maintained by a Homeowner's Association, which shall be created subject to the requirements of the City's Subdivision Ordinance.

(d) *Garage Orientation.* Garages shall be oriented in a traditional swing (or j-swing). Garages configured in a flat, front entry configuration shall be setback a minimum of 20 feet from the front façade of the primary structure. All garage doors shall be required to have upgraded finishes (*e.g. divided garage bay doors, carriage style hardware and lighting elements, cedar clad garage doors, or a similar alternative -- to be approved by staff*)]. All garage configurations not conforming to this section shall meet the

requirements of Article VI, Parking and Loading, of the Unified Development Code (UDC).

Area 2: Single-Family 10 (SF-10) District [*4.9995-Acres*]

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, *Area 2* as depicted in *Exhibit 'C'* of this ordinance shall be subject to the land uses permitted for the Single-Family 10 (SF-10) District as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as may be amended in the future however, the following conditions shall apply:

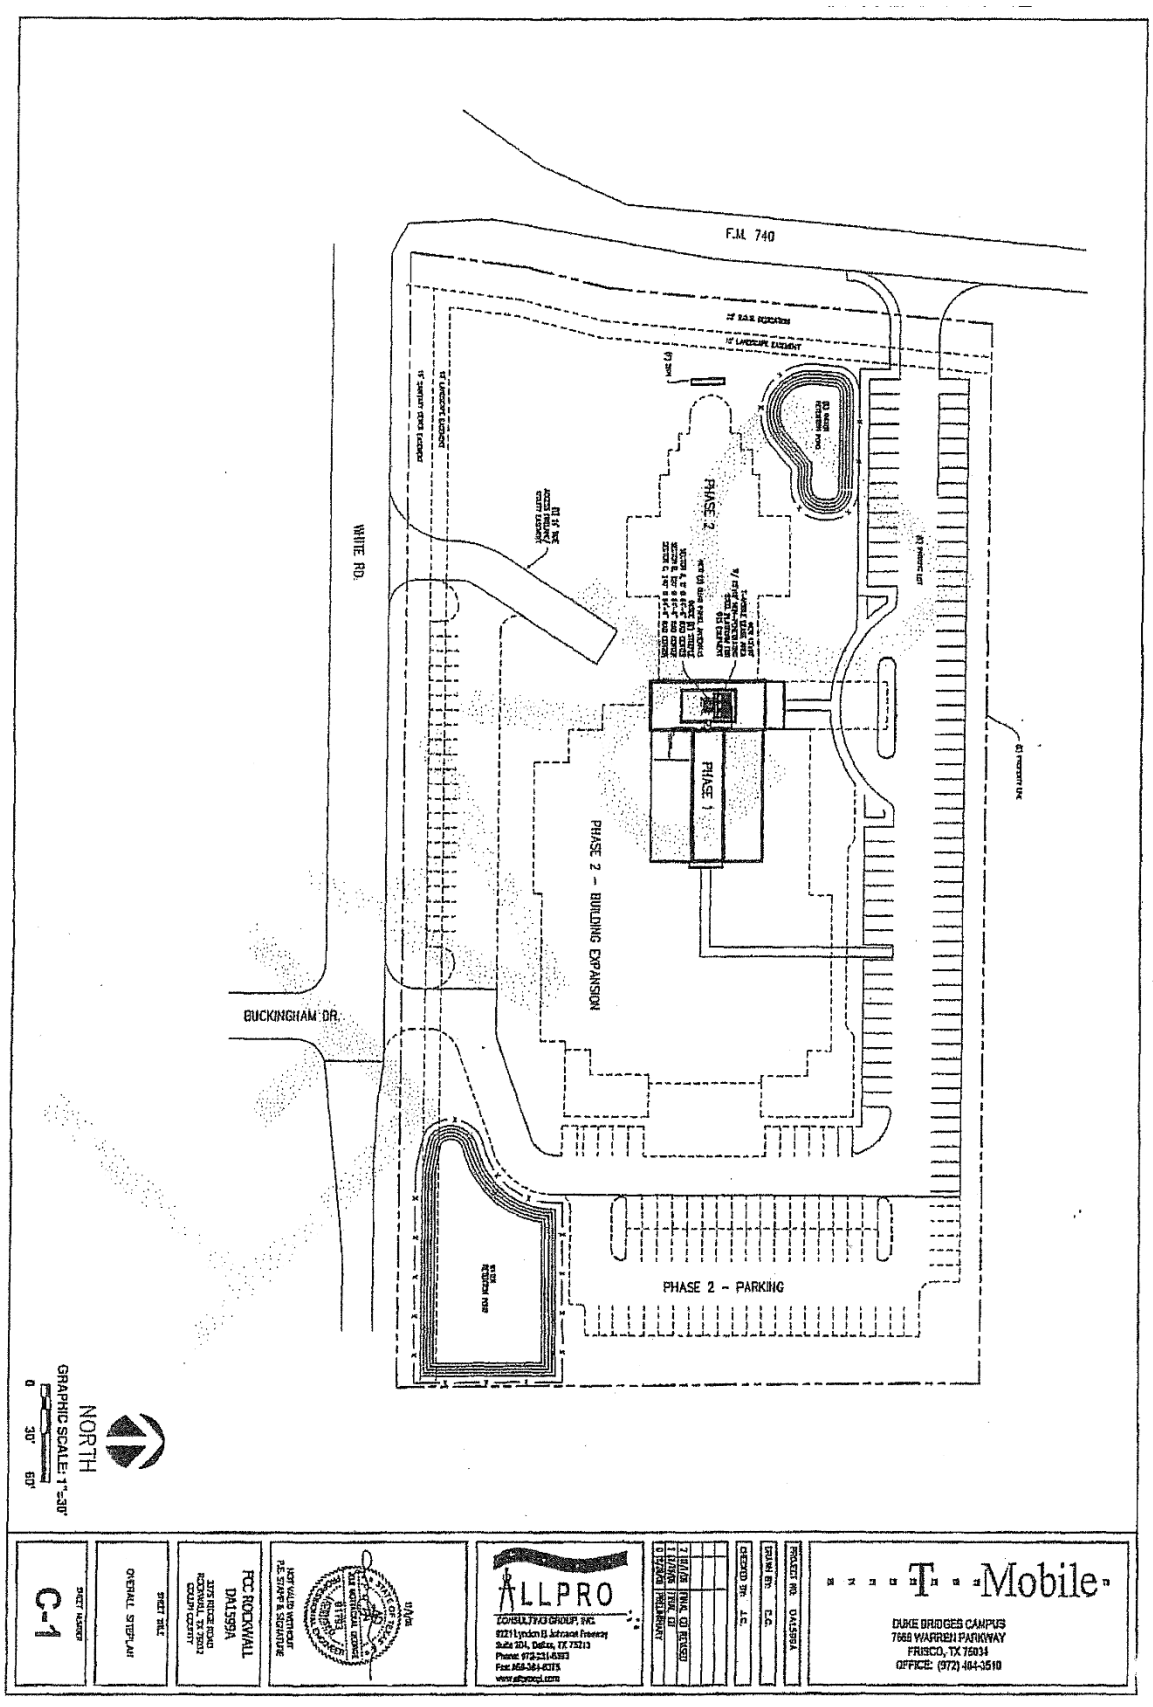
The following land use shall be permitted in *Area 2*:

☑ Antenna, Commercial*

NOTES: 1) All equipment shall be contained interior to the building 2) The height of the structure shall remain as depicted in *Exhibit 'E'* of this ordinance.

(2) *Density and Dimensional Requirements.* Any development in Area 2 as depicted in *Exhibit 'C'* of this ordinance shall be subject to the development standards required for properties in a Single-Family 10 (SF-10) District as stipulated by Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as may be amended in the future.

(3) *Building Standards.* Housing type and construction shall adhere to the following building standards:



(a) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 60% primary materials and/or a maximum of 20% secondary materials, excluding windows and doors. For the purpose of this ordinance, primary materials shall consist of stone, brick, and cementitious materials. The use of cementitious materials (e.g. stucco, cementitious lap siding, or similar materials) shall be limited to 40% of the building's exterior façade.

(b) *Anti-Monotony.* An anti-monotony standard shall not allow the same structure--in terms of materials and elevation--any closer than four (4) houses apart on either side of the street.

(c) *Common Areas and Open Space.* All common areas, dedicated landscape easements, and open space areas shall be maintained by a Homeowner's Association, which shall be created subject to the requirements of the City's Subdivision Ordinance.

(4) *Garage Orientation.* Garages shall be oriented in a traditional swing (or j-swing). Garages configured in a front entry configuration shall be setback a minimum of 20 feet from the front façade of the primary structure. All garage doors shall be required to have upgraded finishes (*e.g. divided garage bay doors, carriage style hardware and lighting elements, cedar clad garage doors, or a similar alternative -- to be approved by staff*)]. All garage configurations not conforming to this section shall meet the requirements of Article VI, Parking and Loading, of the Unified Development Code (UDC).

The New Horizon

MEMORANDUM

TO: **Honorable Mayor and Council**

FROM: **Jeffrey Widmer, Building Official**

DATE: **June 3, 2019**

SUBJECT: **Sign Plan for Texas Health Presbyterian Hospital**

Mr. Butch Clarke of Alpha Graphics, has requested to appear before the City Council with representatives from Texas Health Presbyterian Hospital to present a sign plan and ask for approval to utilize a number of freestanding signs on their property. The Hospital property is allowed 3 free standing monument signs by right and the applicant desires a greater number of signs. The proposed signs also exceed the allowable height and do not contain the required masonry.

The Hospital desires to update their main entrance sign located on Horizon Road with a seventy eight (78) square foot, eight foot (8) high sign. The size is less than the ninety eight (98) square feet allowed by code, however the proposed height exceeds the allowable six (6) feet.

In addition, the applicant proposes to replace two existing signs currently located at their entrances on Tubbs Road and Rockwall Parkway. The proposed signs are larger at sixteen (16) feet in height and approximately seventy two (72) square feet in size.

Lastly, the requested sign plan includes a ten foot eight inch (10'- 8") high sign to be located in the center of the property. This proposed sign is eighty five (85) square foot in size.

The exhibit showing the proposed location for the main entrance sign at Horizon Road will not be allowed to be placed so close to the road, because of existing easements. If the sign plan is approved, staff will work with the applicant during their permit process, to ensure that sign is located appropriately.

I have included a site plan of the property detailing the location, size and materials of the proposed signs.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Honorable Mayor and Council**

FROM: **Jeffrey Widmer, Building Official**

DATE: **May 30, 2019**

SUBJECT: **Permit Fee Schedule Resolution**

HB 825, which was signed by the Governor on May 21st, prohibits a municipality from requiring the disclosure of information related to the value of or cost of constructing or improving a residential dwelling as a condition of obtaining a building permit. In response to this new law, staff has worked diligently to study our current fee schedule and has prepared the attached fee resolution for your consideration.

One primary goal of our study and for the future fee structure, was to ensure we have sufficient cost recovery for the services we will provide. Additionally, we evaluated other cities' fees, specifically our designated market cities. If the proposed fees are adopted, contractors and thus property owners overall will not experience significant increases and some will realize modest decreases in their fees. This chart shows the current and proposed fees.

PERMIT FEE SCHEDULE		
	Existing	**Proposed**
Accessory Building	Value Based	.80 per sq. ft. up to 225 sq. ft. plus .45 per sq. ft. over 225 sq. ft. / $125 min.
Single Family - New	Value Based	.48 per sq. ft. up to 5000 sq. ft. / .40 per sq. ft. if larger than 5000 sq. ft.
Single Family - Remodel	Value Based	.48 per sq. ft. / $125.00 min.
Concrete	Value Based	.20 per sq. ft. / $50.00 min.
Electrical	Value Based	$125.00 for Panel replacement/ re-wire/service -meter base replacement $75.00 for other / repairs
Fence	$35.00	$50.00
Irrigation	$35.00	$75.00
Mechanical	Value Based	$125.00 new system installation $75.00 for other / repairs
Plumbing	Value Based	$125.00 for Slab leaks / tunneling / sewer main replacement $75.00 for Water heater /other/ repair
Roof	$35.00	$75.00
Decks	Value Based	$75.00
Carports	Value Based	$75.00
Solar	Value Based	.65 per sq. ft.

All residential fees historically calculated on value of construction, have been changed to use either a flat fee or a fee based on square feet. The proposed increase for fence, irrigation and roof permit fees are simply to cover our costs for those permit and inspection activities.

CITY OF ROCKWALL, TEXAS

RESOLUTION NO. 19-15

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, REPEALING RESOLUTION 17-23 AND ADOPTING A NEW RESOLUTION TO PROVIDE FOR AN UPDATED FEE SCHEDULE FOR PERMITS, REGISTRATIONS, CERTIFICATES, AND CERTAIN RELATED FEES FOR THE CITY OF ROCKWALL, AS DESCRIBED IN "EXHIBIT A" OF THIS RESOLUTION; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the 86th Session of the Texas State Legislature recently passed H.B. No. 852, which essentially placed a prohibition on certain value-based building permits and inspection fees; and

WHEREAS, this piece of legislation was signed by Governor Greg Abbott on May 21, 2019; and

WHEREAS, as a result of this new legislation, it is necessary for the City Council of the City of Rockwall, Texas to amend the City's fee schedule to come into compliance with these new State regulations.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That Resolution No. 17-23 is hereby repealed in its entirety and that this resolution and its attached **"Exhibit A"** is hereby adopted as the official "Permit, Health, and Misc. Fee Schedule" for the City of Rockwall; and

Section 2. Payment in accordance with the fees described in the attached **"Exhibit A"** shall be required with the submission of all related applications; and

Section 3. That this resolution shall take effect immediately upon passage and approval, and it is so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 3RD DAY OF JUNE, 2019.

_____
Jim Pruitt, Mayor

MEMORANDUM

TO: **Honorable Mayor and City Council Members**

FROM: **Kristy Cole, City Secretary / Assistant to the City Manager**

DATE: **May 30, 2019**

SUBJECT: **Architectural Review Board (ARB) Vacancy**

Adan Tovar recently resigned from the city's ARB, citing work scheduling conflicts which were inhibiting his ability to attend meetings. I previously provided Council with applications for those who've expressed an interest in possibly serving on this board. The person filling this vacancy would be appointed for a partial term, which would expire in August of 2020. The following shows the individuals who currently serve on the ARB and their respective roles:

Interested Citizen	Rick	Johnson
Residential Property Owner (interior design)	Ashlei	Neill
Interested Citizen	Bob	Wacker
Interested Citizen	VACANT	
Interested Citizen	Robert	Miller
Building Designer	Lindsay	Mitchell
Architect	Julien	Meyrat

p.60 2. **Z2019-013** - Hold a public hearing to discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of Dan Bobst of J-BR2, LLC for the approval of an **ordinance** for a PD Development Plan within Planned Development District 32 (PD-32), on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas, situated within the Hillside Sub-District of Planned Development District 32 (PD-32), located within the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive, and take any action necessary **(1st Reading).**

XII. ACTION ITEMS

p.85 1. Hear update and discuss and consider city strategic planning, and take any action necessary.

p.100 2. Discuss and consider overview of the city's budget process and outlook for Fiscal Year 2020, and take any action necessary

XIII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).
2. Discussion regarding appointment of city council subcommittees and board liaisons pursuant to Section, §551.074 (Personnel Matters)
3. Discussion regarding purchase, sale or lease of real property in the vicinity of Rockwall Municipal Airport, Downtown and The Harbor as well as city owned land at Fire Station No. 2 pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
4. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

XIV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

XV. ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 771-7700 or FAX (972) 771-7727 for further information.

The City of Rockwall City Council reserves the right to adjourn into executive session at any time to discuss any of the matters listed on the agenda above, as authorized by Texas Government Code § 551.071 (Consultation with Attorney) § 551.072 (Deliberations about Real Property) § 551.074 (Personnel Matters) and § 551.087 (Economic Development)

I, Kristy Cole, City Secretary for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 14th day of June, 2019 at 4:30 p.m. and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

Kristy Cole

Kristy Cole, City Secretary
or Margaret Delaney, Asst. to the City Sect.

Date Removed

MINUTES

ROCKWALL CITY COUNCIL REGULAR MEETING
Monday, June 03, 2019 - 5:00 PM
City Hall Council Chambers - 385 S. Goliad St., Rockwall, TX 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pro Tem Macalik called the meeting to order at 5:00 p.m. with the following council members and staff being present: Mayor Pro Tem Dana Macalik, Council Members Patrick Trowbridge, John Hohenshelt, Kevin Fowler, Bennie Daniels and Trace Johannesen as well as City Manager Rick Crowley, Assistant City Managers Mary Smith and Joey Boyd and City Attorney Frank Garza. Mayor Pruitt arrived to the meeting and joined Executive Session at 5:06 p.m.

II. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding purchase, sale or lease of real property in the vicinity of Rockwall Municipal Airport, Downtown and The Harbor pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
2. Discussion regarding appointment of city council subcommittees and board liaisons pursuant to Section, §551.074 (Personnel Matters)
3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

III. ADJOURN EXECUTIVE SESSION

Council adjourned from Executive Session at 5:56 p.m.

IV. RECONVENE PUBLIC MEETING (6:00 P.M.)

Mayor Pruitt reconvened the public meeting at 6:00 p.m. with all seven council members present.

V. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

Council took no action as a result of Executive Session.

VI. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER TROWBRIDGE

Councilman Trowbridge spoke brief words of remembrance for recent victims of a city-related shooting that occurred in the City of Virginia Beach. He then delivered the invocation and led the Pledge of Allegiance.

VII. OPEN FORUM

Mayor Pruitt explained how Open Forum is conducted and asked if anyone would like to come forth and speak at this time.

Kevin Hadawi
723 Turtle Cove Boulevard
Rockwall, TX

Mr. Hadawi came forth and shared that he recently moved to Rockwall in October. He is concerned about the proposed religious facility that may be constructed near the Turtle Cove subdivision in which he lives. He is concerned that this - one of the last, valuable pieces of property - may end up being a non-profit, non-tax paying building.

There being no one else wishing come forth, the mayor closed Open Forum.

VIII. CONSENT AGENDA

1. Consider approval of the minutes from the May 20, 2019 regular city council meeting, and take any action necessary.
2. Consider approval of a contract for professional engineering services with Cardinal Strategies Engineering Services, LLC to perform the Squabble Creek Watershed Hydrologic & Hydraulic Update Phase 1 in an amount not to exceed $105,000, to be paid for from the Engineering Consulting Budget, and take any action necessary.
3. **Z2019-009** - Consider a request by Chris Lam, PE of Lam Consulting Engineering on behalf of Price Pointer of TCB Construction Group, LLC for the approval of an **ordinance** for a Specific Use Permit (SUP) allowing a restaurant less than 2,000 SF without a drive-through or drive-in on a 0.23-acre parcel of land identified as Block 20B of the Amick Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 50 (PD-50) for Residential Office (RO) District land uses, situated within the North Goliad Corridor Overlay (NGC OV) District, addressed as 505 N. Goliad Street, and take any action necessary **(2nd Reading).**
4. **Z2019-010** - Consider a request by Dwayne Cain of EVSR (D), LLC for the approval of an **ordinance** for a Specific Use Permit (SUP) allowing a guest quarters/secondary living unit and barn or agricultural accessory building on a 10.61-acre portion of a larger 26.078-acre tract of land identified as Tract 2 & 2-4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, addressed as 777 & 839 Cornelius Road, and take any action necessary **(2nd Reading).**
5. Consider approval of a Cooperative Purchasing Agreement with the City of Mesquite and bid award to Phillips Lawn Sprinkler Co. for $25,000 for Northshore Park irrigation project from Recreation Development Fund authorizing the City Manager to execute the Coop Agreement and Irrigation Contract and take any action necessary.
6. Consider a request by Phil Wagner of the Rockwall Economic Development Corporation for the approval of a resolution abandoning the right-of-way for Aluminum Plant Road being a 0.40-acre tract of land situated within the R. Ballard Survey, Abstract No. 21, City of Rockwall, Rockwall County, Texas, and take any action necessary.

7. **P2019-020** - Consider a request by Robert Howman of Glenn Engineering on behalf of William Salee of the Rockwall Independent School District (RISD) for the approval of replat for Lot 2, Block A, RISD Elementary School Addition being a 17.2922-acre tract of land being identified as Lot 1, Block A, RISD Elementary School Addition and Tract 2-7 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall, Texas, zoned Planned Development District 70 (PD-70) for single family land uses, located at the southeast corner of Greenway Boulevard and FM-552, and take any action necessary.
8. **P2019-021** - Consider a request by Cameron Slown of FC Cuny Corporation on behalf of Tom Kirkland of Greencrest TPS Hotel, LP for the approval of a final plat of Lots 1-3, Block A, Town Place Marriott Addition being an 8.715-acre tract of land identified as a portion of Lot 1, Block B, Goldencrest Addition and Tract 4 of the J. D. McFarland Survey, Abstract No. 145, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, situated north of the intersection of Greencrest Boulevard and the IH-30 Frontage Road, and take any action necessary.
9. **P2019-022** - Consider a request by Cameron Slown of F. C. Cuny Corporation on behalf of Phillip McNeill of MHC Rockwall, LLC and Jason Lentz of Atticus of Atticus Summer Lee Townhomes for the approval of a replat for Lot 5, Block A, Harbor Village Addition, being a 2.12-acre tract of land currently identified as Lot 3, Block A, Harbor Village Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Scenic Overlay (SOV) District, located on the south side of Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary.

Mayor Pruitt pulled item #2 for further discussion. Mayor Pro Tem Macalik moved to approve the Consent Agenda, minus item #2 (#s 1, 3, 4, 5, 6, 7, 8, and 9). Councilman Trowbridge seconded the motion. The ordinances were read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-22
SPECIFIC USE PERMIT NO. S-208

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 50 (PD-50) [ORDINANCE NO. 17-19] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A *RESTAURANT LESS THAN 2,000 SF WITHOUT A DRIVE-THROUGH OR DRIVE-IN* FACILITY ON A 0.23-ACRE PARCEL OF LAND, ZONED PLANNED DEVELOPMENT DISTRICT 50 (PD-50) FOR RESIDENTIAL OFFICE (RO) DISTRICT LAND USES, AND BEING IDENTIFIED AS BLOCK 20B OF THE AMICK ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

CITY OF ROCKWALL

ORDINANCE NO. 19-23
SPECIFIC USE PERMIT NO. S-209

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE (UDC) OF THE CITY OF ROCKWALL, ROCKWALL COUNTY TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A *GUEST QUARTERS/SECONDARY LIVING UNIT* AND *BARN OR AGRICULTURAL ACCESSORY BUILDING* IN AN AGRICULTURAL (AG) DISTRICT, SITUATED ON A 10.61-ACRE PORTION OF A LARGER 26.078-ACRE TRACT OF LAND, IDENTIFIED AS TRACT 2 & 2-4 OF THE W. M. DALTON SURVEY, ABSTRACT NO. 72, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 7 ayes to 0 nays.

Regarding Consent Agenda item #2, Mayor Pruitt generally expressed concern about the city spending this much money on a study of this nature. Indication was given that this study, in part, is taking place in order to update the hydraulic study on the existing Squabble Creek Watershed. Ms. Williams, City Engineer, explained that this study will produce information that may be used, for example, by residents who would like to work with FEMA to be removed from the floodplain. This will help those individuals with their insurance premiums. Mr. Crowley further explained that this study will help determine if and how future structures or building will adversely impact the watershed. Mr. Garza, city attorney, indicated that the city could not require developers to do flood control in the future if our study is not up-to-date. Mr. Crowley shared that this type of study will eventually have to be done on each watershed within the city. Mayor Pruitt's concerns generally seemed to relate to the high cost of this study and his belief that the 'return' the city will receive will generally not justify the cost.

Councilmember Fowler moved to approve Consent Agenda item #2. Councilmember Johannesen seconded the motion, which passed by a vote of 5 ayes with 2 against (Pruitt and Macalik).

IX. APPOINTMENT ITEMS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

Indication was given that this item was not necessary this evening, so it was not discussed/addressed.

X. ACTION ITEMS

1. **Z2019-011** Discuss and consider a request by Scott Lewis of RRDC, LTD for the approval of an **ordinance** amending the development standards contained in Planned Development District 47 (PD-47) [Ordinances 99-17 & 07-04] being a 14.4715-acre tract of land identified as Tract 104 of the E. Teal Survey, Abstract No. 207 and Lot 1, Block A, First Christian Church, Disciples of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 47 (PD-47) for Single-Family 10 (SF-10) District land uses, situated within the Scenic Overlay (SOV) District, generally located at the northeast corner of the intersection of Ridge Road [FM-740] and White Road, and take any action necessary **(2nd Reading).**

Mr. Miller shared that this item was placed as an "Action Item" this evening rather than "Consent" because it did not receive unanimous approval during first reading at the last council meeting. Indication was given that this version does reflect the modifications to the garages that were discussed at the last council meeting. Councilmember Hohenshelt then moved to approve Z2019-011. Mayor Pro Tem Macalik seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-24

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 47 (PD-47) [*ORDINANCES 99-17 AND 07-04*] AND THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE DEVELOPMENT STANDARDS APPROVED WITH *ORDINANCE NO. 99-17*, BEING A 14.4712-ACRE TRACT OF LAND IDENTIFIED TRACT 104 OF THE E. TEAL SURVEY, ABSTRACT NO. 207 AND LOT 1, BLOCK A, FIRST CHRISTIAN CHURCH DISCIPLES OF CHRIST ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, ZONED PLANNED DEVELOPMENT DISTRICT 47 (PD-47) AND MORE FULLY DEPICTED HEREIN BY *EXHIBIT 'A'* AND DESCRIBED HEREIN BY *EXHIBIT 'B'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 6 ayes with 1 against (Pruitt).

2. Discuss and consider a request from Butch Clarke of Alpha Graphics and representatives from Texas Health Presbyterian Hospital for an approval of a sign plan located at 3150 Horizon Road, and take any action necessary.

Building Official Jeffrey Widmer provided brief, introductory comments concerning this agenda item. Mr. Clarke then came forth with a representative of Presby Hospital. They generally expressed that this updated, proposed sign is being brought forth so that the signage is more visible and in response to the hospital's campus, which has grown a lot since the hospital initially opened. Also, this updated signage aligns with Presbyterian Hospital's updated, new brand standards.

Mr. Widmer came forth and clarified what the city's current sign ordinance allows for regarding both signage that abuts a public roadway (an entry sign) and signage that is interior, located onsite (not adjacent to a roadway). City Manager Rick Crowley asked Mr. Widmer to walk the city council members through each of the proposed, eight signs so there is a clear understanding on what's being requested.

Councilmember Hohenshelt moved to approve the sign plan with the maximum height of each sign be granted at 10' tall. Councilmember Trowbridge seconded the motion, which passed by a vote of 7 ayes to 0 nays.

3. Discuss and consider a resolution repealing Resolution No. 17-23 and approving Resolution 19-15 to establish an updated fee schedule for Permit, Health and Misc. Fees, for the city, and take any action necessary.

Building Official Jeffrey Widmer provided background information concerning this agenda item. Following brief discussion, Councilmember Johannesen moved to approve the resolution. Councilmember Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

4. Discuss and consider filling a vacancy on the city's Architectural Review Board, and take any action necessary.

Councilmember Daniels moved to appoint Derek Deckard to fill a vacancy on the Architectural Review Board for a term that will expire in August 2020 (replacing Adan Tovar). Councilman Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

XI. CITY MANAGER'S REPORT, DEPARTMENTAL REPORTS AND RELATED DISCUSSIONS PERTAINING TO CURRENT CITY ACTIVITIES, UPCOMING MEETINGS, FUTURE LEGISLATIVE ACTIVITIES, AND OTHER RELATED MATTERS.

1. Departmental Reports

Building Inspections Monthly Report - April 2019
GIS Division Monthly Report - April 2019
Harbor PD Monthly Report - April 2019
Internal Operations Department Monthly Report - April 2019
Police Departments Monthly Activity Report-April 2019
Recreation Monthly Report - April 2019
Rockwall Animal Adoption Center Monthly Report - April 2019
Rockwall Fire Department Monthly Report - April 2019
STAR Transit Monthly Report - April 2019

2. City Manager's Report

City Manager Rick Crowley commented that a small tornado caused minor damage at the city's Tuttle ballfields last week.

XII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding purchase, sale or lease of real property in the vicinity of Rockwall Municipal Airport, Downtown and The Harbor pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
2. Discussion regarding appointment of city council subcommittees and board liaisons pursuant to Section, §551.074 (Personnel Matters)

3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

XIII. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

Council did not reconvene in Executive Session following the close of the public meeting agenda.

XIV. ADJOURNMENT

Mayor Pruitt adjourned the meeting at 6:37 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 17TH DAY OF JUNE, 2019.

City of Rockwall
The New Horizon

MEMORANDUM

To: **Rick Crowley, City Manager**

From: **Lea Ann Ewing, Purchasing Agent**

Date: **June 7, 2019**

Subject: **Replace Wet Well Linings at 3 Lift Station Sites**

Approved in the Water Sewer Fund, Wastewater operating budget is $70,000 to contract for the cleaning, remove debris, remove existing lining (coating), prepare all surfaces and recoat the wet wells at FM 3097, Fontana Ranch and Preserve lift stations. Sealed competitive bids were solicited for this work. Bids were received from Magnum Manhole $68,390 and T Gray Utility $255,240. Apparent low bidder is Magnum Manhole.

Only two bids submitted due to the Engineering specification for the new lining is Raven 405 and the lining manufacturer requires the applicator to be certified by the manufacturer to apply this product. Staff contacted both vendors after the bid opening to confirm their bid amounts because of the large difference between the two. We are familiar with Magnum and they have performed this work for the City in the past. Magnum Manhole has been in business doing this same work for more than 20 years, where T Gray Utilities as of 2011 main business is underground utilities construction in the Gulf areas of Texas and Louisiana. Staff concluded that the bid amount difference can be summed up to 1) Magnum is located in Dallas; T Gray in Houston so greater distance greater overhead cost of employees and equipment. 2) T Gray's mobilization is about 40% of their cost where Magnum has no mobilization cost. 3) Magnum has been using Raven Lining products for more than 20 years affording them to give the City a 30% discount on the lining product. Both companies gave a 40 to 45 day completion. Magnum Manhole recently performed this same work on the City's Squabble Creek Lift Station wet well while working as a Subcontractor on the Squabble Creek Lift Station expansion project last year.

For Council consideration is the bid award to Magnum Manhole for $68,390 and authorize the City Manager to execute a contract for the work.

15

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Honorable Mayor and City Council

CC: Rick Crowley, City Manager
Joey Boyd, Assistant City Manager
Mary Smith, Assistant City Manager

FROM: Andy Hesser, Director of Parks and Recreation

DATE: June 12, 2019

SUBJECT: YMCA SWIM LESSON AGREEMENT AT GLORIA WILLIAMS POOL

J.E.R. Chilton YMCA of Rockwall has approached the staff about a partnership to utilize Gloria Williams Pool this summer to provide swim lessons to members of the local Boys and Girls Club. This partnership would provide access to the pool during week day mornings prior to the pool's public swim times. YMCA would provide all of their own guards, swim instructors and team leader during the program at their cost. This program has no impact on City costs or operations.

There would be no additional costs to the City and the program is scheduled during times that the pool is available. The facility use agreement draft is attached and has been reviewed by the City Attorney. Park Board voted unanimously to recommend that City Council authorize the City Manager to execute the agreement.

YMCA OF METROPOLITAN DALLAS
SAFETY AROUND WATER – AGREEMENT FOR SWIM CLASSES

This agreement is made and entered into as of the date of signing by and between City of Rockwal, a political subdivsion of the State of Texasl (Hereafter referred to as "POOL OWNER") and the YMCA of Metropolitan Dallas (Hereafter referred to as "YMCA").

WITNESSETH

WHEREAS, POOL OWNER wants to have the YMCA conduct Safety Around Water swim classes at 801 DAVEY CROCKETT ("Pool") belonging to POOL OWNER for the 2019 season; and,

WHEREAS, the YMCA wants to utilize the Pool in order to conduct Safety Around Water Swim Classes; and,

WHEREAS, it is the desire of the parties to memorialize this understanding in a written agreement in which the YMCA shall conduct and staff swim classes at the Pool owned by POOL OWNER and the YMCA shall be allowed to conduct swimming classes pursuant to the terms and conditions of this Agreement.

1) TERM

a) Unless modified or extended by written consent of both parties, this agreement will be effective from June 10th 2019 through August 9th 2019.

2) SCHEDULE

a) Unless modified or extended by written consent of both parties, this agreement will provide swimming lessons according to an agreed upon schedule to be defined using a daily sign in and sign out pool log signed by both a YMCA representative as well as a Pool Owner representative for each day of swim lessons.

b) The YMCA staff reserve the right to cancel swim classes or limit the number of swimmers for any known unsafe condition this includes but is not limited to unsafe weather conditions, bather load that exceeds ratios, unsafe water condition, etc.

3) FEES

a) The operating cost per session is $1500.00. The YMCA agrees to fund 100% through their Annual Campaign fundraising efforts. POOL OWNER agrees to pay the YMCA for or obtain a sponsor for the remaining amount of $0.

b) A monthly invoice of $0 will be issued from JUNE to AUGUST, 2019 according to the below schedule. This invoice must be paid within seven days of receipt.

THE YMCA IS TAKING CARE OF THE PAYMENT IN FULL

4) RESPONSIBILITIES OF THE YMCA

a) **The YMCA will provide a team of lifeguards, swim instructors and a team leader during YMCA Safety Around Water swim classes only.**

b) **The YMCA will hire, staff, train and supervise all pool supervisors, lifeguards and swimming lesson program staff. All pool supervisors, lifeguards, and swim instructors shall be employees of the YMCA.**

c) **The YMCA will provide YMCA swim classes to participants. YMCA Staff will conduct Know Before You Go safety lessons outside of the pool area if upon arrival there are any readily apparent safety concerns with the pool.**

5) RESPONSIBILITIES OF THE POOL OWNER

a) **POOL OWNER shall be responsible for full compliance with all local, state, county, municipal, and federal laws and regulations. The POOL OWNER will be responsible for all fines, assessments, penalties, or liabilities of any kind resulting from the enforcement of any local, state, county, municipal or federal law or regulation pertaining to the pool environment, issued by any agency.**

b) **POOL OWNER shall provide for, at its own cost and expense, the normal operation, maintenance and water clarity upkeep of the pool.**

State guidelines related to pool chemicals:

Texas Department of State Health Services
Section 265.204 Figure: 25 TAC, §265.204(a)

Free chlorine:	**1ppm-8ppm**	*(ideal 2ppm-3ppm)*
pH:	**7.0-7.8**	*(ideal 7.4-7.6)*

Water must be clear to the bottom. All drain covers must be in compliance with the VGB Act and all filtration and pump systems must be in good working order.

Swimming pools outside of these parameters should be closed to all patrons and proper adjustments made before reopening.

Please contact your local pool maintenance service for additional information and guidance.

c) **The POOL OWNER will provide for minimum pool safety equipment consistent with local pool codes including but not limited to a "Shepherd's Crook", one throw line, one ring buoy, and an operable telephone within 200 feet of the pool.**

d) **POOL OWNER shall ensure that the YMCA will have exclusive use of the pool and pool area while the YMCA is present. Failure to provide exclusive use of the pool and pool area will result in the YMCA cancelling swim classes.**

6) INSURANCE **POOL OWNER is not required to carry the YMCA on their insurance**

POOL OWNER shall obtain and maintain in full force for the duration of the period of service or agreement, at their sole expense, Commercial General Liability Insurance: including, but not limited to, Premises/Operations, Personal & Advertising Injury, Products/Completed Operations, Independent Contractors and Contractual Liability with minimum combined bodily injury (including death) and property damage limits of $1,000,000 per occurrence.

YMCA shall obtain and maintain in full force for the duration of the period of service or agreement, at their sole expense, insurance coverage in the following type(s) and amounts:

Commercial General Liability Insurance: including, but not limited to, Premises/Operations, Personal & Advertising Injury, Products/Completed Operations, Independent Contractors and Contractual Liability with minimum combined bodily injury (including death) and property damage limits of $1,000,000 per occurrence.

Worker's Compensation with statutory limits; Employers Liability with minimum limits for bodily injury: a) by accident, $500,000 per each accident, b) by disease, $500,000 per employee with a per policy aggregate of $500,000.

Upon the request of either Party, the Parties shall furnish a certificate(s) of insurance demonstrating proof of insurance in the above types and amounts.

7) INDEMNIFICATION

YMCA SHALL INDEMNIFY, DEFEND WITH COMPETENT COUNSEL AND HOLD POOL OWNER, ITS EMPLOYEES AND AGENTS HARMLESS OF AND FROM ANY LOSS, DAMAGE, CLAIM OR EXPENSE INCLUDING REASONABLE ATTORNEY'S FEES ARISING OUT OF ANY NEGLIGENT ACTION OR INACTION BY YMCA AND/OR A YMCA EMPLOYEE OR AGENT WHICH CAUSES HARM OF ANY TYPE TO A YMCA EMPLOYEE OR PARTICIPANT WHILE IN, AROUND OR ABOUT THE POOL OWNER'S PROPERTY.

POOL OWNER SHALL INDEMNIFY, DEFEND WITH COMPETENT COUNSEL AND HOLD THE YMCA, ITS EMPLOYEES AND AGENTS HARMLESS OF AND FROM ANY LOSS, DAMAGE, CLAIM OR EXPENSE INCLUDING REASONABLE ATTORNEY'S FEES ARISING OUT OF ANY NEGLIGENT ACTION OR INACTION BY POOL OWNER AND/OR A POOL OWNER EMPLOYEE OR AGENT WHICH CAUSES HARM OF ANY TYPE TO AN EMPLOYEE OR PARTICIPANT WHILE IN, AROUND OR ABOUT THE POOL OWNER'S PROPERTY.

YMCA AND POOL OWNER FURTHER AGREE THAT THE YMCA IS ONLY RESPONSIBLE FOR PROVIDING LIFEGUARDS DURING YMCA SAFEETY AROUND WATER SWIM CLASSES ACCORDING TO THE DAILY SIGN-IN AND SIGN-OUT LOG. ANY LOSS, INJURY OR DAMAGE OCCURRING OUTSIDE THE YMCA'S USE OF THE POOL IS THE SOLE RESPONSIBILITY OF THE POOL OWNER.

8) MEDIATION

In the event a dispute shall arise between the parties to this agreement, the parties agree to participate in at least four hours of mediation in accordance with the mediation procedures of United States Arbitration & Mediation. The parties agree to share equally in the costs of the mediation. The mediation shall be administered by a local USA&M office to be designated by USA&M National Headquarters.

9) SEVERIBILITY

POOL OWNER and YMCA expressly agree that the forgoing INDEMNITY AGREEMENT is intended to be as broad and inclusive as is permitted by the law of the State of Texas and that if any portion thereof is held invalid, it is agreed that the balance shall, notwithstanding, continue in full legal force and effect.

It is further mutually agreed that this agreement is the product of joint negotiation and drafting. No provision herein will be construed against either party on the basis that that party drafted the language in question.

10) NOTICES

The parties designate the individual named below as their agent for purposes of notices pursuant to this agreement. All notices and/or correspondence between the parties shall be delivered to the persons at the addresses set forth below. Any notice received under any provision of the agreement shall be deemed given upon personal delivery acknowledged in writing or when mailed, postage paid, to the address shown below. Either party may change its agent and/or address by giving five business days' written notice to the other party.

EXECUTED in duplicate originals as of the date of last signature below, to become effective as provided above.

CITY OF ROCKWALL

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	June 17, 2019
APPLICANT:	Charles Corbett
CASE NUMBER:	P2019-024; *Lots 17 & 18, Block B, Lago Vista Addition*

SUMMARY

Consider a request by Charles Corbett for the approval of a vacating plat establishing Lots 17 & 18, Block B, Lago Vista Addition being a 1.09-acre parcel of land currently identified as Lot 19, Block B, Lago Vista Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 18 (PD-18) for single-family land uses, addressed as 2835 Marcie Lane, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting approval of a vacating plat for the purpose of vacating one (1) lot (*i.e. Lot 19, Block B*) to re-establish two (2) lots (*i.e. Lots 17 & 18, Block B*) in order to sell the two (2) lots.

☑ On July 6, 1982, the City Council approved *Ordinance No. 82-32*, which established the development standards for Planned Development District 18 (PD-18). The ordinance was amended in 1985 [*Ordinance No. 85-23*], and amended in 1994 [*Ordinance No. 94-18*]. On April 14, 1994, the City Council approved a final plat [*Case No. PZ-94-52*], which established the Lago Vista Subdivision.

☑ On November 28, 2005, an administrative replat was approved to combine two (2) lots (*i.e. Lots 17 & 18, Block*) into one (1) lot (*i.e. Lot 19, Block B*).

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

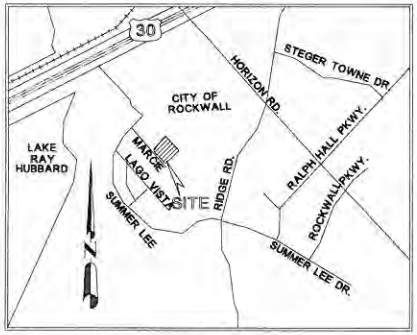
CONDITIONS OF APPROVAL

If the City Council chooses to approve the vacating plat for *Lots 17 & 18, Block B, Lago Vista Addition*, staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION



On June 11, 2019, the Planning and Zoning Commission's motion to recommend approval of the applicant's request passed by a vote of 6-0 with Chair Lyons absent.

TO:	Mayor and City Council
DATE:	June 17, 2019
APPLICANT:	Ryan Joyce; *Michael Joyce Properties*
CASE NUMBER:	Z2019-012; *Zoning Change (AG to PD)*

SUMMARY

Hold a public hearing to discuss and consider a request by Ryan Joyce of Michael Joyce Properties on behalf of Jen-Liang Wu of Unison Investment for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family-1 (SF-1) District land uses on a 61.45-acre tract of land identified as Tract 4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on the west side of Stodghill Road [FM-3549] north of the intersection of Stodghill Road [FM-3549] and Cornelius Road, and take any action necessary.

BACKGROUND

The subject property was annexed in 2008 [*Ordinance No. 08-66*], is located on the west side of Stodghill Road [FM-3549] north of the intersection of Stodghill Road [FM-3549] and Cornelius Road, and is zoned Agricultural (AG) District.

PURPOSE

The applicant is requesting a change in zoning from an Agricultural (AG) District to a Planned Development District for Single-Family 1 (SF-1) District land uses on a 61.45-acre tract of land, which is currently vacant.

ADJACENT LAND USES AND ACCESS

The subject property is located on the west side of Stodghill Road [FM-3549] north of the intersection of Stodghill Road [FM-3549] and Cornelius Road. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is Clem Road, which is identified as a *Minor Collector* on the City's Master Thoroughfare Plan. Beyond this there are several single-family homes that are zoned Single-Family Estate 4 (SFE-4.0), Single-Family Estate 1.5 (SFE-1.5), and Single-Family 1 (SF-1) District.

South: Directly south of the subject property there are several single family home that are outside of the city limits of the City of Rockwall. Beyond this is Cornelius Road, which is identified as a M4U (*major collector, four [4] lane, undivided roadway*) on the City's Master Thoroughfare Plan and delineates the city limits of Rockwall.

East: Directly east of the subject property is Stodghill Road [FM-3549], which is identified as a TXDOT4D (*Texas Department of Transportation, four (4) lane, divided roadway*) on the City's Master Thoroughfare Plan and delineates the city limits of Rockwall.

West: Directly west of the subject property, there are several single-family homes that are zoned Agricultural (AG) District followed by the city limits of the City of Rockwall. Beyond this there is a large tract of land that is zoned Agricultural (AG) District followed by FM-1141, which is identified as a M4D (*major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan.

CHARACTERISTICS OF THE REQUEST

The applicant is requesting a change in zoning from an Agricultural (AG) District to a Planned Development District for Single-Family 1 (SF-1) District land uses. The concept plan shows that the 61.45-acre property will consist of 40 single-family lots that will broken-down into two (2) lot types (*i.e. 120' x 200' & 130' x 400'*). Specifically, the development will include 17 lots that will be a minimum of 120' x 200' and 23 lots that will be a minimum of 130' x 400'. Of the 40 proposed lots 39 of the lots will range in size from 43,560 SF (*i.e. one [1] acre*) to 65,340 SF (*i.e. one and one half [1½]-acres*). There will be one (1) lot that will be 235,299 SF (*i.e. ~ five and one half [5½] acres*). The proposed minimum size of each dwelling unit (*i.e. air conditioned space)* will be 2,500 SF. The applicant has stated that the homes will be custom homes and will vary from lot to lot. The product will also be a rural style estate lot, which will incorporate a rural-local roadway (*i.e. will not be curb and gutter*) and a minimum front yard setback of 70-feet. The proposed housing product will have a minimum masonry requirement of 80%, with up to 50% cementitious fiberboard horizontal lap siding (*e.g. HardiBoard or Hardy Plan*) and stucco (*i.e. three [3] part stucco or a comparable product -- to be determined be staff*) being permitted. The proposed housing product conforms to the City's minimum masonry and anti-monotony requirements and will allow both *traditional swing* (*i.e. j-swing*), side entry, and flat front entry (*i.e. setback behind the width of the double car garage that is access from the traditional swing configuration*) garage configurations. All garage doors will incorporate upgraded finishes (*e.g. divided garage bay doors, carriage style hardware and lighting elements, cedar clad garage doors, or a similar alternative -- to be determined by staff*). The development will incorporate less than the required 20% open space; however, it will have a 30-foot landscape buffer adjacent to FM-3549 that will incorporate ground cover, a built-up berm and/or shrubbery -- *or a combination thereof* -- and trees and a five (5) foot sidewalk along the entire frontage. In addition, the applicant has stated that by virtue of the development incorporating larger lots without stockade or solid fencing, it will achieve the same feel as more dense developments that incorporate the required 20% open space. The proposed Planned Development District will be subject to the land uses and requirements stipulated for the Single-Family 1 (SF-1) District unless specifically called out in the Planned Development District ordinance. A summary of the proposed development standards for each lot type is as follows:

Lot Type (see Concept Plan) ►	***A***	***B***
Minimum Lot Width [1]	120'	130'
Minimum Lot Depth	200'	400'
Minimum Lot Area	43,560 SF	65,340 SF
Minimum Front Yard Setback [2] & [5]	70'	70'
Minimum Side Yard Setback	25'	25'
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	30'	30'
Minimum Length of Driveway Pavement	70'	70'
Maximum Height [3]	38'	38'
Minimum Rear Yard Setback [4]	50'	50'
Minimum Area/Dwelling Unit (SF) [Air Conditioned Space]	2,500 SF	2,500 SF
Maximum Lot Coverage	20%	20%
Permitted Encroachment in Required Setbacks[5]	Allowed	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (*whichever is greater*) of the single-family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimney, eaves, and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for a property; however, the

encroachment shall not exceed five (5) feet on side yard setbacks (adjacent to a street) and shall not encroach into public right-of-way. A sunroom is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces.

INFRASTRUCTURE

Based on the applicant's concept plan and proposed density, the following infrastructure will be required to be constructed to provide adequate public services to the subject property:

Water. The Master Water Plan indicates that the subject property is located within Water Service Area 780 (*i.e. not serviced by the City of Rockwall*); however, there is some dispute as to whether the City of Rockwall of Mt. Zion Water Supply has the right to serve this property. As a result, the applicant will be required to contact Mt. Zion Supply Corporation in order to determine if the property can be serviced.

Wastewater. The Master Wastewater Plan indicates that there is no wastewater infrastructure in the vicinity. There are no immediate plans for the City to install infrastructure in the area. As a result, the applicant must get approval from the City Council in order to utilize septic systems to serve the development.

Stormwater. Detention on the site may be required if the existing culvert under Clem Road does not have the necessary capacity to accommodate the increased runoff. A unit hydrograph method will need to be used in calculating detention for more than 20-acre.

Roadways. According to the Master Thoroughfare Plan, Clem Road is indicated as a *Minor Collector*, which requires a 60-foot right-of-way with a 41-foot *back to back street*. The applicant is required to construct 21-feet of right-of-way the entire length of the property along Clem Road. FM-3549 is indicated as a TXDOT4D (*Texas Department of Transportation, four (4) lane, divided roadway*), which requires a 120-foot right-of-way. The applicant must dedicate 60-feet from the centerline of FM-3549 for the future expansion of this roadway.

All proposed infrastructure improvements must meet the Engineering Department's *Standards of Design and Construction*.

CONFORMANCE WITH THE CITY'S CODES

The proposed Planned Development District conforms to the majority of the City's code requirements; however, it should be noted that the development standards contained within the Planned Development District ordinance deviate from the requirements of the Unified Development Code (UDC) and the Engineering Department's *Standards of Design and Construction Manual* in the following ways:

- ☑ The Engineering Department's *Standards of Design and Construction* Manual stipulates that, "(A)lleys shall be provided in all residential areas and shall be paved with steel reinforced concrete …"; however, the code does grant the City Council the ability to "… waive the residential alley requirement, if it is in the best interest of the City." (*Section 2.11; Page 14*)

- ☑ The Unified Development Code (UDC) requires that, "(i)n single-family or duplex districts, parking garages must be located at least 20-feet behind the front building façade for front entry garages, unless it is a *J-Swing* [*or traditional swing*] garage where the garage door is perpendicular to the street." (*Sec. 4.1; Art. VI; UDC*)

- ☑ According to Section 1.2, *Nature of PD Districts and Minimum Standards*, of Article X, *Planned Development Regulations*, of the UDC, "…(u)nless otherwise provided by the PD Ordinance, a minimum of 20 percent of the gross land area within the entire PD District shall be devoted to open space."

In this case, the applicant is proposing to allow traditional swing, side entry, and flat-front entry garages in lieu of alleyways. All flat-front entry garages will be setback either [*1*] behind the width of a double garage that is accessed from a traditional swing or [*2*] flush with the front façade of the home for the standard flat-front entry garages. As a compensatory measure for not meeting the required 20-foot setback stipulated by the Unified Development Code (UDC) for flat-front entry garages, the applicant is requiring that all garage doors incorporate upgraded finishes (*e.g. divided garage bay doors, carriage style hardware and lighting elements, cedar clad garage doors or a similar alternative*). With regard to the open space requirement, the applicant has stated that estate style lots with non-transparent fencing provide a similar aesthetic as traditional neighborhoods that incorporate opaque fencing and 20% open space. Staff has incorporated these requirements into the draft ordinance and by approving this case, the City Council would be waiving these requirements.

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

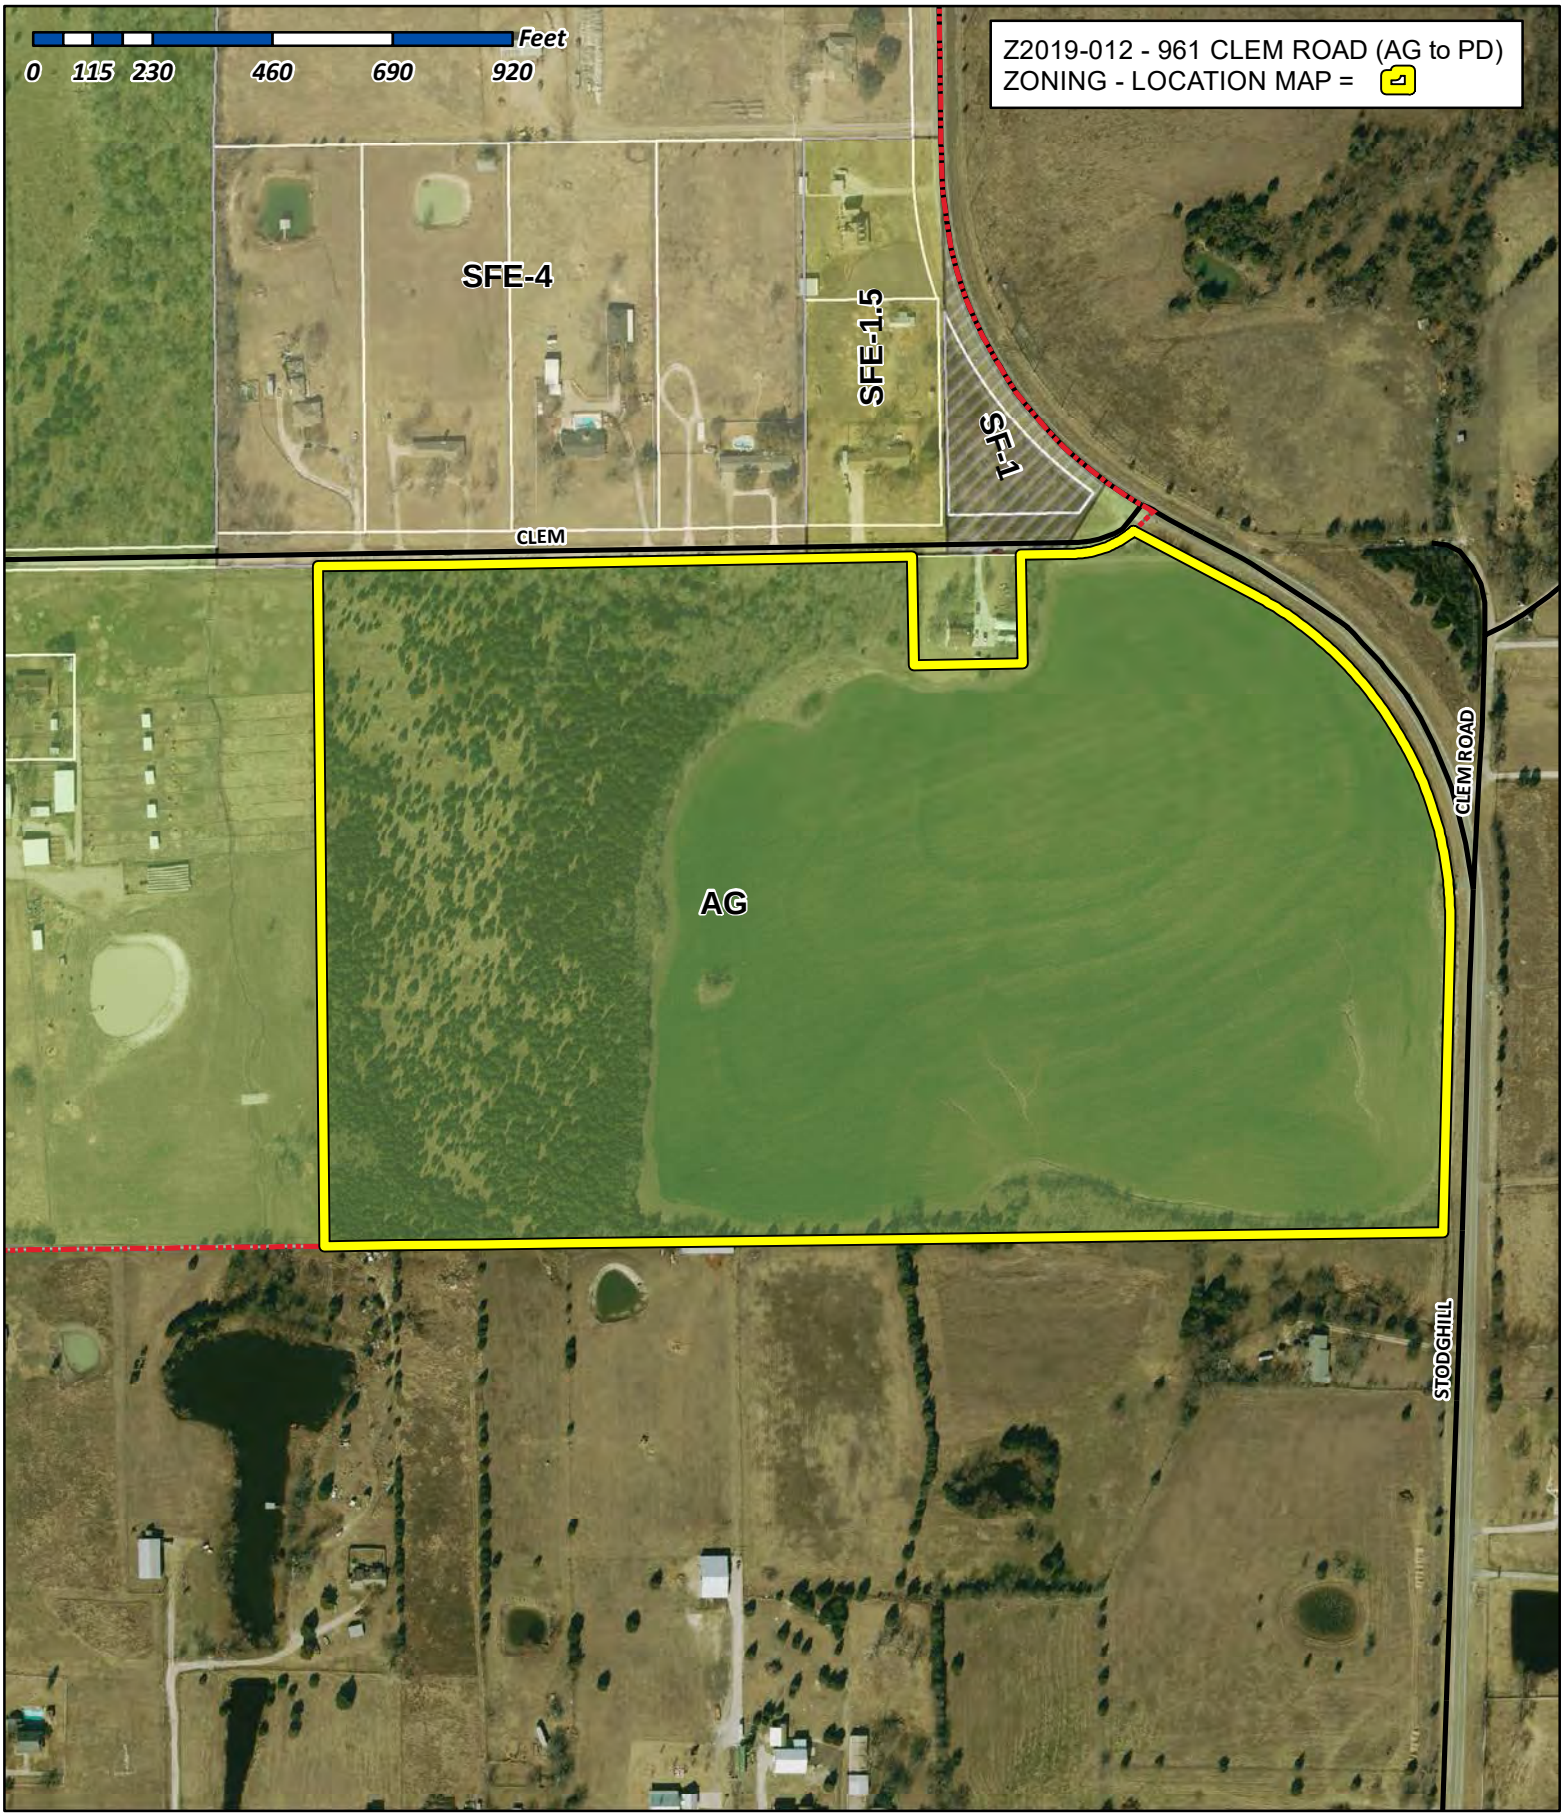
The OURHometown Vision 2040 Comprehensive Plan indicates that the subject property is located in the *Northeast Residential District* and is designated for *Low Density Residential (LDR)* land uses. The *Northeast Residential District* is characterized by its low-density subdivisions and rural/estate style lots. This district has several large vacant tracts of land that are suitable for low-density residential development, and it is anticipated that this district will be a future growth center for the City. The *Low Density Residential (LDR)* land use category consists of residential subdivisions that are two (2) units per gross acre or less. Primary land uses in this district are suburban, estate, and rural developments. In this case, the development is an estate style subdivision with a density of 0.63 units per gross acre. This is substantially in conformance to intent of the *Northeast Residential District* and the *Low Density Residential (LDR)* land use designation.

In addition, the OURHometown Vision 2040 Comprehensive Plan seeks to "…(p)reserve the City's current residential to non-residential land use ratio (*i.e. 80% Residential; 20% Commercial*) in order to maintain a balance mix of land uses for fiscal sustainability." The *Land Use Plan* contained in the Comprehensive Plan was created to guide the City toward the desired 80% residential to 20% non-residential land use balance. Currently, the land use balance is at 75.48% residential to 24.52% non-residential. If the City Council chooses to approve this case -- *since this case is proposing zoning in conformance to the Land Use Plan* -- the ratio will remain the same. A more detailed view of the current and proposed land use ratios has been included in the attached packet. With all this being said, zoning requests are discretionary decisions for the City Council pending a recommendation from the Planning and Zoning Commission.

NOTIFICATIONS

On May 24, 2019, staff mailed 13 notices to property owners and occupants within 500-feet of the subject property and located within the City Limits. There are no Homeowner's Associations (HOA's) or neighborhood groups within 1,500-feet of the subject property and participating in the Neighborhood Notification Program. At the time this report was written, staff had not received any notices concerning this case.

CONDITIONS OF APPROVAL



If the City Council chooses to approve the applicant's request to request for a change in zoning from an Agricultural (AG) District to a Planned Development District (PD) for Single-Family 1 (SF-1) District land uses, then staff would propose the following conditions of approval:

(1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

(2) Any construction resulting from the approval of this zoning change shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION

On June 11, 2019, the Planning and Zoning Commission's motion to recommend approval of the applicant's request passed by a vote of 6-0 with Chair Lyons absent.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2019-012: 961 Clem Road (AG to SF-1)

Hold a public hearing to discuss and consider a request by Ryan Joyce of Michael Joyce Properties on behalf of Jen-Liang Wu of Unison Investment for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family-1 (SF-1) District land uses on a 61.45-acre tract of land identified as Tract 4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on the west side of Stodgehill Road [FM-3549] north of the intersection of Stodgehill Road [FM-3549] and Cornelius Road, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 6/11/2019 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 6/17/2019 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Korey Brooks
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **6/17/2019** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

11 NORTHEAST RESIDENTIAL DISTRICT

DISTRICT DESCRIPTION

The *Northeast Residential District* is characterized by its established low-density residential subdivisions and rural/estate style lots. This district is anticipated to be a future growth center for the City, having several large vacant tracts of land suitable for low-density, residential development. In addition, the City currently owns a large tract of land that will be a northern community park and serve this district in the future.

DISTRICT STRATEGIES

The *Northeast Residential District* being mostly an established residential district, is not anticipated to change or transition. The strategies for this district are:

1. *Estate and Rural Residential*. The maintenance of the *Estate* and *Rural Residential* housing types are important to balancing the diversity of suburban lots to large lot housing within the City. These areas also provide rural reserves for the City and create a natural transition zone to the east, towards FM-3549.
2. *Suburban Residential*. Any new *Suburban Residential* developments should include a mix of larger to mid-sized lots. Lots in these developments should not be smaller than existing *Suburban Residential* in this district.
3. *Infill Development*. Residential infill development within this district should be compatible with the surrounding structures and should generally follow the guidelines for low density, suburban housing or rural/estate housing.
4. *Neighborhood/Convenience Centers*. The commercial in this district is intended to support the existing residential subdivisions and should be compatible in scale with the adjacent residential structures.
5. *John King Boulevard Trail Plan*. A ten (10) foot hike/bike trail should be incorporated along John King Boulevard with rest stops and signage as indicated in *Appendix 'B'* of this Comprehensive Plan.

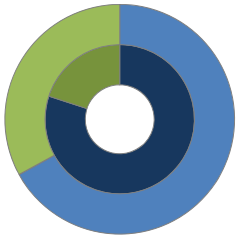
FISCAL IMPACT ANALYSIS TOOL



ASSUMPTIONS: (1) All values are based on the Appraised Value and *not* the Market Value; (2) All Agricultural (AG) District land is assumed to be residential under Current Zoning and zoned in accordance to the Future Land Use Map under Current Zoning at Build Out.
DISCLAIMER: The information provided below is not a reasonable basis for the approval or denial of any zoning case. This is a general tool that is meant to assist elected and appointed officials in the understanding the potential fiscal impacts of a zoning request, and to track conformance to the Comprehensive Plan's targeted land use ratios of 80% residential to 20% commercial land use, which is intended to yield a 67% residential value to 33% commercial value.
SUMMARY OF METHODOLOGY: The methods used in this study are based on a rough fiscal impact analysis, and involve reducing the City's land values down to a per square footage cost to estimate potential impact on existing property value. The cost of service model is constructed around the City's current fiscal year costs versus the percentage of land area that is currently residential and non-residential. A per capita multiplier and average cost method were used to estimate sales tax.

LEGAL DESCRIPTION

TRACT 1

BEING 62.517 ACRES OF LAND LOCATED IN THE WILLIAM DALTON SURVEY, ABSTRACT NUMBER 72, ELLIS COUNTY, TEXAS, BEING ALL OF THAT CERTAIN CALLED 61.455 ACRE TRACT AS DESCRIBED TO UNISON INVESTMENT BY DEED RECORDED IN VOLUME 489, PAGE 23, DEED RECORDS, ROCKWALL COUNTY, TEXAS (D.R.R.C.T.) AND BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS;

BEGINNING AT A FENCE CORNER FOUND IN THE WEST LINE OF FARM-TO-MARKET ROAD 3549 (100' RIGHT-OF-WAY) AT THE SOUTHEAST CORNER OF THE ABOVE-MENTIONED 61.455 ACRE TRACT;

THENCE SOUTH 89 DEGREES 25 MINUTES 31 SECONDS WEST, AT A DISTANCE OF 484.49 FEET PASS 3.62 FEET RIGHT OF A 5/8" IRON PIPE FOUND AND CONTINUING FOR A TOTAL DISTANCE OF 1353.00 FEET WITH THE SOUTH LINE OF SAID 61.455 ACRE TRACT TO A 1/2" IRON PIPE FOUND AT THE NORTHWEST CORNER OF THE WILLIAM KYLE ALLEN ET UX 12.888 ACRE TRACT AS DESCRIBED IN VOLUME 153, PAGE 629, (D.R.R.C.T.) AND THE NORTHEAST CORNER OF THE ROBERT PEOPLES AND MEGAN PEOPLES 10.00 ACRE TRACT AS DESCRIBED IN INSTRUMENT NUMBER 20130000483387, (D.R.R.C.T.);

THENCE SOUTH 89 DEGREES 24 MINUTES 55 SECONDS WEST, A DISTANCE OF 329.15 FEET WITH THE SOUTH LINE OF SAID 61.455 ACRE TRACT TO A 1/2" IRON ROD WITH RED CAP STAMPED "ONEAL 6570" SET AT THE NORTHWEST CORNER OF THE ABOVE-MENTIONED 10.00 ACRE TRACT AND THE NORTHEAST CORNER OF THE BILLY CONRAD HAGEN 4.030 ACRE TRACT AS DESCRIBED IN VOLUME 103, PAGE 775, (D.R.R.C.T.);

THENCE SOUTH 89 DEGREES 55 MINUTES 41 SECONDS WEST, A DISTANCE OF 328.28 FEET WITH THE SOUTH LINE OF SAID 61.455 ACRE TRACT, SAME BEING THE COMMON NORTH LINE OF THE ABOVE-MENTIONED 4.030 ACRE TRACT AND THE LORIN PRESTON LARMAN AND JEANNE LARMAN 4.962 ACRE TRACT AS DESCRIBED IN VOLUME 3679, PAGE 25, (D.R.R.C.T.) TO A 5/8" IRON ROD FOUND AT THE NORTHWEST CORNER OF THE JUST MENTIONED 4.962 ACRE TRACT;

THENCE SOUTH 89 DEGREES 37 MINUTES 12 SECONDS WEST, A DISTANCE OF 136.07 FEET TO THE SOUTHWEST CORNER OF SAID 61.455 ACRE TRACT, SAME BEING THE COMMON SOUTHEAST CORNER OF THE CRAIG WILLIAM MCCALLUM 20.057 ACRE TRACT AS DESCRIBED IN INSTRUMENT NUMBER 20150000001423, (D.R.R.C.T.), FROM WHICH A 1/2" IRON ROD WITH CAP STAMPED "DC&A" BEARS SOUTH 60 DEGREES 38 MINUTES 16 SECONDS EAST, A DISTANCE OF 1.05 FEET AND A FENCE CORNER BEARS NORTH 89 DEGREES 37 MINUTES 12 SECONDS EAST, A DISTANCE OF 0.71 FEET;

THENCE NORTH 00 DEGREES 53 MINUTES 26 SECONDS WEST, A DISTANCE OF 1320.98 FEET TO A MAG NAIL WITH WASHER STAMPED "ONEAL 6570" SET IN THE APPROXIMATE CENTERLINE OF CLEM ROAD (NO RECORD FOUND BY SURVEYOR) AT THE NORTHWEST CORNER OF SAID 61.455 ACRE TRACT AND THE NORTHEAST CORNER OF THE ABOVE-MENTIONED 20.057 ACRE TRACT;

THENCE NORTH 98 DEGREES 59 MINUTES 46 SECONDS EAST, A DISTANCE OF 1146.71 FEET WITH THE APPROXIMATE CENTERLINE OF CLEM ROAD AND THE NORTH LINE OF SAID 61.455 ACRE TRACT TO A 1/2" IRON ROD FOUND;

THENCE SOUTH 00 DEGREES 08 MINUTES 11 SECONDS EAST, A DISTANCE OF 208.75 FEET LEAVING CLEM ROAD TO A 1/2" IRON ROD WITH RED CAP STAMPED "ONEAL 6570" SET AT AN INTERIOR CORNER OF SAID 61.455 ACRE TRACT;

THENCE NORTH 89 DEGREES 52 MINUTES 31 SECONDS EAST, A DISTANCE OF 208.75 FEET TO A 1/2" IRON ROD WITH RED CAP STAMPED "ONEAL 6570" SET FOR AN INTERIOR CORNER OF SAID 61.455 ACRE TRACT;

THENCE NORTH 00 DEGREES 05 MINUTES 04 SECONDS WEST, A DISTANCE OF 209.15 FEET TO A MAG NAIL WITH WASHER STAMPED "ONEAL 6570" SET IN THE APPROXIMATE CENTERLINE OF CLEM ROAD AND AN EXTERIOR CORNER OF SAID 61.455 ACRE TRACT;

THENCE NORTH 89 DEGREES 44 MINUTES 43 SECONDS EAST, A DISTANCE OF 261.79 FEET WITH THE NORTH LINE OF SAID 61.455 ACRE TRACT TO A CONCRETE MONUMENT FOUND IN THE SOUTHWEST LINE OF FARM-TO-MARKET ROAD 3549;

THENCE SOUTH 62 DEGREES 32 MINUTES 57 SECONDS EAST, A DISTANCE OF 205.29 FEET WITH THE SOUTHWEST LINE OF FARM-TO-MARKET ROAD 3549 AND THE COMMON NORTHEAST LINE OF SAID 61.455 ACRE TRACT, TO A BROKEN CONCRETE MONUMENT FOUND AT THE BEGINNING OF A CURVE TO THE RIGHT HAVING A DELTA ANGLE OF 063 DEGREES 42 MINUTES 40 SECONDS, A RADIUS OF 713.94 FEET AND A LONG CHORD THAT BEARS SOUTH 30 DEGREES 30 MINUTES 10 SECONDS EAST FOR A DISTANCE OF 753.61 FEET;

THENCE SOUTHEASTERLY WITH SAID CURVE TO THE RIGHT AND THE SOUTHWEST LINE OF FARM-TO-MARKET ROAD 3549 AND THE COMMON NORTHEAST LINE OF SAID 61.455 ACRE TRACT, AN ARC LENGTH OF 793.88 FEET TO A BROKEN CONCRETE MONUMENT FOUND;

THENCE SOUTH 01 DEGREES 28 MINUTES 55 SECONDS WEST, WITH THE WEST LINE OF FARM-TO-MARKET ROAD 3549 AND THE COMMON EAST LINE OF SAID 61.455 ACRE TRACT, A DISTANCE OF 580.93 FEET TO THE **POINT OF BEGINNING** AND CONTAINING 62.517 ACRES OF LAND, MORE OR LESS.

TRACT 2

BEING 1.785 ACRES OF LAND LOCATED IN THE WILLIAM DALTON SURVEY, ABSTRACT NUMBER 72, ELLIS COUNTY, TEXAS, BEING ALL OF THAT CERTAIN CALLED 1.781 ACRE TRACT AS DESCRIBED TO UNISON INVESTMENT BY DEED RECORDED IN VOLUME 489, PAGE 23, DEED RECORDS, ROCKWALL COUNTY, TEXAS (D.R.R.C.T.) AND BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS;

BEGINNING AT A 1/2" IRON ROD FOUND AT THE NORTHEAST CORNER OF THE ABOVE-MENTIONED 1.781 ACRE TRACT;

THENCE SOUTH 01 DEGREES 54 MINUTES 03 SECONDS WEST, AT 480.25 FEET PASS A 1/2" IRON ROD FOUND AND CONTINUING FOR A TOTAL DISTANCE OF 491.92 FEET TO A POINT FOR CORNER IN THE NORTHEAST LINE OF FARM-TO-MARKET ROAD 3549 AT THE SOUTH CORNER OF SAID 1.781 ACRE TRACT AND BEING AT THE BEGINNING OF A CURVE TO THE LEFT HAVING A DELTA ANGLE OF 045 DEGREES 15 MINUTES 25 SECONDS, A RADIUS OF 813.94 FEET AND A LONG CHORD THAT BEARS NORTH 39 DEGREES 49 MINUTES 00 SECONDS WEST FOR A DISTANCE OF 626.33 FEET;

THENCE NORTHWESTERLY WITH SAID CURVE TO THE LEFT AND THE NORTHEAST LINE OF FARM-TO-MARKET ROAD 3549 AND THE SOUTHWEST LINE OF SAID 1.781 ACRE TRACT, AN ARC LENGTH OF 642.92 FEET TO A 1/2" IRON ROD FOUND;

THENCE NORTH 62 DEGREES 26 MINUTES 42 SECONDS WEST, A DISTANCE OF 15.77 FEET WITH THE NORTHEAST LINE OF FARM-TO-MARKET ROAD 3549 TO A 1/2" IRON ROD WITH RED CAP STAMPED "ONEAL 6570" SET AT THE WEST CORNER OF SAID 1.781 ACRE TRACT;

THENCE NORTH 89 DEGREES 33 MINUTES 55 SECONDS EAST, A DISTANCE OF 431.37 FEET TO THE **POINT OF BEGINNING** AND CONTAINING 1.785 ACRES OF LAND, MORE OR LESS

SURVEYOR'S CERTIFICATE

TO: OAK NATIONAL HOLDINGS, LLC; TITLE RESOURCES GUARANTY COMPANY;

THIS IS TO CERTIFY THAT THIS MAP OR PLAT AND THE SURVEY ON WHICH IT IS BASED WERE MADE IN ACCORDANCE WITH THE 2016 MINIMUM STANDARD DETAIL REQUIREMENTS FOR ALTA/NSPS LAND TITLE SURVEYS, JOINTLY ESTABLISHED AND ADOPTED BY ALTA AND NSPS, AND INCLUDES ITEMS 1, 2, 3, 4, 6(a), 7(a), 8, 9, 11, 13, 16 & 17 OF TABLE A THEREOF. THE FIELD WORK WAS COMPLETED ON APRIL 19, 2019.

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO PLANNED DEVELOPMENT DISTRICT XX (PD-XX) FOR SINGLE FAMILY 1 (SF-1) DISTRICT LAND USES ON THE SUBJECT PROPERTY, BEING A 62.45-ACRE TRACT OF LAND IDENTIFIED AS TRACT 4 OF THE W. M. DALTON SURVEY, ABSTRACT NO. 72, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'* AND DEPICTED HEREIN BY *EXHIBIT 'B'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Ryan Joyce of Michael Joyce Properties on behalf of Jen-Liang Wu of Unison Investment for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family 1 (SF-1) District land uses, on a 62.45-acre tract of land identified as Tract 4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* and depicted in *Exhibit 'B'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

SECTION 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, depicted in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the *Density and Development Standards*, outlined in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a

condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 4. That a *Master Parks and Open Space Plan* for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan* described in *Exhibit 'C'* of this ordinance, shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

SECTION 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 6(b) through 6(f) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for a *Master Parks and Open Space Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Master Parks and Open Space Plan
(2) Master Plat
(3) Preliminary Plat
(4) PD Site Plan
(5) Final Plat

(c) *Master Parks and Open Space Plan.* An *Master Parks and Open Space Plan* for the *Subject Property*, as depicted in *Exhibit 'C'* of this ordinance, prepared in accordance with this ordinance, shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat.* A *Master Plat* for the *Subject Property*, as depicted in *Exhibit 'C'* of this ordinance, shall be submitted and shall identify the proposed timing of each phase of the proposed development. A *Master Plat* application may be processed by the City concurrently with a *Master Parks and Open Space Plan* application for the development.

(e) *Preliminary Plat.* A *Preliminary Plat* for each phase of the *Subject Property*, as depicted in *Exhibit 'C'* of this ordinance, shall be submitted in accordance with the phasing plan established by the *Master Plat* and shall include a *Treescape Plan* for the phase being *Preliminary Platted*. A *Preliminary Plat* application may be processed by the City concurrently with a *Master Plat* and a *Master Parks and Open Space Plan* application for the development.

(f) *PD Site Plan.* A *PD Site Plan* for each phase of the development of the *Subject Property*, as depicted in *Exhibit 'C'* of this ordinance, shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features. A *PD Site Plan* application may be processed by the City concurrently with a *Final Plat* application for the development.

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, shall be submitted for approval.

SECTION 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and

each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 9. That this ordinance shall take effect immediately from and after its passage;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 1ST DAY OF JULY, 2019.

DRAFT ORDINANCE 06.17.2019

Exhibit 'A':
Legal Description

BEING 62.517 acres of land located in the WILLIAM DALTON SURVEY, ABSTRACT NUMBER 72, Ellis County, Texas, being all of that certain called 61.455 acre tract as described to Unison Investment by deed recorded in volume 489, page 23, Deed Records, Rockwall County, Texas (D.R.R.C.T.) and being more particularly described by metes and bounds as follows:

BEGINNING at a fence corner found in the west line of Farm-to-Market Road 3549 (100' right-of-way) at the southeast corner of the above-mentioned 61.455 acre tract;

THENCE South 89 degrees 25 minutes 31 seconds West, at a distance of 484.49 feet pass 3.62 feet right of a 5/8" iron pipe found and continuing for a total distance of 1353.00 feet with the south line of said 61.455 acre tract to a 1/2" iron pipe found at the northwest corner of the William Kyle Allen et ux 12.888 acre tract as described in Volume 153, Page 629, (D.R.R.C.T.) and the northeast corner of the Robert Peoples and Megan Peoples 10.00 acre tract as described in Instrument Number 2013000483387, (D.R.R.C.T.);

THENCE South 89 degrees 24 minutes 55 seconds West, a distance of 329.15 feet with the south line of said 61.455 acre tract to a 1/2" iron rod with red cap stamped "ONEAL 6570" set at the northwest corner of the above-mentioned 10.00 acre tract and the northeast corner of the Billy Conrad Hagen 4.030 acre tract as described in Volume 103, Page 775, (D.R.R.C.T.);

THENCE South 89 degrees 55 minutes 41 seconds West, a distance of 328.28 feet with the south line of said 61.455 acre tract, same being the common north line of the above-mentioned 4.030 acre tract and the Lorin Preston Larman and Jeanne Larman 4.962 acre tract as described in Volume 3679, Page 25, (D.R.R.C.T.) to a 5/8" iron rod found at the northwest corner of the just mentioned 4.962 acre tract;

THENCE South 89 degrees 37 minutes 12 seconds West, a distance of 136.07 feet to the southwest corner of said 61.455 acre tract, same being the common southeast corner of the Craig William Mccallum 20.057 acre tract as described in Instrument Number 20150000001423, (D.R.R.C.T.), from which a 1/2" iron rod with cap stamped "DC&A" bears South 60 degrees 38 minutes 16 seconds East, a distance of 1.05 feet and a fence corner bears North 89 degrees 37 minutes 12 seconds East, a distance of 0.71 feet;

THENCE North 00 degrees 53 minutes 26 seconds West, a distance of 1320.98 feet to a mag nail with washer stamped "ONEAL 6570" set in the approximate centerline of Clem Road (no record found by surveyor) at the northwest corner of said 61.455 acre tract and the northeast corner of the above-mentioned 20.057 acre tract;

THENCE North 88 degrees 59 minutes 46 seconds East, a distance of 1146.71 feet with the approximate centerline of Clem Road and the north line of said 61.455 acre tract to a 1/2" iron rod found;

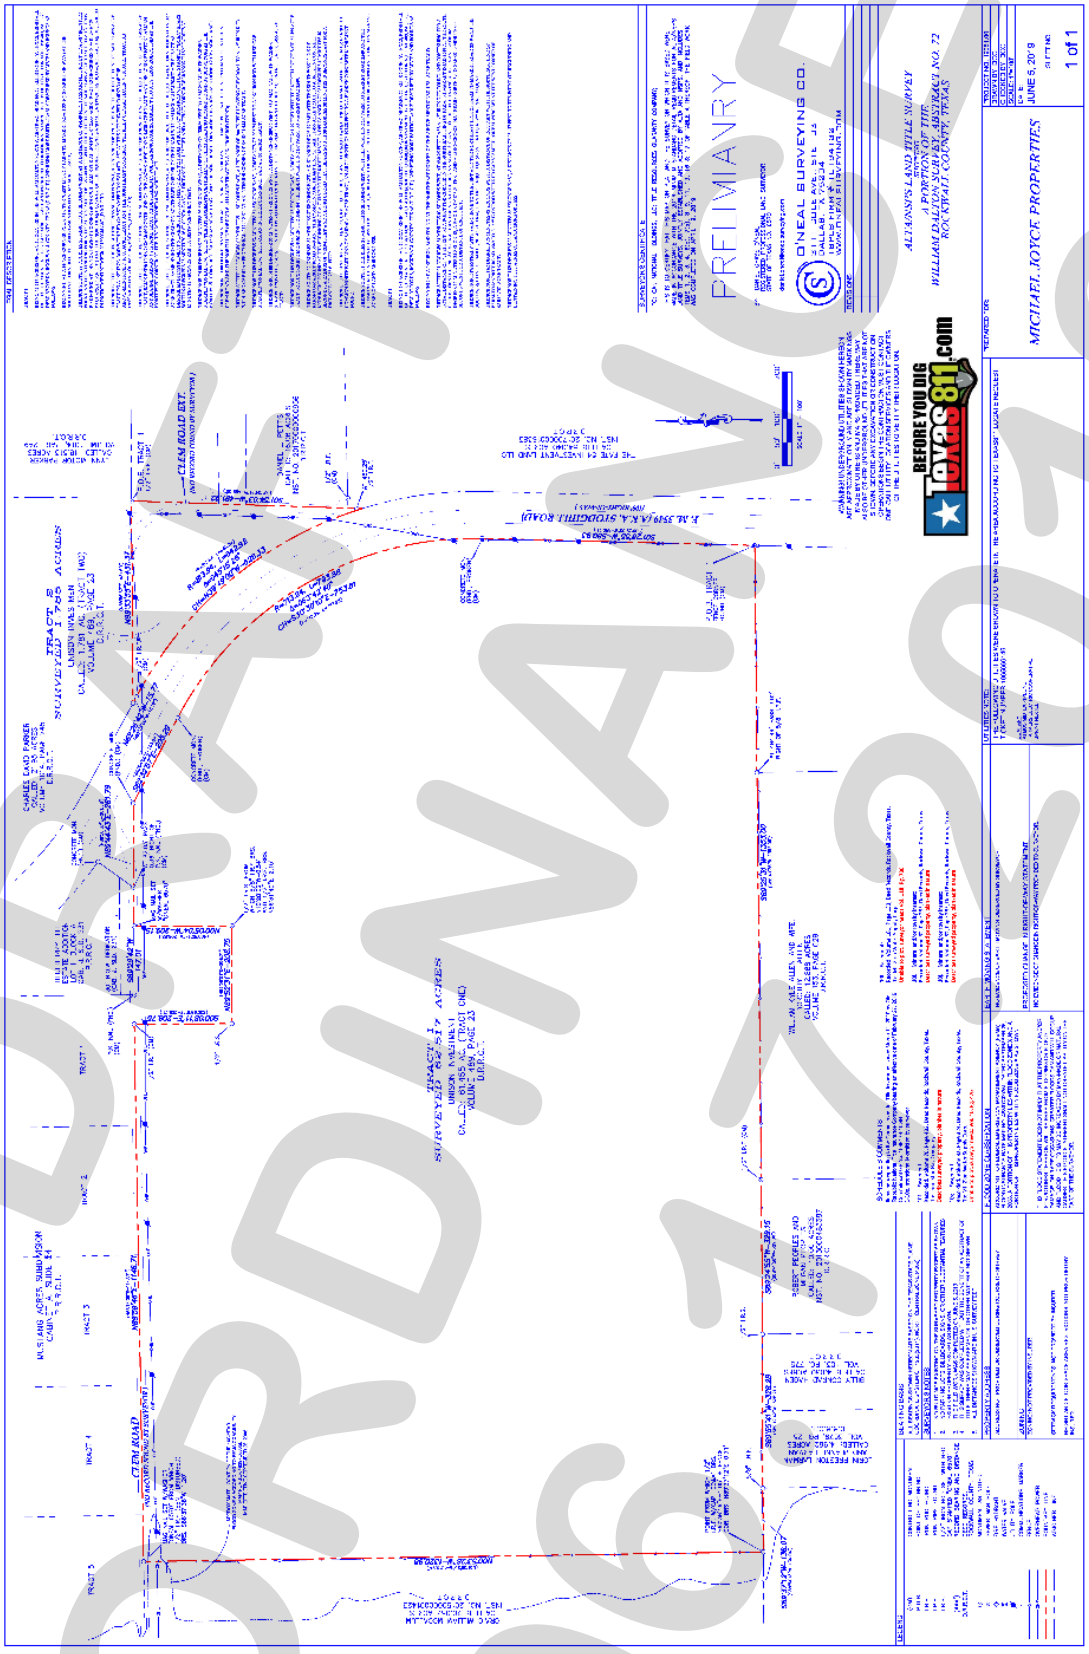
THENCE South 00 degrees 08 minutes 11 seconds East, a distance of 208.75 feet leaving Clem Road to a 1/2" iron rod with red cap stamped "ONEAL 6570" set at an interior corner of said 61.455 acre tract;

THENCE North 89 degrees 52 minutes 31 seconds East, a distance of 208.75 feet to a 1/2" iron rod with red cap stamped "ONEAL 6570" set for an interior corner of said 61.455 acre tract;

THENCE North 00 degrees 05 minutes 04 seconds West, a distance of 209.15 feet to a mag nail with washer stamped "ONEAL 6570" set in the approximate centerline of Clem Road and an

exterior corner of said 61.455 acre tract;

THENCE North 89 degrees 44 minutes 43 seconds East, a distance of 261.79 feet with the north line of said 61.455 acre tract to a concrete monument found in the southwest line of Farm-To-Market Road 3549;



THENCE South 62 degrees 32 minutes 57 seconds East, a distance of 205.29 feet with the southwest line of Farm-To-Market Road 3549 and the common northeast line of said 61.455 acre tract, to a broken concrete monument found at the beginning of a curve to the right having a delta angle of 063 degrees 42 minutes 40 seconds, a radius of 713.94 feet and a long chord that bears South 30 degrees 30 minutes 10 seconds East for a distance of 753.61 feet;

THENCE southeasterly with said curve to the right and the southwest line of Farm-To-Market Road 3549 and the common northeast line of said 61.455 acre tract, an arc length of 793.88 feet to a broken concrete monument found;

THENCE south 01 degrees 28 minutes 55 seconds west, with the west line of Farm-To-Market Road 3549 and the common east line of said 61.455 acre tract, a distance of 580.93 feet to the **POINT OF BEGINNING** and containing 62.517 acres of land, more or less.

Density and Development Standards.

1. *Permitted Uses.* Unless specifically provided by this Planned Development District ordinance, only those uses permitted within the Single Family 1 (SF-1) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'C'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	120' x 200'	43,560 SF	17	42%
B	130' x 400'	65,340 SF	23	58%
		Maximum Permitted Units:	*40*	*100.00%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development District ordinance, the development standards stipulated by the Single Family 1 (SF-1) District, as specified by Article V, *District Development Standards*, of the Unified Development Code (UDC) are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed *0.65* dwelling units per gross acre of land; however, in no case should the proposed development exceed *40* units. All lots shall conform to the standards depicted in *Table 2*, which are as follows:

Table 2: Lot Dimensional Requirements

Lot Type (see Concept Plan) ►	***A***	***B***
Minimum Lot Width [1]	120'	130'
Minimum Lot Depth	200'	400'
Minimum Lot Area	43,560 SF	65,340 SF
Minimum Front Yard Setback [2] & [5]	70'	70'
Minimum Side Yard Setback	25'	25'
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	30'	30'
Minimum Length of Driveway Pavement	70'	70'
Maximum Height [3]	38'	38'
Minimum Rear Yard Setback [4]	50'	50'
Minimum Area/Dwelling Unit (SF) [Air Conditioned Space]	2,500 SF	2,500 SF
Maximum Lot Coverage	20%	20%
Permitted Encroachment in Required Setbacks[5]	Allowed	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (*whichever is greater*) of the single-family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimney, eaves, and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for a property; however, the encroachment shall not exceed five (5) feet on side yard setbacks (adjacent to a street) and shall not encroach into public right-of-way. A sunroom is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces.

DRAFT 06.17.19

4. *Building Standards.* All development shall adhere to the following building standards:

   (a) Masonry Requirement. The minimum masonry requirement for the exterior façades of all buildings shall be 80%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementitious fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the masonry requirement.

   (b) Roof Pitch. A minimum of an *8:12* roof pitch is required on all structures with the exception of porches, which shall have a minimum of a *4:12* roof pitch.

   (c) Garage Orientation. Garages shall be oriented in a *traditional swing* (or *j-swing*), side entry, or in a flat-front entry configuration (*i.e. even with the front façade of the primary structure*). Garages utilizing a *traditional swing* (or *j-swing*) are permitted to have a single garage door facing the street that is behind the width of the double car garage that is accessed from a *traditional swing* configuration. All garage doors shall be required to have upgraded finishes (*e.g. divided garage bay doors, carriage style hardware and lighting elements, cedar clad garage doors, or a similar alternative -- to be approved by staff*) [*examples of acceptable garage configurations are depicted in Figure 1*].

Figure 1: *Example Garage Doors*

5. *Anti-Monotony Restrictions.* The development shall adhere to the *Anti-Monotony Matrix* depicted in *Table 3* below (*for spacing requirements see Figures 2 & 3 below*).

Table 3 : Anti-Monotony Matrix

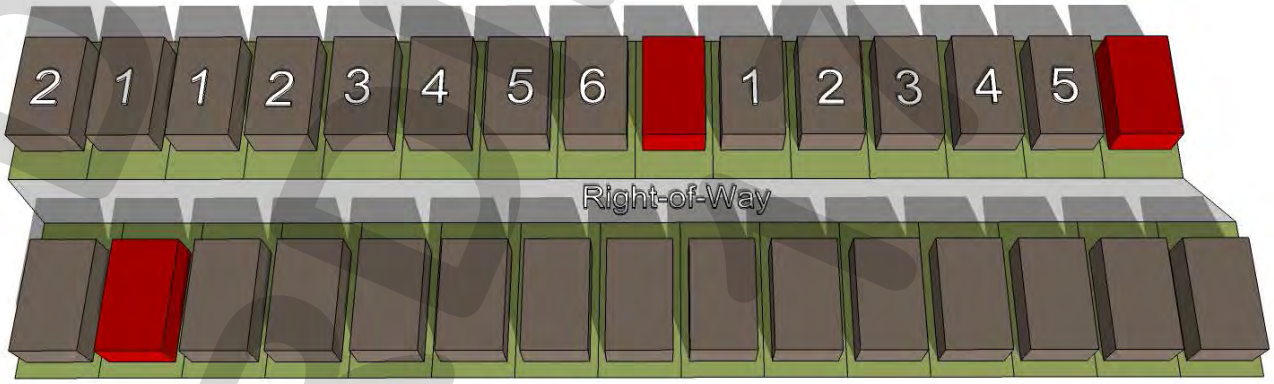
Lot Type	*Minimum Lot Size*	*Elevation Features*
A	120' x 200'	(1), (2), (3)
B	130' x 400'	(1), (2), (3)

   (1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least five (5) intervening homes of differing materials on the same side of the street beginning with the adjacent property and six (6) intervening homes of differing materials on the opposite side of the street.

   (2) Front building elevations shall not repeat along any block face without at least five (5) intervening homes of differing appearance on the same side of the street and six (6) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or Clem Road shall not repeat without at least five (5) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

DRAFT
ORDINANCE

(a) Number of Stories
(b) Permitted Encroachment Type and Layout
(c) Roof Type and Layout
(d) Articulation of the Front Façade



(3) Permitted encroachment (*i.e. porches*) elevations shall not repeat or be the same along any block face without at least five (5) intervening homes of sufficient dissimilarity on the same side of the street beginning with the home adjacent to the subject property and six (6) intervening homes beginning with the home on the opposite side of the street.

(4) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

Figure 2: Properties line up on the opposite side of the street. Where RED is the subject property.

Figure 3: Properties do not line up on opposite side of the street. Where RED is the subject property.

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(a) Wrought Iron/Tubular Steel. All Lots shall utilize fencing materials that shall be open in nature and not to exceed six (6) feet in height. Fences that extend beyond the

front building line of any structure shall be required to be pipe-rail or similar. No chain link or wooden fencing shall be allowed.

(b) Wrought Iron/Tubular Steel. Lots located along the perimeter of the subdivision, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences shall not exceed six (6) feet in height. All perimeter fencing of the development shall incorporate masonry columns at 45-feet off center spacing.

7. Landscape and Hardscape Standards.

(1) *Landscape.* Landscaping shall be reviewed and approved with the PD Site Plan. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

(a) Landscape Buffer and Sidewalks (FM-3549). A minimum of a 30-foot landscape buffer shall be provided along FM-3549 (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a *built-up* berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, three (3) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. The developer shall also be responsible for the construction of a five (5) foot sidewalk situated within the 30-foot landscape buffer adjacent to FM-3549.

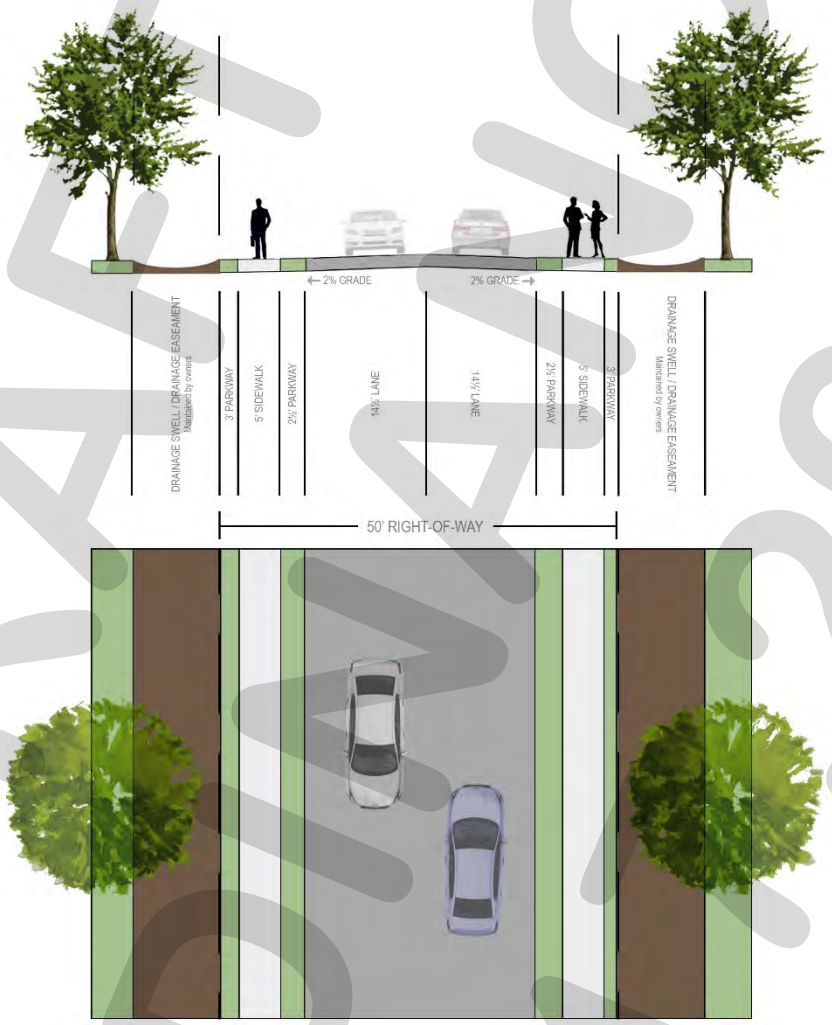
(b) Landscape Buffer and Sidewalks (Clem Road). A minimum 20-foot landscape buffer shall be provided

(3) *Street Trees.* Prior to issuance of a Certificate of Occupancy (CO), all residential single-family lots situated within the proposed subdivision shall be landscaped with canopy trees from the list stipulated by Section 7.1 of this ordinance in the following sizes and proportions:

(i) Three (3), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of the required lots

(ii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the rear yards of the required lots.

(iii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the side yards facing the street.



(4) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association (HOA).

DRAFT ORDINANCE 05.13.19

(5) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan*.

8. *Streets.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to the City's street standards as shown below in *Figure 3.*

Figure 3: *Rural-Local Roadway Cross-section*

9. *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

10. *Sidewalks.* All sidewalks adjacent to a street shall be a maximum of three (3) feet inside the right-of-way line and be five (5) feet in overall width.

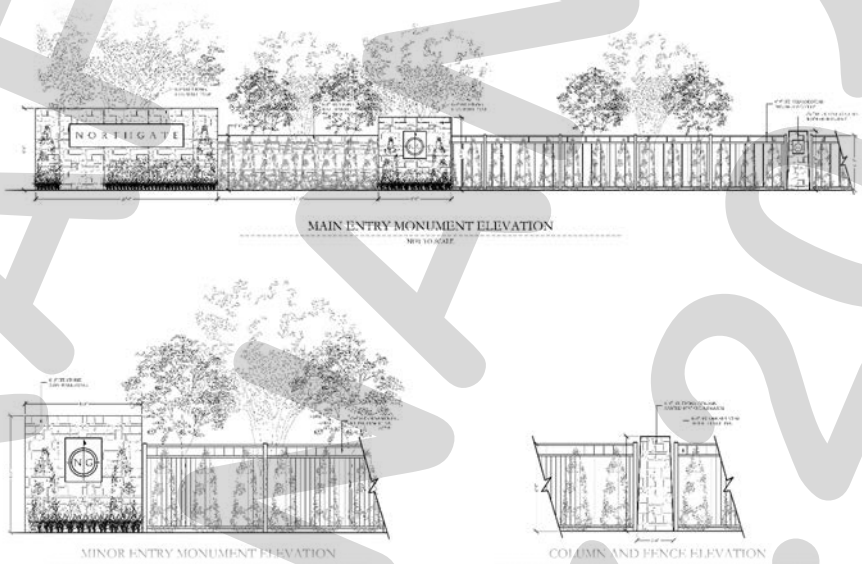
11. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be

DRAFT 05.21.2019

considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.

12. *Neighborhood Signage and Enhancements.* Permanent subdivision identification signage shall be permitted at all major and minor entry points for the proposed subdivision (*shown in Figure 5 below*). Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*. The developer shall provide enhanced landscaping areas within the Subject Property as generally depicted in *Figure 4.* The final design of these areas shall be provided on the PD Site Plan.

Figure 4: *Neighborhood Signage*



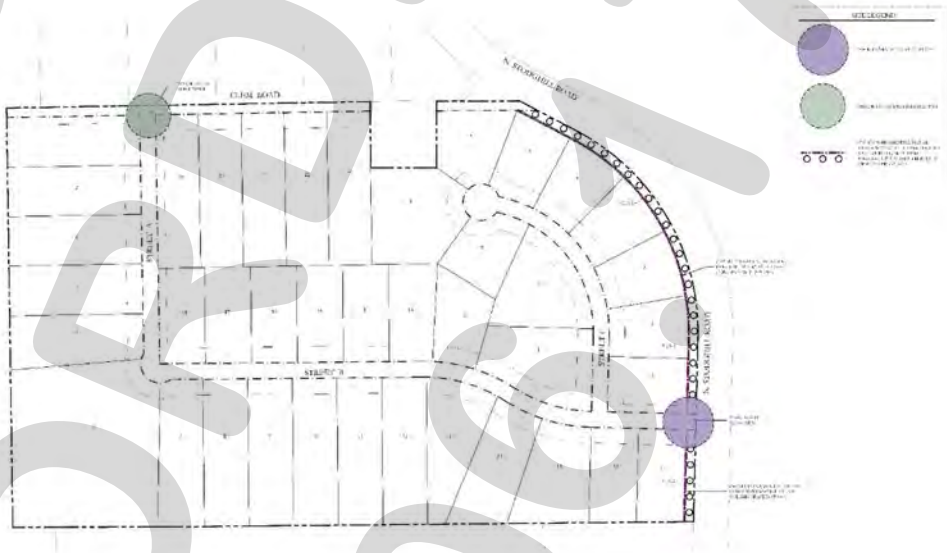


Figure 5: *Neighborhood Signage/Enhanced Landscaping Areas*

DRAFT ORD 06.17.2019

13. *Homeowner's Association (HOA)*. A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the *Subdivision Regulations* contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all private neighborhood parks, trails, open space and common areas (*including drainage facilities*), irrigation, landscaping, screening fences and neighborhood signage associated with this development.

14. *On-Site Sewage Facilities. Septic Systems* are permitted on all lots within this subdivision pending conformance to the following standards:

    (a) All *Septic Systems* shall be designed by a licensed *On-Site Sewage Facility (OSSF)* professional (*e.g. licensed engineer, sanitarian, and etcetera*).

    (b) A stamped and signed copy of the *Septic System* plans indicating the full limits of the septic field shall be submitted to the city at the time of building permit on a *lot-by-lot* basis.

    (c) All *Septic Systems* shall be inspected and approved by the City's chosen inspector.

15. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

CITY OF ROCKWALL

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	June 17, 2019
APPLICANT:	Jimmy Strohmeyer, *Strohmeyer Architects, Inc.*
CASE NUMBER:	Z2019-013; *Amended PD Development Plan for PD-32*

SUMMARY

Hold a public hearing to discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of Dan Bobst of J-BR2, LLC for the approval of a ordinance for a PD Development Plan within Planned Development District 32 (PD-32), on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas, situated within the *Hillside Sub-District* of Planned Development District 32 (PD-32), located within the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive, and take any action necessary.

BACKGROUND

On September 20, 2010, the City Council passed *Ordinance No. 10-21* [*Planned Development District 32 (PD-32)*], which established a concept plan and development standards for the approximate 78.89-acre tract of land commonly referred to as *PD-32* or the *Harbor District*. Within the approved concept plan, *PD-32* was divided into ten (10) subdistricts that contained individual development and land use standards. On November 17, 2014, the City Council adopted *Ordinance No. 14-51*, which contained a PD Development Plan for a 2.893-acre tract of land located in the *Hillside Subdistrict*. This PD Development Plan showed a series of buildings would be constructed along Harbor Heights Drive in conformance to the requirements of *Ordinance No. 10-21*. With the approval of *Ordinance No. 14-51*, the City Council also approved waivers to the building placement requirements and pedestrian access requirements to allow retaining walls ranging from seven (7) to nine (9) feet in height to be established along Harbor Heights Drive. The approval of these walls were tied to building elevations submitted by the applicant and which were tied down as apart of the City Council's approval. On May 1, 2017, the City Council adopted *Ordinance No. 17-22*, which amended *Ordinance No. 10-21* to update various exhibits in the ordinance; however, no changes were made to the requirements of the *Hillside Subdistrict* or for the subject property.

PURPOSE

On May 15, 2019, the applicant -- *Jimmy Strohmeyer of Strohmeyer Architects, Inc.* -- submitted an application requesting to amend *Ordinance No. 14-51* to change the *PD Concept Plan* approved for the subject property. According to *Ordinance No. 17-22* [*the regulating ordinance for Planned Development District 32 (PD-32)*], the purpose of a PD Development Plan is to ensure that a proposed development meets the intent of the subdistrict and/or to address any waivers required by the development. *Ordinance No. 17-22* goes on to state that the *Hillside Subdistrict*, in which the subject property is located, is intended "… to provide a cluster of restaurant anchors that can contribute to the creation of a vibrant, pedestrian oriented character within the Harbor District." In this case, the applicants proposed development meets this intent of the *Hillside Subdistrict*; however, the submitted *PD Concept Plan* will require waivers to the building placement and parking requirements stipulated in *Ordinance No. 17-22*.

ADJACENT LAND USES AND ACCESS

The subject property is located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is a 0.293-acre tract of land zoned Planned Development District 32 (PD-32), which is located within the *Hillside Subdistrict*. Currently situated on this property is a ~3,743 SF multi-tenant office building. Beyond this are the frontage roads and main lanes of IH-30.

South: Directly south of the subject property is Harbor Heights Drive, which is classified as a *Street Type 'D'* according to Planned Development District 32 (PD-32) [*Ordinance No. 17-22*]. Beyond this is a 6.1978-acre tract of land owned by the City of Rockwall, and which currently has a parking lot that serves the greater *Harbor District*. This property is zoned Planned Development District 32 (PD-32) and is located within the *Hillside Mixed-Use Subdistrict*.

East: Directly east of the subject property is Sunset Ridge Drive, which is identified as a *Street Type 'B'* and *'E'* according to Planned Development District 32 (PD-32) [*Ordinance No. 17-22*]. East of this roadway is a seven (7) story office building (*i.e. Trend Tower*), which is situated on a 2.0617-acre parcel of land that is located within the *Summit Office Subdistrict*.

West: Directly east of the subject property is a restaurant (*i.e. Culpepper Steakhouse*), which is situated on a 1.40-acre parcel of land that is located within the *Hillside Subdistrict*. Beyond this is Shoreline Trial, which is identified as a *Street Type 'A'* according to Planned Development District 32 (PD-32) [*Ordinance No. 17-22*]. Beyond this is a restaurant (*i.e. the Oar House*), which is situated on a 0.65-acre parcel of land that is located within the *Freeway Frontage Subdistrict*.

All property within these areas are zoned Planned Development District 32 (PD-32) and are subject to the requirements of *Ordinance No. 17-22*.

CHARACTERISTICS OF THE REQUEST AND STAFF ANALYSIS

The concept plan for the *Hillside Subdistrict* contained in *Ordinance No. 17-22* calls for existing slopes between 8-12% with the incorporation of two (2) pedestrian opportunities extending perpendicular to Harbor Heights Drive at not more than 2% slope. Harbor Heights Drive -- *which is intended to serve as the "…primary connector to the existing Harbor Development and is a primary street frontage for retail, residential and mix use development within [the] adjacent subdistricts…"* -- is designated as a *Street Type 'D'*, and was constructed by the City with slopes of 10.3% with one (1) pedestrian crossing, situated in the center of the roadway, constructed at a 1% slope in accordance to the concept plan. Additionally, the original concept plan contained in *Ordinance No. 17-22* depicted smaller pad sites that stepped down to adjust for the slope of the street, which allowed for storefronts and patios to be *at* or *closer to* grade. The PD Concept Plan approved with *Ordinance No. 14-51* incorporated larger pad sites, which made it more difficult to step the buildings down to a pedestrian level. As a result, the ordinance was approved allowing the use of retaining walls, ranging in size from seven (7) to nine (9) feet adjacent to Harbor Heights Drive. A major consideration in allowing the retaining walls was the incorporation of building elevations showing how the retaining walls would be incorporated into the development. In this case, the amended PD Concept Plan reduces the number of buildings adjacent to Harbor Heights Drive, but continues to incorporate larger pad sites that may require retaining walls. Since the applicant has not submitted building elevations with the revised PD Development Plan, staff has included a condition of approval allowing retaining walls -- *not to exceed seven (7) feet in height* -- that will require discretionary approval by the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

In addition, the submitted PD Concept Plan shows that the continuous row of buildings adjacent to Harbor Heights Drive, approved with *Ordinance No. 14-51*, will be broken up to incorporate a park/central green space. The removed building square footage will be increased and relocated adjacent to Sunset Ridge Drive. While this does deviate from the concept plan approved with *Ordinance No. 17-22*, it does not appear to have a negative impact on the adjacent properties, the *Hillside Subdistrict* as a whole, or the greater Harbor District.

CONFORMANCE WITH PLANNED DEVELOPMENT DISTRICT 32 (PD-32)

According to *Ordinance No. 17-22*, "(i)n order to provide flexibility and create high quality projects, an applicant for development within the PD District [*PD*-32] may request a waiver of the following District or Subdistrict standards: (1) Building Placement Requirements, (2) Landscape Standards, (3) Parking Requirements, (4) Parking Garage Design Standards, and (5) Increased Building Height in any Subdistrict." Based on the applicant's submittal staff has identified the following waivers to the requirements of *Ordinance No. 17-22*:

(1) *Building Placement.*

(a) *Building Form.* According to *Exhibit 'E-2'* of *Ordinance No. 17-22*, a minimum of 85% of the block face along Harbor Heights Drive must be defined by a building façade. In this case the applicant is showing that only 63% of the block face along Harbor Heights Drive is defined by a building façade. As a compensatory measure staff has suggested to the applicant that the incorporation of a seat wall adjacent to the park/central green space would help off-set the requested waiver. The applicant has agreed to incorporate this design element in accordance with the design guidelines contained in *Resolution No. 10-40*.

(b) *Setbacks*. According to *Exhibit 'E-2'* of *Ordinance No. 17-22*, the minimum building setback from the right-of-way line adjacent to IH-30 is 250-feet. The submitted PD Concept Plan shows that the buildings adjacent to Sunset Ridge Drive will be situated within this setback. Staff should note that the existing restaurant (*i.e. Culpepper Steakhouse*) and adjacent office building located at Shoreline Trail and the IH-30 frontage road is currently are both within this setback, and that this waiver would not set a precedence within the *Hillside Subdistrict*.

(2) *Parking.*

(a) *Surface Parking Setbacks*. According to *Exhibit 'E-2'* of *Ordinance No. 17-22*, the minimum parking setback from the IH-30 frontage road right-of-way line is 20-feet. The submitted PD Concept Plan shows that one (1) parking space will be located approximately 15-feet from the right-of-way line. Staff should point out that both the existing restaurant (*i.e. Culpepper Steakhouse*) and the adjacent office building have parking that does not conform to this requirement. In addition, staff has examined this waiver request and determined that is should not pose a negative impact on the remainder of the Hillside Subdistrict. As a compensatory measure, staff has included a condition of approval that the applicant incorporate additional landscape screening in this area.

With regard to granting waivers, *Ordinance No. 17-22* states that "… (w)aivers may only be approved by the City Council following a recommendation by the Planning and Zoning Commission … [and] In order to approve a waiver, the City Council must find that the waiver:

(1) Meets the general intent of the PD District or Subdistrict in which the property is located; and,
(2) Will result in an improved project which will be an attractive contribution to the PD District or Subdistrict; and,
(3) Will not prevent the implementation of the intent of this PD District."

In this case, the proposed project does appear to meet the general intent of the *Hillside Subdistrict*, which according to *Ordinance No. 17-22* is "…to provide a cluster of restaurant anchors that can contribute to the creation of a vibrant, pedestrian oriented character within the Harbor District". Staff should also point out, that the applicant and staff have proposed several compensatory measures that may help to off-set the requested waivers; however, granting any waivers to the requirements of *Ordinance No. 17-22* is a discretionary decision for the City Council pending a recommendation from the Planning and Zoning Commission.

INFRASTRUCTURE

There are no infrastructure requirements associated with the proposed PD Development Plan beyond the standard requirements stipulated by the Municipal Code of Ordinances, the Unified Development Code (UDC), and the Engineering Department's *Standards of Design and Construction* manual.

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

By virtue of being in Planned Development District 32 (PD-32) and generally conforming to *Ordinance No. 17-22*, the proposed PD Development Plan conforms to the majority of the district strategies intended for properties in the *Harbor District* of the *Land Use Plan* as stipulated by the OURHometown Vision 2040 Comprehensive Plan. Looking at the specific goals and policies identified for *Mix-Use Developments* contained in Chapter 1, *Land Use and Growth Management*, of the OURHometown Vision 2040 Comprehensive Plan, the proposed PD Development Plan conforms to all the policies with the exception of *Policy #4* of *Goal # 1*, which states that developments should, "(r)educe barriers (*e.g. walls, parking lots, solid landscaping, fences, etc.*) between land uses to encourage pedestrian connectivity." In this case, retaining walls may be necessary to accommodate larger pad sites. As a result, staff will work with the applicant through the site planning process to try and reduce the impact of these walls on the pedestrian frontage.

Staff should also point out that the incorporation of the park/central green space -- *while not conforming to the building form requirements* -- does conform to the goals and policies contained in Chapter 3, *Parks, Open Space, and Trails*, of the OURHometown Vision 2040 Comprehensive Plan. Specifically, this section states that staff should, "(e)ncourage the creation of small, private greens and common areas in new neighborhoods, commercial shopping centers, and industrial developments for the purpose of enhancing the character, desirability and quality of social interaction in the city." The programing and layout of the proposed park/central green space will require a recommendation from the Parks & Recreation Board as part of site plan approval. This has been added as a condition of approval of this case memo.

NOTIFICATIONS

On May 24, 2019, staff mailed 25 notices to property owners and residents within 500 feet of the *Hillside Subdistrict*. Staff also emailed notices to the Lakeside Village and Lago Vista Homeowner's Associations (HOA), which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a sign on the subject property, and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted no responses were received by staff.

CONDITIONS OF APPROVAL

If the City Council chooses to approve the applicant's request to amend *Ordinance No. 14-51* by approving the proposed PD Development Plan and requested waivers, then staff would propose the following conditions of approval:

(1) The applicant shall be responsible for maintaining compliance with the conditions contained within the PD Development Plan ordinance and which are summarized as follows:

(a) Development of this property shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* of the attached PD Development Plan ordinance;

(b) All buildings shall be developed with consideration to the pedestrian access easements/pedestrian ways perpendicular to Harbor Heights Drive, and a seat wall shall be incorporated into the area identified as *Park* in the *Concept Plan* depicted in *Exhibit 'B'* of the attached PD Development Plan ordinance. The pedestrian access easements/pedestrian ways shall be consistent with the design guidelines contained in *Resolution No. 10-40*;

(c) All pedestrian access easements/pedestrian ways shall be required to be dedicated as easements at the time the property is replatted;

(d) All building materials and color schemes proposed for this development should conform to the requirements stipulated by Planned Development District 32 (PD-32) [*as amended*];

(e) Prior to the issuance of a building permit the applicant shall submit and seek approval for a detailed *PD Site Plan* that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and with the requirements approved in this ordinance;

(f) All buildings throughout the development shall be constructed with a consistent design scheme, incorporate four (4) sided architecture that creates a dual entry appearance, and be approved by the Architectural Review Board (ARB) at the time of the *PD Site Plan*;

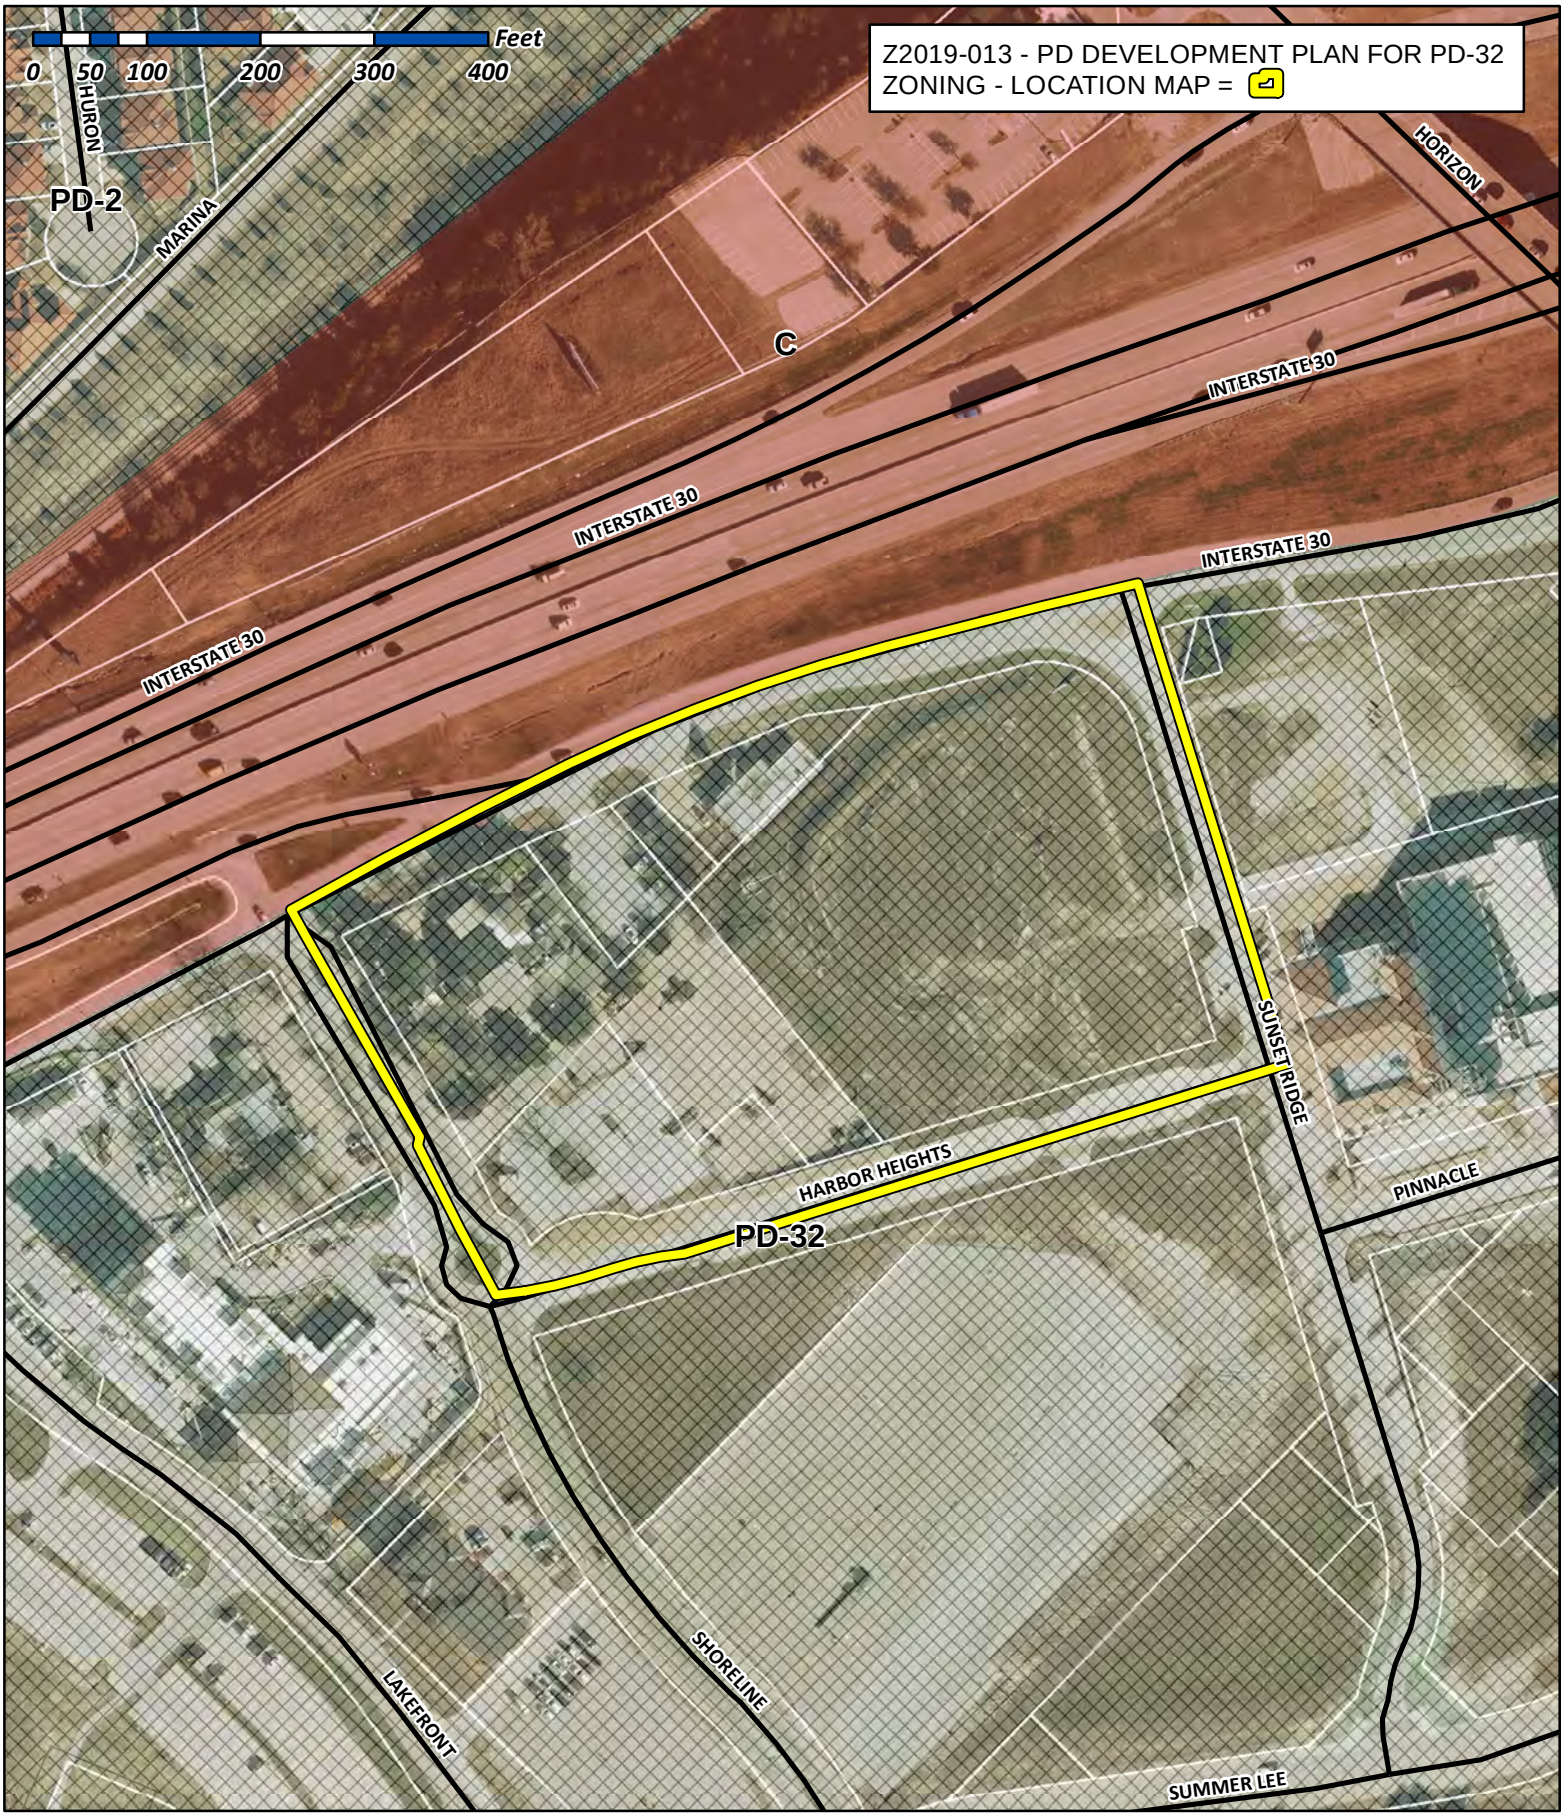
(g) Prior to the issuance of a building permit the applicant shall submit and seek approval for a replat that indicates all necessary easements; and,

(h) The proposed uses for this development shall be required to demonstrate that they have access to a sufficient number of parking spaces within the development itself to support the use.

(2) An Open Space/Master Plan for the park/central green space shall be submitted at the time of site plan, and will require a recommendation from the Parks & Recreation Board concerning its conformance to *Resolution No. 10-40* as part of the approval process;

(3) Screening, in the form of trees and bushes, should be incorporated adjacent to the parking areas -- *specifically adjacent to the parking space that is situated approximately 15-feet from the IH-30 frontage road and for which a waiver is request* -- to reduce the visibility of these areas;

(4) A maximum of a seven (7) foot retaining wall will be permitted adjacent to Harbor Heights Drive; however, every effort should be made to reduce or remove retaining walls adjacent to pedestrian frontages. All retaining walls adjacent to pedestrian frontages will be reviewed at the time of site plan and the Planning and Zoning Commission will retain discretion with regard to proposed retaining walls between three (3) and seven (7) feet in height pending a recommendation from the Architectural Review Board (ARB);



(5) A seat wall shall be incorporated into the design of the proposed park/central green space adjacent to Harbor Heights Drive. The seat wall shall be designed in accordance with the design guidelines contained in *Resolution No. 10-40*;

(6) Pedestrian landscaping elements should be incorporated into the landscape plan submitted with the site plan. Specifically, irrigated pots should be incorporated adjacent to the seat wall along Harbor Heights Drive and throughout the development in accordance with the design guidelines contained in *Resolution No. 10-40*; and,

(7) Any construction resulting from the approval of this zoning change shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION

On June 11, 2019, the Planning and Zoning Commission approved a motion to recommend approval per staff's conditions of approval by a vote of 6-0, with Commissioner Lyons absent.

PUBLIC NOTICE.PDF

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attach ed a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will be published in the Rockwall Herald Banner ***May 24, 2019***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 6/11/2019 at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday 6/17/2019 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2019-013: PD Development Plan for PD-32

Hold a public hearing to discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of Dan Bobst of J-BR2, LLC for the approval of a PD Development Plan within Planned Development District 32 (PD-32), on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas, situated within the Hillside Sub-District of Planned Development District 32 (PD-32), located within the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 6/11/2019 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 6/17/2019 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Ryan Miller
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **6/17/2019** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

CITY OF ROCKWALL

ORDINANCE NO. 14-51

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING *ORDINANCE NO. 10-21* OF PLANNED DEVELOPMENT DISTRICT 32 (PD-32) AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A DEVELOPMENT PLAN FOR RETAIL/RESTAURANT PAD SITES ON A 2.893-ACRE PARCEL OF LAND IDENTIFIED AS LOT 1, BLOCK B, HARBOR DISTRICT ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of D. W. Bobst of J-BR2, LLC for an amendment to *Ordinance No. 10-21* of Planned Development District 32 (PD-32) and the Unified Development Code [*Ordinance No. 04-38*] for the purpose of establishing a PD Development Plan for retail/restaurant pad sites within the *Hillside Subdistrict*, on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by adopting this PD Development Plan and amending the official zoning map of the City of Rockwall for the *Subject Property*; and,

SECTION 2. That development of the *Subject Property* shall generally be in accordance with the PD Development Plan, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the Concept Building Elevations, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

SECTION 4. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

1) Development of this property shall generally conform to the *PD Development Plan* depicted in *Exhibit 'B'* of this ordinance;

2) Development of this property shall generally conform to the *Building Elevations* depicted in *Exhibit 'C'* of this ordinance;

3) All buildings shall be developed with consideration to the pedestrian access adjacent to Harbor Heights Drive. Additionally, the design of the buildings shall include four (4) sided architecture that creates a dual entry appearance, with buildings fronting on to IH-30 and Harbor Heights Drive;

4) Building façades must be situated no greater than 27-feet from the build-to-line adjacent to Harbor Heights Drive;

5) All building materials and color schemes proposed for this development should conform to the requirements stipulated by Planned Development District 32 (PD-32);

6) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a detailed *PD Site Plan* that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and with the requirements approved in this ordinance;

7) All buildings throughout the development shall be constructed with a consistent design scheme, and be approved by the Architectural Review Board (ARB) at the time of the *PD Site Plan*;

8) Prior to the issuance of a Building Permit the applicant shall submit and seek approval for a replat that indicates all necessary easements; and,

9) The proposed uses for this development shall be required to demonstrate that they have access to a sufficient number of parking spaces within the development itself to support the use.

SECTION 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 7. The standards in this ordinance shall control in the event of a conflict between this

ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 17TH DAY OF NOVEMBER, 2014.

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING *ORDINANCE NO. 14-51 & 17-22* OF PLANNED DEVELOPMENT DISTRICT 32 (PD-32) AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A PD DEVELOPMENT PLAN FOR RETAIL/RESTAURANT PAD SITES ON A 2.893-ACRE PARCEL OF LAND IDENTIFIED AS LOT 1, BLOCK B, HARBOR DISTRICT ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of D. W. Bobst of J-BR2, LLC for an amendment to *Ordinance No. 14-51* of Planned Development District 32 (PD-32) [*Ordinance No. 14-51*] and the Unified Development Code [*Ordinance No. 04-38*] for the purpose of establishing a PD Development Plan for retail/restaurant pad sites within the *Hillside Subdistrict*, on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 32 (PD-32) [*Ordinance No.'s 14-51 & 17-22*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 14-51*;

SECTION 2. That Planned Development District 32 (PD-32) [*Ordinance No. 17-22*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by adopting this PD Development Plan and amending the official zoning map of the City of Rockwall for the *Subject Property*; and,

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the PD Development Plan, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

DRAFT 08.21.19

SECTION 4. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 17-22*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

1) Development of this property shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance;

2) All buildings shall be developed with consideration to the pedestrian access easements/pedestrian ways perpendicular to Harbor Heights Drive, and a seat wall shall be incorporated into the area identified as *Park* in the *Concept Plan* depicted in *Exhibit 'B'*. The pedestrian access easements/pedestrian ways shall be consistent with the design guidelines contained in *Resolution No. 10-40*;

3) All pedestrian access easements/pedestrian ways shall be required to be dedicated as easements at the time the property is replatted;

4) All building materials and color schemes proposed for this development should conform to the requirements stipulated by Planned Development District 32 (PD-32) [*as amended*];

5) Prior to the issuance of a building permit the applicant shall submit and seek approval for a detailed *PD Site Plan* that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and with the requirements approved in this ordinance;

6) All buildings throughout the development shall be constructed with a consistent design scheme, incorporate four (4) sided architecture that creates a dual entry appearance, and be approved by the Architectural Review Board (ARB) at the time of the *PD Site Plan*;

7) Prior to the issuance of a building permit the applicant shall submit and seek approval for a replat that indicates all necessary easements; and,

8) The proposed uses for this development shall be required to demonstrate that they have access to a sufficient number of parking spaces within the development itself to support the use.

SECTION 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

DRAFT ORDINANCE 05.17.2019

SECTION 7. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 8. That this ordinance shall take effect immediately from and after its passage;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 1ST DAY OF JULY, 2019.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Mayor and City Council**

FROM: **Rick Crowley, City Manager**

DATE: **June 14, 2019**

SUBJECT: **Strategic Planning Report**

As previously indicated, I will be providing a report to the Council on the status of strategic planning which will include a status update on current and completed initiatives as well as upcoming initiatives identified by the various departments of the City in support of the Council-adopted strategic goals. We will, of course, welcome comments and suggestions from the Mayor and Council as well. If there are additions, changes, or corrections it will be a good time to make those as well.

The following report continues use of the format which has been used in the past; however, several prior initiatives that have been completed (or which have become a part of day-to-day operations and, thus, are no longer strategic) have been moved to a separate section following the more current presentation of strategic planning items.

If you have any questions, please let me know.

Strategy 1: Maintain percentage of residential assessed value close to 67%.

Department	Departmental Strategic Goal	Strategic Initiatives	Target Completion Date	Completion
Finance	Initiate an acquisition process for the "Right to Serve" the 23 unique areas of the City which are served by rural Water Supply Corporations (WSC).	Contract renewal negotiations in progress which will include acquisition and strong caps on new connections	Q1 FY 2020	
P&Z	Balance and maintain the city's current land use ratio.	Determine and implement response to changes in state law affecting our development standards and processes	Q4 FY 2019	
Public Works	Assist the development community to better understand the infrastructure requirements and provide decision makers with the tools to allow for optimal selection of development options.	Assess the drainage and floodways as shown in the current Master Drainage Study to provide better information to the development community within the city limits and our ETJ.	Q4 FY 2020	Phase 1 will be complete by September 30, 2019
		Present revised Standards of Design and Construction to City Council for adoption, then inform and educate the development community regarding the criteria for development within the city.	Q2 FY 2019	Revise to Q4 FY 2019 to adopt Standards of Design
		Complete Master Water/Sewer Plan update and Water and Sewer Impact Fee Study to present to City Council for adoption.	Q4 FY 2019	On schedule

PARD	Ensure developers make equitable contributions to the park system	Evaluate the current Parkland Dedication ordinance relative to future needs, costs alignment with Comprehensive Plan	Q2 FY 2019	Park Board Subcommittee assigned to review. In progress - revise to Q4 FY 2019
		Park Board to develop and present recommendations to City Council for consideration.	Q3 FY 2019	Revise to Q4 FY 2019
		Produce report and recommendation on implementing the Comprehensive Plan policy for non-residential park contributions as indicated in the adopted plan.	Q1 FY 2020	

Strategy 2: Maintain the high per capita sales tax revenue of $399.

Department	Departmental Strategic Goal	Strategic Initiatives	Target Completion Date	Completion
Administration	Develop strong relationship with Retail Developers and Brokers	Use information from relationshps with retail developers and brokers to assess current zoning requirements applicability to emerging detail trends	Q2 FY 2020	
	Propose short and long-term alternatives for use of Hotel Occupancy Tax (HOT) Revenue.	Provide assistance to the Council to explore alternatives for future Convention and Visitors Bureau activities and related fund uses	Q2 FY 2019	Reports provided to Council in Q2
		Schedule work session with local and statewide HOT related groups as directed and prepare strategic plan for consideration	Q1 FY 2020	
	Preserve and protect commerce in the I-30 corridor during I-30 construction	Coordinate with Royse City, Fate and Rowlett: I-30 construction response program	Q1 FY 2020	
P&Z	Maintain or increase the current per capita sales tax revenue.	Review the City's zoning code to ensure regulations on non-commercial development are not a hindrance to attracting high-quality development.	Q1 FY 2020	
		Use information from relationships with retail developers and brokers to assess current zoning requirements applicability to emerging retail trends	Q1 FY 2021	

Strategy 3: Develop and implement a thoughtful and funded long term street/sewer/water infrastructure plan.

Department	Departmental Strategic Goal	Strategic Initiatives	Target Completion Date	Completion
Administration	Provide assistance in the development of a long-term plan for boundary planning, future annexation, water and wastewater service options.	Develop water/wastewater planning for future growth.	Q2 FY 2020	
	Define the City's role in developing an overall plan for the Outer Loop.	Engage with state and regional officials to help facilitate planning for route studies south of I-30.	Q1 FY 2020	
		Engage with Rockwall County Consortium in ways to accelerate beginning of construction of outer loop (North).	Q3 FY 2020	
PARD	Develop South Community Park.	Identify and acquire ~50 acre site south of I-30 for the south community park.	Q2 FY 2020	
	Develop Lakeside Park	Expand takeline lease area to secure the opportunity to develop a lakeside park and open space, from the Shores Golf Course north to the county line	Q3 FY 2019	Pending Dallas City Council agenda items
		Conduct preliminary cost estimates, phasing of development, and determine funding source and potential grant opportunities	Q4 FY 2020	
Public Works	Develop an infrastructure life cycle management program that provides a comprehensive review of the investments needed to sustain service through the operations, maintenance, and renewal of existing infrastructure.	Complete engineering design of 8 street rehabilitation projects within the 2018 Street Bond funding	Q4 FY 2020	

Public Works		Highland Drive and portions of Stonebridge and Shoretrail project construction to commence	Q2 FY 2019	Construction near completion on Highland Drive
		Begin implementation of program to replace water pipes below six-inch in diameter, related to pressure, and fire protection issues	Q4 FY 2020	The 2018 Street Bond projects will replace all water lines less than eight-inch, but non-street bond water projects are pending funding source
		Begin implementation of program to replace sewer pipes constructed of vitrified clay tile (VCT), cast iron, and ductile iron.	Q4 FY 2020	The 2018 Street Bond projects will replace all sewer lines not constructed of PVC, but non-street bond sewer projects are pending funding source

Strategy 4: Public Safety

Department	Departmental Strategic Goal	Strategic Initiatives	Target Completion Date	Completion
Administration	Enhance public notification of severe weather in Rockwall	Implement replacement program for aging outdoor emergency warning siren system	Q1 FY 2020	
HR	Staff will work with Council to begin the development of a comprehensive, in-house study of employee compensation for FY 2019	Work with Council to propose and adopt compensation philosophies and specific goals	Q4 FY 2019	Historical and current compensation information has been provided to Council Subcommittee. Work with Council Subcommittee is underway.
		Work with hiring supervisors and interview boards to evaluate causes and pursue alternatives to resolve identified recruitment and retention challenges.	Q4 FY 2019	
Fire	Provide on duty staffing levels sufficient to respond simultaneously to a structure fire in a single family home and a second incident, e.g. a motor vehicle collision (MVC) – 16 on duty personnel to be achieved utilizing full-time and/or part-time personnel	Have 100% of new recruits trained to the level of TCFP Basic Firefighter within 6 months of their start date	Q2 FY 2019	Complete - Although we have not brought on additional volunteers in some time, we have a program to get personnel certified should we recruit new volunteer members. The process is taking closer to 9 months than 6.
		Conduct 2 semi-annual, multi-company live fire drills	Q4 FY 2020	

Fire		Have 100% of Driver Engineers and higher ranking positions certified in Blue Card ICS.	Q1 FY 2020	
		In conjunction with RPD, develop a concept plan for a regional police/fire training facility.	Q2 FY 2020	
	Provide rapid response times for service delivery	Report quarterly on our ability to have a full alarm assignment (13 adequately trained personnel) on scene at working structure fires within 8 minutes 90% of the time.	Q1 FY 2020	
	Open new fire stations as needed	Evaluate the need for and/or begin the planning of an additional station when: (1)The number of built-upon street miles in a district without a station is equal to 50% of the average built-upon street miles in districts with stations (2)The number of calls for service in a district without a station is 50% of the average number of calls for service in districts with stations (3)When drive times to calls for service in a district without a station exceed 4 minutes 50% of the time	Ongoing assessment	Ongoing assessment
	Implement policies and programs that assist in minimizing community risks.	Establish a community risk-based fire inspection program.	Q4 FY 2019	Initial steps are complete. We anticipate refining the process upon the completion of the grant-funded community risk assessment, which will be completed in August 2019.

Fire		Improve efficiency of inspections.	Q3 FY 2019	Mobile Eyes software has been purchased and is expected to be fully implemented by the end of June 2019
		Enhance public education programs offered within the City through the implementation of a Public Educator.	Q2 FY 2020	
		Implement a Jr. Fire Academy Summer Camp Program.	Q4 FY 2019	
		Implement a Fire Explorer Program.	Q1 FY 2020	
		Implement a Company Officer Annual Inspection Program.	Q3 FY 2020	
	Retain or improve the ISO rating which is currently a 2.	Work to ensure that organizational decisions concerning communications, fire operations, water supply, and fire prevention and public education are consistent with maintaining said ISO rating.	Ongoing assessment	Ongoing assessment
	Attain Texas Fire Chiefs Assoc. Best Practices Recognition	Compelete 1/3 of the total 117 Best Practices	Q4 FY 2020	
PD	Ensure safety and security through crime prevention and crime reduction.	Improving outcomes for people with mental health issues with a full-time mental health officer. The Mental Health Officer would collaborate with mental health professionals, provide compassionate and dedicated specialized police response to mental health consumers and their families. In an effort to reduce demands on police resources, while improving safety for officers, and our community.	Q1 FY 2020	

		Utilize License Plate Reader to enhance officers' abilities to recover stolen vehicles, locate missing persons, and retrieve valuable data for investigative purposes.	Q1 FY 2020	
	Ensure organizational Wellness and Resiliency	Schedule educational seminar for officers, supervisors and spouses to help understand and deal with "Reducing Organizational Stress in Law Enforcement."	Q2 FY 2020	

Strategy 1: Maintain percentage of residential assessed value close to 67%.

Department	Departmental Strategic Goal	Strategic Initiatives	Target Completion Date	Completion
Finance	Ensure rates are established sufficient to account for future water/wastewater system costs.	Complete rate study and present results to Council for consideration and implementation	Q1 FY 2019	Complete
P&Z	Balance and maintain the city's current land use ratio.	Amend the Comprehensive Plan to incorporate policies targeted at maintaining the current ratio of residential to non-residential assessed value.	Q1 FY 2019	Complete
		Re-evaluate the Future Land Use Map to ensure compliance to the targeted ratio and make any necessary corrections.	Q1 FY 2019	Complete
		Develop a process to provide the City Council with information relating to land use ratios and assessed value ratios with every zoning case.	Q1 FY 2020	Complete
		Revise the Planning and Zoning Division's case memorandums to include information concerning changes to the City's targeted ratio of residential to non-residential assessed value.	Q2 FY 2019	Complete

95

Strategy 2: Maintain the high per capita sales tax revenue of $399.

Department	Departmental Strategic Goal	Strategic Initiatives	Target Completion Date	Completion
Administration	Finalize appropriate retail development and recruitment initiatives related to achievement of strategic/financial strategies of the City Council.	Work with the City Council to determine appropriate City and EDC role in retail recruitment including any associated costs that may be applicable.	Q1 FY 2020 finalize & report	Complete - the REDC Board prior policy of not emphasizing retail reconfirmed
	Propose short and long-term alternatives for use of Hotel Occupancy Tax (HOT) Revenue.	Provide assistance to the Council to explore alternatives for future Convention and Visitors Bureau activities and related fund uses	Q2 FY 2019	Complete
P&Z	Maintain or increase the current per capita sales tax revenue.	Amend the comprehensive plan to layout the city's demographic data and perceived trade area.	Q1 FY 2019	Complete
		Create IH-30 commercial corridor plan targeted at emphasizing strategic properties and development opportunities.	Q3 FY 2019	Complete

Strategy 3: Develop and implement a thoughtful and funded long term street/sewer/water infrastructure plan.

Department	Departmental Strategic Goal	Strategic Initiatives	Target Completion Date	Completion
Administration	Provide assistance in the development of a long-term plan for boundary planning, future annexation, water and wastewater service options.	Prepare and assemble data for City Council to consider regarding boundary planning, future annexation, water and wastewater service options.	Q4 FY 2019	Complete
	Define the City's role in developing an overall plan for the Outer Loop.	Work with County and other cities north of I-30 and encourage completion of more detailed route study north of I-30.	Q4 FY 2019	Complete

96

Strategy 4: Public Safety

Department	Departmental Strategic Goal	Strategic Initiatives	Target Completion Date	Completion
Fire	Provide on duty staffing levels sufficient to respond simultaneously to a structure fire in a single family home and a second incident, e.g. a motor vehicle collision (MVC) – 16 on duty personnel to be achieved utilizing full-time and/or part-time personnel	Enhance the training program through the implementation of a Training/Safety Officer position (part-time to full-time position)	Q1 FY 2019	Complete
		Enhance the accountability system so that personnel can be organized into crews on 100% of incidents	Q1 FY 2019	Complete
		Have 100% of new recruits trained to the level of TCFP Basic Firefighter within 6 months of their start date	Q2 FY 2019	Complete - Although we have not brought on additional volunteers in some time, we have a program to get personnel certified should we recruit new volunteer members. The process is taking closer to 9 months than 6.
		Evaluate the benefit of certifying personnel in Blue Card ICS	Q2 FY 2018	Complete
	Ensure the health and safety of the membership	100% of members to complete a Huguley Assessment (or similar assessment) annually	Q1 FY 2019	Complete
		Develop a program for the cleaning and inspection (and documentation of said cleaning and inspection) of 100% of PPE on an annual basis.	Q3 FY 2018	Complete
	Provide rapid response times for service delivery	Report quarterly on our ability to have a 4 minute drive time or less to 90% of code 3 incidents within the city limits	Q2 FY 2018	Complete
	Replace fire apparatus at the end of its useful life	Evaluate apparatus replacement guidelines	Q4 FY 2018	Complete

97

		Evaluate the type of apparatus (ladder, engine, etc.) that are housed in stations	Q4 FY 2018	Complete
		Enhance fire investigation through improved policies and procedures.	Q2 FY 2019	Complete
PD	Ensure safety and security through crime prevention and crime reduction.	Enhance school safety by expanding our School Resource Officer program, requiring an additional sergeant position in the Community Services Unit	Q1 FY 2019	Complete
		Implement the Guardian Program that is designed to assist officers during encounters with members of the community with special needs. Officers will have access to critical information that is collected in advance on Alzheimer's, Autism or other intellectual or mental health disabilities to help safely reunite families of registered participants.	Q1 FY 2019	Complete
	Improve transparency and accountability within our community.	Upgrade our current TASER Less Lethal to the new TASER Smart Weapon that is built on an all-digital platform. The new devices have the ability to regulate charge output, perform health checks, update firmware over the web, and provide analytics, displaying how and when someone uses the device.	Q2 FY 2018	Complete
	Improve departmental recruiting and retention of police officers	Evaluate recruitment and retention options through study and comparison and provide recommendation to the City Manager. Schedule Officers, Supervisors and family educational sessions to help understand and deal with “Organizational Stressor in Law Enforcement.”	Q3 FY 2019	Complete

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Mary Smith, Assistant City Manager**

DATE: **June 14, 2019**

SUBJECT: **Budget Planning Overview**

Tax Rate Overview

The City is developing the FY2020 budget with preliminary tax information from the Rockwall Central Appraisal District (RCAD). RCAD is working through the protest period now. All of the below figures and calculations are based on **estimates** as we know them now. Final figures are due to the taxing entities in late July. For example, the total assessed value has been preliminarily reported to the City as $6,011,892,072 and is not used in any planning since it changed as soon as the first protest relief was granted.

Assessed Value	$ 5,891,654,231
Senior Property Values	590,103,724

Percentage Increase:
Overall 3.49%

Effective Tax Rate Estimate	40.37 cents per hundred
Current FY19 Tax Rate	40.21 cents per hundred

Estimated Debt Service
Tax Rate 18.07 cents per hundred (current rate is 17.92 cents)

Rollback Rate Estimate 42.84 cents per hundred

Debt Projections

We anticipate issuing approximately $27,000,000 in new debt in late FY 2019 for which the first interest and principal payments will be due in FY20. This will include the remainder of the construction dollars for the roadway bond projects approved in the 2012 bond election which include County Line Road, Summit Ridge and Lakeshore, the first

installment of engineering and project costs for the 2018 bond election, and two fire truck which were approved late last year and for which we will accept delivery late summer.

Water and Sewer Fund

Following the comprehensive rate study completed in late 2018 rates were increased for calendar year 2019. Consumption and the corresponding billings have increased significantly despite a rainy spring. We still see about 45% of all our sales in the summer months. The financial position of the water and sewer fund has strengthened due to the increased rates and consumption. The district has notified the City of the intent to increase the cost of treated water by 5% as well as double-digit increases in the regional wastewater systems due to plant maintenance and expansion needs.

Revenue Projections

Staff has estimated total General Fund revenues for fiscal year 2020 to be at least $39,033,000.

We are carefully considering the estimation of sales tax revenue for fiscal year 2020. The 2019 revenues were projected to increase by 3% but instead are in the 5.2% range. Looking back at increases for the last five, ten and fifteen year period shows average growth of 4.88 – 7.27% each of those periods.

An additional major source of revenues for the City – Building Permits, and other construction related revenues, have moderated from the increases seen in FY2017-18 and we will be cautious in projecting that major revenue source.

Franchise fees continue to decline from prior years due in large part to the transition away from AT&T's Uverse and back to satellite dish technology. The introduction of Uverse a number of years ago caused our Cable franchise fees to more than double. Telephone franchise fees continue to steadily decline. Recent changes in state law regarding telecommunications franchise fees will cause this revenue source to decrease. Electric and Gas increase each year though.

Total Requested Expenditures

Department budget requests were submitted and the total is $42,814,691. The department heads were instructed to complete their budgets asking for those items or personnel they feel are needed for next year without regard to the potential for funding. This practice of the last several years allows Council to see the full impact of items that may be deferred due to a lack of available funding.

Meetings with department heads are underway and the process of building the proposed budget is in progress. As always, it is the obligation of the City Manager to propose a "balanced budget" to the Council for consideration. We are coordinating Council calendars to find a date to propose for the budget work session.

AGENDA

ROCKWALL CITY COUNCIL REGULAR MEETING

Monday, July 01, 2019 - 5:00 PM

City Hall Council Chambers - 385 S. Goliad St., Rockwall, TX 75087

I. **CALL PUBLIC MEETING TO ORDER**

II. **EXECUTIVE SESSION.**

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding purchase, sale or lease of real property in the vicinity of Rockwall Municipal Airport, Downtown, IH-30 service Rd. @ T.L. Townsend, and The Harbor as well as city owned land at Fire Station No. 2 pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
2. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).
3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

III. **ADJOURN EXECUTIVE SESSION**

IV. **RECONVENE PUBLIC MEETING (6:00 P.M.)**

V. **TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION**

VI. **INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER HOHENSHELT**

VII. **OPEN FORUM**

VIII. **CONSENT AGENDA**

pg.9 1. Consider approval of the minutes from the June 17, 2019 regular city council meeting, and take any action necessary.

pg.19 2. **Z2019-012** - Consider a request by Ryan Joyce of Michael Joyce Properties on behalf of Jen-Liang Wu of Unison Investment for the approval of an **ordinance** for a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family-1 (SF-1) District land uses on a 61.45-acre tract of land identified as Tract 4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on the west side of Stodghill Road [FM-3549] north of the intersection of Stodghill Road [FM-3549] and Cornelius Road, and take any action necessary **(2nd Reading).**

pg.34 3. **Z2019-013** - Consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of Dan Bobst of J-BR2, LLC for the approval of an **ordinance** for a PD Development Plan within Planned Development District 32 (PD-32), on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas, situated within the Hillside Sub-District of Planned Development District 32 (PD-32), located within the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive, and take any action necessary **(2nd Reading).**

pg.40 4. Consider approval of an ordinance amending the Code of Ordinances in Ch. 18. Fire Prevention and Protection, Article III. Fire Marshal, Sections 18-66 and 18-67, authorizing the Fire Chief to appoint the Fire Marshal, and take any action necessary (1st reading).

pg.43 5. Consider approval of a contract for professional engineering services with Birkhoff, Hendricks and Carter, L.L.P. to perform the engineering design services for the East Fork Sanitary Sewer Aerial Crossing Rehabilitation Project in an amount not to exceed $52,100.00, to be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.

pg.61 6. Consider approval of the professional engineering services contract for BW2 Engineers, Inc. to perform the engineering design services for the St Mary's Street, Bost Street, and Sherman Street Water and Wastewater Replacement Project in an amount not to exceed $76,000.00, to be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.

pg.80 7. Consider approval of the professional engineering services contract for Teague Nall and Perkins, Inc. to perform the engineering design services for the W. Kaufman Street, N. First Street, and W. Rusk Water Replacement Project in an amount not to exceed $60,600.00, to be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.

pg.103 8. **P2019-027** - Consider a request by Kyle Coleman Harris of Pacheco Koch Consulting Engineers on behalf of Alton Frazier of Channell Commercial Corporation for the approval of a replat for Lot 3, Block A, Channell Subdivision Addition being a 18.762-acre parcel of land identified as Lot 2, Block A, Channell Subdivision Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, addressed as 1700 John King Boulevard, and take any action necessary.

pg.110 9. **MIS2019-008** - Consider a request by Matthew Mulliken of Mulliken Construction Management, LLC on behalf of Jim Vaudagna of Dallas East for the approval of a parking agreement between two (2) properties identified as Lot 1, Block B & Lot 1, Block C, Rockwall Business Park East Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1280 & 1300 E. Ralph Hall Parkway, and take any action necessary.

IX. APPOINTMENT ITEMS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

X. PUBLIC HEARING ITEMS

pg.121 1. **MIS2019-003** - Hold a public hearing to discuss and consider a request by Jose Carmona Lopez for the approval of an On-Site Sewage Facility (OSSF) on a 0.33-acre tract of land identified as Lots 1325 & 1326, Rockwall Lake Properties Development No. 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 75 (PD-75) for Single-Family 7 (SF-7) District land uses, addressed as 424 Nicole Drive, and take any action necessary.

XI. ACTION ITEMS

pg.129 1. **MIS2019-005** - Discuss and consider a request by Michael Duval of G & A Consultants on behalf of John Delin of R. W. Ladera, LLC for the approval of an Alternative Tree Mitigation Settlement Agreement for a 28.011-acre parcel of land identified as a Tract 5 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 85 (PD-85), situated within the 205 By-Pass Overlay (205 BY-OV) and the East SH-66 Overlay (E SH-66 OV) District, located at the northeast corner of the intersection of SH-66 and John King Boulevard, and take any action necessary.

pg.136 2. Discuss and consider approval of a proposal from American Signal Corporation in the amount of $117,693.28 for replacement of three outdoor emergency warning sirens, hardware, and software to be funded by general fund reserves, and take any action necessary.

XII. CITY MANAGER'S REPORT, DEPARTMENTAL REPORTS AND RELATED DISCUSSIONS PERTAINING TO CURRENT CITY ACTIVITIES, UPCOMING MEETINGS, FUTURE LEGISLATIVE ACTIVITIES, AND OTHER RELATED MATTERS.

XIII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding purchase, sale or lease of real property in the vicinity of Rockwall Municipal Airport, Downtown, IH-30 service Rd. @ T.L. Townsend, and The Harbor as well as city owned land at Fire Station No. 2 pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
2. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).
3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

XIV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

XV. ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 771-7700 or FAX (972) 771-7727 for further information.

The City of Rockwall City Council reserves the right to adjourn into executive session at any time to discuss any of the matters listed on the agenda above, as authorized by Texas Government Code § 551.071 (Consultation with Attorney) § 551.072 (Deliberations about Real Property) § 551.074 (Personnel Matters) and § 551.087 (Economic Development)

I, Kristy Cole, City Secretary for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 28th day of June, 2019 at 4:00 p.m. and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

Date Removed

MINUTES

ROCKWALL CITY COUNCIL REGULAR MEETING

Monday, June 17, 2019 - 5:00 PM

City Hall Council Chambers - 385 S. Goliad St., Rockwall, TX 75087

I. Call Public Meeting to Order

Mayor Pro Tem Macalik called the public meeting to order at 5:19 p.m. Present were Mayor Jim Pruitt, Mayor Pro Tem Dana Macalik, and Councilmembers Bennie Daniels and Kevin Fowler. Also present were City Manager Rick Crowley, Assistant City Managers Mary Smith and Joey Boyd and City Attorney Frank Garza. Councilmember John Hohenshelt was absent from the entire meeting. Councilmember Patrick Trowbridge arrived to the meeting during Public Hearing Item #1 at 6:15 p.m. as noted below.

Mayor Pro Tem Macalik then read the below listed discussion items into the public record before recessing the meeting to go into Executive Session at 5:20 p.m.

II. The City of Rockwall City Council will Recess into Executive Session to discuss the following matters as authorized by Chapter 551 of the Texas Government Code:

1. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).
2. Discussion regarding appointment of city council subcommittees and board liaisons pursuant to Section, §551.074 (Personnel Matters)
3. Discussion regarding purchase, sale or lease of real property in the vicinity of Rockwall Municipal Airport, Downtown and The Harbor as well as city owned land at Fire Station No. 2 pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
4. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

III. Adjourn Executive Session

Council adjourned from Executive Session at 5:55 p.m.

IV. Reconvene Public Meeting (6:00 p.m.)

Mayor Pruitt reconvened the public meeting at 6:00 p.m. (Councilmembers Patrick Trowbridge and John Hohenshelt were absent from the meeting).

V. Take Any Action as a Result of Executive Session

Indication was given that no action was needed as a result of Executive Session.

VI. Invocation and Pledge of Allegiance – Mayor Pro Tem Macalik

Mayor Pro Tem Macalik delivered the invocation and led the Pledge of Allegiance.

VII. Proclamations

No proclamations took place.

VIII. Open Forum

Mayor Pruitt explained how Open Forum is conducted, asking if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed Open Forum.

IX. Consent Agenda

1. Consider approval of the minutes from the June 3, 2019 regular city council meeting, and take any action necessary.
2. Consider awarding a bid to Magnum Manhole and authorizing the City Manager to execute a Purchase Order for Lift Station Wet Well Lining Project in the amount of $68,390 to be funded out of the Water and Sewer Fund, Wastewater Operations Budget, and take any action necessary.
3. Consider approval of a facility use agreement at Gloria Williams Pool between the City and the Rockwall YMCA for the purposes of providing swim lessons to members of the Boys and Girls Club, and take any action necessary.
4. **P2019-024** - Consider a request by Charles Corbett for the approval of a vacating plat establishing Lots 17 & 18, Block B, Lago Vista Addition being a 1.09-acre parcel of land currently identified as Lot 19, Block B, Lago Vista Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 18 (PD-18) for single family land uses, addressed as 2835 Marcie Lane, and take any action necessary.

Councilmember Daniels moved to approve the entire Consent Agenda (#s 1, 2, 3, and 4). Councilmember Johannesen seconded the motion, which passed unanimously of those present (5 ayes with 2 absences (Trowbridge and Hohenshelt).

X. Appointment Items

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

Eric Chodun of the city's Planning & Zoning Commission came forth and briefed the Council on recommendations of the Commission relative to items on tonight's meeting agenda. No discussion or action took place following Mr. Chodun's briefing.

XI. Public Hearing Items

1. **Z2019-012** - Hold a public hearing to discuss and consider a request by Ryan Joyce of Michael Joyce Properties on behalf of Jen-Liang Wu of Unison Investment for the approval of an **ordinance** for a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family-1 (SF-1) District land uses on a 61.45-acre tract of land identified as Tract 4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on the west side of Stodghill Road [FM-3549] north of the

intersection of Stodghill Road [FM-3549] and Cornelius Road, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information pertaining to this agenda item. Specifically, the development will include 17 lots that will be a minimum of 120' x 200' and 23 lots that will be a minimum of 130' x 400'. Of the 40 proposed lots 39 of the lots will range in size from 43,560 SF (*i.e. one [1] acre*) to 65,340 SF (*i.e. one and one half [1½]-acres*). There will be one (1) lot that will be 235,299 SF (*i.e. ~ five and one half [5½] acres*). The proposed minimum size of each dwelling unit (*i.e. air conditioned space)* will be 2,500 SF. The applicant has stated that the homes will be custom homes and will vary from lot to lot. The product will also be a rural style estate lot, which will incorporate a rural-local roadway (*i.e. will not be curb and gutter*) and a minimum front yard setback of 70-feet. The proposed housing product will have a minimum masonry requirement of 80%, with up to 50% cementitious fiberboard horizontal lap siding (*e.g. HardiBoard or Hardy Plan*) and stucco (*i.e. three [3] part stucco or a comparable product -- to be determined be staff*) being permitted. The proposed housing product conforms to the City's minimum masonry and anti- monotony requirements and will allow both *traditional swing* (*i.e. j-swing*), side entry, and flat front entry (*i.e. setback behind the width of the double car garage that is access from the traditional swing configuration*) garage configurations. All garage doors will incorporate upgraded finishes (*e.g. divided garage bay doors, carriage style hardware and lighting elements, cedar clad garage doors, or a similar alternative -- to be determined by staff*). The development will incorporate less than the required 20% open space; however, it will have a 30-foot landscape buffer adjacent to FM-3549 that will incorporate ground cover, a built-up berm and/or shrubbery -- *or a combination thereof* -- and trees and a five (5) foot sidewalk along the entire frontage. In addition, the applicant has stated that by virtue of the development incorporating larger lots without stockade or solid fencing, it will achieve the same feel as more dense developments that incorporate the required 20% open space. The proposed Planned Development District will be subject to the land uses and requirements stipulated for the Single-Family 1 (SF-1) District unless specifically called out in the Planned Development District ordinance.

Mr. Miller shared that thirteen notices were sent out to owners and occupants located within 500' within the city limits. To date, staff has received no responses back. In addition, the Planning & Zoning Commission has recommended approval of this request.
Mayor Pruitt then opened the public hearing, asking if anyone would like to come forth and speak at this time.

Ryan Joyce
1189 Waters Edge Drive
Rockwall, TX 75087

Mr. Joyce, the applicant came forth and addressed the Council, explaining that this development was birthed when he and his wife were searching for a place to build a home on a 1 acre lot. He has been a developer for a number of years but mainly in Austin. He went on to share additional details pertaining to his proposed development.

Councilmember Trowbridge arrived to the meeting at this point (at 6:15 p.m. during Mr. Joyce's comments).

Steve Curtis
2130 FM 1141
Rockwall, TX 75087

Mr. Curtis came forth and expressed concerns related to drainage if this tract of land is developed.

City Engineer Amy Williams provided brief comments pertaining to drainage-related studies and requirements to which the applicant will need to adhere.

City Manager Rick Crowley commented that when the Council has previously approved 1 acre lots on septic, Rockwall County has indicated that the county may not be able to include new lots in the county's inspections program. He cautioned the Council that the city may need to develop its own inspection program; however, he does not believe this will be problematic or too concerning. He just wanted to make the Council aware of this possibility; however, he does not believe this should be a deciding or limiting factor in the Council's decision making this evening.

Councilmember Johannesen asked if the Council is only voting on zoning or if the plan itself is also being approved. Mr. Miller pointed out that the plan is included as an exhibit to the proposed ordinance.

Councilman Johannesen moved to approve Z2019-012. Councilmember Daniels seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO PLANNED DEVELOPMENT DISTRICT SF1 (PD-XX) FOR SINGLE FAMILY 1 (SF-1) DISTRICT LAND USES ON THE SUBJECT PROPERTY, BEING A 62.45-ACRE TRACT OF LAND IDENTIFIED AS TRACT 4 OF THE W. M. DALTON SURVEY, ABSTRACT NO. 72, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'* AND DEPICTED HEREIN BY *EXHIBIT 'B'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 5 ayes with 1 absence (Hohenshelt), and 1 not voting/abstaining (Trowbridge).

2. **Z2019-013** - Hold a public hearing to discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of Dan Bobst of J-BR2, LLC for the approval of an **ordinance** for a PD Development Plan within Planned Development District 32 (PD-32), on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas, situated within the Hillside Sub-District of Planned Development District 32 (PD-32), located within the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information concerning this agenda item. On May 15, 2019, the applicant -- Jimmy Strohmeyer of Strohmeyer Architects, Inc. -- submitted an application requesting to amend Ordinance No. 14-51 to change the PD Concept Plan approved for the subject property. According to Ordinance No. 17-22 [the regulating ordinance for Planned Development District 32 (PD-32)], the purpose of a PD Development Plan is to ensure that a proposed development meets the

intent of the subdistrict and/or to address any waivers required by the development. Ordinance No. 17-22 goes on to state that the Hillside Subdistrict, in which the subject property is located, is intended "… to provide a cluster of restaurant anchors that can contribute to the creation of a vibrant, pedestrian oriented character within the Harbor District." In this case, the applicants proposed development meets this intent of the Hillside Subdistrict; however, the submitted Plan will require waivers to the building placement and parking requirements stipulated in Ordinance No. 17-22.

Notices were sent out to property owners and residents located within 500' as well as the HOA's (homeowners association(s)).

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed the public hearing. The applicant then came forth to speak.

Jimmy Strohmeyer
2701 Sunset Ridge
Suite 607
Rockwall, TX 75032

Mr. Strohmeyer came forth and provided additional information to the Council concerning his requests. Council then spoke with staff concerning the parking requirements and associated waiver that is being requested.

Councilmember Trowbridge commented that he likes the slope and how this will cause this area to appear to "step down" as you approach IH-30.

Councilmember Fowler expressed some concern about the parking and patrons that will be walking uphill and downhill to and from the parking areas.

Councilmember Johannesen moved to approve Z2019-013. Councilmember Trowbridge seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING ORDINANCE NO. 14-51 & 17-22 OF PLANNED DEVELOPMENT DISTRICT 32 (PD-32) AND THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A PD DEVELOPMENT PLAN FOR RETAIL/RESTAURANT PAD SITES ON A 2.893-ACRE PARCEL OF LAND IDENTIFIED AS LOT 1, BLOCK B, HARBOR DISTRICT ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY EXHIBIT 'A'; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 6 ayes with 1 absent (Hohenshelt).

XII. ACTION ITEMS

1. Hear update and discuss and consider city strategic planning, and take any action necessary.

Mayor Pruitt opened this discussion by sharing his thoughts regarding citywide strategic planning, including topics he believes the city should focus on moving forward throughout his last term as mayor. His comments were as follows:

I want to thank our Rockwall City Staff under the leadership of City Manager Rick Crowley for taking the City, over the past five years that I have been Mayor, to a new level of professionalism. I also want to thank my fellow council members who have worked tirelessly in making Rockwall not just a city, but a community. I look forward to serving you for my last term as Mayor of this dynamic growing community, and want to share some of my visions for the upcoming term.

FISCAL RESPONSIBILITY - *We must continue to concentrate on fiscal responsibility that focuses on the growth in expenditures. Keeping expenditures in check will guarantee a tax rate reflective of the conservative views of this Council. I am proud that the tax rate in our City has decreased to the effective rate for each of the years I have been your Mayor and I am confident this will be the case again this year.*

RESIDENTIAL DEVELOPMENT -*We should continue to encourage developers to increase the quality and size of homes on the remaining developable residential land in our city. Increases in size and quality of homes will add increased taxable valuation.*

BUSINESS DEVELOPMENT - *This city is committed to attracting quality commercial and retail projects. Our Economic Development Corporation must continue to attract great companies like the ones that now call Rockwall home.*

Downtown is a phenomenal place to visit, not just for our residents, but it attracts many to come to Rockwall and attend one of the many events that takes place downtown each week. We must continue to support the Farmer's Market downtown where it has thrived for the past ten years. The San Jacinto Square downtown is a jewel and the concert series that takes place on Thursday, Friday and Saturday nights should be expanded so as to have live music downtown each and every weekend.

The Harbor District has finally gotten on track and is developing into what was envisioned by its creation. Our City invested a large amount of tax money at the Harbor and I believe with the opening of the new condominium projects we will see the Harbor thrive. We have to do a better job in encouraging folks to park in the Trend Tower garage during events at the Harbor. Last Thursday the neighborhood above the Harbor was inundated with attendees parking all the way to the top of the neighborhood due to the large turnout, while the Trend Tower Garage was barely used. Signage must be changed that instructs people entering the Harbor that City parking is available at the Tower. Our taxpayers funded several million dollars for this garage and it should be used.

We also need to decide what are our long-term goals as to the sale or development of the additional property that the City still owns in the district and try to move beyond the barriers of the past. The Harbor is an asset that needs to be enjoyed by our residents. I would encourage our residents to rediscover the Harbor and see what a truly spectacular complex it is.

ROADWAYS/TRANSPORTATION - *The council remains committed to improving roadways and transportation. We will continue to partner with Rockwall County to provide relief in this area. The I30 project for expanding the bridge over the lake is proceeding and I expect this project will be an economic game-changer for our City.*

Likewise, the John King to State Highway 205 exchange with TXDOT is in the environmental stage and will have the necessary funding to be completed in a few years.

We must also be vigilant about making repairs to existing streets that have deteriorating concrete and asphalt surfaces which are constantly requiring temporary repairs. Planning for major roadway bond projects for rehabilitation of City streets is well underway.

PARKS - *The Parks Department has exceeded our expectations and continues to make Rockwall a great place to live, work and play. We should all get behind and energize our efforts to construct a lakeside city park. We are a lakeside community and do not have one city park on the lake for our resident's enjoyment. It is time that we get with Dallas to lease the take-line in the North so we can complete this needed addition to our park system.*

We are into a comprehensive study of our athletic facilities and soon we will need to consider what level of these facilities the City can afford.

I have already started a comprehensive assessment of our take-line ordinance. This ordinance passed many years ago does not address certain issues that have arisen concerning construction and access We must encourage the owners living on the lake to lease the take-line from the City if they want to use it. Many property owners are using the take-line but paying nothing for that opportunity while others pay according to the ordinance. If these owners are not willing to lease the property, then our residents should be allowed to use the property for recreational purposes which are not now possible.

AIRPORT - *We must concentrate on obtaining grant finding from TDOT Aviation to correct some serious problems at the Ralph Hall Municipal Airport. We are presently working to obtain land that is needed for these improvements. It is very important that we attract commercial aviation businesses to the airport. With the runway length being fixed, it is very challenging to attract commercial aviation. With the new technologies being developed, drone and helicopter businesses are the type of commercial aviation businesses that we can attract.*

VOLUNTEERISM - *I once again encourage each citizen to get involved in our City in one of our many volunteer opportunities. If you want to get involved in this city, we will do our very best to find you a spot that gels with your experience level, interests, or available time commitment. It doesn't matter if you have ever been involved before. If you want a voice in this city, come talk to us at city hall or go onto our website www.rockwall.com.*

CUSTOMER SERVICE - *Our city employees are our best asset. We are in a customer service business – whether you are the water meter reader or a patrol officer. We expect every employee to treat citizens with respect and to do their job as professionally as possible.*

Again, I am so honored to be your mayor, and I look forward to working with each of you to keep this the best city in the State of Texas.

Following Mayor Pruitt's comments, City Manager Rick Crowley then came forth and addressed the Council. He provided extensive comments regarding some of the city's past strategic plan-related accomplishments and strategic items that the city may wish to focus on moving forward into the future. The Council took no formal action pertaining to this discussion item.

2. Discuss and consider overview of the city's budget process and outlook for Fiscal Year 2020, and take any action necessary

Assistant City Manager / Finance Director Mary Smith briefed the Council on the upcoming budget process and outlook for next fiscal year's budget. She pointed out that the city's effective tax rate may end up being just slightly higher than our current rate. So, keeping the effective tax rate may require a very slight rate increase. Department directors have submitted their budget requests, and city management is currently working through those requests in order to arrive at the ability to present a balanced budget proposal to the Council for consideration later this summer.

General discussion ensued pertaining to projected property tax values. Mr. Crowley indicated that staff will be preparing the budget proposal based on the current tax rate, and then staff and council will move forward from there with the budget process.

XIII. Executive Session

The City of Rockwall City Council will Recess into Executive Session to discuss the following matters as authorized by Chapter 551 of the Texas Government Code:

1. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).
2. Discussion regarding appointment of city council subcommittees and board liaisons pursuant to Section, §551.074 (Personnel Matters)
3. Discussion regarding purchase, sale or lease of real property in the vicinity of Rockwall Municipal Airport, Downtown and The Harbor as well as city owned land at Fire Station No. 2 pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
4. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

XIV. Reconvene Public Meeting & Take Any Action as Result of Executive Session

Council did not reconvene in Executive Session following the close of the public meeting agenda.

XV. Adjournment

Mayor Pruitt reminded the public about the upcoming 4th of July parade and fireworks show. He then adjourned the meeting at 7:19 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 1ST DAY OF JULY, 2019.

CITY OF ROCKWALL

ORDINANCE NO. 19-26

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO PLANNED DEVELOPMENT DISTRICT (PD-87) FOR SINGLE FAMILY 1 (SF-1) DISTRICT LAND USES ON THE SUBJECT PROPERTY, BEING A 62.45-ACRE TRACT OF LAND IDENTIFIED AS TRACT 4 OF THE W. M. DALTON SURVEY, ABSTRACT NO. 72, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'* AND DEPICTED HEREIN BY *EXHIBIT 'B'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Ryan Joyce of Michael Joyce Properties on behalf of Jen-Liang Wu of Unison Investment for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family 1 (SF-1) District land uses, on a 62.45-acre tract of land identified as Tract 4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* and depicted in *Exhibit 'B'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

SECTION 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, depicted in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the *Density and Development Standards*, outlined in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of

approval of the amended zoning classification for the *Subject Property*;

SECTION 4. That a *Master Parks and Open Space Plan* for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan* described in *Exhibit 'C'* of this ordinance, shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

SECTION 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 6(b) through 6(f) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for a *Master Parks and Open Space Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Master Parks and Open Space Plan
(2) Master Plat
(3) Preliminary Plat
(4) PD Site Plan
(5) Final Plat

(c) *Master Parks and Open Space Plan.* An *Master Parks and Open Space Plan* for the *Subject Property*, as depicted in *Exhibit 'C'* of this ordinance, prepared in accordance with this ordinance, shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat.* A *Master Plat* for the *Subject Property*, as depicted in *Exhibit 'C'* of this ordinance, shall be submitted and shall identify the proposed timing of each phase of the proposed development. A *Master Plat* application may be processed by the City concurrently with a *Master Parks and Open Space Plan* application for the development.

(e) *Preliminary Plat.* A *Preliminary Plat* for each phase of the *Subject Property*, as depicted in *Exhibit 'C'* of this ordinance, shall be submitted in accordance with the phasing plan established by the *Master Plat* and shall include a *Treescape Plan* for the phase being *Preliminary Platted*. A *Preliminary Plat* application may be processed by the City concurrently with a *Master Plat* and a *Master Parks and Open Space Plan* application for the development.

(f) *PD Site Plan.* A *PD Site Plan* for each phase of the development of the *Subject Property*, as depicted in *Exhibit 'C'* of this ordinance, shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features. A *PD Site Plan* application may be processed by the City concurrently with a *Final Plat* application for the development.

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, shall be submitted for approval.

SECTION 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and

each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 9. That this ordinance shall take effect immediately from and after its passage;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 1ST DAY OF JULY, 2019.

BEING 62.517 acres of land located in the WILLIAM DALTON SURVEY, ABSTRACT NUMBER 72, Ellis County, Texas, being all of that certain called 61.455 acre tract as described to Unison Investment by deed recorded in volume 489, page 23, Deed Records, Rockwall County, Texas (D.R.R.C.T.) and being more particularly described by metes and bounds as follows:

BEGINNING at a fence corner found in the west line of Farm-to-Market Road 3549 (100' right-of-way) at the southeast corner of the above-mentioned 61.455 acre tract;

THENCE South 89 degrees 25 minutes 31 seconds West, at a distance of 484.49 feet pass 3.62 feet right of a 5/8" iron pipe found and continuing for a total distance of 1353.00 feet with the south line of said 61.455 acre tract to a 1/2" iron pipe found at the northwest corner of the William Kyle Allen et ux 12.888 acre tract as described in Volume 153, Page 629, (D.R.R.C.T.) and the northeast corner of the Robert Peoples and Megan Peoples 10.00 acre tract as described in Instrument Number 2013000483387, (D.R.R.C.T.);

THENCE South 89 degrees 24 minutes 55 seconds West, a distance of 329.15 feet with the south line of said 61.455 acre tract to a 1/2" iron rod with red cap stamped "ONEAL 6570" set at the northwest corner of the above-mentioned 10.00 acre tract and the northeast corner of the Billy Conrad Hagen 4.030 acre tract as described in Volume 103, Page 775, (D.R.R.C.T.);

THENCE South 89 degrees 55 minutes 41 seconds West, a distance of 328.28 feet with the south line of said 61.455 acre tract, same being the common north line of the above-mentioned 4.030 acre tract and the Lorin Preston Larman and Jeanne Larman 4.962 acre tract as described in Volume 3679, Page 25, (D.R.R.C.T.) to a 5/8" iron rod found at the northwest corner of the just mentioned 4.962 acre tract;

THENCE South 89 degrees 37 minutes 12 seconds West, a distance of 136.07 feet to the southwest corner of said 61.455 acre tract, same being the common southeast corner of the Craig William Mccallum 20.057 acre tract as described in Instrument Number 20150000001423, (D.R.R.C.T.), from which a 1/2" iron rod with cap stamped "DC&A" bears South 60 degrees 38 minutes 16 seconds East, a distance of 1.05 feet and a fence corner bears North 89 degrees 37 minutes 12 seconds East, a distance of 0.71 feet;

THENCE North 00 degrees 53 minutes 26 seconds West, a distance of 1320.98 feet to a mag nail with washer stamped "ONEAL 6570" set in the approximate centerline of Clem Road (no record found by surveyor) at the northwest corner of said 61.455 acre tract and the northeast corner of the above-mentioned 20.057 acre tract;

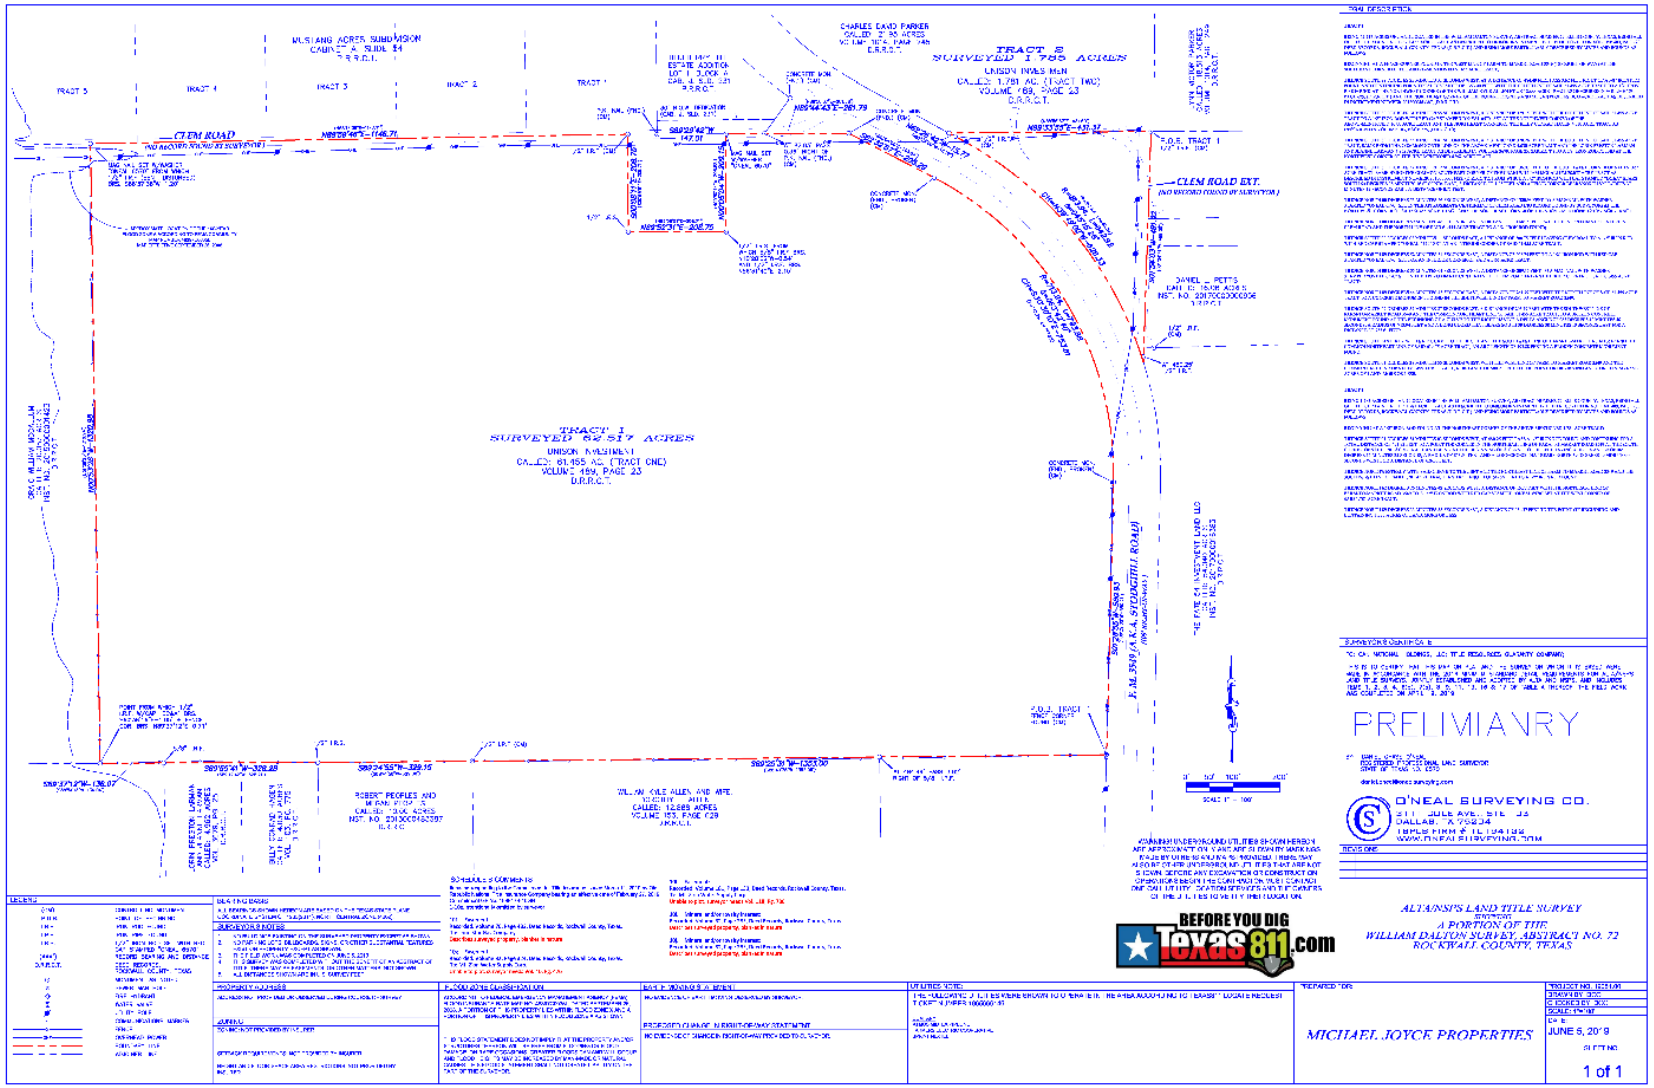
THENCE North 88 degrees 59 minutes 46 seconds East, a distance of 1146.71 feet with the approximate centerline of Clem Road and the north line of said 61.455 acre tract to a 1/2" iron rod found;

THENCE South 00 degrees 08 minutes 11 seconds East, a distance of 208.75 feet leaving Clem Road to a 1/2" iron rod with red cap stamped "ONEAL 6570" set at an interior corner of said 61.455 acre tract;

THENCE North 89 degrees 52 minutes 31 seconds East, a distance of 208.75 feet to a 1/2" iron rod with red cap stamped "ONEAL 6570" set for an interior corner of said 61.455 acre tract;

THENCE North 00 degrees 05 minutes 04 seconds West, a distance of 209.15 feet to a mag nail with washer stamped "ONEAL 6570" set in the approximate centerline of Clem Road and an

exterior corner of said 61.455 acre tract;



THENCE North 89 degrees 44 minutes 43 seconds East, a distance of 261.79 feet with the north line of said 61.455 acre tract to a concrete monument found in the southwest line of Farm-To-Market Road 3549;

THENCE South 62 degrees 32 minutes 57 seconds East, a distance of 205.29 feet with the southwest line of Farm-To-Market Road 3549 and the common northeast line of said 61.455 acre tract, to a broken concrete monument found at the beginning of a curve to the right having a delta angle of 063 degrees 42 minutes 40 seconds, a radius of 713.94 feet and a long chord that bears South 30 degrees 30 minutes 10 seconds East for a distance of 753.61 feet;

THENCE southeasterly with said curve to the right and the southwest line of Farm-To-Market Road 3549 and the common northeast line of said 61.455 acre tract, an arc length of 793.88 feet to a broken concrete monument found;

THENCE south 01 degrees 28 minutes 55 seconds west, with the west line of Farm-To-Market Road 3549 and the common east line of said 61.455 acre tract, a distance of 580.93 feet to the **POINT OF BEGINNING** and containing 62.517 acres of land, more or less.

February 25, 2019
SHEET NO. 1 OF 1
PROJECT #00000

62.455 ACRES
40 LOTS
1.0 ACRE MINIMUM

25

Density and Development Standards.

1. *Permitted Uses.* Unless specifically provided by this Planned Development District ordinance, only those uses permitted within the Single Family 1 (SF-1) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'C'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	120' x 200'	43,560 SF	17	42%
B	130' x 400'	65,340 SF	23	58%
		Maximum Permitted Units:	*40*	*100.00%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development District ordinance, the development standards stipulated by the Single Family 1 (SF-1) District, as specified by Article V, *District Development Standards*, of the Unified Development Code (UDC) are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed *0.65* dwelling units per gross acre of land; however, in no case should the proposed development exceed *40* units. All lots shall conform to the standards depicted in *Table 2*, which are as follows:

Table 2: Lot Dimensional Requirements

Lot Type (see Concept Plan) ►	***A***	***B***
Minimum Lot Width [1]	120'	130'
Minimum Lot Depth	200'	400'
Minimum Lot Area	43,560 SF	65,340 SF
Minimum Front Yard Setback [2] & [5]	70'	70'
Minimum Side Yard Setback	25'	25'
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	30'	30'
Minimum Length of Driveway Pavement	70'	70'
Maximum Height [3]	38'	38'
Minimum Rear Yard Setback [4]	50'	50'
Minimum Area/Dwelling Unit (SF) [Air Conditioned Space]	2,500 SF	2,500 SF
Maximum Lot Coverage	20%	20%
Permitted Encroachment in Required Setbacks[5]	Allowed	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (*whichever is greater*) of the single-family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimney, eaves, and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for a property; however, the encroachment shall not exceed five (5) feet on side yard setbacks (adjacent to a street) and shall not encroach into public right-of-way. A sunroom is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces.

4. *Building Standards.* All development shall adhere to the following building standards:

   (a) Masonry Requirement. The minimum masonry requirement for the exterior façades of all buildings shall be 80%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementitious fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the masonry requirement.

   (b) Roof Pitch. A minimum of an *8:12* roof pitch is required on all structures with the exception of porches, which shall have a minimum of a *4:12* roof pitch.

   (c) Garage Orientation. Garages shall be oriented in a *traditional swing* (or *j-swing*), side entry, or in a flat-front entry configuration (*i.e. even with the front façade of the primary structure*). Garages utilizing a *traditional swing* (or *j-swing*) are permitted to have a single garage door facing the street that is behind the width of the double car garage that is accessed from a *traditional swing* configuration. All garage doors shall be required to have upgraded finishes (*e.g. divided garage bay doors, carriage style hardware and lighting elements, cedar clad garage doors, or a similar alternative -- to be approved by staff*) [*examples of acceptable garage configurations are depicted in Figure 1*].

Figure 1: *Example Garage Doors*

5. *Anti-Monotony Restrictions.* The development shall adhere to the *Anti-Monotony Matrix* depicted in *Table 3* below (*for spacing requirements see Figures 2 & 3 below*).

Table 3 : Anti-Monotony Matrix

Lot Type	*Minimum Lot Size*	*Elevation Features*
A	120' x 200'	(1), (2), (3)
B	130' x 400'	(1), (2), (3)

(1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least five (5) intervening homes of differing materials on the same side of the street beginning with the adjacent property and six (6) intervening homes of differing materials on the opposite side of the street.

(2) Front building elevations shall not repeat along any block face without at least five (5) intervening homes of differing appearance on the same side of the street and six (6) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or Clem Road shall not repeat without at least five (5) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

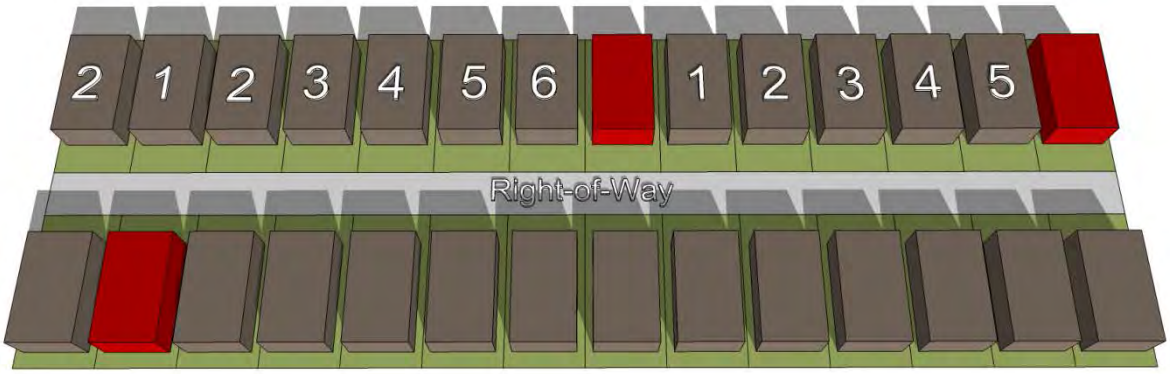
(a) Number of Stories

(b) Permitted Encroachment Type and Layout
(c) Roof Type and Layout
(d) Articulation of the Front Façade

(3) Permitted encroachment (*i.e. porches*) elevations shall not repeat or be the same along any block face without at least five (5) intervening homes of sufficient dissimilarity on the same side of the street beginning with the home adjacent to the subject property and six (6) intervening homes beginning with the home on the opposite side of the street.

(4) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

Figure 2: Properties line up on the opposite side of the street. Where RED is the subject property.



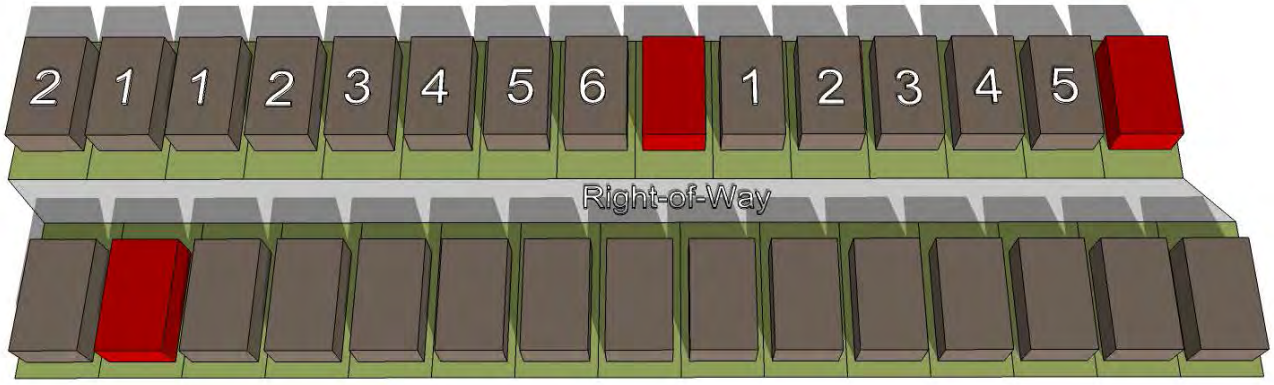


Figure 3: Properties do not line up on opposite side of the street. Where RED is the subject property.

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(a) Wrought Iron/Tubular Steel. All Lots shall utilize fencing materials that shall be open in nature and not to exceed six (6) feet in height. Fences that extend beyond the front

building line of any structure shall be required to be pipe-rail or similar. No chain link or wooden fencing shall be allowed.

(b) Wrought Iron/Tubular Steel. Lots located along the perimeter of the subdivision, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences shall not exceed six (6) feet in height. All perimeter fencing of the development shall incorporate masonry columns at 45-feet off center spacing.

7. Landscape and Hardscape Standards.

(1) *Landscape.* Landscaping shall be reviewed and approved with the PD Site Plan. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

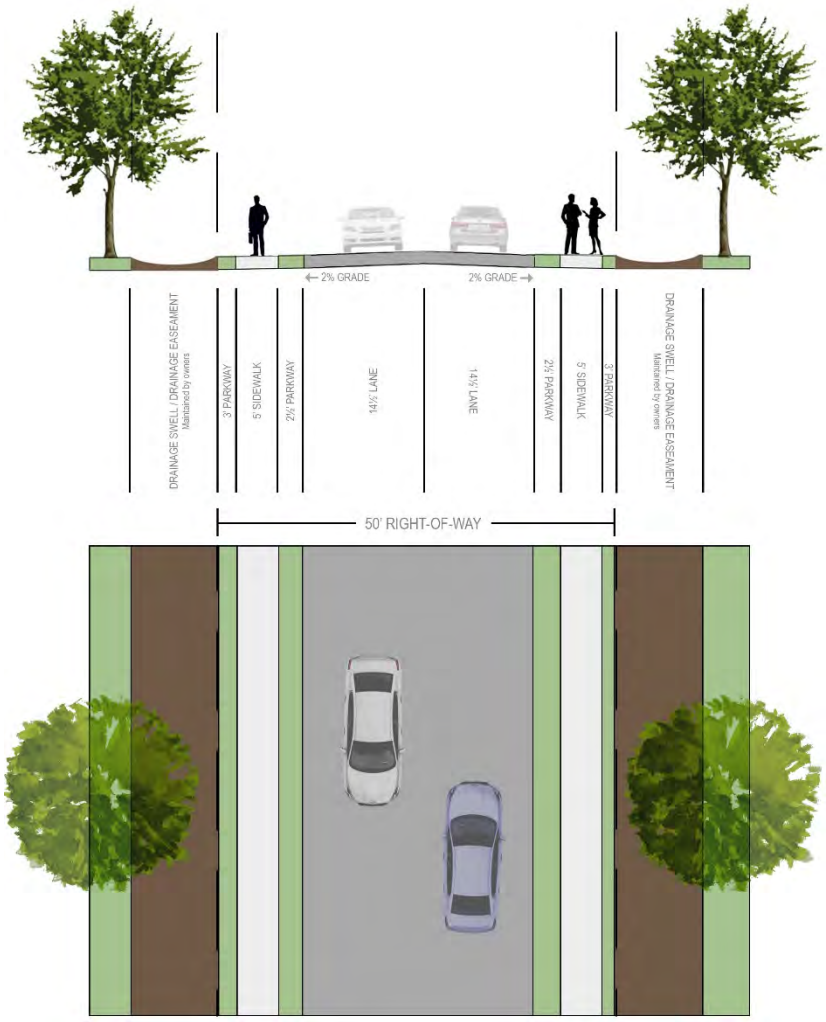
(a) Landscape Buffer and Sidewalks (FM-3549). A minimum of a 30-foot landscape buffer shall be provided along FM-3549 (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a *built-up* berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, three (3) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. The developer shall also be responsible for the construction of a five (5) foot sidewalk situated within the 30-foot landscape buffer adjacent to FM-3549.

(b) Landscape Buffer and Sidewalks (Clem Road). A minimum 20-foot landscape buffer shall be provided

(3) *Street Trees.* Prior to issuance of a Certificate of Occupancy (CO), all residential single-family lots situated within the proposed subdivision shall be landscaped with canopy trees from the list stipulated by Section 7.1 of this ordinance in the following sizes and proportions:

(i) Three (3), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of the required lots

(ii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the rear yards of the required lots.



(iii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the side yards facing the street.

(4) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association (HOA).

(5) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan*.

8. *Streets.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to the City's street standards as shown below in *Figure 3.*

Figure 3: *Rural-Local Roadway Cross-section*

9. *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

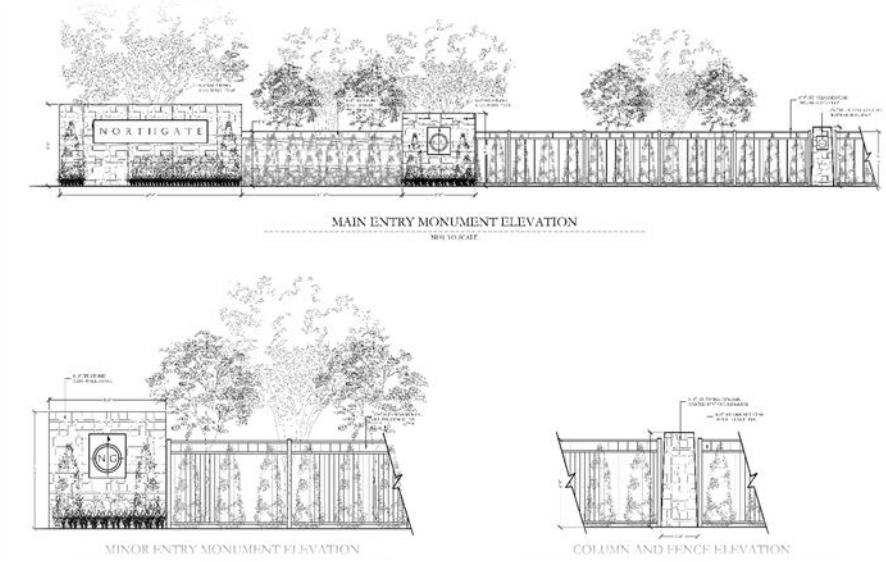
10. *Sidewalks.* All sidewalks adjacent to a street shall be a maximum of three (3) feet inside the right-of-way line and be five (5) feet in overall width.

11. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be

considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.

12. *Neighborhood Signage and Enhancements.* Permanent subdivision identification signage shall be permitted at all major and minor entry points for the proposed subdivision (*shown in Figure 5 below*). Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*. The developer shall provide enhanced landscaping areas within the Subject Property as generally depicted in *Figure 4.* The final design of these areas shall be provided on the PD Site Plan.

Figure 4: *Neighborhood Signage*



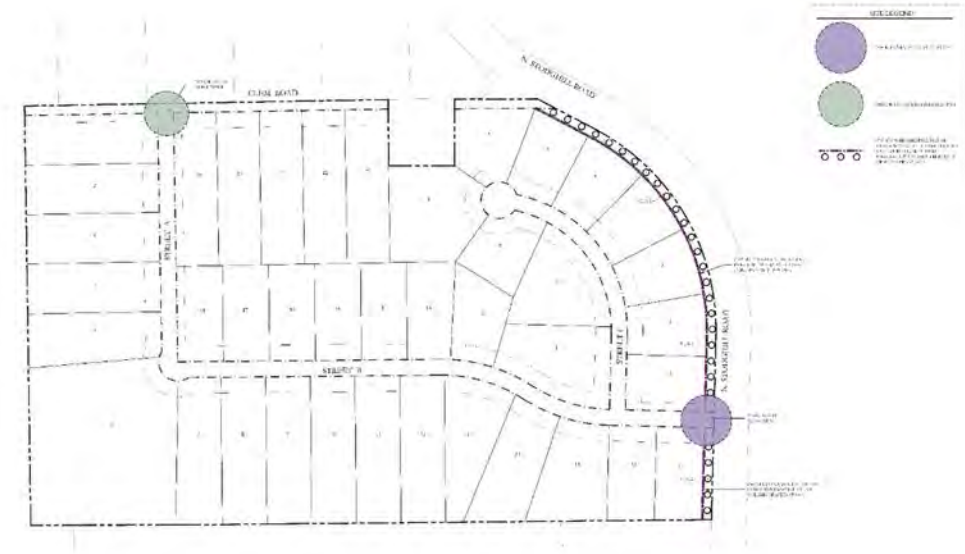


Figure 5: *Neighborhood Signage/Enhanced Landscaping Areas*

13. *Homeowner's Association (HOA)*. A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the *Subdivision Regulations* contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all private neighborhood parks, trails, open space and common areas (*including drainage facilities*), irrigation, landscaping, screening fences and neighborhood signage associated with this development.

14. *On-Site Sewage Facilities. Septic Systems* are permitted on all lots within this subdivision pending conformance to the following standards:

    (a) All *Septic Systems* shall be designed by a licensed *On-Site Sewage Facility (OSSF)* professional (*e.g. licensed engineer, sanitarian, and etcetera*).

    (b) A stamped and signed copy of the *Septic System* plans indicating the full limits of the septic field shall be submitted to the city at the time of building permit on a *lot-by-lot* basis.

    (c) All *Septic Systems* shall be inspected and approved by the City's chosen inspector.

15. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

THIS PAGE INTENTIONALLY LEFT BLANK

CITY OF ROCKWALL

ORDINANCE NO. 19-25

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING *ORDINANCE NO. 14-51 & 17-22* OF PLANNED DEVELOPMENT DISTRICT 32 (PD-32) AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A PD DEVELOPMENT PLAN FOR RETAIL/RESTAURANT PAD SITES ON A 2.893-ACRE PARCEL OF LAND IDENTIFIED AS LOT 1, BLOCK B, HARBOR DISTRICT ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of D. W. Bobst of J-BR2, LLC for an amendment to *Ordinance No. 14-51* of Planned Development District 32 (PD-32) [*Ordinance No. 14-51*] and the Unified Development Code [*Ordinance No. 04-38*] for the purpose of establishing a PD Development Plan for retail/restaurant pad sites within the *Hillside Subdistrict*, on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 32 (PD-32) [*Ordinance No.'s 14-51 & 17-22*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 14-51*;

SECTION 2. That Planned Development District 32 (PD-32) [*Ordinance No. 17-22*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by adopting this PD Development Plan and amending the official zoning map of the City of Rockwall for the *Subject Property*; and,

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the PD Development Plan, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

SECTION 4. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 17-22*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

1) Development of this property shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance;

2) All buildings shall be developed with consideration to the pedestrian access easements/pedestrian ways perpendicular to Harbor Heights Drive, and a seat wall shall be incorporated into the area identified as *Park* in the *Concept Plan* depicted in *Exhibit 'B'*. The pedestrian access easements/pedestrian ways shall be consistent with the design guidelines contained in *Resolution No. 10-40*;

3) All pedestrian access easements/pedestrian ways shall be required to be dedicated as easements at the time the property is replatted;

4) All building materials and color schemes proposed for this development should conform to the requirements stipulated by Planned Development District 32 (PD-32) [*as amended*];

5) Prior to the issuance of a building permit the applicant shall submit and seek approval for a detailed *PD Site Plan* that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and with the requirements approved in this ordinance;

6) All buildings throughout the development shall be constructed with a consistent design scheme, incorporate four (4) sided architecture that creates a dual entry appearance, and be approved by the Architectural Review Board (ARB) at the time of the *PD Site Plan*;

7) Prior to the issuance of a building permit the applicant shall submit and seek approval for a replat that indicates all necessary easements; and,

8) The proposed uses for this development shall be required to demonstrate that they have access to a sufficient number of parking spaces within the development itself to support the use.

SECTION 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 7. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is

different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 8. That this ordinance shall take effect immediately from and after its passage;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 1ST DAY OF JULY, 2019.

CITY OF ROCKWALL

ORDINANCE NO. 19-___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE CODE OF ORDINANCES IN CHAPTER 18. FIRE PREVENTION AND PROTECTION, ARTICLE III. FIRE MARSHAL, SECTIONS 18-66 AND 18-67 OF, AUTHORIZING THE FIRE CHIEF TO APPOINT THE FIRE MARSHALL FOR THE CITY; PROVIDING FOR RELATED MATTERS; PROVIDING A SEVERABILITY CLAUSE; PROVIDING A REPEALER CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

****

WHEREAS, the City of Rockwall (the "City") is a Home Rule City and by State law and City Charter is permitted to establish ordinances to protect the health, safety and general welfare of its residents; and

WHEREAS, based on review and current needs of the City, the City Council finds that the position of Fire Marshall shall be hired by the Fie Chief and report to the Fire Chief;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THAT:

SECTION 1. FINDINGS. The foregoing recitals are hereby found to be true and correct and are hereby adopted by the City Council and made a part hereof for all purposes as findings of fact.

SECTION 2. **AMENDMENT.** Chapter 18, Article III, Sections 18-66 and 18-67 are hereby amended and should read as follows:

ARTICLE III. - FIRE MARSHAL

Sec. 18-66. - Appointment; removal.

The fire marshal shall be appointed by the fire chief ~~City Manager~~ of the city. The fire marshal shall not be removed from office except for cause and after full opportunity to be heard on specific and relevant charges by and before the appointing authority ~~City Manager~~.

Sec. 18-67. - Duties and functions.

The function of the fire marshal and fire prevention department shall be the implementation, administration and enforcement of the provisions of the fire code. The fire marshal shall carry out those duties as contained in the fire code, as adopted by section 18-32 including, but not limited to, and as directed by the fire chief. ~~City Manager or designee~~:

SECTION 3. The remainder of Chapter 18, Article III “FIRE MARSHALL” composed of Sections 18-65 to 18-96 shall remain unchanged.

SECTION 4. REPEALING ORDINANCES IN CONFLICT. All ordinances or parts of ordinances in conflict herewith are hereby repealed to the extent of such conflict.

SECTION 5. SEVERABILITY. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional or illegal, such decision shall not affect the validity of the remaining sections of this ordinance. The City Council hereby declares that it would have passed this ordinance, and each section, subsection, clause, or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared void.

SECTION 6. SAVINGS CLAUSE. All ordinances or parts of ordinances in conflict herewith are, to the extent of such conflict, hereby repealed. The balance of such ordinance is hereby saved from repeal.

SECTION 7. EFFECTIVE DATE. This ordinance shall become effective upon its second reading, and it is so ordained.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THIS 15th DAY OF JULY, 2019.

Jim Pruitt, Mayor

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, P.E., Director of Public Works/City Engineer**

DATE: **July 1, 2019**

SUBJECT: **Professional Engineering Services Contract**
East Fork Sanitary Sewer Aerial Crossing Repair Project

Northwest of the intersection of East Fork Drive and N. Goliad Street, there is an existing sanitary sewer aerial crossing that is constructed of a ten-inch (10") clay tile pipe that is failing and in need of repair. Recently, the Public Works Department temporarily repaired the pipe until it can be replaced.

Staff has requested Birkhoff, Hendricks and Carter, L.L.P. prepare a proposal for the engineering design services necessary to replace the existing aerial crossing with a new ten-inch (10") aerial crossing constructed with a sixteen-inch (16") steel encasement pipe. The engineering design fee for the replacement of the East Fork sanitary sewer aerial crossing is $52,100.00. Staff requests City Council consider approving the professional engineering services contract for Birkhoff, Hendricks and Carter, L.L.P. to perform the engineering design services for the East Fork Sanitary Sewer Aerial Crossing Repair Project in an amount not to exceed $52,100.00, to be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.

STATE OF TEXAS ♦

♦

COUNTY OF ROCKWALL ♦

PROFESSIONAL ENGINEERING SERVICES CONTRACT

This Agreement is made and entered into in Rockwall County, Texas, between City of Rockwall, Texas ("CITY"), a municipal corporation and political subdivision of the State of Texas, acting by and through its City Manager and Birkhoff, Hendricks and Carter, L.L.P., ("ENGINEER"), located at 11910 Greenville Avenue, Suite 600, Dallas, Texas, Engineers duly licensed and practicing under the laws of the State of Texas.

WHEREAS, CITY desires to engage Engineer as an independent contractor to render certain technical and professional services necessary for performing:

PROFESSIONAL ENGINEERING SERVICES for the East Fork Drive Sanitary Sewer Aerial Crossing Replacement project.

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements contained herein, the Parties hereby agree as follows:

1. Scope of Work

Engineer agrees to perform professional engineering services as specifically defined in this Contract as Attachment "A" and as authorized by CITY. Specifically, Engineer shall perform Professional services as requested by CITY and defined in Attachment "A".

The Parties by mutual agreement through contract amendments may provide for additional technical and professional services to be performed under the basic general terms and conditions of this Contract. CITY reserves the right to enter into another agreement with other engineering firms to provide the same or similar professional services during the term of this Contract for different projects.

2. Compensation & Term of Agreement

Cost for such services will be an amount not to exceed Fifty-Two Thousand One-Hundred dollars ($52,100.00) and billed in accordance with the payment schedule provided in Attachment "B". Engineer is not authorized to perform any work beyond the limited not to exceed amount without authorized written approval by CITY.

The term of this Agreement shall commence upon execution of this agreement and follow the schedule described in Attachment "C". In the event of termination, Engineer will assist the CITY in arranging a smooth transition process. However, Engineer's obligation to provide services to the CITY will cease upon the effective date of termination, unless otherwise agreed in writing.

3. Method of Payment

CITY shall pay Engineer its fees based on the presentation by Engineer to CITY of a correct monthly statement for all the amounts earned under the Contract together with reasonable supporting documentation verifying the accuracy of the fees and expenses. CITY shall then pay Engineer its fee within thirty (30) days after presentation of the accurate monthly statement by Engineer to CITY. CITY is a State sales and use tax exempt political subdivision of the State of Texas. All records supporting payment shall be kept in the offices of Engineer for a period of not less than three (3) years and shall be made available to CITY for inspection, audit or copying upon reasonable request.

4. Engineer's Standard of Care

Engineer shall provide its services under this Contract with the same degree of care, skill and diligence as is ordinarily provided by a professional Engineer under similar circumstances for a similar project. Engineer represents that it has the capability, experience, available personnel, and means required to perform the services contemplated by this Contract. Services will be performed using personnel and equipment qualified and/or suitable to perform the work requested by the CITY. CITY retains the right to report to Engineer any unsatisfactory performance of Engineer personnel for appropriate corrective action. Engineer shall comply with applicable federal, state, and local laws in connection with any work performed hereunder.

Engineer will seek written CITY approval to accept any contract or perform any services for any person, entity, or business working on this project. CITY may waive this potential conflict, but such waiver is at CITY's sole discretion and its decision shall be final.

5. Ownership of Documents

As part of the total compensation which CITY has agreed to pay Engineer for the professional services to be rendered under this Contract, Engineer agrees that hard copies of all finished and unfinished documents, data, studies, surveys, drawings, specifications, field notes, maps, models, photographs, preliminary reports, reports, bid packet/construction contract documents/advertisement for bids incorporating any CITY standard provisions provided by Engineer, will remain the property of the CITY. Engineer will furnish CITY with paper and electronic copies, to the extent they are available, of all of the foregoing to facilitate coordination, however, ownership of the underlying work product shall remain the intellectual property of the Engineer. Engineer shall have the right to use such work products for Engineer's purposes. However, such documents are not intended to be suitable for reuse by CITY or others on extension of the Project or on any other project. Any reuse without the express written consent of the Engineer will be at reuser's sole risk and without liability or legal exposure to the Engineer, and CITY to the extent allowed by law, shall hold harmless the Engineer from all claims, damages, losses, expenses, and costs, including attorneys' fees arising out of or resulting from the reuse of said documents without the Engineer's consent. The granting of such consent will entitle the Engineer to further compensation at rates to be agreed upon by CITY and the Engineer. The above notwithstanding, Engineer shall retain all rights in its standard drawing details, designs, specifications, databases,

computer software and any other proprietary and intellectual property information provided pursuant to this Contract, whether or not such proprietary information was modified during the course of providing the services.

6. Insurance

A. Engineer agrees to maintain Worker's Compensation and Employer's Liability Insurance to cover all of its own personnel engaged in performing services for CITY under this Contract in at least the following amounts:

Workmen's Compensation – Statutory
Employer's Liability – $100,000
Bodily Injury by Disease - $500,000 (policy limits)
Bodily Injury by Disease - $100,000 (each employee)

B. Engineer also agrees to maintain Commercial General Liability, Business Automobile Liability, and Umbrella Liability Insurance covering claims against Engineer for damages resulting from bodily injury, death or property damages from accidents arising in the course of work performed under this Contract in not less than the following amounts:

$2,000,000 General aggregate limit

$1,000,000 each occurrence sub-limit for all bodily injury or property damage incurred all in one occurrence

$1,000,000 each occurrence sub-limit for Personal Injury and Advertising

C. Engineer shall add CITY, its City Council members and employees, as an additional insureds on all required insurance policies, except worker's compensation, employer's liability and errors and omissions insurance. The Commercial General Liability Policy and Umbrella Liability Policy shall be of an "occurrence" type policy.

D. Engineer shall furnish CITY with an Insurance Certificate on the date this Contract is executed and accepted by CITY, which confirms that all above required insurance policies are in full force and effect.

E. Engineer agrees to maintain errors and omissions professional liability insurance in the amount of not less than one million dollars ($1,000,000) annual aggregate, on a claims made basis, as long as reasonably available under standard policies.

7. INDEMNIFICATION

ENGINEER SHALL INDEMNIFY AND SAVE HARMLESS THE CITY AND ITS CITY COUNCIL MEMBERS AND EMPLOYEES FROM SUITS, ACTIONS, LOSSES, DAMAGES, CLAIMS, OR LIABILITY, INCLUDING WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, ALL EXPENSES OF LITIGATION, COURT COSTS, AND REASONABLE ATTORNEY'S FEES FOR INJURY OR DEATH TO ANY PERSON, OR INJURY TO ANY PROPERTY, RECEIVED OR SUSTAINED BY ANY PERSON OR PERSONS OR PROPERTY, TO THE EXTENT CAUSED BY THE NEGLIGENT ACTS OF ENGINEER OR ITS AGENTS OR EMPLOYEES, IN THE EXECUTION OF PERFORMANCE OF THIS CONTRACT.

ENGINEER'S TOTAL LIABILITY TO CITY FOR ANY LOSS OR DAMAGES FROM CLAIMS ARISING OUT OF, OR IN CONNECTION WITH, THIS CONTRACT FROM ANY CAUSE INCLUDING ENGINEER'S STRICT LIABILITY, BREACH OF CONTRACT, OR PROFESSIONAL NEGLIGENCE, ERRORS AND OMISSIONS SHALL NOT EXCEED ONE MILLION DOLLARS ($1,000,000). NEITHER PARTY TO THIS AGREEMENT SHALL BE LIABLE TO THE OTHER PARTY OR ANY THIRD PARTY CLAIMING THROUGH THE OTHER RESPECTIVE PARTY, FOR ANY SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE, LIQUIDATED, DELAY OR CONSEQUENTIAL DAMAGES OF ANY KIND INCLUDING BUT NOT LIMITED TO LOST PROFITS OR USE OF PROPERTY, FACILITIES OR RESOURCES, THAT MAY RESULT FROM THIS AGREEMENT, OR OUT OF ANY GOODS OR SERVICES FURNISHED HEREUNDER.

8. Addresses for Notices and Communications

CITY
Amy Williams, P.E.
Director of Public Works/City Engineer
City of Rockwall
385 S. Goliad Street
Rockwall, Texas 75087

ENGINEER
Derek B. Chaney, P.E., R.P.L.S.
Partner
Birkhoff, Hendricks & Carter, L.L.P.
11910 Greenville Ave., #600
Dallas, Texas 75243

All notices and communications under this Contract shall be mailed or delivered to **CITY** and **Engineer** at the above addresses.

9. Successors and Assigns

CITY and Engineer each binds itself and its successors, executors, administrators and assigns to the other parties of this Contract and to the successors, executors, administrators and assigns of such other parties, in respect to all covenants of this Contract. Except as noted in the first part of this Paragraph, neither CITY nor Engineer shall assign, sublet or transfer its interest in this Contract without the written consent of the other. Nothing herein shall be construed as creating any personal liability on the part of any officer, council member, employee or agent of any public body which is a party hereto.

10. Termination for Convenience of the Parties

Engineer and CITY may terminate this Contract for their convenience at any time by giving at least thirty (30) days notice in writing to each other. If the Contract is terminated by CITY and/or Engineer as provided herein, Engineer will be paid for the Work provided and expenses incurred up to the termination date, if such final compensation is approved by CITY, in its sole discretion. If this Contract is terminated due to the fault of Engineer, Paragraph 10 hereof, relative to Termination for Cause, shall apply.

11. Changes

CITY may, from time to time, request changes in the Scope of Work of **Engineer** to be performed hereunder. Such changes, including any increase or decrease in the amount of **Engineer's** compensation, or time for performance, which are mutually agreed upon by and between **CITY** and **Engineer**, shall be incorporated in written amendments to this Contract. Any subsequent contract amendments shall be executed by the City Manager or other authorized representative as designated by the City Manager or City Council.

Any alterations, additions or deletions to the terms of this Contract, including the scope of work, shall be by amendment **in writing** executed by both CITY and Engineer.

13. Reports and Information

Engineer, at such times and in such forms as **CITY** may reasonably require, and as specified in the Scope of Work or in additional Contract Amendments shall furnish **CITY** periodic reports pertaining to the Work or services undertaken pursuant to this Contract, the cost and obligations incurred, or to be incurred in connection therewith, and any other matter covered by this Contract.

14. Entire Agreement

This Contract and its Attachments and any future Contract Amendments constitute the entire agreement, and supersede all prior agreements and understandings between the parties concerning

the subject matter of this Contract.

15. Waiver

The failure on the part of either party herein at any time to require the performance by the other party, of any portion of this Contract, shall not be deemed a waiver of, or in any way affect that party's rights to enforce such provision, or any other provision. Any waiver by any party herein of any provision hereof, shall not be taken or held to be a waiver of any other provision hereof, or any other breach hereof.

16. Severability

The invalidity or unenforceability of any provision of this Contract shall not affect the validity or enforceability of any other provision of this Contract.

17. Survival

Any and all representations, conditions and warranties made by Engineer under this Contract are of the essence of this Contract and shall survive the execution, delivery and termination of it.

18. Governing Powers and Law

Both Parties agree and understand that the City does not waive or surrender any of its governmental powers by execution of this Agreement. To that end, the parties further understand that this agreement shall not be considered a contract for goods or services under Texas Local Government Code, Section 271.151 and Contractor waives any right or entitlement granted said provisions. This Contract is governed by the laws of the State of Texas and all obligations of the parties under this Contract are performable in Rockwall County, Texas.

19. Attorney's Fees

If it is necessary for either Party herein to file a cause of action at law or in equity against the other Party due to: (a) a breach of this Contract by the other Party and/or (b) any intentional and/or negligent act or omission by the other Party arising out of this Contract, the non-breaching or non-negligent Party shall be entitled to reasonable attorney's fees and costs, and any necessary disbursements, in addition to any other relief to which it is legally entitled.

20. State or Federal Laws

This Contract is subject to all applicable federal and state laws, statutes, codes, and any applicable permits, ordinances, rules, orders and regulations of any local, state or federal government authority having or asserting jurisdiction, but nothing contained herein shall be construed as a waiver of any right to question or contest any such law, ordinance, order, rule or regulation in any forum having jurisdiction.

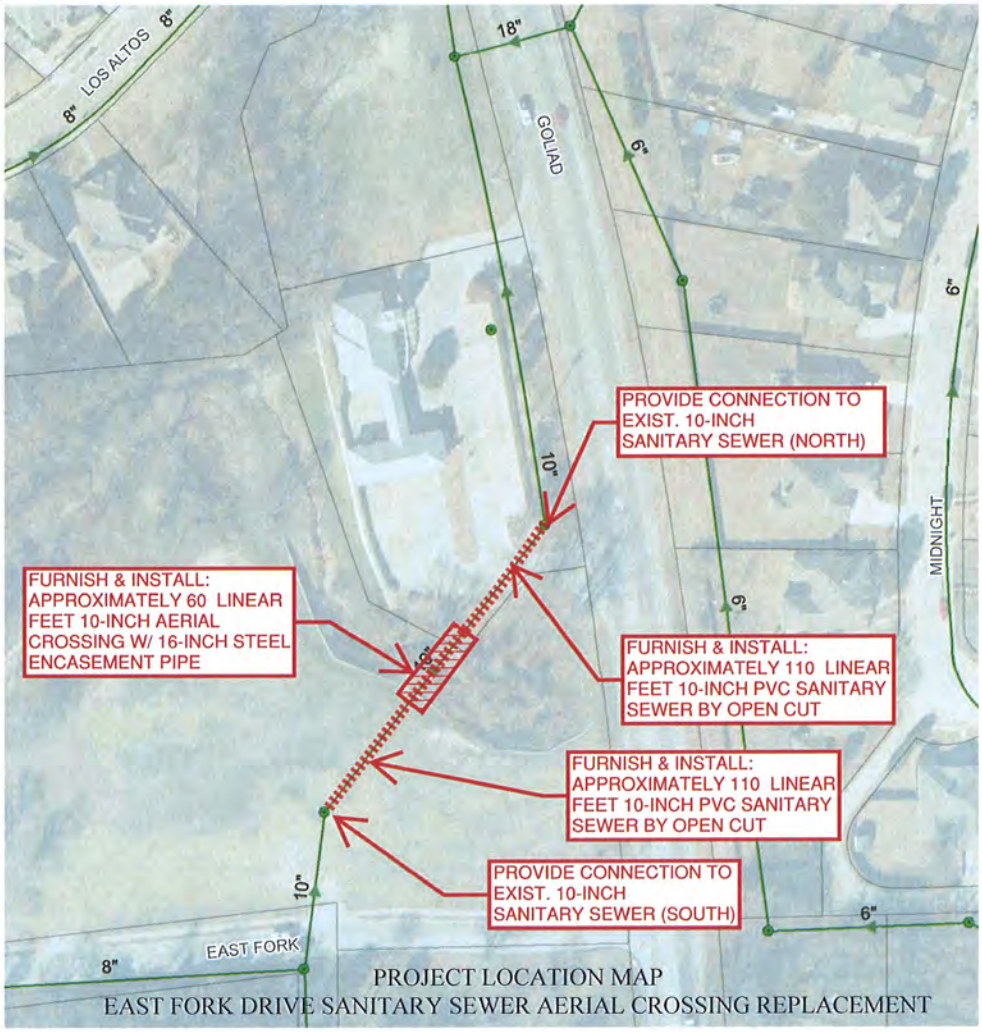
Richard Crowley
City Manager

ATTACHMENT "A"



Scope of Services

East Fork Drive Sanitary Sewer Aerial Crossing Replacement

Project Description:

The City of Rockwall (City) desires to engage the services of Birkhoff, Hendricks and Carter (Consultant) to provide engineering design services for the replacement of an existing 10-inch sanitary aerial crossing a drainage tributary of Squabble Creek. The project is located northwest of the East Fork Drive and Goliad Street intersection. The City Staff reports that the existing aerial crossing has recently failed and been temporarily repaired. The project includes design of a new 10-inch aerial crossing in 16-inch steel encasement pipe, along with replacement of the upstream and downstream section of 10-inch sanitary sewer. The total replacement length is the range of 280 linear feet.

The Consultant will provide construction plans, project specifications and bidding documents as required for the project to support the City of Rockwall during the design phase. It is our understanding that the City intends to enter into a separate agreement for the bidding and construction phases at a later date. A project location map is provided below.

PROJECT LOCATION MAP
EAST FORK DRIVE SANITARY SEWER AERIAL CROSSING REPLACEMENT

8.

51

BASIC SERVICES

1. Preliminary Design Phase

1.1. Project Management

1.1.1. Conduct project kickoff meeting with Consultant Project Manager and City Staff.

1.1.2. Prepare and send Project Status Update (PSU) to City's Project Manager on monthly basis. PSU will summarize work completed in previous period, work in progress and/or anticipated to be completed in next period, actions or information needed from City, and a Project schedule update. PSU will be attached to the monthly invoice.

1.1.3. Prepare and submit project schedule to City staff.

1.2. Preliminary Design

1.2.1. Submit request and review record documents, and other pertinent information related to proposed project provided by the City.

1.2.2. Conduct one project site visit to observe existing conditions and estimate length of aerial crossing.

1.2.3. Based on estimated span length of aerial crossing, determine preliminary pier spacing, if needed.

1.2.4. Review City master plans, design standards, specifications, construction details, that may impact the design. Review of documents will include, but not limited to, the following:

(a) City of Rockwall Master Thoroughfare Plan
(b) City of Rockwall Water/Wastewater Master Plan
(c) City of Rockwall Standards of Design and Construction
(d) City of Rockwall Trail Master Plan

1.2.5. Develop base map showing existing Right-of-Way (ROW), property lines, known easements, and known utilities in the vicinity of the proposed improvements.

1.2.6. Delineate the service area basin for the sanitary sewer and calculate average and peak wastewater design flows.

1.2.7. Conduct capacity analysis to confirm adequacy of existing aerial crossing pipe size and slope.

1.2.8. Establish preliminary alignment for proposed aerial crossing. Evaluate option to replace the aerial crossing in the same alignment (which will require bypass pumping) versus replacement parallel to existing alignment (which may require additional easement rights).

1.2.9. If needed, develop temporary sewage bypassing plan based on calculated design flows.

1.2.10. Assess options for mitigating replacement of existing concrete retaining wall located outside of south bank of tributary.

2. Final Design Phase

2.1. Project Management

2.1.1. Conduct progress meetings at 60% and 90% completion to monitor the development of the project regarding project status, coordination issues and discuss City review comments of the plans.

2.1.2. Prepare and send PSU to City's Project Manager on monthly basis. PSU will summarize work completed in previous period, work in progress and/or anticipated to be completed in next period, actions or information needed from City, and a project schedule update. Invoice will be sent at end of the month with PSU.

2.1.3. Conduct up to one project site visit.

2.2. Submittals

2.2.1. Submit 60% and 90% progress submittals to the City for review and comment. The following will be required for each submittal:

(a) Construction Plans
  i. Two (2) Full Size copies – 22-inch x 34-inch
  ii. Two (2) Half Size copies – 11-inch x 17-inch
  iii. Electronic PDF copy
  iv. Electronic PDF copy– Scanned City comments previous submittal

(b) Engineer's Opinion of Probable Construction Cost
  i. Two (2) Copies and electronic PDF copy

(c) 90% only – Project Specifications and Bidding Documents
  i. Two (2) Copies and electronic PDF copy

2.3 Construction Plans

(a) Each plan sheet in the construction plans set will conform to the Engineering Drawing Requirements set forth in the City of Rockwall's Standards of Design and Construction.

(b) Plan sheets will include additional documentation, notation, and clarification required by the City's Project Manager.

(c) Each stage of the construction plan review process will address City comments from previous submittals.

(d) Below is a table of the required construction plan sheets and at which submittals they are required.

Plan Sheets	**60%**	**90%**
Cover Sheet w/ Location Map and Sheet Index	X	X
Legend Sheet	X	X
General Notes Sheet	X	X
Horizontal/Vertical Control Sheet (1"=40' scale)	X	X
Erosion Control Plan (1"=40' scale)		X
Aerial Crossing Plan/Detail (1"=10'scale)	X	X
Sanitary Sewer Plan/Profile (1"=20'H, 1'=5'V scale)	X	X
Construction Details		X

(e) Establish the horizontal and vertical location of existing public and franchise utilities based upon information provided by the City, and field survey information. (60%)

(f) Prepare plan and section views of proposed aerial crossing and design location of piers, if necessary (60%)

(g) Prepare proposed sanitary sewer plan and profile. (60%)

(h) Determine and shown replacement limits of concrete retaining wall. (90%)

(i) Design required sanitary sewer service connections (90%)

(j) Identify disturbed areas to be revegetated or repaved (90%)

(k) Prepare sanitary sewer details as required to clarify intent of design.(90%)

(l) Select applicable City Standard details and modify standard details as needed. (90%)

(m) Prepare erosion control plan. (90%)

2.4 Franchise Utility Coordination

(a) Obtain list of franchise utility contacts from the City. (60%)

(b) Provide electronic PDF set of preliminary construction plans adequate for franchise utility relocation via email to each franchise utility for their review. Request each franchise utility to mark up the plans to show the size, type and location of their utilities. (60%)

(c) Notify the City if any relocations are required. (90%)

(d) Conduct coordination with the franchise utilities if any relocations are required. (90%)

2.5 Specifications and Bidding Documents (90%)

Prepare general notes, specifications, and bidding documents in accordance with City of Rockwall requirements. Identify and prepare special specifications and/or special provisions applicable to the project. Prepare proposal and bid schedule of applicable items.

2.5.1 Contract documents will include the following:

(a) City of Rockwall standard construction contract forms

(b) Notice to bidders

(c) Special instructions to bidders

(d) Bid Schedule (Bid-Tab) – Electronic for Bidding

(e) Standard construction contract

(f) Performance bond

(g) Payment bond

(h) Maintenance bond

(i) Certificate of insurance

(j) General conditions

(k) Special conditions

(l) Technical specifications

2.6 Engineer's Opinion of Construction Cost (60% and 90%)

Generate tabulation of proposed quantities of work and formulate an engineer's opinion of probable construction cost based on historic bidding data of similar projects.

NOTE: As directed by the City, the Bidding and Construction Phase Scope of Work has been excluded from this agreement. Pending availability of funds, we understand it is the City's intention to authorize the Bidding and Construction Phase Scope of Work in the 2019/2020 Fiscal Year via a separate agreement.

ADDITIONAL SERVICES

For the following scope items defined as additional services are those anticipated to be necessary to facilitate design of the project. These services will be performed on an as-need basis and invoiced based on effort and expenses incurred.

3 Design Surveys

3.1 Consultant will prepare and send a "Request for Right of Entry for Surveying" and "Start of Engineering Design Notice" documents to property owners immediately adjacent to the proposed project route via regular U.S. Postal Service. Templates for documents and mailing address for property owners will be provided by the City

3.2 Complete Property Research using Rockwall County and Appraisal District records

3.2.1 Obtain plat information from County records or as provided by the City

3.2.2 Gather existing ROW (Right of Way) and easement information from Rockwall County and Appraisal District records, and other records provided by the City.

3.3 Consultant will submit request to Texas 811 for location of franchise utilities.

3.4 Topographic and Design Survey

3.4.1 The limits of the survey include a swath of approximately 40-feet generally paralleling the City's existing 10-inch sanitary sewer, beginning at the manhole near the south right-of-way of East Fork Drive and extending to the existing manhole adjacent to the American National Bank of Texas property near the west right-of-way of Goliad Street.

3.4.2 Establish horizontal control points temporary vertical control benchmarks in the vicinity of the proposed improvements.

3.4.3 Perform field survey to identify and locate existing topographic elements along the proposed sanitary sewer route. Topographic elements shall be tied down horizontally and vertically. The field survey shall include, but is not limited to the following:

(a) Property boundary corner monumentation (that can be located)
(b) Existing pavement, driveways, curbs, sidewalks, barrier free ramps, and signs.
(c) Existing storm sewer inlets, culverts, manholes, junction boxes and headwalls (including culvert sizes and flow line elevations)
(d) Top of bank, toe of bank and flow line of drainage channels/tributary.
(e) Utility manholes (including flow line measure-down), vaults, water valves, water meters, wastewater cleanouts, sprinkler heads, utility poles, utility markers, and franchise utilities and markings
(f) Trees, including species and caliper (2-inch caliper and larger)
(g) Landscape features, including planters, shrubs, rocks and borders
(h) Buildings and permanent structures
(i) Retaining walls, fences and screening walls (including material type)

3.4.4 Perform up to one site visit for the purposes of reviewing the provided survey in the field and determining the need for any additional surveys.

4 Easement Document Preparation

4.1 Prepare easement documents (metes and bounds description and graphic exhibits) for proposed utility or temporary construction easements as required by the project. Preparation of up to two (2) easement documents are included in the budget.

4.2 Individual parcel easement documents shall be prepared on 8.5-inch x 11-inch paper size, and both an electronic PDF copy and two (2) set of originals sealed, dated, and signed by a Registered Professional Land Surveyor shall be provided to the City.

4.2.1 Graphic exhibits shall contain the following:

(a) Parcel number
(b) Area required
(c) Area remaining
(d) Legal description
(e) Current owner
(f) Any existing platted easements or easements filed by separate instrument that can be found, including easements provided by utility companies
(g) All physical features that can be found

4.2.2 Metes and bounds descriptions of the easement parcel will be prepared and provided on a separate sheet from the graphic exhibit, and each type of easement shall be described separately.

4.3 The Consultant shall provide easement documents to the City and/or their assigned Land Rights Acquisition Agent.

5 Geotechnical Evaluation

5.1 If required to support the design of aerial crossing piers, one soil boring will be collected from the project site and analyzed to determine the depth of shale or rock.

6 Subsurface Utility Exploration (SUE)

6.1 As required, underground utilities will be field located to confirm their location in reference to the proposed improvements.

ATTACHMENT "B"

Payment Schedule

Compensation for Basic Services in Tasks 1-2 shall be on a lump sum basis. The tabulation below establishes the not to exceed amount for each category of contract service:

	Task	Fee
	BASIC SERVICES	
1.	Preliminary Design Phase	$ 7,300.00
2.	Final Design Phase	$ 23,800.00
	Basic Services Subtotal:	**$ 31,100.00**
Compensation for special services under Tasks 3-6 shall be on an hourly basis of salary cost times a multiplier of 2.45 for time expended on the task. Field survey crew shall be based on $170.00 per hour, inclusive of all equipment rentals and software licensing; plus, mileage charge at the IRS established rate. Expenses shall be at invoice cost times a multiplier of 1.15.		
	ADDITIONAL SERVICES	
3.	Design Surveys	$ 8,600.00
4.	Easement Document Preparation (2 included)	$ 5,400.00
5.	Geotechnical Evaluation	$ 4,000.00
6.	Subsurface Utility Exploration (SUE)	$ 3,000.00
	Additional Services Subtotal*	**$ 21,000.00**
	Project Total*	**$ 52,100.00**

Fees that are Lump Sum for each task and will be invoiced monthly based upon the overall percentage of services performed.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, Director of Public Works/City Engineer**

DATE: **July 1, 2019**

SUBJECT: **St. Mary's Street, Bost Street, and Sherman Street Water and Wastewater Replacement Project**

The existing water and sanitary sewer pipes in St. Mary's Street, Bost Street, and Sherman Street were installed prior to 1970 and are in need of replacement. The existing water lines in these streets consist of one-inch (1") poly lines and two-inch (2") cast iron lines that do not have any fire hydrants installed on them. The proposed replacement water lines will be constructed using a minimum of eight-inch (8") PVC pipe and have fire hydrants installed every four hundred feet (400') and at each street intersection. This proposed design will meet the current engineering standards. The eight-inch (8") water line with fire hydrants will improve water circulation, assist with the water quality, and provide better fire protection. The proposed eight-inch (8") sanitary sewer lines will be replacing existing four-inch (4") cast iron pipes. St. Mary's Street and Bost Street are asphalt roadways in need of repair. As a result, staff would suggest the water and sewer lines to be replaced in conjunction with the repair of these roadways. In addition, staff is requesting approval to design the water and sanitary sewer line replacements for these streets ahead of next year's street rehabilitation projects.

Staff has requested a proposal from BW2 Engineers, Inc. to provide the engineering design for this project. The engineering design fee for the St Mary's Street, Bost Street, and Sherman Street Water and Wastewater Replacement Project is $76,000.00. Staff requests City Council consider approving the contract for professional engineering services to allow BW2 Engineers, Inc. to perform the engineering design services for the St. Mary's Street, Bost Street, and Sherman Street Water and Wastewater Replacement Project in an amount not to exceed $76,000.00, which will be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.

STATE OF TEXAS ♦
♦
COUNTY OF ROCKWALL ♦

PROFESSIONAL ENGINEERING SERVICES CONTRACT

This Agreement is made and entered into in Rockwall County, Texas, between City of Rockwall, Texas ("CITY"), a municipal corporation and political subdivision of the State of Texas, acting by and through its City Manager and BW2 Engineers, Inc., ("ENGINEER"), located at 1919 S. Shiloh Road, Garland, Texas, Engineers duly licensed and practicing under the laws of the State of Texas.

WHEREAS, CITY desires to engage Engineer as an independent contractor to render certain technical and professional services necessary for performing:

PROFESSIONAL ENGINEERING SERVICES for the St. Mary Street, Bost Street, and Sherman Street Water and Wastewater Rehabilitation Project

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements contained herein, the Parties hereby agree as follows:

1. Scope of Work

Engineer agrees to perform professional engineering services as specifically defined in this Contract as Attachment "A" and as authorized by CITY. Specifically, Engineer shall perform Professional services as requested by CITY and detailed in Attachment "A".

The Parties by mutual agreement through contract amendments may provide for additional technical and professional services to be performed under the basic general terms and conditions of this Contract. CITY reserves the right to enter into another agreement with other engineering firms to provide the same or similar professional services during the term of this Contract for different projects.

2. Compensation & Term of Agreement

Cost for such services will be an amount not to exceed seventy-six thousand dollars and zero cents ($76,000.00) and billed per the breakdown as provided in Attachment "B". Engineer is not authorized to perform any work beyond the limited not to exceed amount without authorized written approval by CITY.

The term of this Agreement shall commence upon execution of this agreement and follow the schedule described in Attachment "B". In the event of termination, Engineer will assist the CITY in arranging a smooth transition process. However, Engineer's obligation to provide services to the

CITY will cease upon the effective date of termination, unless otherwise agreed in writing.

3. Method of Payment

CITY shall pay Engineer its fees based on the presentation by Engineer to CITY of a correct monthly statement for all the amounts earned under the Contract together with reasonable supporting documentation verifying the accuracy of the fees and expenses. CITY shall then pay Engineer its fee within thirty (30) days after presentation of the accurate monthly statement by Engineer to CITY. CITY is a State sales and use tax exempt political subdivision of the State of Texas. All records supporting payment shall be kept in the offices of Engineer for a period of not less than three (3) years and shall be made available to CITY for inspection, audit or copying upon reasonable request.

4. Engineer's Standard of Care

Engineer shall provide its services under this Contract with the same degree of care, skill and diligence as is ordinarily provided by a professional Engineer under similar circumstances for a similar project. Engineer represents that it has the capability, experience, available personnel, and means required to perform the services contemplated by this Contract. Services will be performed using personnel and equipment qualified and/or suitable to perform the work requested by the CITY. CITY retains the right to report to Engineer any unsatisfactory performance of Engineer personnel for appropriate corrective action. Engineer shall comply with applicable federal, state, and local laws in connection with any work performed hereunder.

Engineer will seek written CITY approval to accept any contract or perform any services for any person, entity, or business working on this project. CITY may waive this potential conflict, but such waiver is at CITY's sole discretion and its decision shall be final.

5. Ownership of Documents

As part of the total compensation which CITY has agreed to pay Engineer for the professional services to be rendered under this Contract, Engineer agrees that hard copies of all finished and unfinished documents, data, studies, surveys, drawings, specifications, field notes, maps, models, photographs, preliminary reports, reports, bid packet/construction contract documents/advertisement for bids incorporating any CITY standard provisions provided by Engineer, will remain the property of the CITY. Engineer will furnish CITY with paper and electronic copies, to the extent they are available, of all of the foregoing to facilitate coordination; however, ownership of the underlying work product shall remain the intellectual property of the Engineer. Engineer shall have the right to use such work products for Engineer's purposes. However, such documents are not intended to be suitable for reuse by CITY or others on extension of the Project or on any other project. Any reuse without the express written consent of the Engineer will be at reuser's sole risk and without liability or legal exposure to the Engineer, and CITY to the extent allowed by law, shall hold harmless the Engineer from all claims, damages, losses, expenses, and costs, including attorneys' fees arising out of or resulting from the reuse of said documents without the Engineer's consent. The granting of such consent will entitle the Engineer to further

compensation at rates to be agreed upon by CITY and the Engineer. The above notwithstanding, Engineer shall retain all rights in its standard drawing details, designs, specifications, databases, computer software and any other proprietary and intellectual property information provided pursuant to this Contract, whether or not such proprietary information was modified during the course of providing the services.

6. Insurance

A. Engineer agrees to maintain Worker's Compensation and Employer's Liability Insurance to cover all of its own personnel engaged in performing services for CITY under this Contract in at least the following amounts:

Workmen's Compensation – Statutory
Employer's Liability – $100,000
Bodily Injury by Disease - $500,000 (policy limits)
Bodily Injury by Disease - $100,000 (each employee)

B. Engineer also agrees to maintain Commercial General Liability, Business Automobile Liability, and Umbrella Liability Insurance covering claims against Engineer for damages resulting from bodily injury, death or property damages from accidents arising in the course of work performed under this Contract in not less than the following amounts:

$2,000,000 General aggregate limit

$1,000,000 each occurrence sub-limit for all bodily injury or property damage incurred all in one occurrence

$1,000,000 each occurrence sub-limit for Personal Injury and Advertising

C. Engineer shall add CITY, its City Council members and employees, as an additional insureds on all required insurance policies, except worker's compensation, employer's liability and errors and omissions insurance. The Commercial General Liability Policy and Umbrella Liability Policy shall be of an "occurrence" type policy.

D. Engineer shall furnish CITY with an Insurance Certificate on the date this Contract is executed and accepted by CITY, which confirms that all above required insurance policies are in full force and effect.

E. Engineer agrees to maintain errors and omissions professional liability insurance in the amount of not less than one million dollars ($1,000,000) annual aggregate, on a claims made basis, as long as reasonably available under standard policies.

7. **INDEMNIFICATION**

ENGINEER SHALL INDEMNIFY AND SAVE HARMLESS THE CITY AND ITS

CITY COUNCIL MEMBERS AND EMPLOYEES FROM SUITS, ACTIONS, LOSSES, DAMAGES, CLAIMS, OR LIABILITY, INCLUDING WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, ALL EXPENSES OF LITIGATION, COURT COSTS, AND REASONABLE ATTORNEY'S FEES FOR INJURY OR DEATH TO ANY PERSON, OR INJURY TO ANY PROPERTY, RECEIVED OR SUSTAINED BY ANY PERSON OR PERSONS OR PROPERTY, TO THE EXTENT CAUSED BY THE NEGLIGENT ACTS OF ENGINEER OR ITS AGENTS OR EMPLOYEES, IN THE EXECUTION OF PERFORMANCE OF THIS CONTRACT.

ENGINEER'S TOTAL LIABILITY TO CITY FOR ANY LOSS OR DAMAGES FROM CLAIMS ARISING OUT OF, OR IN CONNECTION WITH, THIS CONTRACT FROM ANY CAUSE INCLUDING ENGINEER'S STRICT LIABILITY, BREACH OF CONTRACT, OR PROFESSIONAL NEGLIGENCE, ERRORS AND OMISSIONS SHALL NOT EXCEED ONE MILLION DOLLARS ($1,000,000). NEITHER PARTY TO THIS AGREEMENT SHALL BE LIABLE TO THE OTHER PARTY OR ANY THIRD PARTY CLAIMING THROUGH THE OTHER RESPECTIVE PARTY, FOR ANY SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE, LIQUIDATED, DELAY OR CONSEQUENTIAL DAMAGES OF ANY KIND INCLUDING BUT NOT LIMITED TO LOST PROFITS OR USE OF PROPERTY, FACILITIES OR RESOURCES, THAT MAY RESULT FROM THIS AGREEMENT, OR OUT OF ANY GOODS OR SERVICES FURNISHED HEREUNDER.

8. Addresses for Notices and Communications

CITY
Amy Williams, P.E.
Director of Public Works/City Engineer
City of Rockwall
385 S. Goliad Street
Rockwall, Texas 75087

ENGINEER
Mike Burge, P.E.
Vice-President
BW2 Engineers, Inc.
1919 S. Shiloh Road
Suite 500, LB 27
Garland, Texas 75042

All notices and communications under this Contract shall be mailed or delivered to **CITY** and **Engineer** at the above addresses.

9. Successors and Assigns

CITY and Engineer each binds itself and its successors, executors, administrators and assigns

to the other parties of this Contract and to the successors, executors, administrators and assigns of such other parties, in respect to all covenants of this Contract. Except as noted in the first part of this Paragraph, neither CITY nor Engineer shall assign, sublet or transfer its interest in this Contract without the written consent of the other. Nothing herein shall be construed as creating any personal liability on the part of any officer, council member, employee or agent of any public body which is a party hereto.

10. Termination for Convenience of the Parties

Engineer and CITY may terminate this Contract for their convenience at any time by giving at least thirty (30) days notice in writing to each other. If the Contract is terminated by CITY and/or Engineer as provided herein, Engineer will be paid for the Work provided and expenses incurred up to the termination date, if such final compensation is approved by CITY, in its sole discretion. If this Contract is terminated due to the fault of Engineer, Paragraph 10 hereof, relative to Termination for Cause, shall apply.

11. Changes

CITY may, from time to time, request changes in the Scope of Work of **Engineer** to be performed hereunder. Such changes, including any increase or decrease in the amount of **Engineer's** compensation, or time for performance, which are mutually agreed upon by and between **CITY** and **Engineer**, shall be incorporated in written amendments to this Contract. Any subsequent contract amendments shall be executed by the City Manager or other authorized representative as designated by the City Manager or City Council.

Any alterations, additions or deletions to the terms of this Contract, including the scope of work, shall be by amendment **in writing** executed by both CITY and Engineer.

13. Reports and Information

Engineer, at such times and in such forms as **CITY** may reasonably require, and as specified in the Scope of Work or in additional Contract Amendments shall furnish **CITY** periodic reports pertaining to the Work or services undertaken pursuant to this Contract, the cost and obligations incurred, or to be incurred in connection therewith, and any other matter covered by this Contract.

14. Entire Agreement

This Contract and its Attachments and any future Contract Amendments constitute the entire agreement, and supersede all prior agreements and understandings between the parties concerning the subject matter of this Contract.

15. Waiver

The failure on the part of either party herein at any time to require the performance by the other party, of any portion of this Contract, shall not be deemed a waiver of, or in any way affect that party's rights to enforce such provision, or any other provision. Any waiver by any party herein of any provision hereof, shall not be taken or held to be a waiver of any other provision hereof, or any other breach hereof.

16. Severability

The invalidity or unenforceability of any provision of this Contract shall not affect the validity or enforceability of any other provision of this Contract.

17. Survival

Any and all representations, conditions and warranties made by Engineer under this Contract are of the essence of this Contract and shall survive the execution, delivery and termination of it.

18. Governing Powers and Law

Both Parties agree and understand that the City does not waive or surrender any of its governmental powers by execution of this Agreement. To that end, the parties further understand that this agreement shall not be considered a contract for goods or services under Texas Local Government Code, Section 271.151 and Contractor waives any right or entitlement granted said provisions. This Contract is governed by the laws of the State of Texas and all obligations of the parties under this Contract are performable in Rockwall County, Texas.

19. Attorney's Fees

If it is necessary for either Party herein to file a cause of action at law or in equity against the other Party due to: (a) a breach of this Contract by the other Party and/or (b) any intentional and/or negligent act or omission by the other Party arising out of this Contract, the non-breaching or non-negligent Party shall be entitled to reasonable attorney's fees and costs, and any necessary disbursements, in addition to any other relief to which it is legally entitled.

20. State or Federal Laws

This Contract is subject to all applicable federal and state laws, statutes, codes, and any applicable permits, ordinances, rules, orders and regulations of any local, state or federal government authority having or asserting jurisdiction, but nothing contained herein shall be construed as a waiver of any right to question or contest any such law, ordinance, order, rule or regulation in any forum having jurisdiction.

ST. MARY STREET, BOST STREET, AND SHERMAN STREET
WATER AND WASTEWATER REHABILITATION
for
City of Rockwall

SCOPE OF SERVICES

Project Understanding

The City of Rockwall (City) wishes to rehabilitate the water system and wastewater system by replacing the water lines and sanitary sewer lines in St. Mary Street (S. Fannin Street to S. Clark Street), Bost Street (Storrs Street to E. Boydstun Avenue), and Sherman Street (Storrs Street to St. Mary Street). These segments of the water and wastewater system have the following approximate lengths: St. Mary Street (1,200'), Bost Street (950'), and Sherman Street (350'). These water lines and sanitary sewer lines are located in the older part of the City, just southeast of downtown Rockwall.

Design will include sanitary sewer and water line improvements. Existing sanitary sewer lines and water lines in these roadway corridors have been determined to require replacement. Therefore, these existing lines will be replaced and upgraded in size. The new sanitary sewer lines and new water lines will be placed within the existing street right-of-ways. BW2 Engineers, Inc. will provide plans, specifications, estimates, and permits for the project.

BASIC SERVICES

1. Schematic Conceptual Design (30%)

1.1. Project Management

1.1.1. Conduct project kickoff meeting with entire project team and City Staff.

1.1.2. Prepare and send Project Status Update (PSU) to City's Project Manager on monthly basis. PSU will address work completed in previous period, work in progress and/or anticipated to be completed in next period, actions or information needed from City, and a schedule update.

1.1.3. Develop design criteria and design decisions tables.

1.2. Project stakeholder coordination

- Develop project stakeholder contact list including, but not limited, to franchise utilities, City's water and sewer department, traffic department, and other governmental entity stakeholders.
- Conduct progress meetings to monitor the development of the project. During this phase of the project, conduct up to two (2) meetings with the City staff regarding project status and coordination issues. The first meeting will be the project kick-off meeting, and the second meeting will be the conceptual design presentation and review.

1.3. Schematic Roll Plot and Graphics (30%)

The following services will be provided as part of the Conceptual Design Phase (30%):

- Review and research previously prepared construction plans record documents, and other pertinent information related to proposed project.
- Review City master plans, design standards, specifications, construction details, and other pertinent information that may impact the design. Review of documents will include but not limited to:

- City of Rockwall Master Thoroughfare Plan
- City of Rockwall Water/Wastewater Master Plan
- City of Rockwall Standards of Design and Construction
- City of Rockwall Trail Master Plan

- Develop complete and accurate base map showing all existing Right-of-Way (ROW), easements, and utilities.
- Develop and evaluate the alignments for proposed water lines and wastewater lines.
- Prepare 30% schematic plan and profile roll plots, produced at 1" =40' horizontal scale and 1" =5' vertical scale showing horizontal alignment of proposed water lines and sewer lines.
- Meet with City staff and present concept plan and profile roll plots.
- Incorporate comments and feedback from City staff and other stakeholders.

2. Construction Documents

2.1. Project Management

- Conduct progress meetings at each stage of the construction documents phase to monitor the development of the project regarding project status and coordination issues and go over City review comments of the plans.
- Coordinate with other utilities, (electric power, cable TV, phone, gas, optic fiber, etc.)
- Prepare and send Project Status Update (PSU) to City's Project Manager on monthly basis. PSU will address work completed in previous period, work in progress and/or anticipated to be completed in next period, actions or information needed from City, and a schedule update.
- Update project schedule and interim milestones (coordinate with City staff as necessary)
- Project site visits (up to three (3) trips)

2.2. Construction Plans, Specifications and Estimates (60%, 100%)

2.2.1. Submittals

BW2 Engineers, Inc. will submit 60% and 100% submittals for the City for review and comment. The following will be required for each submittal:

- Construction Plans
  - Two (2) Full Size copies – 22"x34"
  - Two (2) Half Size copies – 11"x17"
  - One (1) PDF copy
  - One (1) PDF copy– Scanned City comments previous submittal
- Engineers Opinion of Construction Cost
- Construction Contract Template/Specification Book

2.2.2. Construction Plans

Each plan sheet in the construction plans set will conform to the Engineering Drawing Requirements set forth in the City of Rockwall's Standards of Design and Construction. Plan sheets will also include any other additional documentation, notation, and clarification required by the City's Project Manager to prove design and constructability of the project. Each stage of the construction plan review process will incorporate any changes associated with City comments on previous submittals.

Below is a table of the required construction plan sheets and in which submittals they are required.

Plan Sheets	60%	100%
Cover Sheet	X	X
Legend Sheet	X	X
General Notes Sheet	X	X
Existing Condition Plan (1"=20' scale)	X	X
Horizontal/Vertical Control Sheet (1"=40' scale)	X	X
Erosion Control Plan (1"=40' scale)	X	X
Demolition/Removals Plan (1"=20' scale)	X	X
Drainage Ditch Plan/Profile	X	X
Water Lines Plan/Profile (1"=20'H, 1'=5'V scale)	X	X
Sanitary Sewer Plan/Profile (1"=20'H, 1'=5'V scale)	X	X
Construction Sequencing Phasing Narrative	X	X
Traffic Control Plan (1"=40' scale)	X	X
Details	X	X

Each subsection below details out the services to be performed for each section of the construction plan set.

2.2.2.1. Utilities

2.2.2.1.1. Public (Water, Wastewater, Drainage Ditch, etc.)

- Establish the location of existing public utilities based upon information provided by the City, SUE and field survey information.

2.2.2.1.2. Franchise Utility Coordination

- Identify franchise utility contacts.
- Send one set of plans to each franchise utility for their review (will be submitted at each phase). Request each franchise utility to mark up the plans to show the size, type and location of their utilities.
- Notify the City if any relocations are required.
- BW2 Engineers, Inc. shall assist the City in the coordination with the franchise utilities if any relocations are required.
- Attend City ran Franchise Utility Coordination Meetings (typically 2-4 meetings per year are held). BW2 Engineers, Inc. will give background on particular project and coordinate with franchise utility companies on foreseen conflicts and pass out current plan set.

2.2.2.1.3. Water

- Prepare all water plan and profiles.
- Check coverage of Fire Hydrants to meet City Standards.
- Prepare water details to clarify intent of design. Compile applicable City Standard details, modify standard details as needed.

2.2.2.1.4. Wastewater

- Prepare all wastewater plans and profiles.
- Prepare wastewater details to clarify intent of design. Compile applicable City Standard details, modify standard details as needed.

2.2.2.2. Traffic Control Plans, Construction Sequencing/Phasing

- Develop construction sequence plan showing:
  - Construction area for each phase of construction and closure of existing travel lanes (if needed).

- Temporary signing and striping, barricades, and other channelization device
- Narrative of the sequence of work.
- Public utilities relocation phasing.
- Pedestrian routing during construction.

- Prepare traffic control details to clarify intent of design.

2.2.3. Specifications/Construction Contracts

Prepare general notes, specification data, and final Bid Book in accordance with City of Rockwall requirements. Identify and prepare special specifications and/or special provisions applicable to the project. Prepare bid tabulation sheets of applicable items for Contractor to fill/present bid prices.

- Contact documents, including the following:
  - City of Rockwall standard construction contract forms
  - Notice to bidders
  - Special instructions to bidders
  - Bid tabulation
  - Standard construction contract
  - Performance bond
  - Payment bond
  - Maintenance bond
  - Certificate of insurance
  - General conditions
  - Special conditions
  - Technical specifications
  - Permits

2.2.4. Estimates

Compile an overall opinion of probable construction cost based on current market values. Cost shall be broken out into separate schedules for each section of the job.

2.3. Agency Permitting/Coordination

Assist the City with Permitting and Coordination as required.

SPECIAL SERVICES

3. Data Collection & Property Research / Topographic and Design Survey

3.1. Data Collection and Property Research

3.1.1. Gather existing plat information

3.1.2. Collect property owner and record information

3.1.3. Gather existing ROW and easement information; identify all easements through typical research methodologies (i.e. plats, court house filings, etc.).

3.2. Topographic and Design Survey

3.2.1. The limits of the survey shall include St. Mary Street (S. Fannin Street to S. Clark Street), Bost Street (Storrs Street to E. Boydstun Ave.), and Sherman Street (Storrs Street to St. Mary Street). The survey shall be from 20' outside the street ROW lines. Survey will include intersecting roadways extending 100 feet along each leg of the minor intersections.

3.2.2. Establish horizontal control points at 500' maximum spacing.

3.2.3. Establish a vertical control benchmark circuit as needed throughout the project. Use existing City established monument information for the City and tie survey into.

3.2.4. Set control points, which shall be based on NAD-83, on both sides of the roadway, as required to maintain horizontal control throughout the project limits.

3.2.5. Perform a field survey to identify and locate existing topographic elements within the roadway corridors. All identified topographic elements shall be tied down horizontally and vertically. The field survey shall include the following and other items, as applicable to the project:

- Property corner monumentation
- Existing pavement, curbs, sidewalks, barrier free ramps, etc.
- Roadway and lane striping
- Driveways
- Existing storm sewer inlets, manholes, junction boxes Headwalls (including culvert sizes and invert elevations)
- Outfalls, bridges and erosion control
- Existing driveway culverts and swales (flowlines, sizes, types, etc.)
- Guardrail
- Utility manholes, vaults, water valves, water meters, wastewater cleanouts, sprinkler heads, telephone poles, power poles, utility markers, other public utilities and franchise utilities
- Traffic Signal poles, cabinets, pull boxes and other signal equipment
- Signs (excluding temporary signs)
- Trees, including species and caliper (all sizes)
- Landscape planters, Shrubs, rocks and other features.
- Buildings and permanent structures
- Retaining walls
- Fencing walls
- Fence limits and material types (excluding temporary fences)
- Mailboxes (types – wood, brick, stone)
- Other applicable physical features that could impact design

3.2.6. Prepare a final topographic drawing in digital format (including contours and breaklines) showing the features located in the field, an ASCII coordinate file of the points located in the field, and a hard copy of the coordinates and feature descriptions.

3.2.7. BW2 Engineers, Inc. will perform site visits for the purposes of reviewing the provided survey in the field and making notes for additional survey needs and design considerations.

4. Subsurface Utility Engineering (S.U.E.) Services

4.1. Provide S.U.E. Services for the purpose of locating horizontal and vertical locations of underground City and franchise utilities, in conjunction with and /or prior to the field survey.

- S.U.E. Level 'B' Services will be provided as part of the topographic survey to determine approximate horizontal location of utilities.
- If necessary, S.U.E. Level 'A' Services will be provided as follows:
  - Up to two (2) test holes of 0-15 ft depth will be provided
  - Test holes in addition to those listed above will be provided at the rate per test hole agreed to by the City of Rockwall.

4.2. BW2 Engineers, Inc. shall arrange and make provisions for access to perform the services specified within this scope. The surveyor shall provide the City with the name and address of the property owners.

4.3. It is not anticipated that any additional ROW or easements will be needed for this project.

5. Additional Services

Services not specifically identified in the Scope of Services above shall be considered additional and shall be performed on an individual basis upon authorization by the City of Rockwall.

-End of Scope of Services-

ATTACHMENT "B"

Payment Schedule

BW2 Engineers has prepared a preliminary Opinion of Probable Construction Cost for this project. The OPCC is $1,036,440.00. Compensation for Basic Services in Tasks 1-2 shall be on a lump sum basis. The tabulation below establishes the not to exceed amount for each category of contract service:

	Task	Fee
	BASIC SERVICES	
1.	Schematic Conceptual Design (30%)	$17,850.00
2.	Construction Documents	
2.1	60% Design	$17,850.00
2.2	100% Design	$23,800.00
	Basic Services Subtotal:	**$59,500.00**
Compensation for special services under Tasks 3-6 shall be a labor fee plus expense (reimbursable) basis with the max fee shown below.		
	SPECIAL SERVICES	
3.	Data Collection & Property Research / Topographic and Design Survey	$12,500.00
4.	Subsurface Utility Engineering (S.U.E.) Services	
4.1	Quality Level 'A' S.U.E. Servises	$4,000.00
	Special Services Subtotal*	**$ 16,500.00**
	Project Total*	**$ 76,000.00**

Fees that are Lump Sum for each task will be invoiced monthly based upon the overall percentage of services performed.

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, Director of Public Works/City Engineer**

DATE: **July 1, 2019**

SUBJECT: **West Kaufman Street, North First Street, and West Rusk Water Replacement Project**

The existing water line in W. Kaufman Street was installed prior to 1970 and is in need of replacement. The existing two-inch (2") water line is a combination of thin galvanized pipe and one-inch (1") poly tubing. The proposed replacement water lines will be constructed using a minimum of eight-inch (8") PVC pipe and have fire hydrants installed every four hundred feet (400') and at each street intersection. This proposed design will meet current engineering standards. The eight-inch (8") water line with fire hydrants will improve water circulation, assist with the water quality, and provide better fire protection.

Staff has requested a proposal from Teague Nall and Perkins, Inc. to provide the engineering design for this project. The engineering design fee for the water replacement project is $60,600.00. Staff requests the City Council consider approving the professional engineering services contract for Teague Nall and Perkins, Inc. to perform the engineering design services for the W. Kaufman Street, N. First Street, and W. Rusk Street Water Replacement Project in an amount not to exceed $60,600.00, to be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.

STATE OF TEXAS ♦

♦

COUNTY OF ROCKWALL ♦

PROFESSIONAL ENGINEERING SERVICES CONTRACT

This Agreement is made and entered into in Rockwall County, Texas, between City of Rockwall, Texas ("CITY"), a municipal corporation and political subdivision of the State of Texas, acting by and through its City Manager and Teague Nall and Perkins, Inc., ("ENGINEER"), located at 825 Watters Creek Boulevard, Suite M300, Allen, Texas, Texas, Engineers duly licensed and practicing under the laws of the State of Texas.

WHEREAS, CITY desires to engage ENGINEER as an independent contractor to render certain technical and professional services necessary for performing:

PROFESSIONAL ENGINEERING SERVICES for Water Line Improvements along Kaufman Street from West Street West end of Kaufman Street, First Street from Rusk Street to Kaufman Street, and Rusk Street from West Street to First Street.

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements contained herein, the Parties hereby agree as follows:

1. Scope of Work

Engineer agrees to perform professional engineering services as specifically defined in this Contract as Attachment "A" and as authorized by CITY. Specifically, ENGINEER shall perform Professional services as requested by CITY and detailed in Attachment "A".

The Parties by mutual agreement through contract amendments may provide for additional technical and professional services to be performed under the basic general terms and conditions of this Contract. CITY reserves the right to enter into another agreement with other engineering firms to provide the same or similar professional services during the term of this Contract for different projects.

2. Compensation & Term of Agreement

Cost for such services will be an amount of Forty-One Thousand Four Hundred Dollars ($41,400.00) billed as a *lump sum* basis for Basic Services, and Nineteen Thousand Two Hundred Dollars ($19,200.00) billed on a *lump sum/hourly* basis for Special Services, per rates provided in Attachment "B". ENGINEER is not authorized to perform any work beyond the limited not to exceed amount without authorized written approval by CITY.

The term of this Agreement shall commence upon execution of this agreement and follow the

schedule described in Attachment "C". In the event of termination, ENGINEER will assist the CITY in arranging a smooth transition process. However, ENGINEER's obligation to provide services to the CITY will cease upon the effective date of termination, unless otherwise agreed in writing.

3. Method of Payment

CITY shall pay ENGINEER its fees based on the presentation by ENGINEER to CITY of a correct monthly statement for all the amounts earned under the Contract together with reasonable supporting documentation verifying the accuracy of the fees and expenses. CITY shall then pay ENGINEER its fee within thirty (30) days after presentation of the accurate monthly statement by Engineer to CITY. CITY is a State sales and use tax exempt political subdivision of the State of Texas. All records supporting payment shall be kept in the offices of ENGINEER for a period of not less than three (3) years and shall be made available to CITY for inspection, audit or copying upon reasonable request.

4. Engineer's Standard of Care

ENGINEER shall provide its services under this Contract with the same degree of care, skill and diligence as is ordinarily provided by a professional Engineer under similar circumstances for a similar project. ENGINEER represents that it has the capability, experience, available personnel, and means required to perform the services contemplated by this Contract. Services will be performed using personnel and equipment qualified and/or suitable to perform the work requested by the CITY. CITY retains the right to report to ENGINEER any unsatisfactory performance of ENGINEER personnel for appropriate corrective action. ENGINEER shall comply with applicable federal, state, and local laws in connection with any work performed hereunder.

ENGINEER will seek written CITY approval to accept any contract or perform any services for any person, entity, or business working on this project. CITY may waive this potential conflict, but such waiver is at CITY's sole discretion and its decision shall be final.

5. Ownership of Documents

As part of the total compensation which CITY has agreed to pay ENGINEER for the professional services to be rendered under this Contract, ENGINEER agrees that hard copies of all finished and unfinished documents, data, studies, surveys, drawings, specifications, field notes, maps, models, photographs, preliminary reports, reports, bid packet/construction contract documents/advertisement for bids incorporating any CITY standard provisions provided by ENGINEER, will remain the property of the CITY. ENGINEER will furnish CITY with paper and electronic copies, to the extent they are available, of all of the foregoing to facilitate coordination, however, ownership of the underlying work product shall remain the intellectual property of the ENGINEER. ENGINEER shall have the right to use such work products for ENGINEER's purposes. However, such documents are not intended to be suitable for reuse by CITY or others on extension of the Project or on any other project. Any reuse without the express written consent of the ENGINEER will be at reuser's sole risk and without liability or legal exposure to the

ENGINEER, and CITY to the extent allowed by law, shall hold harmless the Engineer from all claims, damages, losses, expenses, and costs, including attorneys' fees arising out of or resulting from the reuse of said documents without the ENGINEER's consent. The granting of such consent will entitle the ENGINEER to further compensation at rates to be agreed upon by CITY and the ENGINEER. The above notwithstanding, ENGINEER shall retain all rights in its standard drawing details, designs, specifications, databases, computer software and any other proprietary and intellectual property information provided pursuant to this Contract, whether or not such proprietary information was modified during the course of providing the services.

6. Insurance

A. ENGINEER agrees to maintain Worker's Compensation and Employer's Liability Insurance to cover all of its own personnel engaged in performing services for CITY under this Contract in at least the following amounts:

Workmen's Compensation – Statutory
Employer's Liability – $100,000
Bodily Injury by Disease - $500,000 (policy limits)
Bodily Injury by Disease - $100,000 (each employee)

B. ENGINEER also agrees to maintain Commercial General Liability, Business Automobile Liability, and Umbrella Liability Insurance covering claims against Engineer for damages resulting from bodily injury, death or property damages from accidents arising in the course of work performed under this Contract in not less than the following amounts:

$2,000,000 General aggregate limit

$1,000,000 each occurrence sub-limit for all bodily injury or property damage incurred all in one occurrence

$1,000,000 each occurrence sub-limit for Personal Injury and Advertising

C. ENGINEER shall add CITY, its City Council members and employees, as an additional insureds on all required insurance policies, except worker's compensation, employer's liability and errors and omissions insurance. The Commercial General Liability Policy and Umbrella Liability Policy shall be of an "occurrence" type policy.

D. ENGINEER shall furnish CITY with an Insurance Certificate on the date this Contract is executed and accepted by CITY, which confirms that all above required insurance policies are in full force and effect.

E. ENGINEER agrees to maintain errors and omissions professional liability insurance in the amount of not less than one million dollars ($1,000,000) annual aggregate, on a claims made basis, as long as reasonably available under standard policies.

7. **INDEMNIFICATION**

ENGINEER SHALL INDEMNIFY AND SAVE HARMLESS THE CITY AND ITS CITY COUNCIL MEMBERS AND EMPLOYEES FROM SUITS, ACTIONS, LOSSES, DAMAGES, CLAIMS, OR LIABILITY, INCLUDING WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, ALL EXPENSES OF LITIGATION, COURT COSTS, AND REASONABLE ATTORNEY'S FEES FOR INJURY OR DEATH TO ANY PERSON, OR INJURY TO ANY PROPERTY, RECEIVED OR SUSTAINED BY ANY PERSON OR PERSONS OR PROPERTY, TO THE EXTENT CAUSED BY THE NEGLIGENT ACTS OF ENGINEER OR ITS AGENTS OR EMPLOYEES, IN THE EXECUTION OF PERFORMANCE OF THIS CONTRACT.

ENGINEER'S TOTAL LIABILITY TO CITY FOR ANY LOSS OR DAMAGES FROM CLAIMS ARISING OUT OF, OR IN CONNECTION WITH, THIS CONTRACT FROM ANY CAUSE INCLUDING ENGINEER'S STRICT LIABILITY, BREACH OF CONTRACT, OR PROFESSIONAL NEGLIGENCE, ERRORS AND OMISSIONS SHALL-NOT EXCEED ONE MILLION DOLLARS ($1,000,000). NEITHER PARTY TO THIS AGREEMENT SHALL BE LIABLE TO THE OTHER PARTY OR ANY THIRD PARTY CLAIMING THROUGH THE OTHER RESPECTIVE PARTY, FOR ANY SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE, LIQUIDATED, DELAY OR CONSEQUENTIAL DAMAGES OF ANY KIND INCLUDING BUT NOT LIMITED TO LOST PROFITS OR USE OF PROPERTY, FACILITIES OR RESOURCES, THAT MAY RESULT FROM THIS AGREEMENT, OR OUT OF ANY GOODS OR SERVICES FURNISHED HEREUNDER.

8. Addresses for Notices and Communications

CITY
Amy Williams, P.E.
Director of Public Works/City Engineer
City of Rockwall
385 S. Goliad Street
Rockwall, Texas 75087

ENGINEER
Michael G. DeMotte, P.E.
Director of Engineering Services-Allen Office
Teague, Nall, and Perkins, Inc.
825 Watters Creek Blvd, Suite M300
Allen, TX, 75013

All notices and communications under this Contract shall be mailed or delivered to **CITY** and ENGINEER at the above addresses.

9. Successors and Assigns

CITY and ENGINEER each binds itself and its successors, executors, administrators and assigns to the other parties of this Contract and to the successors, executors, administrators and assigns of such other parties, in respect to all covenants of this Contract. Except as noted in the first part of this Paragraph, neither CITY nor ENGINEER shall assign, sublet or transfer its interest in this Contract without the written consent of the other. Nothing herein shall be construed as creating any personal liability on the part of any officer, council member, employee or agent of any public body which is a party hereto.

10. Termination for Convenience of the Parties

ENGINEER and CITY may terminate this Contract for their convenience at any time by giving at least thirty (30) days notice in writing to each other. If the Contract is terminated by CITY and/or Engineer as provided herein, Engineer will be paid for the Work provided and expenses incurred up to the termination date, if such final compensation is approved by CITY, in its sole discretion. If this Contract is terminated due to the fault of Engineer, Paragraph 10 hereof, relative to Termination for Cause, shall apply.

11. Changes

CITY may, from time to time, request changes in the Scope of Work of ENGINEER to be performed hereunder. Such changes, including any increase or decrease in the amount of ENGINEER**'s** compensation, or time for performance, which are mutually agreed upon by and between CITY and ENGINEER, shall be incorporated in written amendments to this Contract. Any subsequent contract amendments shall be executed by the City Manager or other authorized representative as designated by the City Manager or City Council.

Any alterations, additions or deletions to the terms of this Contract, including the scope of work, shall be by amendment **in writing** executed by both CITY and ENGINEER.

13. Reports and Information

ENGINEER, at such times and in such forms as CITY may reasonably require, and as specified in the Scope of Work or in additional Contract Amendments shall furnish CITY periodic reports pertaining to the Work or services undertaken pursuant to this Contract, the cost and obligations incurred, or to be incurred in connection therewith, and any other matter covered by this Contract.

14. Entire Agreement

This Contract and its Attachments and any future Contract Amendments constitute the entire agreement, and supersede all prior agreements and understandings between the parties concerning the subject matter of this Contract.

15. Waiver

The failure on the part of either party herein at any time to require the performance by the other party, of any portion of this Contract, shall not be deemed a waiver of, or in any way affect that party's rights to enforce such provision, or any other provision. Any waiver by any party herein of any provision hereof, shall not be taken or held to be a waiver of any other provision hereof, or any other breach hereof.

16. Severability

The invalidity or unenforceability of any provision of this Contract shall not affect the validity or enforceability of any other provision of this Contract.

17. Survival

Any and all representations, conditions and warranties made by Engineer under this Contract are of the essence of this Contract and shall survive the execution, delivery and termination of it.

18. Governing Powers and Law

Both Parties agree and understand that the CITY does not waive or surrender any of its governmental powers by execution of this Agreement. To that end, the parties further understand that this agreement shall not be considered a contract for goods or services under Texas Local Government Code, Section 271.151 and ENGINEER waives any right or entitlement granted said provisions. This Contract is governed by the laws of the State of Texas and all obligations of the parties under this Contract are performable in Rockwall County, Texas.

19. Attorney's Fees

If it is necessary for either Party herein to file a cause of action at law or in equity against the other Party due to: (a) a breach of this Contract by the other Party and/or (b) any intentional and/or negligent act or omission by the other Party arising out of this Contract, the non-breaching or non-negligent Party shall be entitled to reasonable attorney's fees and costs, and any necessary disbursements, in addition to any other relief to which it is legally entitled.

20. State or Federal Laws

This Contract is subject to all applicable federal and state laws, statutes, codes, and any applicable permits, ordinances, rules, orders and regulations of any local, state or federal government authority having or asserting jurisdiction, but nothing contained herein shall be construed as a waiver of any right to question or contest any such law, ordinance, order, rule or regulation in any forum having jurisdiction.

Attachment "A"
Water Line Improvements along
Kaufman Street from West Street to end of Kaufman Street,
First Street from Rusk Street to Kaufman Street,
and Rusk Street from West Street to First Street
For
City of Rockwall

Scope of Services

Project Understanding

The City of Rockwall (City) wishes to replace approximately 900 linear feet of existing water line along Kaufman Street (from West Street to the end of Kaufman Street) and add approximately 250 linear feet of water line along First Street (from Rusk Street to Kaufman Street), and approximately 200 linear feet of water line along Rusk Street (from West Street to First Street). The proposed water line will be located within the existing street rights-of-way. The existing water line in Kaufman Street will be replaced by an eight (8") lines whereas a new eight (8") water line will be added along First Street and Rusk Street. The scope of services also includes determining the location of proposed water lines and development of alternate alignments. Water lines will be evaluated to be placed behind the back of curb or under the pavement within the existing right-of-way. Other design components include coordination with franchise utilities, TXDOT coordination for work in TXDOT (US 66/Rusk Street), and preparation of erosion control plans, and traffic control plans.

ENGINEER will provide plans, specifications, estimates, and permits (if applicable) for the project. Support services for the project bidding, and the construction phase is excluded from the scope of services at the CITY's request.

BASIC SERVICES

1. Schematic Conceptual Design (30%)

1.1. Project Management

1.1.1. Prepare a detailed Project Work Plan for TNP internal use. The work plan will serve as guide and communication tool for the TNP project team.

1.1.2. Conduct TNP internal project kickoff meeting with entire project team and City Staff.

1.1.3. Conduct weekly TNP internal project review meetings to review project status, review and update schedule, identify and assign next action items, etc.

1.1.4. Prepare and send Project Status Update (PSU) to City's Project Manager on monthly basis. PSU will address work completed in previous period, work in progress and/or anticipated to be completed in next period, actions or information needed from City, and a schedule update.

1.1.5. Develop design criteria and design decisions tables.

1.1.6. Prepare and submit project schedule to City staff and provide general project management activities.

1.1.7. Project Administration

- Prepare project correspondence and invoicing documents

1.2. Project stakeholder coordination

1.2.1. Develop project stakeholder contact list including but not limited to franchise utilities, City's water and sewer department, traffic department, and TXDOT.

1.2.2. Conduct progress meetings to monitor the development of the project. During this phase of the project, conduct up to two (2) meetings with the City staff regarding project status and coordination issues. The first meeting will be the project kick-off meeting, and the second meeting will be the conceptual design presentation and review.

1.3. Schematic Design Phase (30%)

The following services will be provided as part of the Conceptual Design Phase (30%):

1.3.1. Review and research previously prepared construction plans record documents, and other pertinent information related to water line design.

1.3.2. Develop complete and accurate base map showing all existing Right-of-Way (ROW), easements, topographic information, and existing utilities.

1.3.3. Develop and evaluate up to two (2) alignments for each street.

1.3.4. Prepare 30% schematic water line plans, produced at 1"=20' horizontal scale.

1.3.5. Meet with City staff and present 30% schematic water line plans.

1.3.6. Incorporate comments and feedback from City staff and other stakeholders.

2. Final Design

The preparation of construction documents (Pre-Final and Final) will generally follow the original scope and will include:

2.1. Project Management

2.1.1. Conduct progress meetings at each stage of the construction documents phase to monitor the development of the project regarding the project status, coordination issues and go over City review comments of the plans for the added scope of services.

2.1.2. Coordinate with franchise utilities, (electric power, cable TV, phone, gas, optic fiber, etc.) as necessary.

2.1.3. Update project schedule and interim milestones (coordinate with City staff as necessary)

2.2. Construction Plans, Specifications and Estimates

2.2.1. Submittals

ENGINEER will submit pre-final and final submittals for water line improvements. The following will be required for each submittal:

- Construction Plans
  - Two (2) Full Size copies – 22"x34"
  - Two (2) Half Size copies – 11"x17"
  - One (1) PDF copy
  - One (1) PDF copy– Scanned City comments previous submittal
- Engineers Opinion of Construction Cost
- Construction Contract /Specification Book
- City to provide the front end documents, and City special provisions to NCTCOG standard in electronic format.

2.2.2. Construction Plans

Each plan sheet in the construction plans set will conform to the Engineering Drawing Requirements set forth in the City of Rockwall's Standards of Design and Construction. Plan sheets will also include any other additional documentation, notation, and clarification required by the City's Project Manager to prove design and constructability of the project. ENGINEER shall incorporate changes associated with City comments.

Following sheets will be prepared as part of the final design:

- Cover sheet
- General Notes and Legend Sheet

- Summary of Quantities
- Existing Condition Sheets (1" =20' scale)
- Horizontal/Vertical Control Sheet (1" =40' scale)
- Erosion Control Plan (1" =40' scale)
- Demolition/Removals Plan (1" =20' scale)
- Water Line Plan (1" =20'scale)
- Water Details
- Construction Sequencing/Phasing Narrative
- Traffic Control Plans (for each phase & typ. sections) (1" =40' scale)

Each subsection below details out the services to be performed for each section of the construction plan set.

2.2.3. Existing Utilities (Water, Wastewater, Storm Drainage, etc.)

- Establish the location of existing public utilities based upon information provided by the City, SUE and field survey information
- Franchise Utility Coordination
  - Send one set of plans to each franchise utility for their review. Request each franchise utility to mark up the plans to show the size, type and location of their utilities.
  - Notify the City if any relocations are required
  - ENGINEER shall perform the coordination with the franchise utilities if any relocations are required.
  - Attend City ran Franchise Utility Coordination Meetings (typically 2-4 meetings per year are held). ENGINEER will give back ground on particular project and coordinate with franchise utility companies on foreseen conflicts and pass out current plan set.

2.2.4. Water Line Plans

- Prepare all water line plan sheets. Water line profiles are not anticipated as the proposed water lines will be 8 inches in diameter.
- Check coverage of Fire Hydrants to meet City Standard.
- Prepare water details to clarify intent of design. Compile applicable City Standard details, modify standard details as needed.

2.2.5. Traffic Control Plans, Detour Plans, Construction Sequencing/Phasing

- Develop construction sequence plan showing:
  - Construction area for each phase of construction and closure of existing travel lanes (if needed).
  - Temporary signing and striping, barricades, and other channelization device
  - Narrative of the sequence of work.
  - Detour Plan for each construction phase
  - Public utilities relocation phasing.
  - Pedestrian routing during construction.
- Develop typical cross section showing lane widths, edge conditions, channelization and proposed construction area.
- Prepare traffic control details to clarify intent of design.

2.2.6. Specifications/Construction Contracts

Prepare general notes, specification data, and final Bid Book in accordance with City of Rockwall requirements. Identify and prepare special specifications and/or special provisions applicable to the project. Prepare Bid-Tab sheets of applicable items for Contractor to fill/present bid prices.

- Contact documents, including the following:
  - City of Rockwall standard construction contract forms
  - Notice to bidders
  - Special instructions to bidders
  - Bid form (Bid-Tab) – Electronic for Bidding
  - Pay Items Description
  - Standard construction contract
  - Performance bond
  - Payment bond
  - Maintenance bond
  - Certificate of insurance
  - General conditions
  - Special conditions
  - Technical specifications
  - Permits (TXDOT, City of Dallas, etc.)
  - Geotechnical Report

2.2.7. Estimates

Compile an overall opinion of probable construction cost based on current market values.

2.3. Agency Permitting/Coordination

- Coordination or permitting from other agencies is not anticipated for this project.

3. Data Collection & Property Research / Topographic and Design Survey

3.1. Data Collection and Property Research

3.1.1. Gather existing plat information

3.1.2. Collect property owner and record information

3.1.3. Gather existing ROW and easement information, identify all easements through typical research methodologies (i.e. plats, court house filings, etc.). Undocumented easements may not be identified.

3.2. Topographic and Design Survey

3.2.1. The limits of the survey along Kaufman Street shall be from West Street to the west end of Kaufman Street. The limits of the survey along First Street shall be from Rusk Street to First Street. The limits of the survey along Rusk Street shall be from West Street to First Street. The survey shall be from the right-of-way line to the right-of-way line for Kaufman Street and First Street. The survey shall be from the north ROW line to CL of Roadway for Rusk Street. Survey will include intersecting roadways extending 50 feet along each leg of the intersections.

3.2.2. Establish horizontal control points at 500’ maximum spacing.

3.2.3. Establish a vertical control benchmark circuit as needed throughout the project. Use existing City established monument information for the City and tie survey into.

3.2.4. Set control points, which shall be based on NAD-83, on both sides of the roadway, as required to maintain horizontal control throughout the project limits.

3.2.5. Perform a field survey to identify and locate existing topographic elements within the roadway corridor. All identified topographic elements shall be tied down horizontally and vertically. The field survey shall include but not limited to the following:

- Property corner monumentation
- Existing pavement, curbs, sidewalks, barrier free ramps, etc.

- Roadway and lane striping
- Driveways
- Existing storm sewer inlets, manholes, junction boxes Headwalls (including culvert sizes and invert elevations)
- Existing driveway culverts and swales (flowlines, sizes, types, etc.)
- Guardrail
- Utility manholes, vaults, water valves, water meters, wastewater cleanouts, sprinkler heads, telephone poles, power poles, utility markers, other public utilities and franchise utilities
- Traffic Signal poles, cabinets, pull boxes and other signal equipment
- Signs (excluding temporary signs)
- Trees, including species and caliper (all sizes)
- Landscape planters, Shrubs, rocks and other features.
- Buildings and permanent structures
- Retaining walls
- Fencing walls
- Fence limits and material types (excluding temporary fences)
- Mailboxes (types – wood, brick, stone)
- Other applicable physical features that could impact design

3.2.6. Perform cross-sections throughout project limits at 50-foot intervals and at grade breaks and prepare cross-section field notes.

3.2.7. Prepare a final topographic drawing in digital format (including contours and breaklines) showing the features located in the field, an ASCII coordinate file of the points located in the field, and a hard copy of the coordinates and feature descriptions.

3.2.8. ENGINEER will perform site visits for the purposes of reviewing the provided survey in the field and making notes for additional survey needs and design considerations.

3.2.9. ENGINEER shall arrange and make provisions for access to perform the services specified within this scope. The surveyor shall provide the City with the name and address of the property owners.

4. Subsurface Utility Engineering (S.U.E.) Services

Provide S.U.E. Services for the purpose of locating horizontal and vertical locations of underground city and franchise utilities, in conjunction with and /or prior to the field survey.

4.1. S.U.E. Level 'B' Services will be provided to determine horizontal location of utilities up to 1,500 linear feet for Kaufman Street, First Street and Rusk Street. The Quality Level 'B' also includes Quality Level 'C/D' S.U.E. services.

4.1.1. Determine horizontal location of utilities up to 5,600 linear feet which will include 2,000 linear feet along Westway Drive from Highland Drive to Carriage Trail, 280 linear feet along Aspen Court from Carriage Trail to Highview Drive, and 100 LF along each cross streets and alleys (11 individual intersections).

4.1.2. Engineer will create and call in locate tickets for Texas811 for the project corridor. Timing of locates will be coordinated to help ensure that locates are performed in conjunction with surveying operations.

4.1.3. As part of the services provided in the Topographic and Boundary Survey Phase, Engineer will visibly investigate surface features and appurtenances or all utility systems shown on the record drawings that are included within the project site, including but not limited to:

- sanitary sewer manholes (including measure down)
- storm sewer manholes (including measure down)

- communication/fiber manholes
- hand holds
- pull boxes
- water valves
- water meters
- fire hydrants
- cleanouts
- blow-offs
- pedestals (communication, fiber, electric)
- gas meters
- signal boxes
- electric poles (transmission and distribution)
- electric transformers
- light poles
- utility signs

4.1.4. Investigate all utility systems shown on the record drawings that are included within the project site. Visible surface features and appurtenances of subsurface utilities found within the project site will also be evaluated. Using appropriate surface geophysical methods, Engineer will search for detectible indications of the horizontal location of anticipated subsurface utilities.

4.1.5. Mark all locations that can be validated, using paint, flags or other devices.

4.1.6. These services are for the purpose of aiding the design of the project by providing information related to subsurface utilities in order to allow potential utility conflicts to be minimized or eliminated.

4.1.7. Prepare documentation of the utilities encountered and marked, including their general location, orientation, type & size, if known.

4.1.8. Deliverable will consist of a Quality Level B – AutoCad DWG 2D file depicting all sub-surface utilities found and verified and above ground appurtenances. The drawing will be signed and sealed by a Professional Engineer licensed in the State of Texas.

5. Additional Services

Services not specifically identified in the Scope of Services above shall be considered additional and shall be performed on an individual basis upon authorization by the City of Rockwall. Such services shall include, but are not limited to the following:

5.1. Construction staking.
5.2. Geotechnical engineering services.
5.3. Right-of-way/Easement Documents.
5.4. Quality Level 'A' SUE Services.
5.5. Quality control and testing services during construction.
5.6. Wastewater or storm drains design and analysis.
5.7. Environmental or Archeological study and permitting through state agencies.
5.8. Support services for Project Bidding
5.9. Support services for Right-of-Way Acquisition and Negotiation
5.10. Construction phase services, including responding contractor questions, reviewing contractor pay application, performing site visits to observe construction, reviewing shop drawings/submittals, preparation of record drawings etc.

-End of Scope of Service-

ATTACHMENT "B"

Payment Schedule

Compensation for Basic Services in Tasks 1-2 shall be on a lump sum basis. The tabulation below establishes the not to exceed amount for each category of contract service:

	Task	Fee Basis	Fee
	BASIC SERVICES		
1.	Schematic Conceptual Design (30%)	Fixed Fee	$ 16,600
2.	Final Design (Construction Documents)	Fixed Fee	$ 24,800
	Basic Services Subtotal:		**$ 41,400**
Compensation for Special Services under Tasks 3-4 shall be on a lump sum, unit price, or labor fee plus expense (reimbursable) basis with the estimated fee shown below.			
	SPECIAL SERVICES		
3.	Data Collection & Property Research / Topographic and Design Survey	Fixed Fee	$ 8,700
4.	Quality Level 'B' (Including Level "C/D") S.U.E. Services (assumes 1,500 LF)	Hourly*	$ 10,500
	Special Services Subtotal*		**$ 19,200**
	Project Total*		**$ 60,600**

*Estimate only (see notes below).

Notes:

1. **Hourly Consulting Services**: Services shall be provided on an hourly, reimbursable basis at the ENGINEER'S standard hourly rates when the Fee Basis is defined as hourly. Actual fees for the services will be based on actual hours required to perform the services, and will vary based upon actual cost, and could potentially exceed the estimates provided above. ENGINEER shall notify the City in writing before exceeding the budgeted fees, and obtain written authorization from City to exceed the contract amount. Please refer to attached schedule of TNP's standard hourly rates. Services shall be billed monthly based on actual time spent working on the project by the ENGINER'S staff. Actual out-of-pocket expenses that are incurred during the progress of the work for hourly services tasks shall be billed at TNP's cost plus 10%. Any project related fees paid by the ENGINEER on behalf of the City shall be reimbursed by the City under the hourly services task. Examples of these type fees include, but are not limited to, application fees, filing fees, permit fees, review fees, title company/closing fees, or fees related to the purchase or acquisition of information or documents requested by the City for inclusion in the Project's deliverables.

2. **Fixed Fee Consulting Services**: Fees for tasks described as "fixed fee" (lump sum) are total fees for all labor and expenses associated with those tasks. Lump Sum fee for each task will be invoiced monthly based upon the overall percentage of services performed.

TEAGUE NALL AND PERKINS, INC.
Standard Rate Schedule for Time and Expense Contracts
Effective January 1, 2019 to December 31, 2019*

Engineering /Landscape Architecture/ROW	**From**	-	**To**	
Principal	$200	-	$250	Per Hour

CITY OF ROCKWALL

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	July 1, 2019
APPLICANT:	Kyle Coleman Harris; *Pacheco Koch Consulting Engineers*
CASE NUMBER:	P2019-027; *Lot 3, Block A, Channell Subdivision Addition*

SUMMARY

Consider a request by Kyle Coleman Harris of Pacheco Koch Consulting Engineers on behalf of Alton Frazier of Channell Commercial Corporation for the approval of a replat for Lot 3, Block A, Channell Subdivision Addition being a 18.762-acre parcel of land identified as Lot 2, Block A, Channell Subdivision Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, addressed as 1700 John King Boulevard, and take any action necessary.

PLAT INFORMATION

- ☑ The applicant is requesting the approval of a replat for an 18.762-acre parcel of land [i.e. *Lot 2, Block A, Channell Subdivision Addition*] for purpose of abandoning certain portions of the platted firelane & water easements. Additionally, the replat will realign the western drive aisle. The *subject property* is located within the SH-205 By-Pass Overlay (SH-205 BY OV) and is addressed as 1700 John King Boulevard.

- ☑ On June 14, 2019, Mark Pross of Pross Design Group, Inc., submitted an amended site plan [*i.e. Case NO. SP2019-021*] in conjunction with this replat for the purpose of establishing outside storage areas on the subject property and to realign the western drive aisle.

- ☑ On July 8, 2014, the Planning and Zoning Commission approved a site plan for the construction of the warehouse/manufacturing facility. On July 21, 2014, the City Council approved all associated variances, waivers, and exceptions requested by the applicant in conjunction with the site plan.

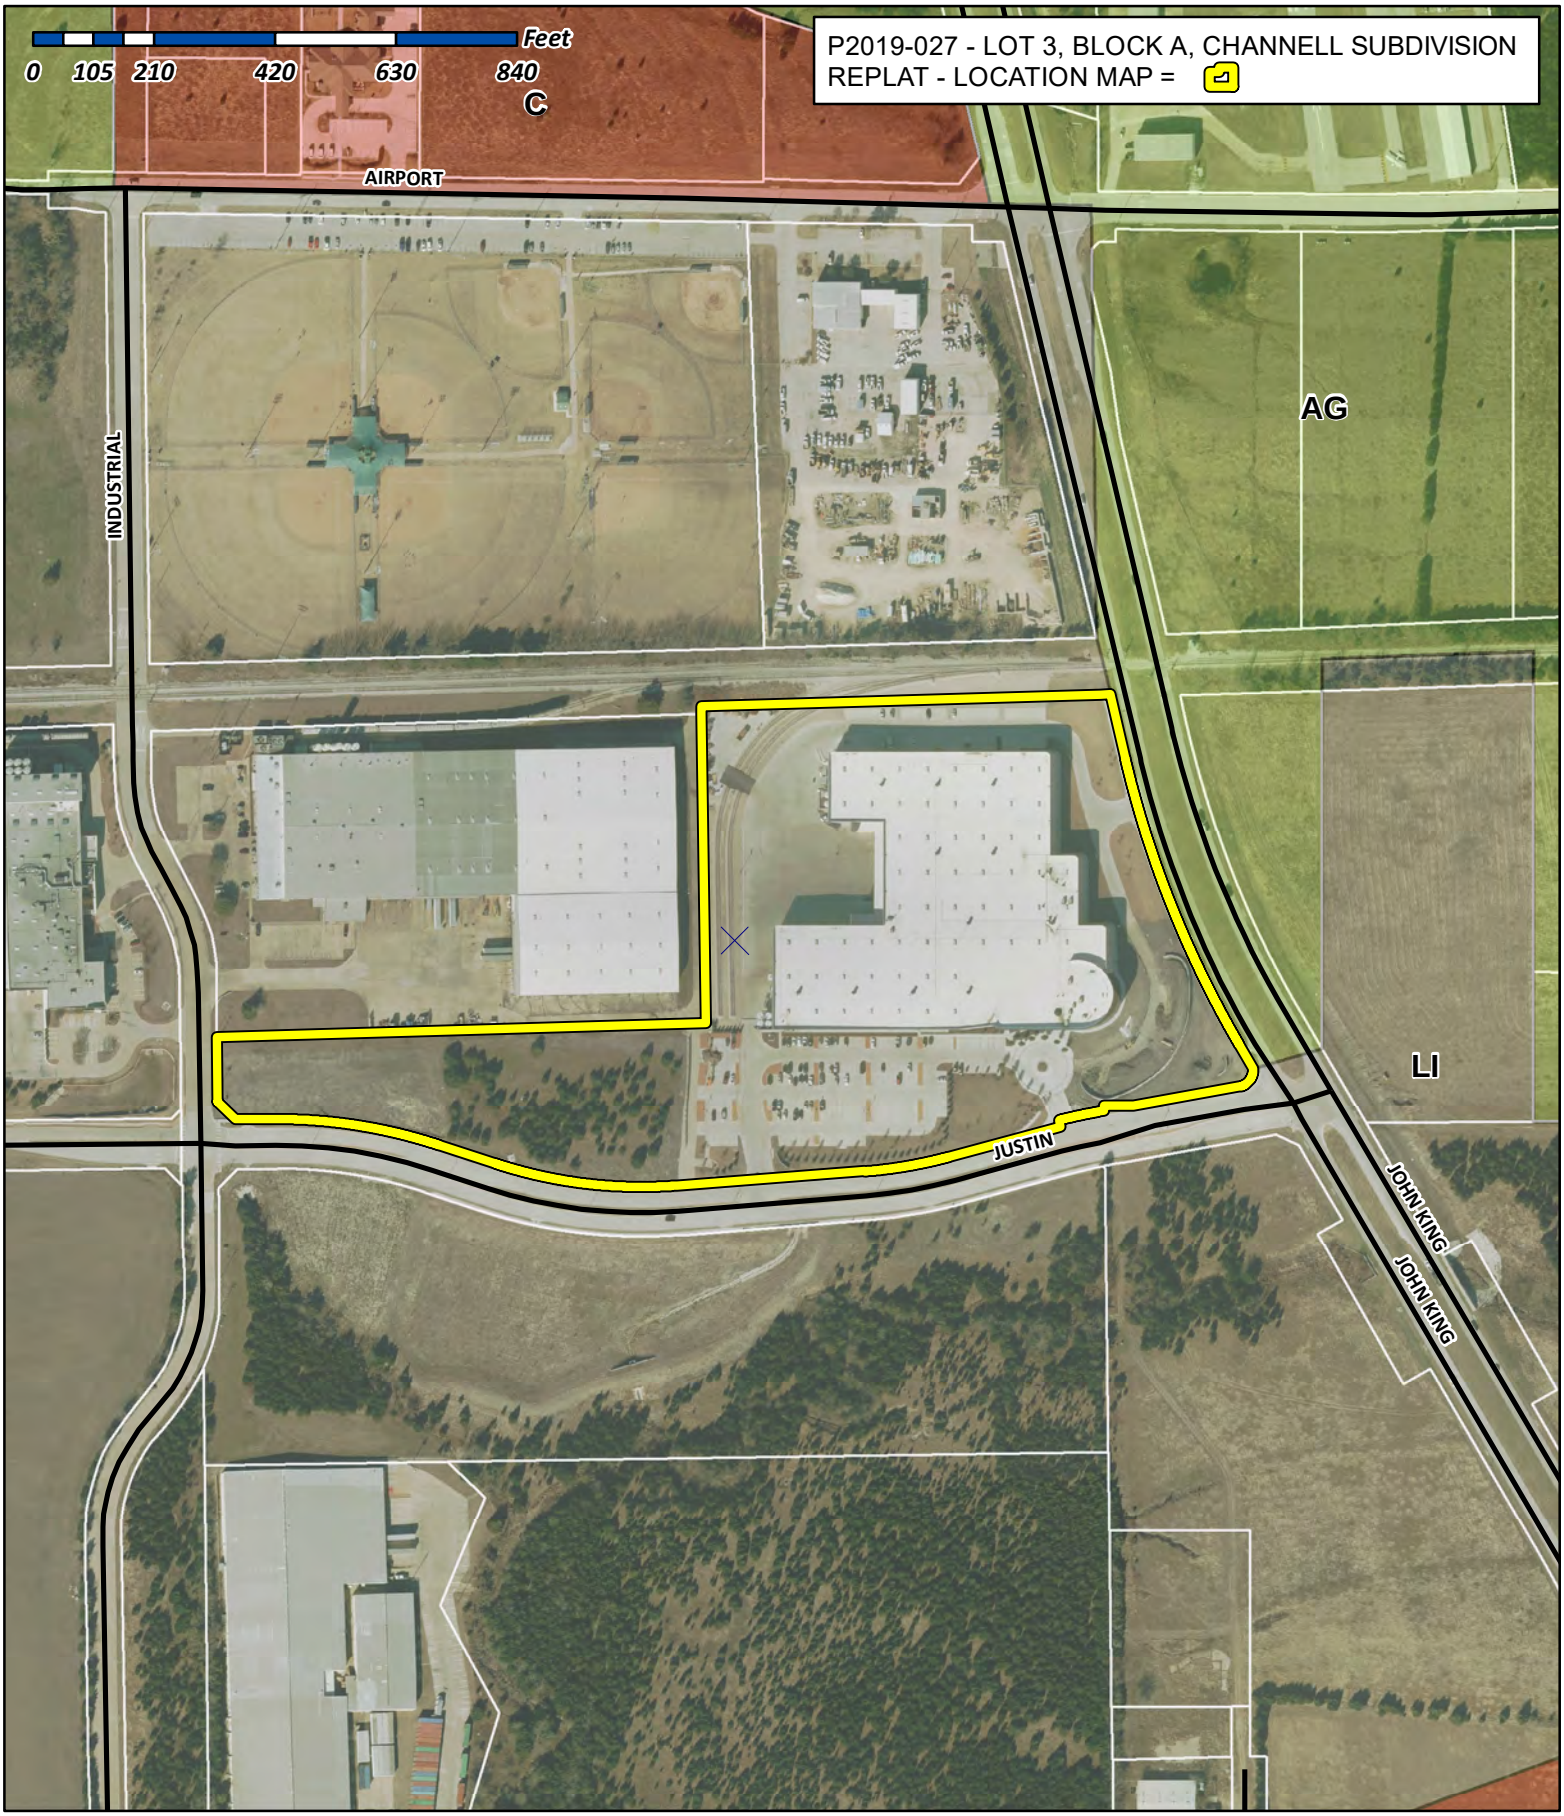
- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for replats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

- ☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the *Municipal Code of Ordinances*.

CONDITIONS OF APPROVAL

If the City Council chooses to approve the replat for *Lot 3, Block A, Channell Subdivision Addition,* staff would propose the following conditions of approval:



(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) Prior to the filing of this plat, the easements will need to be adjusted in accordance with the approved site plan (i.e. Case No. SP2019-021).

(3) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On June 25, 2019, the Planning and Zoning Commission's motion to recommend approval of the replat with staff conditions passed by a vote of 7 to 0.

NOTES

1. *It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.*

2. *Bearing system for this survey is based on the State Plane Coordinate System, Texas North Central Zone (4202), North American Datum of 1983 (2011) and correlated to the City of Rockwall Monument R016. The coordinates shown hereon are State Plane (Grid) Coordinates, no scale and no projection.*

OWNER'S CERTIFICATE

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, Channell Commercial Corporation, is the owner of an 18.762 acre tract of land in the City of Rockwall, Rockwall County, Texas; said tract of land being described as follows:

LEGAL DESCRIPTION

DESCRIPTION, of an 18.762 acre tract of land situated in the Nathan Butler Survey, Abstract No. 20, the Archibald Hanna Survey, Abstract No. 99, and the David Harr Survey, Abstract No. 102, City of Rockwall, Rockwall County, Texas; said tract being all of Lot 2, Block A, Channell Subdivision, an addition to the City of Rockwall, Texas according to the plat recorded in Instrument No. 20160000011900 of the Official Public Records of Rockwall County, Texas; said tract also being all of that certain tract of land described in Special Warranty Deed to Channell Commercial Corporation recorded in Instrument No. 20140000017566 of the Official Public Records of Rockwall County, Texas; said 18.762 acre tract being more particularly described as follows:

BEGINNING, at a 1/2–inch iron rod with "R.S.C.I. RPLS 5034" cap found for corner in the east right–of–way line of Industrial Boulevard (a 65–foot wide right–of–way); said point being the westernmost northwest corner of said Lot 2 and the southwest corner of Rockwall Industrial East, an addition to the City of Rockwall, Texas according to the plat recorded in Cabinet C, Slide 72 of said Plat Records;

THENCE, North 88 degrees, 07 minutes, 13 seconds East, departing the said east line of Industrial Boulevard and along the south line of said Rockwall Industrial East, a distance of 850.17 feet to a 5/8–inch iron rod with "PACHECO KOCH" cap set for corner; said point being the southeast corner of said Rockwall Industrial East;

THENCE, North 01 degrees, 03 minutes, 38 seconds West, along the east line of said Rockwall Industrial East, a distance of 550.29 feet to a 5/8–inch iron rod with "PACHECO KOCH" cap set for corner in the south right–of–way line of the UP/DALLAS GARLAND N.E. RAILROAD (a 100–foot wide right–of–way); said point being the northeast corner of said Rockwall Industrial East;

THENCE, along the said south line of the UP/DALLAS GARLAND N.E. RAILROAD, the following two (2) calls:

North 88 degrees, 10 minutes, 00 seconds East, a distance of 693.99 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found at an angle point;

North 88 degrees, 16 minutes, 13 seconds East, a distance of 16.20 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found for corner in the west right–of–way line of John King Boulevard (a 120–foot wide right–of–way);

THENCE, departing the said south line of the UP/DALLAS GARLAND N.E. RAILROAD and along the said west line of John King Boulevard, the following three (3) calls:

South 13 degrees, 13 minutes, 35 seconds East, a distance of 112.68 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found at the beginning of a non–tangent curve to the left;

In a southeasterly direction, along said curve to the left, having a central angle of 17 degrees, 06 minutes, 33 seconds, a radius of 1,810.00 feet, a chord bearing and distance of South 21 degrees, 54 minutes, 26 seconds East, 538.48 feet, an arc distance of 540.49 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found at the end of said curve;

South 30 degrees, 27 minutes, 42 seconds East, a distance of 46.15 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found for corner; said point being at the northeast end of a circular right–of–way corner clip at the intersection of the said west line of John King Boulevard and the north right–of–way line of Justin Road (a variable width right–of–way) and the beginning of a non–tangent curve to the right;

THENCE, in a southwesterly direction, departing the said west line of John King Boulevard and along said corner clip and said curve to the right, having a central angle of 84 degrees, 24 minutes, 20 seconds, a radius of 29.50 feet, a chord bearing and distance of South 37 degrees, 35 minutes, 03 seconds West, 39.63 feet, an arc distance of 43.46 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found for corner in the said north line of Justin Road; said point being at the southwest end of said corner clip;

THENCE, departing the said corner clip and along the said north line of Justin Road, the following fourteen (14) calls:

South 79 degrees, 47 minutes, 13 seconds West, a distance of 186.63 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found at an angle point;

South 89 degrees, 47 minutes, 13 seconds West, a distance of 50.50 feet to a 1/2–inch iron rod with "CSC 4252" cap found for corner;

South 00 degrees, 38 minutes, 16 seconds East, a distance of 8.89 feet to a 5/8–inch iron rod with "PACHECO KOCH" cap set for corner;

South 79 degrees, 47 minutes, 13 seconds West, a distance of 10.22 feet to a 5/8–inch iron rod with "PACHECO KOCH" cap set for corner at the beginning of a tangent curve to the left;

In a southwesterly direction, along said curve to the left, having a central angle of 04 degrees, 26 minutes, 56 seconds, a radius of 904.50 feet, a chord bearing and distance of South 77 degrees, 33 minutes, 45 seconds West, 70.22 feet, an arc distance of 70.23 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found for corner;

South 14 degrees, 39 minutes, 43 seconds East, a distance of 12.00 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found for corner; said point being the beginning of a non–tangent curve to the left;

In a southwesterly direction, along said curve to the left, having a central angle of 00 degrees, 33 minutes, 04 seconds, a radius of 892.50 feet, a chord bearing and distance of South 75 degrees, 03 minutes, 45 seconds West, 8.58 feet, an arc distance of 8.58 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found at the end of said curve;

South 74 degrees, 47 minutes, 13 seconds West, a distance of 191.98 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found at the beginning of a tangent curve to the right;

In a westerly direction, along said curve to the right, having a central angle of 10 degrees, 34 minutes, 42 seconds, a radius of 807.50 feet, a chord bearing and distance of South 80 degrees, 04 minutes, 34 seconds West, 148.87 feet, an arc distance of 149.09 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found at the end of said curve;

South 85 degrees, 21 minutes, 55 seconds West, a distance of 325.98 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found at the beginning of a tangent curve to the right;

In a westerly direction, along said curve to the right, having a central angle of 22 degrees, 51 minutes, 11 seconds, a radius of 807.50 feet, a chord bearing and distance of North 83 degrees, 12 minutes, 29 seconds West, 319.95 feet, an arc distance of 322.08 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found at the end of said curve;

North 71 degrees, 46 minutes, 54 seconds West, a distance of 100.00 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found at the beginning of a tangent curve to the left;

In a westerly direction, along said curve to the left, having a central angle of 18 degrees, 36 minutes, 18 seconds, a radius of 892.50 feet, a chord bearing and distance of North 81 degrees, 05 minutes, 03 seconds West, 288.54 feet, an arc distance of 289.81 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found at the end of said curve;

South 89 degrees, 36 minutes, 48 seconds West, a distance of 70.14 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found for corner; said point being at the southeast end of a right–of–way corner clip at the intersection of said north line of Justin Road with the said east line of Industrial Boulevard;

THENCE, North 45 degrees, 43 minutes, 30 seconds West, departing the said north line of Justin Road and along the said corner clip, a distance of 42.68 feet to a 1/2–inch iron rod with "WIER & ASSOC INC" cap found for corner in the said east line of Industrial Boulevard; said point being at the northwest end of said corner clip;

THENCE, North 01 degrees, 03 minutes, 48 seconds West, departing the said corner clip and along the said east line of Industrial Boulevard, a distance of 111.88 feet to the POINT OF BEGINNING;

CONTAINING, 817,294 square feet or 18.762 acres of land, more or less.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL
I, the undersigned owner of the land shown on this plat, and designated herein as the **LOT 2R, BLOCK A, CHANNELL SUBDIVISION** to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the **LOT 2R, BLOCK A, CHANNELL SUBDIVISION** have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL

CITY COUNCIL MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
CC:	Rick Crowley, *City Manager* Mary Smith, *Assistant City Manager* Joey Boyd, *Assistant City Manager*
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	July 1, 2019
SUBJECT:	MIS2019-008; *Parking Agreement Between The Vault & Carmel Plaza*

On June 12, 2019, the applicant Matthew Mulliken of Mulliken Construction Management, Inc. submitted an application requesting the City Council approve a parking agreement between the properties at 1280 & 1300 E. Ralph Hall Parkway. The area indicated in the agreement is currently being used as a landscape island, and according to the applicant's request would be converted to add nine (9) additional parking spaces and a dumpster enclosure for the adjacent strip retail center. According to Section 3.3, *Location of Commercial Parking and Loading Spaces*, of Article VI, *Parking and Loading*, of the Unified Development Code, "(w)hen an increase in the number of off-street parking spaces is required by a change or enlargement of use, or where off-street parking spaces are provided collectively or used jointly by two or more buildings or establishments, the required off-street parking spaces may be located at a distance not to exceed 400 feet from the building being served; provided, however, that a written agreement thereto is properly executed and filed as provided below." This section goes on to require that all parking agreements be approved by the City Council. In this case, the parking will be directly adjacent to the strip retail building, and is estimated to be within 25-feet of said building. Attached to this memorandum is an exhibit showing the proposed parking spaces and the parking agreement. If approved by the City Council the applicant will be required to file the agreement and provide the City with a copy prior to constructing the parking spaces. Should the City Council have any questions concerning this request staff will be available at the *July 1, 2019* City Council meeting.

SITEWORK NOTES

1. PROPOSED GRADES ARE TO BE ATTAINED BY RESHAPING EXISTING SITE BY CUT AND FILL OPERATIONS. FILL OPERATIONS ARE TO BE ACCOMPLISHED BY PLACING MATERIAL IN 6-INCH LIFTS AND COMPACTING TO 95% DENSITY AS DETERMINED BY ASTM D698. SITE SHALL BE CLEARED & GRUBBED IF APPLICABLE SCARIFIED & TOPSOIL REMOVED PRIOR TO CONSTRUCTION. TOPSOIL AS REQUIRED FOR PLANTING SHALL BE STOCKPILED ON-SITE & REUSED. DISPOSE OF EXCESS SITE MATERIALS. EXCESS TOPSOIL REMOVED FROM THE SITE WHICH MUST BE REPLACED FOR SITE PLANTING & LANDSCAPING SHALL BE REPLACED WITH SIMILAR QUALITY MATERIALS AT CONTRACTORS EXPENSE. IMPORT FILL MATERIALS SHALL BE SELECT FILL SANDY CLAY OR CLAYEY SAND MATERIALS MEETING THE REQUIREMENTS OF THE GEOTECHNICAL REPORT.
2. FOUR (4) INCHES OF TOPSOIL SHALL BE RETURNED TO AREAS TO BE SEEDED OR SODDED AND FERTILIZED TO ACHIEVE FINISHED GRADES.
3. MAXIMUM CUT OR FILL SLOPES ARE NOT TO EXCEED 4 FT. HORIZONTAL TO 1 FT. VERTICAL, UNLESS OTHERWISE SPECIFIED.
4. CONTRACTOR TO BE RESPONSIBLE FOR EROSION CONTROL DURING AND AFTER CONSTRUCTION, UNTIL COVER IS ESTABLISHED & EROSION SILTATION HAS STABILIZED. CONTRACTOR SHALL FURNISH TEMPORARY SILT CONTROL MEASURES (SILT FENCES, STRAW BALES, ETC.) AS REQUIRED DURING CONSTRUCTION & SHALL REMOVE THESE TEMPORARY MEASURES AFTER COVER IS ESTABLISHED. THIS PROJECT RESULTS IN THE TOTAL DISTURBANCE OF LESS THAN 1 ACRES OF GROUND SURFACE. TCEQ STORM WATER PERMIT REQUIREMENTS ARE NOT APPLICABLE.
5. MAINTAIN SITE IN "FIRST CLASS" CONDITION. THE WORK SITE SHALL BE CLEANED UP AT THE END OF EACH DAY.
6. INSURE THAT NO DRAINAGE ON OR OFF THE SITE IS BLOCKED BY PROPOSED CONSTRUCTION. FINISHED GRADES ARE TO BE SLOPED TO PROVIDE PROPER DRAINAGE.
7. PROTECT EXCAVATIONS FROM FLOODING DUE TO GROUNDWATER INFILTRATION AND RUNOFF.
8. NEAR COMPLETION OF WORK, REMOVE ALL SITE/ CONSTRUCTION DEBRIS AND FINE GRADE ALL DISTURBED AREAS IN PREPARATION FOR LANDSCAPING, HYDROMULCH SEEDING OR SODDING.
9. UPON SUBSTANTIAL COMPLETION AND APPROVAL OF FINAL GRADING, HYDROMULCH SEED & FERTILIZE ALL AREAS WHERE CONSTRUCTION HAS DISTURBED SOIL. GRASS AREAS SHOWN ON LANDSCAPE PLAN SHALL BE SODDED IN ACCORDANCE WITH LANDSCAPE SPECIFICATIONS. AREAS WITH FINISH GRADES EXCEEDING 6 TO 1 & DRAINAGE SWALES SHALL ALSO BE SOLID SODDED PER LANDSCAPING SPECIFICATIONS, OTHER DISTURBED AREAS WILL BE HYDROMULCH SEEDED WITH SAHARA BERMUDA.
10. EXCESS EXCAVATED MATERIAL AND DEBRIS IS TO BE REMOVED FROM SITE AND DISPOSED OF.
11. CONTRACTOR TO PROVIDE TRAFFIC CONTROL IN ACCORDANCE WITH THE TEXAS MANUAL ON UNIFORM TRAFFIC CONTROL FOR STREETS AND HIGHWAYS.
12. DROP-OFFS GREATER THAN 2 INCHES ADJACENT TO THE EXISTING STREETS WILL NOT BE ALLOWED TO REMAIN OPEN OVERNIGHT.
13. DRESS-UP AND CLEAN-UP PERIMETER TRANSITION AROUND SITE.
14. VERIFY FLOW LINES OF ALL CULVERTS AND CURB LINES PRIOR TO CONSTRUCTION.
15. ANY ROOTS, TRASH OR OTHER MATERIALS EXPOSED OR UNCOVERED DURING SITE WORK SHALL BE REMOVED & DISPOSED OF.
16. PAVEMENT MARKING SHALL BE 4" WIDE STRIPES APPLIED IN TWO COATS OF REFLECTIVE YELLOW TRAFFIC MARKING PAINT. SURFACES TO BE CLEAN AND DRY PRIOR TO APPLICATION.

GRADING & DRAINAGE PLAN
PROJECT # 6315
SHEET NUMBER C3.0

PARKING, INGRESS AND EGRESS EASEMENT AGREEMENT

This PARKING, INGRESS AND EGRESS EASEMENT AGREEMENT (the "**Agreement**") is executed to be effective as of June 1, 2019, by DALLAS EAST, a California general partnership ("**Declarant**"), having an address of 1445 W. San Carlos Street, San Jose, California 95126-3232

Recitals:

WHEREAS, Declarant is the owner of that certain real property located in Rockwall, Rockwall County, Texas, together with the improvements located thereon more particularly described on Exhibit A attached hereto and made a part hereof (the "**Carmel Plaza Tract**"); and

WHEREAS, Declarant is also the owner of that certain real property located in Rockwall, Rockwall County, Texas, together with the improvements located thereon more particularly described on Exhibit B attached hereto and made a part hereof (the "**Vault Tract**", and collectively with the Carmel Plaza Tract, the "**Tracts**" and individually, a "**Tract**"); and

WHEREAS, Declarant, as part of planned renovations on the Carmel Plaza Tract, intends, among other things, to construct additional parking facilities located partially on the Vault Tract consisting of 9 parking spaces identified on Exhibit C attached hereto and made a part hereof adjacent to the space identified thereon as "Existing The Vault Storage" (the "**Parking Facilities**") for use by (i) Declarant as owner of the Carmel Plaza Tract, (ii) all future owners of the Carmel Plaza Tract (Declarant, as owner of the Carmel Plaza Tract, and any such future owner, the "**Carmel Plaza Owner**") and the Carmel Plaza Owner's tenants, and their respective customers, guests and invitees, of the Carmel Plaza Tract (collectively, the "**Carmel Plaza Users**"), which Parking Facilities will require construction, maintenance, ingress and egress easements over the Vault Tract as provided herein.

NOW THEREFORE, in consideration of the premises and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Declarant hereby declares that the Tracts shall be held, sold, conveyed and occupied subject to the following, which are intended to protect the value and desirability of the Tracts:

1. Creation of Easements. To facilitate the construction of the Parking Facilities and the use of the Parking Facilities by the Carmel Plaza Owner and the Carmel Plaza Users, Declarant hereby:

(a) encumbers the Vault Tract with an easement for construction of that portion of the Parking Facilities located on the Vault Tract (the "**Parking Easement**") for the benefit of the Carmel Plaza Owner and the Carmel Plaza Users; and

(b) encumbers the Vault Tract with a non-exclusive and permanent easement for vehicular and pedestrian ingress and egress across the Vault Tract (the "**Access Easement**", and collectively with the Parking Easement, the "**Easement**") for the benefit of the Carmel Plaza Owner and the Carmel Plaza Users.

acquiring an interest in a Tract; and (c) will inure to the benefit of each Owner and each Owner's successors, assigns and mortgagees. Each Owner agrees that on conveyance of all or any part of a Tract, the grantee, by accepting such conveyance will thereby become a new party to and be bound by this Agreement. On such acquisition by a grantee of a Tract, the conveying Owner will thereafter be released from any obligation under this Agreement arising thereafter with respect to the Tract, so conveyed.

7. No Dedication. Nothing contained in this Agreement will be deemed to constitute a gift, grant or dedication of any portion of the Tracts, to the general public or for any public purpose whatsoever, it being the intention of the Owners that this Agreement will be strictly limited to the private use of the Carmel Plaza Owner and the Carmel Plaza Users. This Agreement is intended to inure to the benefit of and be binding on the Owners and their respective successors, assigns and mortgagees.

8. Amendment. This Agreement and any provision herein contained may be terminated, extended, modified or amended only with the express written consent of all of the Owners of those portions of the Tracts affected thereby. No tenant, licensee or other person having only a possessory interest in the improvements constructed on a Tract will be required to join in the execution of or consent to any action of the Owners taken pursuant to this Agreement nor will any tenants be entitled to enforce the provisions of this Agreement.

9. Default; Remedies. The Owners agree that the provisions of this Agreement may be enforced as follows:

(a) Injunctive Relief. In the event of any violation or threatened violation by any Owner of any of the provisions of this Agreement, in addition to the right to collect damages, each Owner will have the right to enjoin such violation or threatened violation in a court of competent jurisdiction. Prior to the commencement of any such action, written notice of the violation will be given to the Owner claimed to have committed such violation.

(b) Self Help. In the event any Owner fails to perform any of the provisions of this Agreement, any other Owner directly affected by any act or omission of the defaulting Owner will have the right, without being obligated to do so, to enter upon the applicable Tract of such defaulting Owner and perform the obligations of the defaulting Owner hereunder; provided, however, that written notice of such intention, specifying the nature of the alleged default and the actions to be performed, has been given to the defaulting Owner not less than ten (10) days prior to the commencement of such action or not less than twenty-four (24) hours prior to such commencement if, in the reasonable judgment of the Owner giving notice, such default is of an emergency nature. During such ten (10) day or twenty-four (24) hour period, as the case may be, the defaulting Owner will have the right to perform or commence performance of action appropriate to remedy such default, and provided such action is diligently carried to completion, the right of such other Owner to perform the obligation of the defaulting Owner will terminate. If an Owner elects to perform the action to have been performed by a defaulting Owner, on completion of such action, or from time to time, if the action is of a continuing nature, an itemized statement of the cost thereof will be submitted to the defaulting Owner and the amount thereof will be immediately due and payable by the defaulting Owner which amount will bear interest at the rate of fifteen percent (15%) per annum until paid.

(g) Captions. The captions of the paragraphs of this Agreement are for convenience only and are not intended to affect the interpretation or construction of the provisions herein contained.

(h) Time. Time is the essence of this Agreement.

(i) Binding Effect. The provisions of this Agreement will be binding on the Owners and their respective successors, assigns and mortgagees to the extent herein provided.

CITY OF ROCKWALL

CITY COUNCIL MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
CC:	Rick Crowley, *City Manager* Mary Smith, *Assistant City Manager* Joey Boyd, *Assistant City Manager*
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	July 1, 2019
SUBJECT:	MIS2019-003; 424 Nicole Drive

On June 14, 2019, the applicant, Mike Mishler on behalf of Jose Carmona Lopez, submitted an appeal requesting the City Council allow an *On-Site Sewage Facility* (OSSF) on the subject property at 424 Nicole Drive. The subject property consists of two (2) lots and is approximately 0.33-acres. According to Section 44-243(c) of Chapter 44, *Utilities*, of the Municipal Code of Ordinances, "(n)o permit for the installation of an on-site sewage facility (OSSF) will be issued for property of less than 1½ acres, unless an exception is granted by the City Council on the grounds that undue hardship will be created if said lot is not connected to an OSSF." Currently, the majority of the Lake Rockwall Estates Subdivision has access to the City's existing sanitary sewer infrastructure; however, Renee Drive, Nicole Drive, Russell Drive, and portions of Wayne Drive are currently not served by this infrastructure. In this case, the applicant's property is located along Nicole Drive, and the City's wastewater services cannot effectively be extended to the subject property. With this being said, any request for an exception to have an OSSF is a discretionary decision for the City Council.

In all exception cases dealing with requests for OSSFs, the Municipal Code of Ordinances requires the City Council to hold a public hearing prior to acting on the request. Section 44-243(c) also requires a notice of public hearing be sent out to all property owners within 200-feet of the applicant's property ten (10) days prior to the public hearing date. On June 17, 2019, staff mailed the notice of public hearing to 44 property owners and residents within 200-feet of the subject property. Currently, staff has not received any returned notices. Should the City Council have any questions concerning the applicant's request staff will be available at the *July 1, 2019* City Council meeting.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. MIS2019-003: OSSF for 424 Nicole Drive

Hold a public hearing to discuss and consider a request by Jose Carmona Lopez for the approval of an On-Site Sewage Facility (OSSF) on a 0.33-acre tract of land identified as Lots 1325 & 1326, Rockwall Lake Properties Development No. 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 75 (PD-75) for Single-Family 7 (SF-7) District land uses, addressed as 424 Nicole Drive, and take any action necessary.

For the purpose of considering the effects of such a request, the City Council will hold a public hearing on **Monday, 7/1/19 at 6:00 p.m.** This hearing will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Ryan Miller
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **7/1/2019** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

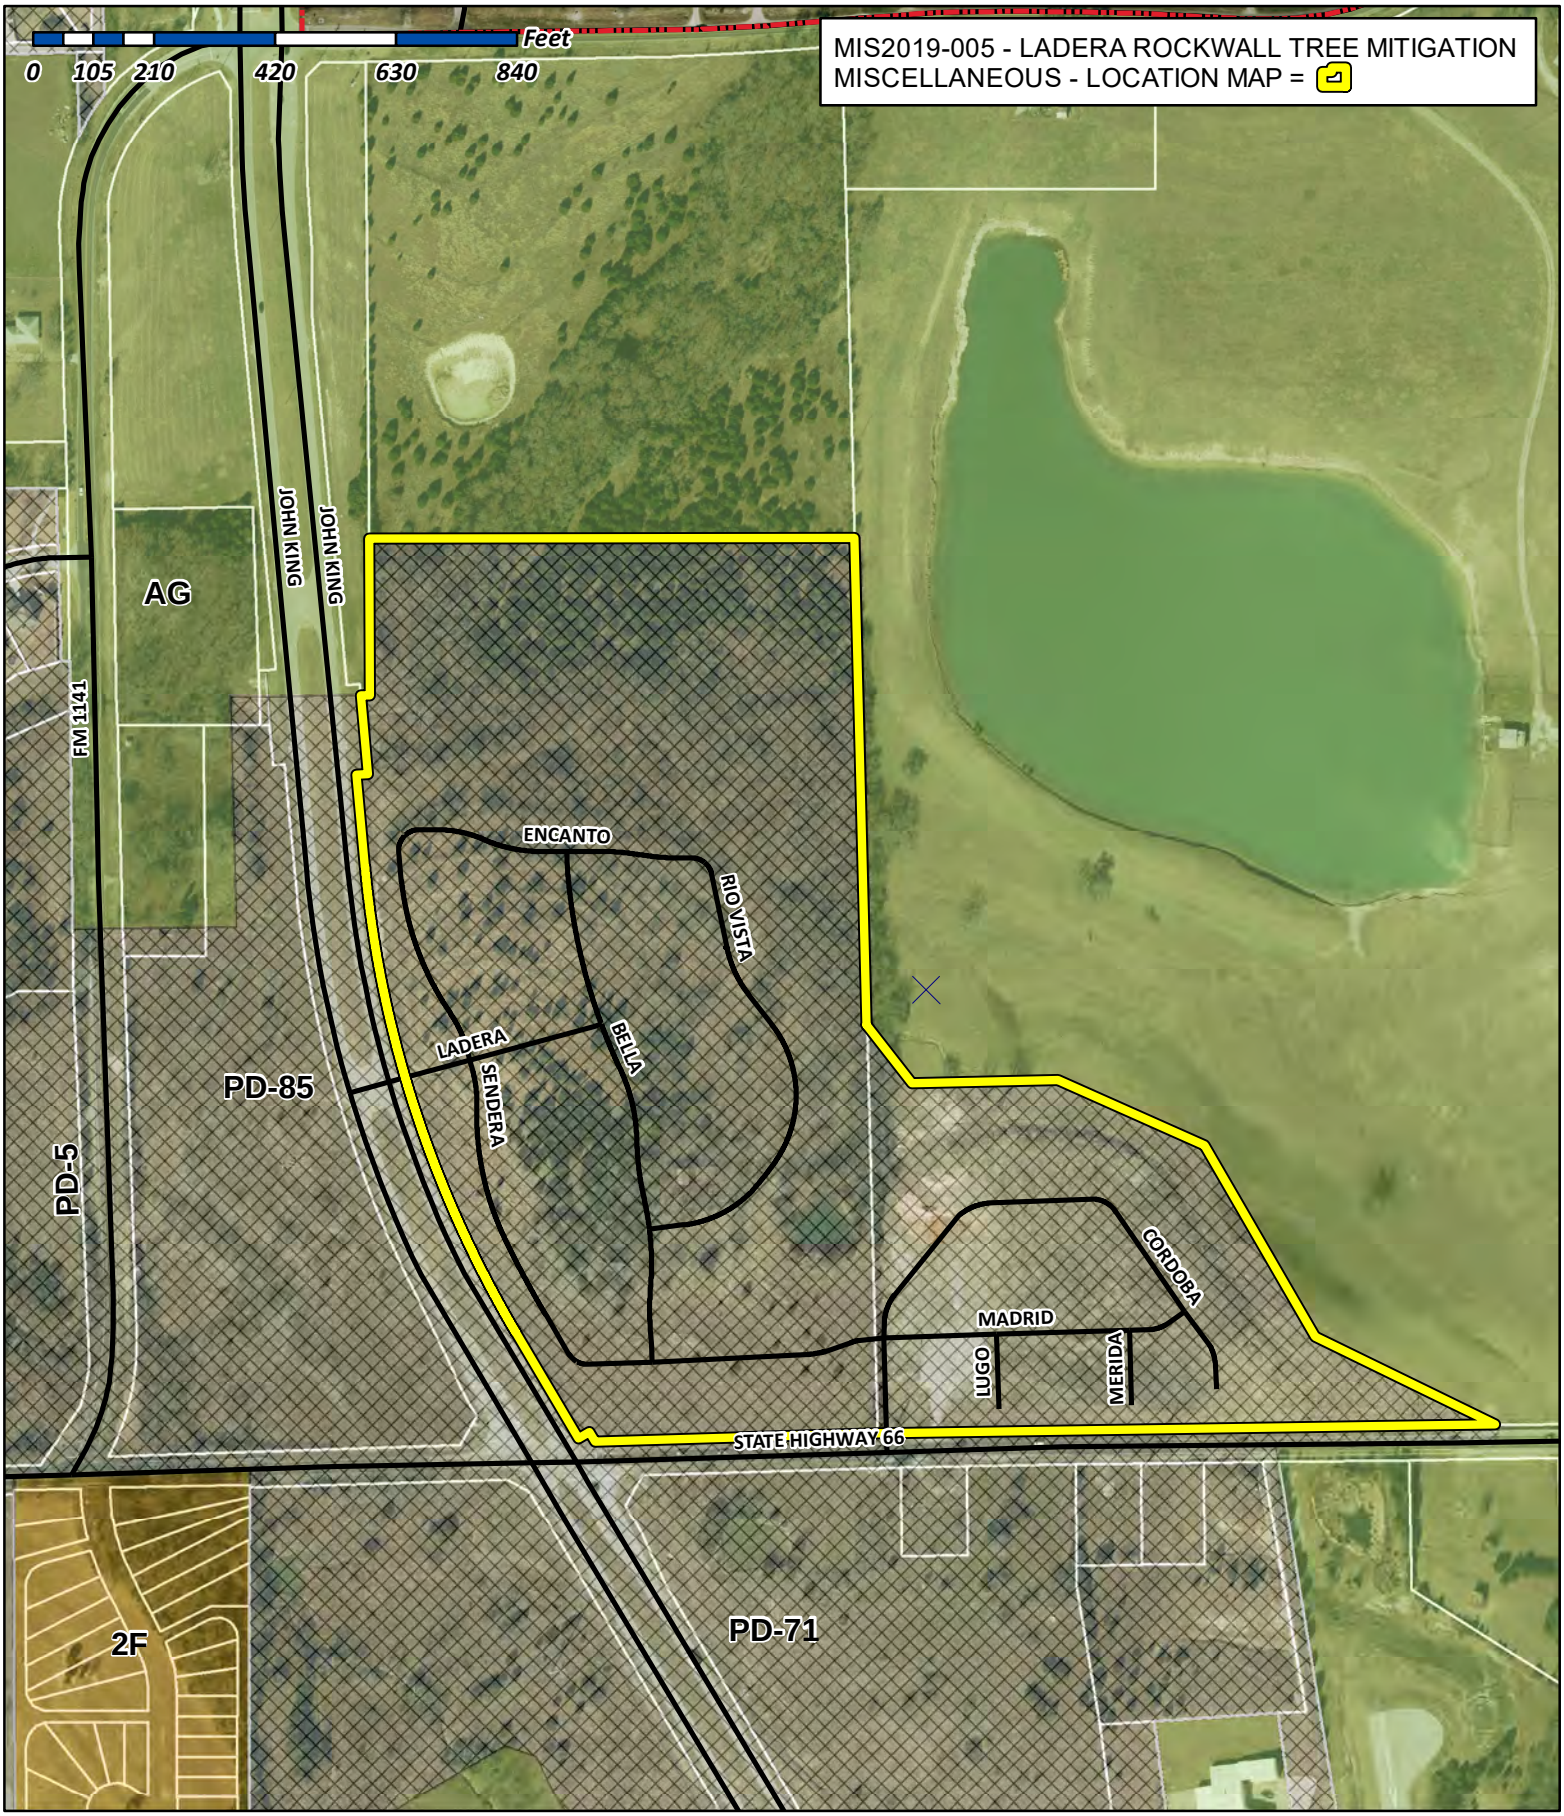
CITY OF ROCKWALL

CITY COUNCIL MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
CC:	Rick Crowley, *City Manager* Mary Smith, *Assistant City Manager* Joey Boyd, *Assistant City Manager*
FROM:	David Gonzales, *Planning and Zoning Manager*
DATE:	July 1, 2019
SUBJECT:	MIS2019-005; *Alternative Tree Mitigation Settlement Agreement*

The applicant, John Delin of R. W. Ladera, LLC, is requesting an *Alternative Tree Mitigation Settlement Agreement* in conjunction with the Ladera of Rockwall Addition for the purpose of offsetting a portion of the required tree mitigation. Specifically, the applicant is requesting relief associated with the trees (*i.e. 699.5-caliper inches of trees*) that will be removed to construct an off-site, 12-inch sanitary sewer line that will serve the development. On June 26, 2018, the Planning and Zoning Commission approved an amended treescape plan allowing for the removal of an additional 977.75-caliper inches that were associated with the construction of this sanitary sewer line. This approval brought the total mitigation balance due to 1,443.25 caliper-inches. On March 12, 2019, a revised treescape plan was submitted with the final plat application [*Case No. P2019-010*] indicating the need for the removal of an additional 283.5-caliper inches of tree to allow the installation of the 12-inch sanitary sewer line. This increased the total mitigation balance due to 1,726.75-caliper inches. Currently, the applicant's approved mitigation plan calls for providing all 1,726.75-caliper inches on-site.



The applicant's proposal requests that the City Council consider one (1) of the two (2) following alternatives:

1. The City Council waive the 699.5-caliper inches associated with the offsite installation of the 12-inch sanitary sewer line; or,
2. The City Council consider reducing the tree mitigation balance associated with the off-site improvements by ½ the amount (*i.e. 349.75-caliper inches*). This balance would then be donated to the Parks Department to save the applicant the expense of planting and caring for the trees on-site.

If the City Council does not approve one (1) of the two (2) alternatives, the applicant has stated that they intend to provide the full balance to the Parks Department to be used in other areas of the City. According to *Section 7*, *Alternative Tree Mitigation Settlement Agreement*, of *Article X*, of the *Unified Development Code* (UDC), the City Council -- *upon recommendation from the Planning and Zoning Commission* -- may consider an *Alternative Tree Mitigation Settlement Agreement* where, due to hardship, the applicant is unable to meet the requirements of this article or where it is determined that adherence to the tree mitigation requirements will create a hardship for an applicant. Attached to this memo is the applicant's letter requesting the alternatives and an exhibit indicating the tree's that will be required to be removed with the 12-inch sanitary sewer line.

On June 25, 2019 the Planning and Zoning Commission' motion to recommend approval of Option #2 failed to be approved by a vote of 3 to 4, with Commissioners Womble, Logan, Lyons, and Fishman dissenting. A second motion to recommend approval of Option #3 for an *Alternative Tree Mitigation Settlement Agreement* was approved by a vote of 5 to 2, with Commissioners Welch and Moeller dissenting. This option is to provide the full balance of 699.5-caliper inches to the Parks and Recreations

Department for their use in other areas of the City. Attached to this memo is the applicant's letter of request, the revised treescape plan and landscape plan. The approval of the applicant's request is a discretionary decision for the City Council.

From: John Delin <john@integritygroups.com>
Date: 4/17/19 10:16 AM (GMT-06:00)
To: "Miller, Ryan" <RMiller@rockwall.com>
Subject: Request for Hearing on Tree Mitigation

Ryan,

Per our phone call earlier, we are submitting a request to have a hearing on the Tree Mitigation associated with our Ladera Rockwall project, *only* in reference to the Offsite Utilities portion of the project.

As you know we are installing $500,000 for water & sewer expansion for the City which will feed future growth and unfortunately receive no Pro-rata return for this work. Additionally we are faced with almost 500 inches of tree mitigation for areas which there is considerable tree growth anyway. We would propose;

1. A waiver of the Mitigation in Total for the Offsite Utility portion of the project or,
2. Reduce by ½ the amount to be Mitigated and provide the balance as a donation to the City for its use, without us expensing the cost for labor for planting and care.
3. Provide the appropriate number of inches in a donation to the City for use in other areas, without us expensing the cost for labor for planting and care.

Let me know if we can get this on the agenda.

Best,

John Delin

City of Rockwall
The New Horizon

MEMORANDUM

TO: **City Council**

FROM: **Joey Boyd, Assistant City Manager**

DATE: **June 26, 2019**

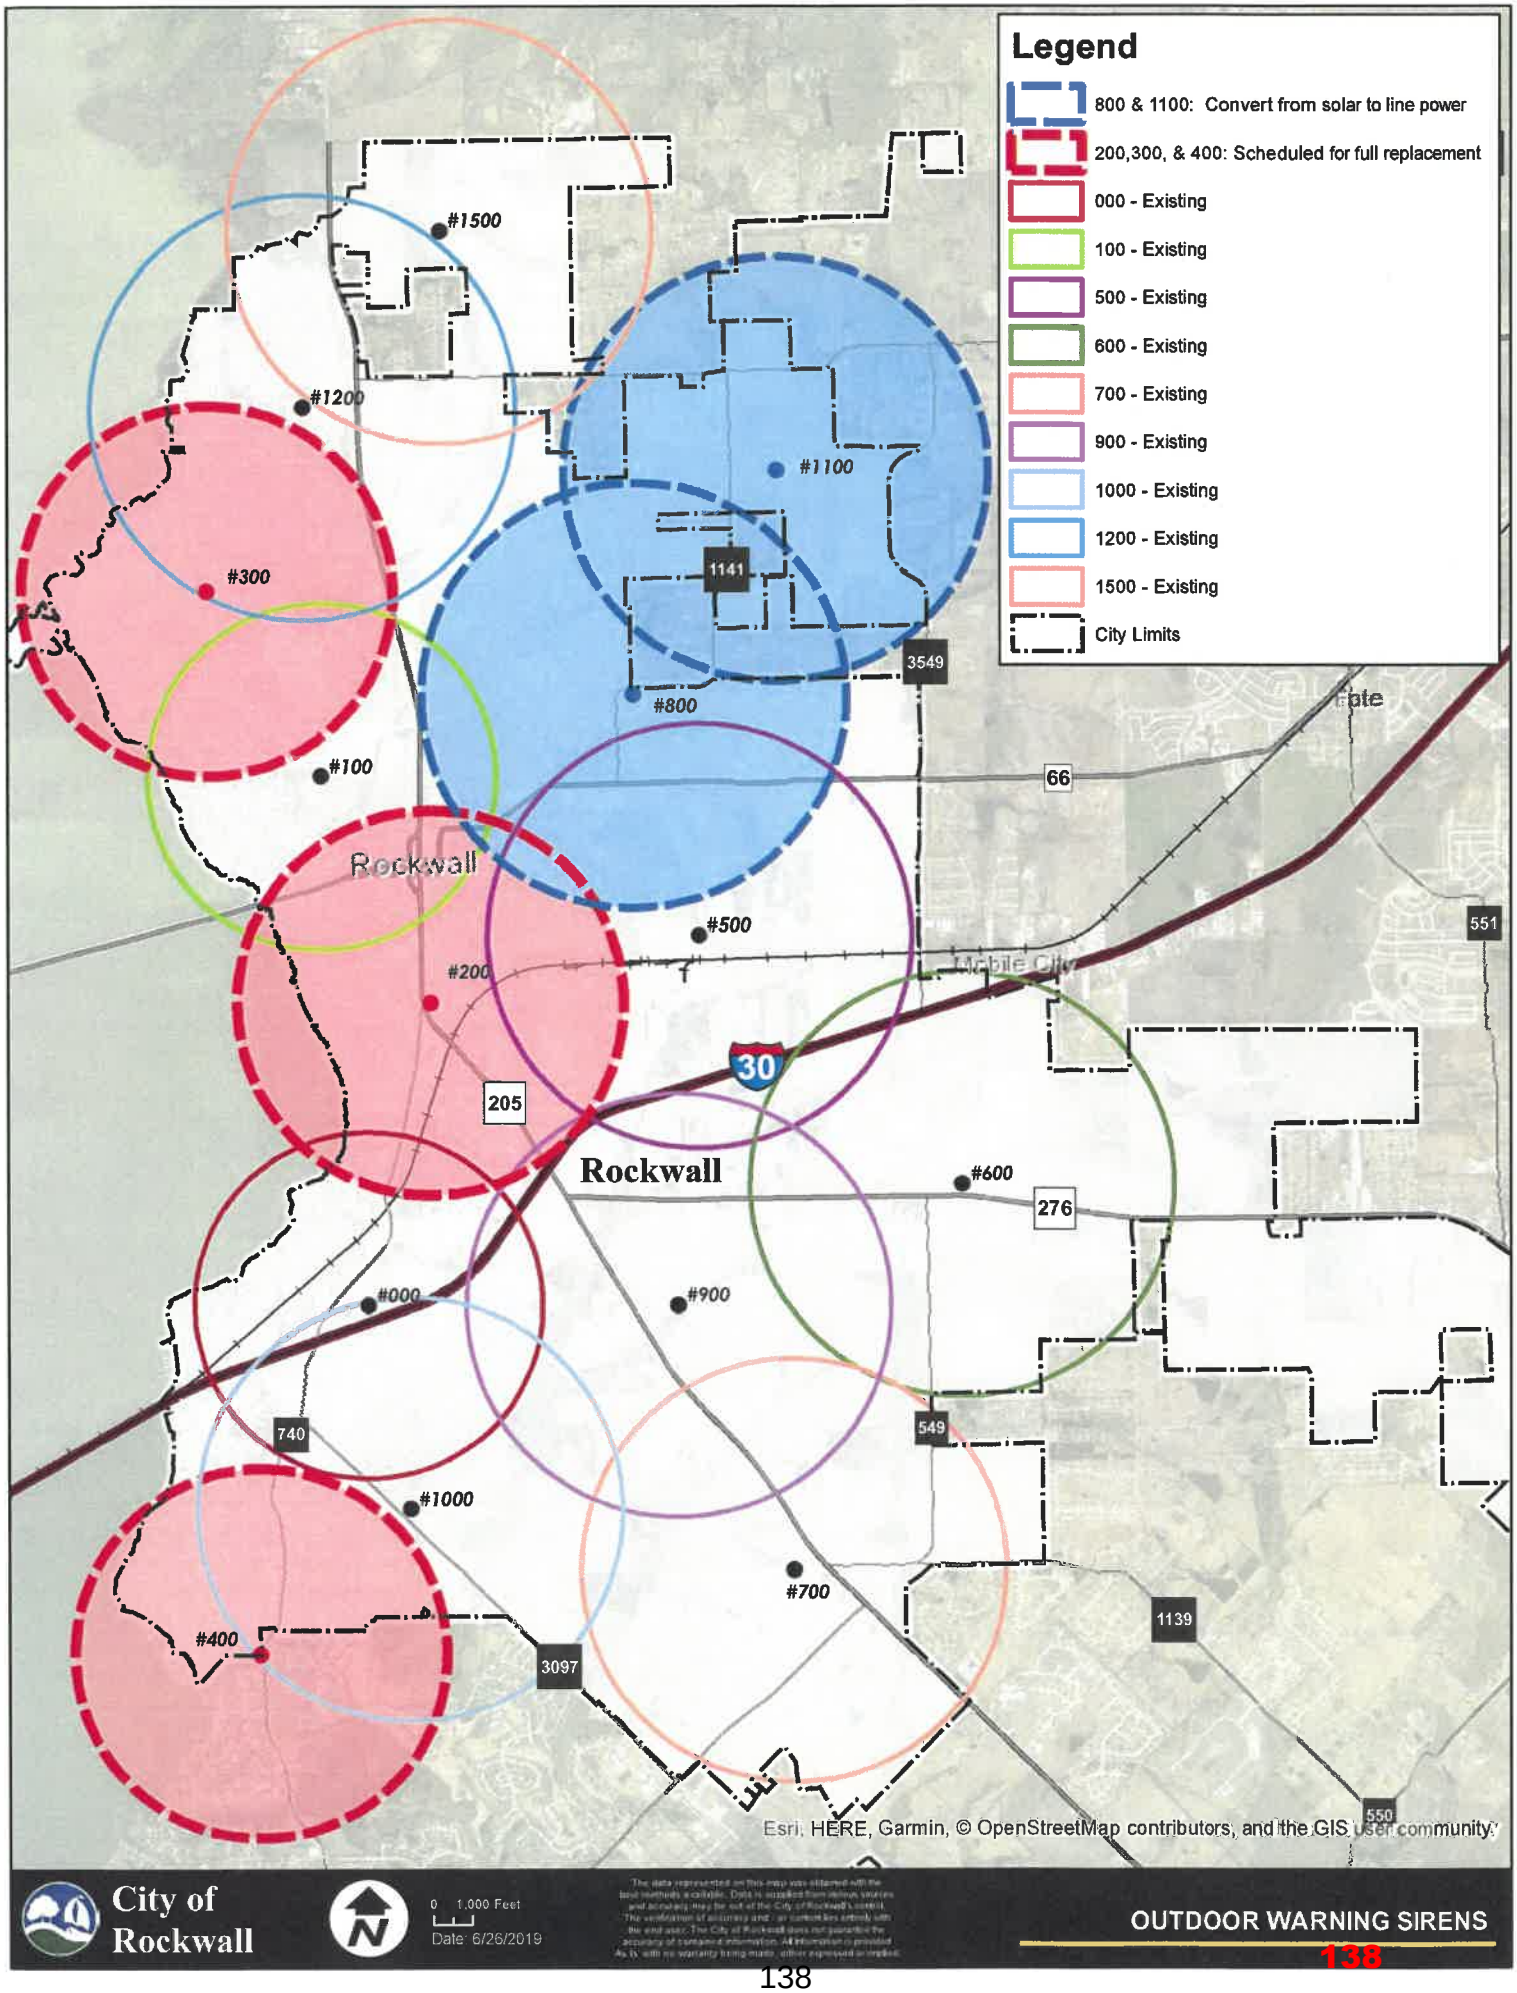
SUBJECT: **Replacement of Outdoor Emergency Warning Sirens**

The City of Rockwall currently has 14 outdoor emergency warning sirens throughout the city. These sirens are intended to warn citizens that an imminent threat of severe weather is approaching and to take cover inside a building.

In 2019, there have been many issues arise with some of the older sirens in the system. The siren on SH 205 / Emma Jane has a horn motor that is dead and the siren is completely inoperable. Two others are located in areas that cover The Shores neighborhood and the Chandlers Landing neighborhood. The Shores horn has electrical issues that has caused a loss of 70% of its normal functionality. The Chandlers siren is old as well. Replacement parts for these sirens are difficult to find and they are often not serviceable due to their age. All three sirens are believed to be more than 30 years old. It is proposed to replace these sirens with new American Signal models that provide 4500 feet diameter of coverage.

Additionally, the City installed 2 new solar powered outdoor emergency warning sirens in 2013 at the intersection of FM 1141 / John King Blvd and at the water tower site at North Country Lane / FM 1141. In the past year, the solar powered cells have experienced issues with providing sufficient power to run the sirens for an entire weather event. The request is to retrofit them to utility line power. This request also includes upgrading the Compulert NexGen Software that monitors and deploys all 14 sites. The existing software is no longer supported by the manufacturer.

Summary of Costs



- Conversion of 2 sirens from solar powered to line power: $18,524

- Extension of utility line power to two sirens ($5,000 each): $10,000
- Replacement of 3 Sirens and Upgraded Software: (Emma Jane, The Shores, and Chandlers): $89,169.28

Total: **$117,693.28**

A coverage map showing the outdoor emergency warning siren system is included for reference. If approved, there is an estimated lead time for the new sirens of between 90-120 days. American Signal Corporation – Mass Notification Solutions is the City's current vendor and their proposal for this project is attached. The City Council is asked to consider approval of funds in the amount of $117,693.28 to be funded from general fund reserves.

Validity: This quotation is valid for 30 days from date of issuance.

Shipping Terms: EXW Factory,8600 W. Bradley Road, Milwaukee Wisconsin 53224 in accordance with Incoterms® 2010.

Installation services: If installation services are provided in contract, all change orders will be authorized in writing before work is performed outside of the scope of the contract. If during installation of a system we encounter rock that cannot be removed by standard drill and pier methods, all work will stop and the customer will be notified of the situation before work resumes. Special equipment required to penetrate the rock or other site conditions as well as relocation of the site/pole will continue on a cost plus basis once authorized in writing by the customer.

These are standard ASC Terms and Conditions and are not reflective of negotiated or proposed contract language under invitations to bid or final requests for proposals. All international orders require a full wire transfer of funds to our bank in Milwaukee, WI.

CITY COUNCIL MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
CC:	Rick Crowley, *City Manager* Mary Smith, *Assistant City Manager* Joey Boyd, *Assistant City Manager*
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	July 15, 2019
SUBJECT:	Legislative Update for Planning and Zoning Related Bills

During the 86th Legislative Session several planning and zoning related bills were approved by the legislature that have major impacts to the City's codes. These bills could affect how the community grows and develops in the future. In order to amend the City's ordinances to address the new laws prior to their effective dates (*i.e. September 1, 2019*), City staff has prepared a synopsis of each of the major bills for the City Council's review. In addition, staff has provided a summary of each of the bills' perceived impacts to the City of Rockwall, the actions necessary to change the codes to address the new laws, and several strategies that the City Council may consider when directing staff to make the necessary changes. Staff has also placed the full text for each bill in the attached packet for the City Council's review. At the end of this memorandum, staff has included several questions for the City Council to answer that will assist staff in the update.

Planning Related Bills Approved by Legislature

- *HB347 (Annexation)*: This bill effectively eliminates the City of Rockwall's ability to unilaterally annex property located within the City's Extraterritorial Jurisdiction (ETJ). More specifically, the bill eliminates the *Tier 1* and *Tier 2* distinction for cities and counties, which was created by SB6 during the 84th Legislative Session.

  Effective Date of HB347: May 24, 2019

  What does HB347 mean for the City of Rockwall?

  HB347 restricts the City's ability to unilaterally annex property, and all future annexations in the City will be voluntary to some degree (*i.e. property owner initiated or through an election of all property owners in the proposed annexation area*).

  Strategies or Actions as a Result of HB3167

  There are no strategies or code amendments associated with the implementation of this bill.

- *HB2439 (Building Materials and Methods)*: This bill effectively restricts a City from enforcing or adopting regulations that prohibit or limit -- *directly or indirectly* -- the use or installation of a building product or material in the construction or renovation of a residential or commercial building that is already regulated by a *National Model Code* (*i.e. the International Building Code*). The bill does allow for certain exclusions including:

  (1) An ordinance or other regulation that regulates outdoor lighting for the purpose of reducing light pollution.

(2) A building located in a place or area designated for its historical, cultural, or architectural importance and significance that a municipality may regulate under Section 211.003(b) of the Texas Local Government Code (TLGC) if: [*1*] the municipality is a certified local government, [*2*] the municipality has an applicable landmark ordinance.
(3) A building located in a place or area designated for its historical, cultural, or architectural importance and significance by a governmental entity, if designated before April 1, 2019.
(4) A building listed on the National Register of Historic Places or designated as a landmark by a governmental entity.
(5) A building located in an area designated for development, restoration, or preservation in a Main Street City under the Main Street Program established under Section 442.014 of the TLGC.

In addition, the bill states that the Attorney General or an aggrieved party may file an action in district court to enjoin a violation or threatened violation of Section 3000.002, and that the court may grant appropriate relief.

Effective Date of HB2439: September 1, 2019

What does HB2439 mean for the City of Rockwall?

The language used in HB2439 is broad and is targeted at preempting a City's ability to regulate development through a zoning ordinance. For the City of Rockwall, the bill will restrict the ability to regulate building materials (*i.e. requiring masonry materials*) through the Unified Development Code; however, the exceptions may continue to allow the City to regulate building materials in certain areas. After conferring with the City Attorney, staff believes the bill will continue to allow the City the ability to regulate building materials in the current manner in the City's various overlay districts (*based on Exception #3 above*), the Downtown (DT) District (*based on Exception #5 above*), the Old Town Rockwall (OTR) Historic District and Planned Development District 50 (PD-50) (*based on Exception #2 above*), the City's locally designated landmarks (*based on Exception #4 above*), Planned Development District 32 (PD-32) (*based on Exception #3 above*), and through future Specific Use Permit (SUP) ordinances. There are still some questions as to whether or not the bill will have an effect on the City's existing Planned Development Districts; however, the City Attorney has stated a belief that state law would preempt these ordinances. There is also some ambiguity on if the City will be able to -- *with the owner(s)/applicant(s) permission* -- be able to regulate building materials through future Planned Development Districts. Much of the uncertainty of this bill will be solved when/if a City gets challenged based on their interpretation of the bill. Staff should note that this bill also has implications on the City's ability to adopt local amendments to the International Building Code (IBC).

For the City's future development, this bill has implications associated with:

(1) *Residential Accessory Buildings*. All residential accessory buildings adhering to the size requirements would be permitted to be constructed out of metal.
(2) *Residential Structures*. Mobile and modular homes would be permitted within the City limits in areas that are not listed in the above exceptions. This may also include the Lake Rockwall Estates Subdivision, which has been transitioning largely due to the one (1) time replacement on mobile and modular homes required by Planned Development District 70 (PD-70). Residential structures that represent infill development in areas of the City that are not covered by deed restrictions would be permitted to be built using materials that were not previously permitted in these subdivisions. This could change the established aesthetics in these areas and could have a potential impact on property values. Materials previously prohibited, such as logistics containers, would also be permitted to be used in the construction of new homes.
(3) *Non-Residential Structures*. The City's major roadways are currently covered by the overlay districts, which it appears will be largely unaffected by the requirements of HB2439; however, many of the commercial areas outside of the overlay districts are adjacent to residential subdivisions. Since non-residential structures -- *not situated within the areas listed in the above*

exceptions -- would be exempted from the building material standards, this could mean more metal buildings adjacent to residentially zoned properties.

Strategies or Actions as a Result of HB2439

Based on the approval of this bill staff will be required to amend large portions of the City's Unified Development Code. Through these amendments there are several opportunities or strategies, that the City Council may choose to adopt, which would continue to ensure the City is demanding the highest quality development in lieu of the restrictions of HB2439. Some of these include:

(1) Increasing the anti-monotony standards for residential properties. This is currently being implemented in the City's Planned Development District ordinances and could be implemented in the *General Residential District Standards*.
(2) The use of Specific Use Permits (SUP's) [*which the City Attorney has stated that the City could require building material requirements through*] could be expanded. This could also be reapplied to residential accessory structures (*as was previously done prior to the update of the code by Ordinance No. 18-47*).
(3) Apply the overlay district standards -- *with the exception of the building material standards* -- to all development within the City.
(4) Make it more difficult to obtain variances and exceptions. This could be achieved in several ways including: [*1*] making all variances and exceptions subject to a supermajority vote, [*2*] creating a compensatory requirement whereby in order to request a variance the applicant is required to off-set the variance through a list of compensatory measures (*e.g. increased landscaping, increased setbacks, increased landscape buffers, structure/shared parking -- staff is also exploring if the use of building materials could be incorporated in this section since it would be a voluntary selection by the applicant*), and/or [*3*] reducing the number of exceptions and variances approved.
(5) Increase the landscaping standards and make the overlay district landscape standards applicable citywide. Increase the number of trees required in landscape buffers.

DISCLAIMER: These strategies are not meant to directly or indirectly prohibit the use or installation of a building product or material, but rather ensure high quality development in the City.

Staff should note that any of these measures would be discretionary to the City Council and staff would only pursue these measures at the City Council's direction.

- *HB3167 (Development Applications)*: This bill makes numerous changes to how City's process and approve site plan and platting applications. A summary of the specific implications of this bill are as follows:

(1) Puts a 30-day "shot clock" on the approval of all site plans and plats. For site plans this means that the Planning and Zoning Commission is required to approve, approve with conditions, or deny a site plan application within 30-days of the application being filed. For plats, the Planning and Zoning Commission has 30-days to forward a recommendation to the City Council, which then has 30-days from this action to approve, approve with conditions, or deny the plat.
(2) The 30-day "shot clock" may only be extended by the applicant for an additional 30-days if the applicant requests in writing an extension to the deadline and the municipal authority or governing body approves such extension request.
(3) If a site plan or plat is approved with condition or denied by the municipal authority, staff is required to provide a written letter stating all conditions of approval or the reason for disapproval that clearly articulates each condition or reason for disapproval citing the section of the code or law for which the condition or reason for disapproval originates (*i.e. the conditions cannot be arbitrary*).
(4) If a site plan or plat is approved with condition or denied by the municipal authority, the applicant is permitted to respond to staff's written letter (*required in #3 above*) within an undetermined

amount of time (*i.e. the municipal authority is not permitted to set a deadline*). If the municipal authority receives a response from an applicant, the municipal authority is required to respond no later than 15-days from receipt of the response, stating approval if the response adequately address the issues or disapproval stating the reason for each disapproval.

(5) If a site plan or plat is approved by the municipal authority, the site plan or plat is endorsed with a certificate indicating the approval.

(6) The municipal authority responsible for approving plats or the governing body of the municipality may not request or require an applicant to waive a deadline or other approval procedure.

(7) In a legal action challenging a disapproval of a plan or plat, the City has the burden of proving by clear and convincing evidence that the disapproval meets the requirements of the subdivision platting law or any applicable case law, and the court may not use a deferential standard.

Effective Date of HB3167: September 1, 2019

What does HB3167 mean for the City of Rockwall?

Moving forward HB3167 will not affect the City's platting process, as plats are typically approved with condition within 30-days; however, the City will be required to remove the 30-day waiver that is currently on the development application. For plats, the City will have to start stamping and signing all plats (*i.e. master plats and preliminary plats*) with the same certificate that replats and final plats are currently being stamped with. The real effect of HB3167 is in the process in which the City currently approves site plans. The purpose of this law is to accelerate the approval process of site plans; however, for the City of Rockwall this removes much of the flexibility that staff uses to facilitate development request (*i.e. approving all site plans by conditional approval within 30-days and clearing up development issues on the back end*), and is more likely to make the process more difficult on applicants. This is tied to several aspects of the bill including:

(1) The rigid time period for acting on a site plan. Currently, applicants are able to submit site plans at their convenience and staff has not taken a rigid approach to application deadlines (*i.e. staff takes site plan applications before and after the submittal deadline*). Moving forward all site plans will have to be submitted on the deadline date with no early or late applications being accepted. This will be necessary to ensure that action is taken on all site plans within 30-days without exception.

(2) The Planning and Zoning Commission can only approve, approve with condition, or deny a site plan. This means that the Planning and Zoning Commission cannot table a case to request additional information. In circumstances where additional information (*e.g. Traffic Impact Analysis*) is required, the Planning and Zoning Commission will be required to deny the application, and the applicant will be required to resubmit the site plan at the next submittal date.

(3) Due to the laborious requirements associated with approving site plans with conditions under HB3167, staff will be required to deny any site plan that does not return comments on the date required to take the site plan forward. Currently, the City's approval process operates on a 30-day cycle, which makes it difficult for applicants to return all of staff's comments in time to make the Planning and Zoning Commission meeting date. Under the current process staff has been taking these site plans forward for conditional approval to help facilitate the applicant's request in a timely manner. Moving forward staff will be required to deny these requests for not meeting the requirements, and the applicant will be required to resubmit a new application at the next submittal deadline.

In addition, this bill will also require all site plans be stamped with a certificate and signed by the Planning and Zoning Commission chairman. Despite these requirements, staff will continue to look for ways to facilitate all requests in a timely manner; however, in certain cases applicants may be submitting and resubmitting a site plan request multiple times, which will extend the approval process beyond the desired 30-day period.

Strategies or Actions as a Result of HB3167

In order to bring the City's codes and applications into compliance with the requirements of HB3167, staff will need to make amendments to: [1] Chapter 38, *Subdivisions*, of the Municipal Code of Ordinances, [2] Article XI, *Zoning-Related Applications*, of the Unified Development Code (UDC), and [3] the Development Application. Beyond these amendments, there really are no strategies that staff can put forth to address the changes associated with HB3167 with the exception of changing the City's site plan process and discontinuing approving site plans conditionally. To make it easier on the Planning and Zoning Commissioners, staff intends on outlining what actions are required by the Planning and Zoning Commission on all future site plan memos. Staff will also include what options the Planning and Zoning Commission has with regard to each action (*i.e. approved, approve with condition or denial*).

Questions for the City Council

(1) Given the ambiguity associated with HB2439 and the possibility for legal challenge, is the City Council comfortable allowing staff to continue to enforce building material restrictions in the City's overlay districts? Planned Development Districts?

(2) Does the City Council want staff to explore amending the *Permissible Use Charts* in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) to increase the use of Specific Use Permits (SUP's)? Require a SUP for residential accessory buildings?

(3) Does the City Council want staff to amend the City's general development standards for residential and/or non-residential development to be more restrictive (*e.g. increased anti-monotony, development standards similar to the overlay district standards applied citywide, increased landscaping requirements*)?

(4) Does the City Council want staff to create compensatory measures for variances and exceptions, and/or change the voting requirements for variances and exceptions?

AN ACT

relating to consent annexation requirements.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

ARTICLE 1. REPEAL OF TIER SYSTEM

SECTION 1.01. The following provisions of Chapter 43, Local Government Code, are repealed:

(1) Sections 43.001(2), (3), (4), and (5);
(2) Section 43.011;
(3) Subchapter B;
(4) Section 43.0505(b);
(5) Section 43.052;
(6) Section 43.053;
(7) Section 43.056(q);
(8) Section 43.0561;
(9) Section 43.0562;
(10) Section 43.0563;
(11) Section 43.0564;
(12) Section 43.061(b);
(13) Section 43.066;
(14) Section 43.067;
(15) Section 43.068;
(16) Section 43.069;
(17) Section 43.0751(o);
(18) Section 43.0752;
(19) Section 43.103;
(20) Section 43.105; and
(21) Subchapter Y.

SECTION 1.02. The heading to Subchapter C-2, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C-2. GENERAL ANNEXATION AUTHORITY AND PROCEDURES REGARDING CONSENT ANNEXATIONS[~~: TIER 2 MUNICIPALITIES~~]

SECTION 1.03. The heading to Subchapter C-3, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C-3. ANNEXATION OF AREA ON REQUEST OF OWNERS[~~: TIER 2 MUNICIPALITIES~~]

SECTION 1.04. The heading to Subchapter C-4, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C-4. ANNEXATION OF AREAS WITH POPULATION OF LESS THAN 200 BY PETITION [~~: TIER 2 MUNICIPALITIES~~]

SECTION 1.05. The heading to Subchapter C-5, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C-5. ANNEXATION OF AREAS WITH POPULATION OF AT LEAST 200 BY ELECTION [~~: TIER 2 MUNICIPALITIES~~]

SECTION 1.06. Section 43.1025(c), Local Government Code, is amended to read as follows:

(c) The area described by Subsection (b) may be annexed under the requirements prescribed by Subchapter C-3, C-4, or C-5, as applicable [~~to a tier 2 municipality~~], but the annexation may not occur unless each municipality in whose extraterritorial jurisdiction the area may be located:

(1) consents to the annexation; and
(2) reduces its extraterritorial jurisdiction over the area as provided by Section 42.023.

SECTION 1.07. Section 43.1211, Local Government Code, is amended to read as follows:

Sec. 43.1211. USE OF CONSENT PROCEDURES [~~AUTHORITY OF CERTAIN TIER 2 MUNICIPALITIES~~] TO ANNEX FOR LIMITED PURPOSES. Except as provided by Section 43.0751, beginning December 1, 2017, a [~~tier 2~~] municipality described by Section 43.121(a) may annex an area for the limited purposes of applying its planning, zoning, health, and safety ordinances in the area using the procedures

13

under Subchapter C-3, C-4, or C-5, as applicable.

ARTICLE 2. CONFORMING CHANGES

SECTION 2.01. The following provisions of the Special District Local Laws Code are repealed:

(1) Section 8374.252(a);
(2) Section 8375.252(a);
(3) Section 8376.252(a);
(4) Section 8377.252(a);
(5) Section 8378.252(a);
(6) Section 8382.252(a);
(7) Section 8383.252(a);
(8) Section 8384.252(a);
(9) Section 8385.252(a); and
(10) Section 8477.302(a).

SECTION 2.02. Section 43.0116(a), Local Government Code, is amended to read as follows:

(a) Notwithstanding any other law and subject to Subsection (b), a municipality may annex all or part of the area located in an industrial district designated by the governing body of the municipality under Section 42.044 under the procedures prescribed by Subchapter C-1 [~~the requirements applicable to a tier 1 municipality~~].

SECTION 2.03. The heading to Subchapter C, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C. LIMITATIONS AND REQUIREMENTS REGARDING ANNEXATIONS EXEMPTED FROM CONSENT ANNEXATION PROCEDURES [~~PROCEDURE FOR AREAS ANNEXED UNDER MUNICIPAL ANNEXATION PLAN: TIER 1 MUNICIPALITIES~~]

SECTION 2.04. Section 43.0505(a), Local Government Code, is amended to read as follows:

(a) This [~~Except as provided by Subsection (b), this~~] subchapter applies only to an annexation under Subchapter C-1 [~~a tier 1 municipality~~].

SECTION 2.05. Sections 43.056(a), (b), (j), and (k), Local Government Code, are amended to read as follows:

(a) This section applies to a service plan under Section 43.065 [~~Before the first day of the 10th month after the month in which the inventory is prepared as provided by Section 43.053, the municipality proposing the annexation shall complete a service plan that provides for the extension of full municipal services to the area to be annexed. The municipality shall provide the services by any of the methods by which it extends the services to any other area of the municipality~~].

(b) The service plan, which must be completed [~~in the period provided by Subsection (a)~~] before the annexation, must include a program under which the municipality will provide full municipal services in the annexed area no later than 2-1/2 years after the effective date of the annexation, in accordance with Subsection (e), unless certain services cannot reasonably be provided within that period and the municipality proposes a schedule for providing those services, and must include a list of all services required by this section to be provided under the plan. If the municipality proposes a schedule to extend the period for providing certain services, the schedule must provide for the provision of full municipal services no later than 4-1/2 years after the effective date of the annexation. However, under the program if the municipality provides any of the following services within the corporate boundaries of the municipality before annexation, the municipality must provide those services in the area proposed for annexation on the effective date of the annexation of the area:

(1) police protection;
(2) fire protection;
(3) emergency medical services;
(4) solid waste collection, except as provided by Subsection (o);
(5) operation and maintenance of water and wastewater facilities in the annexed area that are not within the service area of another water or wastewater utility;

14

(6) operation and maintenance of roads and streets, including road and street lighting;

(7) operation and maintenance of parks, playgrounds, and swimming pools; and

(8) operation and maintenance of any other publicly owned facility, building, or service.

(j) The proposed service plan must be made available for public inspection and explained to the inhabitants of the area at the public hearings held under Section 43.063 [~~43.0561~~]. The plan may be amended through negotiation at the hearings, but the provision of any service may not be deleted. On completion of the public hearings, the service plan shall be attached to the ordinance annexing the area and approved as part of the ordinance.

(k) On approval by the governing body, the service plan is a contractual obligation that is not subject to amendment or repeal except that if the governing body determines at the public hearings required by this subsection that changed conditions or subsequent occurrences make the service plan unworkable or obsolete, the governing body may amend the service plan to conform to the changed conditions or subsequent occurrences. An amended service plan must provide for services that are comparable to or better than those established in the service plan before amendment. Before any amendment is adopted, the governing body must provide an opportunity for interested persons to be heard at public hearings called and held in the manner provided by Section 43.063 [~~43.0561~~].

SECTION 2.06. The heading to Subchapter C-1, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C-1. ANNEXATION PROCEDURE FOR AREAS EXEMPTED FROM CONSENT [~~MUNICIPAL~~] ANNEXATION PROCEDURES [~~PLAN: TIER 1 MUNICIPALITIES~~]

SECTION 2.07. Section 43.061(a), Local Government Code, is amended to read as follows:

(a) Unless otherwise specifically provided by this chapter or another law [~~Except as provided by Subsection (b)~~], this subchapter applies only to an annexation under:

(1) Section 43.0115 (Enclave);

(2) Section 43.0116 (Industrial District);

(3) Section 43.012 (Area Owned by Type-A Municipality);

(4) Section 43.013 (Navigable Stream);

(5) Section 43.0751(h) (Strategic Partnership);

(6) Section 43.101 (Municipally Owned Reservoir);

(7) Section 43.102 (Municipally Owned Airport); and

(8) Section 43.1055 (Road and Right-of-Way) [~~area that is proposed for annexation by a tier 1 municipality and that is not required to be included in a municipal annexation plan under Section 43.052(h)~~].

SECTION 2.08. Section 43.062(b), Local Government Code, is amended to read as follows:

(b) This subsection applies only to an area that contains fewer than 100 separate tracts of land on which one or more residential dwellings are located on each tract [~~described by Section 43.052(h)(1)~~]. Before the 30th day before the date of the first hearing required under Section 43.063, a municipality shall give written notice of its intent to annex the area to:

(1) each property owner in an area proposed for annexation, as indicated by the appraisal records furnished by the appraisal district for each county in which the area is located;

(2) each public entity[~~, as defined by Section 43.053,~~] or private entity that provides services in the area proposed for annexation, including each:

(A) municipality, county, fire protection service provider, including a volunteer fire department, and emergency medical services provider, including a volunteer emergency medical services provider; and

(B) municipal utility district, water control and improvement district, or other district created under Section

52, Article III, or Section 59, Article XVI, Texas Constitution; and

(3) each railroad company that serves the municipality and is on the municipality's tax roll if the company's right-of-way is in the area proposed for annexation.

SECTION 2.09. Section 43.0715(c), Local Government Code, is amended to read as follows:

(c) At the time notice of the municipality's intent to annex the land within the district is first given in accordance with Section [~~43.052,~~] 43.0683[~~,~~] or 43.0693, as applicable, the municipality shall proceed to initiate and complete a report for each developer conducted in accordance with the format approved by the Texas Commission on Environmental Quality for audits. In the event the municipality is unable to complete the report prior to the effective date of the annexation as a result of the developer's failure to provide information to the municipality which cannot be obtained from other sources, the municipality shall obtain from the district the estimated costs of each project previously undertaken by a developer which are eligible for reimbursement. The amount of such costs, as estimated by the district, shall be escrowed by the municipality for the benefit of the persons entitled to receive payment in an insured interest-bearing account with a financial institution authorized to do business in the state. To compensate the developer for the municipality's use of the infrastructure facilities pending the determination of the reimbursement amount, all interest accrued on the escrowed funds shall be paid to the developer whether or not the annexation is valid. Upon placement of the funds in the escrow account, the annexation may become effective. In the event a municipality timely escrows all estimated reimbursable amounts as required by this subsection and all such amounts, determined to be owed, including interest, are subsequently disbursed to the developer within five days of final determination in immediately available funds as required by this section, no penalties or interest shall accrue during the pendency of the escrow. Either the municipality or developer may, by written notice to the other party, require disputes regarding the amount owed under this section to be subject to nonbinding arbitration in accordance with the rules of the American Arbitration Association.

SECTION 2.10. Sections 43.0751(b) and (h), Local Government Code, are amended to read as follows:

(b) The governing bodies of a municipality and a district may negotiate and enter into a written strategic partnership agreement for the district by mutual consent. [~~The governing body of a municipality, on written request from a district included in the municipality's annexation plan under Section 43.052, shall negotiate and enter into a written strategic partnership agreement with the district. A district included in a municipality's annexation plan under Section 43.052:~~

[~~(1) - - may not submit its written request before the date of the second hearing required under Section 43.0561; and~~

[~~(2) - - must submit its written request before the 61st day after the date of the second hearing required under Section 43.0561.~~]

(h) On the full-purpose annexation conversion date set forth in the strategic partnership agreement pursuant to Subsection (f)(5), the land included within the boundaries of the district shall be deemed to be within the full-purpose boundary limits of the municipality without the need for further action by the governing body of the municipality. The full-purpose annexation conversion date established by a strategic partnership agreement may be altered only by mutual agreement of the district and the municipality. However, nothing herein shall prevent the municipality from terminating the agreement and instituting proceedings to annex the district, on request by the governing body of the district, on any date prior to the full-purpose annexation conversion date established by the strategic partnership agreement

under the procedures prescribed by Subchapter C-1 [~~applicable to a tier 1 municipality~~]. Land annexed for limited or full purposes under this section shall not be included in calculations prescribed by Section 43.055(a).

SECTION 2.11. Section 43.07515(a), Local Government Code, is amended to read as follows:

(a) A municipality may not regulate under Section 43.0751 [~~or 43.0752~~] the sale, use, storage, or transportation of fireworks outside of the municipality's boundaries.

SECTION 2.12. Section 43.101(c), Local Government Code, is amended to read as follows:

(c) A municipality may annex the [~~The~~] area described by this section [~~may be annexed~~] without the consent of any owners or residents of the area under the procedures prescribed by Subchapter C-1 [~~applicable to a tier 1 municipality by:~~

[~~(1) a tier 1 municipality; and~~

[~~(2)~~] if there are no owners other than the municipality or residents of the area[~~, a tier 2 municipality~~].

SECTION 2.13. Section 43.102(c), Local Government Code, is amended to read as follows:

(c) A municipality may annex the [~~The~~] area described by this section [~~may be annexed~~] without the consent of any owners or residents of the area under the procedures prescribed by Subchapter C-1 [~~applicable to a tier 1 municipality by:~~

[~~(1) a tier 1 municipality; and~~

[~~(2)~~] if there are no owners other than the municipality or residents of the area[~~, a tier 2 municipality~~].

SECTION 2.14. Section 43.1055, Local Government Code, is amended to read as follows:

Sec. 43.1055. ANNEXATION OF ROADS AND RIGHTS-OF-WAY [~~IN CERTAIN LARGE COUNTIES~~]. Notwithstanding any other law, a [~~tier 2~~] municipality may by ordinance annex a road or the right-of-way of a road on request of the owner of the road or right-of-way or the governing body of the political subdivision that maintains the road or right-of-way under the procedures prescribed by Subchapter C-1 [~~applicable to a tier 1 municipality~~].

SECTION 2.15. Section 43.141(a), Local Government Code, is amended to read as follows:

(a) A majority of the qualified voters of an annexed area may petition the governing body of the municipality to disannex the area if the municipality fails or refuses to provide services or to cause services to be provided to the area:

(1) if the area was annexed under Subchapter C-1 [~~municipality is a tier 1 municipality~~], within the period specified by Section 43.056 or by the service plan prepared for the area under that section; or

(2) if the area was annexed under Subchapter C-3, C-4, or C-5 [~~municipality is a tier 2 municipality~~], within the period specified by the written agreement under Section 43.0672 or the resolution under Section 43.0682 or 43.0692, as applicable.

SECTION 2.16. Section 43.203(b), Local Government Code, is amended to read as follows:

(b) On receipt of the district's petition, the governing body of the municipality shall enter into negotiations with the district for an agreement to alter the status of annexation that must:

(1) specify the period, which may not be less than 10 years beginning on January 1 of the year following the date of the agreement, in which limited-purpose annexation is in effect;

(2) provide that, at the expiration of the period, the district's annexation status will automatically revert to full-purpose annexation without following procedures provided by Section [~~Sections~~] 43.014 [~~and 43.052 through 43.055~~] or any [~~other~~] procedural requirement for annexation not in effect on January 1, 1995; and

(3) specify the financial obligations of the district during and after the period of limited-purpose annexation for:

17

(A) facilities constructed by the municipality that are in or that serve the district;

(B) debt incurred by the district for water and sewer infrastructure that will be assumed by the municipality at the end of the period of limited-purpose annexation; and

(C) use of the municipal sales taxes collected by the municipality for facilities or services in the district.

SECTION 2.17. Section 43.905(a), Local Government Code, is amended to read as follows:

(a) A municipality that proposes to annex an area shall provide written notice of the proposed annexation to each public school district located in the area proposed for annexation within the period prescribed for providing the notice of, as applicable:

(1) the hearing under Section 43.0673; or

(2) the first hearing under Section [~~43.0561,~~] 43.063, [~~43.0673,~~] 43.0683, or 43.0693[~~, as applicable~~].

SECTION 2.18. Sections 43.9051(a) and (b), Local Government Code, are amended to read as follows:

(a) In this section, "public entity" includes a county, fire protection service provider, including a volunteer fire department, emergency medical services provider, including a volunteer emergency medical services provider, or special district described[~~, as that term is defined~~] by Section 43.062(b)(2)(B) [~~43.052~~].

(b) A municipality that proposes to annex an area shall provide to each public entity that is located in or provides services to the area proposed for annexation written notice of the proposed annexation within the period prescribed for providing the notice of, as applicable:

(1) the hearing under Section 43.0673; or

(2) the first hearing under Section [~~43.0561,~~] 43.063, [~~43.0673,~~] 43.0683, or 43.0693[~~, as applicable, to each public entity that is located in or provides services to the area proposed for annexation~~].

ARTICLE 3. HEARING REQUIREMENTS FOR CERTAIN CONSENT ANNEXATIONS

SECTION 3.01. Section 43.0673, Local Government Code, is amended to read as follows:

Sec. 43.0673. PUBLIC HEARING [~~HEARINGS~~]. (a) Before a municipality may adopt an ordinance annexing an area under this subchapter [~~section~~], the governing body of the municipality must conduct one [~~at least two~~] public hearing [~~hearings~~].

[~~(b) The hearings must be conducted not less than 10 business days apart.~~]

(c) During the [~~first~~] public hearing, the governing body:

(1) must provide persons interested in the annexation the opportunity to be heard; and

(2) [~~. During the final public hearing, the governing body~~] may adopt an ordinance annexing the area.

(d) The municipality must post notice of the hearing [~~hearings~~] on the municipality's Internet website if the municipality has an Internet website and publish notice of the hearing [~~hearings~~] in a newspaper of general circulation in the municipality and in the area proposed for annexation. The notice for the [~~each~~] hearing must be:

(1) published at least once on or after the 20th day but before the 10th day before the date of the hearing; and

(2) [~~. The notice for each hearing must be~~] posted on the municipality's Internet website on or after the 20th day but before the 10th day before the date of the hearing and must remain posted until the date of the hearing.

ARTICLE 4. TRANSITION AND EFFECTIVE DATE

SECTION 4.01. (a) Except as provided by Subsections (b) and (c) of this section, the changes in law made by this Act apply only to an annexation of an area that is not final on the effective date of this Act. An annexation of an area that was final before the effective date of this Act is governed by those portions of Chapter 43, Local Government Code, that relate to post-annexation

procedures and requirements in effect immediately before the effective date of this Act, and that law is continued in effect for that purpose.

(b) The changes in law made by this Act do not apply to the annexation of an area for which the governing body of a municipality has adopted a resolution to direct the municipality's city manager to prepare a service plan for the area on or before the effective date of this Act. An annexation of an area for which the governing body adopted a resolution to direct the municipality's city manager to prepare a service plan for the area before the effective date of this Act is governed by Chapter 43, Local Government Code, as it existed on January 1, 2019.

(c) Until the fourth anniversary of the date that final judgment in an action described by this subsection is rendered, the changes in law made by this Act do not apply to an annexation of an area described by this subsection, and an annexation of an area described by this subsection is governed by Chapter 43, Local Government Code, as it existed on January 1, 2019. This subsection applies only to an area that is:

(1) wholly located in a county that:

(A) borders the Gulf of Mexico; and

(B) contains an international border; and

(2) proposed to be annexed by a municipality that is a named party in an action:

(A) involving issues of fact or law relating to the annexation; and

(B) commenced before January 1, 2019.

SECTION 4.02. This Act takes effect immediately if it receives a vote of two-thirds of all the members elected to each house, as provided by Section 39, Article III, Texas Constitution. If this Act does not receive the vote necessary for immediate effect, this Act takes effect September 1, 2019.

A BILL TO BE ENTITLED
AN ACT

relating to certain regulations adopted by governmental entities for the building products, materials, or methods used in the construction or renovation of residential or commercial buildings.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Title 10, Government Code, is amended by adding Subtitle Z to read as follows:

SUBTITLE Z. MISCELLANEOUS PROVISIONS PROHIBITING CERTAIN GOVERNMENTAL ACTIONS

CHAPTER 3000. GOVERNMENTAL ACTION AFFECTING RESIDENTIAL AND COMMERCIAL CONSTRUCTION

Sec. 3000.001. DEFINITIONS. In this chapter:

(1) "National model code" has the meaning assigned by Section 214.217, Local Government Code.

(2) "Governmental entity" has the meaning assigned by Section 2007.002.

Sec. 3000.002. CERTAIN REGULATIONS REGARDING BUILDING PRODUCTS, MATERIALS, OR METHODS PROHIBITED. (a) Notwithstanding any other law and except as provided by Subsection (d), a governmental entity may not adopt or enforce a rule, charter provision, ordinance, order, building code, or other regulation that:

(1) prohibits or limits, directly or indirectly, the use or installation of a building product or material in the construction, renovation, maintenance, or other alteration of a residential or commercial building if the building product or material is approved for use by a national model code published within the last three code cycles that applies to the construction, renovation, maintenance, or other alteration of the building; or

(2) establishes a standard for a building product, material, or aesthetic method in construction, renovation, maintenance, or other alteration of a residential or commercial building if the standard is more stringent than a standard for the product, material, or aesthetic method under a national model code published within the last three code cycles that applies to the construction, renovation, maintenance, or other alteration of the building.

(b) A governmental entity that adopts a building code governing the construction, renovation, maintenance, or other alteration of a residential or commercial building may amend a provision of the building code to conform to local concerns if the amendment does not conflict with Subsection (a).

(c) This section does not apply to:

(1) a program established by a state agency that requires particular standards, incentives, or financing arrangements in order to comply with requirements of a state or federal funding source or housing program;

(2) a requirement for a building necessary to consider the building eligible for windstorm and hail insurance coverage under Chapter 2210, Insurance Code;

(3) an ordinance or other regulation that:

(A) regulates outdoor lighting for the purpose of reducing light pollution; and

(B) is adopted by a governmental entity that is certified as a Dark Sky Community by the International Dark-Sky Association as part of the International Dark Sky Places Program;

(4) an ordinance or order that:

(A) regulates outdoor lighting; and

(B) is adopted under Subchapter B, Chapter 229, Local Government Code, or Subchapter B, Chapter 240, Local Government Code;

(5) a building located in a place or area designated for its historical, cultural, or architectural importance and significance that a municipality may regulate under Section 211.003(b), Local Government Code, if the municipality:

(A) is a certified local government under the National Historic Preservation Act (54 U.S.C. Section 300101 et seq.); or

(B) has an applicable landmark ordinance that meets the requirements under the certified local government program as determined by the Texas Historical Commission;

(6) a building located in a place or area designated for its historical, cultural, or architectural importance and significance by a governmental entity, if designated before April 1, 2019;

(7) a building located in an area designated as a historic district on the National Register of Historic Places;

(8) a building designated as a Recorded Texas Historic Landmark;

(9) a building designated as a State Archeological Landmark or State Antiquities Landmark;

(10) a building listed on the National Register of Historic Places or designated as a landmark by a governmental entity;

(11) a building located in a World Heritage Buffer Zone; and

(12) a building located in an area designated for development, restoration, or preservation in a main street city under the main street program established under Section 442.014.

(d) A municipality that is not a municipality described by Subsection (c)(3)(A) or (B) may adopt or enforce a regulation described by Subsection (a) that applies to a building located in a place or area designated on or after April 1, 2019, by the municipality for its historical, cultural, or architectural importance and significance, if the municipality has the voluntary consent from the building owner.

(e) A rule, charter provision, ordinance, order, building code, or other regulation adopted by a governmental entity that conflicts with this section is void.

Sec. 3000.003. INJUNCTION. (a) The attorney general or an aggrieved party may file an action in district court to enjoin a violation or threatened violation of Section 3000.002.

(b) The court may grant appropriate relief.

(c) The attorney general may recover reasonable attorney's fees and costs incurred in bringing an action under this section.

(d) Sovereign and governmental immunity to suit is waived and abolished only to the extent necessary to enforce this chapter.

Sec. 3000.004. OTHER PROVISIONS NOT AFFECTED. This chapter does not affect provisions regarding the installation of a fire sprinkler protection system under Section 1301.551(i), Occupations Code, or Section 775.045(a)(1), Health and Safety Code.

Sec. 3000.005. SEVERABILITY. If any provision of a rule, charter provision, ordinance, order, building code, or other regulation described by Section 3000.002(a) is held invalid under this chapter, the invalidity does not affect other provisions or applications of the rule, charter provision, ordinance, order, building code, or other regulation that can be given effect without the invalid provision or application, and to this end the provisions of the rule, charter provision, ordinance, order, building code, or other regulation are severable.

SECTION 2. This Act takes effect September 1, 2019.

AN ACT

relating to county and municipal approval procedure for land development applications.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Section 212.001, Local Government Code, is amended by amending Subdivision (2) and adding Subdivision (3) to read as follows:

(2) "Plan" means a subdivision development plan, including a subdivision plan, subdivision construction plan, site plan, land development application, and site development plan.

(3) "Plat" includes a preliminary plat, general plan, final plat, and replat.

SECTION 2. Subchapter A, Chapter 212, Local Government Code, is amended by adding Section 212.0085 to read as follows:

Sec. 212.0085. APPROVAL PROCEDURE: APPLICABILITY. The approval procedures under this subchapter apply to a municipality regardless of whether the municipality has entered into an interlocal agreement, including an interlocal agreement between a municipality and county under Section 242.001(d).

SECTION 3. The heading to Section 212.009, Local Government Code, is amended to read as follows:

Sec. 212.009. APPROVAL PROCEDURE: INITIAL APPROVAL.

SECTION 4. Section 212.009, Local Government Code, is amended by amending Subsections (a), (b), (c), and (d) and adding Subsections (b-1) and (b-2) to read as follows:

(a) The municipal authority responsible for approving plats shall approve, approve with conditions, or disapprove [~~act on~~] a plan or plat within 30 days after the date the plan or plat is filed. A plan or plat is [~~considered~~] approved by the municipal authority unless it is disapproved within that period and in accordance with Section 212.0091.

(b) If an ordinance requires that a plan or plat be approved by the governing body of the municipality in addition to the planning commission, the governing body shall approve, approve with conditions, or disapprove [~~act on~~] the plan or plat within 30 days after the date the plan or plat is approved by the planning commission or is [~~considered~~] approved by the inaction of the commission. A plan or plat is [~~considered~~] approved by the governing body unless it is disapproved within that period and in accordance with Section 212.0091.

(b-1) Notwithstanding Subsection (a) or (b), if a groundwater availability certification is required under Section 212.0101, the 30-day period described by those subsections begins on the date the applicant submits the groundwater availability certification to the municipal authority responsible for approving plats or the governing body of the municipality, as applicable.

(b-2) Notwithstanding Subsection (a) or (b), the parties may extend the 30-day period described by those subsections for a period not to exceed 30 days if:

(1) the applicant requests the extension in writing to the municipal authority responsible for approving plats or the governing body of the municipality, as applicable; and

(2) the municipal authority or governing body, as applicable, approves the extension request.

(c) If a plan or plat is approved, the municipal authority giving the approval shall endorse the plan or plat with a certificate indicating the approval. The certificate must be signed by:

(1) the authority's presiding officer and attested by the authority's secretary; or

(2) a majority of the members of the authority.

22

(d) If the municipal authority responsible for approving plats fails to approve, approve with conditions, or disapprove [~~act on~~] a plan or plat within the prescribed period, the authority on the applicant's request shall issue a certificate stating the date the plan or plat was filed and that the authority failed to act on the plan or plat within the period. The certificate is effective in place of the endorsement required by Subsection (c).

SECTION 5. Subchapter A, Chapter 212, Local Government Code, is amended by adding Sections 212.0091, 212.0093, 212.0095, 212.0096, 212.0097, and 212.0099 to read as follows:

Sec. 212.0091. APPROVAL PROCEDURE: CONDITIONAL APPROVAL OR DISAPPROVAL REQUIREMENTS. (a) A municipal authority or governing body that conditionally approves or disapproves a plan or plat under this subchapter shall provide the applicant a written statement of the conditions for the conditional approval or reasons for disapproval that clearly articulates each specific condition for the conditional approval or reason for disapproval.

(b) Each condition or reason specified in the written statement:

(1) must:

(A) be directly related to the requirements under this subchapter; and

(B) include a citation to the law, including a statute or municipal ordinance, that is the basis for the conditional approval or disapproval, if applicable; and

(2) may not be arbitrary.

Sec. 212.0093. APPROVAL PROCEDURE: APPLICANT RESPONSE TO CONDITIONAL APPROVAL OR DISAPPROVAL. After the conditional approval or disapproval of a plan or plat under Section 212.0091, the applicant may submit to the municipal authority or governing body that conditionally approved or disapproved the plan or plat a written response that satisfies each condition for the conditional approval or remedies each reason for disapproval provided. The municipal authority or governing body may not establish a deadline for an applicant to submit the response.

Sec. 212.0095. APPROVAL PROCEDURE: APPROVAL OR DISAPPROVAL OF RESPONSE. (a) A municipal authority or governing body that receives a response under Section 212.0093 shall determine whether to approve or disapprove the applicant's previously conditionally approved or disapproved plan or plat not later than the 15th day after the date the response was submitted.

(b) A municipal authority or governing body that conditionally approves or disapproves a plan or plat following the submission of a response under Section 212.0093:

(1) must comply with Section 212.0091; and

(2) may disapprove the plan or plat only for a specific condition or reason provided to the applicant under Section 212.0091.

(c) A municipal authority or governing body that receives a response under Section 212.0093 shall approve a previously conditionally approved or disapproved plan or plat if the response adequately addresses each condition of the conditional approval or each reason for the disapproval.

(d) A previously conditionally approved or disapproved plan or plat is approved if:

(1) the applicant filed a response that meets the requirements of Subsection (c); and

(2) the municipal authority or governing body that received the response does not disapprove the plan or plat on or before the date required by Subsection (a) and in accordance with Section 212.0091.

Sec. 212.0096. APPROVAL PROCEDURE: ALTERNATIVE APPROVAL PROCESS. (a) Notwithstanding Sections 212.009, 212.0091, 212.0093, and 212.0095, an applicant may elect at any time to seek approval for a plan or plat under an alternative approval process adopted by a municipality if the process allows for a shorter approval period than the approval process described by Sections 212.009, 212.0091,

23

212.0093, and 212.0095.

(b) An applicant that elects to seek approval under the alternative approval process described by Subsection (a) is not:

(1) required to satisfy the requirements of Sections 212.009, 212.0091, 212.0093, and 212.0095 before bringing an action challenging a disapproval of a plan or plat under this subchapter; and

(2) prejudiced in any manner in bringing the action described by Subdivision (1), including satisfying a requirement to exhaust any and all remedies.

Sec. 212.0097. APPROVAL PROCEDURE: WAIVER PROHIBITED. A municipal authority responsible for approving plats or the governing body of a municipality may not request or require an applicant to waive a deadline or other approval procedure under this subchapter.

Sec. 212.0099. JUDICIAL REVIEW OF DISAPPROVAL. In a legal action challenging a disapproval of a plan or plat under this subchapter, the municipality has the burden of proving by clear and convincing evidence that the disapproval meets the requirements of this subchapter or any applicable case law. The court may not use a deferential standard.

SECTION 6. Section 212.014, Local Government Code, is amended to read as follows:

Sec. 212.014. REPLATTING WITHOUT VACATING PRECEDING PLAT. A replat of a subdivision or part of a subdivision may be recorded and is controlling over the preceding plat without vacation of that plat if the replat:

(1) is signed and acknowledged by only the owners of the property being replatted;

(2) is approved[~~, after a public hearing on the matter at which parties in interest and citizens have an opportunity to be heard,~~] by the municipal authority responsible for approving plats; and

(3) does not attempt to amend or remove any covenants or restrictions.

SECTION 7. Section 212.015, Local Government Code, is amended by adding Subsections (a-1), (f), and (g) and amending Subsection (b) to read as follows:

(a-1) If a proposed replat described by Subsection (a) requires a variance or exception, a public hearing must be held by the municipal planning commission or the governing body of the municipality.

(b) Notice of the hearing required under Subsection (a-1) [~~Section 212.014~~] shall be given before the 15th day before the date of the hearing by:

(1) publication in an official newspaper or a newspaper of general circulation in the county in which the municipality is located; and

(2) by written notice, with a copy of Subsection (c) attached, forwarded by the municipal authority responsible for approving plats to the owners of lots that are in the original subdivision and that are within 200 feet of the lots to be replatted, as indicated on the most recently approved municipal tax roll or in the case of a subdivision within the extraterritorial jurisdiction, the most recently approved county tax roll of the property upon which the replat is requested. The written notice may be delivered by depositing the notice, properly addressed with postage prepaid, in a post office or postal depository within the boundaries of the municipality.

(f) If a proposed replat described by Subsection (a) does not require a variance or exception, the municipality shall, not later than the 15th day after the date the replat is approved, provide written notice by mail of the approval of the replat to each owner of a lot in the original subdivision that is within 200 feet of the lots to be replatted according to the most recent municipality or county tax roll. This subsection does not apply to a proposed replat if the municipal planning commission or the

24

governing body of the municipality holds a public hearing and gives notice of the hearing in the manner provided by Subsection (b).

(g) The notice of a replat approval required by Subsection (f) must include:

(1) the zoning designation of the property after the replat; and

(2) a telephone number and e-mail address an owner of a lot may use to contact the municipality about the replat.

SECTION 8. Subchapter A, Chapter 232, Local Government Code, is amended by adding Section 232.0023 to read as follows:

Sec. 232.0023. APPROVAL PROCEDURE: APPLICABILITY. The plat application approval procedures under this subchapter apply to a county regardless of whether the county has entered into an interlocal agreement, including an interlocal agreement between a municipality and county under Section 242.001(d).

SECTION 9. The heading to Section 232.0025, Local Government Code, is amended to read as follows:

Sec. 232.0025. APPROVAL PROCEDURE: TIMELY APPROVAL OF PLATS AND PLANS.

SECTION 10. Section 232.0025, Local Government Code, is amended by amending Subsections (d), (f), (g), (h), and (i), and adding Subsection (d-1) to read as follows:

(d) Except as provided by Subsection (f), the commissioners court or the court's designee shall approve, approve with conditions, or disapprove [~~take final action on~~] a plat application[~~, including the resolution of all appeals,~~] not later than the 30th [~~60th~~] day after the date the [~~a~~] completed [~~plat~~] application is received by the commissioners court or the court's designee. An application is approved by the commissioners court or the court's designee unless the application is disapproved within that period and in accordance with Section 232.0026.

(d-1) Notwithstanding Subsection (d), if a groundwater availability certification is required under Section 232.0032, the 30-day period described by that subsection begins on the date the applicant submits the groundwater availability certification to the commissioners court or the court's designee, as applicable.

(f) The 30-day [~~60-day~~] period under Subsection (d):

(1) may be extended for a [~~reasonable~~] period not to exceed 30 days, if:

(A) requested and agreed to in writing by the applicant and approved by the commissioners court or the court's designee; or

(B) [~~(2) may be extended 60 additional days if~~] Chapter 2007, Government Code, requires the county to perform a takings impact assessment in connection with the [~~a~~] plat application; and

(2) [~~(3)~~] applies only to a decision wholly within the control of the commissioners court or the court's designee.

(g) The commissioners court or the court's designee shall make the determination under Subsection (f)(1) [~~(f)(2)~~] of whether the 30-day [~~60-day~~] period will be extended not later than the 20th day after the date a completed plat application is received by the commissioners court or the court's designee.

(h) The commissioners court or the court's designee may not require [~~compel~~] an applicant to waive the time limits or approval procedure contained in this subchapter [~~section~~].

(i) If the commissioners court or the court's designee fails to approve, approve with conditions, or disapprove a plat application [~~take final action on the plat~~] as required by this subchapter [~~Subsection (d)~~]:

(1) the commissioners court shall refund the greater of the unexpended portion of any [~~plat~~] application fee or deposit or 50 percent of an [~~a plat~~] application fee or deposit that has been paid;

(2) the [~~plat~~] application is granted by operation of law; and

(3) the applicant may apply to a district court in the

county where the tract of land is located for a writ of mandamus to compel the commissioners court to issue documents recognizing the plat application's [~~plat's~~] approval.

SECTION 11. Subchapter A, Chapter 232, Local Government Code, is amended by adding Sections 232.0026, 232.0027, 232.0028, 232.00285, and 232.0029 to read as follows:

Sec. 232.0026. APPROVAL PROCEDURE: CONDITIONAL APPROVAL OR DISAPPROVAL REQUIREMENTS. (a) A commissioners court or designee that conditionally approves or disapproves of a plat application under this subchapter shall provide the applicant a written statement of the conditions for the conditional approval or the reasons for disapproval that clearly articulates each specific condition for the conditional approval or reason for disapproval.

(b) Each condition or reason specified in the written statement:

(1) must:

(A) be directly related to the requirements of this subchapter; and

(B) include a citation to the law, including a statute or order, that is the basis for the conditional approval or disapproval, if applicable; and

(2) may not be arbitrary.

Sec. 232.0027. APPROVAL PROCEDURE: APPLICANT RESPONSE TO CONDITIONAL APPROVAL OR DISAPPROVAL. After the conditional approval or disapproval of a plat application under Section 232.0026, the applicant may submit to the commissioners court or designee that conditionally approved or disapproved the application a written response that satisfies each condition for the conditional approval or remedies each reason for disapproval provided. The commissioners court or designee may not establish a deadline for an applicant to submit the response.

Sec. 232.0028. APPROVAL PROCEDURE: APPROVAL OR DISAPPROVAL OF RESPONSE. (a) A commissioners court or designee that receives a response under Section 232.0027 shall determine whether to approve or disapprove the applicant's previously conditionally approved or disapproved plat application not later than the 15th day after the date the response was submitted under Section 232.0027.

(b) A commissioners court or designee that conditionally approves or disapproves a plat application following the submission of a response under Section 232.0027:

(1) must comply with Section 232.0026; and

(2) may disapprove the application only for a specific condition or reason provided to the applicant for the original application under Section 232.0026.

(c) A commissioners court or designee that receives a response under Section 232.0027 shall approve a previously conditionally approved or disapproved plat application if the applicant's response adequately addresses each condition for the conditional approval or each reason for the disapproval.

(d) A previously conditionally approved or disapproved plat application is approved if:

(1) the applicant filed a response that meets the requirements of Subsection (c); and

(2) the commissioners court or designee that received the response does not disapprove the application on or before the date required by Subsection (a) and in accordance with Section 232.0026.

Sec. 232.00285. DEVELOPMENT PLAN REVIEW. (a) In this section, "development plan" includes a preliminary plat, preliminary subdivision plan, subdivision construction plan, site plan, general plan, land development application, or site development plan.

(b) Unless explicitly authorized by another law of this state, a county may not require a person to submit a development plan during the plat approval process required by this subchapter. If a county is authorized under another law of this state to require approval of a development plan, the county must comply with the

26

approval procedures under this subchapter during the approval process.

Sec. 232.0029. JUDICIAL REVIEW OF DISAPPROVAL. In a legal action challenging a disapproval of a plat application under this subchapter, the county has the burden of proving by clear and convincing evidence that the disapproval meets the requirements of this subchapter or any applicable case law. The court may not use a deferential standard.

SECTION 12. Section 232.0025(e), Local Government Code, is repealed.

SECTION 13. The change in law made by this Act applies only to a plat application filed on or after the effective date of this Act. A development or plan application filed before the effective date of this Act is governed by the law in effect immediately before the effective date of this Act, and that law is continued in effect for that purpose.

SECTION 14. This Act takes effect September 1, 2019.

TO:	Mayor and City Council
CC:	Rick Crowley, *City Manager* Mary Smith, *Assistant City Manager* Joey Boyd, *Assistant City Manager*
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	July 15, 2019
SUBJECT:	Amendment to Article IX, *Fences*, of Chapter 10, *Building and Building Regulations*, of the Municipal Code of Ordinances

The City's fence standards are located in Article IX, *Fences*, of Chapter 10, *Building and Building Regulations*, of the Municipal Code of Ordinances. Staff is requesting that the City Council consider moving this section to Article VIII, *Landscape Standards*, of the Unified Development Code (UDC) for the purpose of [*1*] bringing the fence standards under the zoning ordinance, [*2*] better distinguishing the standards between residential, commercial, and industrial fences, and [*3*] changing the process for residential front yard fences. By making the proposed changes all variances or exceptions to the fence standards would be able to be acted upon by the Planning and Zoning Commission with the City Council acting as an appeals board. This is similar to how the City currently handles variances and exceptions to the City's *General Residential, Commercial* and *Industrial Design Standards*. If the City Council chooses to direct staff to make the proposed changes, this amendment could be combined with the amendments necessary to address the changes resulting from the 86th Legislative Session. Staff has included a copy of the City's current fence requirements, and will be available at the work session on *July 15, 2019* to answer any questions.

ARTICLE XI, FENCES, CHAPTER 10, BUILDING AND BUILDING REGULATIONS, MUNICIPAL CODE OF ORDINANCES

DIVISION 1: GENERALLY

SECTION 10-402: DEFINITIONS

For the purposes of this article, the term "fence" means any wall or structure of any material, the purpose of which is to provide protection from intrusion, both physical and visual, to prevent escape, mark a boundary, enclose, screen, restrict access to, or decorate any lot, building or structure.

(Ord. No. 04-05, § 1(6-124), 1-20-2004)

SECTION 10-403: PERMIT REQUIRED; APPLICATIONS; FEES

No fence shall be constructed within the city without the owner or person in control of such premises, or his agent or contractor, having secured a permit therefor from the building official or his designee. A fence repair permit shall be required for the replacement of 25 linear feet or more of fencing and/or the replacement of five or more posts. When five or more posts are replaced, replacement posts must be metal posts. Applications shall be made and a permit issued on forms promulgated by the code official for such purpose. The fees for such permits shall be in amounts as established from time to time by resolution of the city council.

(Ord. No. 04-05, § 1(6-125), 1-20-2004)

SECTION 10-404: EXCEPTIONS

The following shall be exceptions to the terms of this article:

(1) Dikes and retaining walls for the purpose of diverting water and retaining soil shall not be considered fences within the terms of this article.
(2) Fences existing and in place at the time of the enactment of the ordinance from which this article is derived shall be excused from the permit provisions hereof. However, such fences shall be maintained to comply with the provisions hereof. Any such fence or any fence in an area annexed by the city after the effective date of the ordinance from which this article is derived shall be subject to the provisions of this article in the event of reconstruction, modification, enlargement, extension, alteration or any construction thereto other than normal maintenance thereof.

(Ord. No. 04-05, § 1(6-132), 1-20-2004)

SECTIONS 10-405—10-423: RESERVED

DIVISION 2: CONSTRUCTION STANDARDS

SECTION 10-424: SPECIAL PERMIT FOR REQUIRED FRONT YARD

(a) No fence shall be constructed in the required front yard of a residential property or of a tract or parcel of land adjacent to I-30 without first being granted a special permit by the city council. The city council may authorize the issuance of a special permit for the construction of a front yard fence subject to the provisions of this division. The city council, in considering and determining action on any request for a special permit, may require from the applicant plans, drawings, and other information concerning the proposed front yard fence. The city council may establish conditions of construction of any fence for which a special permit is authorized. However, no front yard fence proposed in a residential subdivision may be constructed without complying with any approved active deed restrictions for the subdivision.

(1) No fence shall be placed in the required front yard of a residential property in excess of 42 inches in height and constructed of wood or 48 inches in height and constructed of wrought iron, or in a non-residentially zoned area in excess of eight feet in height and shall be constructed of wrought iron. No opaque fences will be allowed in the required front yard.

(b) Exceptions.

(1) Model homes meeting the requirements as follows:

a. The maximum height of front yard fence is not to exceed 42 inches.
b. No opaque fences allowed in the front yard, fences must be 50 percent see-through.
c. The fence must be architecturally harmonious with the development and of split rail, picket, vinyl, or wrought iron.
d. These fences are only temporary and must be removed, or city council approval sought at such time permanent residency will be established.

(2) Single-Family—Estate (SF-E) meeting the requirements as follows:

a. No opaque fences allowed in the front yard, fences must be 50 percent see-through.
b. Front yard fences shall be no more than 48 inches in height.
c. Front yard fences shall be architecturally harmonious with the development, and of split rail, picket, vinyl, wrought iron or painted steel pipe.

(Ord. No. 04-05, § 1(6-126), 1-20-2004; Ord. No. 06-10, § 1(6-126), 3-20-2006; Ord. No. 11-23, § 1, 6-6-2011; Ord. No. 17-15, § 1, 3-20-2017)

SECTION 10-425: STANDARDS; SPECIFICATIONS; PROHIBITIONS

The following regulations shall apply to the construction of fences within the city, except for additional standards or requirements referenced in article V and article X of the Unified Development Code:

(1) No fence, guy wire, brace, light standard, sign, vee arm barbed wire base and arm, or any structure attached to a fence shall protrude over any property line.

(2) No chainlink fence shall be allowed within ten feet of the property lines unless completely screened from adjacent public areas and properties by either structure or solid landscape screening.

(3) Precast solid fencing shall require special approval by the planning and zoning commission.

(4) Fence height requirements. All fence heights shall be measured vertically from the inside natural or mean grade elevation of the yard.

a. No residential fence shall exceed eight feet in height.
b. No nonresidential fence shall exceed 12 feet in height.

(5) Fences may be placed in the required yards, as regulated in this article, and meeting the following conditions:

a. Corner lots in residentially zoned areas which have rear lot lines adjacent to alleys, or other rear lot lines. Fences may be constructed not to exceed eight feet in height along the side yard and rear yard lines as indicated on appendix B, attached to the ordinance from which this section is derived.
b. Corner lots in residentially zoned areas where the rear lot line is adjacent to a side lot line of an adjoining lot. Only fences not exceeding 42 inches in height and meeting the material requirements of a front yard fence in residentially zoned areas shall be constructed beyond the side building line

as indicated on appendix C, attached to the ordinance from which this section is derived. Fences constructed on or behind the building line shall not exceed eight feet in height.

c. Where an alley 15 feet or greater in width intervenes between the above-described lots, or a natural barrier of 15 feet or greater in width exists, such as creeks, railroads or easements where fences are prohibited, a fence not exceeding eight feet in height may be erected on the street side of the property line, indicated on appendix D, attached to the ordinance from which this section is derived.
d. Through lots in residentially zoned areas with street frontage on both the front and rear property line. Fences may be constructed not to exceed eight feet in height along the side yard and rear yard lines on through lots where all lots within the block have a rear yard along the same street frontage, as indicated on appendix E - Example 1, attached to the ordinance from which this section is derived.
e. When both front and rear yards are located along the same street frontage within a block, fences constructed within the designated rear yard shall not exceed 42 inches in height and shall meet the material requirements of a front yard fence in residentially zoned areas, as indicated on appendix E, Example 2, attached to the ordinance from which this section is derived, unless a variance to this request is granted by the zoning board of adjustment, as provided in section 10-447.

(6) Fences may be constructed of materials subject to the provisions of this article and the other codes and ordinances of the city.

a. Permitted materials are wood pickets, chain link, wrought iron, decorative metal (i.e. with the appearance of wrought iron but is made from powder-coated steel, aluminum or covered with a corrosion protection finish), brick, split face CMU blocks, stone, vinyl, fiberglass composite, painted steel pipe where allowed, barbed wire where allowed, concrete with stone face/form liner. Stucco is allowed on residential properties.
b. Any other materials that are not manufactured specifically as fencing materials are prohibited.

(7) Solid wood fencing exceeding 48 inches in height must be constructed using metal post set in concrete, or brick or stone columns.

(8) It shall be unlawful for any person to construct or maintain any electrical fence or electrical attachment of any type, dimension, or composition on any fence within the city. Barbed wire fences may be used without restrictions when in conjunction with agricultural related uses; provided, however, no barbed wire fence shall be located on any platted property that is zoned or used as a residential property. In areas where barbed wire fences are allowed, arms or base and arms with barbed wire not to exceed three strands will be permitted. Concertina/razor wire shall be prohibited. Such attachments will be considered part of the fence for the purposes of determining the maximum height of said fence.

(9) The code official may permit temporary fencing for the purpose of protection or securing of construction sites. The duration of use must be stated in the application for a permit. Barbed wire fences may be allowed for temporary use upon approval of the location, height, and construction by the building official.

(Ord. No. 04-05, § 1(6-127), 1-20-2004; Ord. No. 06-10, § 1(6-127), 3-20-2006; Ord. No. 11-23, § 1, 6-6-2011; Ord. No. 17-15, § 1, 3-20-2017)

SECTION 10-426: SWIMMING POOL, SPA AND HOT TUB/BARRIER REQUIREMENTS

(a) The top of the barrier shall be at least 48 inches (1,219 mm) above grade measured on the side of the barrier which faces away from the swimming pool. The maximum vertical clearance between grade and the bottom of the barrier shall be two inches (51 mm) measured on the side of the barrier which faces away from the swimming pool. Where the top of the pool structure is above grade, such as an aboveground pool, the barrier may be at ground level, such as the pool structure, or mounted on top of the pool structure. Where the barrier is mounted on top of the pool structure, the maximum vertical clearance between the top of the pool structure and the bottom of the barrier shall be four inches (102 mm).

(b) Openings in the barrier shall not allow passage of a four-inch-diameter (102 mm) sphere.

(c) Solid barriers which do not have openings, such as a masonry or stone wall, shall not contain indentations or protrusions except for normal construction tolerances and tooled masonry joints.

(d) Placement of members.

(1) Where the barrier is composed of horizontal and vertical members and the distance between the tops of the horizontal members is less than 45 inches (1,143 mm), the horizontal members shall be located on the swimming pool side of the fence. Spacing between vertical members shall not exceed 1.75 inches (44 mm) in width. Where there are decorative cutouts within vertical members, spacing within the cutouts shall not exceed 1.75 inches (44 mm) in width.
(2) Exception. Boards with a minimum 60-degree angle, cut and placed at the top of the horizontal fence members, may be used on existing fences that will become pool barriers. This exception does not apply to fences adjacent to public right-of-way.

(e) Where the barrier is composed of horizontal and vertical members and the distance between the tops of the horizontal members is 45 inches (1,143 mm) or more, spacing between vertical members shall not exceed four inches (102 mm). Where there are decorative cutouts within vertical members, spacing within the cutouts shall not exceed 1.75 inches (44 mm) in width.

(f) Maximum mesh size for chainlink fences shall be a 2.25-inch (57 mm) square unless the fence is provided with slats fastened at the top or the bottom, which reduce the openings to not more than 1.75 inches (44 mm).

(g) Where the barrier is composed of diagonal members, such as a lattice fence, the maximum opening formed by the diagonal members shall not be more than 1.75 inches (44 mm).

(h) Access gates shall comply with the requirements of subsections (a) through (g) of this section, and shall be equipped to accommodate a locking device. Pedestrian access gates shall open outward away from the pool and shall be self-closing and have a self-latching device. Gates other than pedestrian access gates shall have a self-latching device. Where the release mechanism of the self-latching device is located less than 54 inches (1,372 mm) from the bottom of the gate, the release mechanism and openings shall comply with the following:

(1) The release mechanism shall be located on the pool side of the gate at least three inches (76 mm) below the top of the gate; and
(2) The gate and barrier shall have no opening greater than 0.5 inch (12.7 mm) within 18 inches (457 mm) of the release mechanism.

(i) Where a wall of a dwelling serves as part of the barrier, one of the following conditions shall be met:

(1) The pool shall be equipped with a powered safety cover in compliance with ASTM F1346;
(2) All doors with direct access to the pool through that wall shall be equipped with an alarm which produces an audible warning when the door and/or its screen, if present, are opened. The alarm shall be listed in accordance with UL 2017. The audible alarm shall activate within seven seconds and sound continuously for a minimum of 30 seconds immediately after the door and/or its screen, if present are opened and be capable of being heard throughout the house during normal household activities. The alarm shall automatically reset under all conditions. The alarm shall be equipped with a manual means, such as touchpad or switch, to temporarily deactivate the alarm for a single opening. Deactivation shall last for not more than 15 seconds. The deactivation switch shall be located at least 54 inches (1,372 mm) above the threshold of the door; or
(3) Other means of protection, such as self-closing doors with self-latching devices, which are approved by the city council, shall be acceptable so long as the degree of protection afforded is not less than the protection afforded by subsection (i)(1) or (i)(2) of this section.

(j) Where an aboveground pool structure is used as a barrier or where the barrier is mounted on top of the pool structure and the means of access is a ladder or steps, then:

(1) The ladder or steps shall be capable of being secured, locked or removed to prevent access; or
(2) The ladder or steps shall be surrounded by a barrier which meets the requirements of subsections (a) through (i) of this section. When the ladder or steps are secured, locked or removed, any opening created shall not allow the passage of a four-inch-diameter (102 mm) sphere.

(k) Fence barrier exceptions for spas or hot tubs are as follows:

(1) Safety covers for spas and hot tubs must comply with ASTM F1346-91.
(2) There should be a means of fastening the safety cover to the hot tub or spa, such as key locks, combination locks, special tool, or similar devices.
(3) The safety cover should have a label that provides a warning and message regarding the risk of drowning.
(4) The cover should have been tested to demonstrate that it is capable of supporting the weight of one child (50 pounds) and one adult (225 pounds).
(5) There shall be no openings in the cover itself or at any point where the cover joins the surface of the hot tub or spa that would not allow a four-inch sphere to pass through.
(6) Safety covers are to be installed in accordance with the manufacture's instructions.

(Ord. No. 04-05, § 1(6-128), 1-20-2004; Ord. No. 06-10, § 1(6-128), 3-20-2006; Ord. No. 08-03, § 1(exh. A, art. IX(6-129)), 1-22-2008)

SECTIONS 10-427—10-445: RESERVED

DIVISION 3. - ADMINISTRATION

SECTION 10-446: INSPECTION UPON COMPLETION

Upon completion of a fence constructed under a permit issued by the building official, an inspection shall be made thereof by the building official or his designated representative. If the fence is constructed in accordance with the provisions of this article, the permit, and the application, the building official will issue written notice of acceptance to the permit holder. Any and all fences in the city shall hereafter be constructed under the provisions of this article and existing fences shall be maintained so as to comply with the requirements of this article at all times.

(Ord. No. 04-05, § 1(6-130), 1-20-2004)

SECTION 10-447: VARIANCES

The city council is hereby authorized, after public notice has been given and a public hearing has been held, to hear and decide on requests for variances as it feels will alleviate an unnecessary hardship on a property owner resulting from the literal enforcement of the requirements in this article.

(Ord. No. 17-15, § 1, 3-20-2017)

Editor's note— Ord. No. 17-15, § 1, adopted March 20, 2017, amended the Code by repealing former § 10-447 and adding a new § 10-447. Former § 10-447 pertained to appeals, and derived from Ord. No. 04-05, adopted January 20, 2004.

SECTION 10-448: MAINTENANCE

(a) No person owning, leasing, occupying, or having charge of any premises shall maintain or keep a fence in dilapidated condition that, although functional, creates an unsightly condition that substantially detracts from the appearance of the neighborhood.

(b) Each structural and decorative member of a fence shall be free of deterioration and be compatible in size, material, and appearance with the remainder of the fence. Fences shall not be externally braced in lieu of replacing or repairing posts, columns, or other structural members.

(c) The fence shall not be out of vertical alignment more than one (1) foot from the vertical measured at the top of the fence. Except, however, for fencing four (4) feet or less in height, the vertical alignment shall not be more than six (6) inches from the vertical measured at the top of the fence.

(d) Upon becoming aware of conditions set forth in subsections (a) through (c) of this section, the Neighborhood Improvement Services Representative shall make a determination as to whether the fence condition is a nuisance and should be abated. If so, the Neighborhood Improvement Services Representative shall give notice to such person having control of the premises to remedy such condition within ten days, unless good cause can be shown that additional time is needed to rectify the condition.

(Ord. No. 04-05, § 1(6-133), 1-20-2004; Ord. No. 17-15, § 1, 3-20-2017)

MINUTES

ROCKWALL CITY COUNCIL REGULAR MEETING
Monday, July 01, 2019 - 5:00 PM
City Hall Council Chambers - 385 S. Goliad St., Rockwall, TX 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pruitt called the public meeting to order at 5:00 p.m. with all council members present (Mayor Jim Pruitt, Mayor Pro Tem Dana Macalik, and Council Members Patrick Trowbridge, John Hohenshelt, Kevin Fowler, Bennie Daniels and Trace Johannesen). Also present were City Manager Rick Crowley, Assistant City Managers Mary Smith and Joey Boyd and City Attorney Frank Garza. Mayor Pruitt then read the below listed discussion items into the public record before recessing the meeting to go into Executive Session.

II. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding purchase, sale or lease of real property in the vicinity of Rockwall Municipal Airport, Downtown, IH-30 service Rd. @ T.L. Townsend, and The Harbor as well as city owned land at Fire Station No. 2 pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
2. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).
3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

III. ADJOURN EXECUTIVE SESSION

Council adjourned from Executive Session at 5:33 p.m.

IV. RECONVENE PUBLIC MEETING (6:00 P.M.)

Mayor Pruitt reconvened the public meeting at 6:02p.m. with all seven council members being present.

V. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

Mayor Pro Tem Macalik made a motion that the city accept TXDOT's offer for the right-of-way near the IH-30 service road at T.L. Townsend. Councilmember Hohenshelt seconded the motion, which passed unanimously of those present.

Mayor Pro Tem Macalik moved to decline TXDOT's offer for the sale of land near downtown, more specifically at 501 N. Goliad. Councilmember Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

VI. Invocation and Pledge of Allegiance – Councilmember Hohenshelt

Councilmember Hohenshelt delivered the invocation and led the Pledge of Allegiance.

VII. Open Forum

Mayor Pruitt explained how Open Forum is conducted and asked if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed Open Forum.

VIII. Consent Agenda

1. Consider approval of the minutes from the June 17, 2019 regular city council meeting, and take any action necessary.
2. **Z2019-012** - Consider a request by Ryan Joyce of Michael Joyce Properties on behalf of Jen-Liang Wu of Unison Investment for the approval of an **ordinance** for a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family-1 (SF-1) District land uses on a 61.45-acre tract of land identified as Tract 4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on the west side of Stodghill Road [FM-3549] north of the intersection of Stodghill Road [FM-3549] and Cornelius Road, and take any action necessary **(2nd Reading).**
3. **Z2019-013** - Consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of Dan Bobst of J-BR2, LLC for the approval of an **ordinance** for a PD Development Plan within Planned Development District 32 (PD-32), on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas, situated within the Hillside Sub-District of Planned Development District 32 (PD-32), located within the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive, and take any action necessary **(2nd Reading).**
4. Consider approval of an **ordinance** amending the Code of Ordinances in Ch. 18. Fire Prevention and Protection, Article III. Fire Marshal, Sections 18-66 and 18-67, authorizing the Fire Chief to appoint the Fire Marshal, and take any action necessary **(1st reading).**
5. Consider approval of a contract for professional engineering services with Birkhoff, Hendricks and Carter, L.L.P. to perform the engineering design services for the East Fork Sanitary Sewer Aerial Crossing Rehabilitation Project in an amount not to exceed $52,100.00, to be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.
6. Consider approval of the professional engineering services contract for BW2 Engineers, Inc. to perform the engineering design services for the St Mary's Street, Bost Street, and Sherman Street Water and Wastewater Replacement Project in an amount not to exceed $76,000.00, to be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.
7. Consider approval of the professional engineering services contract for Teague Nall and Perkins, Inc. to perform the engineering design services for the W. Kaufman Street, N. First Street, and W. Rusk Water Replacement Project in an amount not to exceed $60,600.00, to be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.
8. **P2019-027** - Consider a request by Kyle Coleman Harris of Pacheco Koch Consulting Engineers on behalf of Alton Frazier of Channell Commercial Corporation for the approval of a replat for Lot 3, Block A, Channell Subdivision Addition being a 18.762-acre parcel of land identified as Lot

2, Block A, Channell Subdivision Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, addressed as 1700 John King Boulevard, and take any action necessary.

9. **MIS2019-008** - Consider a request by Matthew Mulliken of Mulliken Construction Management, LLC on behalf of Jim Vaudagna of Dallas East for the approval of a parking agreement between two (2) properties identified as Lot 1, Block B & Lot 1, Block C, Rockwall Business Park East Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1280 & 1300 E. Ralph Hall Parkway, and take any action necessary.

Councilmember Johannesen moved to approve the Consent Agenda (#s 1, 2, 3, 4, 5, 6, 7, 8, and 9). Hohenshelt seconded the motion. The ordinance captions were read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-26

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO PLANNED DEVELOPMENT DISTRICT (PD-87) FOR SINGLE FAMILY 1 (SF-1) DISTRICT LAND USES ON THE SUBJECT PROPERTY, BEING A 62.45-ACRE TRACT OF LAND IDENTIFIED AS TRACT 4 OF THE W. M. DALTON SURVEY, ABSTRACT NO. 72, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'* AND DEPICTED HEREIN BY *EXHIBIT 'B'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

CITY OF ROCKWALL
ORDINANCE NO. 19-25

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING *ORDINANCE NO. 14-51 & 17-22* OF PLANNED DEVELOPMENT DISTRICT 32 (PD-32) AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A PD DEVELOPMENT PLAN FOR RETAIL/RESTAURANT PAD SITES ON A 2.893-ACRE PARCEL OF LAND IDENTIFIED AS LOT 1, BLOCK B, HARBOR DISTRICT ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

CITY OF ROCKWALL
ORDINANCE NO. 19-___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE CODE OF ORDINANCES IN CHAPTER 18. FIRE PREVENTION AND PROTECTION, ARTICLE III. FIRE MARSHAL, SECTIONS 18-66 AND 18-67, AUTHORIZING THE FIRE CHIEF TO APPOINT THE FIRE MARSHALL FOR THE CITY; PROVIDING FOR RELATED MATTERS; PROVIDING A SEVERABILITY CLAUSE; PROVIDING A REPEALER CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 7 ayes to 0 nays.

IX. APPOINTMENT ITEMS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

This item was not addressed by Council / no action was taken.

X. PUBLIC HEARING ITEMS

1. **MIS2019-003** - Hold a public hearing to discuss and consider a request by Jose Carmona Lopez for the approval of an On-Site Sewage Facility (OSSF) on a 0.33-acre tract of land identified as Lots 1325 & 1326, Rockwall Lake Properties Development No. 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 75 (PD-75) for Single-Family 7 (SF-7) District land uses, addressed as 424 Nicole Drive, and take any action necessary.

Planning Director, Ryan Miller, provided background information pertaining to this agenda item. He explained that this property is located on the east side of the Lake Rockwall Estates subdivision along Nichol Drive. This street is not currently served by city wastewater service, and it is difficult to extend city service to this property. Notices were sent out to all property owners and residents located within 200'; however, no notices have been received back by staff.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed the public hearing.

Councilmember Trowbridge moved to deny this request. Mayor Pro Tem Macalik seconded the motion.

Lengthy discussion then took place among council members, generally related to the following: city wastewater services, any possible alternatives to this onsite sewage facility, and inspection of septic systems within the city (by Rockwall County, the entity that performs inspection services on behalf of the city). Mr. Crowley, City Manager, indicated that the county has expressed it will not inspect OSSFs on single lots; however, the County has routinely agreed to do inspections on septic systems within the city when they are installed to service more than one lot, specifically (and especially) in Lake Rockwall Estates. Councilmember Daniels sought clarification regarding if this is or is not an aerobic system. Mr. Miller shared that staff is uncertain, as the applicant has not submitted an engineer's report to the city (and is not required to do so until during the permitting stage). Lengthy discussion ensued among Council and staff pertaining to whether or not a lot of this size (so small) and with the soil type can accommodate a septic system. Indication was given that a septic system has to be stamped and sealed by a professional engineer. Councilmember Daniels expressed that he may like to see the Council table action on this item until staff has time to gather additional information and return to Council with a more professional opinion regarding if a septic system is or is not appropriate on these two lots (i.e. can the small size accommodate septic? Is the soil conducive to accommodating a septic system?, etc.). Councilmember Trowbridge generally expressed concern about approving this request, as he seemed to prefer that city wastewater be utilized instead of septic.

Councilmember Trowbridge withdrew his motion, and Macalik withdrew her 'second.' Councilmember Hohehshelt then moved to approve MIS2019-003. Councilmember Fowler seconded the motion, which passed by a vote of 4 ayes with 3 nays (Trowbridge, Macalik and Pruitt).

XI. ACTION ITEMS

1. **MIS2019-005** - Discuss and consider a request by Michael Duval of G & A Consultants on behalf of John Delin of R. W. Ladera, LLC for the approval of an Alternative Tree Mitigation Settlement Agreement for a 28.011-acre parcel of land identified as a Tract 5 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 85 (PD-85), situated within the 205 By-Pass Overlay (205 BY-OV) and the East SH-66 Overlay (E SH-66 OV) District, located at the northeast corner of the intersection of SH-66 and John King Boulevard, and take any action necessary.

Mr. Miller explained that this would be a gated, age-restricted community. He went on to explain the tree mitigation that is required, indicating that the applicant has expressed there is no space on site for additional installation of trees. This request went to the Planning & Zoning Commission, and a 5-2 vote effectively resulted in its denial.

John Delin of Integrity Group / R.W. Ladera came forth and provided comments pertaining to this request. Following extensive, lengthy discussion, Mayor Pruitt moved to settle the tree mitigation with a check to the City for $50,000. Councilmember Trowbridge seconded the motion, which passed by a vote of 7 ayes to 0 nays.

2. Discuss and consider approval of a proposal from American Signal Corporation in the amount of $117,693.28 for replacement of three outdoor emergency warning sirens, hardware, and software to be funded by general fund reserves, and take any action necessary.

Assistant City Manager Joey Boyd provided background information pertaining to this agenda item. Councilmember Hohenshelt then moved to approve the proposal in the amount specified (above). Councilmember Trowbridge seconded the motion, which passed by a vote of 7 ayes to 0 nays.

XII. CITY MANAGER'S REPORT, DEPARTMENTAL REPORTS AND RELATED DISCUSSIONS PERTAINING TO CURRENT CITY ACTIVITIES, UPCOMING MEETINGS, FUTURE LEGISLATIVE ACTIVITIES, AND OTHER RELATED MATTERS.

1. Departmental Reports

Building Inspections Monthly Report - May 2019
Fire Department Monthly Report - May 2019
GIS Division Monthly Report - May 2019
Harbor PD Monthly Report - May 2019
Internal Operations Monthly Report - May 2019
Recreation Monthly Report - May 2019
Rockwall Animal Adoption Center Monthly Report - May 2019
Police Department Monthly Activity Report - May 2019
STAR Transit Monthly Report - May 2019

STAR Transit 3rd Quarter Report

2. City Manager's Report

City Manager Rick Crowley shared brief details about the upcoming 4th of July festivities. There will be a parade, fireworks and a parachute jump at Harry Myers Park. The new household hazardous waste program has been implemented and is going very well so far with city residents.

Mayor Pruitt shared that he will be out on vacation and will not be holding Monday afternoon office hours for the next two, upcoming Mondays. In addition, he shared that the Council has decided to not move forward with purchasing land adjacent to the airport. He asked staff to bring back an ordinance that regulates 'thru-the-fence' agreements and how those comply with law and TXDOT regulations.

XIII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding purchase, sale or lease of real property in the vicinity of Rockwall Municipal Airport, Downtown, IH-30 service Rd. @ T.L. Townsend, and The Harbor as well as city owned land at Fire Station No. 2 pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
2. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).
3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

XIV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

Council did not reconvene into Executive Session following the close of the public meeting agenda. See actions taken at the start of the 6:00 p.m. meeting, as noted above.

XV. ADJOURNMENT

Mayor Pruitt adjourned the meeting at 6:54 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 15th DAY OF JULY, 2019.

ATTEST: **JIM PRUITT, MAYOR**

KRISTY COLE, CITY SECRETARY

MINUTES

ROCKWALL CITY COUNCIL REGULAR MEETING
Monday, July 01, 2019 - 5:00 PM
City Hall Council Chambers - 385 S. Goliad St., Rockwall, TX 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pruitt called the public meeting to order at 5:00 p.m. with all council members present (Mayor Jim Pruitt, Mayor Pro Tem Dana Macalik, and Council Members Patrick Trowbridge, John Hohenshelt, Kevin Fowler, Bennie Daniels and Trace Johannesen). Also present were City Manager Rick Crowley, Assistant City Managers Mary Smith and Joey Boyd and City Attorney Frank Garza. Mayor Pruitt then read the below listed discussion items into the public record before recessing the meeting to go into Executive Session.

II. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding purchase, sale or lease of real property in the vicinity of Rockwall Municipal Airport, Downtown, IH-30 service Rd. @ T.L. Townsend, and The Harbor as well as city owned land at Fire Station No. 2 pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
2. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).
3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

III. ADJOURN EXECUTIVE SESSION

Council adjourned from Executive Session at 5:33 p.m.

IV. RECONVENE PUBLIC MEETING (6:00 P.M.)

Mayor Pruitt reconvened the public meeting at 6:02p.m. with all seven council members being present.

V. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

Mayor Pro Tem Macalik made a motion that the city accept TXDOT's offer for the right-of-way near the IH-30 service road at T.L. Townsend. Councilmember Hohenshelt seconded the motion, which passed unanimously of those present.

Mayor Pro Tem Macalik moved to decline TXDOT's offer for the sale of land near downtown, more specifically at 501 N. Goliad. Councilmember Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

VI. Invocation and Pledge of Allegiance – Councilmember Hohenshelt

Councilmember Hohenshelt delivered the invocation and led the Pledge of Allegiance.

VII. Open Forum

Mayor Pruitt explained how Open Forum is conducted and asked if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed Open Forum.

VIII. Consent Agenda

1. Consider approval of the minutes from the June 17, 2019 regular city council meeting, and take any action necessary.
2. **Z2019-012** - Consider a request by Ryan Joyce of Michael Joyce Properties on behalf of Jen-Liang Wu of Unison Investment for the approval of an **ordinance** for a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family-1 (SF-1) District land uses on a 61.45-acre tract of land identified as Tract 4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on the west side of Stodghill Road [FM-3549] north of the intersection of Stodghill Road [FM-3549] and Cornelius Road, and take any action necessary **(2nd Reading).**
3. **Z2019-013** - Consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of Dan Bobst of J-BR2, LLC for the approval of an **ordinance** for a PD Development Plan within Planned Development District 32 (PD-32), on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas, situated within the Hillside Sub-District of Planned Development District 32 (PD-32), located within the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive, and take any action necessary **(2nd Reading).**
4. Consider approval of an **ordinance** amending the Code of Ordinances in Ch. 18. Fire Prevention and Protection, Article III. Fire Marshal, Sections 18-66 and 18-67, authorizing the Fire Chief to appoint the Fire Marshal, and take any action necessary **(1st reading).**
5. Consider approval of a contract for professional engineering services with Birkhoff, Hendricks and Carter, L.L.P. to perform the engineering design services for the East Fork Sanitary Sewer Aerial Crossing Rehabilitation Project in an amount not to exceed $52,100.00, to be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.
6. Consider approval of the professional engineering services contract for BW2 Engineers, Inc. to perform the engineering design services for the St Mary's Street, Bost Street, and Sherman Street Water and Wastewater Replacement Project in an amount not to exceed $76,000.00, to be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.
7. Consider approval of the professional engineering services contract for Teague Nall and Perkins, Inc. to perform the engineering design services for the W. Kaufman Street, N. First Street, and W. Rusk Water Replacement Project in an amount not to exceed $60,600.00, to be paid for out of 2018-2019 Water and Sanitary Sewer Budget, and take any action necessary.
8. **P2019-027** - Consider a request by Kyle Coleman Harris of Pacheco Koch Consulting Engineers on behalf of Alton Frazier of Channell Commercial Corporation for the approval of a replat for Lot 3, Block A, Channell Subdivision Addition being a 18.762-acre parcel of land identified as Lot

2, Block A, Channell Subdivision Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, addressed as 1700 John King Boulevard, and take any action necessary.

9. **MIS2019-008** - Consider a request by Matthew Mulliken of Mulliken Construction Management, LLC on behalf of Jim Vaudagna of Dallas East for the approval of a parking agreement between two (2) properties identified as Lot 1, Block B & Lot 1, Block C, Rockwall Business Park East Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1280 & 1300 E. Ralph Hall Parkway, and take any action necessary.

Councilmember Johannesen moved to approve the Consent Agenda (#s 1, 2, 3, 4, 5, 6, 7, 8, and 9). Hohenshelt seconded the motion. The ordinance captions were read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-26

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO PLANNED DEVELOPMENT DISTRICT (PD-87) FOR SINGLE FAMILY 1 (SF-1) DISTRICT LAND USES ON THE SUBJECT PROPERTY, BEING A 62.45-ACRE TRACT OF LAND IDENTIFIED AS TRACT 4 OF THE W. M. DALTON SURVEY, ABSTRACT NO. 72, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'* AND DEPICTED HEREIN BY *EXHIBIT 'B'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

CITY OF ROCKWALL
ORDINANCE NO. 19-25

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING *ORDINANCE NO. 14-51 & 17-22* OF PLANNED DEVELOPMENT DISTRICT 32 (PD-32) AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A PD DEVELOPMENT PLAN FOR RETAIL/RESTAURANT PAD SITES ON A 2.893-ACRE PARCEL OF LAND IDENTIFIED AS LOT 1, BLOCK B, HARBOR DISTRICT ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

CITY OF ROCKWALL
ORDINANCE NO. 19-___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE CODE OF ORDINANCES IN CHAPTER 18. FIRE PREVENTION AND PROTECTION, ARTICLE III. FIRE MARSHAL, SECTIONS 18-66 AND 18-67, AUTHORIZING THE FIRE CHIEF TO APPOINT THE FIRE MARSHALL FOR THE CITY; PROVIDING FOR RELATED MATTERS; PROVIDING A SEVERABILITY CLAUSE; PROVIDING A REPEALER CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 7 ayes to 0 nays.

IX. APPOINTMENT ITEMS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

This item was not addressed by Council / no action was taken.

X. PUBLIC HEARING ITEMS

1. **MIS2019-003** - Hold a public hearing to discuss and consider a request by Jose Carmona Lopez for the approval of an On-Site Sewage Facility (OSSF) on a 0.33-acre tract of land identified as Lots 1325 & 1326, Rockwall Lake Properties Development No. 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 75 (PD-75) for Single-Family 7 (SF-7) District land uses, addressed as 424 Nicole Drive, and take any action necessary.

Planning Director, Ryan Miller, provided background information pertaining to this agenda item. He explained that this property is located on the east side of the Lake Rockwall Estates subdivision along Nichol Drive. This street is not currently served by city wastewater service, and it is difficult to extend city service to this property. Notices were sent out to all property owners and residents located within 200'; however, no notices have been received back by staff.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed the public hearing.

Councilmember Trowbridge moved to deny this request. Mayor Pro Tem Macalik seconded the motion.

Lengthy discussion then took place among council members, generally related to the following: city wastewater services, any possible alternatives to this onsite sewage facility, and inspection of septic systems within the city (by Rockwall County, the entity that performs inspection services on behalf of the city). Mr. Crowley, City Manager, indicated that the county has expressed it will not inspect OSSFs on single lots; however, the County has routinely agreed to do inspections on septic systems within the city when they are installed to service more than one lot, specifically (and especially) in Lake Rockwall Estates. Councilmember Daniels sought clarification regarding if this is or is not an aerobic system. Mr. Miller shared that staff is uncertain, as the applicant has not submitted an engineer's report to the city (and is not required to do so until during the permitting stage). Lengthy discussion ensued among Council and staff pertaining to whether or not a lot of this size (so small) and with the soil type can accommodate a septic system. Indication was given that a septic system has to be stamped and sealed by a professional engineer. Councilmember Daniels expressed that he may like to see the Council table action on this item until staff has time to gather additional information and return to Council with a more professional opinion regarding if a septic system is or is not appropriate on these two lots (i.e. can the small size accommodate septic? Is the soil conducive to accommodating a septic system?, etc.). Councilmember Trowbridge generally expressed concern about approving this request, as he seemed to prefer that city wastewater be utilized instead of septic.

Councilmember Trowbridge withdrew his motion, and Macalik withdrew her 'second.' Councilmember Hohehshelt then moved to approve MIS2019-003. Councilmember Fowler seconded the motion, which passed by a vote of 4 ayes with 3 nays (Trowbridge, Macalik and Pruitt).

XI. ACTION ITEMS

1. **MIS2019-005** - Discuss and consider a request by Michael Duval of G & A Consultants on behalf of John Delin of R. W. Ladera, LLC for the approval of an Alternative Tree Mitigation Settlement Agreement for a 28.011-acre parcel of land identified as a Tract 5 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 85 (PD-85), situated within the 205 By-Pass Overlay (205 BY-OV) and the East SH-66 Overlay (E SH-66 OV) District, located at the northeast corner of the intersection of SH-66 and John King Boulevard, and take any action necessary.

Mr. Miller explained that this would be a gated, age-restricted community. He went on to explain the tree mitigation that is required, indicating that the applicant has expressed there is no space on site for additional installation of trees. This request went to the Planning & Zoning Commission, and a 5-2 vote effectively resulted in its denial.

John Delin of Integrity Group / R.W. Ladera came forth and provided comments pertaining to this request. Following extensive, lengthy discussion, Mayor Pruitt moved to settle the tree mitigation with a check to the City for $50,000. Councilmember Trowbridge seconded the motion, which passed by a vote of 7 ayes to 0 nays.

2. Discuss and consider approval of a proposal from American Signal Corporation in the amount of $117,693.28 for replacement of three outdoor emergency warning sirens, hardware, and software to be funded by general fund reserves, and take any action necessary.

Assistant City Manager Joey Boyd provided background information pertaining to this agenda item. Councilmember Hohenshelt then moved to approve the proposal in the amount specified (above). Councilmember Trowbridge seconded the motion, which passed by a vote of 7 ayes to 0 nays.

XII. CITY MANAGER'S REPORT, DEPARTMENTAL REPORTS AND RELATED DISCUSSIONS PERTAINING TO CURRENT CITY ACTIVITIES, UPCOMING MEETINGS, FUTURE LEGISLATIVE ACTIVITIES, AND OTHER RELATED MATTERS.

STAR Transit 3rd Quarter Report

2. City Manager's Report

City Manager Rick Crowley shared brief details about the upcoming 4th of July festivities. There will be a parade, fireworks and a parachute jump at Harry Myers Park. The new household hazardous waste program has been implemented and is going very well so far with city residents.

Mayor Pruitt shared that he will be out on vacation and will not be holding Monday afternoon office hours for the next two, upcoming Mondays. In addition, he shared that the Council has decided to not move forward with purchasing land adjacent to the airport. He asked staff to bring back an ordinance that regulates 'thru-the-fence' agreements and how those comply with law and TXDOT regulations.

XIII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding purchase, sale or lease of real property in the vicinity of Rockwall Municipal Airport, Downtown, IH-30 service Rd. @ T.L. Townsend, and The Harbor as well as city owned land at Fire Station No. 2 pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
2. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).
3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

XIV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

Council did not reconvene into Executive Session following the close of the public meeting agenda. See actions taken at the start of the 6:00 p.m. meeting, as noted above.

XV. ADJOURNMENT

Mayor Pruitt adjourned the meeting at 6:54 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 15th DAY OF JULY, 2019.

CITY OF ROCKWALL

ORDINANCE NO. 19-27

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE CODE OF ORDINANCES IN CHAPTER 18. FIRE PREVENTION AND PROTECTION, ARTICLE III. FIRE MARSHAL, SECTIONS 18-66 AND 18-67, AUTHORIZING THE FIRE CHIEF TO APPOINT THE FIRE MARSHALL FOR THE CITY; PROVIDING FOR RELATED MATTERS; PROVIDING A SEVERABILITY CLAUSE; PROVIDING A REPEALER CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

****

WHEREAS, the City of Rockwall (the "City") is a Home Rule City and by State law and City Charter is permitted to establish ordinances to protect the health, safety and general welfare of its residents; and

WHEREAS, based on review and current needs of the City, the City Council finds that the position of Fire Marshall shall be hired by the Fire Chief and report to the Fire Chief;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THAT:

SECTION 1. FINDINGS. The foregoing recitals are hereby found to be true and correct and are hereby adopted by the City Council and made a part hereof for all purposes as findings of fact.

SECTION 2. **AMENDMENT.** Chapter 18, Article III, Sections 18-66 and 18-67 are hereby amended and should read as follows:

ARTICLE III. - FIRE MARSHAL

Sec. 18-66. - Appointment; removal.

The fire marshal shall be appointed by the fire chief ~~City Manager~~ of the city. The fire marshal shall not be removed from office except for cause and after full opportunity to be heard on specific and relevant charges by and before the appointing authority ~~City Manager~~.

Sec. 18-67. - Duties and functions.

The function of the fire marshal and fire prevention department shall be the implementation, administration and enforcement of the provisions of the fire code. The fire marshal shall carry out those duties as contained in the fire code, as adopted by section 18-32 including, but not limited to, and as directed by the fire chief. ~~City Manager or designee~~:

SECTION 3. The remainder of Chapter 18, Article III "FIRE MARSHALL" composed of Sections 18-65 to 18-96 shall remain unchanged.

SECTION 4. REPEALING ORDINANCES IN CONFLICT. All ordinances or parts of ordinances in conflict herewith are hereby repealed to the extent of such conflict.

SECTION 5. SEVERABILITY. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional or illegal, such decision shall not affect the validity of the remaining sections of this ordinance. The City Council hereby declares that it would have passed this ordinance, and each section, subsection, clause, or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared void.

SECTION 6. SAVINGS CLAUSE. All ordinances or parts of ordinances in conflict herewith are, to the extent of such conflict, hereby repealed. The balance of such ordinance is hereby saved from repeal.

SECTION 7. EFFECTIVE DATE. This ordinance shall become effective upon its second reading, and it is so ordained.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THIS 15th DAY OF JULY, 2019.

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, P.E. Director of Public Works/City Engineer**

DATE: **July 11, 2019**

SUBJECT: **Revision to the Water Resource and Emergency Management Plan**

The Texas Commission on Environmental Quality (TCEQ) requires every water provider to revise and submit a Water Resource and Emergency Management Plan every five years for review. Council recently approved the revisions to the Water Resource and Emergency Management Plan on the 15th day of April 2019.

Staff submitted the approved plan for review to the TCEQ on April 30, 2019. After review, the TCEQ noted that the City's plan must include provisions that every wholesale water contract entered into or renewed after the adoption of the plan, including contract extensions, that in the event of severe water shortage that the water shall be divided in accordance with Texas Water Code, §11.039. These measures include pro rata curtailment of water deliveries to or diversions by wholesale water customers that are included in the current contracts with the City's wholesale customers. Section 4.4 was added to the current approved plan to comply with TCEQ's requirement.

Staff is requesting City Council consider approving the revision to the currently adopted Drought Contingency and Water Emergency Response Plan to keep the City in compliance with TCEQ requirements, and take any action necessary.

CITY OF ROCKWALL

ORDINANCE NO. 19-____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE CODE OF ORDINANCES IN CHAPTER 44. "UTILITIES;" ARTICLE V. "WATER;" DIVISION 7. "WATER RESOURCE AND EMERGENCY MANAGEMENT PLAN;" SEC. 44-432 TO ADOPT AN UPDATED PLAN TO ENSURE COMPLIANCE WITH CERTAIN REQUIREMENTS OF THE TEXAS COMMISSION ON ENVIRONMENTAL QUALITY (TCEQ); PROVIDING FOR A PENALTY OF A FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; AND A SEPARATE OFFENSE SHALL BE DEEMED COMMITTED ON EACH DAY DURING OR ON WHICH A VIOLATION OCCURS; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING AN EFFECTVE DATE.

WHEREAS, on April 15, 2019 the Rockwall City Council established a "Water Resource and Emergency Management Plan" through adoption of Ordinance No. 19-17 and its associated "Exhibit A;" and

WHEREAS, subsequent its adoption and submission to the Texas Commission on Environmental Quality (TCEQ), the City of Rockwall was informed by TCEQ that some additional verbiage related to "Procedures for Curtailment of Water Supplies" is required to be part of said plan; and

WHEREAS, the Rockwall City Council has therefore determined a necessity to repeal the previously adopted plan ("Exhibit A" of Ordinance No. 19-17) in order to adopt an updated plan to reflect said, required verbiage.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THAT:

SECTION 1. The Code of Ordinances in Chapter 44. "Utilities," Article V. "Water," Division 7. "Water Resource and Emergency Management Plan" is hereby amended to adopt an updated plan as reflected in **"Exhibit A"** of this ordinance; and

SECTION 2. PLAN ADOPTED

Sec.44-432

(a) The city council hereby approves and adopts the City of Rockwall "Water Resource and Emergency Management Plan," attached to Ordinance No. 19-____ as "Exhibit A," which is incorporated as if fully set forth in this division and on file in the city secretary's office.

SECTION 3. Any person, firm or corporation violating any of the provisions of this ordinance shall be punished by a penalty fine not to exceed the sum of Two Thousand Dollars ($2,000.00) for each offense and each day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 4. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 5. The City Council does hereby find and declare that sufficient written notice of the date, hour, place and subject of the meeting adopting this Ordinance was posted at a designated place convenient to the public for the time required by law preceding the meeting, that such place of posting was readily accessible at all times to the general public, and that all of the foregoing was done as required by law at all times during which this Ordinance and the subject matter thereof has been discussed, considered and formally acted upon. The City Council further ratifies, approves and confirms such written notice and the posting thereof.

SECTION 6. The City Manager or his designee is hereby directed to file a copy of the Plan and this Ordinance with the Texas Commission on Environmental Quality in accordance with Title 30, Chapter 288 of the Texas Administrative Code, and said Plan meets all the requirements of Section 288.2 of the Texas Administrative Code;

SECTION 7. This ordinance shall be cumulative of all other ordinances of the City and shall not repeal any of the provisions of those ordinances except in those instances where the provisions of those ordinances are in direct conflict with the provisions of this ordinance or as herein specified.

SECTION 8. This ordinance shall take effect immediately from and after its passage and approval, and it is so ordained.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 5TH DAY OF AUGUST, 2019.

WATER RESOURCE AND EMERGENCY MANAGEMENT PLAN

City of Rockwall

The New Horizon

MAY 2019

FORWARD

This 2019 Model Water Resource and Emergency Management Plan (WREMP) which is an update to the 2014 Drought Contingency and Water Emergency Response Plan was prepared by Freese and Nichols for the North Texas Municipal Water District (NTMWD). It is intended to be used by NTMWD Member Cities and Customers as a guide as they develop their own Water Resource and Emergency Management Plans. This plan was prepared pursuant to Texas Commission on Environmental Quality rules. Some material is based on the existing drought contingency plans listed in Appendix A.

Questions regarding this drought contingency and water emergency response plan should be addressed to the following:

APPENDIX C **Letter to Region C Water Planning Group**

1. INTRODUCTION AND OBJECTIVES

This document has been prepared as a Model Water Resource and Emergency Management Plan (WREMP), intended to be available for use by North Texas Municipal Water District (NTMWD) Member Cities and Customer Cities as they develop their own plans. This model plan addresses all of the current TCEQ requirements for a drought contingency plan. [1] This plan will replace the plans dated August 2004, April 2006, March 2008, and April 2014.

The measures included in this Model WREMP are intended to provide short-term water savings during drought or emergency conditions. Water savings associated with ongoing, long-term strategies are discussed in the *Model Water Conservation Plan for North Texas Municipal Water District Member Cities and Customer Cities*. [2]

- The purpose of this Model WREMP plan is as follows:
- To conserve the available water supply in times of drought and emergency
- To maintain supplies for domestic water use, sanitation, and fire protection
- To protect and preserve public health, welfare, and safety
- To minimize the adverse impacts of water supply shortages
- To minimize the adverse impacts of emergency water supply conditions

The NTMWD supplies treated water to its Member Cities and Customer Cities. This model plan was developed by NTMWD in consultation with its Member Cities. In order to adopt this model plan, each NTMWD Member City and Customer City will need to adopt ordinance(s) or regulation(s) implementing the plan, including the determination of fines and enforcement procedures. The model plan calls for Member Cities and Customer Cities to adopt Water Resource Stages initiated by NTMWD during a drought or water supply emergency. Member Cities and Customer Cities may also adopt more stringent drought or water emergency response stages than NTMWD if conditions warrant.

In the absence of drought response measures, water demands tend to increase during drought due to increased outdoor irrigation. The severity of the drought depends on the degree of depletion of supplies and on the relationship of demand to available supplies. NTMWD considers a drought to end when all of the NTMWD's supply reservoirs refill to conservation storage pool levels.

[1] Superscripted numbers match references listed in Appendix A.

2. DEFINITIONS AND ABBREVIATIONS

1. AQUATIC LIFE means a vertebrate organism dependent upon an aquatic environment to sustain its life.

2. ATHLETIC FIELD means a public sports competition field, the essential feature of which is turf grass, used primarily for organized sports practice, competition or exhibition events for schools; professional sports and league play sanctioned by the utility providing retail water supply.

3. COMMERCIAL FACILITY means business or industrial buildings and the associated landscaping, but does not include the fairways, greens, or tees of a golf course.

4. COMMERCIAL VEHICLE WASH FACILITY means a permanently-located business that washes vehicles or other mobile equipment with water or water-based products, including but not limited to self-service car washes, full service car washes, roll-over/in-bay style car washes, and facilities managing vehicle fleets or vehicle inventory.

5. CUSTOMERS include those entities to which NTMWD provides wholesale water that are not Member Cities of NTMWD.

6. DESIGNATED OUTDOOR WATER USE DAY means a day prescribed by rule on which a person is permitted to irrigate outdoors.

7. DRIP IRRIGATION is a type of micro-irrigation system that operates at low pressure and delivers water in slow, small drips to individual plants or groups of plants through a network of plastic conduits and emitters; also called trickle irrigation.

8. DROUGHT, for the purposes of this report, means an extended period of time when an area receives insufficient amounts of rainfall to replenish the water supply, causing water supply sources (in this case reservoirs) to be depleted.

9. EVAPOTRANSPIRATION (ET) represents the amount of water lost from plant material to evaporation and transpiration. The amount of ET can be estimated based on the temperature, wind, and relative humidity.

10. EXECUTIVE DIRECTOR means the Executive Director of the NTMWD and includes a person the Executive Director has designated to administer or perform any task, duty, function, role, or action related to this Plan or on behalf of the Executive Director.

11. FOUNDATION WATERING means an application of water to the soils directly abutting (within 2 feet) the foundation of a building, structure.

12. INTERACTIVE WATER FEATURES means water sprays, dancing water jets, waterfalls, dumping buckets, shooting water cannons, inflatable pools, temporary splash toys or pools, slip-n-slides, or splash pads that are maintained for recreation.

13. IRRIGATION SYSTEM means a permanently installed, custom-made, site-specific system of delivering water generally for landscape irrigation via a system of pipes or other conduits installed below ground.

14. LANDSCAPE means any plant material on a property, including any tree, shrub, vine, herb, flower, succulent, ground cover, grass or turf species, that is growing or has been planted out of doors.

15. MEMBER CITIES include the cities of Allen, Farmersville, Forney, Frisco, Garland, McKinney, Mesquite, Plano, Princeton, Richardson, Rockwall, Royse City, and Wylie, Texas, which are members of NTMWD.

16. NEW LANDSCAPE means: (a) vegetation installed at the time of the construction of a residential or commercial facility; (b) installed as part of a governmental entity's capital improvement project; or (c) installed to stabilize an area disturbed by construction.

17. ORNAMENTAL FOUNTAIN means an artificially created structure (up to a certain diameter) from which a jet, stream, or flow of treated water emanates and is not typically utilized for the preservation of aquatic life.

18. RETAIL CUSTOMERS include those customers to whom the Supplier provides retail water from a water meter.

19. SOAKER HOSE means a perforated or permeable garden-type hose or pipe that is laid above ground that provides irrigation at a slow and constant rate.

20. SPRINKLER means an above-ground water distribution device that may be attached to a garden hose.

21. SUPPLIER means a Member City or Customer that purchases wholesale water from NTMWD and provides water to retail and/or wholesale customers.

22. SWIMMING POOL means any structure, basin, chamber, or tank including hot tubs, containing an artificial body of water for swimming, diving, or recreational bathing, and having a depth of two (2) feet or more at any point.

23. WATER RESOURCE MANAGEMENT PLAN means a strategy or combination of strategies for temporary supply management and demand management responses to temporary and potentially recurring water supply shortages and other water supply emergencies required by Texas Administrative Code Title 30, Chapter 288, Subchapter B. This is sometimes called a drought contingency plan.

Abbreviation	Full Nomenclature
ED	NTMWD Executive Director
NTMWD or District	North Texas Municipal Water District
TCEQ	Texas Commission on Environmental Quality
TWDB	Texas Water Development Board
Model WREMP	Model Water Resource and Emergency Management Plan for Member Cities and Customers

3. TEXAS COMMISSION ON ENVIRONMENTAL QUALITY RULES

The TCEQ rules governing development of drought contingency plans for public water suppliers are contained in Title 30, Part 1, Chapter 288, Subchapter B, Rule 288.20 of the Texas Administrative Code, a current copy of which is included in Appendix B. For the purpose of these rules, a drought contingency plan is defined as "a strategy or combination of strategies for temporary supply and demand management responses to temporary and potentially recurring water supply shortages and other water supply emergencies."[1]

Minimum Requirements

TCEQ's minimum requirements for drought contingency plans are addressed in the following subsections of this report:

- 288.20(a)(1)(A) – Provisions to Inform the Public and Provide Opportunity for Public Input – Section 4.1
- 288.20(a)(1)(B) – Provisions for Continuing Public Education and Information – Section 4.2
- 288.20(a)(1)(C) – Coordination with the Regional Water Planning Group – Section 4.7
- 288.20(a)(1)(D) – Criteria for Initiation and Termination of Drought Stages – Section 4.3
- 288.20(a)(1)(E) – Drought and Emergency Response Stages – Section 4.4
- 288.20(a)(1)(F) – Specific, Quantified Targets for Water Use Reductions – Section 3.4
- 288.20(a)(1)(G) – Water Supply and Demand Management Measures for Each Stage – Section 4.4
- 288.20(a)(1)(H) – Procedures for Initiation and Termination of Drought Stages – Section 3.3
- 288.20(a)(1)(I) - Procedures for Granting Variances – Section 4.5
- 288.20(a)(1)(J) - Procedures for Enforcement of Mandatory Restrictions – Section 3.6
- 288.20(a)(3) – Consultation with Wholesale Supplier – Sections 1 and 4.4
- 288.20(b) – Notification of Implementation of Mandatory Measures – Section 4.3
- 288.20(c) – Review and Update of Plan – Section 4.8

4. WATER RESOURCE AND EMERGENCY MANAGEMENT PLAN

4.1 Provisions to Inform the Public and Opportunity for Public Input

The City of Rockwall will provide opportunity for public input in the development of this drought contingency and water emergency response plan by the following means:

- Providing written notice of the proposed plan and the opportunity to comment on the plan by newspaper, posted notice, and notice on the supplier's web site.
- Making the draft plan available on the supplier's web site.
- Providing the draft plan to anyone requesting a copy.
- Holding a public meeting.

4.2 Provisions for Continuing Public Education and Information

The City of Rockwall will inform and educate the public about the Water Resource and Emergency Management Plan by the following means:

- Preparing a bulletin describing the plan and making it available at City Hall and other appropriate locations.
- Making the plan available to the public through the supplier's web site.
- Including information about the Water Resource and Emergency Management on the supplier's web site.
- Notifying local organizations, schools, and civic groups that staff are available to make presentations on the Water Resource and Emergency Management Plan (usually in conjunction with presentations on water conservation programs).

At any time that the drought contingency and water emergency response plan is activated or the drought stage or water emergency response stage changes, Member Cities and Customer Cities will notify local media of the issues, the drought response stage or water emergency response stage (if applicable), and the specific actions required of the public. The information will also be publicized on the supplier's web site (if available). Billing inserts will also be used as appropriate.

4.3 Initiation and Termination of Water Resource and Emergency Management Stages and Targets for Water use Reductions

<u>Initiation of a Water Resource Management Stage</u>

The City Manager or official designee may order the implementation of a Water Resource and Emergency Management response stage when one or more of the trigger conditions for that stage are met.

- Water Resource and Emergency Management Plan stages imposed by NTMWD action must be initiated by Member Cities and Customers.

- For other trigger conditions internal to a city or water supply entity, the City Manager or official designee may decide not to order the implementation of a Water Resource Management Stage or Water Emergency even though one or more of the trigger criteria for the stage are met. Factors which could influence such a decision include, but are not limited to, the time of the year, weather conditions, the anticipation of replenished water supplies, or the anticipation that additional facilities will become available to meet needs. The reason for this decision should be documented.

The following actions will be taken when a water resource management stage is initiated:

- The public will be notified through local media and the supplier's web site (if available) as described in Section 4.2.
- Wholesale customers (if any) and the NTMWD will be notified by e-mail with a follow-up letter or fax that provides details of the reasons for initiation of the Water Resource Management Stage.
- If any mandatory provisions of the Water Resource and Emergency Management Plan are activated, Member Cities and Customer Cities will notify the Executive Director of the TCEQ and the Executive Director of the NTMWD within 5 business days.

Termination of Water Management Stage

The City Manager or official designee may order the termination of a Water Resource Management Stage when the conditions for termination are met or at their discretion.

The following actions will be taken when a water resource management stage is terminated:

- The public will be notified through local media and the supplier's web site as described in Section 4.2.
- Wholesale customers (if any) and the NTMWD will be notified by e-mail with a follow-up letter or fax.
- If any mandatory provisions of the Water Resource and Emergency Management Plan that have been activated are terminated, Member Cities and Customer Cities will notify the Executive Director of the TCEQ and the Executive Director of the NTMWD within 5 business days.

The City Manager or official designee may decide not to order the termination of a Water Resource Management stage even though the conditions for termination of the stage are met. Factors which could influence such a decision include, but are not limited to, the time of year, weather conditions, or the anticipation of potential changed conditions that warrant the continuation of the Water Resource Management Stage. The reason for this decision should be documented.

Water Resource and Emergency Management Plan Stages and Measures

4.3.1 Stage 1

Initiation and Termination Conditions for Stage 1

The NTMWD has initiated Stage 1, which may be initiated due to one or more of the following:

- The NTMWD Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the declaration of Stage 1.
- Water demand is projected to approach the limit of the permitted supply.
- The storage level in Lavon Lake as published by the Texas Water Development Board (TWDB),[3] is less than 70 percent of the total conservation pool capacity during any months or April through October or less than 60 percent of the total conservation pool capacity during any of the months of November through March.
- The Sabine River Authority has indicated that its Upper Basin water supplies used by NTMWD (Lake Tawakoni and/or Lake Fork) are in a Stage 1 drought.
- NTMWD has concern that Lake Texoma, Jim Chapman Lake, the East Fork Water Reuse Project, the Main Stem Pump Station, or some other NTMWD source may be limited in availability in the next six (6) months.
- NTMWD water demand exceeds 95 percent of the amount that can be delivered to customers for three (3) consecutive days.
- Water demand for all or part of NTMWD's delivery system approaches delivery capacity because delivery capacity is inadequate.
- Supply source is interrupted or unavailable due contamination, invasive species, equipment failure or other causes.
- NTMWD's water supply system is unable to deliver water due to the failure or damage of major water system components.
- Part of the system has a shortage in supply or damage to equipment. NTMWD may implement measures for only the portion of the NTMWD system impacted.

Supplier has initiated Stage 1 due to one or more of the following reasons:

- Supplier's water demand exceeds 95 percent of the amount that can be delivered to customers for three consecutive days.
- Supplier's water demand for all or part of the delivery system approaches delivery capacity because delivery capacity is inadequate.
- Supply source becomes contaminated.
- Supplier's water supply system is unable to deliver water due to the failure or damage of major water system components.
- Supplier's individual plan may be implemented if other criteria dictate.

NTMWD has terminated Stage 1, which may be terminated due to one or more of the following:

- The Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the termination of Stage 1.
- The storage level in Lavon Lake, as published by the TWDB, [3] is greater than 75 percent of the total conservation pool capacity during any of the months of April through October or greater than 65 percent of the total conservation pool capacity during any of the months of November through March.
- Other circumstances that caused NTMWD initiation of Stage 1 no longer prevail.

Supplier has terminated Stage 1, which may be terminated due to the cause of the Supplier's initiation of Stage 1 no longer prevail.

Goal for Use Reduction and Actions Available under Stage 1

Stage 1 is intended to raise public awareness of potential drought or water emergency problems. The goal for water use reduction under Stage 1 is a two percent (2%) reduction in the amount of water produced by NTMWD from the previous corresponding annual payment period prior to institution of drought restrictions. **If circumstances warrant, of if required by NTMWD, the City Manager or official designee can set a goal for greater or lesser water use reduction under Stage 1.** The City Manager or official designee may order the implementation of any of the actions listed below, as deemed necessary, to achieve a two percent (2%) reduction. Measures described as "requires notification to TCEQ" are those that impose mandatory requirements on customers. The supplier must notify TCEQ and NTMWD within five (5) business days if such mandatory measures are implemented.

- Continue actions established by Water Conservation Plan.
- Notify wholesale customers of actions being taken and request implementation of similar procedures.
- Initiate engineering studies to evaluate alternative water sources and/or alternative delivery mechanisms should conditions worsen.
- Increase public education efforts on ways to reduce water use.
- Halt non-essential city government water use:

  (Examples: street cleaning, vehicle washing, operation of ornamental fountains, etc.)
- Encourage the public to wait until the current drought or emergency situation has passed before establishing New Landscape.
- Encourage all users to reduce the frequency of draining and refilling swimming pools.
- **Requires Notification to TCEQ -** Increase enforcement of the following landscape watering restrictions established by the Water Conservation Plan: (1) limit landscape watering with sprinklers or irrigation systems at each service address to no more than two (2) days per week, on designated days, between April

1 and October 31; and (2) limit landscape watering with sprinklers or irrigation systems at each service address to once every week, on designated days, between November 1 and March 31. Exceptions are as follows:

- An exception is allowed for New Landscape associated with new construction that may be watered as necessary for 30 days from the date of installation of new landscape features.
- An exception for additional watering of landscape may be provided by hand-held hose with shutoff nozzle, and/or use of dedicated irrigation drip zones provided no runoff occurs.
- Foundation (within 2 feet), New Landscape watering, watering of new plantings (first year) of shrubs, and watering of trees (within a ten foot radius of its trunk) may occur by a hand-held hose, a soaker hose, or a dedicated zone using a Drip Irrigation system provided no runoff occurs.
- Restrictions do not apply to locations using treated wastewater effluent for irrigation or the legal use of water pumped from Lake Ray Hubbard as may be regulated by the City of Dallas.

- **Requires Notification to TCEQ -** Initiate a rate surcharge for all water use over a certain level.
- **Requires Notification to TCEQ -** Public athletic fields used for competition may be watered twice per week.
- **Requires Notification to TCEQ -** Prohibit watering of golf courses using treated water, except as needed to keep greens and tee boxes alive.

4.3.2 Stage 2

Initiation and Termination Conditions for Stage 2

The NTMWD has initiated Stage 2, which may be initiated due to one or more of the following:

- The NTMWD Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the declaration of Stage 2.
- Water demand is projected to approach the limit of NTMWD permitted supply.
- The storage in Lavon Lake, as published by the TWDB, is less than 55 percent of the total conservation pool during any of the months of April through October or less than 45 percent of the total conservation pool capacity during any of the months of November through March.
- The Sabine River Authority has indicated that its Upper Basin water supplies used by NTMWD (Lake Tawakoni and/or Lake Fork) are in a Stage 2 drought.
- NTMWD has concern that Lake Texoma, Jim Chapman Lake, the East Fork Water Reuse Project, the Main Stem Pump Station, or some other NTMWD source may be limited in availability in the next three (3) months.

- NTMWD water demand exceeds 98 percent of the amount that can be delivered to customers for three (3) consecutive days.
- NTMWD water demand for all or part of the delivery system equals delivery capacity because delivery capacity is inadequate.
- NTMWD's supply source is interrupted or unavailable due contamination, invasive species, equipment failure, or other causes.
- NTMWD's water supply system is unable to deliver water due to the failure or damage of major water system components.
- Part of the system has a shortage in supply or damage to equipment. NTMWD may implement measures for only that portion of the system impacted.

Supplier has initiated Stage 2 due to one or more of the following reasons:

- Supplier's water demand exceeds 98 percent of the amount that can be delivered to customers for three (3) consecutive days.
- Supplier's water demand for all or part of the delivery system exceeds delivery capacity because delivery capacity is inadequate.
- Supply source becomes contaminated.
- Supplier's water supply system is unable to deliver water due to the failure or damage of major water system components.
- Supplier's individual plan may be implemented if other criteria dictate.

NTMWD has terminated Stage 2, which may terminate due to one of the following:

- The Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the termination of Stage 2.
- The storage level in Lavon Lake, as published by the TWDB, [3] is greater than 70 percent of the total conservation pool capacity during any of the months of April through October or greater than 60 percent of the total conservation pool capacity during any of the months of November through March.
- Other circumstances that caused NTMWD initiation of Stage 2 no longer prevail.

Supplier has terminated Stage 2, which may be terminated due to the cause of the Supplier's initiation of Stage 2 no longer prevail.

Goal for Use Reduction and Actions Available under Stage 2

The goal for water use reduction under Stage 2 is a reduction of ten percent (10%) in the amount of water obtained from NTMWD from the previous corresponding annual payment period prior to institution of drought restrictions. **If circumstances warrant, of if required by NTMWD, the City Manager or official designee can set a goal for greater or lesser water use reduction.** The City Manager or official designee may order the implementation of any of the actions listed below, as deemed necessary, to achieve a two-percent reduction. Measures described as "requires notification to TCEQ" are those that impose mandatory

requirements on customers. The supplier must notify TCEQ and NTMWD within five (5) business days if such mandatory measures are implemented.

- Continue or initiate any actions available under Water Conservation Plan and Stage 1.
- Notify wholesale customers of actions being taken and request them to implement similar procedures.
- Implement viable alternative water supply strategies.
- Further accelerate public education efforts on ways to reduce water use.
- Encourage all users to reduce the frequency of draining and refilling swimming pools.
- **Requires Notification to TCEQ -** Limit landscape watering with sprinklers or irrigation systems at each service address to once per week, on designated days between April 1 and October 31. and (2) limit landscape watering with sprinklers or irrigation systems at each service address to once every week, on designated days, between November 1 and March 31. Exceptions are as follows:
    - An exception is allowed for New Landscape associated with new construction that may be watered as necessary for 30 days from the date of installation of new landscape features.
    - An exception for additional watering of landscape may be provided by hand-held hose with shutoff nozzle, and/or use of dedicated irrigation drip zones provided no runoff occurs.
    - Foundation (within 2 feet), New Landscape Watering, watering of new plantings (first year) of shrubs, and watering of trees (within a ten foot radius of its trunk) may occur by a hand-held hose, a soaker hose, or a dedicated zone using a Drip Irrigation system provided no runoff occurs.
    - Athletic Fields may be watered twice per week.
    - An exemption is allowed for Drip Irrigation system from the designated outdoor water use day limited to no more than one day per week. Drip Irrigation systems are however subject to all other restrictions applicable under this stage.
    - Hand water with shutoff nozzle, drip lines, and Soaker Hoses are allowed before 10 am and after 6 pm, provided no runoff occurs.
    - Restrictions do not apply to locations using treated wastewater effluent for irrigation or the legal use of water pumped from Lake Ray Hubbard as may be regulated by the City of Dallas.
- **Requires Notification to TCEQ -** Prohibit hydro seeding, hydro mulching, and sprigging.
- **Requires Notification to TCEQ -** Initiate a rate surcharge as requested by NTMWD.

- **Requires Notification to TCEQ -** Initiate a rate surcharge for all water used over a certain level.
- **Requires Notification to TCEQ -** Prohibit watering of golf courses using treated water, except as needed to keep greens and tee boxes alive.
- **Requires Notification to TCEQ –** If NTMWD has imposed a reduction in water availability, the City Manager is hereby authorized to initiate allocation of water supplies on a pro rata basis in accordance with Texas Water Code Section §11.039 and according to the following water allocation policies and procedures:
    - A wholesale customer's monthly allocation shall be a percentage of the customer's water usage baseline. The percentage will be set by the City Manager or his/her designee based on the assessment of the severity of the water shortage condition and the need to curtail water diversions and/or deliveries and may be adjusted periodically by the City Manager or his/her designee as conditions warrant. Once pro rata allocations are in effect, water diversions by or deliveries to each wholesale customer shall be limited to the allocation established for each month.
    - A monthly water usage allocation shall be established by the City Manager or his/her designee for each wholesale customer. The wholesale customer's water usage baseline will be computed on the average water usage by month for the past five years. If the wholesale customer's billing history is less than five (5) years, the monthly average for the period for which there is a record shall be used for any monthly period for which no billing history exists.
    - The City Manager or his/her designee shall provide notice, by certified mail, to each wholesale customer informing them of their monthly water usage allocations and shall notify the news media, the Texas Natural Resource Conservation Commission, and the Texas Water Development Board upon initiation of pro rata water allocations.
    - Upon request of the customer, a request for a temporary variance to the pro rata water allocation may be requested.
    - At the initiative of the City Manager or his/her designee, the allocation may be reduced if, (a) the customer agrees to transfer part of its allocation to another wholesale customer, or (2) other objective evidence demonstrates that the designated allocation is inaccurate under present conditions.
    - City wholesale water users will be advised to continue all relevant actions from the previous stages including appropriate public water use restrictions and to implement the next stage of their own individual Retail Water Supplier Resource and Emergency Management Plan.

4.3.2 Stage 3

Initiation and Termination Conditions for Stage 3

The NTMWD has initiated Stage 3, which may be initiated due to one or more of the following:

- The NTMWD Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the declaration of Stage 3
- Water demand is projected to approach or exceed the limit of the permitted supply.
- The storage in Lavon Lake, as published by the TWDB, [3] is less than 30 percent of the total conservation pool during any of the months of April through October or less than 20 percent of the total conservation pool capacity during any of the months of November through March.
- The Sabine River Authority has indicated that its Upper Basin water supplies used by NTMWD (Lake Tawakoni and/or Lake Fork) are in Stage 3.
- The water supplied from Lake Texoma, Jim Chapman Lake, the East Fork Water Reuse Project, the Main Stem Pump Station, or some other NTMWD water source has become limited in availability.
- NTMWD water demand exceeds the amount that can be delivered to Customers.
- NTMWD water demand for all or part of the delivery system exceeds delivery capacity because delivery capacity is inadequate.
- NTMWD's supply source is interrupted or unavailable due contamination, invasive species, equipment failure, or other causes.
- Part of the system has a shortage in supply or damage to equipment. NTMWD may implement measures for only that portion of the system impacted.

Supplier has initiated Stage 3 due to one or more of the following reasons:

- Supplier's water demand exceeds the amount that can be delivered to customers.
- Supplier's water demand for all or part of the delivery system exceeds delivery capacity because delivery capacity is inadequate.
- Supply source becomes contaminated.
- Supplier's water supply system is unable to deliver water due to the failure or damage of major water system components.
- Supplier's individual plan may be implemented if other criteria dictate.

NTMWD has terminated Stage 3, which may terminate due to one or more of the following:

- The Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the termination of Stage 3.
- The storage level in Lavon Lake, as published by the TWDB, [3] is greater than 55 percent of the total conservation pool capacity during any of the months of April

through October or greater than 45 percent of the total conservation pool capacity during any of the months of November through March.

- Other circumstances that caused NTMWD initiation of Stage 2 no longer prevail.

Supplier has terminated Stage 3, which may be terminated due to the cause of the Supplier's initiation of Stage 3 no longer prevail.

Goals for Use Reduction and Actions Available under Stage 3

The goal for water use reduction under Stage 3 is a reduction of whatever amount is designated by NTMWD in the amount of water obtained from NTMWD from the corresponding previous annual payment period prior to institution of drought restrictions. If circumstances warrant or if required by NTMWD, the City Manager or official designee can set a goal for greater water use reduction.

The City Manager or official designee must implement any action(s) required by NTMWD. In addition, the City Manager or official designee may order the implementation of any of the actions listed below, as deemed necessary. Measures described as "requires notification to TCEQ" impose mandatory requirements on customers. The supplier must notify TCEQ and NTMWD within five (5) business days if these measures are implemented:

- Continue or initiate any actions available under Stages 1 and 2.
- Notify wholesale customers of actions being taken and request them to implement similar procedures.
- Implement viable alternative water supply strategies.
- **Requires Notification to TCEQ** – Initiate mandatory water use restrictions as follows:
    - Prohibit hosing and washing of paved areas, buildings, windows or other surfaces is prohibited except by variance and performed by a professional service using high efficiency equipment.
    - Prohibit operation of all ornamental fountains or other amenity impoundments to the extent they use treated water.
- **Requires Notification to TCEQ -** Prohibit hydro seeding, hydro mulching, and sprigging.
- **Requires Notification to TCEQ -** Prohibit the use of potable water for the irrigation of new landscape.
- **Requires Notification to TCEQ -** Prohibit commercial and residential landscape watering, except that foundations and trees may be watered for 2 hours on any day with a hand-held hose, a soaker hose, or a dedicated zone using a drip irrigation system provided no runoff occurs. ET/Smart controllers and drip irrigation systems are not exempt from this requirement.

- **Requires Notification to TCEQ -** Prohibit washing of vehicles except at Commercial Vehicle Wash Facilities, except as necessary for health, sanitation, or safety reasons.
- **Requires Notification to TCEQ -** Prohibit watering of golf courses using treated water, except as needed to keep greens and tee boxes alive.
- **Requires Notification to TCEQ -** Prohibit the permitting of private pools. Pools already permitted may be completed and filled with water. Existing private and public pools may add water to maintain pool levels but may not be drained and refilled.
- **Requires Notification to TCEQ -** Require all commercial water users to reduce water use by a percentage established by the City Manager or official designee.
- **Requires Notification to TCEQ -** Initiate a rate surcharge for all water use over normal rates for all water use.
- **Requires Notification to TCEQ -** In the event that the triggering criteria specified in the Plan for Stage 3 and Severe Water Shortage Conditions have been met, the City Manager is hereby authorized to initiate allocation of water supplies on a pro rata basis in accordance with Texas Water Code Section §11.039 and according to the following water allocation policies and procedures:

    - A wholesale customer's monthly allocation shall be a percentage of the customer's water usage baseline. The percentage will be set by the City Manager or his/her designee based on the assessment of the severity of the water shortage condition and the need to curtail water diversions and/or deliveries and may be adjusted periodically by the City Manager or his/her designee as conditions warrant. Once pro rata allocations are in effect, water diversions by or deliveries to each wholesale customer shall be limited to the allocation established for each month.

    - A monthly water usage allocation shall be established by the City Manager or his/her designee for each wholesale customer. The wholesale customer's water usage baseline will be computed on the average water usage by month for the past five years. If the wholesale customer's billing history is less than five (5) years, the monthly average for the period for which there is a record shall be used for any monthly period for which no billing history exists.

    - The City Manager or his/her designee shall provide notice, by certified mail, to each wholesale customer informing them of their monthly water usage allocations and shall notify the news media, the Texas Natural Resource Conservation Commission, and the Texas Water Development Board upon initiation of pro rata water allocations.

    - Upon request of the customer, a request for a temporary variance to the pro rata water allocation may be requested.

- At the initiative of the City Manager or his/her designee, the allocation may be reduced if, (a) the customer agrees to transfer part of its allocation to another wholesale customer, or (2) other objective evidence demonstrates that the designated allocation is inaccurate under present conditions.
- City wholesale water users will be advised to continue all relevant actions from the previous stages including appropriate public water use restrictions and to implement the next stage of their own individual Retail Water Supplier Resource and Emergency Management Plan.

4.4 Procedure for Curtailment of Water Supplies

Any imposed reduction in water availability, the City Manager is hereby authorized to initiate allocation of water supplies on a pro rata basis in accordance with Texas Water Code Section §11.039. In addition, every wholesale water supply contract entered into or renewed after the adoption of this plan, including contract extensions, shall include a provision that water will be distributed in accordance with Texas Water Code §11.039 in case of a water shortage resulting from drought or water emergency.

4.5 Procedures for Granting Variances to the Plan

The City Manager or official designee may grant temporary variances for existing water uses otherwise prohibited under this Water Resource and Emergency Management Plan if one or more of the following conditions are met:

- Failure to grant such a variance would cause an emergency condition adversely affecting health, sanitation, or fire safety for the public or the person or entity requesting the variance
- Compliance with this plan cannot be accomplished due to technical or other limitations
- Alternative methods that achieve the same level of reduction in water use can be implemented

Variances shall be granted or denied at the discretion of the City Manager or official designee. All petitions for variances should be in writing and should include the following information:

- Name and address of the petitioners
- Purpose of water use
- Specific provisions from which relief is requested
- Detailed statement of the adverse effect of the provision from which relief is requested
- Description of the relief requested

- Period of time for which the variance is sought
- Alternative measures that will be taken to reduce water use
- Other pertinent information

4.6 Procedures for Enforcing Mandatory Water Use Restrictions

Mandatory water use restrictions may be imposed in Stage 1, Stage 2 and Stage 3 through adoption of this Water Resource and Emergency Management Plan by Ordinance of the City of Rockwall.

4.7 Coordination with the Regional Water Planning Group and NTMWD

A copy of this Water Resource and Emergency Management plan will be sent to the Chair of the Region C Water Planning Group and the Chairs of North East Texas Water Planning Group.

4.8 Review and Update of Drought Contingency and Water Emergency Response Plan

As required by TCEQ rules, Member Cities and Customer Cites must review the drought contingency and water emergency response plan every five years. The plan will be updated as appropriate based on new or updated information.

Texas Administrative Code

TITLE 30	ENVIRONMENTAL QUALITY
PART 1	TEXAS COMMISSION ON ENVIRONMENTAL QUALITY
CHAPTER 288	WATER CONSERVATION PLANS, DROUGHT CONTINGENCY PLANS, GUIDELINES AND REQUIREMENTS
SUBCHAPTER B	DROUGHT CONTINGENCY PLANS
RULE §288.20	**Drought Contingency Plans for Municipal Uses by Public Water Suppliers**

(a) A drought contingency plan for a retail public water supplier, where applicable, must include the following minimum elements.

(1) Minimum requirements. Drought contingency plans must include the following minimum elements.

(A) Preparation of the plan shall include provisions to actively inform the public and affirmatively provide opportunity for public input. Such acts may include, but are not limited to, having a public meeting at a time and location convenient to the public and providing written notice to the public concerning the proposed plan and meeting.

(B) Provisions shall be made for a program of continuing public education and information regarding the drought contingency plan.

(C) The drought contingency plan must document coordination with the regional water planning groups for the service area of the retail public water supplier to ensure consistency with the appropriate approved regional water plans.

(D) The drought contingency plan must include a description of the information to be monitored by the water supplier, and specific criteria for the initiation and termination of drought response stages, accompanied by an explanation of the rationale or basis for such triggering criteria.

(E) The drought contingency plan must include drought or emergency response stages providing for the implementation of measures in response to at least the following situations:

(i) reduction in available water supply up to a repeat of the drought of record;

(ii) water production or distribution system limitations;

(iii) supply source contamination; or

(iv) system outage due to the failure or damage of major water system components (e.g., pumps).

(F) The drought contingency plan must include the specific, quantified targets for water use reductions to be achieved during periods of water shortage and drought. The entity preparing the plan shall establish the targets. The goals established by the entity under this subparagraph are not enforceable.

(G) The drought contingency plan must include the specific water supply or water demand management measures to be implemented during each stage of the plan including, but not limited to, the following:

(i) curtailment of non-essential water uses; and

(ii) utilization of alternative water sources and/or alternative delivery mechanisms with the prior approval of the executive director as appropriate (e.g., interconnection with another water system, temporary use of a non-municipal water supply, use of reclaimed water for non-potable purposes, etc.).

(H) The drought contingency plan must include the procedures to be followed for the initiation or termination of each drought response stage, including procedures for notification of the public.

(I) The drought contingency plan must include procedures for granting variances to the plan.

(J) The drought contingency plan must include procedures for the enforcement of any mandatory water use restrictions, including specification of penalties (e.g., fines, water rate surcharges, discontinuation of service) for violations of such restrictions.

(2) Privately-owned water utilities. Privately-owned water utilities shall prepare a drought contingency plan in accordance with this section and incorporate such plan into their tariff.

(3) Wholesale water customers. Any water supplier that receives all or a portion of its water supply from another water supplier shall consult with that supplier and shall include in the drought contingency plan appropriate provisions for responding to reductions in that water supply.

(b) A wholesale or retail water supplier shall notify the executive director within five business days of the implementation of any mandatory provisions of the drought contingency plan.

(c) The retail public water supplier shall review and update, as appropriate, the drought contingency plan, at least every five years, based on new or updated information, such as the adoption or revision of the regional water plan.

City of Rockwall
The New Horizon

Date: April 26, 2019

Kevin Ward
Chair, Region C Water Planning Group
P.O. Box 60
Arlington, TX 76004

Dear Kevin Ward:

Enclosed please find a copy of the recently updated Water Resource and Emergency Management Plan for the City of Rockwall. I am submitting a copy of this model plan to the Region C Water Planning Group in accordance with the Texas Water Development Board and Texas Commission on Environmental Quality rules. The Rockwall City Council adopted the updated Water Resource Emergency Management Plan on April 15, 2019.

Sincerely,

Rick Crowley
City of Rockwall

MEMORANDUM

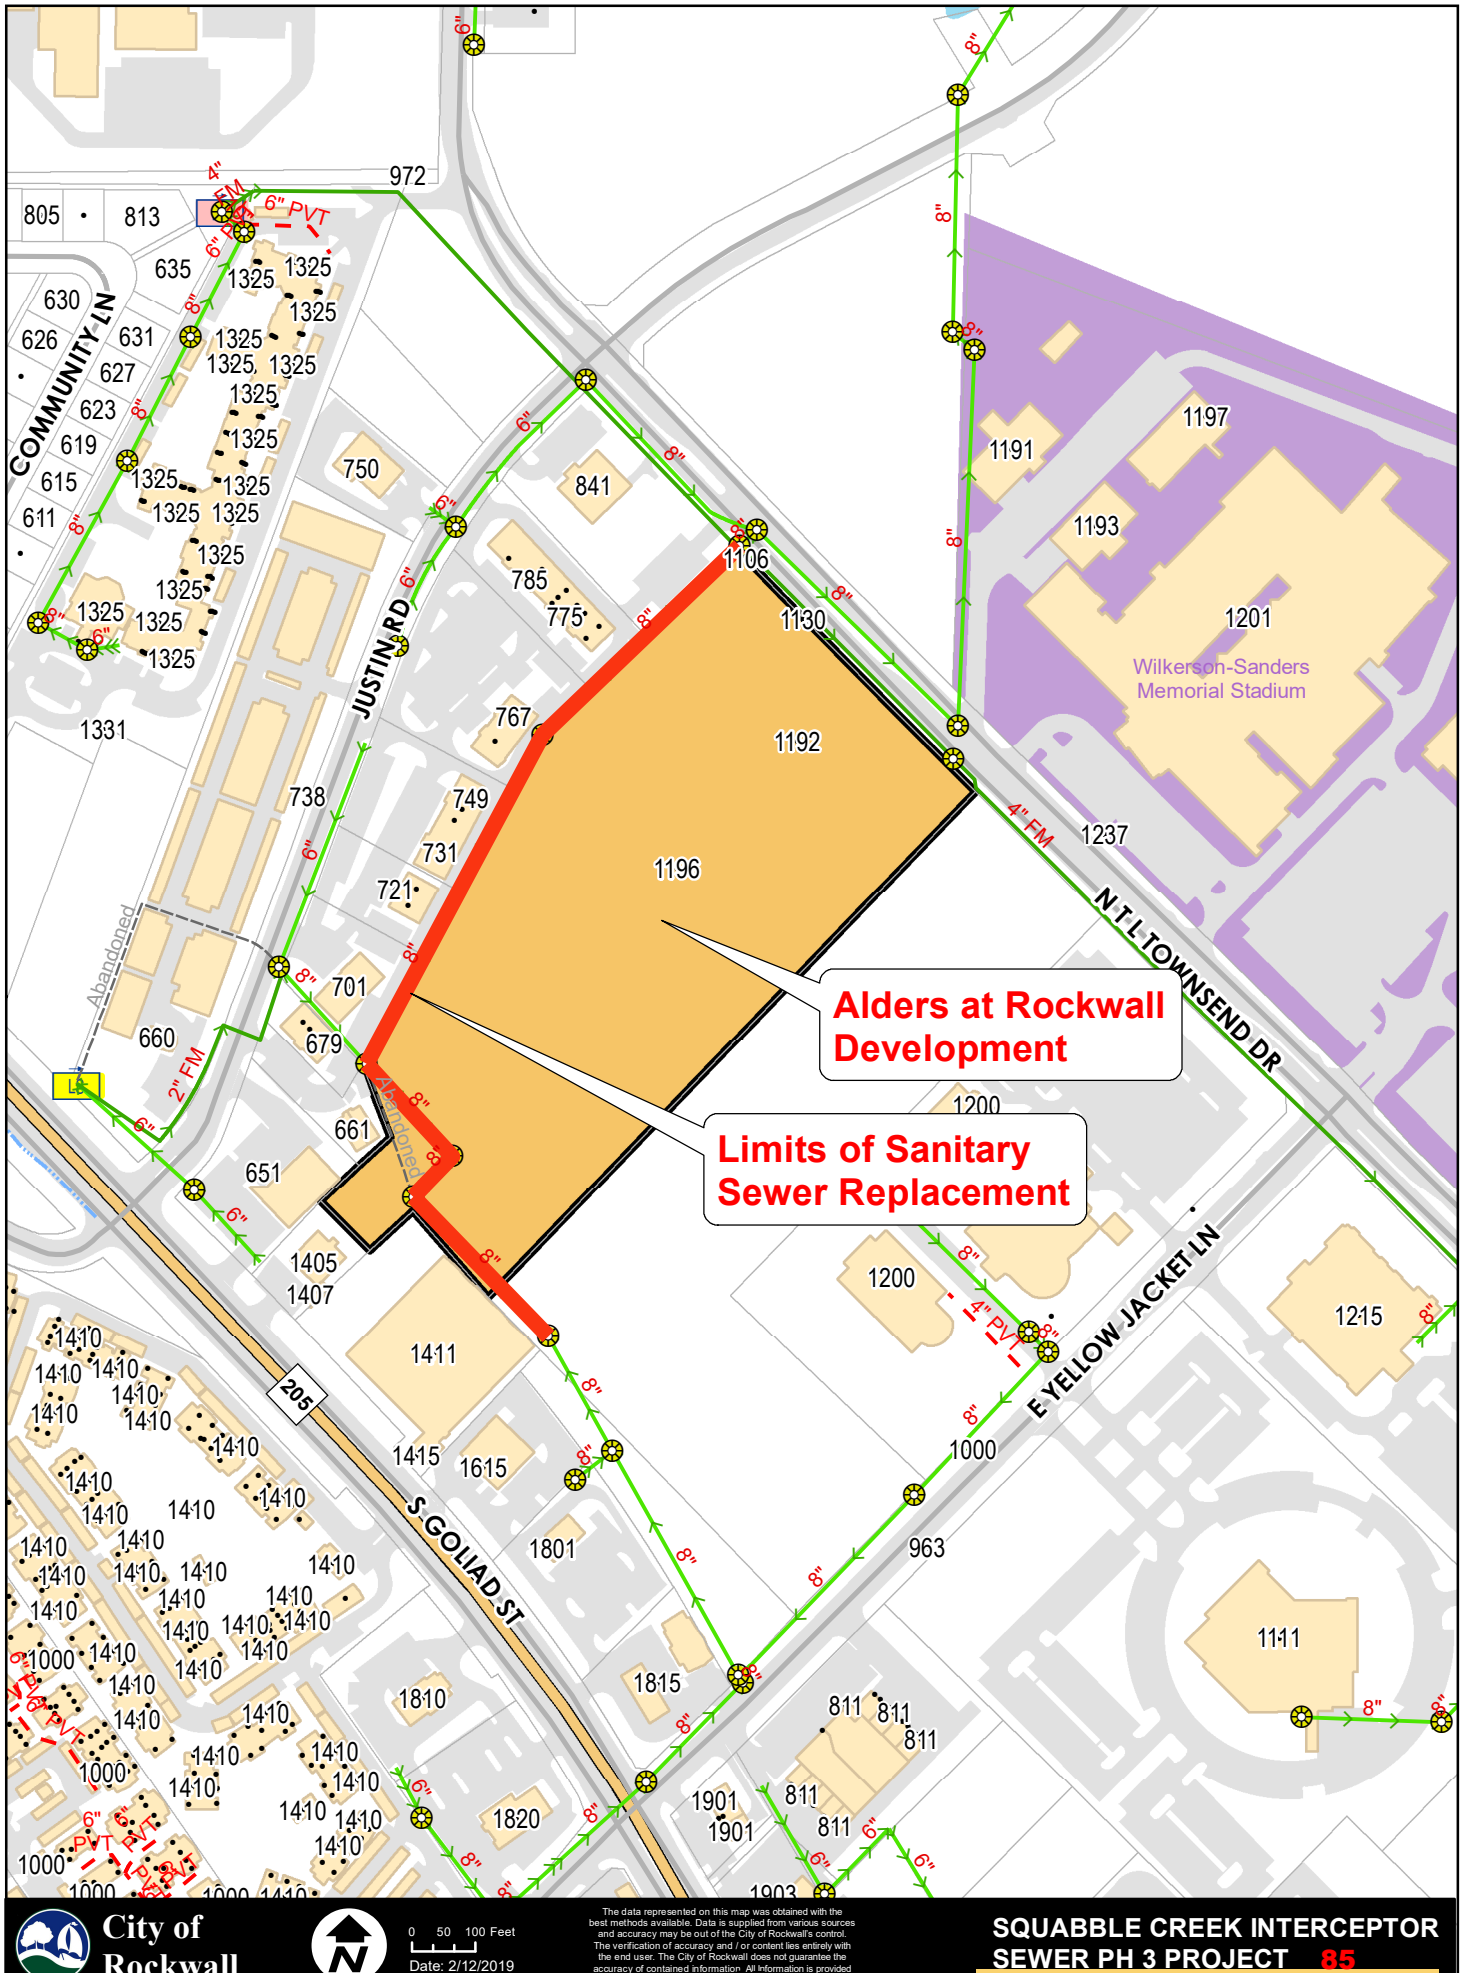
TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, P.E., Director of Public Works/City Engineer**

DATE: **July 10, 2019**

SUBJECT: **Facilities Agreement**
Alders at Rockwall - Squabble Creek Sanitary Sewer Interceptor Rehabilitation Phase 3 Project

The Squabble Creek Sanitary Sewer Interceptor is one of the main back bones of the City's wastewater collection system. Over the years, replacement and maintenance of this trunk line has been required to keep it operational and up to Texas Commission on Environmental Quality (TCEQ) standards. The proposed Phase 3 rehabilitation project for this interceptor (shown on the attached map in red) is intended to replace pipe that has collapsed, and pipe that does not meet the required slope per TCEQ requirements. Portions of the interceptor pipe are Vitrified Clay Pipe (VCP), which is currently in disrepair. The City has experienced large amounts of inflow and infiltration into the wastewater system due to the condition of the VCP. This additional flow can increase the treatment costs incurred by the City from North Texas Municipal Water District.



On February 18, 2019, City Council approved Burgess & Niple, Inc. to provide engineering design and construction plans for the improvements. The Alders at Rockwall Developer has provided a cost of $556,034.66 from removal and construction of the new sewer line. State Law allows the City to participate with a development as long as the City's amount does not exceed 30 percent of the construction cost. The developers cost of the Alders at Rockwall development is approximately $20,000,000. This amount will not exceed the 30 percent restriction. Our funding will be provided by the _____.

Staff requests City Council consider approving the facilities agreement with Alders at Rockwall Property, LLC, to reconstruct the existing Squabble Creek sanitary sewer Interceptor within the Alders at Rockwall development in an amount not to exceed $556,064.66 and take any action necessary.

FACILITIES AGREEMENT
Alders at Rockwall Lot 1, Block A

This Agreement is entered into on the _____ day of _____, 2019, by and between the City of Rockwall, Texas ("City") and Alders at Rockwall Property, LLC, a Texas Limited Liability Company. ("Developer").

WITNESSETH:

Section 1. That in consideration of the Alders at Rockwall Lot 1, Block A Development, located along T.L. Townshend Drive, the parties agree as follows:

Developer agrees to the following:

a. To remove the existing 8" PVC sanitary sewer line in the Squabble Creek sanitary sewer interceptor and replace with a 10" PVC sanitary sewer line within the existing easement along property boundary per approved plans.

City agrees to the following:

a. Reimburse the Developer, the construction of the removal of the existing 8" PVC sanitary sewer line when the existing sanitary sewer line is fully removed and accepted by the City.

b. Reimburse the Developer, the construction of the proposed 10" PVC sanitary sewer line when it is fully installed per approved plan and accepted by the City. The Participation Breakdown Worksheet, Exhibit A, is attached and made part of this Agreement.

Section 2. Nothing contained herein shall be considered as a waiver of the provisions of the City's Comprehensive Zoning Ordinance and subdivision regulations as the case may be.

Section 3. Severability Clause. If any section or provision of this Agreement or the application of that section or provision to any person, firm, corporation, situation or circumstance is for reason judged invalid, the adjudication shall not affect any other section or provision of this Agreement or the application of any other section or provision to any other person, firm, corporation, situation, or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the Agreement without

the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 4. Venue for this Agreement shall be in Rockwall County, Texas.

Section 5. Notice of this Agreement shall be in writing and addressed to the following:

CITY OF ROCKWALL

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	July 15, 2019
APPLICANT:	Judy Larson
CASE NUMBER:	P2019-011; *Lot 1, Block A, Devoll Place Addition*

SUMMARY

Discuss and consider a request by Judy K. Larson for the approval of a final plat for Lot 1, Block A, Devoll Place Addition being a 6.96-acre tract of land identified as Tract 26-2 of the E. M. Elliott Survey, Abstract No. 77, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, situated within the FM-549 Overlay (FM-549 OV) District, addressed as 556 N. FM-3549, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting to final plat a 6.69-acre tract of land (*i.e. Tract 26-2 of the E. M. Survey, Abstract No. 77*) into one (1) lot (*i.e. Lot 1, Block A, Devoll Place Addition*) for the purpose of constructing a single-family home on Lot 1.

☑ The subject property is a 6.69-acre tract of land that was annexed in 1998 [*Ordinance No. 98-10*]. On September 4, 2018, the City Council approved a change in zoning [*Ordinance No. 18-36*] from an Agricultural (AG) District to a Single-Family Estate (SFE-1.5) District for the subject property.

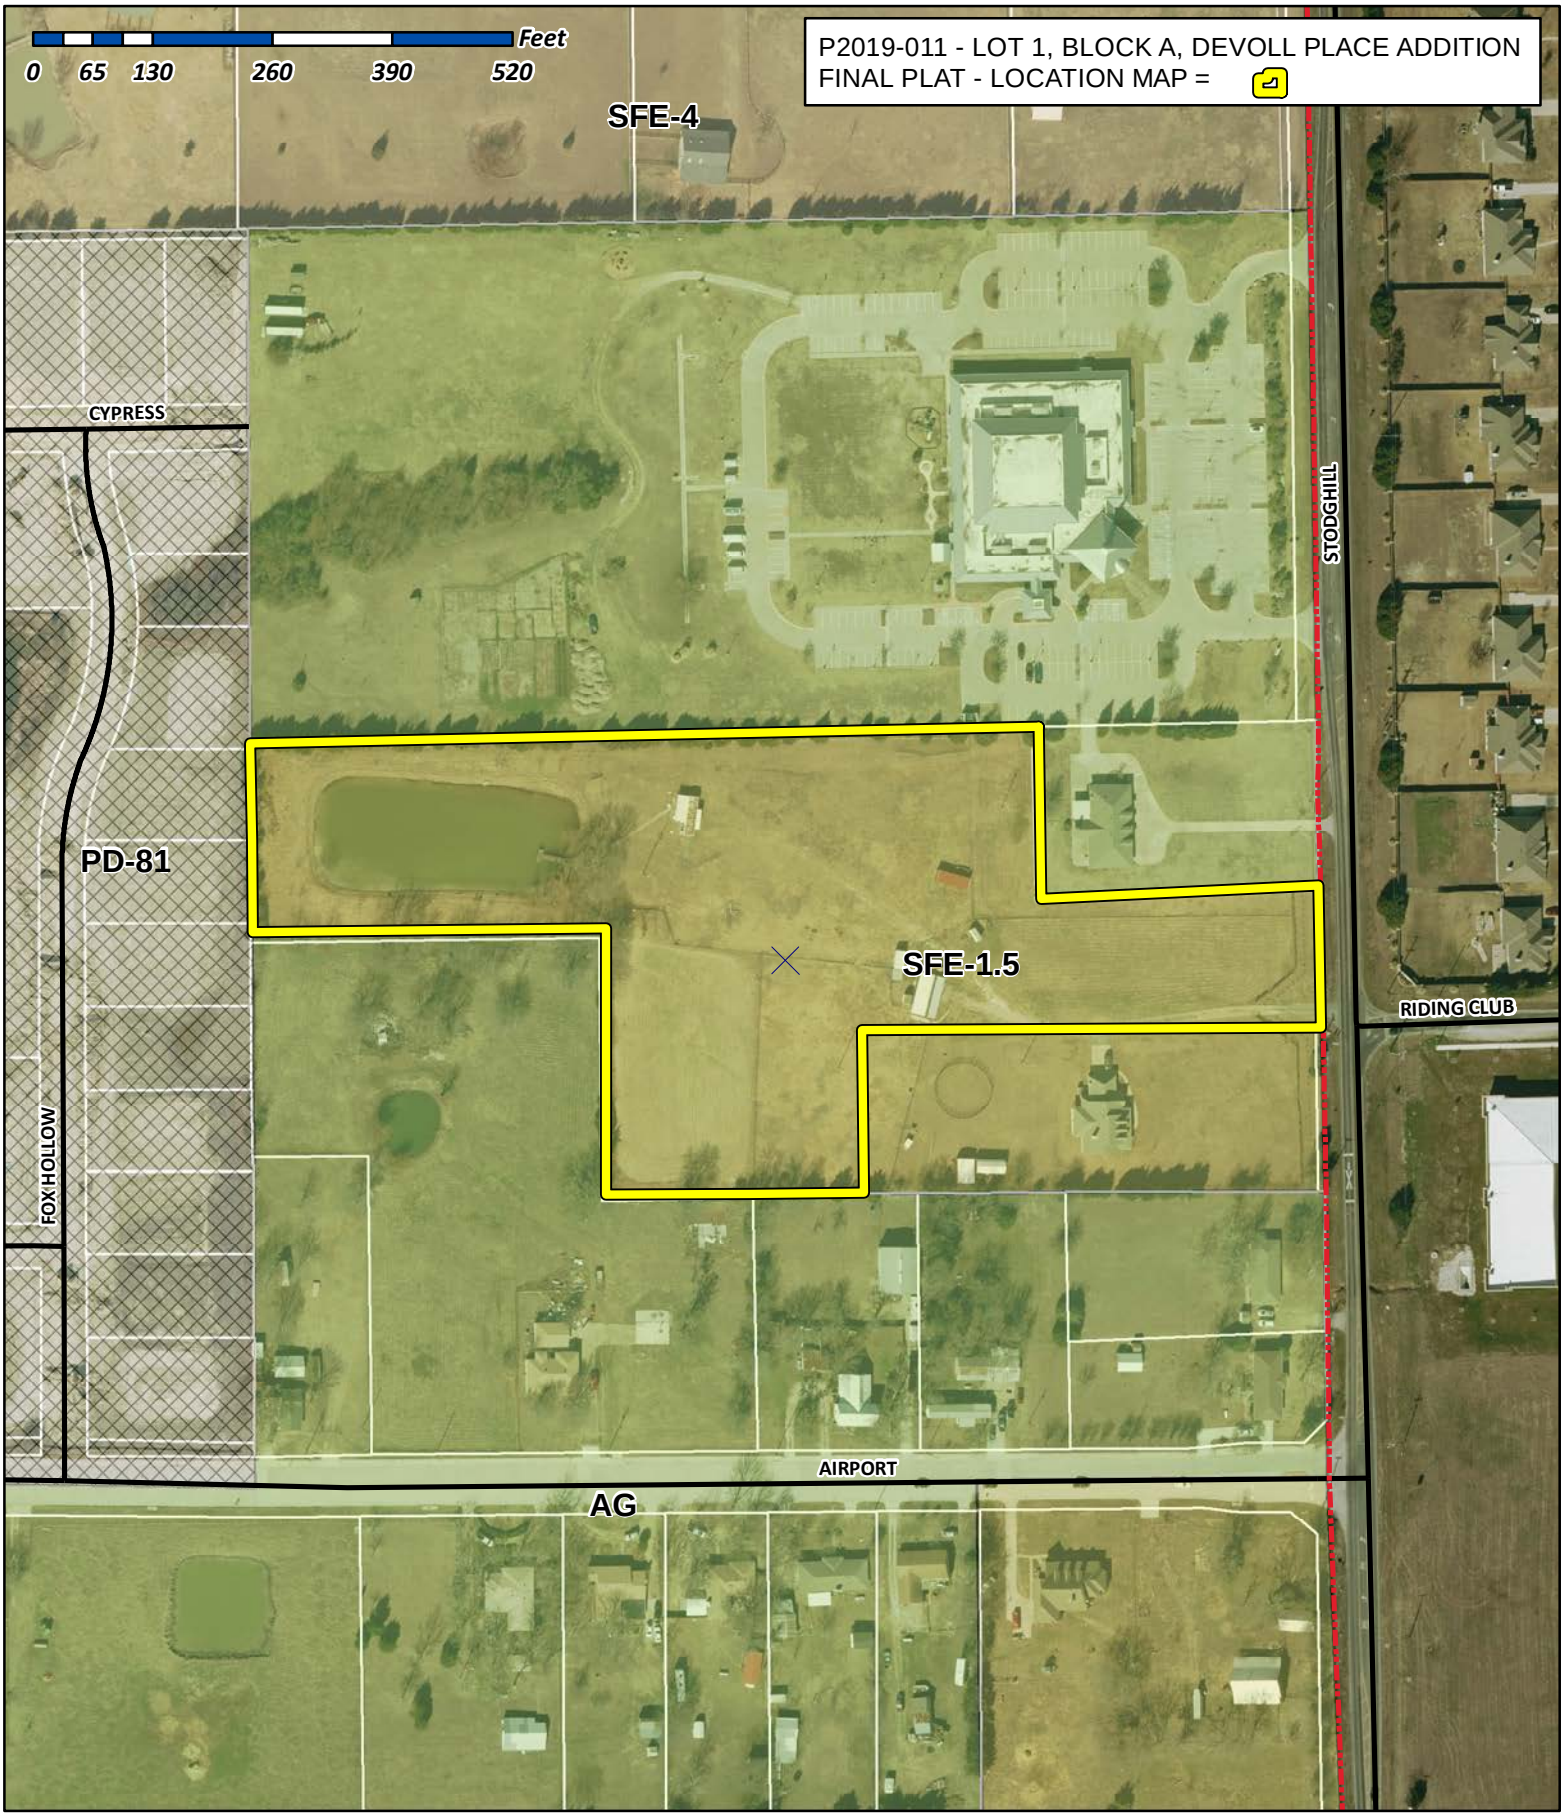
☑ On June 27, 2019, the Board of Adjustments (BOA) approved a variance [*Order No. BOA 2019-6-V*] to reduce [1] the required side setback to from 25-feet to six (6) feet, [2] to reduce the minimum lot frontage from 150-feet to 122-feet, and [3] to allow a 1,200 SF accessory building on the subject property. The applicant is also requesting a masonry exception [*Case No. MIS2019-007*] for the 1,200 SF accessory building [*Case No. MIS2019-010*].

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL



If the Planning and Zoning Commission chooses to recommend approval of the final plat for *Lot 1, Block A, Devoll Place Addition,* staff would propose the following conditions of approval:

(1) The Final Plat shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION

On July 9, 2019, the Planning and Zoning Commission approved a motion to recommend approval of the final plat by a vote of 6-0, with Commissioner Fishman absent.

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS JUDY K. LARSON, JAMES D. DEVOLL, VON and CAROLYN MAYNARD, BEING THE OWNERS OF A TRACT OF land in the City of Rockwall, County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the E.M. ELLIOTT SURVEY, ABSTRACT NO. 77, City of Rockwall, Rockwall County, Texas, and being a part of that 9.033 acres tract as described in a Warranty deed from Cal Cary and Betty Cary to Jess Devoll and Pat J. Devoll, dated September 18, 2000 and being recorded in Volume 1967, Page 79 of the Real Property Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner at the southwest corner of Lot 1, Block A, Maynard Place, an Addition to the City of Rockwall, Texas, according to the Plat thereof recorded in Cabinet G, Slide 351 of the Plat Records of Rockwall County, Texas and being N. 89 deg. 08 min. 37 sec. W., a distance of 492.01 feet from a 1/2" iron rod pipe in the West right-of-way line of F.M. Highway 3549 at the southeast corner of said Devoll tract;

THENCE N. 89 deg. 17 min. 46 sec. W. a distance of 285.23 feet to a 1/2" iron rod found for corner at the south most southwest corner of said Devoll tract;

THENCE N. 01 deg. 13 min. 24 sec. E. a distance of 285.38 feet to a 1/2" iron rod found for corner;

THENCE N. 88 deg. 55 min. 35 sec. W. a distance of 378.89 feet to a 1/2" iron rod found for corner at the west most southwest corner of said Devoll tract and in the east boundary line of Ridge Crest Addition, an Addition to the City of Rockwall, Texas, according to the Plat thereof recorded in Cabinet J. Slide 63 of the Plat Records of Rockwall County, Texas;

THENCE N. 01 deg. 09 min. 28 sec. E. a distance of 212.62 feet to a 3/8" iron rod found for corner at the northwest corner of said Devoll tract;

THENCE S. 89 deg. 11 min. 50 sec. E. a distance of 778.01 feet to a 1/2" iron rod found for corner;

THENCE S. 00 deg. 20 min. 27 sec. W. a distance of 199.93 feet to a 1/2" iron rod found for corner;

THENCE S. 89 deg. 14 min. 03 sec. E. a distance of 345.88 feet to a TXDOT disk monument found for corner in the west right-of-way line of F.M. 3549;

THENCE along a curve to the left having a central angle of 01°23'29", a radius of 5050.00 feet, a tangent of 61.32 feet, a chord bearing of S. 00 deg. 43 min. 06 sec. E., chord distance of 122.62 feet, along said right-of-way, an arch length 122.63 feet, to a TXDOT disk monument found for corner;

THENCE N. 89 deg. 14 min. 03 sec. W. a distance of 169.70 feet to a 1/2" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" found for corner;

THENCE S. 00 deg. 16 min. 26 sec. W. along the west boundary line of Maynard Place, a distance of 176.69 feet to the POINT OF BEGINNING and containing 303,114 square feet or 6.96 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as DEVOLL PLACE ADDITION, LOT 1, BLOCK 1, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We ,our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exaction's made herein.

CASE NO. P2019-

95

ORDER OF THE BOARD OF ADJUSTMENT
OF THE CITY OF ROCKWALL, TEXAS

ORDER NO. BOA 2019-6-V

WHEREAS, the Board of Adjustment held a public hearing on the 27th day of June, 2019, to consider the application of Judy Larson, as owner for the tract of land described below, for a variance from the Residential Single Family Zoning to reduce the required side lot set back, and minimum lot frontage from 150 ft. to 122.63 ft. known as 556 N. FM 3549, in order to construct a new free standing 1200 ft. accessary building.

WHEREAS, the applicant requested a variance from the said zoning which requires 25' side lot set back for property within the SFE 1.5 district. To allow a 6' side lot set-back, and minimum lot frontage from 150 ft. to 122.63 ft. for Lot 556 N FM 3549.

WHEREAS, after due consideration and discussion it appears that the granting of such variances would not cause an adverse effect on the surrounding properties and would not be contrary to the public interest.

NOW, THEREFORE BE IT ORDERED BY THE BOARD OF ADJUSTMENT OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That all of the above premises are found and determined to be true and correct and are incorporated into the body of this order as if copied in their entirety.

Section 2. That the request from the applicant for this Board to grant a variance from the zoning, be and in the same is hereby granted so as to allow 6' lot set back and minimum lot frontage from 150 ft. to 122.63 ft. on the North West side of lot 556 N. FM 3549

Section 3. That the Building Official of the City is hereby authorized and directed to issue the appropriate permits, if any, for the above described property under the terms and conditions of this Order.

Section 4. That this Order was passed by the concurring vote of at least four (4) members of the Board of Adjustment and is effective as of the 27th day of June, 2019,

CITY OF ROCKWALL

CITY COUNCIL MEMORANDUM

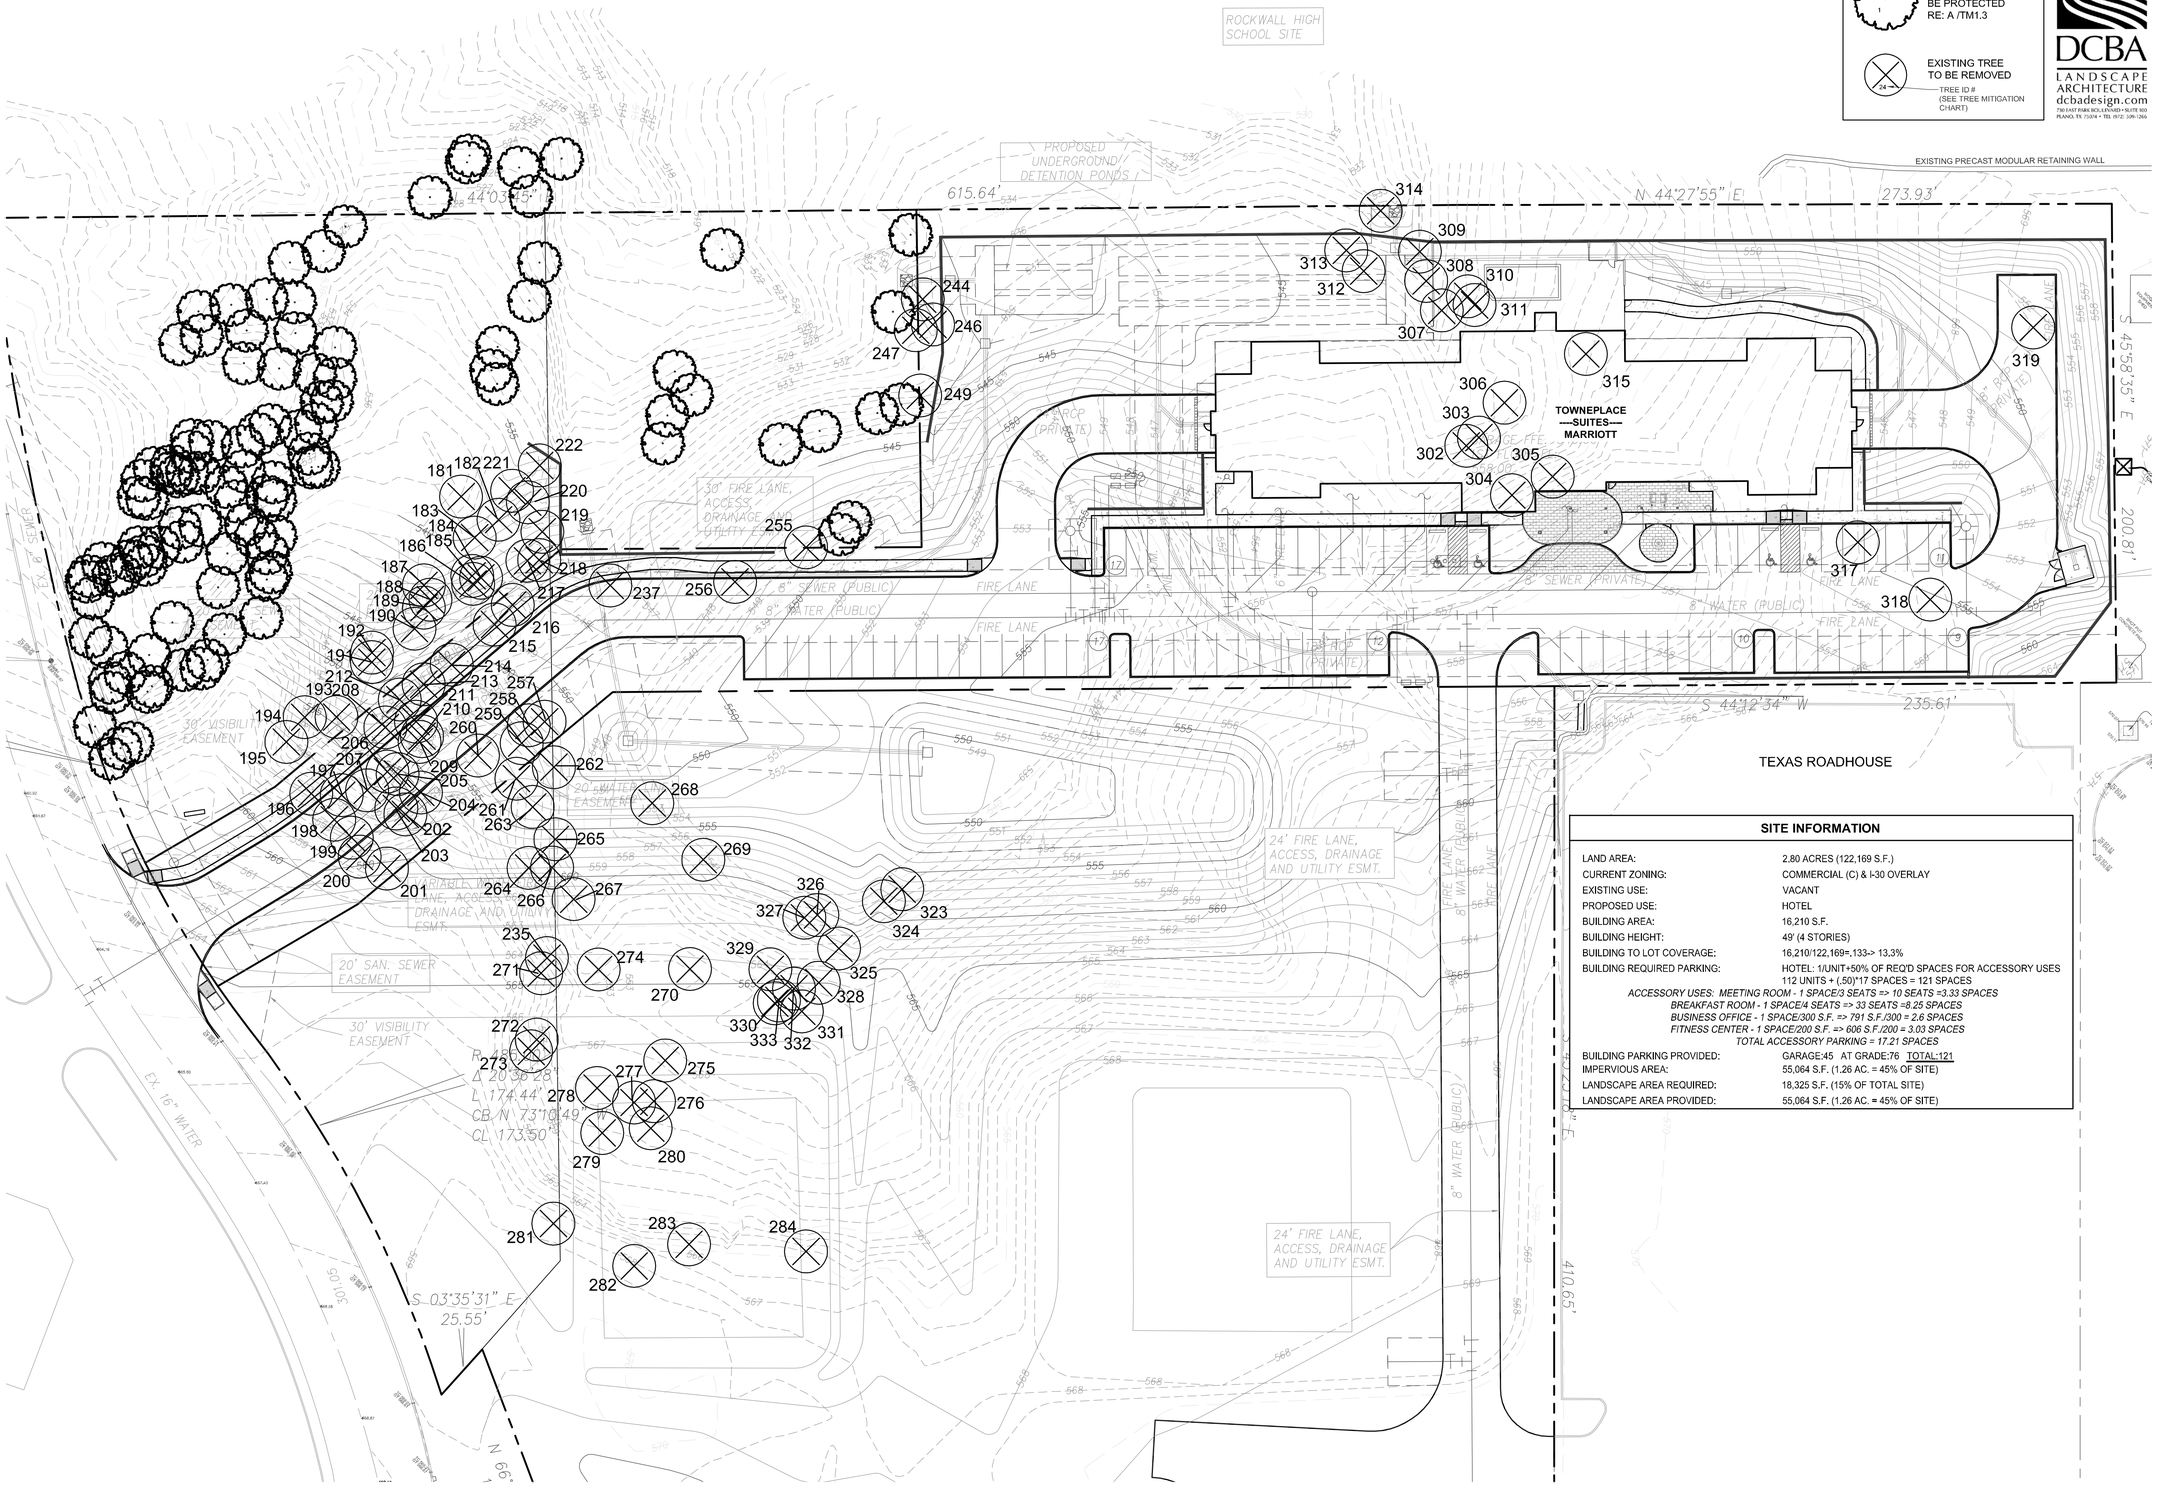
PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
CC:	Rick Crowley, *City Manager* Mary Smith, *Assistant City Manager* Joey Boyd, *Assistant City Manager*
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	July 15, 2019
SUBJECT:	MIS2019-012; *Alternative Tree Mitigation Plan*

The applicant, Cameron Slown of F. C. Cuny Corporation, is requesting the approval of an *Alternative Tree Mitigation Plan* for an 8.715-acre tract of land generally located at the northeast corner of the intersection of Greencrest Boulevard and the IH-30 Frontage Road. On October 9, 2019, the Planning and Zoning Commission approved a site plan [*Case No. SP2018-029*] for a residence hotel (*i.e. Marriott Townplace Suites*) on the subject property. The *Treescape Plan* submitted with this site plan indicated a total of 179-caliper inches of trees being removed from the subject property. The majority of these trees were classified as *Primary Protected Trees*, and consisted of Oak and Elm trees. The applicant's landscape plan provided with the site plan showed that this mitigation balance would be off-set by the incorporation of 182-caliper inches of new trees on the subject property. Since the approval of the site plan, the applicant has indicated that an additional 462-caliper inches of trees will be required to be removed from the site and the surrounding area due to on-site/off-site grading. Based on the new mitigation balance, the Unified Development Code (UDC) allows the applicant to buy tree credits at $200.00 per inch for up to 20% of the balance with the remaining balance being provided in trees on-site or to the Parks and Recreation Department. The $200.00 per inch can further be reduced to $100.00 per inch if the applicant is proposing to plant trees on-site, which in this case the applicant is. In lieu of the 20%/80% split required by the UDC, the applicant is requesting an *Alternative Tree Mitigation Plan* in accordance with Section 5, *Tree Mitigation Requirements*, of Article IX, *Tree Preservation*, of the UDC to pay 100% of the trees at the $100.00 rate. This equates to a total of $46,200.00 being added to the City's tree fund if approved. On July 9, 2019, the Planning and Zoning Commission voted 6-0 (with Commissioner Fishman absent) to recommend approval of the *Alternative Tree Mitigation Plan* to the City Council.

Since the applicant is proposing to satisfy the mitigation balance in full at the required $100.00 rate, staff has placed this item on the consent agenda. Should the City Council have any questions concerning this case, staff will be available at the July 15, 2019 City Council meeting.

GENERAL NOTES :



1. NO TREES WITHIN 5' OF PUBLIC UTILITIES.

TREE PROTECTION:

A. PRIOR TO CONSTRUCTION, ALL PROTECTED TREES AS SHOWN ON THE DEMOLITION PLANS SHALL BE CLEARLY MARKED WITH A BARRIER CONSISTING OF A 4' BARRICADE FENCE OR APPROVED EQUIVALENT TO PROTECT THE AREA UNDER THE CANOPY OF DRIP LINE OF ANY PROTECTED TREE OR GROUP OF PROTECTED TREES.

B. DURING CONSTRUCTION, THE BUILDER SHALL PROHIBIT THE CLEANING OF EQUIPMENT OR STORAGE OF MATERIALS AND THE DISPOSAL OF ANY WASTE MATERIAL, INCLUDING, BUT NOT LIMITED TO, PAINT, OIL, SOLVENTS, ASPHALT, CONCRETE, MORTAR, ETC., UNDER THE CANOPY OR DRIP LINE OF ANY PROTECTED TREE OR GROUP OF TREES.

C. NO ATTACHMENTS OR WIRES OF ANY KIND, OTHER THAN THOSE OF A PROTECTIVE NATURE, SHALL BE ATTACHED TO ANY PROTECTED TREE.

D. IN ADDITION, CONTRACTOR WILL BE RESPONSIBLE FOR ANY PROTECTED TREE WHICH DIES OR IS DAMAGED DUE TO CONTRACTOR NEGLECT. VALUE OF DEAD AND/OR DAMAGED PROTECTED TREE SHALL BE DETERMINED USING THE "GUIDE FOR PLANT APPRAISAL" PREPARED UNDER CONTRACT BY THE COUNCIL OF TREE AND LANDSCAPE APPRAISERS AND EDITED, PUBLISHED AND COPYRIGHTED BY THE INTERNATIONAL SOCIETY OF ARBORCULTURE, NINTH EDITION, 2000.

A TREE PROTECTION
SCALE: N.T.S. SECTION

TREE PRESERVATION NOTES: (SEE ARTICLE IX SECTION 5)
THE TREE MITIGATION REQUIREMENTS SHALL APPLY FOR ALL PROPERTIES THAT DO NOT FALL UNDER THE EXEMPTIONS LISTED IN SECTION 1.3, EXEMPTIONS, OF THIS ARTICLE. IN ADDITION, IF A TREESCAPE PLAN OR TREE REMOVAL PERMIT ALLOWS FOR THE REMOVAL OF A PROTECTED OR FEATURE TREE(S), THE APPLICANT AND/OR PROPERTY OWNER SHALL ACCOUNT FOR THE NUMBER OF INCHES OF TREE BEING REMOVED USING THE FOLLOWING CRITERIA:

1. PRIMARY PROTECTED TREES:
PRIMARY PROTECTED TREES MEASURING FOUR INCHES THROUGH 25 INCHES DBH SHALL BE REPLACED ON AN INCH-FOR-INCH BASIS (I.E. THE TOTAL NUMBER OF CALIPER INCHES OF TREE BEING REPLACED SHALL EQUAL THE TOTAL NUMBER OF CALIPER INCHES BEING REMOVED).

2. SECONDARY PROTECTED TREES:
HACKBERRY AND CEDAR TREES MEASURING 11 INCHES THROUGH 25 INCHES DBH SHALL BE REPLACED WITH A HALF-INCH FOR EVERY INCH REMOVED (I.E. THE TOTAL NUMBER OF CALIPER INCHES OF TREE REQUIRED TO BE REPLACED SHALL BE HALF (½) OF THE INCHES BEING REMOVED).

3. FEATURED TREES:
FEATURED TREES (I.E. ALL TREES GREATER THAN 25 INCHES) SHALL BE REPLACED WITH TWICE THE NUMBER OF INCHES BEING REMOVED (I.E. THE TOTAL NUMBER OF CALIPER INCHES OF TREE BEING REPLACED SHALL BE TWICE THE NUMBER OF CALIPER INCHES BEING REMOVED).

4. NON-PROTECTED TREE:
NO MITIGATION WILL BE REQUIRED FOR THE REMOVAL OF ANY TREE THAT IS LESS THAN FOUR INCHES DBH OR LESS THAN 11 INCHES DBH FOR HACKBERRY AND CEDAR TREES. IN ADDITION, NO MITIGATION SHALL BE REQUIRED FOR THE REMOVAL OF BOIS D'ARC, WILLOW, COTTONWOOD, LOCUST AND CHINABERRY TREES.

PLANT LIST

KEY	QTY	COMMON NAME	BOTANICAL NAME	SIZE	REMARKS
LO	19	LIVE OAK	*Quercus virginiana*	100 gallon; minimum 4" caliper x 15' height x 6' spread	Full head; matched.
RO	14	SHUMARD RED OAK	*Quercus shumardii*	Minimum 4" caliper x 15' height x 6' spread.	Container-grown; full head; matched. Cherry Lake Tree Farm or approved equal.
CE	3	CEDAR ELM	*Ulmus crassifolia*	Minimum 4" caliper x 16' height x 7' spread	Field-collected, B&B; full head; matched.
BC	7	BALD CYPRESS	*Taxodium distichum*	Minimum 4" caliper x 11' height x 5' spread.	Field-collected, B&B; full head; matched.
CM	9	'MUSKOGEE' CRAPE MYRTLE	*Lagerstroemia indica 'Muskogee'*	30 gallon; minimum 7' height x 3' spread; single-trunk.	Container grown; full; multi-trunk.
TYH	5	TREE YAUPON HOLLY	*Ilex vomitoria*	Minimum 10' height x 6' spread.	Field-collected; berried; multi-trunk (3-5 canes); matched.
NRS	9	NELLIE R. STEVENS HOLLY	*Ilex 'Nellie R. Stevens'*	30 gallon; Minimum 6' height and 3' spread.	Container-grown; matched; full-to-ground.
NPH	101	NEEDLE POINT HOLLY	*Ilex cornuta 'Needlepoint'*	7 gallon; minimum 36" height and 30" spread	Full-to-ground; plant 36" o.c.
GSN	18	'FLIRT' NANDINA	*Nandina domestica 'Murasaki'*	5 gallon; minimum 15" height and 15" spread.	Full; plant 30" o.c.
DBH	26	DWARF BUFORD HOLLY	*Ilex cornuta 'Burfordii' nana*	5 gallon; minimum 15" height x 15" spread.	Full; plant 30 o.c.
BHJ	32	BAR HARBOR JUNIPER	*Juniperus horizontalis 'Bar Harbor'*	5 gallon.	Full-to-ground; plant 24" o.c.
CH	101	CARISSA HOLLY	*Ilex cornuta 'Carissa'*	3 gallon.	Full; plant 24" o.c.
AJ	963	ASIAN JASMINE	*Trachelospermum asiaticum*	1 gallon; minimum 3 runners at 12" long.	Full; plant 18" o.c.
LIR	171	'BIG BLUE' LIRIOPE	*Liriope muscari 'Big Blue'*	4" pots.	Full; plant 12" o.c.
SC	252	SEASONAL COLOR	*To be determined*	1 gallon.	Full; ready to bloom; plant 15" o.c.

LANDSCAPE GENERAL NOTES: (RE: TECHNICAL SPECIFICATION SECTION ALSO):

1. QUANTITIES SHOWN ON PLANT LIST ARE LANDSCAPE ARCHITECT'S ESTIMATE ONLY AND SHOULD BE VERIFIED PRIOR TO BIDDING. CONTRACTOR SHALL BE RESPONSIBLE FOR BIDDING AND PROVIDING QUANTITY OF PLANTS REQUIRE AT SPACING DESIGNATED FOR BED SIZES AND CONFIGURATIONS SHOWN ON PLANS REGARDLESS OF QUANTITIES DESIGNATED ON PLANT LIST.
2. CONTRACTOR SHALL NOTIFY LANDSCAPE ARCHITECT OF ANY DISCREPANCIES, AMBIGUITY, OR UNLABELED PLANTS ON PLANS PRIOR TO BID SUBMITTAL. IF DISCREPANCY, AMBIGUITY, OR UNLABELED PLANT IS NOT CLARIFIED BY LANDSCAPE ARCHITECT PRIOR TO BID SUBMITTAL DATE, CONTRACTOR SHALL NOTE SUCH ITEM ON BID.
3. CONTRACTOR SHALL PROVIDE REPRESENTATIVE SAMPLES OF SHRUB AND GROUNDCOVER STOCK FOR LANDSCAPE ARCHITECT'S AND/OR OWNER'S APPROVAL PRIOR TO MAJOR SHIPMENT OF MATERIALS TO SITE. IF REPRESENTATIVE EXAMPLES CANNOT BE PROVIDED, CONTRACTOR SHALL FURNISH GOOD QUALITY PHOTOGRAPH OF LANDSCAPE MATERIALS TO LANDSCAPE ARCHITECT AND/OR OWNERS. PHOTOGRAPHS SHALL HAVE A MEANS OF DETERMINING SCALE AND SIZE OF MATERIALS WITHIN THE PHOTOGRAPH (I.E. FIELD POLE WITH ONE FOOT INCREMENT FOR TREES).
4. AFTER TILLAGE AND CLEANING, ALL AREAS TO BE GRASSED SHALL BE LEVELED, AND FINE GRADED. THE REQUIRED RESULT SHALL BE THE ELIMINATION OF RUTS, DEPRESSIONS, HUMPS, AND OBJECTIONABLE SOIL CLODS. DURING THE SOIL PREPARATION PROCESS, A "ROCK PICK" OR "ROCK RAKE" SHALL BE USED TO GATHER SURFACE STONES AS SMALL AS ONE INCH (1") IN DIAMETER.
5. TURF TO BE SOLID SOD COMMON BERMUDAGRASS (Cynodon dactylum). SIZE: LENGTH: 24 INCHES PLUS OR MINUS 5%, WIDTH: 18 INCHES PLUS OR MINUS 5%, THICKNESS: 1-1/2 INCHES EXCLUDING TOP GROWTH AND THATCH. NOT STRETCHED, BROKEN, OR TORN. STAKES (IF REQUIRED): SOFTWOOD, 3/4 INCH DIAMETER, 8 INCH LENGTH.VERIFY THAT SOIL TO DEPTH OF 2 INCHES IN COMPACTED AREAS. WATER DRY SOIL TO DEPTH OF 4"-6". BEFORE SODDING VERIFY FINISH GRADES ARE TO ELEVATIONS CALLED FOR, SMOOTH AREA TO BE SODDED TO PRODUCE AN EVEN SURFACE WITH NO PEAKS OR VALLEYS AND FREE OF ALL DEBRIS, AND WET SURFACE TO A UNIFORM DEPTH OF 4"-6" OR UNTIL UPPER SURFACE IS REASONABLY WET AND COMPACTED. INSTALL SOD SPECIES AS INDICATED ON PLANTING PLANS. TRANSPLANT SOD WITHIN 48 HOURS AFTER HARVESTING. BEGIN SODDING AT BOTTOM OF SLOPES, LAY FIRST ROW OF SOD IN STRAIGHT LINE WITH LONG DIMENSION OF PADS PARALLEL TO SLOPE CONTOURS. BUTT SIDE AND END JOINTS. STAGGER END JOINTS IN ADJACENT ROWS. DO NOT STRETCH OR OVERLAP SOD. PEG SOD ON SLOPE RATIO OF 3 TO 1 OR GREATER WITH MINIMUM OF TWO STAKES PER SQUARE YARD, USING 6" MINIMUM NURSERY GRADE BAMBOO STAKES. INSTALL A 24" DIAMETER CIRCULAR 'SAUCER' AROUND ALL EXISTING TREES PLANTED IN AREAS TO RECEIVE SOD. ENSURE THAT THE TRUNK IS IN THE CENTER OF THE 'SAUCER'. DO NOT CUT ANY ROOTS OR IN ANY WAY INJURE OR CAUSE DAMAGE TO TREES. WATER SOD IMMEDIATELY AFTER TRANSPLANTING. ROLL SOD, EXCEPT ON PEGGED AREAS, WITH ROLLER WEIGHING NOT MORE THAN 150 LBS. PER FOOT OF ROLLER WIDTH. MAKE TWO (2) PASSES OR AS REQUIRED TO PROVIDE A SMOOTH, MOWABLE SURFACE WITHOUT SCALPING. WATER SOD AND SOIL TO DEPTH OF 6" WITHIN FOUR HOURS AFTER ROLLING.
6. WEEPING LOVE GRASS SEED HYDROMULCH - GRASS SEED SHALL BE "Eragrostis curvola" (WEEPING LOVE GRASS). THE SEED SHALL BE HARVESTED WITHIN ONE (1) YEAR PRIOR TO PLANTING, FREE OF JOHNSONGRASS, FIELD BIND WEED, DODDER SEED, AND FREE OF OTHER WEED SEED TO THE LIMITS ALLOWABLE UNDER THE FEDERAL SEED ACT AND APPLICABLE SEED LAWS. THE SEED SHALL NOT BE A MIXTURE. THE SEED SHALL BE HULLED, EXTRA FANCY GRADE, TREATED WITH FUNGICIDE, AND HAVE A GERMINATION AND PURITY THAT WILL PRODUCE, AFTER ALLOWANCE FOR FEDERAL SEED ACT TOLERANCE, A PURE LIVE SEED CONTENT NOT LESS THAN 85%. SEED SHALL BE LABELED IN ACCORDANCE WITH U.S. DEPARTMENT OF AGRICULTURE RULES AND REGULATIONS. TYPICAL MIX FOR 800 -GALLON TANK WITH COVERAGE NOT TO EXCEED 6,000 S.F. SHALL CONSIST OF 6LBS. OF GRASS SEED, 350 LBS. OF CONWED MULCH, AND 150 LBS. OF 17-17-17 FERTILIZER. ADD FLEXTERRA TACKIFIER AT MANUFACTURER'S RECOMMENDED RATE.
7. CONTRACTOR SHALL GUARANTEE A FULL STAND OF GRASS, REGARDLESS OF WHETHER A PERMANENT LANDSCAPE IRRIGATION SYSTEM IS INSTALLED. CONTRACTOR SHALL PROVIDE TEMPORARY IRRIGATION OR HAND WATER AS REQUIRED FOR TURF ESTABLISHMENT.
8. SOIL AMENDMENT: "A PROFESSIONAL BEDDING SOIL" AS PRODUCED BY LIVING EARTH TECHNOLOGIES, INC., 1808 W. NORTHWEST HIGHWAY, DALLAS, TEXAS (PHONE: 214-869-4332) OR "NATURAL T. L. COMPOST" AS PRODUCED BY SOIL BUILDING SYSTEMS, INC., 1770 "Y" STREET, DALLAS, TEXAS (PHONE: 972-831-8181), OR APPROVED EQUAL.
9. TREE HOLES TO BE EXCAVATED 2' GREATER THAN BALL DIAMETER AND 6" DEEPER.

   TREE BACKFILL SHOULD BE COMPOSED OF 5 PARTS OF EXISTING SOIL EXCAVATED FROM THE HOLE TO ONE PART SOIL AMENDMENT, THOROUGHLY MIXED WITH 5 LBS. PER CUBIC YARD BACKFILL FERTILIZER (13.13.13 ANALYSIS BULK FERTILIZER). TREE BACKFILL TO BE MECHANICALLY MIXED PRIOR TO BACKFILL OPERATIONS.
10. SHRUB PITS SHALL BE EXCAVATED 12" GREATER THAN CONTAINER DIAMETER AND 6" DEEPER. BACKFILL WITH 1/2 EXISTING SOIL AND 1/2 SOIL AMENDMENT (OR APPROVED EQUAL) AS NOTED UNDER NOTE 7. ABOVE, THOROUGHLY BLENDED BY MECHANICAL MEANS PRIOR TO BACKFILL.
11. SOIL PREPARATION FOR GROUNDCOVER, SHRUB, AND SEASONAL COLOR BEDS:

    A) EXCAVATE EXISTING SOIL, IF NECESSARY, AND ADD TO SHRUB, GROUNDCOVER, AND SEASONAL COLOR AREAS THE FOLLOWING:

    4" LAYER OF COMPOST MIX

    14-14-14 SLOW RELEASE FERTILIZER (OSMACOTE) AT A RATE OF 5 LBS. / 100 S.F.

    B) SPREAD MATERIALS UNIFORMLY AND CULTIVATE THOROUGHLY BY MEANS OF A MECHANICAL TILLER. TILL TO A MINIMUM DEPTH OF 8".

    C) POCKET PLANTING OF SHRUB, GROUNDCOVER, AND SEASONAL COLOR IS NOT ALLOWED.
12. MULCH TOPDRESSING TO BE MINIMUM 2" LAYER DOUBLE SHREDDED HARDWOOD, SPREAD UNIFORMLY ON ALL SHRUB AND GROUNDCOVER BEDS AND ON ALL TREE SAUCERS. AVAILABLE FROM LIVING EARTH TECHNOLOGY (PHONE: 214-869-4332) OR APPROVED EQUAL.
13. BED EDGING (IF APPLICABLE) TO BE 1/8" X 4" COL-MET "COMMERCIAL" EDGING AS MANUFACTURED BY COL-MET, GARLAND, TEXAS (PHONE: 800-829-8225), OR APPROVED EQUAL. COLOR: BLACK; UNLESS NOTED OTHERWISE ON DRAWINGS.
14. ALL HOLES FOR TREES AND LARGE SHRUBS SHALL BE TESTED FOR WATER RETENTION PRIOR TO TREE OR SHRUB INSTALLATION. AFTER HOLE IS EXCAVATED, IT IS TO BE FILLED WITH WATER TO THE TOP OF THE EXCAVATION. IF, AFTER 24 HOURS, THE HOLE STILL HOLDS WATER, THE CONTRACTOR SHALL EXCAVATE AN ADDITIONAL 6" FROM THE BOTTOM OF THE HOLE. THE LANDSCAPE CONTRACTOR SHALL THEN INSTALL 6" OF NATIVE WASHED GRAVEL COVERED ON THE TOP (AND UP TO A MINIMUM OF 12" ON THE SIDES OF THE HOLE) WITH FILTER FABRIC. THE CONTRACTOR SHALL ALSO INSTALL A CAPPED 3" DIAMETER PVC SUMP WHICH WILL EXTEND FROM NEAR THE BOTTOM OF THE ROCK LAYER TO 3" ABOVE THE PROPOSED FINISH GRADE SO THE HOLE CAN BE EVACUATED THROUGH MECHANICAL MEANS.

CASE NUMBER:	P2019-026; *Lots 1-12, Park Station, Phase 1 Addition*

SUMMARY

Discuss and consider a request by Bill Bricker of Columbia Development Co., LLC for the approval of a preliminary plat for Lots 1-12, Block A, Park Station, Phase 1 Addition, being a 16.26-acre tract of land identified as a portion of Lot 1, Block 1, Indalloy Addition (7.409-acres) and Tract 31 of the R. Ballard Survey, Abstract No. 29, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 87 for Light Industrial (LI) District land uses, addressed as 1100 & 1300 E. Washington Street, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting to preliminary plat a 16.26-acre tract of land (*i.e. a portion of Lot 1, Block 1, Indalloy Addition and Tract 31 of the R. Ballard Survey, Abstract No. 29*) into 12 lots (*i.e. Lots 1-12, Block A, Park Station Addition*) for the purpose of establishing a lot layout for a townhome development (*i.e. Park Station, Phase 1*). The preliminary plat also depicts the remainder of the 16.26-acre subject property and the proposed mixed-use development that will consist of residential, retail, office, and industrial land uses. These are depicted on Tracts 2-5. In addition, the applicant has submitted preliminary drainage and utility plans showing how the property can be adequately served.

☑ The subject property was annexed in 1960 [*Ordinance No. 60-01*]. On November 19, 2018, the City Council approved a change in zoning from a Light Industrial (LI) District to Planned Development District 87 (PD-87) for Single-Family 10 (SF-10), General Retail (GR), and Light Industrial (LI) District land uses.

☑ On July 2, 2019, the Parks and Recreation Board reviewed the preliminary plat and made the following recommendation:

- The developer shall pay pro-rata equipment fees of $6,191.00 (*i.e. $516.00 x 12 lots*) to be paid at the time of final plat.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

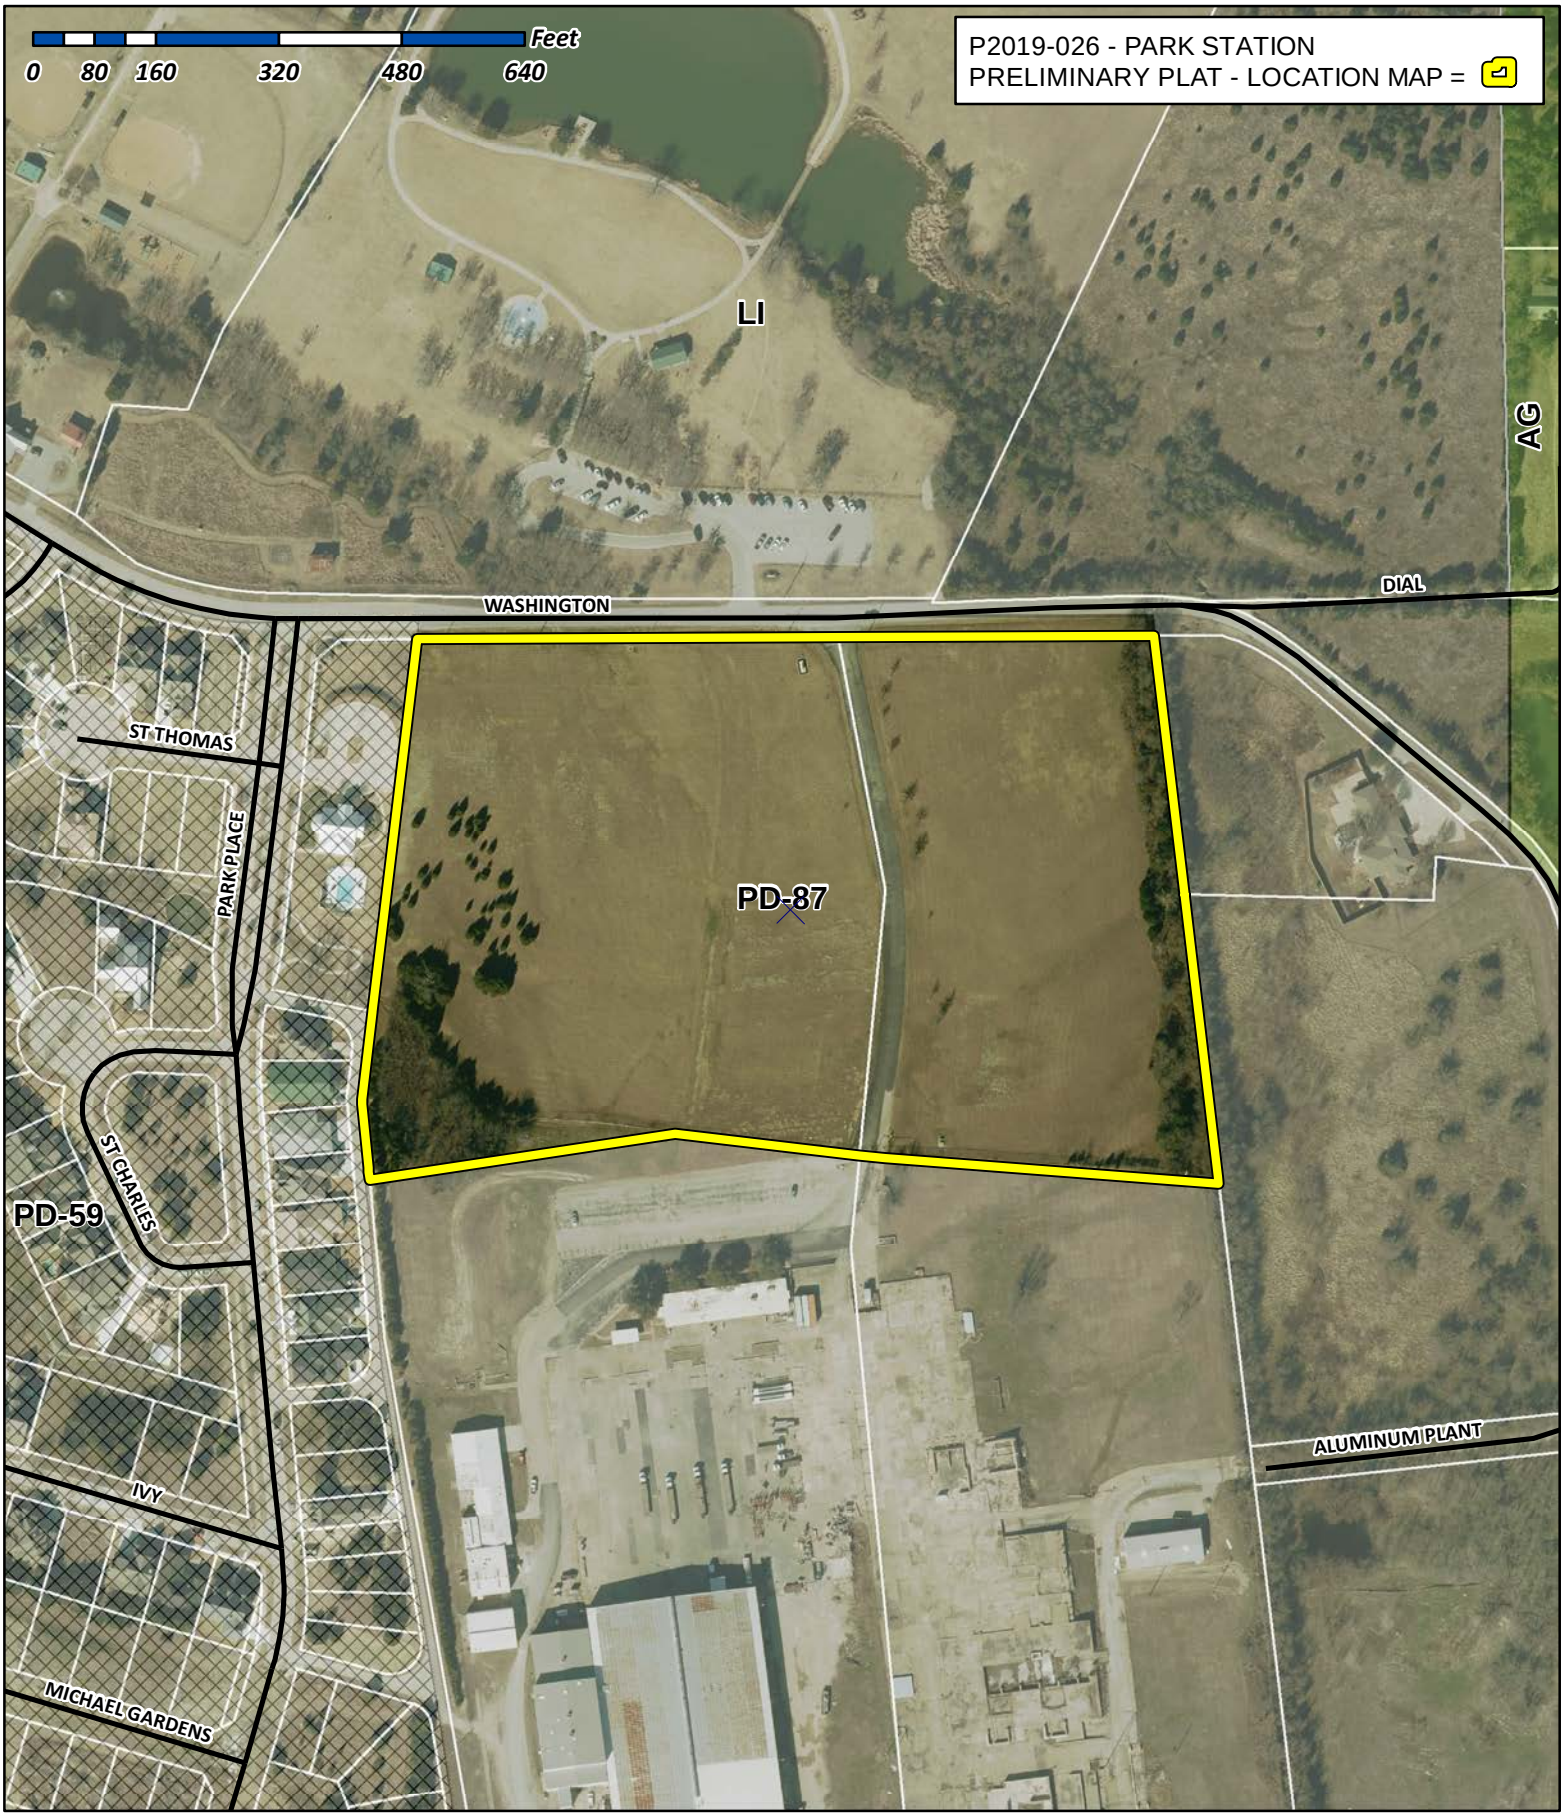
☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the preliminary plat for *Lots 1-12, Block A, Park Station Addition*, staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;



(2) The development shall adhere to the recommendations of the Parks and Recreation Board;

(3) The Park and Recreations Board shall accept the proposed 0.02-acre land dedication; and

(4) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION

On July 9, 2019, the Planning and Zoning Commission approved a motion to recommend approval of the preliminary plat by a vote of 6-0, with Commissioner Fishman absent.

CITY COUNCIL MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
CC:	Rick Crowley, *City Manager* Mary Smith, *Assistant City Manager* Joey Boyd, *Assistant City Manager*
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	July 15, 2019
SUBJECT:	SP2019-014; *Variance for a Retail Shopping Center and House of Worship*

On June 25, 2019, the Planning and Zoning Commission approved a site plan for a retail shopping center and house of worship on a 2.681-acre tract of land located on the north side of Turtle Cove Boulevard. As part of this case, the applicant was requesting the approval of a variance to the roof design standards stipulated for the Scenic Overlay (SOV) District. These standards require that "…(a)ll structures that have a building footprint of less than 6,000 SF … be constructed with a pitched roof." In this case, the proposed retail shopping center has a building footprint of 4,535 SF, and the requested variance was to allow the applicant to construct the building with a flat roof. Since the variance was located within an overlay district, it required approval by a supermajority vote (*i.e. three-fourths vote of those members present*) of the Planning and Zoning Commission. The motion to approve the site plan and all associated variances passed by a vote of 5-2, with Commissioners Lyons and Fishman dissenting. While a simple majority vote was required to approve the site plan, the vote on the variance failed to get the required supermajority vote (*i.e. 6 out of 7 Commissioners*). Per the requirements of Subsection 6.16, *Variances to the General Overlay District Standards*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), the applicant is appealing the decision to the City Council. Staff should reiterate that the City Council is only voting on the variance to the roof design standards *(i.e. if the building should have a pitched roof or a flat roof*), and that this decision is discretionary decision for the City Council. Staff should also note that in order to approve the variance, the City Council will be required to approve the variance by a supermajority vote (*i.e. three-fourths majority of all those members present*). Finally, staff should point out that the Architectural Review Board did review the variance request on June 11, 2019 and voted 6-0 (*with Board Member Neill absent*) to recommend approval of the variance. Should the City Council have any questions concerning this case, staff and the applicant will be available at the *July 15, 2019* City Council meeting.

David,

Thank you for your quick clarification on the Property is within the SOV District and to follow the standard. There are other two vital reason we have mentioned as well to consider and those are as follows.

1. Enclosed the Partial Areal View showing lot of buildings (less than 6,000 sf.) have Flat Roofs either SOV or IH30 Overlay District area.
2. Also shown on the Eastside of this property (510 & 500 Turtle Cove Blvd.) have got 2-Storied big buildings with Flat Roof. Flat Roof influence is visible while you are driving along the Turtle Cove Blvd. road.

We are looking forward to consider the Flat Roof as we have designed and get the approval. Please let us know for any further question.
Thank you.

Sincerely,

Ahmed Helaluzzaman

Subject: Center for Peace & Marcy, Inc.: Flat Roof Design Approval Request as a Varience

Dear Mr. Ryan Miller,

We do appreciate you and your entire team for helping us to get approval of the Site Plan for the above mentioned subject community organization. Now we are requesting to approve the Flat Roof Design item for the following reasonable reasons.

Here we have enclosed the Partial Zoning Map showing that the Building is located outside the Scenic Overlay (SOV) District. In that case this building may not need any variance. We also enclosed the Partial Areal View showing lot of buildings (less than 6,000 sf.) have Flat Roofs either SOV or IH30 Overlay District area.

On the Eastside of this property (510 & 500 Turtle Cove Blvd.) have got 2-Storied big buildings with Flat Roof. Flat Roof influence is visible while you are driving along the Turtle Cove Blvd. road.

Please accept our Flat Roof design and approve the only variance request. Let us know for any

question.

Thank you.

Sincerely,

Ahmed Helaluzzaman

On Wed, Jun 26, 2019 at 4:35 PM Gonzales, David <DGonzales@rockwall.com> wrote:

> Mr. Helaluzzaman,
>
> As per our conversation this morning, I want to be sure that it was understood what the Planning and Zoning Commission approved and what your options are as you move forward with the site plan process. As you know during last night's meeting, the Planning and Zoning Commission made a motion to approve the site plan request, which included the variance as requested for not meeting the roof standards of the Scenic Overlay (SOV) District. The Planning and Zoning Commission's motion to approve the site plan had passed by a vote of 5 to 2, with Commissioners Lyons and Fishman voting against. However, the variance to the SOV required an approval of a super majority vote (i.e. ¾ majority or 6 of 7) in order for the variance to have been approved. Although the site plan was approved by a simple majority vote, the variance was not approved since it did not meet the minimum 6 of 7 members (i.e. super majority) voting in favor of the variance request. With this being said, you the option of requesting an appeal of the Planning and Zoning Commissions decision to the City Council. According to Subsection 6.16, Variances to the General Overlay District Standards, of Article V, District Development

Standards, of the Unified Development Code states as follows:

Unless otherwise specified in this section, an applicant may request the Planning and Zoning Commission grant a variance to any provision contained in Section 6.02 , General Overlay District Standards, where unique or extraordinary conditions exist or where strict adherence to the technical requirements of this section would create an undue hardship. If the Planning and Zoning Commission denies a variance request, the applicant may appeal the decision to the City Council by filing a written request to the Planning and Zoning Department. The request should provide justification for the variance or variances being requested (i.e. detail the unique or extraordinary conditions that exist and/or the undue hardship created by strict adherence to the technical requirements). Approval of any variance to the requirements of this section by the Planning and Zoning Commission or City Council shall require a supermajority vote (i.e. a three-fourths vote of those members present), with a minimum of four (4) votes in the affirmative required for approval.

(Ord. No. 18-47, § 4, 11-19-2018)

If you choose to pursue the filing of an appeal, please address this to the Planning and Zoning Department c/o Ryan Miller, Director of Planning and Zoning at your convenience. The only item under review would be the variance being requested for the flat roof design.

Should you choose not to appeal the decision of the Planning and Zoning Commission, it should be known that the site plan has been approved, with the exception of the building elevations. With no substantial changes to the site plan, the building elevations would need to be amended to reflect a pitched roof system to be in conformance with the SOV district standards. Should you choose to amend the building elevations to conform to the SOV requirements, staff will review the elevations and will forward these to the Architectural Review Board for their recommendation.

Should you have any further questions, please do not hesitate to contact staff.

Thank you,

CITY OF ROCKWALL

CITY COUNCIL MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
CC:	Rick Crowley, *City Manager* Mary Smith, *Assistant City Manager* Joey Boyd, *Assistant City Manager*
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	July 15, 2019
SUBJECT:	Z2018-049; *SUP for Heritage Christian Academy*

On January 7, 2019, the City Council approved a Specific Use Permit (SUP) [*Case No. Z2018-046; S-200*] allowing existing temporary educational buildings to remain on the Heritage Christian Academy property at 1408 S. Goliad Street [*SH-205*]. According to this Specific Use Permit (SUP), "(t)he Specific Use Permit (SUP) shall be valid for a period of six (6) months from the date of approval. At which time the City Council shall review the SUP to determine if a two (2) year extension is warranted in accordance with *Exhibits 'C'* and *'D'* [*i.e. the applicant's letter and phase-out schedule*] …" The purpose of the six (6) month extension was to allow the applicant time to assemble a plan for the phasing out of the temporary educational buildings. On June 25, 2019, the applicant -- *Brad Helmer* -- requested to meet with the City Council in accordance with the requirements of the SUP ordinance.

Staff Note: An email from the applicant was received on May 22, 2019 requesting to meet with the City Council. Staff responded to the email requesting additional information for the case so that it could be processed in accordance with the SUP procedures; however, the applicant did not submit the requested information and submitted a subsequent email on June 25, 2019 re-requesting an appointment with the City Council. Since this was not advertised through the SUP procedures, if the City Council grants the extension, staff will prepare an ordinance revision, advertise, and notify the case in accordance with these procedures and bring the ordinance revision back to the City Council for approval.

As the City Council may recall, the issue at hand is the extension of temporary educational buildings. A summary of the history for this case is as follows:

- ✓ *October 6, 1997 [Ordinance No. 97-25]*: The City Council approved a Conditional Use Permit (CUP) allowing two (2) educational buildings on the subject property. These buildings were not constructed.

- ✓ *July 6, 1999 [Ordinance No. 99-23]*: The City Council approved a CUP -- *superseding the requirements of Ordinance No. 97-25* -- for one (1) temporary education building on the subject property. The terms of this CUP ordinance, stipulated that the CUP was valid for a period of three (3) years with the ability to be extended one (1) time for an additional two (2) years.

- ✓ *March 3, 2003 [Ordinance No. 03-10]*: The City Council approved a CUP allowing three (3) temporary educational buildings on the subject property for a period of five (5) years.

- ✓ *September 8, 2009 [Ordinance No. 09-34]*: The City Council approved a SUP for three (3) temporary educational buildings on the subject property for a period of one (1) year.

- ✓ *September 20, 2010*: The City Council extended *Ordinance No. 09-34* for a period of three (3) years.

- ✓ *November 4, 2013 [Ordinance No. 13-44]*: The City Council approved a SUP for three (3) temporary educational buildings on the subject property for a period of five (5) years.

- ✓ *January 7, 2019 [Ordinance No. 19-02]*: The City Council approved a SUP for three (3) temporary educational buildings on the subject property for a period of six (6) months to allow the applicant time to put together a plan for the phasing out of the temporary educational buildings.

Another issue that was brought out by City staff during this case, was the need to satisfy outstanding items associated with parking lot improvements on a project that was permitted in 2016. Specifically, a letter sent to the applicant on February 12, 2018 and reiterated in the City Council meeting on November 19, 2018 outlined the outstanding items, which included submitting as-builts on the detention pond and providing a letter of concurrence (*the complete list is attached*). The applicant agreed to satisfy these requirements at the meeting; however, as of the date of this memo none of the items have been addressed.

For the City Council's review staff has provided a copy of *Ordinance No. 19-02* (*S-200*), the minutes from the November 19, 2018 and December 17, 2018 City Council meetings, and a copy of the applicant's request on June 25, 2019. The requested two (2) year extension is a discretionary decision for the City Council. As stated above if the City Council chooses to approve the two (2) year extension, staff will prepare a revised SUP ordinance and bring it back to the City Council. Should the City Council have any questions staff and the applicant will be available at the July 15, 2019 City Council meeting.

CITY OF ROCKWALL

ORDINANCE NO. 19-02

SPECIFIC USE PERMIT NO. S-200

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW THREE (3) TEMPORARY EDUCATIONAL BUILDINGS ON A 6.64-ACRE PARCEL OF LAND ZONED MULTI-FAMILY 14 (MF-14) DISTRICT AND IDENTIFIED AS LOT 1, BLOCK A, HERITAGE CHRISTIAN ACADEMY ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Brad Helmer on behalf of Heritage Christian Academy (HCA) for the approval of a Specific Use Permit (SUP) allowing existing temporary educational buildings, situated on a 6.64-acre tract of land, zoned Multi-Family 14 (MF-14) District, and being identified as Lot 1, Block A, Heritage Christian Academy Addition, City of Rockwall, Rockwall County, Texas, addressed 1408 S. Goliad Street [SH-205], and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code (UDC) [*Ordinance No. 04-38*] and Specific Use Permit (SUP) No. S-114 [*Ordinance No. 13-44*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the approval of this ordinance shall supersede all requirements stipulated in Ordinance No. 13-44; and

SECTION 2. That the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing existing temporary educational buildings in a Multi-Family 14 (MF-14) District as stipulated by Article IV, *Permissible Uses,* and Article V, *District Development Standards,* of the Unified Development Code (UDC) [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 3. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in Section 3.9, *Multi-Family 14 (MF-14) District,* of Article V, *District Development Standards,* of the Unified

Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be amended in the future, and shall be subject to the additional following conditions:

3.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a temporary educational building on the *Subject Property* and conformance to these requirements is necessary for continued operations:

1) The temporary educational buildings shall generally conform to the building elevations and site plan depicted in *Exhibit 'B'* of this ordinance.

2) The subject property shall not have more than three (3) temporary educational buildings;

3) The Specific Use Permit (SUP) shall be valid for a period of six (6) months from the date of approval. At which time the City Council shall review the Specific Use Permit to determine if a two (2) year extension is warranted in accordance with *Exhibits 'C' and 'D'* of this ordinance.

4) The temporary educational buildings are subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

3.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] will require compliance to the following:

1) Should the subject property fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC) [*Ordinance No. 04-38*], the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*].

SECTION 4. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 5. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 6. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 7. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 8. That this ordinance shall take effect immediately from and after its passage.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF JANUARY, 2019.

Jim Pruitt, Mayor

Re: Temporary Classroom Buildings Phase Out Schedule Narrative

Please accept the following narrative in conjunction with the provided timeline (schedule) as Heritage Christian Academy's board-approved plan to phase out the 3 temporary classroom buildings located on our property at 1408 S. Goliad. We appreciate the Council's willingness to work with us as we commit to this plan. Additionally, as a 501(c)(3) nonprofit corporation, we must fundraise to support any and all initiatives. As tuition covers typically 80-85% of our operations budget, charitable giving is requisite and vital to our mission. Given this, undertaking a monumental task such as these infrastructure improvements, requires an immense amount of work and faith. We acknowledge and embrace this for our students' sake.

For the past 2 years, we have been in the process of developing and undertaking a capital campaign to build a gymnasium on our property. As the leadership of HCA, we feel that having this building will serve to increase enrollment and allow us to continue becoming even more excellent in fulfilling our mission. We retained the services of Mission Advancement (MAP), a capital campaign consultant company, to guide us through this process. The following timeline was developed in partnership with MAP to guide our efforts.

February, 2017 – December, 2017:

- Campaign Organization
- Leadership Enlistment
- Case Development
- Resource Mapping
- Logic Narrative
- Site maps, renderings and other marketing artifacts finalized

January, 2018 – December, 2018

- Large Donor Relationship Meetings (Top 10% discovered during Resource Mapping)
- Board Commitments
- Large Donor Request for Donation Meeting (Top 10%)

January, 2019 – December, 2019

- Continue Work with Top 10%
- Begin Next 20% Donor Meetings with Requests for Donation
- Possible Public Appeal (After 80% of goal reached)

After January, 2020

- Continue Working Donor Base
- Begin Construction

In early October, 2018, it was brought to our attention that the plan and priority we are currently invested in was not in line with the priority expectation of the City regarding the Temporary Classroom Buildings on our property. We immediately met to begin discussions of how to continue working toward our vision of a

gymnasium and also satisfy a commitment that was made to the City Council by former administration. As evidenced in the provided schedule, the Board has developed a plan that will accomplish both.

We have begun reengaging our architect and general contractor to reevaluate the property to determine the most cost-efficient, and best use of space for adding classrooms into the plan along with a slightly modified gymnasium. As you might expect, while we are not starting completely over, we must duplicate some work that has already been done and paid for to date. Our general contractor feels that we will be able to complete the following items in no more than 180 days, with the goal of presenting to the City Council no later than June, 2019.

The following will need to be accomplished during the 180 days:

- Meetings with architect, engineers, contractors, etc. to share our needs and desires
- Architect finalizes preliminary site plan, floor plan and elevations
- Discussions with City of Rockwall for feasibility of plan
- GC to send out preliminary RFPs to determine new cost of construction
- Garner Board support and approval of new plan
- Prepare for presentation of new plan and more specific timeline to City Council

I, and the HCA Board, commit to offering quarterly updates to the City Council according to the dates on the attached schedule. God willing, donors will share our vision and support this process financially. Thank you in advance for understanding the challenges associated with having to fundraise for initiatives such as this.

The leadership of HCA still remains committed to building a gymnasium on our property. We are also committed, however, to honesty and transparency. Our commitment to the City Council of making classrooms the priority of our plan, and still staying true to our vision of having our own gymnasium will be a testament to this.

Sincerely,

Brad Helmer, Ed.D.
Head of School

Exhibit 'D':
Phase-Out Schedule

Temporary Classroom Buildings
Phase-Out Schedule

Date Proposed	Activity	Date Complete	Outcome
11/27/18	HCA Board Meeting to discuss plan for phase-out of temporary classroom buildings.	11/27/2018	Preliminary information presented to Board regarding planning and zoning committee concerns and city council concerns. Began discussions about slightly altering direction of capital campaign to include classrooms sooner.
11/29/18	HCA building committee meeting with architect and builder	11/29/2018	Began discussions about adding classrooms sooner into the plan we have already vetted. Subsequent meetings were discussed and the first will be set for 2nd week in January.
12/04/18	Board work session to narrow down phase-out plan	12/4/2018	Invited our General Contractor to have conversation with the Board regarding some options to maintain our focus on a gymnasium, but adding classrooms sooner. Consensus is to have architect and GC look at using the current plan's footprint to add classrooms.
12/10/18	Board meeting to finalize phase-out plan for presentation to Rockwall City Council on 12/17/18	12/10/2018	A brief history of HCA's capital initiatives was discussed and agreement was reached on a plan that is unanimously backed by the Board. (See attached narrative)
12/11/18	Submit plan to Korey Brooks, Sr. Planner, for subsequent presentation of plan to the Rockwall City Council prior to the 12/17/18 CC Meeting	12/11/2018	Documents submitted to Mr. Brooks for Council consideration.
12/11/18	With HCA Board approval, begin to speak with currently committed donors to update them on the revised plan and give opportunity to withdraw their donation, or give permission to use their donation toward the revised plan.		Conversations to take place this week 12/11-12/14.
12/17/18	Present phase-out schedule to Rockwall City Council	12/17/2018	
01/2019	2nd meeting with GC and architect to begin the feasibility study, redraw site plan, floor plans and elevation renderings. Meet with donors who have expressed interest in in-kind donations such as roofing, lanscaping, etc., as part of determining a new dollar amount for the capital campaign. HCA anticipates no more than 180 days to finalize for presentation to the City Council.	1/19 - 6/19	
6/3/2019	Update to City Council		
06/2019	Begin meeting with donors to show plans and accept commitments. Begin construction as soon as capital campaign commitments allow and with Board and City of Rockwall permit approval.		
9/2/2019	Quarterly Update to City Council		
12/2/2019	Quarterly Update to City Council		
3/2/2020	Quarterly Update to City Council		
6/8/2020	Quarterly Update to City Council		
9/7/2020	Quarterly Update to City Council		
12/7/2020	Quarterly Update to City Council		
3/8/2021	Quarterly Update to City Council		
6/7/2021	Quarterly Update to City Council		
9/6/2021	Quarterly Update to City Council		
12/6/2021	Quarterly Update to City Council		
3/7/2022	Quarterly Update to City Council		
6/6/2022	Quarterly Update to City Council		
9/5/2022	Quarterly Update to City Council		
12/5/2022	Quarterly Update to City Council		
	Immediate removal of temporary classrooms targeted for occupancy date of new classroom portion of the revised plan, possibly between 1/1/2021 and 6/1/2023 and dependent on approval from the City of Rockwall.		

Bill Bauman
2300 Springer Drive
Arlington, TX

Mr. Bauman came forth and provided a lengthy presentation to Council related to this request. Following the presentation, Mayor Pro Tem Fowler opened the public hearing, asking if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed the Public Hearing.

Councilmember Daniels moved to approve Z2018-045. Mayor Pro Tem Fowler seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-___
SPECIFIC USE PERMIT NO. S-___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, TEXAS, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE ZONING MAP TO ADOPT A SPECIFIC USE PERMIT (SUP) ALLOWING FOR A FREE STANDING COMMERCIAL ANTENNA, ON A 0.08-ACRE PORTION OF A LARGER 7.64-ACRE TRACT OF LAND KNOWN AS YELLOW JACKET PARK AND IDENTIFED AS TRACT 11 OF THE J. CADLE SURVEY, ABSTRACT NO. 65, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; AND MORE SPECIFIALLY DESCRIBED IN *EXHIBIT 'A'* OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 5 in favor with 2 absent (Pruitt and Trowbridge).

4. **Z2018-046** - Hold a public hearing to discuss and consider a request by Brad Helmer on behalf of Heritage Christian Academy (HCA) for the approval of an **ordinance** for a Specific Use Permit (SUP) allowing existing temporary educational buildings in conjunction with a private school to remain on a 6.64-acre parcel of land identified as Lot 1, Block A, Heritage Christian Academy Addition, City of Rockwall, Rockwall County, Texas, zoned Multi-Family 14 (MF-14) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1408 S. Goliad Street [SH- 205], and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information pertaining to this agenda item. In 1999, the City Council approved a Conditional Use Permit (CUP) to allow one (1) temporary educational building on the subject property for a period of five (5) years. The CUP stipulated that after a period of three (3) years, the City Council could review the CUP to determine if permanent buildings were planned to replace the temporary

educational buildings. In 2003, the City Council approved a Conditional Use Permit (CUP) to allow additional temporary educational buildings on the subject property for a period of five (5) years. In 2009, the City Council approved a Specific Use Permit (SUP) to allow three (3) temporary educational buildings on the subject property. At that time, the Specific Use Permit (SUP) ordinance stipulated that it shall be valid for a period of one (1) year, at which time the City Council shall review the Specific Use Permit (SUP) to determine if an extension is warranted. On September 20, 2010, the City Council reviewed the Specific Use Permit (SUP) and approved an extension for three (3) years (i.e. ending September 7, 2013). In November, 2013, the City Council approved a five (5) year extension (i.e. ending November 4, 2018). Staff should note, at the time of the approval of the five (5) year extension, staff, the Planning and Zoning Commission, and the City Council were informed that this would be the last request for extension of the Specific Use Permit (SUP) and that permanent educational buildings would be constructed within that time. Should this request be approved, it will be the fifth extension for temporary educational buildings on the subject property. Should the City Council choose to approve this, request, the applicant would be allowed five (5) additional years to continue the use of the temporary educational buildings on the subject property, and shall be required to provide an updated schedule indicating the expected phasing-out of the temporary educational buildings. Should the City Council deny this request, the applicant shall be required to remove the temporary educational buildings within a reasonable amount of time. On October 19, 2018, staff mailed 34 notices to property owners and residents within 500-feet of the subject property. Staff also notified the Waterstone Estates Homeowner's Association (HOA), which is the only HOA/Neighborhood Organization that is within 1,500-feet of the subject property participating in the Neighborhood Notification Program. Additionally, staff posted a sign on the subject property as required by the UDC. At the time this report was drafted, staff had not received any notices returned.

Mayor Pro Tem Fowler called the applicant forth to address the Council at this time.

Brad Helmer
2917 Chuckwagon Drive
Rockwall, TX

Mr. Helmer came forth and provided a lengthy presentation to Council pertaining to this request. He explained that any staff members from HCA who have may previously come before the city council to request time extensions on the use of portable buildings are no longer employed by HCA. Therefore, he was not aware that a plan (schedule) needed to be presented to the City as part of a request to obtain an additional extension for use of temporary portable buildings. He went on to explain the proposal he plans to present to his board of directors later this month pertaining to future planning for the addition of classrooms, a P.E. gym and a future "competition" gymnasium. He went on to explain that he will commit to attempting to complete this plan for future expansion and addition of classrooms within three to four years; however, he would not be able to do so within one year. He shared that $750,000 has been raised so far for a competition gymnasium; however, the board and school can reapproach the donors to ask that the funding be redirected to be used for additional classrooms instead.

Mayor Pro Tem Fowler opened the public hearing, asking if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed the

public hearing.

Councilmember Johannesen provided brief comments and clarified that the applicant is now requesting a renewal of the SUP to allow for the use of portable buildings for an additional five-year period. Mr. Helmer indicated that, yes, he believes that the school will be able to complete needed expansions within three and no more than five years.

Councilmember Daniels shared that he understands Mr. Helmer inherited this issue when he began working for HCA; however, he does still have concerns about the Council outright granting a five-year extension without having some sort of benchmarks in place to ensure HCA's plans are progressing forward towards eliminating the need for these temporary, portable buildings. Mr. Miller shared that he can work with the applicant to develop conditions to include within the SUP ordinance that will identify benchmark events and dates to ensure that HCA will in fact move forward with its plans to eventually eliminate these portable buildings.

Councilmember Macalik expressed that she has concerns that are similar to those expressed by Councilman Daniels. On top of those concerns, she pointed out that this school is likely to continue to grow its student population. She generally feels that giving HCA an additional five years is too much time. She would like to see it be granted for less time.

Mayor Pro Tem Fowler clarified that the city will want to see very detailed, concrete plans and benchmarks identified within the ordinance.

Councilmember Hohenshelt shared his strong belief that he does not believe that an additional five years should be granted. He does not wish to extend it for longer than one year, as the school has had nineteen years at this point to get rid of the temporary buildings. He does not expect that the applicant will have newly built classrooms ready and open within one year; however, he does believe it will be prudent to grant it for only one year and then require the applicant to again appear before the Council to report on its progress in implementing its plans to work towards eliminating the portable buildings.

Councilmember Hohenshelt moved to continue the public hearing for a period of thirty days to allow the applicant time to work with staff to identify measurable benchmarks for inclusion in the ordinance language. Councilmember Johannesen seconded the motion, which passed by a vote of 5 ayes with 2 absences (Pruitt and Trowbridge).

XIII. ACTION ITEMS

1. **SP2018-032** - Discuss and consider a request by William Salee of the Rockwall Independent School District (RISD) for the approval of variances to the material and articulation requirements in conjunction with an approved site plan for an Elementary School on a 17.2922-acre tract of land being identified as Lot 1, Block A, RISD Elementary School Addition and Tract 2-7 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall, Texas, zoned Planned Development District 70 (PD-70) for single family land uses, located at the southeast corner of Greenway Boulevard and FM-552, and take any action necessary.

Following the discussion, Council took no formal action related to this appointment item.

XII. PUBLIC HEARING ITEMS

1. **Z2018-046** - Hold a public hearing to discuss and consider a request by Brad Helmer on behalf of Heritage Christian Academy (HCA) for the approval of an **ordinance** for a Specific Use Permit (SUP) allowing existing temporary educational buildings in conjunction with a private school to remain on a 6.64-acre parcel of land identified as Lot 1, Block A, Heritage Christian Academy Addition, City of Rockwall, Rockwall County, Texas, zoned Multi-Family 14 (MF-14) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1408 S. Goliad Street [SH-205], and take any action necessary **(1st Reading).**

On November 19, 2018, the City Council continued the public hearing for Case No. Z2018-046 for the purpose of allowing the applicant time to provide a plan concerning the temporary education buildings on the subject property. On December 11, 2018, Brad Helmer of Heritage Christian Academy (HCA) submitted a plan to staff laying out a timeline for the construction of a new building and the removal of the temporary educational buildings. In Mr. Helmer's plan, he has laid out several items that need to be accomplished in the next 180-days, which will be followed by a presentation to the City Council concerning the course of action HCA will take moving forward. In response to this proposal, staff has adjusted the SUP Ordinance to expire in six months, in June of 2019 (i.e. 180 days). Based on the ordinance and HCA's presentation, the City Council will have the discretion to extend the ordinance for a two (2) year period, which should be a sufficient amount of time for the applicant to complete construction of the proposed educational building and remove the temporary education buildings.

Mayor Pruitt opened the public hearing, calling the applicant forth to speak at this time.

Mr. Brad Helmer
2917 Chuckwagon Drive
Rockwall, TX

Mr. Helmer came forth and provided explanatory comments to the Council related to the school's plan to phase out the temporary, portable classroom buildings. He expressed that getting a new building funded and built by 2021 is a hefty goal; however, they will be working on it. He offered to provide quarterly updates to the city council between Sept. 2019 and December of 2022.

Following the public hearing, Councilmember Fowler moved to approve Z2018-046. Councilmember Daniels seconded the motion. Following additional dialogue, the ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-____
SPECIFIC USE PERMIT NO. S-____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW THREE (3)

TEMPORARY EDUCATIONAL BUILDINGS ON A 6.64-ACRE PARCEL OF LAND ZONED MULTI-FAMILY 14 (MF-14) DISTRICT AND IDENTIFIED AS LOT 1, BLOCK A, HERITAGE CHRISTIAN ACADEMY ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 7 ayes to 0 nays.

2. **Z2018-043** - Hold a public hearing to discuss and consider a request by Michael Worrell of Rockwall Honda for the approval of an **ordinance** amending SUP No. S-76 (Ordinance No. 10-26) to allow changes to be made to an existing Motorcycle Dealership with Accessory Boat and Trailer Sales being a 1.152-acre parcel of land identified as Lot 6, Block A, Newman Center #1 Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, and take any action necessary (1st Reading).

Planning Director, Ryan Miller, provided background information pertaining to this agenda item. He explained that the proposed shade structures will be located on the east side of the property and will be utilized provide shade for the display of vehicles. The applicant is also requesting to provide decomposed granite with a hard edge in order to contain the material -- along IH-30 -- for the display areas, which are located on the east and south sides of the property (see Exhibit 'C' of the draft ordinance). These areas are currently grass surfaces and once constructed using the decomposed granite, will provide stability for the displayed vehicles. Additionally, the applicant is requesting to allow for the display area to be expanded within the ten (10) foot landscape buffer along East IH-30. It should be known that staff has met with the applicant regarding the landscaping of this display area and Mr. Worrell has agreed to provide potted trees and plantings within the display area along IH-30. The purpose of this type of landscape scheme is due to a 16-inch water main that runs parallel within an existing 20-ft water easement located at the property line. This solution is to mimic the use of trees and other landscaping that would normally appear within the ten (10) foot landscape buffer, and has been included as a condition of approval.

Seventeen public notices were sent out to adjacent property owners; however, no responses have been received back by city staff at this time. The Planning & Zoning Commission has recommended approval of this request.

The applicant, Mr. Worrell, came forth and provided brief comments to Council concerning his request. Councilmember Macalik then moved to approve Z2018-043. Councilmember Trowbridge seconded the motion. Mayor Pruitt opened the public hearing, asking if anyone would like to speak. There being no one wishing to come forth and speak, Mayor Pruitt then closed the public hearing.

The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-__
SPECIFIC USE PERMIT NO. S-___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO AMEND

Re: *Heritage Christian Academy Parking lot Expansion Phase 1* – Checklist for final acceptance

Dear *Matthew Thomas,*

The following items are to be completed at the above mentioned site to bring the project into compliance with City specifications and to meet specific project requirements. The listed items are items identified during the walkover of the site and are to be addressed prior to final acceptance of the project. The City will conduct daily site visits (during daily rounds) at the project until completion of the noted items. A copy of this list will also be directed to the developer/owner and general contractor. The below listed items are to be directed to the appropriate responsible parties for completion.

-Required Documentation-

1. The City of Rockwall requires that the design engineer provide a letter of concurrence. The letter is to verify that the drainage flow patterns, grade to drain locations and drainage structures, including the volume of the surface and/or subsurface detention system and detention outlet structure located at the project were installed to the general elevations as shown on the approved plans. The letter shall also verify that the project was constructed to meet the approved design requirements or is within acceptable design tolerances. **The Design Engineer or his designated representative shall direct all "survey-work"** necessary to **verify** elevations and design compliance. The letter of concurrence is to have the **seal and signature** of the design engineer.

Example of Letter of Concurrence verbiage which will not be accepted by the City:

"A representative of this company visited the site and has visually verified to the best of the engineer's professional opinion, knowledge and belief, the final grading and site drainage comply with the City approved plans and details".

Example of Letter of Concurrence verbiage which will be accepted by the City:

"A representative of this company visited the site and has visually verified to the best of the engineer's professional opinion, knowledge and belief, that based on my observations along with survey work conducted at the site, the final grading, site drainage, and detention outfall with required volume comply with the City approved plans and details".

2. The Design Engineer shall furnish a digital file of the project formatted in Auto Cad 14, or 2000 format or newer **and** Adobe Acrobat (pdf.) format with a CD-ROM. The disk shall include a full set of plans along with any landscaping, wall plans, and details sheets.

- Submit 1-set of blue line drawings of the "Record Drawings" containing copies of all sheets. The blue line copy will be reviewed by the construction inspector **PRIOR** to producing the "Record Drawing" disk. This will allow any revisions to be addressed prior to producing the disk.

Record Drawing Disk drawings shall have the Design Engineers seal, signature and must be stamped and dated as "Record Drawings" or "As Built Drawings" on all sheets.

The City of Rockwall will not accept any Record Drawing disk drawings which include a disclaimer with the like or similar verbiage. A disclaimer shall not directly or indirectly state or indicate that the design engineer or the design engineers, surveyor/surveyors did not verify or grades after construction, or that the Record Drawings were based solely on information provided by the construction contractor/contractors. Any Record Drawings which include like or similar disclaimer verbiage will not be accepted by the City of Rockwall.

Example of Acceptable Disclaimer:

To the best of our knowledge Smith Engineering, Inc., hereby states that this plan is As-Built. This information provided is based on surveying at the site and information provided by the contractor.

3. 4% Engineering Inspection Fee (Final As-Built Adjustments) – Prior to the start of construction at the project, engineering inspection fees for the project were established. The preliminary inspection fee amounts were based upon the projected contract quantity and unit price amounts which were submitted to the City. A fee based on 4% of the projected quantity cost was paid to the City. The final fee amounts are to be adjusted if necessary to match the unit quantity and unit price amounts based on the as-built contract unit quantity amounts. Please provide a copy of the as-built quantity amounts with total amounts for each item. The as built amounts should be noted or stamped as "as-built contract quantity and unit price amounts". The engineering inspection fee charged by the City will be adjusted to match these amounts if necessary. The City is to receive payment on the adjusted cost amounts prior to project acceptance. As-built contract **unit quantity and unit price** amounts for the pavement (including fire lane if applicable), drive approaches, sidewalks, barrier free ramps, wastewater, storm sewer, drainage structures (including underground detention), water lines, along with all associated fixtures which are located within the defined right-of-ways and easements of the project.

4. Storm Sewer Outfall Coordinates - It is now necessary to tie down all the storm sewer outfall pipes to our state plane Coordinate System. The design engineer will be required to provide the following coordinate information which is to be submitted in letterform showing the x, y, and z coordinates at the end of all storm sewer outfalls of the project.

5. Maintenance bonds are to be submitted to the City of Rockwall for the paving and utilities installed at the project. The bonds shall be **two-year** 10% maintenance bonds to cover maintenance, for a two-year timeline starting from the **"Date of City of Rockwall's Acceptance"** for the project. There is to be no date in the starting timeline only the above

wording.

A. The utility bond shall cover the following utility systems and their associated fixtures.

- Storm sewer (including detention systems)

B. The paving bond shall cover the following:
- Street Pavement.

6. Engineered Retaining Wall Inspection & Letter of Concurrence – The City requires the design engineer for any retaining wall which is three-feet in height or taller, to periodically inspect, or make arrangements for his designated representative to periodically inspect the retaining wall/walls during the construction process. The design engineer is to submit letter of concurrence for the retaining wall/walls to the City prior to project acceptance. The letter shall contain the **seal and signature** of the retaining wall design engineer.

- Site Items -

1. Grass is to be established at all of the disturbed areas. The grass is to be maintained until such time that a general coverage density of 75-80% of the disturbed area has been established with a minimum grass stand height of one-inch. This includes the area on the westside of Damascus where all the trees were mulched and extra dirt was scattered out from the detention pond

2. Maintain existing or install additional construction site erosion BMP's as necessary, to stabilize the disturbed soil or contain silt migration.

3. Clean mud from concrete flume in detention pond and underground storm drain pipe under Damascus needs to be videoed inspected to make sure it hasn't been filled up with silt from the mud coming off the slopes of the parking lot into a unprotected inlet.

4. All construction related trash material and miscellaneous debris is to be removed from the site and properly disposed.

5. Maximum slopes allowed by the City of Rockwall shall be a 4:1 slope. All slope areas which exceed the above noted slope requirements are to be re-graded or retained unless otherwise approved by the City Engineer. All slopes are to be graded so as to achieve the most gradual slope possible, unless otherwise noted on the approved construction plans.

6. Final Grading – re-establish all drainage swales, as necessary to achieve conformance to the drainage patterns shown on the approved grading plans. Grade to drain any locations which may hold water or obstruct approved drainage flow patterns. All graded areas, including slopes are to be brought to a final grade surface that is smooth and uniform being relatively free of erosion washouts, tire ruts, dirt clods, silt deposits etc, care should be taken to re-grade any rough surface areas prior to the application of erosion matting or grass seeding. From the curb to the retaining wall on Damascus the ROW needs to be regraded and grass established.

7. All required landscaping is to be installed at the site and comply with the approved landscape plan. The site landscaping is to be inspected by Ryan Miller- Director of Planning and Zoning, or his designated representative prior to project acceptance.

For additional information, regarding this check list or site work status please contact – *JEFF PERSFUL*, who is the designated Construction Inspector for the site-work on this project for the City of Rockwall, regarding this list. Project acceptance is subject to but not necessarily limited to the above listed punch list items. *JEFF PERSFUL*, may be reached at telephone no. 972-771-7746.

Sincerely,

JEFF PERSFUL

Construction Inspector
City of Rockwall, Engineering Department

AGENDA

ROCKWALL CITY COUNCIL REGULAR MEETING
Monday, August 05, 2019 - 4:00 PM
City Hall Council Chambers - 385 S. Goliad St., Rockwall, TX 75087

I. CALL PUBLIC MEETING TO ORDER

II. WORK SESSION

pg.7 **1.** Hold a work session to discuss the progress of public input phase and engineering design for four of the 2018 Roadway Bond Projects; Ridge Road West; S. Lakeshore Dr. (Summit Ridge Dr. to Tanya Ln) & Russwood Dr.; Lakedale Dr., S. Lakshore Dr. (2000 block), & Woodpark Ln. and Turtle Cove Blvd (RR tracks to Ridge Rd.), and take any action necessary.

III. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding Economic Development prospects, projects, and/or incentives pursuant to Section 551.087 (Economic Development) and possible land purchase pursuant to Section 551.072 (Real Property) and Section 551.071 (Consultation with Attorney)
2. Discussion regarding possible sale of real property in the vicinity of Downtown, pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
3. Discussion regarding appointments to and interviews for city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Board of Adjustments - pursuant to Section 551.074 (Personnel Matters)
4. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

IV. ADJOURN EXECUTIVE SESSION

V. RECONVENE PUBLIC MEETING (6:00 P.M.)

VI. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

VII. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER DANIELS

VIII. OPEN FORUM

IX. CONSENT AGENDA

pg.132 **1.** Consider approval of the minutes from the July 15, 2019 regular city council meeting, and take any action necessary.

pg.141 **2.** Consider approval of an **ordinance** amending the Code of Ordinances in Ch. 44 "Utilities," Article V. "Water," Division 7. "Water Resource and Emergency Management Plan," Sec. 44-432 to adopt a

new plan that incorporates requirements pertaining to "Procedures for Curtailment of Water Supplies," and take any action necessary. **(2nd Reading)**

pg.172 **3.** Consider authorizing the City Manager to execute an Interlocal Agreement for Animal Control Services between the City of Rockwall and Rockwall County, and take any action necessary.

pg.184 **4.** P2019-023 - Consider a request by Rick Bates of RLK Engineering, Inc. on behalf of William Salee of Rockwall ISD for the approval of a replat for Lot 2, Block A, Rockwall High School Addition being a 35.295-acre parcel of land currently identified as Lot 1, Block A, Rockwall High School Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 901 W. Yellow Jacket Lane, and take any action necessary.

pg.192 **5.** P2019-028 - Consider a request by Matthew Gardner of Halff Associates on behalf of Carolina Molina of Alvaplast US (SPR Packaging) for the approval of a replat for a 43.0139-acre tract of land identified as Lot 1, Block 1, Indalloy Addition; Tract 31 of the R. Ballard Survey, Abstract No. 29; and Tract 7 of the N. Butler Survey, Abstract No. 20, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the terminus of Aluminum Plant Road, and take any action necessary.

X. APPOINTMENT ITEMS

pg.204 **1.** Appointment with Scott Self to hear proposal related to "4th of July" 2020 fireworks shows, and take any action necessary.

XI. ACTION ITEMS

pg.211 **1.** Discuss and consider providing staff direction to move forward with the following 2018 Roadway Bond Projects, and take any action necessary:
a) Ridge Road West (Shores Blvd. to N. Goliad St./SH 205);
b) S. Lakeshore Dr. (Summit Ridge Dr. to Tanya Ln) and Russwood Dr.;
c) Lakedale Dr., S. Lakshore Dr. (2000 block), & Woodpark Ln;. and
d) Turtle Cove Blvd (RR tracks to Ridge Rd.).

pg.213 **2.** Discuss and consider directing staff to prepare an **ordinance** implementing a city initiated Engineering Plan Review Fee, and take any action necessary.

pg. 216 **3.** Discuss and consider (re)appointments to the city's Airport Advisory Board, Animal Advisory Board, Architectural Review Board, ART Review Commission, Historic Preservation Advisory Board, and Park Board and take any action necessary.

XII. CITY MANAGER'S REPORT, DEPARTMENTAL REPORTS AND RELATED DISCUSSIONS PERTAINING TO CURRENT CITY ACTIVITIES, UPCOMING MEETINGS, FUTURE LEGISLATIVE ACTIVITIES, AND OTHER RELATED MATTERS.

1. Departmental Reports

pg.219 Building Inspections Monthly Report - June 2019
pg.234 Finance Department Quarterly Report - June 2019
pg.244 Fire Department Monthly Report - June 2019
pg.251 GIS Division Monthly Report - June 2019
pg.253 Harbor PD Monthly Report - June 2019
pg.255 Internal Operations Department Monthly Report - June 2019
pg.259 Rockwall Animal Adoption Center Monthly Report - June 2019
pg.263 Rockwall County Meals On Wheels / Senior Services 3rd Quarter Report

pg.265 Recreation Monthly Report - June 2019

pg.271 Police Department Monthly Report - June 2019

pg.274 STAR Transit Monthly Report - June 2019

2. City Manager's Report

XIII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding Economic Development prospects, projects, and/or incentives pursuant to Section 551.087 (Economic Development) and possible land purchase pursuant to Section 551.072 (Real Property) and Section 551.071 (Consultation with Attorney)
2. Discussion regarding possible sale of real property in the vicinity of Downtown, pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
3. Discussion regarding appointments to and interviews for city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Board of Adjustments - pursuant to Section 551.074 (Personnel Matters)
4. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

XIV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

XV. ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 771-7700 or FAX (972) 771-7727 for further information.

The City of Rockwall City Council reserves the right to adjourn into executive session at any time to discuss any of the matters listed on the agenda above, as authorized by Texas Government Code § 551.071 (Consultation with Attorney) § 551.072 (Deliberations about Real Property) § 551.074 (Personnel Matters) and § 551.087 (Economic Development)

I, Kristy Cole, City Secretary for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 2nd day of August, 2019 at 4:00 p.m. and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

_____ _____

Kristy Cole, City Secretary
or Margaret Delaney, Asst. to the City Sect.

Date Removed

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, P.E., Director of Public Works/City Engineer**

DATE: **July 31, 2019**

SUBJECT: **2018 Roadway Bond Reconstruction Projects**
Update on Typical Section & Schematics

The 2018 Roadway Bond is currently underway with one (1) project Highland Drive Phase 1 currently wrapping up construction and seven (7) projects that consisting of seventeen (17) different roadways are currently in engineering design. For four (4) of the 2018 roadway bond reconstruction projects ,City Staff and the City's engineering consultant has completed the 30% Engineering Schematic Design Phase and Public Input Phase. Those four (4) projects/roadways are as follows:

- Ridge Road West (Shores Blvd to N. Goliad St./SH 205)
- S. Lakeshore Dr. (Summit Ridge Dr. to Tanya Ln) and Russwood Dr.
- Lakedale Dr., S. Lakshore Dr. (2000 block), and Woodpark Ln.
- Turtle Cove Blvd (RR tracks to Ridge Rd.)

The following is a summary of the existing roadway configuration and the proposed schematic design for these different roadways listed. The full roadway schematic with typical sections are attached for reference. Also, results from the public input process are shown below and attached. They include responses received from the Public Input Questionnaire, public meetings comment cards, and addition public comments received by Staff.

Ridge Road West (Shores Blvd to N. Goliad St./SH 205)

- Proposed Improvements
  - o Street pavement replacement
  - o 5 foot sidewalks both sides of road
  - o Drainage upgrades where needed to meet current standards.
    ** Water and wastewater mains don't need to be replaced (in good condition)

- Existing Typical Section
  - o Street
    - Shores Blvd to Twin Creek Lane

        - Undivided - 37 foot wide (back of curb to back of curb)
    - Twin Creek Lane to N. Goliad St (SH 205)
        - Divided – two – 21 foot wide (back of curb to back of curb)
- Sidewalks
    - Shores Blvd to Ridgecrest Place/Lacebark Lane (West half)
        - None
    - Ridgecrest Place/Lacebark Lane to Twin Creek Lane
        - 4 foot – on both sides
    - Twin Creek Lane to N. Goliad St (SH 205)
        - 4 foot – on North Side
        - None – on South Side
- Right-of-Way – 80 foot

- <u>Proposed Typical Section</u> - (Current City Typical Minor Collector Roadway Section)
    - Street
        - 41 foot wide (back of curb to back of curb)
        - Shores Blvd to Twin Creek Lane
            - Undivided - 41 foot wide (back of curb to back of curb)
            - 2 – 11 ft wide lanes, 2 – 9 ft wide parking lanes
        - Twin Creek Lane to N. Goliad St (SH 205)
            - Divided – two – 21 foot wide (back of curb to back of curb)
    - Sidewalk - (both sides of road)
        - 5 foot wide – 6 foot wide when against curb
        - Will jog sidewalk to avoid trees and landscaping where possible
        - To be 6 foot wide when against back of curb
        - Leave existing sidewalk in place where in good condition and not in conflict with proposed grades.
    - Right of Way – 80 foot
        - Working to keep all proposed improvements within current right of way.
    - One (1) palm tree, two (2) cedar trees, one (1) Texas redbud tree (rotted), and approximately 24 crepe myrtles/shrubs that are within the City Right of Way are planned to be removed with this project. (Pictures of the trees, crepe myrtles, shrubs, and landscaping that is to removed are attached)

- <u>Public Input Questionnaires</u>
    - 60 properties- Surveys sent out to property owners and residents adjacent to Ridge road. (An example survey is attached in the memo)
    - 22 - Surveys returned to date – (37%)
    - Summary of results – (Detailed summary is attached) (Staff has individual surveys available for review)
        - Rate safety of pedestrians:
          Poor (50%) Fair (22.7%) Good (22.7%) Excellent (4.5%)
        - Implementing sidewalks.
          Yes (59.5%) No (40.5%)
        - Rate current drainage facilities
          Poor (4.5%) Fair (9.1%) Good (40.9%) Excellent (45.5%)

- <u>1st Public Meeting – Adjacent Property Owners (May 8, 2019)</u>
    - 7 - Property Owners Attended
    - 4 - Comment Cards Returned to City
        - **Summary**

- 4 - Adjacent property owners were in favor of sidewalks if adjacent to the curb.
- 2 – Adjacent property owners expressed concern about speeding on Ridge Road West.

- 2nd Public Meeting – Neighborhood (July 23, 2019)
  - 41 – Property Owners Attended
  - 20 – Comment Cards Returned to City
    - **Summary**
      - 1 – in favor of sidewalks
      - 11 – Adjacent property owners were not in favor of sidewalks.
      - 5 – Adjacent property owners are concerned about speed of vehicles and safety.
      - 4 – Adjacent property owners are concerned about drainage issues

S. Lakeshore Dr. (Summit Ridge Dr. to Tanya Ln) and Russwood Dr.

- Proposed Improvements
  - Street pavement replacement
  - 5 foot sidewalks both sides of road
  - Drainage upgrades where needed to meet current standards.
  - Water and wastewater mains to be replaced.

- Existing Typical Section
  - Street – 27 foot wide (back of curb to back of curb)
  - Sidewalks – Currently None
  - Right-of-Way – 50 foot

- Proposed Typical Section
  - Street - 27 foot wide (back of curb to back of curb)
    - To remain same width to avoid disturbance to trees.
  - Sidewalk – 5 foot wide (both sides of road)
    - Will jog sidewalk to avoid trees and landscaping where possible
    - To be 6 foot wide when against back of curb
  - Right of Way – Working to keep all proposed improvements within current right of way of 50 foot.
  - Two (2) oak trees and 21 crepe myrtle/shrubs that are within the City Right of Way are planned to be removed with this project. (Pictures of the trees, crepe myrtles, shrubs, and landscaping that is to removed are attached)

- Public Input Questionnaires
  - 29 properties - Questionnaires mailed out to property owners and residents adjacent to streets and made available at public meetings. (An example questionnaire is attached)
  - 21 - Surveys returned to date – (40% Total)
    - S. Lakeshore Dr. – 16 out of 40 returned (40%)
    - Russwood Dr. - 5 out of 13 returned (38%)
  - Summary of results – (Staff has individual questionnaires available for review)
    - Rating safety of pedestrians on
      - S. Lakeshore Dr.

Poor (18.8%) Fair (25%) Good (31.3%) Excellent (25%)
- Russwood Dr.
  Poor (40%) Fair (0%) Good (20%) Excellent (40%)

- In favor of implementing sidewalks.
  - S. Lakeshore Dr.
    Yes (28.1%) No (71.9%)
  - Russwood Dr.
    Yes (40%) No (60%)
- Rating current drainage facilities
  - S. Lakeshore Dr.
    Poor (25%) Fair (12.5%) Good (37.5%) Excellent (25%)
  - Russwood Dr.
    Poor (0%) Fair (20%) Good (40%) Excellent (40%)

- 1st Public Meeting – Adjacent Property Owners (April 29, 2019)
  - 5 - Property Owners Attended
  - 1 - Comment Cards Returned to City
    - **Summary**
      - 1 - Adjacent property owner was not in favor of sidewalks or street reconstruction.

- 2nd Public Meeting – Neighborhood (July 17, 2019)
  - 15 - Property Owners Attended
  - 8 - Comment Cards Returned to City
    - **Summary**
      - 3 - Adjacent property owners concerned about drainage
      - 5 – Adjacent property owners were not in favor of sidewalks

Lakedale Dr., S. Lakshore Dr. (2000 block), and Woodpark Ln.

- Proposed Improvements
  - Street pavement replacement
  - 5 foot sidewalks both sides of road
  - Drainage upgrades where needed to meet current standards.
  - Water and wastewater mains to be replaced.

- Existing Typical Section
  - Street – 27 foot wide (back of curb to back of curb)
  - Sidewalks – Currently None
  - Right-of-Way – 50 foot

- Proposed Typical Section (Current City Typical Residential Roadway Section)
  - Street - 29 foot wide (back of curb to back of curb)
  - Sidewalk – 5 foot wide (both sides of road)
    - Will jog sidewalk to avoid trees and landscaping where possible
    - To be 6 foot wide when against back of curb
  - Right of Way – Working to keep all proposed improvements within current right of way of 50 foot.
  - No hard wood trees are being planned to be removed with this project. Six (6) crepe myrtles that are within the City Right of Way are planned to be removed

with this project. (Pictures of the trees, crepe myrtles, shrubs, and landscaping that is to removed are attached)

- Public Input Questionnaires
  - 29 properties - Questionnaires mailed out to property owners and residents adjacent to streets and made available at public meetings. (An example questionnaire is attached)
  - 11 - Surveys returned to date – (38% Total)
    - S. Lakeshore Dr. & Lakedale Dr. – 7 out of 20 returned (35%)
    - Woodpark Ln. - 4 out of 9 returned (44%)
  - Summary of results – (Staff has individual questionnaires available for review)
    - Rating safety of pedestrians on
      - S. Lakeshore Dr. & Lakedale Dr.
        Poor (28.6%) Fair (14.3%) Good (14.3%) Excellent (42.9%)
      - Woodpark Ln.
        Poor (18.2%) Fair (27.3%) Good (18.2%) Excellent (36.4%)
    - In favor of implementing sidewalks.
      - S. Lakeshore Dr. & Lakedale Dr.
        Yes (28.6%) No (71.4%)
      - Woodpark Ln.
        Yes (25%) No (75%)
    - Rating current drainage facilities
      - S. Lakeshore Dr. & Lakedale Dr.
        Poor (0%) Fair (28.6%) Good (28.6%) Excellent (42.9%)
      - Woodpark Ln.
        Poor (25%) Fair (0%) Good (50%) Excellent (25%)

- 1st Public Meeting – Adjacent Property Owners (April 23, 2019)
  - 2 - Property Owners Attended
  - 2 - Comment Cards Returned to City
    - **Summary**
      - 2 – Comment card received were in favor of sidewalk, they were all adjacent property owners.
      - 1 – Adjacent property owner was concerned about gas lines where Lakeshore & Ridge road meet.

- 2nd Public Meeting – Neighborhood (July 10, 2019)
  - 5 - Property Owners Attended
  - 3 - Comment Cards Returned to City
    - **Summary**
      - 1 - Adjacent property owner was in favor of sidewalks
      - 1 - non-adjacent property owner was not in favor of sidewalks

Turtle Cove Blvd (RR tracks to Ridge Rd.)

- Proposed Improvements
  - Street pavement replacement
  - 5 foot sidewalks (where developed properties are)
  - Drainage upgrades where needed to meet current standards.

  ** Water and wastewater mains don't need to be replaced (in good condition)

- Existing Typical Section
  - o Street – 37 foot wide (back of curb to back of curb)
  - o Sidewalks – Currently None
  - o Right-of-Way – 60 foot

- Proposed Typical Section
  - o Street – 37 foot wide (back of curb to back of curb)
  - o Sidewalk – 5 foot wide
    - To be 6 foot wide when against back of curb
    - To be placed where developed properties are
    - Undeveloped properties will be require to install sidewalk at time of development.
  - o Right of Way – Working to keep all proposed improvements within current right of way of 60 foot.
  - o Four (4) oak trees, two (2) hackberry trees (these will be taken out by current development planned to go in), one (1) crepe myrtle and two (2) yaupon hollies that are within the City Right of Way are planned to be removed with this project. (Pictures of the trees, crepe myrtles, shrubs, and landscaping that is to removed are attached)

- Public Meeting – (May 21, 2019)
  - o 1 - Attendee from Turtle Cove HOA
  - o No Comment Cards Received.

- Public Outreach
  - o City Staff reached out to the property owners that have developed parcels and shown the proposed improvements to be placed with the project. Staff is working with them on any questions or comments they may have on the project.

Staff is requesting for City Council to consider approval of the proposed typical section and roadway schematic for the four (4) roadway reconstruction projects above. If the street section and schematic are approved, the Engineering Department would proceed with final engineering design and full construction plan preparation, for these four roadway reconstruction project.

If you have any questions, please advise.

Comments:

I do not ~~not~~ support this project. I do not want sidewalks added to Ridge Road West, I have two 40year-old-plus live oak trees that are set in the middle of my lot. These trees have a very extensive root network that will be disturbed and lead to the stress and eventual death of these trees. Each tree adds approximately $40,000.00 per tree of property value. Will I be reimbursed $80,000.00 when these trees die and lose the appraised value of my home?

☒ I live/own property on these streets being reconstructed.

☐ I live outside of the limits of these streets being reconstructed.

Comments:

Please don't do this. Besides losing 10' feet of my front yard, the damage will cause extensive loss of landscaping. I have two 50 year old trees that will suffer and may die because of the stress. I have a 10 year old Burr Oak I planted as an acorn that will be removed during this project. With the disruption of my sprinkler system, the damage to my home's foundation and landscaping could be at enormous financial cost. If people want to walk on a sidewalk, they can use Potter Ave. We need street lights to improve safety, but the road does NOT need to be widened and we definetly do NOT need a 5' sidewalk with a grass buffer. Please consider just repairing the current road.

Dusty Goucher

Comments:

Replace Failing Pavement - this is great, but I don't feel this is necessary at this time.

Drainage Problems - are the storm sewers collasped / full of debris / etc.... Could this be causing problems?

Safety - Are bike or pedestrian lanes painted on the existing road been considered.

☐ I live/own property on these streets being reconstructed.

☒ I live outside of the limits of these streets being reconstructed.

Comments:

How did this project become priority?
We feel Ridge Rd W. is ~~plenty~~ sufficiently wide.
We are concerned about increased vehicle speed changing the feel of the neighborhood.

On the other hand, we would be pleased with addition of sidewalks.

Comments:

If you go forward with your current plan to use left of property on both sides you will open yourself up to legal ramifications when what you do damages the root systems of dozens of old growth trees in this neighbor hood. Some of these trees are worth thousands of dollars. We Do not Want these "Improvements". If you want to fix potholes, fine, go for it, but leave good enough alone. We don't need side walks. We don't want side walks. We don't want the 1-2 years of mess this will bring.

Comments:

I bought the property (vacant lot) because of the neighborhood not having sidewalks. I had a choice of lots in Rockwall; I chose this one because of the ~~estate top~~ type appearance. Also not parking on the street was supposed to be enforced. I replaced the circle drive and built a 3 car garage to enhance the neighborhood of street congestion. There are many walking trails in Rockwall through the park + recreation department. Not having will sidewalks was a choice I made. I have 2 trees that will be lost. They are 23+ years old. I also purchased the lot because of those trees. →

38

I oppose the reconstruction project if it includes taking any of the current yard. Another point is that mail delivery could be altered to NDCBU (~~Neigh~~ Neighbor Cluster Boxes) if reconstructed.

Subject: Comments to Ridge Road West Reconstruction Project

Re: Public Meeting – July 23, 2019

To avoid re-routing made necessary during construction, use of existing paved alleys for access to the effected homes will increase. To protect children and pedestrians using these alleys, increased traffic signage and/or speed control measures should be put in place during construction.

Since road construction equipment and materials will be on site, thought should be given to using the planned construction period to also modify alley intersection turn radii, to facilitate trash collection and avoid further destruction of property and pavement.

Subject: RRW Reconstruction Project

As a 20-year resident of 1200 Ridge Road West I am deeply concerned about your recent project in several areas in regard to sidewalk

1. The loss of existing yard.
2. Total disruption of mail service for who knows how long.
3. Loss of sprinkler system; also for who knows how long.
4. The total deterioration of the landscape (especially the loss of the large oaks in the front of many residents homes in this area. When you start digging, roots are disturbed and the trees will die. Is the city prepared to take down huge dead oak trees and replace them with sizeable substitutes.
5. Deterioriation of the landscape also leads to the VALUE OF THE RESIDENCE if one is wanting to sell.

So in view of my opposition to the sidewalks; please explain the reasoning behind your engineer for installing them (was it just a request of a few). I feel, as a resident of the Shores in question, we have a right to know.

Due to illness I have not been able to attend your meetings but hope you will present my viewpoint at your next workshop.

Tom Richmond

Rockwall, TX 75087
July 6, 2019

Dear Mr. White;

In the last public meeting on the reconstruction plan for Ridge Road West you highlighted several points of concern.

Number One; Folks on our street are concerned about losing their mature trees. I understand your plan leaves all but one of the mature trees alone and that only small shrubs and plantings will be removed.

Number Two; We understand the street will be widened. Our concern is that the wider street will allow more on street parking and encourage higher speeds.

Number Three: On street parking. The Deed Restrictions covering the Shores HOA prohibit overnight on street parking. Jim Pruitt stated that the town codes override any deed restrictions. The garages for all the homes on RRW face the alley. The Home Owners feel on street parking reduces the appeal of the neighborhood. All we ask is that when designing the street you do what you can to limit on street parking.

Number Four: In the last meeting you indicated that your study indicated speeding is not a current problem on our street. You and I differ! I witness speeders every day. No one has indicated they want rumble strips or speed bumps or that kind of thing. Is it possible to post the speed limit at 25 mph at each end of RRW. And is it possible to place one of those electronic signs that indicates a driver's speed on the street. The ideal place for such a sign would be by the water collection area on the corner of RRW and Lace Bark.

Number Five: Four Way Stop- You indicated the dip at RRW and Hidden Valley is going to be removed. At the present that dip slows the traffic speed. Looking at the map, Hidden Valley is the only cross street that is a through street and allows traffic to past into other neighborhoods. I live on the corner of RRW and Hidden Valley. It is a busy intersection. Would it be possible to make the current two way stop a four way stop. It will slow the traffic. It will allow drivers to make "protected" turns.

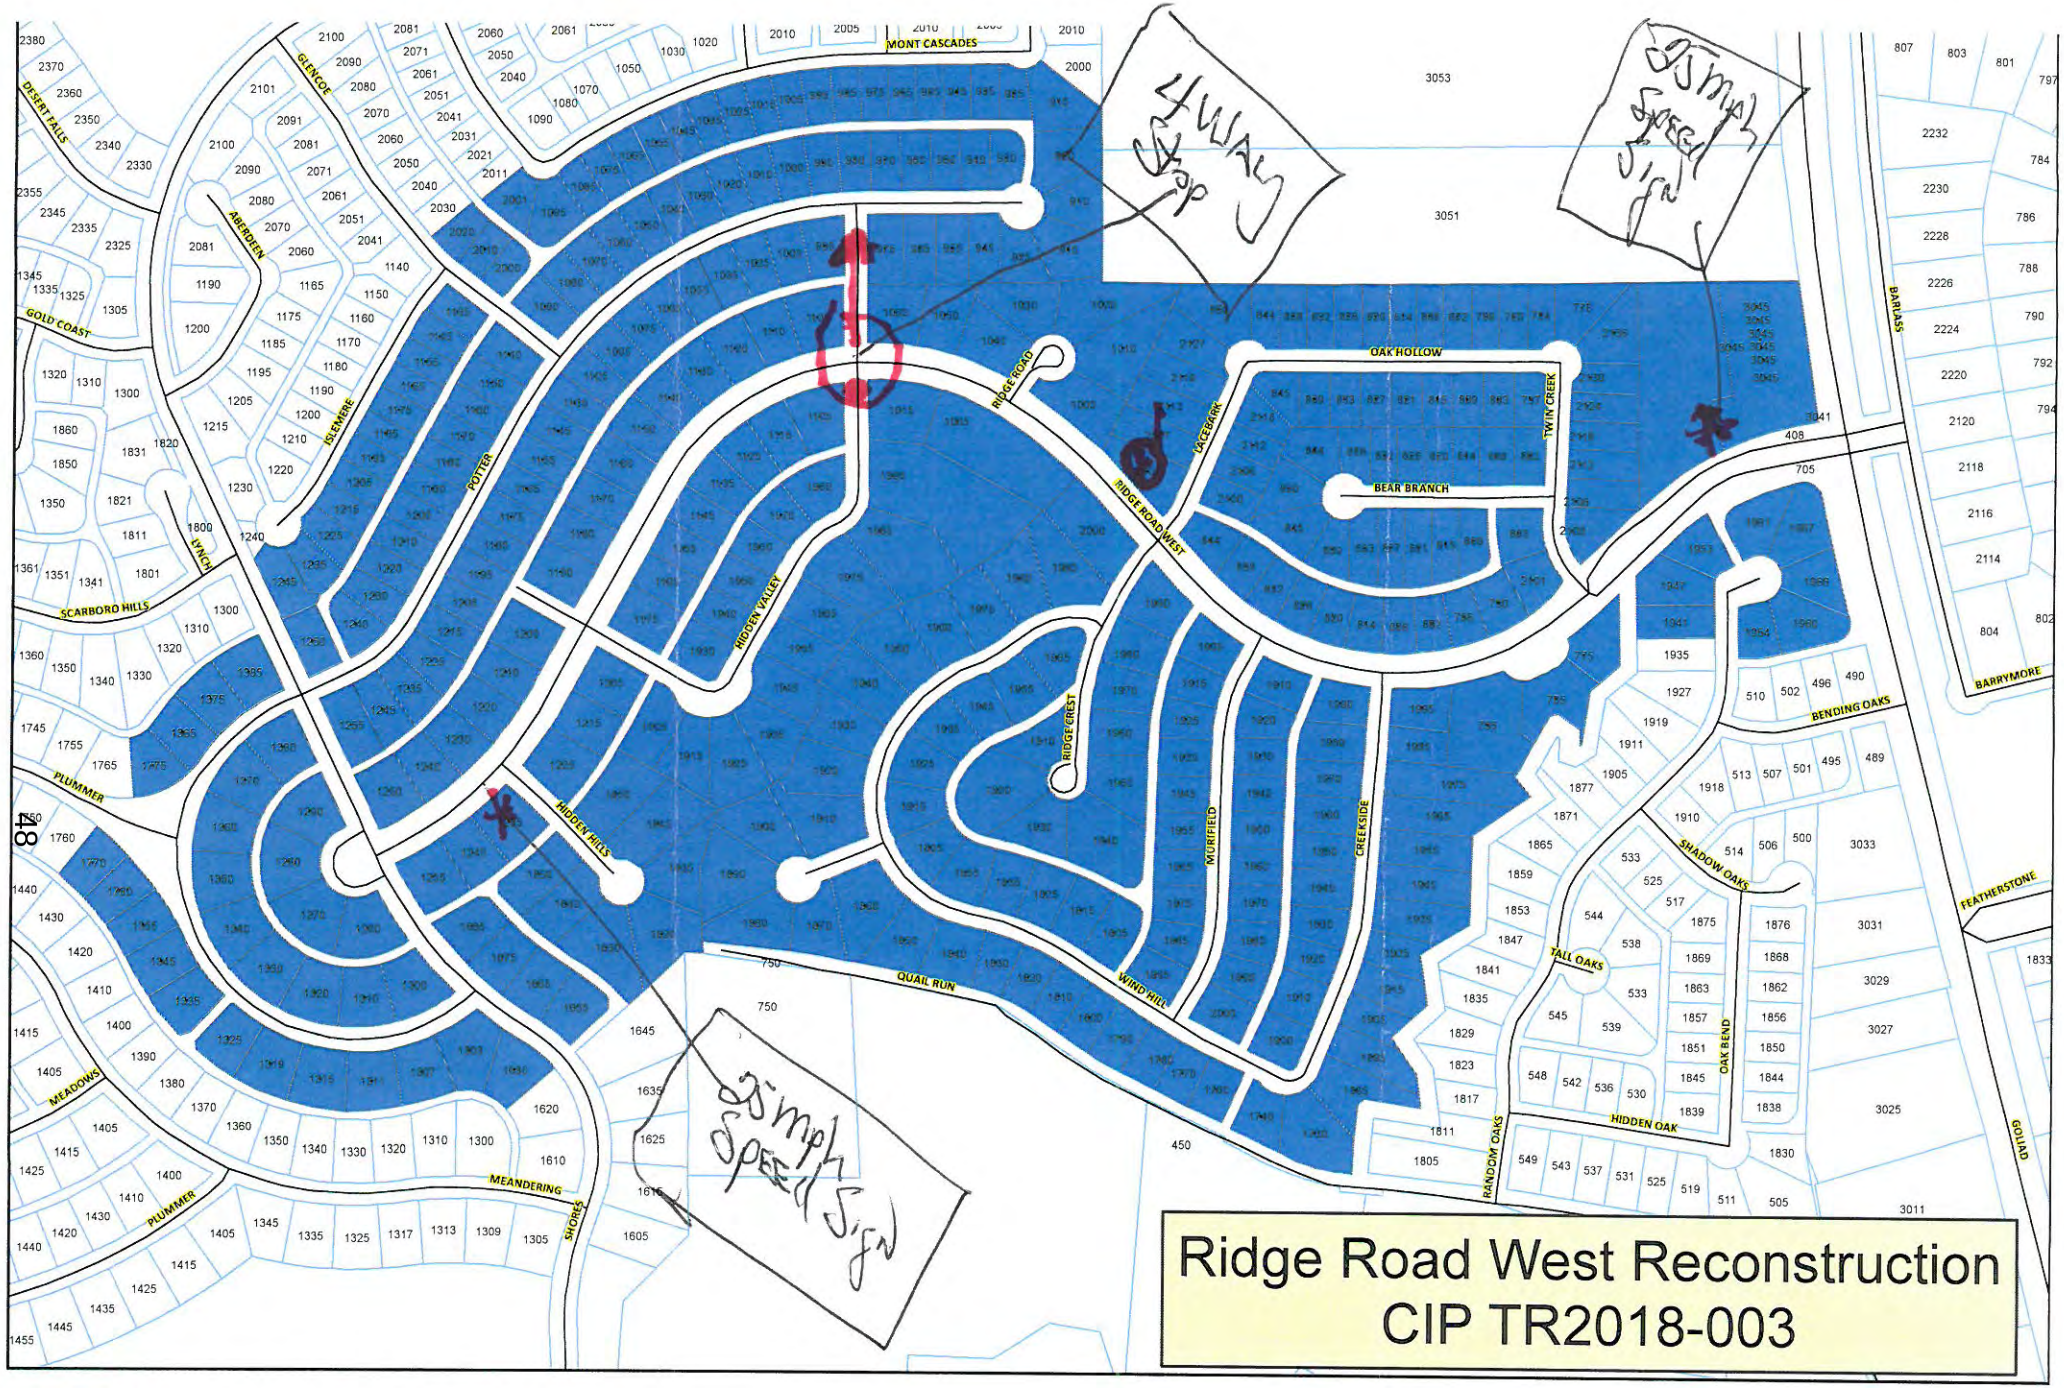
Number Six: Sidewalks- The home owners really want to keep as much front yard at they can. They know that the City has the "right" to use as much of the set back as they need. With that in mind the idea of placing the sidewalks flush with the curb and keeping them as narrow as possible appeal the be the desire of the home owners. To Date I have not heard an objection

46

to the sidewalks, but I have heard concern about the City taking more of the set back that is absolutely needed.

Number Seven; Mail Boxes-In the last meeting you indicated the City will be responsible for relocating the mail boxes, so that is not a concern.

I am writing this note as Tom Richmond Homeowner. I am still the President of the Shores HOA so I tend to hear comments. For the record I have not heard any viable negative comments.



See You on the 23rd!

Tom Richmond

Subject: Public Input - Ridge Road West Reconstruction

Jeremy,

1. Drainage is good, I have not had any issues. We've only lived in this house since May 2017.
2. Safety is probably fair, primarily due to use of road by pedestrians for lack of sidewalk.

3. I am undecided on sidewalks. While I recognize that it would make pedestrians safer and add to neighborhood relationships, my selfish side wonders if I want more pedestrian traffic walking in front of my house, dogs using my yard… I would only be in favor of a sidewalk that is adjacent to the road, not inset.

4. Anything else:
    a. I already have a sidewalk, what will happen to mine?
    b. Please repair the east intersection at Hidden Valley, the dip requires slowing to 20mph to safely cross it.
    c. Please move the south bound stop sign at shores court/shores blvd to shores blvd/ridge road west. Currently the southbound traffic stops 100 feet early, making for confusing interaction of vehicles at the intersection. There's really not much sense in stopping at Shores Court. I recognize this is probably outside your scope, but seems like a simple change.

Subject: Ridge Road West Reconstruction

Honorable Jim Pruitt , Councilman Patrick Trowbridge and Jeremy White

Thank you all for having the public input meeting regarding the Ridge Road West Reconstruction project. I found it very informative. I'd like to take the opportunity to re-iterate and maybe amplify on my druthers.
I was surprised that the plan was to replace the entire road, thinking maybe just some repairs and the sidewalk.
As much as we like new, I'm not of the opinion that the entire road needs replacement. I'd prefer repairing the Hidden Valley intersection to remove the dip, and then any other repairs you see fit. I **REALLY** don't want to give up 2 feet of my property to a wider road. Also the road seems quite wide already.
I am only in favor of a sidewalk **adjacent** to the road, not inset. In fact I'd be happy if you just tied into my existing sidewalk. It's held up well and hasn't settled relative to the road. I don't want to lose even more property to the inset, not to mention additional irrigation and edging.
On a tangential note, I'd like to see the south bound stop sign at Shores court/Shores Blvd. moved to shores Blvd./Ridge Road West. Currently the southbound traffic stops 100 feet early, making for confusing interaction of vehicles at the intersection. You could probably do away with it in that direction all together but understand that would require temporary signage alerting drivers to the change and permanent warning signage at the other stop signs.

Some food for thought:

Concerns for pedestrian safety – The sidewalk will likely increase pedestrian traffic and new widened or repaired road will likely induce faster driving, increasing opportunities for accidents. Not sure how to mitigate that. Traffic control Speed bumps were discussed and seems there were opposing opinions on them.

Widening road - I suspect if the residents understood that the schedule was 12-15 months, during which traffic would be one lane, one way, no parking, they may also be against it. Also that they would be losing up to 9-10 feet of property. This may be their fault for not paying attention. If I were you, I'd make sure they understand early in the process, so there is no confusion/uprising later.

I'd prefer you reallocate the savings from a repair not replacement plan, for more street lights and ornamental sidewalk, using pavestone, brick…… something unique, not just concrete.

I admit that I have mixed emotions on the sidewalk, on one hand it's neighborly and probably the right thing to do, on the other hand, do I want additional foot traffic in front of my house, dogs defecating in my yard…..
We don't want to negatively affect the look and feel of the neighborhood.

Thanks for letting me bend your ears.

Subject: Ridge road west project.

Hi Ms Bell,
My husband and I are homeowners at 1005 Ridge Road. We attended the public meeting regarding the proposed additions of sidewalks and road construction last week. I am reaching out to you as one of our council members to ask you to consider voting against this project.

Most of the people in attendance are very opposed to this project. We did not ask for this work to be done and it is not needed. It will only be intrusive. The presentation even showed that this work was not justified. It will not solve a speed problem or a pedestrian problem. The residents do not want it and do not want to have another 5 to 8 feet of our front lawns taken in by a sidewalk.

The proposed project includes 5 foot sidewalks on both sides of the road , which is why the encroachment would be so large. If any sidewalk had to be done (even though we do not want it) at least they could be standard sidewalks right at the existing curb and perhaps even on one side. There is no reason to have such large, deluxe sized sidewalks. But again , we are strongly opposed to this project as it will affect our quality of life in a negative way , and also has the potential to reduce our property value.

The engineers presenting said that this plan is what they were proposing to the council on August 8th. They indicated they could come up with alternate plans that are less intrusive. I would ask that you vote against this project as it stands right now. Please look at alternate options that are less intrusive if the work must be done at all.

As a long time resident of Rockwall and Rockwall county, I can see many other streets and areas that desperately need some help and improvement , with safety being a huge issue. I would much prefer that we invest in solving those problems , rather than doing work on a street where the work is not needed and the residents are opposed.

Thank you for your time in reading this email.

Sincerely ,
Julie Ann Barlow

Dear Mayor and City Council members,

Greetings from north Rockwall!

The city's proposal for the upcoming Ridge Road West Reconstruction Project, as presented to us homeowners on 23 July 2019, is totally unacceptable.

The proposal apparently meets the city requirements for NEW developments but we are certainly not a NEW development. The proposed modifications would take 9.5 feet out of our front lawn! The wider, newer street would no doubt increase the speed of the traffic regardless of the posted speed limit (as briefed at the 23 July meeting. I might have missed something there; the rationale made no sense?) I would think our property value would go down significantly. #maybeso #maybeno

Anyway I strongly request that you DO NOT APPROVE THE CURRENT PROPOSAL for the Ridge Road West Reconstruction Project. Let us look at other proposals.

This is not intended to be a slap at the city engineer. He is doing a great job. I realize he has to go by the city regulations/guidelines. But these guidelines for NEW developments must be altered to consider other factors. Please give him some flexibility to not completely adhere to these current guidelines.

Thank you so much.

Thank you for you input. I will add it to our responses received for the project.

To answer the questions you have below.

French Drains - We are aware of the Ground Water issue that occurs along the street and will be working with our Engineer during the design of the project to see what can be done to collect the water from the french drains into the storm system.

Irrigation System - All irrigation repairs and relocation due to the proposed construction for the project will be taken care of by the Cities Construction Contractor for the project. The cost to due this repairs is payed for by the City.

Please let me know if you have any other questions.

Dear Mr. White,

I guess I'm a day late in responding to your questionnaire you mailed to me about 2 April 2019. I trust you will still receive my response.

First of all, thank you for this opportunity to provide my input.

My responses to your questionnaire:

1. During a large rainfall event, I rate the current drainage facilities Good. They seem to be adequate in draining the water from the street. I have never noticed the street overflowing at all.

However, there are several private French drains that empty into Ridge Road West (RRW). In virtually ALL TIMES, Water constantly flows downhill in the gutters (edge of the street) to the nearest storm drain. I am one of those owners with such a French drain and my neighbors on both sides also have them. The gutters on our side of the street are always wet, with algae growing and leaves and whatever. It's a mess. [They generally do 'dry up' in August timeframe.]

I'm sure you know this but there are natural springs behind our houses (north side of Ridge Road West). We all installed the French drains to "drain the swamp" in our back yards IF these French drains did not exist. (Actually, previous owners built these French drains.)

So....for me personally, I would like to have my French drain opening into RRW connected directly to the storm drain underneath the street. I was told several years ago that the storm drain is located on the other side of the street so connection to it is problematic. But now, since Ridge Road West is being reconstructed, can we PLEASE somehow connect our French drains to the storm drain....even if it's with 3-4 inch PVC pipe. I'd sure like to stop the unsightly constant flow of water down the sides of Ridge Road West.

If you are ever in this neighborhood, I would be glad to give you a personal demonstration of what I'm talking about.

2. I rate safety for pedestrians traveling along Ridge Road West fair-to-good. The street is sufficiently wide for pedestrians and cars. I've walked the streets many, many times and have never felt unsafe.

3. I am undecided (50-50) about implementing sidewalks on Ridge Road West. I don't have a problem with it other than my main sprinkler valve and several sprinkler heads that would have to be moved. Who pays for this? (Also what happens to my French drain outlet, currently emptying into the street?)

4. When Ridge Road West is reconstructed, I trust it will be done in a TIMELY fashion. I hope it doesn't drag out like the Boydston project.

Again, thank you for this opportunity to provide my inputs.

Best regards,

H. Wayne McCallum, Rockwall HS class of 1968

Rockwall, Texas 75087

30 July 2019

Dear Jeremy,

Thank you so much for providing information to us on the Ridge Road West project.

We have lived at 1050 Ridge Road West for 25 years....since August 1994. I grew up in Rockwall and graduated from Rockwall HS in 1968.

Your proposed plan of the Ridge Road West reconstruction as presented at the Public Meeting on 23 July 2019 is unacceptable.

As I understand it, your current proposal widens the street from 37 ft to 41 ft. Then there would be a 2.5 ft strip of grass, then a 5 ft sidewalk. I have driven around parts of Rockwall, Wylie, and Plano and I have not found ANY development with these features.

Your proposal would take 9.5 ft out of my front yard! Yes, you said these are the city regulations for NEW developments and that the city has an easement and has the right to do this. But I beg you to alter your proposal in consideration that we are not a NEW development. I feel this would significantly reduce our property values.

My proposals, in decreasing order of my preference would be:

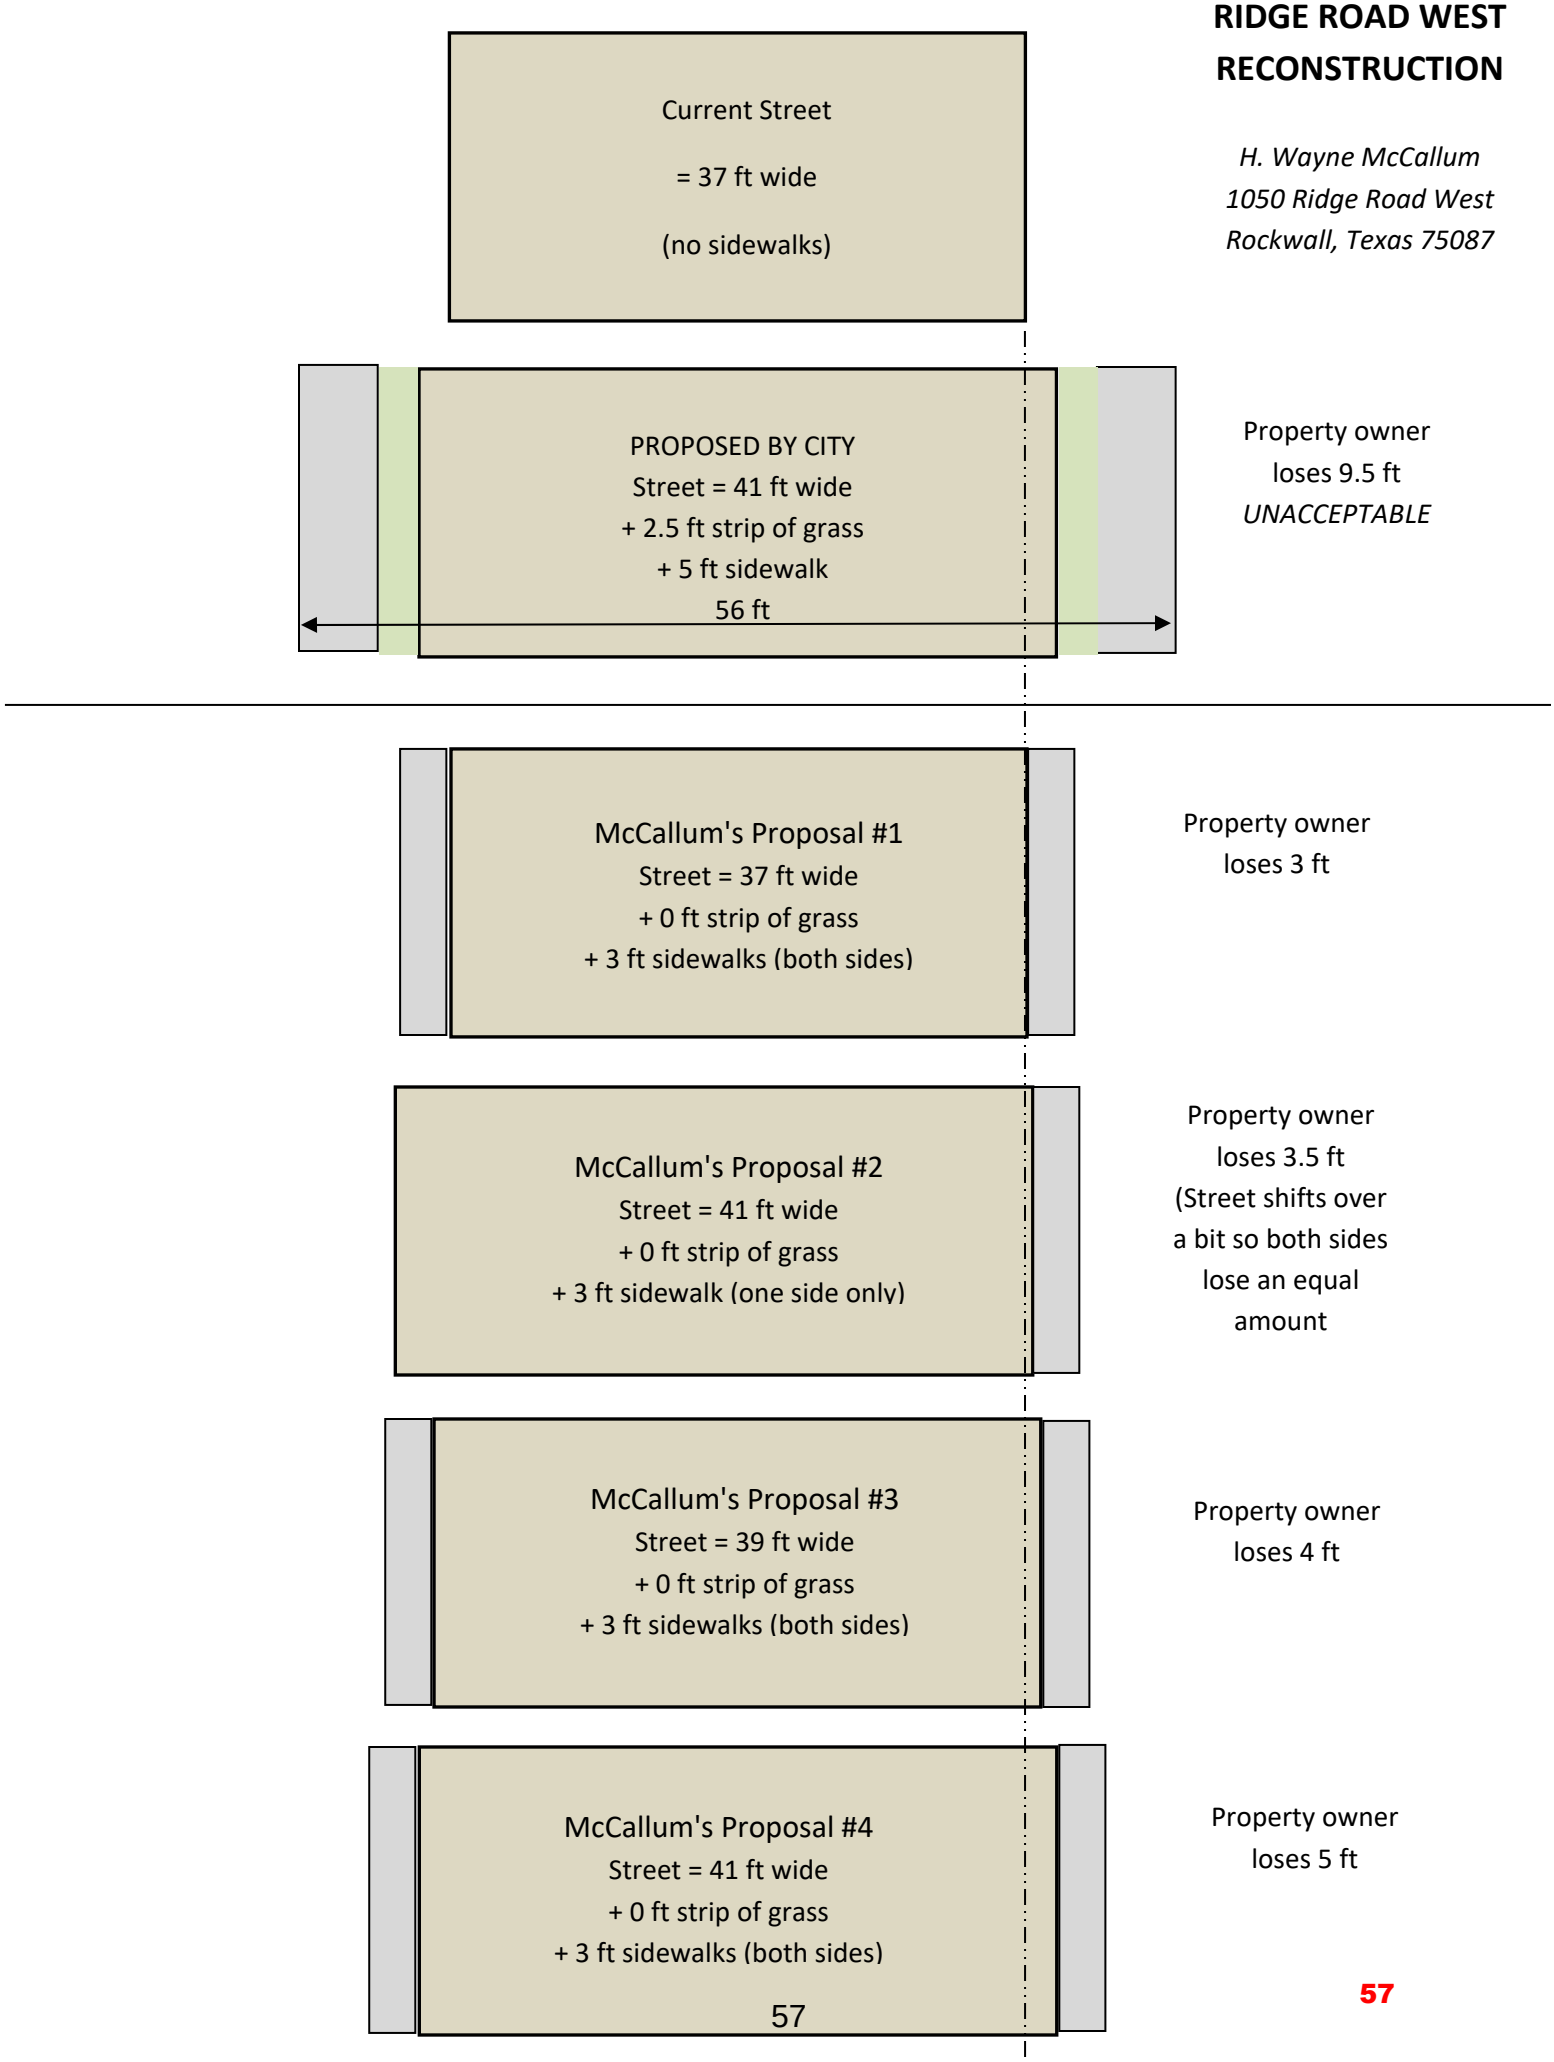
1. Leave the street at 37 ft and add 3 ft sidewalks on both sides. (Take 3 ft out of both sides.)
2. Widen the street to 41 feet but add a 3 ft sidewalk on one side only. (Take 3.5 ft out of both sides.)
3. Widen the street to 39 ft and add 3 ft sidewalks on both sides. (Take 4 ft out of both sides.
4. Widen the street to 41 ft and add 3 ft sidewalks to both sides. (Take 5 ft out of both sides.)

These (above) are the only proposals acceptable to me.

In no event is a 2.5 strip of grass between the curb and the new sidewalks acceptable. This triples my edging/ weed-eating, wastes my valuable landscape area, and makes my sprinkler system more complex and harder to maintain. It takes 2.5 ft out of my front yard.

In no event are 5 ft sidewalks acceptable or necessary. Three (3) ft sidewalks seen to be the norm in most developments; at most 4 ft sidewalks....on one side only!.... might be acceptable.

Your rationale (at least as I understood it) for making your proposed modifications made no sense to me. Your team stated that studies have shown that most drivers do not obey the posted speed limits; they drive instead the speed dictated by road conditions, other traffic, and visibility. If you make the proposed modifications to Ridge Road West, the drivers will have a wider, new street. Their speed will therefore increase, not decrease as your team suggested. (Maybe I missed something?)



Anyway, I beg you to NOT proceed with the modifications as you proposed.

Thank you.

Comments:

We enjoy the current landscape of our home and neighborhood. There is also a concern over the maintenance of the sidewalks and the health of our trees. We would rather not see sidewalks put in and do not see the necessity.

Comments:

- During the last Drainage Construction in front of our house, awful fill-dirt & Sub-par grass was used to "fix" our yard By the City... We've never been able to recover our prior beautiful lawn.
- I'm worried about the maintenance of Sidewalks, once established. Our alley has a horrible hole in it for months. (S. Lakeshore / Stonecrest Dr). If the Street maintenance is any indication of Sidewalk maintenance I am concerned. I do not want to Be

85

held responsible for sidewalk maintenance,
when we had no say in whether
~~sidewalks were~~ we wanted sidewalks.

Comments:

I thank the team for the presentation. It is my belief that sidewalks are not a necessary component of this project. The neighborhood has a good amount of pedestrian traffic – more than many neighborhoods *with* sidewalks. The argument presented at this meeting and the Lakeshore/Summit Ridge meetings I attended were that a *minority* of residents stated they *would* walk if there were sidewalks. However, the question to those residents might be "Do you travel elsewhere to walk?" If so, it might hold more weight. Additionally, every resident who moved into this neighborhood obviously knew sidewalks were not a part of it – it is one of the reasons we moved to the neighborhood – no sidewalks to contend with and maintain – visually more appealing as well.

Also, it was noted a variance was given for the street width (27 vs. 29 feet). Why not a variance for sidewalks? The majority of those surveyed oppose the sidewalks with 33% responding, which we were told is a high rate of response. Please consider the uniqueness of this neighborhood and the wishes of the majority of its residents.

Attn: Mayor and City Council Members

Re: South Lakeshore Drive (Summit Ridge Drive to Tanya Lane and Russwood Drive Reconstruction Project)

Dear Mr. Mayor, Council Members, City Planners, and anyone involved with this reconstruction.

I will try to make this short, although it is a major problem that will impact many of us the rest of our lives. We (67% as gathered by City officials) do not want sidewalks along Lakeshore Dr. and Russwood Dr. I have been to both meetings addressing this issue and this is the overwhelming conclusion. I realize that this has been on your desk before with the other Lakeshore Dr. and Summit Ridge Dr. going on now. Although somewhat the same in scope and design the two projects will forever change these neighborhoods.

We have lived at 1408 S. Lakeshore Drive for 35 years and in Rockwall for 45 years. We have been fine without sidewalks for all of that time. It is my understanding that the request for sidewalks has been pushed by people not even living in our neighborhood.

NO SIDEWALKS:

1. We need more green scapes, not more concrete. This neighborhood is an older neighborhood so there are lots of beautiful mature trees and extensive attractive landscaping. This will all be compromised with an ugly unneeded hardscape.
2. I have two large older (40 year) Cedar Elm trees that will have their root systems compromised by covering it with a strip of concrete 5' X 53' ft.
3. One neighbor directly across the street from me will have one ugly strip of concrete 5' X 146' ft PLUS a retaining wall ! The other neighbor directly across the street from me will have a strip 5' X 148' ft PLUS a retaining wall. Why?
4. A 5' ft sidewalk puts the very limited number of walkers, runners, etc. only 66 ft from my front door. For 35 years we have been fine without this uncalled for, unneeded, and potentially unsafe intrusion.
5. Cost. Why would we want to waste all of this money on an unwanted project. If the City has excess money that they are required to spend I suggest doing one of two things: Lower taxes or use it to finance a park somewhere.
6. Finally, safety. I have been to the meetings and heard this brought up. In my 35 years here that has never been an issue. In 1991, 28 years ago, I started riding my bicycle and running Lakeshore Drive three days a week. Not once has safety been a concern and not once has anyone on Lakeshore Drive been hurt.

It is my understanding (from being at the public informational meetings) is that we are getting the sidewalks unless the City Council allows a variance to not require the sidewalks. I am asking for you to do this. No sidewalks. Please keep an open mind and consider any and all of the concerns of those of us who are effected by your actions.

Regards,
R. D. and Lynn Vanderslice,

Comments:

I think if residents oppose sidewalks that should be taken into consideration for a variance to exclude them from this project.

Also they do not contribute to the aesthetics of our neighborhood.

Part of the charm of our neighborhood is not being "cookie cutter"!

MINUTES

ROCKWALL CITY COUNCIL REGULAR MEETING
Monday, July 15, 2019 - 4:00 PM
City Hall Council Chambers - 385 S. Goliad St., Rockwall, TX 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pro Tem Dana Macalik called the public meeting to order at 4:00 p.m. Present were Mayor Pro Tem Macalik and Council Members Patrick Trowbridge, John Hohenshelt, Kevin Fowler and Bennie Daniels. Also present were City Manager Rick Crowley, Assistant City Managers Joey Boyd and Mary Smith and City Attorney Frank Garza. Mayor Jim Pruitt was absent from the entire meeting. Councilmember Trace Johannesen joined the meeting at 6:00 p.m.

II. WORK SESSION

1. Hold a work session to discuss planning and zoning related bills approved with the 86th Legislature.

City Manager Rick Crowley provided very brief, introductory comments and then called upon Planning Director Ryan Miller who briefed the Council on notable planning-related laws, which will take effect starting Sept. 1, 2019. This included HB 347 (related to annexation); HB 2439 (related to building materials and methods); and HB 3167 (related to development applications). Lengthy discussion took place related to these new bills. Council took no action as a result of this work session.

2. Hold a work session to discuss changes to Article XI, Fences, of Chapter 10, Building and Building Regulations, of the Municipal Code of Ordinances and the Unified Development Code (UDC).

Mr. Miller explained that he and Jeffrey Widmer, the city's Building Official, have discussed this, and they feel the Unified Development Code (UDC) is the best place for placement of fence regulations, since they are an aesthetic issue. In addition, this would allow the process for front yard fences to be taken up by the Planning & Zoning Commission with the Council only stepping in if an appeal were requested. Mr. Crowley shared that if the regulations are placed in the UDC, any subsequent amendment to fence regulations would have to go through a zoning process.

Mayor Pro Tem Macalik then read the below listed discussion items into the record before recessing the public meeting to go into Executive Session at 4:35 p.m. She also read into the record the wording for Action Item #2, indicating that it will also be discussed in Executive Session under 551.071 (consultation with attorney).

III. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding appointments to city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission, Animal Advisory Board, and Board of Adjustments - pursuant to Section 551.074 (Personnel Matters)
2. Discussion regarding a personnel matter, pursuant to Section §551.071 (Consultation with Attorney)
3. Discussion regarding Breezy Hill Road pursuant to § Section 551.071 (Consultation with Attorney)
4. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

IV. ADJOURN EXECUTIVE SESSION

Council adjourned from Executive Session at 5:47 p.m.

V. RECONVENE PUBLIC MEETING (6:00 P.M.)

Mayor Pro Tem Macalik called the meeting back to order at 6:00 p.m. with 6 of the 7 council members being present (Pruitt absent).

VI. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

Council took no action as a result of Executive Session.

VII. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER FOWLER

Councilmember Fowler delivered the invocation and led the Pledge of Allegiance.

VIII. OPEN FORUM

Mayor Pro Tem Macalik explained how Open Forum is conducted and opened it up for public comment.

Russell Phelps
214 Alta Vista
Rockwall, TX 75087

Mr. Phelps explained that the field behind his house, which is located behind the Walmart store, consistently has very high grass. He would appreciate Walmart taking care of this, as they committed to do when the store first opened.

David Wrightson
5803 Yacht Club Drive
Rockwall, TX 75032

Mr. Wrightson came forth and shared that he would like to speak about the mosque. He expressed concern about the traffic, and the pre-dawn 'request for prayer,' which is typically announced over a

loud speaker. He is also concerned about any potential school that might be associated with this mosque, as schools of this nature are not inclusionary and they do not accept other religions.

Janice Morchower
144 Westwood
Rockwall, TX 75032

Ms. Morchower expressed concerns that developers and individuals continually come to ask for exceptions and variances from the Council. She is confused about why the Council continues to allow individuals to be granted exceptions to things like the city's Unified Development Code, zoning regulations, etc. over and over again.

Mayor Pro Tem Macalik asked if anyone else would like to come forth and speak at this time.

Judith Matherne
1115 Signal Ridge Place
Rockwall, TX

Ms. Matherne came forth and expressed support for acceptance of the mosque. She understands the previous speaker's concerns about variances; however, she acknowledged an understanding that flexibility is important too, especially as a city grows. She shared that she has an understanding that traffic will not be a great issue or concern, and – if it is – she is certain our police chief will handle said concerns like they do at (for example) for Lakepointe Church on Sundays.

Bob Wacker
309 Featherstone
Rockwall, TX

Mr. Wacker shared that he serves on the Architectural Review Board (ARB), and the ARB felt that a pitched roof should not have to be required for the mosque. He also thanked staff and the city for all its hard work, especially on the various public events it hosts.

Akhtar Usman
713 Cornell Drive
Rockwall, TX

Mr. Usman came forth and shared that he is generally in support of the mosque. The traffic, he explained, will not be concerning. The one month when the worshippers fast, traffic may increase; however, it will be around 10PM at night. Also, Fridays from about 1-2 p.m. may have traffic.

There being no one else wishing to come forth and speak, Mayor Pro Tem Macalik then closed Open Forum.

IX. CONSENT AGENDA

1. Consider approval of the minutes from the July 1, 2019 regular city council meeting, and take any action necessary.

2. Consider approval of an **ordinance** amending the Code of Ordinances in Ch. 18. Fire Prevention and Protection, Article III. Fire Marshal, Sections 18-66 and 18-67, authorizing the Fire Chief to appoint the Fire Marshal, and take any action necessary **(2nd reading).**

3. Consider approval of an **ordinance** amending the Code of Ordinances in Ch. 44 "Utilities," Article V. "Water," Division 7. "Water Resource and Emergency Management Plan," Sec. 44-432 to adopt a new plan that incorporates requirements pertaining to "Procedures for Curtailment of Water Supplies," and take any action necessary. **(1st Reading)**

4. Consider approving the facilities agreement with Alders at Rockwall Property, LLC to reconstruct the existing Squabble Creek Sanitary Sewer Interceptor within the Alders at Rockwall development in an amount not to exceed $556,034.66 and to be funded by sewer bonds and take any action necessary.

5. **P2019-011 -** Consider a request by Judy K**.** Larson for the approval of a final plat for Lot 1, Block A, Devoll Place Addition being a 6.96-acre tract of land identified as Tract 26-2 of the E. M. Elliott Survey, Abstract No. 77, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, situated within the FM-549 Overlay (FM-549 OV) District, addressed as 556 N. FM-3549, and take any action necessary.

6. **MIS2019-012** - Consider a request by Cameron Slown of FC Cuny Corporation on behalf of Tom Kirkland of TEKMAK Development Company for the approval of an Alternative Tree Mitigation Plan for an 8.715-acre tract of land identified as a portion of Lot 1, Block B, Goldencrest Addition and Tract 4 of the J. D. McFarland Survey, Abstract No. 145, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, situated north of the intersection of Greencrest Boulevard and the IH-30 Frontage Road, and take any action necessary.

7. **P2019-026** - Consider a request by Bill Bricker of Columbia Development Co., LLC for the approval of a preliminary plat for Lots 1-5, Block A, Park Station Addition, being a 16.26-acre tract of land identified as a portion of Lot 1, Block 1, Indalloy Addition (7.409-acres) and Tract 31 of the R. Ballard Survey, Abstract No. 29, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1100 & 1300 E. Washington Street, and take any action necessary.

Councilmember Trowbridge moved to approve the entire Consent Agenda. Councilmember Johannesen seconded the motion. Following a brief point of clarification, the ordinance captions were read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 19-27

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE CODE OF ORDINANCES IN CHAPTER 18. FIRE PREVENTION AND PROTECTION, ARTICLE III. FIRE MARSHAL, SECTIONS 18-66 AND 18-67, AUTHORIZING THE FIRE CHIEF TO APPOINT THE FIRE MARSHALL FOR THE CITY; PROVIDING FOR RELATED MATTERS; PROVIDING A SEVERABILITY CLAUSE; PROVIDING A REPEALER CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

CITY OF ROCKWALL
ORDINANCE NO. 19-____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE CODE OF ORDINANCES IN CHAPTER 44. "UTILITIES;" ARTICLE V. "WATER;" DIVISION 7. "WATER RESOURCE AND EMERGENCY MANAGEMENT PLAN;" SEC. 44-432 TO ADOPT AN UPDATED PLAN TO ENSURE COMPLIANCE WITH CERTAIN REQUIREMENTS OF THE TEXAS COMMISSION ON ENVIRONMENTAL QUALITY (TCEQ); PROVIDING FOR A PENALTY OF A FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; AND A SEPARATE OFFENSE SHALL BE DEEMED COMMITTED ON EACH DAY DURING OR ON WHICH A VIOLATION OCCURS; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING AN EFFECTVE DATE.

The motion passed by a vote of 6 ayes with 1 absence (Pruitt).

X. APPOINTMENT ITEMS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

This item was not addressed by Council.

XI. ACTION ITEMS

1. Discuss and consider directing staff to amend the Unified Development Code (UDC) and the Municipal Code of Ordinances to address changes relating to fences and planning and zoning related bills approved with the 86th Legislature, and take any action necessary.

Planning Director Ryan Miller began this discussion item, summarizing several recently passed pieces of state legislation that affect cities. Councilmember Hohenshelt then explained that the state legislature, including our city's representatives Bob Hall and Justin Holland, recently voted to pass new laws that will – for example – take a way a city's ability to regulate building materials utilized on both residential houses and commercial buildings in cities in the future. So now property owners could possibly put a trailer or built a metal home. These new laws become effective September 1. Councilmember Trowbridge commented that property values will likely go down. Recent bills have

generally taken away some authority from cities. Councilman Hohenshelt pointed out that adhering to these new laws will result in a hundred hours of staff time. Mayor Pro Tem Macalik summarized that Council is asking staff to move forward with making necessary changes to our Codes and then bring back those proposed changes to Council for consideration at a future date.

2. **SP2019-014** - Discuss and consider a request by Ahmed Helaluzzaman on behalf of Abdul Latif Khan of Center for Peace and Mercy, Inc. for the approval of a variance in conjunction with an approved site plan for a retail shopping center and house of worship on a 2.681-acre tract of land identified as Tract 10-1 & 22 of the E. P. G. Chisum Survey, Abstract No. 64, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located on the north side of Turtle Cove Boulevard north of the intersection of Turtle Cove Boulevard and Ridge Road [FM-740], and take any action necessary.

Planning Director Ryan Miller explained that the city's Architectural Review Board (ARB) did recommend approval of the proposed flat roof; however, when it went before the city's Planning & Zoning Commission, the flat roof was ultimately not approved. So, the applicant is essentially appealing to the City Council to seek approval of a variance so that they can utilize a flat, as opposed to a pitched, roof. In order to pass, this require a ¾ majority vote for approval.

Ahmed Helaluzzaman
545 Coventry Drive
Grapevine, TX

Mr. Helaluzzaman came forth on behalf of the applicant, indicating that he is the designer of this building. He generally sought Council's approval for this variance request.

Following brief comments from Council, Councilman Johannesen moved to approve SP2019-014. Councilmember Trowbridge seconded the motion. Councilman Daniels briefly commented that he does not believe a request for a variance to allow a flat roof (as opposed to a pitched roof) has ever been denied by council in his tenure. He suggested that perhaps our regulations related to this topic may need to be reconsidered. Councilman Hohenshelt expressed concern regarding variances pertaining to city regulations, in general. Councilman Fowler asked Mr. Miller for some clarification regarding why there is a requirement for pitched roofs, and Mr. Miller did so.

Following the discussion, the motion passed by a vote of 6 ayes with 1 absence (Pruitt).

3. **Z2018-046** - Discuss and consider a request by Brad Helmer on behalf of Heritage Christian Academy (HCA) for the approval of an extension to a Specific Use Permit (SUP) [S-200; Ordinance No. 19-02] allowing existing temporary educational buildings in conjunction with a private school to remain on a 6.64-acre parcel of land identified as Lot 1, Block A, Heritage Christian Academy Addition, City of Rockwall, Rockwall County, Texas, zoned Multi-Family 14

(MF-14) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1408 S. Goliad Street [SH-205], and take any action necessary.

Planning Director Ryan Miller provided background information pertaining to this agenda item.

Brad Helmer
2917 Chuck Wagon Drive
Rockwall, TX

Mr. Helmer came forth and addressed the Council concerning the details of this request for an SUP extension.

Councilmember Hohenshelt suggested that Council consider granting a one month SUP extension, pointing out that the SUP for these portable classrooms / buildings has been extended over and over such that the portables have been in place for twenty years (since 1999).

Councilman Daniels generally expressed a desire for two-way communication to occur between Mr. Helmer and city staff. Following extensive dialogue between the applicant and Council, Councilman Daniels shared that there will come a time when Council will need to draw a line in the sand and discontinue granting future SUP extensions.

Councilman Daniels moved to extend this SUP for a period of ninety days (90) and ask the applicant to come back before Council within 45 days with a more extensive plan that shows more specific target dates. Councilman Fowler seconded the motion. Fowler suggested that Mr. Helmer consider meeting with Councilmember Johannesen on his 'plan' and to work on repairing the relations with city staff.

Mr. Miller shared that the 2016 project cannot be "finaled" until the required items (drainage and detention ponds) are received by staff.

Following brief comments, the motion to extend the SUP for 90 days passed by a vote of 5 ayes, 1 against (Macalik), and 1 absence (Pruitt).

XII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding appointments to city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission, Animal Advisory Board, and Board of Adjustments - pursuant to Section 551.074 (Personnel Matters)
2. Discussion regarding a personnel matter, pursuant to Section §551.071 (Consultation with Attorney)
3. Discussion regarding Breezy Hill Road pursuant to § Section 551.071 (Consultation with Attorney)

4. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

XIII. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

XIV. ADJOURNMENT

Mayor Pro Tem Macalik thanked staff, including Andy Hesser and his staff in Parks & Rec., for the wonderful 4th of July events. She went on to announce that Mr. Hesser will be leaving the City of Rockwall to take a position as the new Parks & Rec Director with the City of Garland. She, council and staff thanked Mr. Hesser for all his hard work over the years and wished him well.

Mayor Pro Tem Macalik adjourned the meeting at 7:07 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 5th DAY OF AUGUST, 2019.

CITY OF ROCKWALL

ORDINANCE NO. 19-28

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE CODE OF ORDINANCES IN CHAPTER 44. "UTILITIES;" ARTICLE V. "WATER;" DIVISION 7. "WATER RESOURCE AND EMERGENCY MANAGEMENT PLAN;" SEC. 44-432 TO ADOPT AN UPDATED PLAN TO ENSURE COMPLIANCE WITH CERTAIN REQUIREMENTS OF THE TEXAS COMMISSION ON ENVIRONMENTAL QUALITY (TCEQ); PROVIDING FOR A PENALTY OF A FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; AND A SEPARATE OFFENSE SHALL BE DEEMED COMMITTED ON EACH DAY DURING OR ON WHICH A VIOLATION OCCURS; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING AN EFFECTVE DATE.

WHEREAS, on April 15, 2019 the Rockwall City Council established a "Water Resource and Emergency Management Plan" through adoption of Ordinance No. 19-17 and its associated "Exhibit A;" and

WHEREAS, subsequent its adoption and submission to the Texas Commission on Environmental Quality (TCEQ), the City of Rockwall was informed by TCEQ that some additional verbiage related to "Procedures for Curtailment of Water Supplies" is required to be part of said plan; and

WHEREAS, the Rockwall City Council has therefore determined a necessity to repeal the previously adopted plan ("Exhibit A" of Ordinance No. 19-17) in order to adopt an updated plan to reflect said, required verbiage.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THAT:

SECTION 1. The Code of Ordinances in Chapter 44. "Utilities," Article V. "Water," Division 7. "Water Resource and Emergency Management Plan" is hereby amended to adopt an updated plan as reflected in **"Exhibit A"** of this ordinance; and

SECTION 2. PLAN ADOPTED

Sec.44-432

(a) The city council hereby approves and adopts the City of Rockwall "Water Resource and Emergency Management Plan," attached to Ordinance No. 19-28 as "Exhibit A," which is incorporated as if fully set forth in this division and on file in the city secretary's office.

SECTION 3. Any person, firm or corporation violating any of the provisions of this ordinance shall be punished by a penalty fine not to exceed the sum of Two Thousand Dollars ($2,000.00) for each offense and each day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 4. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 5. The City Council does hereby find and declare that sufficient written notice of the date, hour, place and subject of the meeting adopting this Ordinance was posted at a designated place convenient to the public for the time required by law preceding the meeting, that such place of posting was readily accessible at all times to the general public, and that all of the foregoing was done as required by law at all times during which this Ordinance and the subject matter thereof has been discussed, considered and formally acted upon. The City Council further ratifies, approves and confirms such written notice and the posting thereof.

SECTION 6. The City Manager or his designee is hereby directed to file a copy of the Plan and this Ordinance with the Texas Commission on Environmental Quality in accordance with Title 30, Chapter 288 of the Texas Administrative Code, and said Plan meets all the requirements of Section 288.2 of the Texas Administrative Code;

SECTION 7. This ordinance shall be cumulative of all other ordinances of the City and shall not repeal any of the provisions of those ordinances except in those instances where the provisions of those ordinances are in direct conflict with the provisions of this ordinance or as herein specified.

SECTION 8. This ordinance shall take effect immediately from and after its passage and approval, and it is so ordained.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 5TH DAY OF AUGUST, 2019.

FORWARD

This 2019 Model Water Resource and Emergency Management Plan (WREMP) which is an update to the 2014 Drought Contingency and Water Emergency Response Plan was prepared by Freese and Nichols for the North Texas Municipal Water District (NTMWD). It is intended to be used by NTMWD Member Cities and Customers as a guide as they develop their own Water Resource and Emergency Management Plans. This plan was prepared pursuant to Texas Commission on Environmental Quality rules. Some material is based on the existing drought contingency plans listed in Appendix A.

Questions regarding this drought contingency and water emergency response plan should be addressed to the following:

Jeremy Rice
Freese and Nichols, Inc.
(817) 735-7300
jjr@freese.com

Denise Hickey
North Texas Municipal
Water District
(972) 442-5405
dhickey@ntmwd.com

This Model WREMP plan is based on the Texas Administrative Code in effect on January 18, 2019.

APPENDICES

APPENDIX A **List of References**

APPENDIX B **Texas Commission on Environmental Quality Rules on Drought Contingency Plans**
- Texas Administrative Code Title 30, Part 1, Chapter 288, Subchapter B, Rule §288.20 – Drought Contingency Plans for Municipal Uses by Public Water Suppliers

APPENDIX C **Letter to Region C Water Planning Group**

1. INTRODUCTION AND OBJECTIVES

This document has been prepared as a Model Water Resource and Emergency Management Plan (WREMP), intended to be available for use by North Texas Municipal Water District (NTMWD) Member Cities and Customer Cities as they develop their own plans. This model plan addresses all of the current TCEQ requirements for a drought contingency plan. [1] This plan will replace the plans dated August 2004, April 2006, March 2008, and April 2014.

The measures included in this Model WREMP are intended to provide short-term water savings during drought or emergency conditions. Water savings associated with ongoing, long-term strategies are discussed in the *Model Water Conservation Plan for North Texas Municipal Water District Member Cities and Customer Cities*. [2]

- The purpose of this Model WREMP plan is as follows:
- To conserve the available water supply in times of drought and emergency
- To maintain supplies for domestic water use, sanitation, and fire protection
- To protect and preserve public health, welfare, and safety
- To minimize the adverse impacts of water supply shortages
- To minimize the adverse impacts of emergency water supply conditions

The NTMWD supplies treated water to its Member Cities and Customer Cities. This model plan was developed by NTMWD in consultation with its Member Cities. In order to adopt this model plan, each NTMWD Member City and Customer City will need to adopt ordinance(s) or regulation(s) implementing the plan, including the determination of fines and enforcement procedures. The model plan calls for Member Cities and Customer Cities to adopt Water Resource Stages initiated by NTMWD during a drought or water supply emergency. Member Cities and Customer Cities may also adopt more stringent drought or water emergency response stages than NTMWD if conditions warrant.

In the absence of drought response measures, water demands tend to increase during drought due to increased outdoor irrigation. The severity of the drought depends on the degree of depletion of supplies and on the relationship of demand to available supplies. NTMWD considers a drought to end when all of the NTMWD's supply reservoirs refill to conservation storage pool levels.

[1] Superscripted numbers match references listed in Appendix A.

2. DEFINITIONS AND ABBREVIATIONS

1. AQUATIC LIFE means a vertebrate organism dependent upon an aquatic environment to sustain its life.

2. ATHLETIC FIELD means a public sports competition field, the essential feature of which is turf grass, used primarily for organized sports practice, competition or exhibition events for schools; professional sports and league play sanctioned by the utility providing retail water supply.

3. COMMERCIAL FACILITY means business or industrial buildings and the associated landscaping, but does not include the fairways, greens, or tees of a golf course.

4. COMMERCIAL VEHICLE WASH FACILITY means a permanently-located business that washes vehicles or other mobile equipment with water or water-based products, including but not limited to self-service car washes, full service car washes, roll-over/in-bay style car washes, and facilities managing vehicle fleets or vehicle inventory.

5. CUSTOMERS include those entities to which NTMWD provides wholesale water that are not Member Cities of NTMWD.

6. DESIGNATED OUTDOOR WATER USE DAY means a day prescribed by rule on which a person is permitted to irrigate outdoors.

7. DRIP IRRIGATION is a type of micro-irrigation system that operates at low pressure and delivers water in slow, small drips to individual plants or groups of plants through a network of plastic conduits and emitters; also called trickle irrigation.

8. DROUGHT, for the purposes of this report, means an extended period of time when an area receives insufficient amounts of rainfall to replenish the water supply, causing water supply sources (in this case reservoirs) to be depleted.

9. EVAPOTRANSPIRATION (ET) represents the amount of water lost from plant material to evaporation and transpiration. The amount of ET can be estimated based on the temperature, wind, and relative humidity.

10. EXECUTIVE DIRECTOR means the Executive Director of the NTMWD and includes a person the Executive Director has designated to administer or perform any task, duty, function, role, or action related to this Plan or on behalf of the Executive Director.

11. FOUNDATION WATERING means an application of water to the soils directly abutting (within 2 feet) the foundation of a building, structure.

12. INTERACTIVE WATER FEATURES means water sprays, dancing water jets, waterfalls, dumping buckets, shooting water cannons, inflatable pools, temporary splash toys or pools, slip-n-slides, or splash pads that are maintained for recreation.

13. IRRIGATION SYSTEM means a permanently installed, custom-made, site-specific system of delivering water generally for landscape irrigation via a system of pipes or other conduits installed below ground.

14. LANDSCAPE means any plant material on a property, including any tree, shrub, vine, herb, flower, succulent, ground cover, grass or turf species, that is growing or has been planted out of doors.

15. MEMBER CITIES include the cities of Allen, Farmersville, Forney, Frisco, Garland, McKinney, Mesquite, Plano, Princeton, Richardson, Rockwall, Royse City, and Wylie, Texas, which are members of NTMWD.

16. NEW LANDSCAPE means: (a) vegetation installed at the time of the construction of a residential or commercial facility; (b) installed as part of a governmental entity's capital improvement project; or (c) installed to stabilize an area disturbed by construction.

17. ORNAMENTAL FOUNTAIN means an artificially created structure (up to a certain diameter) from which a jet, stream, or flow of treated water emanates and is not typically utilized for the preservation of aquatic life.

18. RETAIL CUSTOMERS include those customers to whom the Supplier provides retail water from a water meter.

19. SOAKER HOSE means a perforated or permeable garden-type hose or pipe that is laid above ground that provides irrigation at a slow and constant rate.

20. SPRINKLER means an above-ground water distribution device that may be attached to a garden hose.

21. SUPPLIER means a Member City or Customer that purchases wholesale water from NTMWD and provides water to retail and/or wholesale customers.

22. SWIMMING POOL means any structure, basin, chamber, or tank including hot tubs, containing an artificial body of water for swimming, diving, or recreational bathing, and having a depth of two (2) feet or more at any point.

23. WATER RESOURCE MANAGEMENT PLAN means a strategy or combination of strategies for temporary supply management and demand management responses to temporary and potentially recurring water supply shortages and other water supply emergencies required by Texas Administrative Code Title 30, Chapter 288, Subchapter B. This is sometimes called a drought contingency plan.

Abbreviation	Full Nomenclature
ED	NTMWD Executive Director
NTMWD or District	North Texas Municipal Water District
TCEQ	Texas Commission on Environmental Quality
TWDB	Texas Water Development Board
Model WREMP	Model Water Resource and Emergency Management Plan for Member Cities and Customers

3. TEXAS COMMISSION ON ENVIRONMENTAL QUALITY RULES

The TCEQ rules governing development of drought contingency plans for public water suppliers are contained in Title 30, Part 1, Chapter 288, Subchapter B, Rule 288.20 of the Texas Administrative Code, a current copy of which is included in Appendix B. For the purpose of these rules, a drought contingency plan is defined as "a strategy or combination of strategies for temporary supply and demand management responses to temporary and potentially recurring water supply shortages and other water supply emergencies."[1]

Minimum Requirements

TCEQ's minimum requirements for drought contingency plans are addressed in the following subsections of this report:

- 288.20(a)(1)(A) – Provisions to Inform the Public and Provide Opportunity for Public Input – Section 4.1
- 288.20(a)(1)(B) – Provisions for Continuing Public Education and Information – Section 4.2
- 288.20(a)(1)(C) – Coordination with the Regional Water Planning Group – Section 4.7
- 288.20(a)(1)(D) – Criteria for Initiation and Termination of Drought Stages – Section 4.3
- 288.20(a)(1)(E) – Drought and Emergency Response Stages – Section 4.4
- 288.20(a)(1)(F) – Specific, Quantified Targets for Water Use Reductions – Section 3.4
- 288.20(a)(1)(G) – Water Supply and Demand Management Measures for Each Stage – Section 4.4
- 288.20(a)(1)(H) – Procedures for Initiation and Termination of Drought Stages – Section 3.3
- 288.20(a)(1)(I) - Procedures for Granting Variances – Section 4.5
- 288.20(a)(1)(J) - Procedures for Enforcement of Mandatory Restrictions – Section 3.6
- 288.20(a)(3) – Consultation with Wholesale Supplier – Sections 1 and 4.4
- 288.20(b) – Notification of Implementation of Mandatory Measures – Section 4.3
- 288.20(c) – Review and Update of Plan – Section 4.8

4. WATER RESOURCE AND EMERGENCY MANAGEMENT PLAN

4.1 Provisions to Inform the Public and Opportunity for Public Input

The City of Rockwall will provide opportunity for public input in the development of this drought contingency and water emergency response plan by the following means:

- Providing written notice of the proposed plan and the opportunity to comment on the plan by newspaper, posted notice, and notice on the supplier's web site.
- Making the draft plan available on the supplier's web site.
- Providing the draft plan to anyone requesting a copy.
- Holding a public meeting.

4.2 Provisions for Continuing Public Education and Information

The City of Rockwall will inform and educate the public about the Water Resource and Emergency Management Plan by the following means:

- Preparing a bulletin describing the plan and making it available at City Hall and other appropriate locations.
- Making the plan available to the public through the supplier's web site.
- Including information about the Water Resource and Emergency Management on the supplier's web site.
- Notifying local organizations, schools, and civic groups that staff are available to make presentations on the Water Resource and Emergency Management Plan (usually in conjunction with presentations on water conservation programs).

At any time that the drought contingency and water emergency response plan is activated or the drought stage or water emergency response stage changes, Member Cities and Customer Cities will notify local media of the issues, the drought response stage or water emergency response stage (if applicable), and the specific actions required of the public. The information will also be publicized on the supplier's web site (if available). Billing inserts will also be used as appropriate.

4.3 Initiation and Termination of Water Resource and Emergency Management Stages and Targets for Water use Reductions

<u>Initiation of a Water Resource Management Stage</u>

The City Manager or official designee may order the implementation of a Water Resource and Emergency Management response stage when one or more of the trigger conditions for that stage are met.

- Water Resource and Emergency Management Plan stages imposed by NTMWD action must be initiated by Member Cities and Customers.

- For other trigger conditions internal to a city or water supply entity, the City Manager or official designee may decide not to order the implementation of a Water Resource Management Stage or Water Emergency even though one or more of the trigger criteria for the stage are met. Factors which could influence such a decision include, but are not limited to, the time of the year, weather conditions, the anticipation of replenished water supplies, or the anticipation that additional facilities will become available to meet needs. The reason for this decision should be documented.

The following actions will be taken when a water resource management stage is initiated:

- The public will be notified through local media and the supplier's web site (if available) as described in Section 4.2.
- Wholesale customers (if any) and the NTMWD will be notified by e-mail with a follow-up letter or fax that provides details of the reasons for initiation of the Water Resource Management Stage.
- If any mandatory provisions of the Water Resource and Emergency Management Plan are activated, Member Cities and Customer Cities will notify the Executive Director of the TCEQ and the Executive Director of the NTMWD within 5 business days.

Termination of Water Management Stage

The City Manager or official designee may order the termination of a Water Resource Management Stage when the conditions for termination are met or at their discretion.

The following actions will be taken when a water resource management stage is terminated:

- The public will be notified through local media and the supplier's web site as described in Section 4.2.
- Wholesale customers (if any) and the NTMWD will be notified by e-mail with a follow-up letter or fax.
- If any mandatory provisions of the Water Resource and Emergency Management Plan that have been activated are terminated, Member Cities and Customer Cities will notify the Executive Director of the TCEQ and the Executive Director of the NTMWD within 5 business days.

The City Manager or official designee may decide not to order the termination of a Water Resource Management stage even though the conditions for termination of the stage are met. Factors which could influence such a decision include, but are not limited to, the time of year, weather conditions, or the anticipation of potential changed conditions that warrant the continuation of the Water Resource Management Stage. The reason for this decision should be documented.

Water Resource and Emergency Management Plan Stages and Measures

4.3.1 Stage 1

Initiation and Termination Conditions for Stage 1

The NTMWD has initiated Stage 1, which may be initiated due to one or more of the following:

- The NTMWD Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the declaration of Stage 1.
- Water demand is projected to approach the limit of the permitted supply.
- The storage level in Lavon Lake as published by the Texas Water Development Board (TWDB),[3] is less than 70 percent of the total conservation pool capacity during any months or April through October or less than 60 percent of the total conservation pool capacity during any of the months of November through March.
- The Sabine River Authority has indicated that its Upper Basin water supplies used by NTMWD (Lake Tawakoni and/or Lake Fork) are in a Stage 1 drought.
- NTMWD has concern that Lake Texoma, Jim Chapman Lake, the East Fork Water Reuse Project, the Main Stem Pump Station, or some other NTMWD source may be limited in availability in the next six (6) months.
- NTMWD water demand exceeds 95 percent of the amount that can be delivered to customers for three (3) consecutive days.
- Water demand for all or part of NTMWD's delivery system approaches delivery capacity because delivery capacity is inadequate.
- Supply source is interrupted or unavailable due contamination, invasive species, equipment failure or other causes.
- NTMWD's water supply system is unable to deliver water due to the failure or damage of major water system components.
- Part of the system has a shortage in supply or damage to equipment. NTMWD may implement measures for only the portion of the NTMWD system impacted.

Supplier has initiated Stage 1 due to one or more of the following reasons:

- Supplier's water demand exceeds 95 percent of the amount that can be delivered to customers for three consecutive days.
- Supplier's water demand for all or part of the delivery system approaches delivery capacity because delivery capacity is inadequate.
- Supply source becomes contaminated.
- Supplier's water supply system is unable to deliver water due to the failure or damage of major water system components.
- Supplier's individual plan may be implemented if other criteria dictate.

NTMWD has terminated Stage 1, which may be terminated due to one or more of the following:

- The Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the termination of Stage 1.
- The storage level in Lavon Lake, as published by the TWDB, [3] is greater than 75 percent of the total conservation pool capacity during any of the months of April through October or greater than 65 percent of the total conservation pool capacity during any of the months of November through March.
- Other circumstances that caused NTMWD initiation of Stage 1 no longer prevail.

Supplier has terminated Stage 1, which may be terminated due to the cause of the Supplier's initiation of Stage 1 no longer prevail.

Goal for Use Reduction and Actions Available under Stage 1

Stage 1 is intended to raise public awareness of potential drought or water emergency problems. The goal for water use reduction under Stage 1 is a two percent (2%) reduction in the amount of water produced by NTMWD from the previous corresponding annual payment period prior to institution of drought restrictions. **If circumstances warrant, of if required by NTMWD, the City Manager or official designee can set a goal for greater or lesser water use reduction under Stage 1.** The City Manager or official designee may order the implementation of any of the actions listed below, as deemed necessary, to achieve a two percent (2%) reduction. Measures described as "requires notification to TCEQ" are those that impose mandatory requirements on customers. The supplier must notify TCEQ and NTMWD within five (5) business days if such mandatory measures are implemented.

- Continue actions established by Water Conservation Plan.
- Notify wholesale customers of actions being taken and request implementation of similar procedures.
- Initiate engineering studies to evaluate alternative water sources and/or alternative delivery mechanisms should conditions worsen.
- Increase public education efforts on ways to reduce water use.
- Halt non-essential city government water use:

  (Examples: street cleaning, vehicle washing, operation of ornamental fountains, etc.)
- Encourage the public to wait until the current drought or emergency situation has passed before establishing New Landscape.
- Encourage all users to reduce the frequency of draining and refilling swimming pools.
- **Requires Notification to TCEQ -** Increase enforcement of the following landscape watering restrictions established by the Water Conservation Plan: (1) limit landscape watering with sprinklers or irrigation systems at each service address to no more than two (2) days per week, on designated days, between April

1 and October 31; and (2) limit landscape watering with sprinklers or irrigation systems at each service address to once every week, on designated days, between November 1 and March 31. Exceptions are as follows:

- An exception is allowed for New Landscape associated with new construction that may be watered as necessary for 30 days from the date of installation of new landscape features.
- An exception for additional watering of landscape may be provided by hand-held hose with shutoff nozzle, and/or use of dedicated irrigation drip zones provided no runoff occurs.
- Foundation (within 2 feet), New Landscape watering, watering of new plantings (first year) of shrubs, and watering of trees (within a ten foot radius of its trunk) may occur by a hand-held hose, a soaker hose, or a dedicated zone using a Drip Irrigation system provided no runoff occurs.
- Restrictions do not apply to locations using treated wastewater effluent for irrigation or the legal use of water pumped from Lake Ray Hubbard as may be regulated by the City of Dallas.

- **Requires Notification to TCEQ -** Initiate a rate surcharge for all water use over a certain level.
- **Requires Notification to TCEQ -** Public athletic fields used for competition may be watered twice per week.
- **Requires Notification to TCEQ -** Prohibit watering of golf courses using treated water, except as needed to keep greens and tee boxes alive.

4.3.2 Stage 2

Initiation and Termination Conditions for Stage 2

The NTMWD has initiated Stage 2, which may be initiated due to one or more of the following:

- The NTMWD Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the declaration of Stage 2.
- Water demand is projected to approach the limit of NTMWD permitted supply.
- The storage in Lavon Lake, as published by the TWDB, is less than 55 percent of the total conservation pool during any of the months of April through October or less than 45 percent of the total conservation pool capacity during any of the months of November through March.
- The Sabine River Authority has indicated that its Upper Basin water supplies used by NTMWD (Lake Tawakoni and/or Lake Fork) are in a Stage 2 drought.
- NTMWD has concern that Lake Texoma, Jim Chapman Lake, the East Fork Water Reuse Project, the Main Stem Pump Station, or some other NTMWD source may be limited in availability in the next three (3) months.

- NTMWD water demand exceeds 98 percent of the amount that can be delivered to customers for three (3) consecutive days.
- NTMWD water demand for all or part of the delivery system equals delivery capacity because delivery capacity is inadequate.
- NTMWD's supply source is interrupted or unavailable due contamination, invasive species, equipment failure, or other causes.
- NTMWD's water supply system is unable to deliver water due to the failure or damage of major water system components.
- Part of the system has a shortage in supply or damage to equipment. NTMWD may implement measures for only that portion of the system impacted.

Supplier has initiated Stage 2 due to one or more of the following reasons:

- Supplier's water demand exceeds 98 percent of the amount that can be delivered to customers for three (3) consecutive days.
- Supplier's water demand for all or part of the delivery system exceeds delivery capacity because delivery capacity is inadequate.
- Supply source becomes contaminated.
- Supplier's water supply system is unable to deliver water due to the failure or damage of major water system components.
- Supplier's individual plan may be implemented if other criteria dictate.

NTMWD has terminated Stage 2, which may terminate due to one of the following:

- The Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the termination of Stage 2.
- The storage level in Lavon Lake, as published by the TWDB, [3] is greater than 70 percent of the total conservation pool capacity during any of the months of April through October or greater than 60 percent of the total conservation pool capacity during any of the months of November through March.
- Other circumstances that caused NTMWD initiation of Stage 2 no longer prevail.

Supplier has terminated Stage 2, which may be terminated due to the cause of the Supplier's initiation of Stage 2 no longer prevail.

Goal for Use Reduction and Actions Available under Stage 2

The goal for water use reduction under Stage 2 is a reduction of ten percent (10%) in the amount of water obtained from NTMWD from the previous corresponding annual payment period prior to institution of drought restrictions. **If circumstances warrant, of if required by NTMWD, the City Manager or official designee can set a goal for greater or lesser water use reduction.** The City Manager or official designee may order the implementation of any of the actions listed below, as deemed necessary, to achieve a two-percent reduction. Measures described as "requires notification to TCEQ" are those that impose mandatory

requirements on customers. The supplier must notify TCEQ and NTMWD within five (5) business days if such mandatory measures are implemented.

- Continue or initiate any actions available under Water Conservation Plan and Stage 1.
- Notify wholesale customers of actions being taken and request them to implement similar procedures.
- Implement viable alternative water supply strategies.
- Further accelerate public education efforts on ways to reduce water use.
- Encourage all users to reduce the frequency of draining and refilling swimming pools.
- **Requires Notification to TCEQ -** Limit landscape watering with sprinklers or irrigation systems at each service address to once per week, on designated days between April 1 and October 31. and (2) limit landscape watering with sprinklers or irrigation systems at each service address to once every week, on designated days, between November 1 and March 31. Exceptions are as follows:
    - An exception is allowed for New Landscape associated with new construction that may be watered as necessary for 30 days from the date of installation of new landscape features.
    - An exception for additional watering of landscape may be provided by hand-held hose with shutoff nozzle, and/or use of dedicated irrigation drip zones provided no runoff occurs.
    - Foundation (within 2 feet), New Landscape Watering, watering of new plantings (first year) of shrubs, and watering of trees (within a ten foot radius of its trunk) may occur by a hand-held hose, a soaker hose, or a dedicated zone using a Drip Irrigation system provided no runoff occurs.
    - Athletic Fields may be watered twice per week.
    - An exemption is allowed for Drip Irrigation system from the designated outdoor water use day limited to no more than one day per week. Drip Irrigation systems are however subject to all other restrictions applicable under this stage.
    - Hand water with shutoff nozzle, drip lines, and Soaker Hoses are allowed before 10 am and after 6 pm, provided no runoff occurs.
    - Restrictions do not apply to locations using treated wastewater effluent for irrigation or the legal use of water pumped from Lake Ray Hubbard as may be regulated by the City of Dallas.
- **Requires Notification to TCEQ -** Prohibit hydro seeding, hydro mulching, and sprigging.
- **Requires Notification to TCEQ -** Initiate a rate surcharge as requested by NTMWD.

- **Requires Notification to TCEQ -** Initiate a rate surcharge for all water used over a certain level.
- **Requires Notification to TCEQ -** Prohibit watering of golf courses using treated water, except as needed to keep greens and tee boxes alive.
- **Requires Notification to TCEQ –** If NTMWD has imposed a reduction in water availability, the City Manager is hereby authorized to initiate allocation of water supplies on a pro rata basis in accordance with Texas Water Code Section §11.039 and according to the following water allocation policies and procedures:
    - A wholesale customer's monthly allocation shall be a percentage of the customer's water usage baseline. The percentage will be set by the City Manager or his/her designee based on the assessment of the severity of the water shortage condition and the need to curtail water diversions and/or deliveries and may be adjusted periodically by the City Manager or his/her designee as conditions warrant. Once pro rata allocations are in effect, water diversions by or deliveries to each wholesale customer shall be limited to the allocation established for each month.
    - A monthly water usage allocation shall be established by the City Manager or his/her designee for each wholesale customer. The wholesale customer's water usage baseline will be computed on the average water usage by month for the past five years. If the wholesale customer's billing history is less than five (5) years, the monthly average for the period for which there is a record shall be used for any monthly period for which no billing history exists.
    - The City Manager or his/her designee shall provide notice, by certified mail, to each wholesale customer informing them of their monthly water usage allocations and shall notify the news media, the Texas Natural Resource Conservation Commission, and the Texas Water Development Board upon initiation of pro rata water allocations.
    - Upon request of the customer, a request for a temporary variance to the pro rata water allocation may be requested.
    - At the initiative of the City Manager or his/her designee, the allocation may be reduced if, (a) the customer agrees to transfer part of its allocation to another wholesale customer, or (2) other objective evidence demonstrates that the designated allocation is inaccurate under present conditions.
    - City wholesale water users will be advised to continue all relevant actions from the previous stages including appropriate public water use restrictions and to implement the next stage of their own individual Retail Water Supplier Resource and Emergency Management Plan.

4.3.2 Stage 3

Initiation and Termination Conditions for Stage 3

The NTMWD has initiated Stage 3, which may be initiated due to one or more of the following:

- The NTMWD Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the declaration of Stage 3
- Water demand is projected to approach or exceed the limit of the permitted supply.
- The storage in Lavon Lake, as published by the TWDB, [3] is less than 30 percent of the total conservation pool during any of the months of April through October or less than 20 percent of the total conservation pool capacity during any of the months of November through March.
- The Sabine River Authority has indicated that its Upper Basin water supplies used by NTMWD (Lake Tawakoni and/or Lake Fork) are in Stage 3.
- The water supplied from Lake Texoma, Jim Chapman Lake, the East Fork Water Reuse Project, the Main Stem Pump Station, or some other NTMWD water source has become limited in availability.
- NTMWD water demand exceeds the amount that can be delivered to Customers.
- NTMWD water demand for all or part of the delivery system exceeds delivery capacity because delivery capacity is inadequate.
- NTMWD's supply source is interrupted or unavailable due contamination, invasive species, equipment failure, or other causes.
- Part of the system has a shortage in supply or damage to equipment. NTMWD may implement measures for only that portion of the system impacted.

Supplier has initiated Stage 3 due to one or more of the following reasons:

- Supplier's water demand exceeds the amount that can be delivered to customers.
- Supplier's water demand for all or part of the delivery system exceeds delivery capacity because delivery capacity is inadequate.
- Supply source becomes contaminated.
- Supplier's water supply system is unable to deliver water due to the failure or damage of major water system components.
- Supplier's individual plan may be implemented if other criteria dictate.

NTMWD has terminated Stage 3, which may terminate due to one or more of the following:

- The Executive Director, with the concurrence of the NTMWD Board of Directors, finds that conditions warrant the termination of Stage 3.
- The storage level in Lavon Lake, as published by the TWDB, [3] is greater than 55 percent of the total conservation pool capacity during any of the months of April

through October or greater than 45 percent of the total conservation pool capacity during any of the months of November through March.

- Other circumstances that caused NTMWD initiation of Stage 2 no longer prevail.

Supplier has terminated Stage 3, which may be terminated due to the cause of the Supplier's initiation of Stage 3 no longer prevail.

Goals for Use Reduction and Actions Available under Stage 3

The goal for water use reduction under Stage 3 is a reduction of whatever amount is designated by NTMWD in the amount of water obtained from NTMWD from the corresponding previous annual payment period prior to institution of drought restrictions. If circumstances warrant or if required by NTMWD, the City Manager or official designee can set a goal for greater water use reduction.

The City Manager or official designee must implement any action(s) required by NTMWD. In addition, the City Manager or official designee may order the implementation of any of the actions listed below, as deemed necessary. Measures described as "requires notification to TCEQ" impose mandatory requirements on customers. The supplier must notify TCEQ and NTMWD within five (5) business days if these measures are implemented:

- Continue or initiate any actions available under Stages 1 and 2.
- Notify wholesale customers of actions being taken and request them to implement similar procedures.
- Implement viable alternative water supply strategies.
- **Requires Notification to TCEQ** – Initiate mandatory water use restrictions as follows:
    - Prohibit hosing and washing of paved areas, buildings, windows or other surfaces is prohibited except by variance and performed by a professional service using high efficiency equipment.
    - Prohibit operation of all ornamental fountains or other amenity impoundments to the extent they use treated water.
- **Requires Notification to TCEQ -** Prohibit hydro seeding, hydro mulching, and sprigging.
- **Requires Notification to TCEQ -** Prohibit the use of potable water for the irrigation of new landscape.
- **Requires Notification to TCEQ -** Prohibit commercial and residential landscape watering, except that foundations and trees may be watered for 2 hours on any day with a hand-held hose, a soaker hose, or a dedicated zone using a drip irrigation system provided no runoff occurs. ET/Smart controllers and drip irrigation systems are not exempt from this requirement.

- **Requires Notification to TCEQ -** Prohibit washing of vehicles except at Commercial Vehicle Wash Facilities, except as necessary for health, sanitation, or safety reasons.
- **Requires Notification to TCEQ -** Prohibit watering of golf courses using treated water, except as needed to keep greens and tee boxes alive.
- **Requires Notification to TCEQ -** Prohibit the permitting of private pools. Pools already permitted may be completed and filled with water. Existing private and public pools may add water to maintain pool levels but may not be drained and refilled.
- **Requires Notification to TCEQ -** Require all commercial water users to reduce water use by a percentage established by the City Manager or official designee.
- **Requires Notification to TCEQ -** Initiate a rate surcharge for all water use over normal rates for all water use.
- **Requires Notification to TCEQ -** In the event that the triggering criteria specified in the Plan for Stage 3 and Severe Water Shortage Conditions have been met, the City Manager is hereby authorized to initiate allocation of water supplies on a pro rata basis in accordance with Texas Water Code Section §11.039 and according to the following water allocation policies and procedures:

    - A wholesale customer's monthly allocation shall be a percentage of the customer's water usage baseline. The percentage will be set by the City Manager or his/her designee based on the assessment of the severity of the water shortage condition and the need to curtail water diversions and/or deliveries and may be adjusted periodically by the City Manager or his/her designee as conditions warrant. Once pro rata allocations are in effect, water diversions by or deliveries to each wholesale customer shall be limited to the allocation established for each month.

    - A monthly water usage allocation shall be established by the City Manager or his/her designee for each wholesale customer. The wholesale customer's water usage baseline will be computed on the average water usage by month for the past five years. If the wholesale customer's billing history is less than five (5) years, the monthly average for the period for which there is a record shall be used for any monthly period for which no billing history exists.

    - The City Manager or his/her designee shall provide notice, by certified mail, to each wholesale customer informing them of their monthly water usage allocations and shall notify the news media, the Texas Natural Resource Conservation Commission, and the Texas Water Development Board upon initiation of pro rata water allocations.

    - Upon request of the customer, a request for a temporary variance to the pro rata water allocation may be requested.

- At the initiative of the City Manager or his/her designee, the allocation may be reduced if, (a) the customer agrees to transfer part of its allocation to another wholesale customer, or (2) other objective evidence demonstrates that the designated allocation is inaccurate under present conditions.
- City wholesale water users will be advised to continue all relevant actions from the previous stages including appropriate public water use restrictions and to implement the next stage of their own individual Retail Water Supplier Resource and Emergency Management Plan.

4.4 Procedure for Curtailment of Water Supplies

Any imposed reduction in water availability, the City Manager is hereby authorized to initiate allocation of water supplies on a pro rata basis in accordance with Texas Water Code Section §11.039. In addition, every wholesale water supply contract entered into or renewed after the adoption of this plan, including contract extensions, shall include a provision that water will be distributed in accordance with Texas Water Code §11.039 in case of a water shortage resulting from drought or water emergency.

4.5 Procedures for Granting Variances to the Plan

The City Manager or official designee may grant temporary variances for existing water uses otherwise prohibited under this Water Resource and Emergency Management Plan if one or more of the following conditions are met:

- Failure to grant such a variance would cause an emergency condition adversely affecting health, sanitation, or fire safety for the public or the person or entity requesting the variance
- Compliance with this plan cannot be accomplished due to technical or other limitations
- Alternative methods that achieve the same level of reduction in water use can be implemented

Variances shall be granted or denied at the discretion of the City Manager or official designee. All petitions for variances should be in writing and should include the following information:

- Name and address of the petitioners
- Purpose of water use
- Specific provisions from which relief is requested
- Detailed statement of the adverse effect of the provision from which relief is requested
- Description of the relief requested

- Period of time for which the variance is sought
- Alternative measures that will be taken to reduce water use
- Other pertinent information

4.6 Procedures for Enforcing Mandatory Water Use Restrictions

Mandatory water use restrictions may be imposed in Stage 1, Stage 2 and Stage 3 through adoption of this Water Resource and Emergency Management Plan by Ordinance of the City of Rockwall.

4.7 Coordination with the Regional Water Planning Group and NTMWD

A copy of this Water Resource and Emergency Management plan will be sent to the Chair of the Region C Water Planning Group and the Chairs of North East Texas Water Planning Group.

4.8 Review and Update of Drought Contingency and Water Emergency Response Plan

As required by TCEQ rules, Member Cities and Customer Cites must review the drought contingency and water emergency response plan every five years. The plan will be updated as appropriate based on new or updated information.

APPENDIX B
Texas Commission on Environmental Quality Rules on Drought Contingency Plans

Texas Administrative Code

TITLE 30	ENVIRONMENTAL QUALITY
PART 1	TEXAS COMMISSION ON ENVIRONMENTAL QUALITY
CHAPTER 288	WATER CONSERVATION PLANS, DROUGHT CONTINGENCY PLANS, GUIDELINES AND REQUIREMENTS
SUBCHAPTER B	DROUGHT CONTINGENCY PLANS
RULE §288.20	**Drought Contingency Plans for Municipal Uses by Public Water Suppliers**

(a) A drought contingency plan for a retail public water supplier, where applicable, must include the following minimum elements.

(1) Minimum requirements. Drought contingency plans must include the following minimum elements.

(A) Preparation of the plan shall include provisions to actively inform the public and affirmatively provide opportunity for public input. Such acts may include, but are not limited to, having a public meeting at a time and location convenient to the public and providing written notice to the public concerning the proposed plan and meeting.

(B) Provisions shall be made for a program of continuing public education and information regarding the drought contingency plan.

(C) The drought contingency plan must document coordination with the regional water planning groups for the service area of the retail public water supplier to ensure consistency with the appropriate approved regional water plans.

(D) The drought contingency plan must include a description of the information to be monitored by the water supplier, and specific criteria for the initiation and termination of drought response stages, accompanied by an explanation of the rationale or basis for such triggering criteria.

(E) The drought contingency plan must include drought or emergency response stages providing for the implementation of measures in response to at least the following situations:

(i) reduction in available water supply up to a repeat of the drought of record;

(ii) water production or distribution system limitations;

(iii) supply source contamination; or

(iv) system outage due to the failure or damage of major water system components (e.g., pumps).

(F) The drought contingency plan must include the specific, quantified targets for water use reductions to be achieved during periods of water shortage and drought. The entity preparing the plan shall establish the targets. The goals established by the entity under this subparagraph are not enforceable.

(G) The drought contingency plan must include the specific water supply or water demand management measures to be implemented during each stage of the plan including, but not limited to, the following:

(i) curtailment of non-essential water uses; and

(ii) utilization of alternative water sources and/or alternative delivery mechanisms with the prior approval of the executive director as appropriate (e.g., interconnection with another water system, temporary use of a non-municipal water supply, use of reclaimed water for non-potable purposes, etc.).

(H) The drought contingency plan must include the procedures to be followed for the initiation or termination of each drought response stage, including procedures for notification of the public.

(I) The drought contingency plan must include procedures for granting variances to the plan.

(J) The drought contingency plan must include procedures for the enforcement of any mandatory water use restrictions, including specification of penalties (e.g., fines, water rate surcharges, discontinuation of service) for violations of such restrictions.

(2) Privately-owned water utilities. Privately-owned water utilities shall prepare a drought contingency plan in accordance with this section and incorporate such plan into their tariff.

(3) Wholesale water customers. Any water supplier that receives all or a portion of its water supply from another water supplier shall consult with that supplier and shall include in the drought contingency plan appropriate provisions for responding to reductions in that water supply.

(b) A wholesale or retail water supplier shall notify the executive director within five business days of the implementation of any mandatory provisions of the drought contingency plan.

(c) The retail public water supplier shall review and update, as appropriate, the drought contingency plan, at least every five years, based on new or updated information, such as the adoption or revision of the regional water plan.

City of Rockwall

The New Horizon

Date: April 26, 2019

Kevin Ward
Chair, Region C Water Planning Group
P.O. Box 60
Arlington, TX 76004

Dear Kevin Ward:

Enclosed please find a copy of the recently updated Water Resource and Emergency Management Plan for the City of Rockwall. I am submitting a copy of this model plan to the Region C Water Planning Group in accordance with the Texas Water Development Board and Texas Commission on Environmental Quality rules. The Rockwall City Council adopted the updated Water Resource Emergency Management Plan on April 15, 2019.

Sincerely,

Rick Crowley
City of Rockwall

MEMORANDUM

TO: **Rockwall City Council**

FROM: **Joey Boyd, Assistant City Manager**

DATE: **July 31, 2019**

SUBJECT: **Animal Control Services Agreement w/ Rockwall County**

The City of Rockwall performs animal control services for the Cities of Rockwall and Heath and Rockwall County. The City of Rockwall originally entered into an agreement for animal control services with Rockwall County in July 1996. Since then, the City has constructed a new animal adoption center and shelter, privatized the operations of the shelter, expanded its service area through growth of the city, and changed certain fees related to providing animal control services. This updated agreement defines the types of animals that will be received from the County at the shelter and further specifies the services the City will provide to Rockwall County.

The original agreement is included for your reference. An updated Interlocal Agreement for Animal Control Services between the City of Rockwall and Rockwall County is provided for the City Council's review and consideration.

If approved, this agreement will run through September 30, 2021 and then renew annually upon approval by both parties. The City Council is asked to consider authorizing the City Manager to execute the agreement on behalf of the City.

INTERLOCAL AGREEMENT FOR ANIMAL CONTROL SERVICES

THE STATE OF TEXAS

COUNTY OF ROCKWALL

THIS AGREEMENT is made and entered into by and between **ROCKWALL COUNTY, TEXAS,** (hereinafter referred to as "County") and the **CITY OF ROCKWALL, TEXAS,** a Texas Municipality (hereinafter referred to as "City").

I. RECITALS

WHEREAS, CHAPTER 791 of the TEXAS GOVERNMENT CODE, also known as the INTERLOCAL COOPERATION ACT, authorizes all local governments to contract with each other to provide a governmental function or service that each party to the contract is authorized to perform individually and in which the contracting parties are mutually interested, such as animal control assistance and public health and welfare; and

WHEREAS, the City of Rockwall is a Home Rule municipality organized under the laws of Texas and is authorized to enter into this Agreement pursuant to the Texas Local Government Code; and

WHEREAS, Rockwall County is a political subdivision of the State of Texas, duly organized and functioning in accordance with the laws of the State of Texas; and

WHEREAS, the County and the City represent that each is independently authorized to perform the functions contemplated by this Agreement; and

WHEREAS, City operates and performs Animal Control Services, as defined herein, for the purpose of reducing general animal control problems in the City, including, but not limited to, protecting its citizens from the dangers and problems associated with free roaming animals; and

WHEREAS, the City and County entered into an Interlocal Agreement in July 1996 outlining the duties and responsibilities of the City in performing certain Animal Control Services in the County per the request of the County; and

WHEREAS, County and City wish to continue the services under the original Interlocal but have determined a need to update the original agreement because the County still has a need for such Animal Control Services; and

WHEREAS, each party has sufficient funds available from current revenues to perform the functions contemplated by this Agreement; and

WHEREAS, both the County and the City find it mutually desirable to enter into this Agreement.

NOW, THEREFORE in consideration of the mutual benefits and promises each to the other made herein, the parties named above do hereby agree as follows:

II. DEFINITIONS

A. Animal(s): "Animal(s)" shall mean domesticated dogs and cats.

B. Animal Control Authority: "Animal Control Authority" shall mean the City of Rockwall Animal Control Department. The terms "Animal Control Authority" and "Animal Control Department" are synonymous.

C. Animal Control Personnel: "Animal Control Personnel" shall mean any employee of the City of Rockwall Animal Control Department.

D. Animal Control Services: "Animal Control Services" shall mean the specific services provided by the City of Rockwall Animal Control Department in response to County-Reported Animal Calls that are necessary to effectively carry out an animal control program for the County.

Animal Control Services shall include: the housing and final, humane disposition of stray, unrestrained, homeless, abandoned, or unwanted animals that either the County transports to the City or is picked up by the City at the request of the County.

Animal Control Services shall NOT include: the removal of deceased animals from areas within the County's jurisdiction

E. Animal Shelter: "Animal Shelter" shall mean the City of Rockwall owned facility located at 1825 Airport Road or any location designated by the City Manager or designee in the event of an emergency.

F. Unincorporated County Areas: "Unincorporated County areas" shall mean any address or location within Rockwall County that is NOT located within another jurisdictional boundary of any duly recognized municipality.

G. Dangerous Wild Animal: "Dangerous Wild Animal" shall mean animals as defined by the Texas Health and Safety Code, Chapter 822. Specific examples that may apply locally would include but not limited to cougar, bobcat, lynx, coyote or any hybrid listed in Section 822.101.

III. CITY'S OBLIGATIONS

A. City agrees to provide specific Animal Control Services to County occurring within the areas of the County outside any municipal city limits.

B. The City will confirm at least one (1) Animal Control Personnel in response to a County request for Animal Control Services, so long as there is at least one (1) Animal Control Personnel "on duty". If there is no Animal Control Personnel on duty, the City dispatch will notify County that there are no personnel available to accept the animal. In that event, County may determine if the call is an emergency and notify the City's Animal Control Supervisor of the emergency call. The Animal Control supervisor, at his/her sole discretion, can decide to provide at least one (1) Animal Control Personnel to respond to the emergency call. All County calls to report animal bites and scratches from an animal to a human will be considered an emergency.

C. City will respond only to calls directly reported by the County.

D. City agrees to accept all captured "animals" transported to the City's facility by Animal Control Personnel. Wild animals will not be accepted by the City and should be released back into their natural habitat by County or City if they have not caused a bite to a human.

IV. COUNTY'S OBLIGATIONS

A. County agrees to receive all calls for Animal Control Services from citizens in the County's jurisdiction to determine if Animal Control Services are needed. If animal control is needed, the County will contact Rockwall Police dispatch. County shall not direct or advise citizens to call the City for Animal Control Services.

B. County shall fully cooperate with City in the provision of Animal Control Services, including but not limited to, furnishing: any and all information in its possession about the ownership of a suspected rabid Animal, including Rabies Vaccination Certificates maintained by any department of the City; any history of the Animal; the name and address of any person reporting an Animal bite or scratch; the name and address of any possible victims of an Animal bite or scratch; and the name and address of any person believed to own an Animal which the County has called the City to house.

C. County agrees to transport all Animals in an approved, properly functioning live animal cage prior to admittance into the City's Animal Shelter or County designated Veterinary Clinic; which includes but is not limited to, transporting all animals to a veterinary office if medical attention is needed and securing animal until medical assistance is available to assist.

D. County agrees to transport all Animals in an approved, properly functioning live animal cage prior to admittance into the City's Animal Shelter.

E. County agrees to pay all fees associated with the impoundment or final disposition of any animal per this Agreement.

F. The County shall be responsible for any veterinarian bills incurred regarding County animals that are transferred to a County approved Veterinary Clinic, who require immediate medical attention prior to transporting the animal to the City's Animal Shelter. All required billing and treatment communications shall be transmitted directly from the veterinarian to the County.

V. CONSIDERATION

A. In consideration for the City's performance of the duties listed herein, the County agrees to pay the City for the services, as delineated in this Agreement, according to the fee schedule attached hereto as **Exhibit A**. Such fee schedule may be amended by the City through its annual budget process. City shall provide a copy to the County of any fees adjusted per the City's budget.

B. The fee schedule in **Exhibit A** only applies to requested services upon intake and does not reflect specific services required for the final disposition of any Animal after intake. County shall pay actual costs for the disposition of any animal.

VI. DEFAULT

A. In the event County fails to: (i) pay all costs set forth in Article V above, or (ii) perform its obligations as set forth in Article IV, the City shall give County written notice of default with an opportunity to cure such default within thirty (30) days. If County fails to cure such default during the 30-day cure period, the Agreement shall terminate and County shall assume responsibility for its own animal control operation.

B. In the event City fails to perform its obligations as set forth in Article III, the County shall give City written notice of default with an opportunity to cure such default within thirty (30) days. If City fails to cure such default during the 30-day cure period, the Agreement shall terminate and County shall assume responsibility for its own animal control operation

VII. TERMINATION AND RENEWAL

A. This Agreement shall be effective from _____, 2019, through September 30, 2021. This Agreement shall be renewed annually thereafter for additional one (1) year terms to run from October 1st to September 30th. The Agreement will be renewed upon full review of the Services provided herein and upon written approval by both parties.

B. This Agreement may be terminated by either party upon sixty (60) days written notice to the other party. All costs and liabilities incurred by the City on behalf of the County prior to the termination shall be the responsibility of the County.

VIII. INDEMNITY

Subject to the limitations as to liability and damages in the Texas Tort Claims Act and without waiving its governmental immunity, each Party agrees to hold harmless each other, its governing board, elected officials, officers, agents and employees for any liability, loss, damages, claims or causes of action caused or asserted to have been caused directly or indirectly by any other Party to this Agreement, or any of its elected officials, officers, agents or employees, or as the result of its performance, or any of its officers, agents or employees, under this Agreement.

IX. INDEPENDENT CONTRACTOR

A. The City shall be responsible for the Animal Control Services contemplated under this Agreement. The City shall supply materials, equipment, tools, transportation, and labor required for or reasonably incidental to the performance of Animal Control Services. The City shall have ultimate control over the execution of the work under this Agreement. The City shall have the sole obligation to employ, direct, control, supervise, manage, discharge and compensate all of its employees.

B. The City shall have full authority for the final disposition of any animal submitted by County.

X. GENERAL PROVISIONS

A. The parties intend for the various provisions of this Agreement to be severable so that the invalidity, if any, of any one section (or more) shall not affect the validity of the remaining provisions or sections.

B. This document may be executed in any number of original signature counterparts, each of which shall for all purposes be deemed an original, and all such counterparts shall constitute one and the same document.

C. Each party has the full power and authority to enter into and perform this Agreement, and the person signing this Agreement on behalf of each party has been properly authorized and empowered to enter into this Agreement. The persons executing this Agreement hereby represent that they have authorization to sign on behalf of their respective entity.

D. This Agreement shall be interpreted in accordance with the laws of the State of Texas and venue shall be in Rockwall County, Texas.

E. Any notice required under the provisions of this Agreement shall be in writing and delivered in person or deposited in the United States Mail, registered or certified, return receipt requested. Any such notice must be addressed to the following addresses. Any notice shall be deemed received three days after the date of deposit in the United States

Mail, unless proof is offered to the contrary. Unless otherwise provided in this Agreement, all notices shall be delivered to the following addresses:

City of Rockwall
385 S. Goliad St
Rockwall, TX 75087

Rockwall County
101 E. Rusk St
Rockwall, TX 75087

F. Amendment: This Agreement may not be amended except by written instrument specifically referring to this Agreement and signed by the parties hereto.

G. Binding Agreement: This Agreement has been duly executed and delivered by both parties and constitutes a legal, valid and binding obligation of the parties. Each person executing this Agreement on behalf of each party represents and warrants that they have full right and authority to enter into this Agreement.

H. Joint Venture and Agency: The relationship between the parties to this Agreement does not create a partnership or joint venture between the parties. This Agreement does not appoint any party as agent for the other party.

I. Approval by Governing Bodies. This Agreement has been approved by the governing bodies of the City and of the County.

J. Payment from Current Revenues. Each Party paying for the performance of governmental functions or services must make those payments from current revenues available to the paying Party.

K. Entire Agreement: This Agreement contains the entire agreement between the parties and correctly sets forth the rights, duties and obligations of each to the other as of the Effective Date. Any oral representations or modifications concerning this Agreement will be of no force or effect excepting a subsequent written modification executed by both parties.

EXHIBIT A

FEE SCHEDULE:

A. The City shall bill the County at a rate of forty dollars ($40) per hour to defray the costs of resources and employee time utilized. There will be a minimum of two (2) hour charge if an officer is called out after regular business hours. For purposes of this agreement, regular business hours shall be 8:00 a.m. to 5:00 p.m., Monday through Friday.

B. A thirty dollar ($30) impound fee, for the first 24-hour period, will be paid by the owner of each animal released from the shelter to the owner, plus ten dollars ($10) per day per animal for each additional 24-hour period. This fee applies to Rockwall County residents within unincorporated areas of the County as defined by this agreement. All others shall comply with the City and Animal Shelter's adopted policies.

C. The County shall pay ten dollars ($10) per day to the City for each "animal" received from the County for impoundment. This fee shall NOT apply to the first 200 "animals" received on an annual basis. Invoices are based on net 30 days payment.

STATE OF TEXAS §
COUNTY OF ROCKWALL §
CITY OF ROCKWALL §

INTERLOCAL AGREEMENT FOR ANIMAL CONTROL

THIS AGREEMENT is entered into this 2nd day of July, 1996, by and between the **CITY OF ROCKWALL, TEXAS,** hereinafter referred to as "City" and **ROCKWALL COUNTY, TEXAS,** hereinafter referred to as "County," hereby agree, covenant and contract, pursuant to the Interlocal Government Cooperation Act, that:

1. The City will provide an animal control truck to the County on an emergency call basis.

2. The City will make available to the County an animal control officer on an emergency basis involving animal bites and vicious or wild animals. The Rockwall County Sheriff's Department will be the only authorized requestor for animal control services in Rockwall County.

3. The County will provide supervision and written instruction regarding activities and duties performed in the County which are within bounds of the ordinances of the County of Rockwall and the State of Texas.

4. A twenty-five dollar ($25) impoundment fee, for the first 24-hour period, will be paid by the owner for each dog released from the shelter, plus $8.00 for each additional 24-hour period.

5. The County will pay eight dollars ($8) per day, per dog, to the City for each dog received from the County for impoundment.

6. The animal control personnel are City employees and are covered by, and receive all benefits due to City employees, including worker's compensation and all other benefits normally due to employees of the City.

7. The City will be responsible for injuries to City personnel, or damages to City equipment, arising from animal control activities in the County.

8. The City will be responsible for all liabilities and/or damages resulting from the use of the City's personnel and equipment.

9. The City will bill the County at a rate of forty dollars ($40) per hour to defray costs of equipment and manpower. There will be a minimum two (2) hour charge if an officer is called out after regular business hours. For purposes of this agreement, regular business hours shall be 8:00 a.m. to 5:00 p.m., Monday through Friday.

10. The City will bill the County monthly for all charges incurred.

11. The County hereby agrees to indemnify and hold the City harmless from any claims, causes of action, damages or suit brought by any person as a result of the County's request for services in the County.

12. The County will be responsible for veterinarian bills for county animals. For purposes of this agreement, county animals are defined as those animals impounded or treated which have been found roaming outside the city limits of the City of Rockwall or the City of Heath.

13. Either party may terminate this Agreement upon giving written notice to the other party at least sixty (60) days prior to the date of termination. The termination of this agreement shall not affect the County's duty to hold City harmless and indemnify it for any claims or lawsuits which arise during the term of this agreement.

EXECUTED the day and year first above written.

CITY OF ROCKWALL

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	August 5, 2019
APPLICANT:	Rick Bates; *RLK Engineering, Inc.*
CASE NUMBER:	P2019-023; *Lot 2, Block A, Rockwall High School Addition*

SUMMARY

Consider a request by Rick Bates of RLK Engineering, Inc. on behalf of William Salee of Rockwall ISD for the approval of a replat for Lot 2, Block A, Rockwall High School Addition being a 35.295-acre parcel of land currently identified as Lot 1, Block A, Rockwall High School Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 901 W. Yellow Jacket Lane, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting the approval of a replat for a 35.295-acre parcel of land [i.e. *Lot 2, Rockwall High School Addition*] for the purpose of dedicating a drainage and detention easement required for the expansion of the parking lot for Rockwall High School. The 36 additional parking spaces will be constructed located along W. Yellow Jacket Lane, west of the main entrance.

☑ On April 20, 2019, William Salee of Rockwall ISD, requested an amended site plan [*i.e. Case NO. SP2019-008*] for the purpose of expanding the existing parking lot at Rockwall High School. On April 30, 2019, the Planning and Zoning Commission approved the site plan.

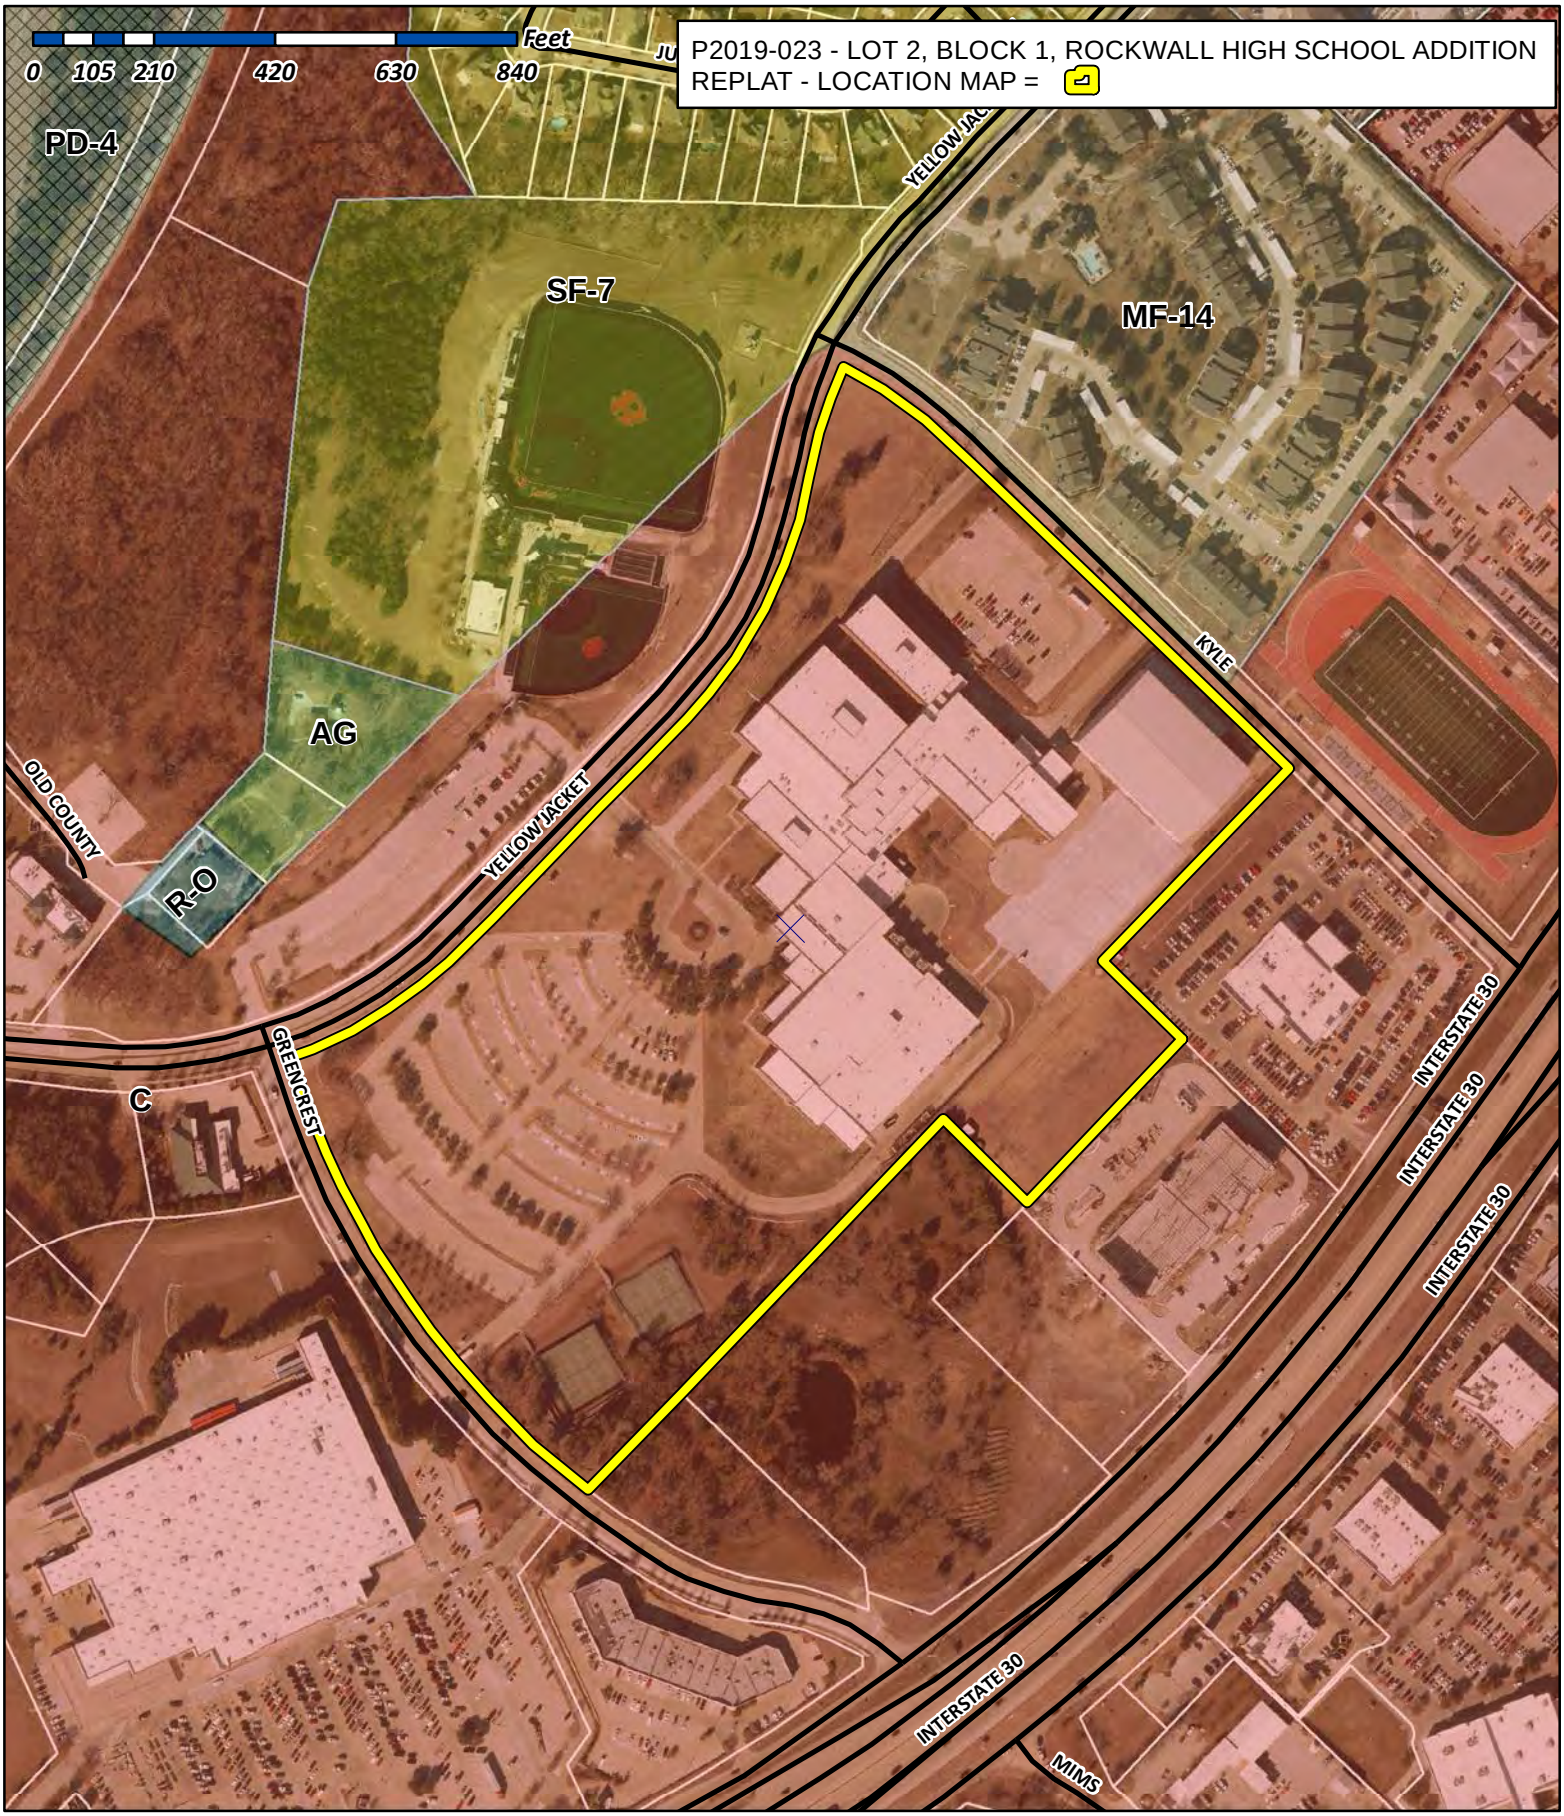
☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL

If the City Council chooses to approve the replat for *Lot 2, Block A, Rockwall High School Addition,* staff would propose the following conditions of approval:



(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall

Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION

On July 30, 2019, the Planning and Zoning Commission's motion to recommend approval of the replat with staff conditions passed by a vote of 6-0, with Commissioner Lyons absent.

OWNER'S CERTIFICATION

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, the Rockwall Independent School District is the owner of a tract of land situated in the E.P.G. Chisum Survey, Abstract No. 64, and the J.D. McFarland Survey, Abstract No. 145, City of Rockwall, Rockwall County, Texas, and being all of Rockwall High School Addition, Lot 2, Block 1, as recorded in Cabinet H, Page Page 5, Plat Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod set with yellow plastic cap stamped "4613" for corner at the intersection of the southeasterly line of Yellowjacket Lane (a 90' R.O.W.) with the southwesterly line of Kyle Drive (a 60' R.O.W.) said point being the beginning of a curve to the right having a central angle of 17°07'09", a radius of 770.00 feet, a tangent length of 115.90 feet, and a chord bearing S54°32'40"E, 229.21 feet;

THENCE in a southeasterly direction along said curve to the right, and with the southwesterly line of Kyle Drive, an arc distance of 230.06 feet to a capped iron found stamped "CLO" for corner and the end of said curve;

THENCE S45°59'06"E, with the southwesterly line of Kyle Drive, a distance of 813.73 feet to a 1/2" iron rod set with yellow plastic cap stamped "4613" for corner, said point being the northwest corner of Lot 2, Block 1, Heritage BPG Addition, an addition to the City of Rockwall as recorded in Cabinet G, Page 205, Plat Records of Rockwall County, Texas;

THENCE S44°11'14"W, leaving Kyle Drive, a distance of 463.62 feet to a 1/2" iron rod set with yellow plastic cap stamped "4613" for corner, from which a capped iron rod stamped "HALFF" bears N34°53'08"W, 0.44';

THENCE S45°26'13"E, a distance of 200.00 feet to a 1/2" iron rod set with yellow plastic cap stamped "4613" for corner, from which a 1/2" iron rod bears N27°44'49"W, 0.25';

THENCE S44°17'14"W, a distance of 390.29 feet to a capped iron found stamped "CDAI" for corner;

THENCE N45°58'43"W, a distance of 200.81 feet to a 1/2" iron rod set with yellow plastic cap stamped "4613" for corner;

THENCE S44°27'47"W, a distance of 273.93 feet to a 1/2" iron rod set with yellow plastic cap stamped "4613 for corner;

THENCE S44°03'37"W, a distance of 615.63 feet to a 1/2" iron rod set with yellow plastic cap stamped "4613" for corner, from which a 1/2" iron rod stamped "DAI" bears N40°59'38"E, 0.31', said corner being in the northeasterly line of Greencrest Boulevard (a 70' R.O.W.), said point being the beginning of a non-tangent curve to the right having a central angle of 33°49'50", a radius of 1493.00 feet, a tangent length of 454.04 feet, and a chord bearing N35°10'22"W, 868.80 feet;

THENCE in a northwesterly direction along said curve to the right, and with the northeasterly line of Greencrest Boulevard, an arc distance of 881.55 feet to a 1/2" iron rod set with yellow plastic cap stamped "4613" for corner, from which a 1/2" iron rod bears N40°59'38"E, 0.31', said corner being the beginning of a reverse curve to the left having a central angle of 04°46'22", a radius of 533.52 feet, a tangent length of 22.23 feet, and a chord bearing N20°38'38"W, 44.43 feet;

THENCE in a northwesterly direction along said curve to the left, and with the northeasterly line of Greencrest Boulevard, an arc distance of 44.44 feet to a 1/2" iron rod set with yellow plastic cap stamped "4613" for corner, from which a 1/2" iron rod bears N66°47'39"E, 2.95', said corner being the end of said curve, and being the in the aforementioned southeasterly line of Yellowjacket Lane and the beginning of a non-tangent curve to the left having a central angle of 25°29'33", a radius of 845.00 feet, a tangent length of 191.15 feet, and a chord bearing N57°10'59"E, 372.87 feet;

THENCE in a northeasterly direction along said curve to the left, and with the southeasterly line of Yellowjacket Lane, an arc distance of 375.96 feet to an "x" cut set for corner and the end of said curve;

THENCE in a northeasterly direction along said curve to the left, and with the southeasterly line of Yellowjacket Lane, an arc distance of 505.16 feet to a 1/2" iron rod set with yellow plastic cap stamped "4613" for corner and the beginning of a reverse curve to the right having a central angle of 14°38'12" a radius of 755.00 feet, a tangent length of 96.96 feet, and a chord bearing N17°30'09"E, 192.35 feet;

THENCE in a northeasterly direction along said curve to the right, and with the southeasterly line of Yellowjacket Lane, an arc distance of 192.87 feet to the POINT OF BEGINNING and CONTAINING 1,537,462 square feet, or 35.295 acres of land.

BASIS OF BEARINGS:

The bearings shown are derived from Texas WDS RTK Network, Texas State Plane Coordinate System, Nad83, North Central Zone, Nad 83 (CORS96) Epoch 2002.0, vertical positions are referenced using NAVD88 using (GEIOD03).

GENERAL NOTES

It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer, and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance, or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

STATE OF TEXAS
COUNTY OF ROCKWALL

We, Rockwall Independent School District, the undersigned owner of the land shown on this plat, and designated Lot 2, Block 1, Rockwall High School Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever, all streets, alleys, parks, water courses, drains, easements, and public places thereon shown for the purpose and consideration therein expressed.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following:

1. No buildings shall be constructed upon, over or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs or other growths or improvements which in any way endanger or interfere with construction, maintenance, or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from, and upon the said easement strips for the purpose of construction, reconstruction, inspecting, patrolling, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. Property owner is responsible for maintaining, repairing, and replacing detention/drainage system.

7. No house, dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at the prevailing private commercial rates, or have been made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done, or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exactions made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that We may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	August 5, 2019
APPLICANT:	Matthew Gardner; *Halff Associates*
CASE NUMBER:	P2019-028; *Lot 2, Block 1, Indalloy Addition*

SUMMARY

Consider a request by Matthew Gardner of Halff Associates on behalf of Carolina Molina of Alvaplast US (*SPR Packaging*) for the approval of a replat for a 43.0139-acre tract of land identified as Lot 1, Block 1, Indalloy Addition; Tract 31 of the R. Ballard Survey, Abstract No. 29; and Tract 7 of the N. Butler Survey, Abstract No. 20, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the terminus of Aluminum Plant Road, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting the approval of a replat for a 43.0139-acre tract of land [i.e. *Lot 2, Block 1, Indalloy Addition*] that will establish firelane, utility, sanitary sewer, detention, and waterline easements for the purpose of developing the *subject property*. Additionally, the replat will abandon a portion of a dedicated right-of-way [*i.e. Aluminum Plant Road*]. The *subject property* is zoned Light Industrial (LI) District and is addressed as 501 Industrial Boulevard.

☑ On January 18, 2019, Matthew Gardner of Halff Associates submitted a site plan [*i.e. Case No. SP2019-004*] proposing the construction of a ~78,615 SF warehouse/manufacturing facility in conjunction with an existing warehouse/manufacturing facility [*i.e. SPR Packaging*] at 1480 Justin Road. On March 12, 2019, the Planning and Zoning Commission approved the site plan and all requested exceptions [*i.e. Case No. SP 2019-004*].

☑ On March 18, 2019, the City Council approved an *Alternative Tree Mitigation Settlement Agreement,* for a total of $14,225.00 to be paid into the *City's Tree Fund*. This amount is due at the time of filing this final plat. This has been added as a condition of approval below.

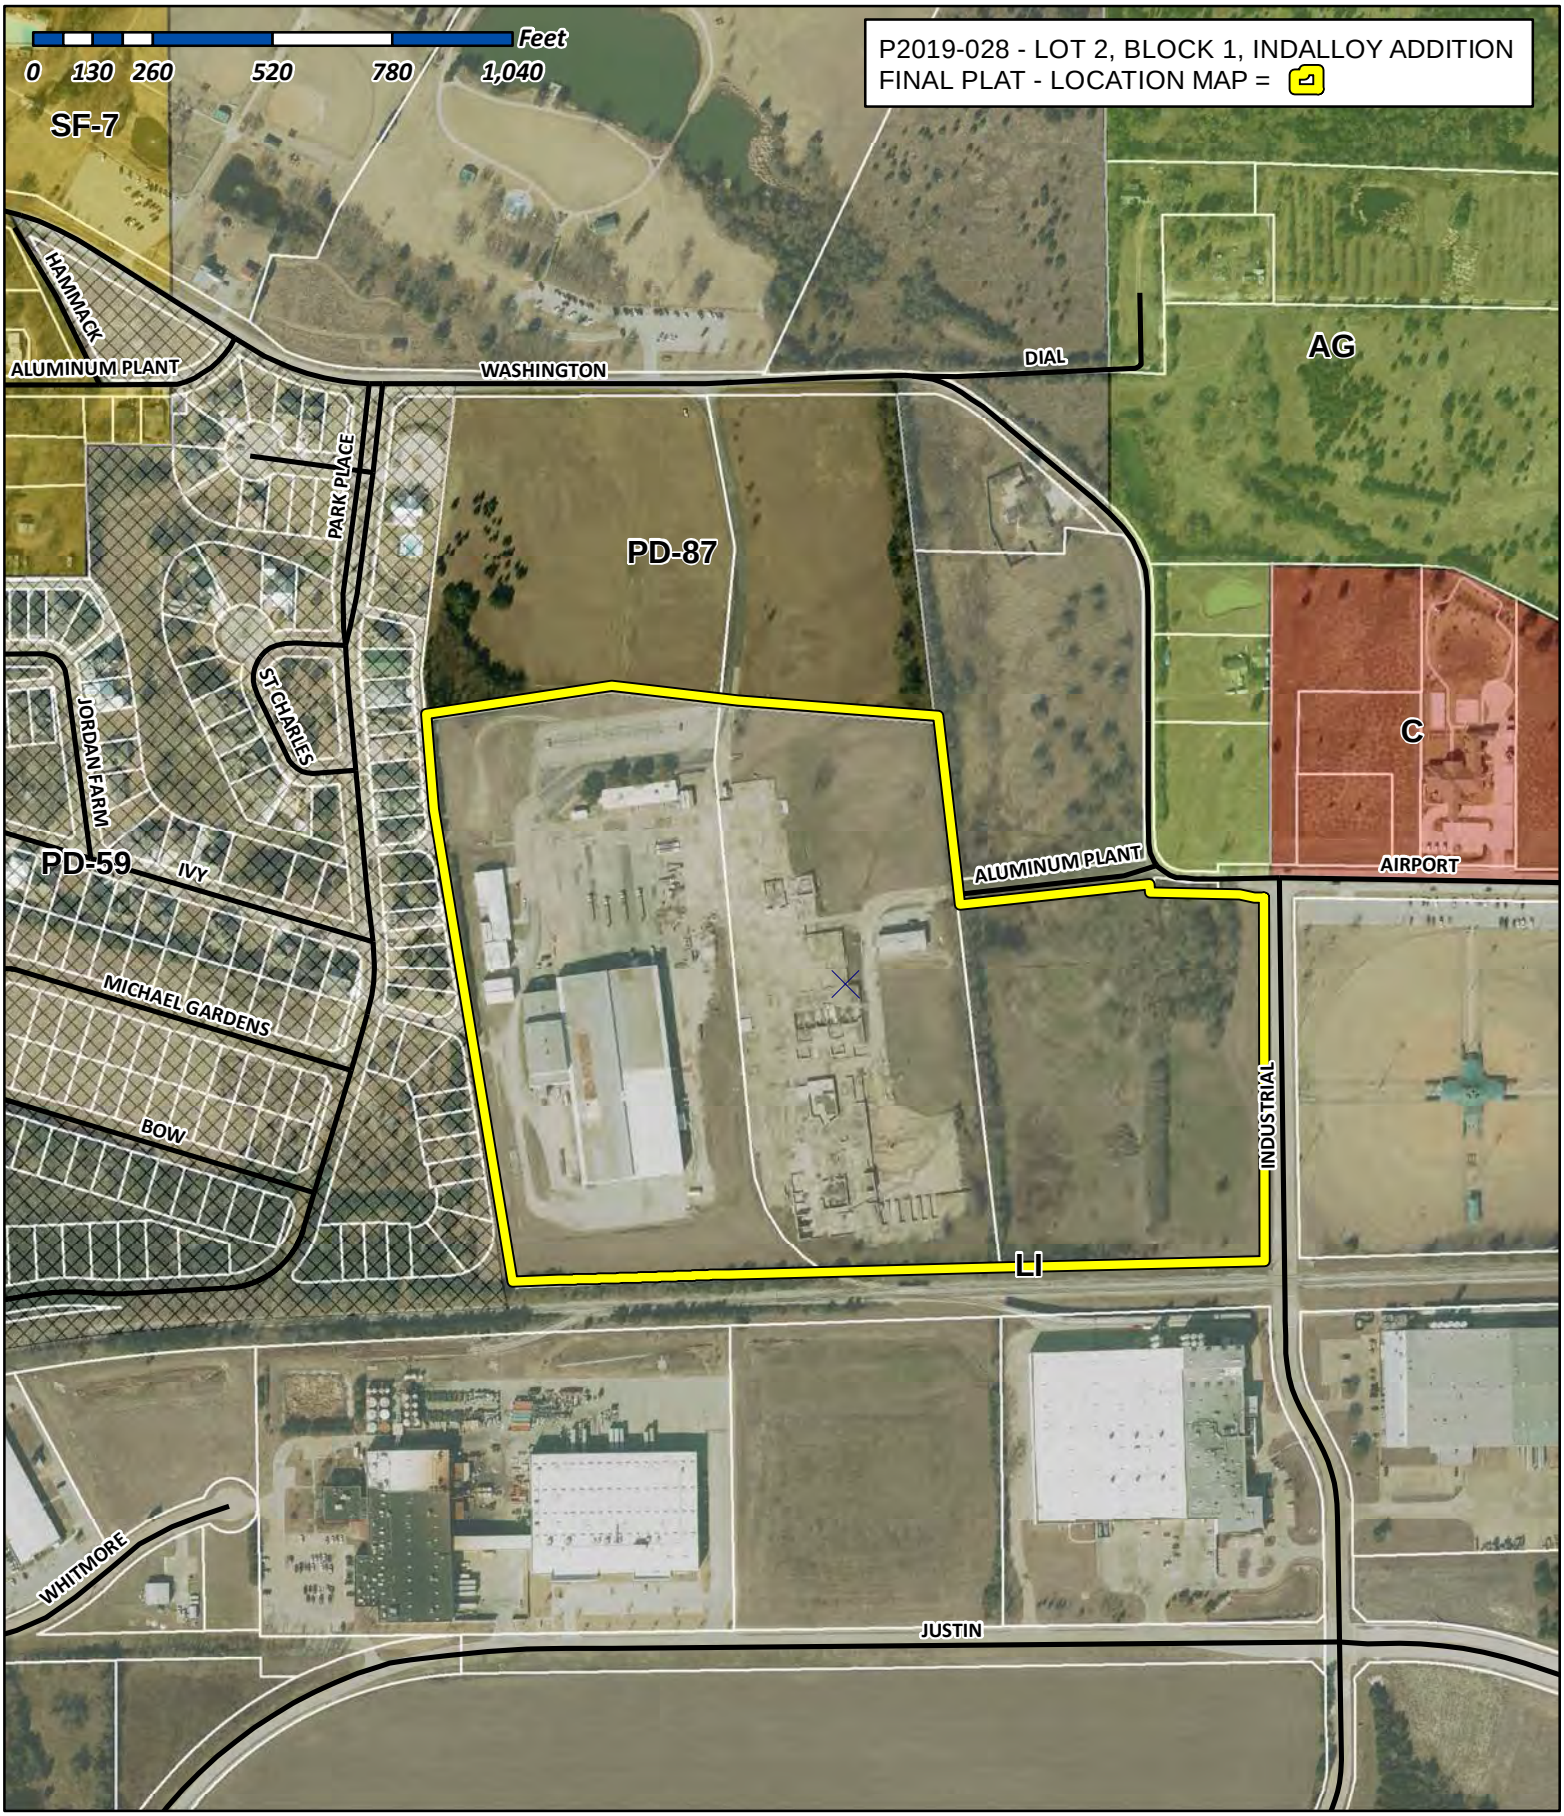
☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL

If the City Council chooses to approve the replat for *Lot 2, Block A, Indalloy Addition,* staff would propose the following conditions of approval:



(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) Prior to the filing of this plat, payment into the *City's Tree Fund* in the amount of $14,225.00 to satisfy the *Alternative Tree Mitigation Settlement Agreement* approved by the City Council on March 18, 2019 shall be due.

(3) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION

On July 30, 2019, the Planning and Zoning Commission's motion to recommend approval of the replat with staff conditions passed by a vote of 6-0, with Commissioner Lyons absent.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS }
COUNTY OF ROCKWALL }

WE, THE UNDERSIGNED OWNERS OF THE LAND SHOWN ON THIS PLAT, AND DESIGNATED HEREIN AS **LOT 2, BLOCK 1, INDALLOY ADDITION,** A SUBDIVISION TO THE CITY OF ROCKWALL, TEXAS, AND WHOSE NAME IS SUBSCRIBED HERETO, HEREBY DEDICATE TO THE USE OF THE PUBLIC FOREVER ALL STREETS, ALLEYS, PARKS, WATER COURSES, DRAINS, EASEMENTS AND PUBLIC PLACES THEREON SHOWN ON THE PURPOSE AND CONSIDERATION THEREIN EXPRESSED. WE FURTHER CERTIFY THAT ALL OTHER PARTIES WHO HAVE A MORTGAGE OR LIEN INTEREST IN **INDALLOY ADDITION** HAVE BEEN NOTIFIED AND SIGNED THIS PLAT.

WE UNDERSTAND AND DO HEREBY RESERVE THE EASEMENT STRIPS SHOWN ON THIS PLAT FOR THE PURPOSES STATED AND FOR THE MUTUAL USE AND ACCOMMODATION OF ALL UTILITIES DESIRING TO USE OR USING SAME. WE ALSO UNDERSTAND THE FOLLOWING;

(1) NO BUILDINGS SHALL BE CONSTRUCTED OR PLACED UPON, OVER, OR ACROSS THE UTILITY EASEMENTS AS DESCRIBED HEREIN.

(2) ANY PUBLIC UTILITY SHALL HAVE THE RIGHT TO REMOVE AND KEEP REMOVED ALL OR PART OF ANY BUILDINGS, FENCES, TREES, SHRUBS, OR OTHER GROWTHS OR IMPROVEMENTS WHICH IN ANY WAY ENDANGER OR INTERFERE WITH CONSTRUCTION, MAINTENANCE OR EFFICIENCY OF THEIR RESPECTIVE SYSTEM ON ANY OF THESE EASEMENT STRIPS; AND ANY PUBLIC UTILITY SHALL AT ALL TIMES HAVE THE RIGHT OF INGRESS OR EGRESS TO, FROM AND UPON THE SAID EASEMENT STRIPS FOR PURPOSE OF CONSTRUCTION, RECONSTRUCTION, INSPECTING, PATROLLING, MAINTAINING, AND EITHER ADDING TO OR REMOVING ALL OR PART OF THEIR RESPECTIVE SYSTEM WITHOUT THE NECESSITY OF, AT ANY TIME, PROCURING THE PERMISSION OF ANYONE.

(3) THE CITY OF ROCKWALL WILL NOT BE RESPONSIBLE FOR ANY CLAIMS OF ANY NATURE RESULTING FROM OR OCCASIONED BY THE ESTABLISHMENT OF GRADE OF STREETS IN THE SUBDIVISION.

(4) THE DEVELOPER AND SUBDIVISION ENGINEER SHALL BEAR TOTAL RESPONSIBILITY FOR STORM DRAIN IMPROVEMENTS.

(5) THE DEVELOPER SHALL BE RESPONSIBLE FOR THE NECESSARY FACILITIES TO PROVIDE DRAINAGE PATTERNS AND DRAINAGE CONTROLS SUCH THAT PROPERTIES WITHIN THE DRAINAGE AREA ARE NOT ADVERSELY AFFECTED BY STORM DRAINAGE FROM THE DEVELOPMENT.

(6) NO HOUSE DWELLING UNIT, OR OTHER STRUCTURE SHALL BE CONSTRUCTED ON ANY LOT IN THIS ADDITION BY THE OWNER OR ANY OTHER PERSON UNTIL THE DEVELOPER AND/OR OWNER HAS COMPLIED WITH ALL REQUIREMENTS OF THE SUBDIVISION REGULATIONS OF THE CITY OF ROCKWALL REGARDING IMPROVEMENTS WITH RESPECT TO THE ENTIRE BLOCK ON THE STREET OR STREETS ON WHICH PROPERTY ABUTS, INCLUDING THE ACTUAL INSTALLATION OF STREETS WITH THE REQUIRED BASE AND PAVING, CURB AND GUTTER, WATER AND SEWER, DRAINAGE STRUCTURES, STORM STRUCTURES, STORM SEWERS, AND ALLEYS, ALL ACCORDING TO THE SPECIFICATIONS OF THE CITY OF ROCKWALL; OR

UNTIL AN ESCROW DEPOSIT, SUFFICIENT TO PAY FOR THE COST OF SUCH IMPROVEMENTS, AS DETERMINED BY THE CITY'S ENGINEER AND/OR CITY ADMINISTRATOR, COMPUTED ON A PRIVATE COMMERCIAL RATE BASIS, HAS BEEN MADE WITH THE CITY SECRETARY, ACCOMPANIED BY AN AGREEMENT SIGNED BY THE DEVELOPER AND/OR OWNER, AUTHORIZING THE CITY TO MAKE SUCH IMPROVEMENTS AT PREVAILING PRIVATE COMMERCIAL RATES, OR HAVE THE SAME MADE BY A CONTRACTOR AND PAY FOR THE SAME OUT OF THE ESCROW DEPOSIT, SHOULD THE DEVELOPER AND/OR OWNER FAIL OR REFUSE TO INSTALL THE REQUIRED IMPROVEMENTS WITHIN THE TIME STATED IN SUCH WRITTEN AGREEMENT, BUT IN NO CASE SHALL THE CITY BE OBLIGATED TO MAKE SUCH IMPROVEMENTS ITSELF. SUCH DEPOSIT MAY BE USED BY THE OWNER AND/OR DEVELOPER AS PROGRESS PAYMENTS AS THE WORK PROGRESSES IN MAKING SUCH IMPROVEMENTS BY MAKING CERTIFIED REQUISITIONS TO THE CITY SECRETARY, SUPPORTED BY EVIDENCE OF WORK DONE; OR

UNTIL THE DEVELOPER AND/OR OWNER FILES A CORPORATE SURETY BOND WITH THE CITY SECRETARY IN A SUM EQUAL TO THE COST OF SUCH IMPROVEMENTS FOR THE DESIGNATED AREA, GUARANTEEING THE INSTALLATION THEREOF WITHIN THE TIME STATED IN THE BOND, WHICH TIME SHALL BE FIXED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL.

WE FURTHER ACKNOWLEDGE THAT THE DEDICATIONS AND/OR EXACTION'S MADE HEREIN ARE PROPORTIONAL TO THE IMPACT OF THE SUBDIVISION UPON THE PUBLIC SERVICES REQUIRED IN ORDER THAT THE DEVELOPMENT WILL COMPORT WITH THE PRESENT AND FUTURE GROWTH NEEDS OF THE CITY; WE, OUR SUCCESSORS AND ASSIGNS HEREBY WAIVE ANY CLAIM, DAMAGE, OR CAUSE OF ACTION THAT WE MAY HAVE AS A RESULT OF THE DEDICATION OF EXACTIONS MADE HEREIN.

(7) PROPERTY OWNER SHALL BE RESPONSIBLE FOR ALL MAINTENANCE, REPAIR, AND RECONSTRUCTION OF ALL SYSTEMS IN DRAINAGE AND DETENTION EASEMENTS.

NOTE: IT SHALL BE THE POLICY OF THE CITY OF ROCKWALL TO WITHHOLD ISSUING BUILDING PERMITS UNTIL ALL STREETS, WATER, SEWER AND STORM DRAINAGE SYSTEMS HAVE BEEN ACCEPTED BY THE CITY. THE APPROVAL OF A PLAT BY THE CITY DOES NOT CONSTITUTE ANY REPRESENTATION, ASSURANCE OR GUARANTEE THAT ANY BUILDING WITHIN SUCH PLAT SHALL BE APPROVED, AUTHORIZED OR PERMIT THEREFORE ISSUED, NOR SHALL SUCH APPROVAL CONSTITUTE ANY REPRESENTATION, ASSURANCE OR GUARANTEE BY THE CITY OF THE ADEQUACY AND AVAILABILITY FOR WATER FOR PERSONAL USE AND FIRE PROTECTION WITHIN SUCH PLAT, AS REQUIRED UNDER ORDINANCE 83-54.

THIS PLAT APPROVED SUBJECT TO ALL PLATTING ORDINANCES, RULES, REGULATIONS, AND RESOLUTIONS OF THE CITY OF ROCKWALL.

WITNESS, MY HAND AT DALLAS, TEXAS, THIS THE _____ DAY OF _____, 2019.

FLOOD NOTE

THE SUBJECT PROPERTY IS SHOWN ON THE NATIONAL FLOOD INSURANCE PROGRAM FLOOD INSURANCE RATE MAP FOR ROCKWALL COUNTY, TEXAS AND INCORPORATED AREAS COMMUNITY PANEL NUMBER 48397C0040L, EFFECTIVE DATE: SEPTEMBER 26, 2008. ALL OF THE SUBJECT PROPERTY IS INDICATED TO BE IN ZONE "X" AND ZONE "A" ON SAID MAP. RELEVANT ZONES ARE DEFINED ON SAID MAP AS FOLLOWS:

ZONE "X" – OTHER AREAS: "AREAS DETERMINED TO BE OUTSIDE THE 0.2% ANNUAL CHANCE FLOODPLAIN"

ZONE "A" – SPECIAL FLOOD HAZARD AREAS (SFHAS) SUBJECT TO INUNDATION BY YHE 1% ANNUAL CHANCE FLOOD: NO BASE FLOOD ELEVATIONS DETERMINED.

THIS FLOOD STATEMENT DOES NOT IMPLY THAT THE PROPERTY AND/OR THE STRUCTURE THEREON WILL BE FREE FROM FLOODING OR FLOOD DAMAGE. ON RARE OCCASIONS, GREATER FLOODS CAN AND WILL OCCUR AND FLOOD HEIGHTS MAY BE INCREASED BY MAN-MADE OR NATURAL CAUSES. THIS FLOOD STATEMENT SHALL NOT CREATE LIABILITY ON THE PART OF THE SURVEYOR.

RECOMMENDED FOR FINAL APPROVAL

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS }
COUNTY OF ROCKWALL }

WE, THE UNDERSIGNED OWNERS OF THE LAND SHOWN ON THIS PLAT, AND DESIGNATED HEREIN AS LOT 2, BLOCK 1, INDALLOY ADDITION A SUBDIVISION TO THE CITY OF ROCKWALL, TEXAS, AND WHOSE NAME IS SUBSCRIBED HERETO, HEREBY DEDICATE TO THE USE OF THE PUBLIC FOREVER ALL STREETS, ALLEYS, PARKS, WATER COURSES, DRAINS, EASEMENTS AND PUBLIC PLACES THEREON SHOWN ON THE PURPOSE AND CONSIDERATION THEREIN EXPRESSED. WE FURTHER CERTIFY THAT ALL OTHER PARTIES WHO HAVE A MORTGAGE OR LIEN INTEREST IN INDALLOY ADDITION HAVE BEEN NOTIFIED AND SIGNED THIS PLAT.

WE UNDERSTAND AND DO HEREBY RESERVE THE EASEMENT STRIPS SHOWN ON THIS PLAT FOR THE PURPOSES STATED AND FOR THE MUTUAL USE AND ACCOMMODATION OF ALL UTILITIES DESIRING TO USE OR USING SAME. WE ALSO UNDERSTAND THE FOLLOWING;

(1) NO BUILDINGS SHALL BE CONSTRUCTED OR PLACED UPON, OVER, OR ACROSS THE UTILITY EASEMENTS AS DESCRIBED HEREIN.

(2) ANY PUBLIC UTILITY SHALL HAVE THE RIGHT TO REMOVE AND KEEP REMOVED ALL OR PART OF ANY BUILDINGS, FENCES, TREES, SHRUBS, OR OTHER GROWTHS OR IMPROVEMENTS WHICH IN ANY WAY ENDANGER OR INTERFERE WITH CONSTRUCTION, MAINTENANCE OR EFFICIENCY OF THEIR RESPECTIVE SYSTEM ON ANY OF THESE EASEMENT STRIPS; AND ANY PUBLIC UTILITY SHALL AT ALL TIMES HAVE THE RIGHT OF INGRESS OR EGRESS TO, FROM AND UPON THE SAID EASEMENT STRIPS FOR PURPOSE OF CONSTRUCTION, RECONSTRUCTION, INSPECTING, PATROLLING, MAINTAINING, AND EITHER ADDING TO OR REMOVING ALL OR PART OF THEIR RESPECTIVE SYSTEM WITHOUT THE NECESSITY OF, AT ANY TIME, PROCURING THE PERMISSION OF ANYONE.

(3) THE CITY OF ROCKWALL WILL NOT BE RESPONSIBLE FOR ANY CLAIMS OF ANY NATURE RESULTING FROM OR OCCASIONED BY THE ESTABLISHMENT OF GRADE OF STREETS IN THE SUBDIVISION.

(4) THE DEVELOPER AND SUBDIVISION ENGINEER SHALL BEAR TOTAL RESPONSIBILITY FOR STORM DRAIN IMPROVEMENTS.

(5) THE DEVELOPER SHALL BE RESPONSIBLE FOR THE NECESSARY FACILITIES TO PROVIDE DRAINAGE PATTERNS AND DRAINAGE CONTROLS SUCH THAT PROPERTIES WITHIN THE DRAINAGE AREA ARE NOT ADVERSELY AFFECTED BY STORM DRAINAGE FROM THE DEVELOPMENT.

(6) NO HOUSE DWELLING UNIT, OR OTHER STRUCTURE SHALL BE CONSTRUCTED ON ANY LOT IN THIS ADDITION BY THE OWNER OR ANY OTHER PERSON UNTIL THE DEVELOPER AND/OR OWNER HAS COMPLIED WITH ALL REQUIREMENTS OF THE SUBDIVISION REGULATIONS OF THE CITY OF ROCKWALL REGARDING IMPROVEMENTS WITH RESPECT TO THE ENTIRE BLOCK ON THE STREET OR STREETS ON WHICH PROPERTY ABUTS, INCLUDING THE ACTUAL INSTALLATION OF STREETS WITH THE REQUIRED BASE AND PAVING, CURB AND GUTTER, WATER AND SEWER, DRAINAGE STRUCTURES, STORM STRUCTURES, STORM SEWERS, AND ALLEYS, ALL ACCORDING TO THE SPECIFICATIONS OF THE CITY OF ROCKWALL; OR

UNTIL AN ESCROW DEPOSIT, SUFFICIENT TO PAY FOR THE COST OF SUCH IMPROVEMENTS, AS DETERMINED BY THE CITY'S ENGINEER AND/OR CITY ADMINISTRATOR, COMPUTED ON A PRIVATE COMMERCIAL RATE BASIS, HAS BEEN MADE WITH THE CITY SECRETARY, ACCOMPANIED BY AN AGREEMENT SIGNED BY THE DEVELOPER AND/OR OWNER, AUTHORIZING THE CITY TO MAKE SUCH IMPROVEMENTS AT PREVAILING PRIVATE COMMERCIAL RATES, OR HAVE THE SAME MADE BY A CONTRACTOR AND PAY FOR THE SAME OUT OF THE ESCROW DEPOSIT, SHOULD THE DEVELOPER AND/OR OWNER FAIL OR REFUSE TO INSTALL THE REQUIRED IMPROVEMENTS WITHIN THE TIME STATED IN SUCH WRITTEN AGREEMENT, BUT IN NO CASE SHALL THE CITY BE OBLIGATED TO MAKE SUCH IMPROVEMENTS ITSELF, SUCH DEPOSIT MAY BE USED BY THE OWNER AND/OR DEVELOPER AS PROGRESS PAYMENTS AS THE WORK PROGRESSES IN MAKING SUCH IMPROVEMENTS BY MAKING CERTIFIED REQUISITIONS TO THE CITY SECRETARY, SUPPORTED BY EVIDENCE OF WORK DONE; OR

UNTIL THE DEVELOPER AND/OR OWNER FILES A CORPORATE SURETY BOND WITH THE CITY SECRETARY IN A SUM EQUAL TO THE COST OF SUCH IMPROVEMENTS FOR THE DESIGNATED AREA, GUARANTEEING THE INSTALLATION THEREOF WITHIN THE TIME STATED IN THE BOND, WHICH TIME SHALL BE FIXED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL.

WE FURTHER ACKNOWLEDGE THAT THE DEDICATIONS AND/OR EXACTION'S MADE HEREIN ARE PROPORTIONAL TO THE IMPACT OF THE SUBDIVISION UPON THE PUBLIC SERVICES REQUIRED IN ORDER THAT THE DEVELOPMENT WILL COMPORT WITH THE PRESENT AND FUTURE GROWTH NEEDS OF THE CITY; WE, OUR SUCCESSORS AND ASSIGNS HEREBY WAIVE ANY CLAIM, DAMAGE, OR CAUSE OF ACTION THAT WE MAY HAVE AS A RESULT OF THE DEDICATION OF EXACTIONS MADE HEREIN.

(7) PROPERTY OWNER SHALL BE RESPONSIBLE FOR ALL MAINTENANCE, REPAIR, AND RECONSTRUCTION OF ALL SYSTEMS IN DRAINAGE AND DETENTION EASEMENTS.

NOTE: IT SHALL BE THE POLICY OF THE CITY OF ROCKWALL TO WITHHOLD ISSUING BUILDING PERMITS UNTIL ALL STREETS, WATER, SEWER AND STORM DRAINAGE SYSTEMS HAVE BEEN ACCEPTED BY THE CITY. THE APPROVAL OF A PLAT BY THE CITY DOES NOT CONSTITUTE ANY REPRESENTATION, ASSURANCE OR GUARANTEE THAT ANY BUILDING WITHIN SUCH PLAT SHALL BE APPROVED, AUTHORIZED OR PERMIT THEREFORE ISSUED, NOR SHALL SUCH APPROVAL CONSTITUTE ANY REPRESENTATION, ASSURANCE OR GUARANTEE BY THE CITY OF THE ADEQUACY AND AVAILABILITY FOR WATER FOR PERSONAL USE AND FIRE PROTECTION WITHIN SUCH PLAT, AS REQUIRED UNDER ORDINANCE 83-54.

THIS PLAT APPROVED SUBJECT TO ALL PLATTING ORDINANCES, RULES, REGULATIONS, AND RESOLUTIONS OF THE CITY OF ROCKWALL.

Fireworks proposal for City of Rockwall 4th of July 2020:

Fireworks on the Water (Scott Self et all). A not for profit corporation.

Proposal to make Rockwall national known for unusual 4th of July Fireworks show.

It consists of 5 fireworks shows happening at 9:30pm on July 4th, 2020.

This year you were able the type of show on June 29, July 6 and July 13 in front of the Hilton Hotel and on July 4 in front of the Landing and in front of the Heath Golf and Yacht Club. The shows are at approximately 10 minutes and are professionally engineered for timing and effect.

Proposed Locations for 2020 would be:

1. Harry Meyers park existing location.
2. On the water in front of the Landing at Chandlers
3. On the water in front of the Harbor and Hilton Hotel
4. On the water north of I 30 and south of 66
5. On the water north of 66 near the Shores and the park north of the Shores.

   See attached google maps with pin drops

All the above would be approximately same price and the city spends on just the Harry Meyers show (approximately $20,000).

Heath is participating again with a show in front of Heath Golf and Yacht Club and perhaps in front of Terry park, so there would be Seven shows going off at the same time.

We currently have a large number of volunteers on our fireworks committee at Chandlers Landing and would recruit more volunteer's city wide. New volunteers would have to get the same state certified pyrotec license I have.

We currently have insurance for unlimited number of fireworks shows and have had for years. City of Rockwall and City of Dallas are named insureds on the policy.

We would put on training shows on New Years Eve 2019, and Memorial Day 2020, and we could do additional training shows for events like founders day etc. By the July 4, 2020 we would have more than seven trained pyrotecs to handle this event.

This would help solve the future parking problem at Harry Myers on the 4th. By having the 5 of the shows on a barge in the lake, fire hazard is greatly reduce, especially if we have a dry summer.

By having multiple shows the length of the lake would alleviate point loading of traffic getting to see the shows, Many locations up the hills would be able to see multiple shows going off.

This would be a truly unique opportunity for Rockwall, unable to duplicate in the metroplex.

Volunteers are what makes this possible.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Honorable Mayor and City Council Members**

FROM: **Kristy Cole, City Secretary / Assistant to the City Manager**

DATE: **Aug. 2, 2019**

SUBJECT: **Action Item Re: 2018 Roadway Bond Projects**

This agenda item has been included to allow Council to take action as a result of the work session scheduled for earlier in the afternoon on Monday. Please see that work session item for supplemental information, including an explanatory memo from the City Engineer/Director of Public Works.

THIS PAGE INTENTIONALLY LEFT BLANK

212

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, P.E., Public Work Director/City Engineer**

DATE: **July 29, 2019**

SUBJECT: **Engineering Plan Review Fee**

The Civil Engineering plan review process is a critical step, within the City's development process, that ensures the health, safety and welfare of the public is not overlooked when a development or re-development is proposed. The engineering plan review process includes review for conformance to the City's Standards of Design and Construction, Flood Damage Hazard and Prevention Ordinance, Water & Wastewater Master Plans, and Thoroughfare Plan.

From 2015 through 2018 the Engineering Division has received 131 different engineering development applications varying in size from less than one acre to 79 acres. This is an average of approximately 44 applications per year. Of the 131 applications, there were a total of 510 submittals, which averages to 170 reviews each year for staff to complete. On average, a typical application consists of 3.9 reviews. There have been a few instances where several additional resubmittals were necessary in order to achieve conformance with the city standards. In the past 3 years, some projects have had 6 to 8 submittals. These instances required an excessive amount of staff time and effort and in certain instances the majority of staff's comments were not addressed requiring additional submittals.

Staff has pulled together a comparison of the following Cities' Engineering Review Fees below for reference. Staff is proposing a tiered fee structure based on the acreage of the subject property for engineering plan review submittals. This structure would be an initial engineering plan review fee of $100 for less than 1 acre, $125 for 1 to 5 acres, and $175 for more than 5 acres. Starting on the fourth submittal and each subsequent submittal, there would be a resubmittal fee of $500.

Staff is requesting the City Council consider directing staff to prepare an ordinance implementing an Engineering Plan Review Fee.

City	First Review Fee	Resubmittal Fee
Rockwall **(Current)**	$0	$0
Addison	$500 plus $25 per acre	$500 plus $100 per acre **(After Third Review)**
Frisco (1)	$0	$0
Lewisville	• $125 less than 1 acre • $200 1 to 5 acre • $200 More than 5 acre • Plus $15 per acre	•$125 less than 1 acre •$200 1 to 5 acre •$200 More than 5 acre •Plus $15 per acre
Plano	$100	$100
Richardson	$800 plus $25 per acre	$800 plus $25 per acre
Keller	$0	$500 **(After First Review)**
Burleson	$0	$200 **(After Second Review)**
Mesquite	• $750 less than 1 acre • $800 for 1 acre • $800 for first acre plus $50 per each additional acre over 1 acre	• $500 less than 1 acre • $525 for 1 acre • $525 for first acre plus $25 per each additional acre over 1 acre **(After First Review)**
McKinney	$100	$100
Rowlett	$100/hr **($600 min)**	$100/hr **($600 min)**
Cedar Hill	$0	$0

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Mary Smith, Assistant City Manager**

DATE: **August 2, 2019**

SUBJECT: **June 2019 Budget Report**

The following analysis is offered for the period ended June 30, 2019 budget report. The budget is established in broad categories with line item estimates. In each category actual expenses as a whole should be considered rather than at the line item level. The typical budget threshold for this period is 75%. The below categories exceed the threshold but most are not unusual for this time of year. Those line items which may require increases or off-setting decreases will be developed as we finalize the budget setting process for the next fiscal year.

General Fund Revenues

- All revenues are coming in at or above expected levels with few exceptions.
- Cable TV franchise fees continue to drop as Uverse is not being marketed for new customers. Charter cable franchise fees have increased moderately though not to the level of previous ATT payments.
- Sales tax increased by 9.37% for the month of June (April sales) as compared to the prior year, same month. For the fiscal year the total increase is 5.01% over the prior year with monthly changes ranging from -13% to +39%.
- Franchise revenues for electric have slightly higher than last year while Atmos franchise fees were 24% higher than projected.
- Construction related revenues are strong as well. Various permit types will appear over or under budget but this will largely be due to the changes made to permit fees after the legislative session. Overall these revenues will exceed budget projections for the year.
- Court revenues continue to show decline. The lack of a Warrant Officer due to Officer vacancies is felt in these revenues. We do use a collection agency which helps only moderately.

General Fund Expenditures

- Contractual category – generally the line items in this category across all the departments include annual contracts for maintenance or insurance coverage causing the budgets to appear ahead for this time of year. Any unusual variations are noted below.
- Utilities category – we made several positive changes to the city provided cell phone plan resulting in significant cost reductions overall. This allowed us to add GPS to the field personnel vehicles without an increase. The reductions weren't in the same departments as the increases so budget amendments will correct that.
- Internal Operations Contractual – the repair or replacement of several outdoor warning sirens was approved by Council and the budget amendment approved by Council for that purchase will be reflected in the reports for the next quarter.
- Fire Marshal Contractual – the Community Risk Assessment was approved by Council after the budget process and is offset by pending grant revenue.

- Police Patrol Contractual – the Dodge Chargers in the Patrol fleet have had major maintenance problems this year and will likely not be included in the fleet in future years due to these issues.
- Planning Contractual – annual maintenance agreement on GIS software was paid
- Parks Supplies – generally these products are purchased during the winter season and projects are undertaken ahead of the busy growing season.
- Recreation Operations includes funding for special events such as the Fireworks show which are paid well ahead of the actual event.
- Parks Operations – the new superintendent was sent to maintenance management school earlier this year.

Water / Sewer Revenues

- Water sales – sales are down due to the very rainy spring and early summer. With the dry weather from July forward we should see this revenue improve but we will likely not make budget for this revenue source.
- All other revenues are in line with projections – the majority of sales to wholesale customers takes place June – September and will benefit from the dry hot weather typical for this time of year.

Water / Sewer Expenditures

- Generally these accounts are within normal ranges for this period. NTMWD requires payments in advance for the various services they provide so those categories can seem ahead of budget projections but that will resolve itself when we pay the 12th invoice in August.
- Water Operations Supplies – we began an intense effort this year to change out older meters which has caused the supplies to be right at 100% of budget. We anticipate enough inventory for this to be sufficient for the rest of the year.
- All other accounts are within thresholds.

Special Revenue Funds Summary

- All establishments paid the hotel taxes this quarter.

XII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding legal issues pertaining to a Facilities Agreement pursuant to Section §551.071 (Attorney/Client Consultation).

2. Discussion regarding appointments to and interviews for city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Board of Adjustments - pursuant to Section 551.074 (Personnel Matters)

3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

XIII. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

XIV. ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 771-7700 or FAX (972) 771-7727 for further information.

The City of Rockwall City Council reserves the right to adjourn into executive session at any time to discuss any of the matters listed on the agenda above, as authorized by Texas Government Code § 551.071 (Consultation with Attorney) § 551.072 (Deliberations about Real Property) § 551.074 (Personnel Matters) and § 551.087 (Economic Development)

I, Kristy Cole, City Secretary for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 16th day of August, 2019 at 4:00 p.m. and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

_____ _____

Kristy Cole, City Secretary
or Margaret Delaney, Asst. to the City Sect.

Date Removed

MINUTES

ROCKWALL CITY COUNCIL REGULAR MEETING

Monday, August 05, 2019 - 4:00 PM

City Hall Council Chambers - 385 S. Goliad St., Rockwall, TX 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pruitt called the public meeting to order at 4:01 p.m. Present were Mayor Jim Pruitt and Councilmembers Patrick Trowbridge, John Hohenshelt, Kevin Fowler, Bennie Daniels and Trace Johannesen. Councilmember Dana Macalik arrived to the meeting at 4:04 p.m. Also present were City Manager Rick Crowley, Assistant City Managers Joey Boyd and Mary Smith, and City Attorney Frank Garza.

II. WORK SESSION

1. Hold a work session to discuss the progress of public input phase and engineering design for four of the 2018 Roadway Bond Projects; Ridge Road West; S. Lakeshore Dr. (Summit Ridge Dr. to Tanya Ln) & Russwood Dr.; Lakedale Dr., S. Lakshore Dr. (2000 block), & Woodpark Ln. and Turtle Cove Blvd (RR tracks to Ridge Rd.), and take any action necessary.

Jeremy White from the city's Engineering Department came forth and briefed Council on the above listed roadway/sidewalk reconstruction projects.

Councilmember Trowbridge asked if any part of the proposed plans have been modified since the time that resident meetings were held and/or residents were communicated with by staff. Ms. Williams indicated that no, no changes have been made since that time.

Councilmember Fowler asked when a requirement for sidewalks was instituted. Mr. Crowley, City Manager, shared that it was about in the mid 1980's. Mr. Miller shared that sidewalks are required in all new city subdivisions, including those that are more rural-like, and the main intent is to create safety for pedestrians. Ms. Williams, City Engineer, shared that the city has also put in sidewalks and modified some of them in order to be "ADA" (American with Disabilities Act) friendly for those in wheelchairs or motorized chairs.

Ms. Williams shared that the city has a registered arborist on staff (Mr. Travis Sales in the Parks Department), so staff will be utilizing him, as necessary, related to trees that may be impacted by these reconstruction projects.

Wayne McCallum
1050 Ridge Road West
Rockwall, TX

Mr. McCallum shared that his main concern is losing some of his property. He is ok with sidewalks; however, he wishes they would be a bit more narrow (4' instead of 5'). He also wishes that the

proposed street width would be narrower on Ridge Road West (he would like it to remain at 37' instead of 41'). He believes the wider roadway will increase both traffic and speed. He does not like that installation of sidewalks will increase his lawn upkeep (weed eating).

No name given
795 Ridge Road West
Rockwall, TX

This gentleman asked what will happen to seeping water that comes up through parts of the existing roadway. Staff indicated that, as much as possible, that water will go into the storm sewer drains after the reconstruction takes place.

Mr. Adair
309 Dartbrook Dr.
Rockwall, TX

Mr. Adair shared that he grew up at this home, and he is one of the sons of Mr. and Mrs. Adair. He is generally opposed to sidewalk installation, as he believes it will ruin the neighborhood. Of the neighbors he has talked to, he has yet to speak with any who have voice enthusiasm for this reconstruction project.

Dr. Carson asked Mr. White (staff person) to readdress what the plan is for the crate myrtles and trees and such on Ridge Road West. Mr. White shared that, in general, as much landscaping as possible will be left 'as is.' Some of the irrigation will need to be removed and replaced.

Richard Thompson
1180 Ridge Road West
Rockwall, TX

Mr. Thompson came forth and suggested the Council possibly consider one sidewalk instead of two. He does not believe that this roadway needs to be further widened. Also, he is concerned about edging / weed eating being tripled after this project is finished. He is concerned about large, brick mailboxes (many of which have brick that matches the home). He wants to know how the city will ensure that those either get disassembled and reassembled. His brick is on his walkway too, and it is Chicago fired brick that matches both his home and his sidewalk. Mayor Pruitt shared that, for the most part, the mailboxes will be disassembled and reconstructed. He prefers to have the curb, the sidewalk and then the yard (and avoid having a small 1.5'-2' strip of grass).

Mr. McCallum came forth again and pointed out that if the roadway is not widened, the city may not even have to move the mailboxes.

Mayor Pruitt then read the below listed discussion items into the record before recessing the public meeting to go into Executive Session at 4:57 p.m.

III. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding Economic Development prospects, projects, and/or incentives pursuant to Section 551.087 (Economic Development) and possible land purchase pursuant to Section 551.072 (Real Property) and Section 551.071 (Consultation with Attorney)
2. Discussion regarding possible sale of real property in the vicinity of Downtown, pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
3. Discussion regarding appointments to and interviews for city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Board of Adjustments - pursuant to Section 551.074 (Personnel Matters)
4. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

#3 CONSENT AGENDA (PULLED FROM PUBLIC MEETING AGENDA) Consider authorizing the City Manager to execute an Interlocal Agreement for Animal Control Services between the City of Rockwall and Rockwall County, and take any action necessary.

IV. ADJOURN EXECUTIVE SESSION

Council adjourned from Executive Session at 5:58 p.m.

V. RECONVENE PUBLIC MEETING (6:00 P.M.)

Council reconvened the public meeting at 6:00 p.m. with all seven council members being present.

VI. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

Mayor Pro Tem Macalik indicated that no action would be taken at this time as a result of Executive Session.

VII. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER DANIELS

Councilmember Daniels delivered the invocation and led the Pledge of Allegiance.

VIII. OPEN FORUM

Mayor Pruitt explained how Open Forum is conducted, thanking members of the public for coming to the Council meeting this evening. Mayor Pruitt welcomed two young Boy Scouts in the audience, who explained that they are attending to obtain their "citizenship and community" merit badges. He went on to explain that if people are present for the 'sidewalks' discussion, they may either speak during Open Forum or during the sidewalks-related Action Item.

Melody Mayor
Fence contractor from Renew Fence & Construction came forth and indicated that she recently performed work for:
Amy Harvey
506 Shoretrail Drive
Rockwall, TX

Ms. Mayor came forth and shared that she installed a wooden retaining wall (2'x6's with metal posts) that is under 4' tall, and she did not realize that she needed to pull a permit until after she had already done the retaining wall. She pointed out that Rockwall is the only city that requires that a permit be pulled for a retaining wall under 4' tall. All other cities require a permit only if it is going be over 4' tall. She shared that she had a professional engineer sign off on the work that was completed to prove that it was well built. She explained that Ms. Harvey is a single mom, and this is why she opted to do a wooden retaining wall because it cost her about $6,000 less to do wood versus stone or rock. She is wondering if there is some sort of variance process she may be able to go through in order to get the work that has already been completed approved and signed off on by the city. Also, she wonders why Rockwall is the only city around that requires a permit for 3' retaining walls and shorter when all the other cities are 4' or under for pulling a permit.

Judith Head
203 Woodpark Lane
Rockwall, TX

She lives on a small street that has only eight homes on it, four on each side. She went on to express several concerns pertaining to the reconstruction of her street and the installation of sidewalks. A lot of homes have mature and expensive landscaping that will be adversely impacted. She believes that a study should be done in order to determine the need for sidewalks, especially because her street is so very steep. So, she does not know that sidewalks would even be necessary. She is concerned about future maintenance of the sidewalks, should they be installed. She has a petition that shows that 100% of the residents on Woodpark Lane are against installation of sidewalks, and they all do not believe it is necessary to rebuild the street either. She wonders if the curbs will be wheelchair accessible. Also, she wonders if an environmental impact study has been conducted regarding drainage, pointing out that their alleyway is more concerning than their street.

Debra Norton
1235 Ridge Road West
Rockwall, TX

Ms. Norton shared that sidewalks do not create safety. They will be utilized for more than walkers and runners (i.e. scooters, bicycles, etc.), and that actually adversely impacts safety. She is concerned that the city is going to take 10' of her property, and she does not believe the city taking her property is right. She has been paying taxes for a long time, and taking her property would just not be right. She wants to see studies that show that sidewalks are needed, and she wants to see statistics that show that pedestrians have been hit or hurt without sidewalks. She wants the city to be sure that there is good reason to install the sidewalks. She believes that taking 10' of her property will result in her losing a good bit of equity in her home.

Bob Wacker
309 Featherstone
Rockwall, TX

Mr. Wacker came forth and asked Council to explain to the public what their options might be concerning sidewalks (i.e. is there a variance they may be able to request?).

Doug Demarco
1230 Ridge Road West
Rockwall, TX

Mr. Demarco shared that he and his wife have lived at this location for a relatively short period of time. He does not believe the existing roadway is that bad, and he does not believe the entire roadway needs replacing – only repairs are necessary, in his opinion. He generally expressed an indifference concerning sidewalk installation as part of the project; however, if they are installed, he prefers that the sidewalks be directly abutted to the curb/street (no grass strip in between the curb and the sidewalk). He acknowledged the understanding that it is public right-of-way, and the property does not actually belong to him, the homeowner; however, since he has been maintaining it, it sure does feel like 'his property' that is being taken.

There being no one else wishing to come forth and speak during Open Forum, Mayor Pruitt then closed Open Forum.

IX. CONSENT AGENDA

1. Consider approval of the minutes from the July 15, 2019 regular city council meeting, and take any action necessary.
2. Consider approval of an **ordinance** amending the Code of Ordinances in Ch. 44 "Utilities," Article V. "Water," Division 7. "Water Resource and Emergency Management Plan," Sec. 44-432 to adopt a new plan that incorporates requirements pertaining to "Procedures for Curtailment of Water Supplies," and take any action necessary. **(2nd Reading)**
3. Consider authorizing the City Manager to execute an Interlocal Agreement for Animal Control Services between the City of Rockwall and Rockwall County, and take any action necessary.
4. P2019-023 - Consider a request by Rick Bates of RLK Engineering, Inc. on behalf of William Salee of Rockwall ISD for the approval of a replat for Lot 2, Block A, Rockwall High School Addition being a 35.295-acre parcel of land currently identified as Lot 1, Block A, Rockwall High School Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 901 W. Yellow Jacket Lane, and take any action necessary.
5. P2019-028 - Consider a request by Matthew Gardner of Halff Associates on behalf of Carolina Molina of Alvaplast US (SPR Packaging) for the approval of a replat for a 43.0139-acre tract of land identified as Lot 1, Block 1, Indalloy Addition; Tract 31 of the R. Ballard Survey, Abstract No. 29; and Tract 7 of the N. Butler Survey, Abstract No. 20, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the terminus of Aluminum Plant Road, and take any action necessary.

Councilmember Macalik moved to approve the entire Consent Agenda (#1, 2, 3, 4 and 5). Councilmember Hohenshelt seconded the motion. The ordinance caption for No. 2 was read as follows:

CITY OF ROCKWALL

ORDINANCE NO. 19-28

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE CODE OF ORDINANCES IN CHAPTER 44. "UTILITIES;" ARTICLE V. "WATER;" DIVISION 7. "WATER RESOURCE AND EMERGENCY MANAGEMENT PLAN;" SEC. 44-432 TO ADOPT AN UPDATED PLAN TO ENSURE COMPLIANCE WITH CERTAIN REQUIREMENTS OF THE TEXAS COMMISSION ON ENVIRONMENTAL QUALITY (TCEQ); PROVIDING FOR A PENALTY OF A FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; AND A SEPARATE OFFENSE SHALL BE DEEMED COMMITTED ON EACH DAY DURING OR ON WHICH A VIOLATION OCCURS; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING AN EFFECTVE DATE.

The motion passed by a vote of 7 ayes to 0 nays.

X. APPOINTMENT ITEMS

1. Appointment with Scott Self to hear proposal related to "4th of July" 2020 fireworks shows, and take any action necessary.

Scott Self
319 Harborview Drive
Rockwall, TX

Mr. Self came forth and proposed that five firework shows be done, simultaneously, at 9:30 p.m., each lasting for about 10 minutes in length. He pointed out that, although Harry Myers Park has been a good location for fireworks for a number of years, the adjacent property that has been used for years to park 500+ cars is being developed. So, the parking will be an issue. He went on to explain the five, proposed locations. He went on to share that the City of Heath is willing to partner with Mr. Self and the City of Rockwall, and they would have two (additional) fireworks shows, for a total of seven shows. He is coming forth now, in August, in order to seek approval of his proposal so that he can get to work quickly on obtaining and training lots of volunteers that would be utilized to help run these various fireworks shows. He explained that one advantage is that "point loading" would not be a problem, as crowds watching the fireworks would be spread out instead of consolidated in one location. He believes that this would be positively received by the public, and it could receive national recognition.

Mr. Self explained that the fireworks in these five shows would be about 3" in diameter versus the approximate 6" diameter of fireworks that are currently seen at the city's fireworks show at Harry Myers Park. He is asking for the City of Rockwall to finance $20,000 for the five fireworks shows within the City of Rockwall, which is the same price the city is currently paying for the one show at Harry Myers. Mayor Pruitt expressed that if the city does not like the five, separate shows, then it could revert back to one, larger show like it has now in future years. Mr. Self concurred. Mr. Self shared that there will be some extra expenses, above and beyond the $20k the first year, because – for example – he will have to purchase the barges from which the fireworks will launch the first year. However, he already has commitments from volunteers and those willing to sponsor some of the extra expense(s).

Councilmember Trowbridge acknowledged that things do essentially get bottlenecked when there is only one, single fireworks location. However, he wonders if five, separate shows will spread out the

public too much. Mr. Self shared that some folks will be able to see two or three shows, simultaneously, all at once. He shared that the only other place in the nation that he's seen this done and done well is at the San Diego Harbor.

Councilmember Fowler shared that the city also has bands and other activities at Harry Myers on the 4th of July, prior to the actual fireworks show. So, he has concerns about losing some of those activities and camaraderie. He also wonders where some people may park to watch some of the five, separate shows.

Mayor Pruitt asked how this would be marketed / advertised. He believes there would have to be indication given, within the marketing, to tell the public where to go in order to watch the show(s). Mr. Self shared that he does not believe these shows would be marketed to those living outside of the City of Rockwall – it will mostly be for the benefit of our own, actual residents. Mr. Self acknowledged the importance of having at least one of the five shows at Harry Myers.

Mayor Pruitt and the Council provided informal guidance to Mr. Self and staff, instructing them to work together to come back to the City Council with a more detailed plan for moving forward with trying out this new idea for one year.

XI. ACTION ITEMS

1. Discuss and consider providing staff direction to move forward with the following 2018 Roadway Bond Projects, and take any action necessary:
a) Ridge Road West (Shores Blvd. to N. Goliad St./SH 205);
b) S. Lakeshore Dr. (Summit Ridge Dr. to Tanya Ln) and Russwood Dr.;
c) Lakedale Dr., S. Lakshore Dr. (2000 block), & Woodpark Ln;. and
d) Turtle Cove Blvd (RR tracks to Ridge Rd.).

Mayor Pruitt began discussion of this item, sharing that a citywide ordinance was adopted years ago by a previous city council, and that ordinance called for sidewalks to be installed in all new neighborhoods and when existing roadways are reconstructed. He indicated that if the city residents do not want sidewalks, then the Council needs to hear that; however, if the ordinance is changed, it would apply citywide, as 'piece mealing' would not be plausible. He went on to share that a lot of forethought went into informing and educating the public on the bond election that was held and that the voters overwhelmingly passed last year. He went on to that the Council gets a lot of opinions from those who want sidewalks and also from those who do not want sidewalks.

Councilmember Hohenshelt addressed the policy related to installation of sidewalks, which he mentioned was established about thirty years ago. All of the subdivisions built since that time have had sidewalks installed to allow people who walk or run to enjoy them. He pointed out that there will be dozens of projects like this over the course of the upcoming nine or ten years. So, whatever the policy needs to be, then it needs to be decided now, and it needs to apply citywide. It will be too challenging to address the issue of sidewalks with every single reconstruction project.

City Attorney Frank Garza pointed out that if the city does major reconstruction on a street that was built after 1992, then the city is required to put 'curb cuts' that are "ADA compliant," and this is regardless of whether or not sidewalks are installed on those streets.

Councilmember Fowler shared that perhaps the City should institute a policy that if reconstruction happens on a street that already does not have sidewalks, then no sidewalks will be built; however, if it is a new street or a new neighborhood going in, then sidewalks will be built. He went on to share that the Council has in fact received a lot of emails from residents who do in fact want the sidewalks built along with these reconstruction projects.

Councilmember Macalik shared that, speaking as a realtor, younger families do factor in whether or not a neighborhood has sidewalks because they do tend to prefer there to be sidewalks. She understands both sides of the issues; however, she believes that cities all over the United States are installing sidewalks because they are quite popular.

Councilmember Trowbridge shared that this issue goes beyond those who actually live on a particular street; however, he is also sensitive to the desires of a particular neighborhood.

Mayor Pruitt shared that he would like to have property owner feedback far before 40% of the design engineering has already been complete and the money spent in that regard.

Councilmember Fowler asked – if this is already a city standard, then why is it even being debated or discussed right now? Mr. Crowley, City Manager, shared that the city always attempts to go into a neighborhood to inform them about an upcoming reconstruction project. It is at that time, typically, when feedback regarding sidewalks and other aspects of a roadway reconstruction project is heard.

Councilmember Johannesen expressed frustration because the city tries hard to be very transparent and communicate well with the public, and, unfortunately, residents don't seem to speak up until it literally begins to affect their particular yard.

Councilmember Fowler shared that surveys showed that about 60% of residents indicated a desire to have sidewalks on Ridge Road West, and about 40% indicated they do not want them.

Ms. Williams, City Engineer, explained that a machine runs along top of a roadway and analyzes its structural integrity (not the 'driveability') and scores it as far as the need for it to be reconstructed (or not).

Mayor Pruitt indicated that he will open it up for public comment to those who wish to come forth and speak regarding "Ridge Road West" at this time. He first asked for City Engineer Amy Williams to speak to the surveys that were sent out to property owners. Ms. Williams stated that there are sixty properties and sixty surveys were sent out to those property owners. The response rate was 37% (22 were returned). Of those, 59.5% indicated they are "for" sidewalks and 40.5% indicated they are "against" having sidewalks.

Don Laws
1620 Shores Boulevard
Rockwall, TX

Mr. Laws expressed concern about how much land is going to be taken away from the front of everyone's house. Regarding safety, he believes that once Ridge Road West is widened, people will drive along it at a faster rate of speed, and more people will be driving on it. He suggested that perhaps the city consider installing a sidewalk only on one side of the roadway or build the road (only) and not the sidewalks.

Mayor Pruitt mentioned that the city has considered sidewalks on only one side of a road; however, he pointed out that the Council cannot get folks to agree on which side the sidewalk gets installed.

Doug Demarco
1230 Ridge Road West
Rockwall, TX

Mr. Demarco came forth and shared that everyone bought their home without a sidewalk, and they were ok purchasing a home without a sidewalk in front of it. Regarding safety, people's driving behavior tends to be related to the road and related conditions. So, he believes that a wider road will result in cars driving faster. He suggested that if they are going to be installed, perhaps Council could consider installing patterned sidewalks that are more beautiful or maybe use some of the money to add street lights.

Julie Barlow
1005 Ridge Road
Rockwall, TX

Mrs. Barlow shared that she and her husband just purchased this home. She was not aware of the policy that is in place that calls for the same standards for street widths and sidewalk installations. She generally indicated that when a resident receives a survey, they are perhaps not understanding or are not aware that the street width will be expanded and installation of sidewalks will mean that part of their lawn gets 'taken in.' She is not in favor of 'one size fits all,' and she is in real estate. She believes that people make decisions on purchasing a home based on how the neighborhood makes them feel. She purchased this home, which was built in 1981, and moved out of a home that was built 10-15 years or so. She and her husband purchased the home because she likes the large trees, no sidewalks, etc. She believes that one policy, citywide, pertaining to sidewalks, is generally not feasible. She believes some sort of variance or exception needs to be made in this particular case.

Tom Richmond
1105 Ridge Road West
Rockwall, TX

Mr. Richmond shared that it was not clear that there could have possibly been an option for reconstruction of the street itself but with no sidewalk being added. He would like to see the roadway reconstructed, but he would like the sidewalks to be left out. He wonders if the homeowners along the

roadway could get a variance to essentially 'skip the sidewalks.' He generally suggested that the Council consider changing its policy regarding installation of sidewalks.

Mr. Crowley, City Manager, pointed out that a portion of a resident's yard is public "right-of-way," so projects such as these do not take a person's property. The property line does not change, and the size of the resident owned property does not change.

At 7:43 p.m., Mayor Pruitt called for a brief break and recessed the public meeting. Mayor Pruitt reconvened the meeting at 7:55 p.m.

John Sunderson
1850 Wind Hill Road
Rockwall, TX

Mr. Sunderson shared that he does not live on this street; however, he is generally a proponent of sidewalks. He does not believe that sidewalks being installed on this roadway would detract from the beauty of the neighborhood. In fact, he believes that the sidewalks being installed would allow for more pedestrians to enjoy the area. He believes the city's policy on sidewalks is fine 'as is,' and it does not need to be changed. He reminded the Council and public that the Council is charged with representing the entire city – not just one street or one neighborhood.

Doug Demarco
1230 Ridge Road West
Rockwall, TX

Mr. Demarco came forth again and shared his belief that residents who filled out the survey and/or came to the informational resident meetings may not have totally understood about the street widening and that 10' of their front lawns would be 'taken in' as a result of sidewalks being installed. He suggested the city explain that better when sending out a survey. He understands that a portion of their lawn is 'right-of-way,' but homeowners do not see it that way.

An unidentified resident came forth and shared that he was 50/50 on whether or not sidewalks should be installed. He did not realize, however, that portions of front lawns would be lost if sidewalks were installed. He did not understand what he was agreeing to and believes that several residents may not have realized this either.

Jeff Boehm
1400 Plummer
Rockwall, TX

Mr. Boehm shared that he purposefully purchased a home nineteen years ago that did not have sidewalks on the street. He generally expressed that, since these folks purchased a home without sidewalks, it is not fair to them to now insist that they have sidewalks installed. He suggested the city put a policy in place that if homes did not have sidewalks to begin with, then they will never have sidewalks installed.

Dusty Goucher
1240 Ridge Road West
Rockwall, TX

Ms. Goucher indicated that she agrees with the "no sidewalks" sentiments that have been expressed this evening. She thought there would only be 3', rather than 10', of the front of her lawn taken. She generally spoke against the installation of sidewalks.

Sandra Solomon
1635 Shores Boulevard
Rockwall, TX

Mrs. Solomon came forth and shared that she does not live on this road – she lives further down just a little bit in The Shores. She acknowledged the Council members are elected to represent all citizens and the city as a whole. She agrees the roadway needs to be reconstructed, and the curbs need reconstructing too. She suggested that parking be restricted on it and the speed limit be reduced to 25 mph. She wished Council the best in making this decision, as she generally knows this is a tough decision. She generally expressed concern about the survey that was conducted. She pointed out that the 'return rate' was low, and it is uncertain if the responses were from those who truly understood on what they were giving feedback.

Bob Wacker
309 Featherstone
Rockwall, TX

Bob Wacker came forth and shared that he loves sidewalks, and he lives in the Stonecreek subdivision, which as sidewalks. He believes the city should move forward with installation of them in this instance. He suggested that staff try and communicate about these matters further in advance so that residents have additional time to consider these types of projects.

Mr. Richmond came forth again and suggested that the City consider re-surveying the residents along the roadway.

Councilmember Trowbridge made a motion to move forward with redesigning the engineering plans to remove the sidewalks along Ridge Road West. Councilmember Johannesen seconded the motion. He expressed concern about residents who have expressed support for sidewalk installation now possibly not being fairly represented (as the plan is perhaps now going to change without their input / knowledge). Following the discussion, the vote failed by a vote of 2 ayes and 5 nays (Macalik, Hohenshelt, Pruitt, Fowler and Daniels).

Councilmember Hohenshelt moved to approve the current design of Ridge Road West as presented by staff / the City Engineer. Councilmember Macalik seconded the motion, which failed by a vote of 3 ayes with 4 nays (Trowbridge, Fowler, Daniels and Johannesen).

Mayor Pruitt then took public comments concerning the S. Lakeshore Drive (Summit Ridge Dr. to Tanya Ln.) and Russwood Drive reconstruction project.

Anthony Diesch
1302 S. Lakeshore Drive
Rockwall, TX

Mr. Diesch explained that he is not in favor of sidewalks, and he understands that the Council's decision in this regard is a very difficult one. His concerns, he explained, are mostly related to the damage that will be done to the existing trees. He went on to share some photos of large, mature trees that will be adversely impacted by 10' of right-of-way being developed with concrete. He knows that mature trees do add to real estate value.

Moriah Pruitte
311 Russwood Drive
Rockwall, TX

Ms. Pruitte shared that she believes that if residents would have understood that "do you want sidewalks" on the survey equated to "10' of your front lawn will be taken in," then their answers would have been far different. She is generally strongly opposed to the installation of sidewalks on this street.

Ron Gilleland
310 Meadowdale Drive
Rockwall, TX

This is a side street, and he and his wife have lived there for twenty-six years. Mr. Gilleland shared that there are people who actually drive into this neighborhood, park their car, and then walk in the streets of this neighborhood because it is pretty and it is safe. He generally expressed opposition to sidewalks being installed. He is concerned about the trees being adversely impacted by the sidewalks installation, and they will change the entire makeup of the neighbborhood. He pointed out that there are at least a few, highly mature (30-40 + year old) trees that will be drastically impacted if these sidewalks are installed. He is generally in favor of the reconstruction and improvement of the roadway itself; however, he is greatly in opposition of the sidewalks. Even if the sidewalk is diverted around the mature trees, he believes the tree will be adversely impacted.

Jerry Welch
1509 S. Lakeshore Drive
Rockwall, TX

Mr. Welch shared that he is about five houses south of Tanya. He suggested that people typically walk on the main street, and they perhaps do not walk as much on the side streets. So perhaps the city should just put sidewalks on that main street and not install them on the side streets.

Nora Elwonger
308 Meadowdale
Rockwall, TX
Ms. Elwonger asked why a survey was conducted to begin with if a policy was already in place that called for sidewalks to be installed. Asking the question led responders to believe that their opinions would actually matter. City Manager Rick Crowley shared that it was actually his decision to include the question about sidewalks because he anticipated that Council would like to have that feedback. She generally indicated that she is strongly opposed to the installation of sidewalks. She purchased her

home without sidewalks and prefers that the street stay that way. She pointed out that the Council previously relied heavily on a survey the last time a decision was made regarding installation or no installation of sidewalks. In this instance, more residents (about 72%) have expressed "no sidewalks."

A.J. Echstein (unsure of spelling)
1605 Plummer Drive
Rockwall, TX

Mr. Echstein came forth and asked (a rhetorical question) if the city is going to require sidewalks to be installed in the historical district.

Kathleen Ingram
1410 S. Lakeshore Drive
Rockwall, TX

Ms. Ingram came forth and suggested that Council consider changing the existing policy that calls for sidewalks to be installed upon reconstruction of a roadway. She did not know that 'new streets' would come with 'new sidewalks.' She believes that voters have been misled through the "sidewalks" question on the surveys. She believes a variance should be allowed in this instance because she does not know that voters understood (when voting on the bond proposal) that a new, reconstructed roadway would automatically be accompanied by the installation of sidewalks.

Councilmember Daniels shared that previously when Council asked the people on Summit Ridge to go discuss the matter and come back with a mutually agreed upon consensus, they were unable to do so. Daniels proposed that the city's existing policy be amended to state that if a street does not already have sidewalks, then it would not have new ones installed upon reconstruction….and if a street did have existing sidewalks, then new ones would be installed upon reconstruction.

Mayor Pruitt moved to table this entire Action Item #1 and further discuss it at a later date. Councilman Johannesen seconded the motion, which passed unanimously of those present (7 ayes to 0 nays).

2. Discuss and consider directing staff to prepare an ordinance implementing a city initiated Engineering Plan Review Fee, and take any action necessary.

City Engineer, Amy Williams, provided brief background information pertaining to this agenda item. Councilman Hohenshelt moved to instruct staff to prepare this ordinance. Councilman Trowbridge seconded the motion, which passed by a vote of 7 ayes to 0 nays.

3. Discuss and consider (re)appointments to the city's Airport Advisory Board, Animal Advisory Board, Architectural Review Board, ART Review Commission, Historic Preservation Advisory Board, and Park Board and take any action necessary.

Mayor Pruitt shared that Council is not ready to take action on these tonight. So, neither discussion nor action took place regarding this matter.

XII. CITY MANAGER'S REPORT, DEPARTMENTAL REPORTS AND RELATED DISCUSSIONS PERTAINING TO CURRENT CITY ACTIVITIES, UPCOMING MEETINGS, FUTURE LEGISLATIVE ACTIVITIES, AND OTHER RELATED MATTERS.

1. **Departmental Reports**

Building Inspections Monthly Report - June 2019
Finance Department Quarterly Report - June 2019
Fire Department Monthly Report - June 2019
GIS Division Monthly Report - June 2019
Harbor PD Monthly Report - June 2019
Internal Operations Department Monthly Report - June 2019
Rockwall Animal Adoption Center Monthly Report - June 2019
Rockwall County Meals On Wheels / Senior Services 3rd Quarter Report
Recreation Monthly Report - June 2019
Police Department Monthly Report - June 2019
STAR Transit Monthly Report - June 2019

2. **City Manager's Report**

No questions were asked pertaining to departmental of city manager's report.

XIII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding Economic Development prospects, projects, and/or incentives pursuant to Section 551.087 (Economic Development) and possible land purchase pursuant to Section 551.072 (Real Property) and Section 551.071 (Consultation with Attorney)
2. Discussion regarding possible sale of real property in the vicinity of Downtown, pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
3. Discussion regarding appointments to and interviews for city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Board of Adjustments - pursuant to Section 551.074 (Personnel Matters)
4. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney)

XIV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

Council did not reconvene in Executive Session following the close of the public meeting agenda.

XV. ADJOURNMENT

Mayor Pruitt adjourned the meeting at 9:05 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 19th DAY OF AUGUST, 2019.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Mary Smith, Director of Finance**

DATE: **August 16, 2019**

SUBJECT: **Select Audit Firm**

The City Charter requires an audit be performed at the end of each fiscal year, with the audit firm to be rotated every 4 years.

City staff requested proposals for audit services in June 2019. Proposal packages were sent to all audit firms in the State who conduct government audits, as well as to the national level firms, with offices in the area. In addition, all Rockwall CPA's were sent a proposal package. Lists of audit firms in the Metroplex were garnered from the Dallas Chapter of the Texas Society of Certified Public Accountants.

Five proposals for audit services were received from firms including BKD CPA, Whitley Penn, Patillo, Brown & Hill, BrooksWatson & Co, and Weaver.

All of the submitting firms are qualified to conduct the annual audit of the City's financial statements and prepare the Comprehensive Annual Financial Report (CAFR) and all have a long established presence in this area. All firms propose to provide staff that are registered with the State Board of Public Accountancy and offer a significant number of individual years of experience in the audit of local governments.

The proposals very widely on the cost of service to be provided. 2 of the firms chose to conduct a phone interview with me and their better understanding of the City's process and staff did help those firms identify a cost better matched to our ability to assist them through the audit.

After interviews and extensive review of references, staff proposes the City Council authorize the City Manager to engage the firm of BrooksWatson & Co PLLC to conduct the audit of the City's financial statements for the year ended September 30, 2019 - 22. The firm will prepare the City's CAFR and proposes to meet with the Finance Sub-committee prior to their presentation to the full Council in the month of March 2020.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Honorable Mayor and Council**

FROM: **Jeffrey Widmer, Building Official**

DATE: **August 19, 2019**

SUBJECT: **Transfer Building and Standards Commission responsibilities to the BOA**

When the City's Property Maintenance Code (PMC) was adopted in 2004, the Building and Standards Commission (BSC) was created. City Council appointed members to the commission, and Neighborhood Improvement Services (NIS) has utilized the BSC over the last several years.

The Commission has authority to uphold a determination of the NIS Department, allow a reasonable time in which a property owner has to comply with a determination or order of the NIS Department, accept an alternate method for compliance with the provision of the City's PMC, grant variances when a literal enforcement of the PMC would result in an unnecessary hardship and make recommendations to City Council regarding dangerous buildings.

The commission has not met over the last few years, and members have not been appointed to serve on the commission. Staff believes it would be prudent to retain the ability to utilize the BSC if the need arises in the future.

Our Board of Adjustment (BOA) is an active body that meets practically every month. Working with our City Attorney, the determination was made that the BOA could also serve the City as our BSC when needed. The attached proposed ordinance transfers the responsibilities of the BSC to the BOA.

If Council votes to approve the proposed ordinance change, Staff will inform, educate and assist our BOA Members in preparing to serve as our BSC for future hearings

24

CITY OF ROCKWALL

ORDINANCE NO. 19-

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS AMENDING THE CODE OF ORDINANCES IN CHAPTER 10. "BUILDINGS AND BUILDING REGULATIONS;" ARTILE II. "ADMINISTRATION AND ENGFORCEMENT;" DIVISION 2. "BUILDING AND STANDARDS COMMISSION" TO APPOINT THE DUTIES OF THE CITY'S BUILIDING AND STANDARDS COMMISSION TO THE CITY'S BOARD OF ADJUSTMENT; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTVE DATE.

WHEREAS, the City Council of the City of Rockwall, Texas ("City Council") took action on January 20, 2004 through adoption of Ordinance 04-05 to establish the Building and Standards Commission to enforce the Property Maintenance Code; and

WHEREAS, the Building and Standards Commission has met on only a few occasions since its creation. Therefore, the City Council believes it would be prudent to consolidate the Building and Standards Commission with the Board of Adjustments, essentially transferring the duties of the Building and Standards Commission to the City's Board of Adjustment; and

WHEREAS, the City Council has determined it to be in the best interest of the City to amend Chapter 10, Article II, Division 2, "Building and Standards Commission" to appoint the duties of the Building and Standards Commission to the Board of Adjustment;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. AMENDMENT. That the Code of Ordinances of the City of Rockwall, Texas in Chapter 10, Article II, Division 2, "Building and Standards Commission," specifically Section 10-40 is hereby amended to read as follows:

Sec. 10-40. - Created.

(a) *Organization.* There is hereby created a commission known as the Building and Standards Commission. The rules shall be organized as follows:

(1) *Composition.* The Building and Standards Commission shall consist of the members of the city's Board of Adjustment, all of whom are appointed by a majority of the city council in accordance with Article II, Sec. 11 of the City's Unified Development Code (UDC).

(2) *Vacancies.* Vacancies to the Building and Standards Commission shall be filled in accordance with Article II, Sec. 11 of the City's Unified Development Code (UDC).

(3) *Residency and voter requirements.* Each member of the commission shall be a resident citizen and qualified voter of the city.

(4) *Terms.* Terms of office shall be the same as the terms for the members of the Board of Adjustment.

(5) *Compensation.* Members shall serve without compensation.

(6) *Removal.* Council may remove a member for cause on a written charge. Before a decision regarding a removal is made, the council must hold a public hearing on the matter if requested by the commission member subject to the removal action.

(b) *Meetings.* The commission shall hold its meetings on the call of the chairperson, or at such other times as the commission may determine. All meetings shall be open to the public.

(c) *Quorum.* All cases to be heard by the commission must be heard by at least four members.

(d) *Chairperson; vice-chairperson.* A chairperson and a vice-chairperson shall be elected by the members of the commission at the first meeting following the annual appointment of the new members.

(e) *Recordkeeping.* The commission shall keep minutes of its proceedings, showing the vote of each member upon each question, or, if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the board and shall be a public record.

(f) *Voting.* The concurring vote of four members of the commission shall be necessary for the adoption of any motion, the issuance of any order, the making of any recommendation, or the determination of the amount and duration of any civil penalty. Only the members of the commission present shall have voting privileges.

(g) *Promulgation of regulations.* The commission shall adopt rules in accordance with the Property Maintenance Code, Article XII of this chapter and pursuant to V.T.C.A., Local Government Code § 54.032. The rules shall establish procedures for use in hearings, providing ample opportunity for presentation of evidence and testimony by respondents or person opposing charges brought by the municipality or its building officials relating to alleged violation of ordinances, as specified in V.T.C.A., Local Government Code § 54.031 et seq.

(h) *Appeals.* Appeals to the commission may be made by any person aggrieved, or by a municipal officer, department, or board affected by any decision (related to the Property Maintenance Code, article XII of this chapter) of the building official. Such appeal shall be filed with the commission chairperson within 15 days after the original decision is rendered. All papers constituting the record pertaining to such appeal shall accompany the appeal. Formal notice of the appeal shall be issued by the commission chairperson, such notice to specify the grounds upon which the appeal is made. The commission shall set a reasonable time for the hearing of the appeal. Notice of all proceedings before the commission must be given as follows:

(1) By certified mail, return receipt required to the record owners of the attached property, and such holder of a recorded lien against the affected property, as shown by the records in the office of the county clerk, if the address of the lienholder can be ascertained;

(2) To all unknown owners, by posting a copy of the notice on the front door of each improvement situated on the affected property, or as close to the front door as practicable; and

(3) The notice shall be mailed and posted on or before the tenth day before the date of the hearing before the commission and must state the date, time, and place

of the hearing. In addition, the notice must be published in a newspaper of general circulation within the city at least ten days before the hearing.

SECTION 2. That the remainder of Chapter 10, Article II, Division 2, "Building and Standards Commission" in the City's Code of Ordinances shall remain unchanged. The Code of the City of Rockwall, Texas, as amended, shall remain in full force and effect, save and except as amended by this ordinance; and

SECTION 3. That all ordinances or parts of ordinances in conflict herewith are hereby repealed to the extent of such conflict with all remaining portions not conflicting being saved from repeal herein; and

SECTION 4. That if any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional or illegal, such decision shall not affect the validity of the remaining sections of this ordinance. The City Council hereby declares that it would have passed this ordinance, and each section, subsection, clause, or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared void; and

SECTION 5. That it is hereby found and determined that the meeting at which this ordinance was passed was open to the public as required by Section 551.001 et seq., Texas Government Code and that advance public notice of the time, place and purpose of said meeting was given; and

SECTION 6. That this ordinance shall take effect immediately upon its second reading as required by the City Charter, Section 3.11.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THIS 3rd DAY OF SEPTEMBER, 2019.

CITY OF ROCKWALL, TEXAS

ORDINANCE NO. 19-___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE CODE OF ORDINANCES IN CHAPTER 38. "SUBDIVISIONS," ARTICLE I. "IN GENERAL," SECTION 38-15 "MISCELLANEOUS REQUIREMENTS" TO ESTABLISH AN ENGINEERING PLAN REVIEW FEE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City Council of the City of Rockwall, Texas ("City Council") deems it to be in the best interest of the City to establish a "plan review fee" associated with engineering related projects.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Code of Ordinances of the City of Rockwall shall be amended in Chapter 38. "Subdivisions;" Article I. "In General;" Section 38-15. "Miscellaneous requirements," to add an additional subsection and associated provisions, which shall hereby read as follows:

> (s) *Engineering Plan Review Fee.* Any person desiring to submit for engineering construction plan review shall, at the time of said plan being submitted to the engineering department, pay to the city a fee in accordance with the following fee schedule:

First Review Fee	Resubmittal Fee
• $100.00 for parcels or tracts of land less than 1-acre. • $125.00 for parcels or tracts of land between 1 to 5-acres. • $175.00 for parcels or tracts of land greater than 5-acres.	$500 **(After Third Review)**

SECTION 2. That all ordinances or parts of ordinances in conflict herewith are hereby repealed to the extent of such conflict with all remaining portions not conflicting being saved from repeal herein; and

SECTION 3. That if any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional or illegal, such decision shall not affect the validity of the remaining sections of this ordinance. The City Council hereby declares that it would have passed this ordinance, and each section, subsection, clause, or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared void; and

SECTION 4. That it is hereby found and determined that the meeting at which this ordinance was passed was open to the public as required by Section 551.001 et seq., Texas Government Code and that advance public notice of the time, place and purpose of said

meeting was given; and

SECTION 5. That this ordinance shall take effect immediately upon its second reading as required by the City Charter, Section 3.11.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, this 3rd day of September, 2019.

CITY OF ROCKWALL

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	August 19, 2019
APPLICANT:	Ryan Joyce; Michal Joyce Properties
CASE NUMBER:	P2019-029; *Preliminary Plat for Northgate Subdivision*

SUMMARY

Discuss and consider a request by Ryan Joyce of Michael Joyce Properties on behalf of Jen-Liang Wu of Unison Investment for the approval of a master plat for the Northgate Subdivision being a 61.45-acre tract of land identified as Tract 4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 88 (PD-88) for Single-Family 1 (SF-1) District land uses, located at the southwest corner of the intersection of Stodghill Road [FM-3549] and Clem Road, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting to preliminary plat a 61.45-acre tract of land (*i.e. Tract 4 of the W. M. Dalton Survey Abstract No. 72*) into 40 Lots (*i.e. Lots 1-23, Block A, Lots 1-17, Block B*) for the purpose of establishing a lot layout for a single-family residential development. The preliminary plat also depicts two (2) common space lots that will be utilized as 30-foot landscape buffers adjacent to Stodghill Road [*FM-3549*]. In addition to the preliminary plat, the applicant has also submitted preliminary drainage and utility plans showing how the development can be adequately served.

☑ The subject property was annexed in 2008 [*Ordinance No. 08-66*] and is currently vacant. On July 1, 2019, the City Council approved *Ordinance No. 19-26*, which established the development standards for Planned Development District 88 (PD-88). In conjunction with the preliminary plat, the applicant has submitted a request for approval of a master plat (*Case No. P2019-030*) and a site plan (*Case No. SP2019-028*) for the Northgate Subdivision.

☑ On August 6, 2019 the Parks and Recreation Board reviewed the preliminary plat and made the following recommendations:

(1) The developer shall pay pro-rata equipment fees of $20,920.00 (*i.e. $523.00 x 40 lots*) to be paid at the time of final plat.

(2) The developer shall pay cash in lieu of land fees of $20,280.00 (*i.e. $507.00 x 40 lots*) to be paid at the time of final plat.

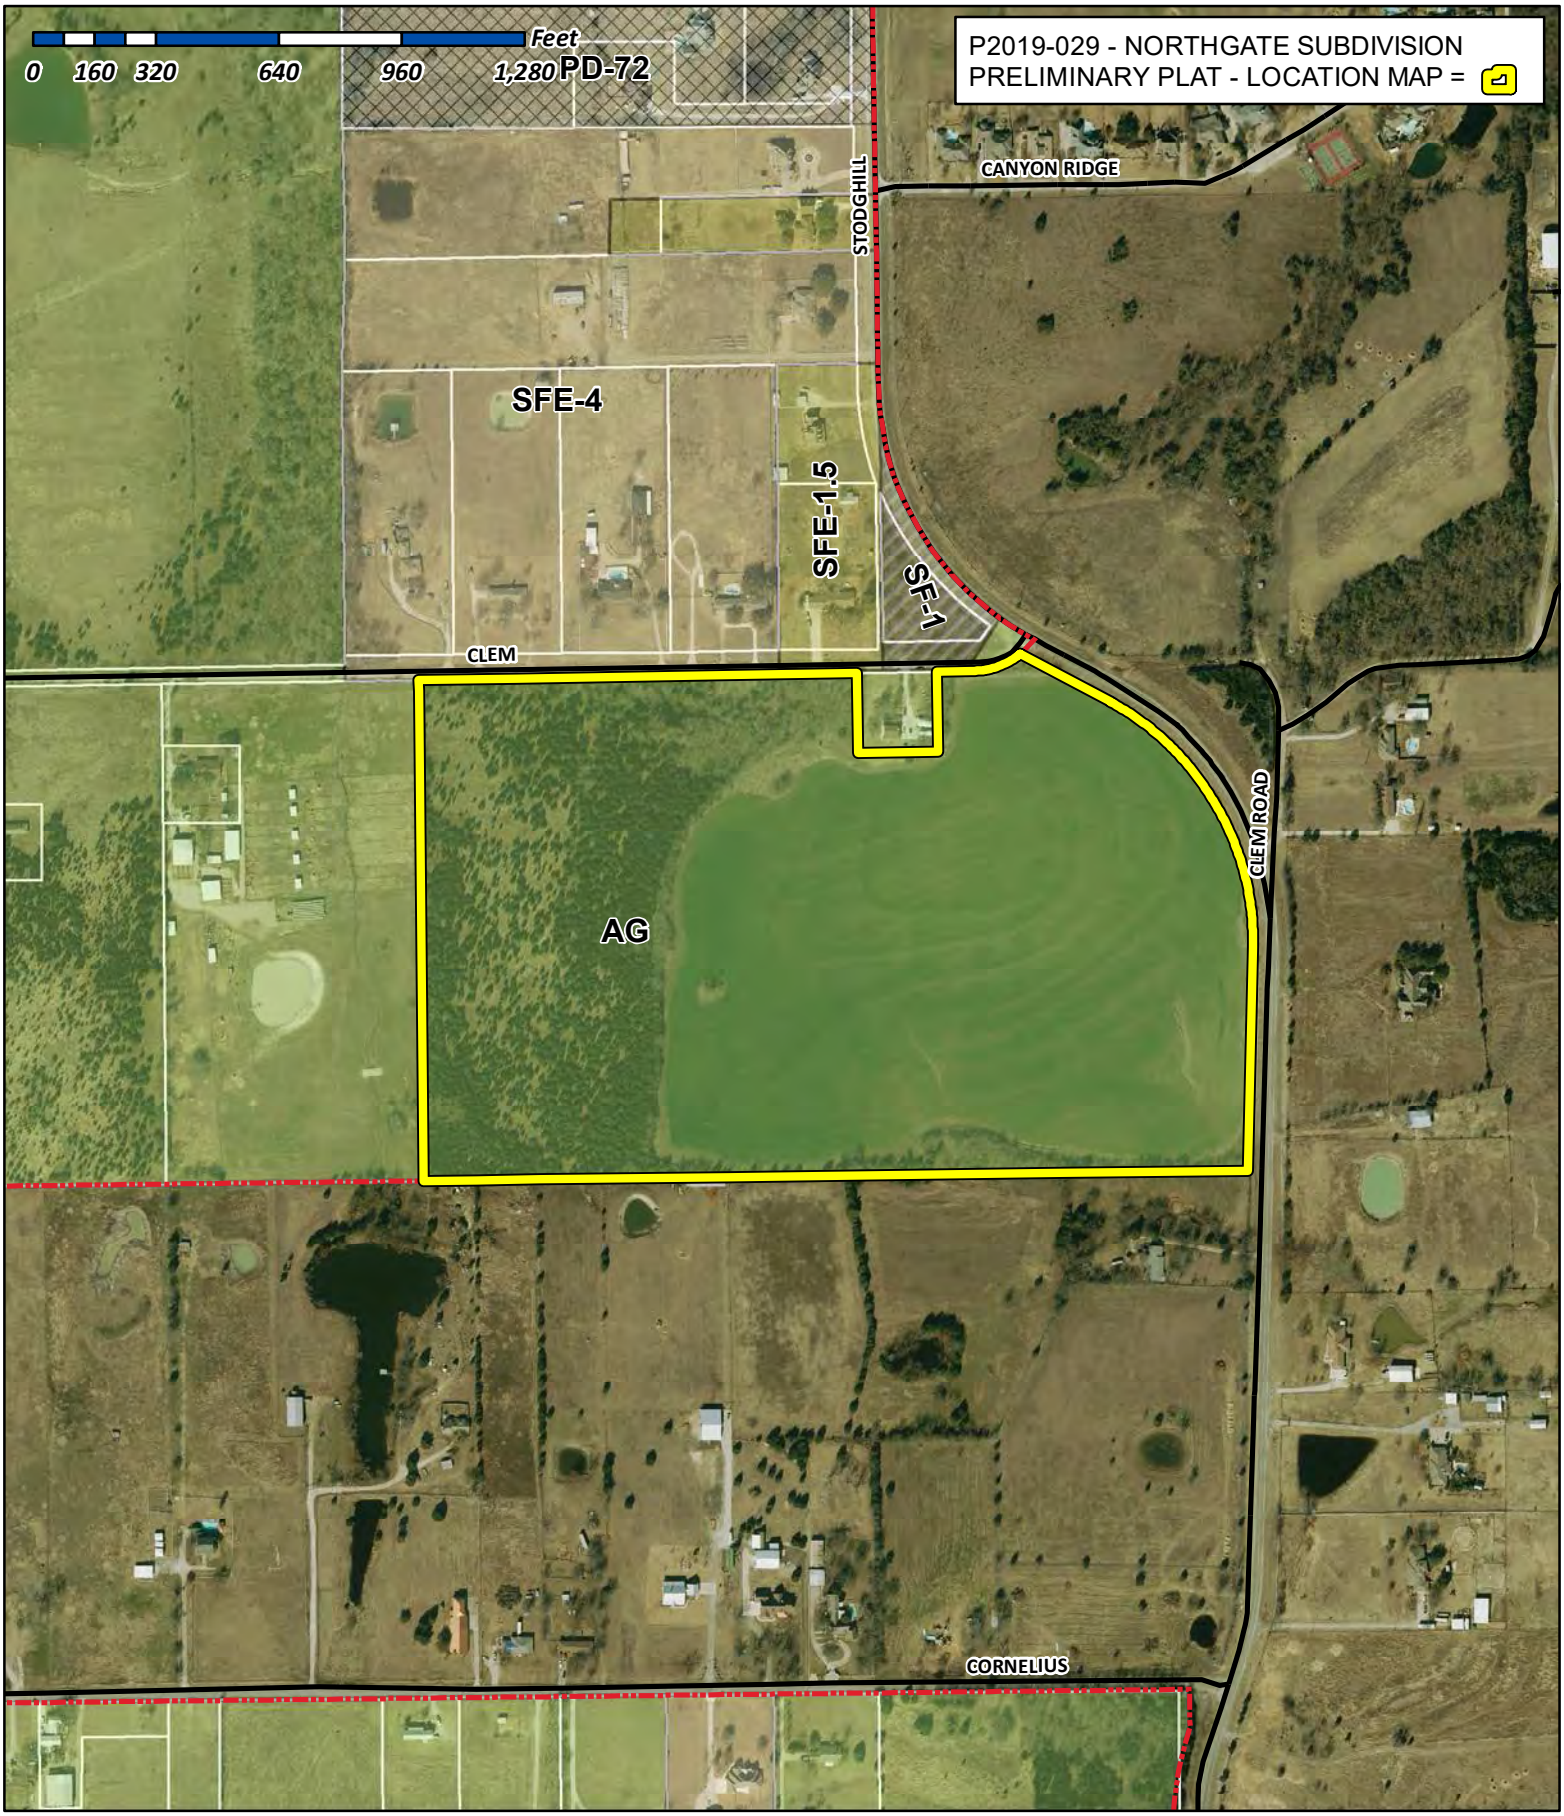
☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL

If the City Council chooses to approve the preliminary plat for *Lots 1-23, Block A, and Lots 1-17, Block B*, staff would propose the following conditions of approval:



(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) The development shall adhere to the recommendations of the Parks and Recreation Board; and

(3) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION

On August 13, 2019, the Planning and Zoning Commission's motion to recommend approval of the preliminary plat with staff's conditions of approval passed by a vote of 7-0.

CITY OF ROCKWALL

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	August 19, 2019
APPLICANT:	Ryan Joyce; Michael Joyce Properties
CASE NUMBER:	P2019-030; *Master Plat for Northgate Subdivision*

SUMMARY

Discuss and consider a request by Ryan Joyce of Michael Joyce Properties on behalf of Jen-Liang Wu of Unison Investment for the approval of a preliminary plat for the Northgate Subdivision containing 40 single-family residential lots on a 61.45-acre tract of land identified as Tract 4 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 88 (PD-88) for Single-Family 1 (SF-1) District land uses, located at the southwest corner of the intersection of Stodghill Road [FM-3549] and Clem Road, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting to master plat the Northgate Subdivision. The Northgate Subdivision is a one (1) phase, master planned community that will consist of 40 single-family residential lots on a 61.45-acre tract of land. The master plat depicts the proposed timing and phasing for the proposed development. A summary of the proposed lot composition is as follows:

Lot Composition:

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	120' x 200'	43,560 SF	17	42%
B	130' x 400'	65,340 SF	23	58%
		Maximum Permitted Units:	*40*	*100.00%*

☑ The subject property was annexed in 2008 [*Ordinance No. 08-66*] and is currently vacant. On July 1, 2019, the City Council approved *Ordinance No. 19-26*, which established the development standards for Planned Development District 88 (PD-88). In conjunction with the master plat, the applicant has submitted a request for approval of a preliminary plat (*Case No. P2019-029*) and a site plan (*Case No. SP2019-028*) for the Northgate Subdivision.

☑ On August 6, 2019, the Parks and Recreation Board reviewed the master plat and made the following recommendations:

(1) The developer shall pay pro-rata equipment fees of $20,920.00 (*i.e. $523.00 x 40 lots*) to be paid at the time of final plat.

(2) The developer shall pay cash in lieu of land fees of $20,280.00 (*i.e. $507.00 x 40 lots*) to be paid at the time of final plat.

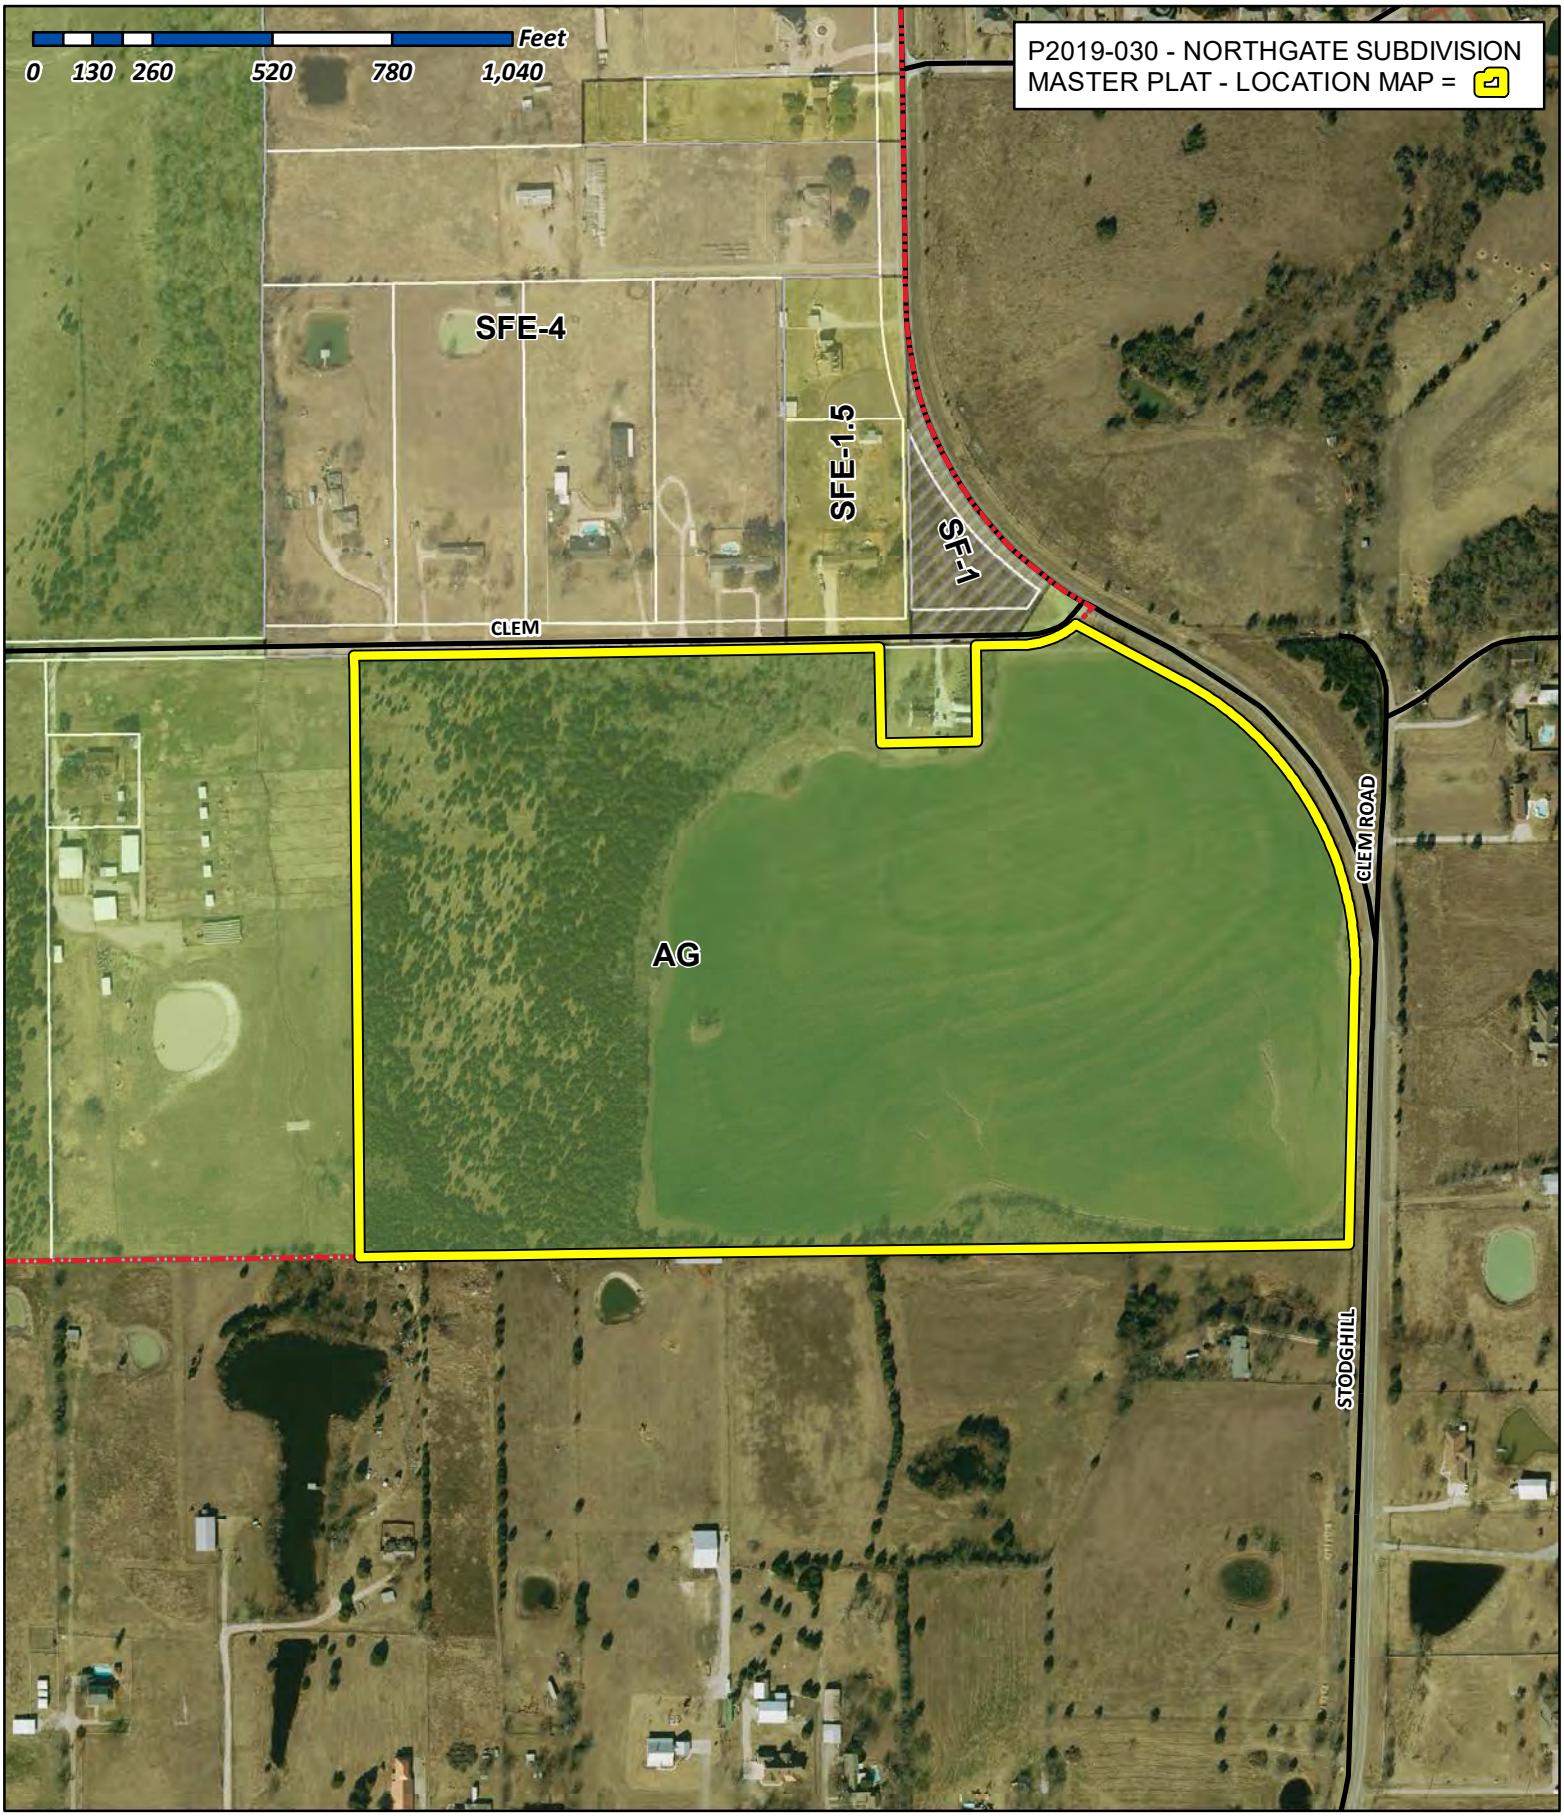
☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL

If the City Council chooses to approve the master plat for *Lots 1-23, Block A and Lots 1-17, Block B*, staff would propose the following conditions of approval:



(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) The development shall adhere to the recommendations of the Parks and Recreation Board; and

(3) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION

On August 13, 2019, the Planning and Zoning Commission's motion to recommend approval of the preliminary plat with staff's conditions of approval passed by a vote of 7-0.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS §
COUNTY OF ROCKWALL §

I (we) the undersigned owner(s) of the land shown on this plat, and designated herein as the **NORTHGATE** subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I (we) further certify that all other parties who have a mortgage or lien interest in the **NORTHGATE** subdivision have been notified and signed this plat. I (we) understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I (we) further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I (we), my (our) successors and assigns hereby waive any claim, damage, or cause of action that I (we) may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL

CITY COUNCIL CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
DATE:	August 19, 2019
APPLICANT:	Greg Wallis; Mershawn Architects
CASE NUMBER:	Z2019-015; *SUP for Expansion of Existing Minor Auto Repair Garage*

SUMMARY

Hold a public hearing to discuss and consider a request by Greg Wallis of Mershawn Architects on behalf of the owner for the approval of a Specific Use Permit (SUP) for the expansion of an existing Minor Auto Repair Garage on a 1.1107-acre parcel of land identified as Lot 4, Block 1, Horizon Village Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 2581 Horizon Road [FM-3097], and take any action necessary.

BACKGROUND

The subject property was annexed in 1986 [*Ordinance No. 86-37*] and is zoned Commercial (C) District. On May 16, 2005, the City Council approved a Specific Use Permit (SUP) [*Ordinance 05-20; Case No. Z2005-012; S-019*] to allow the expansion of an existing minor auto repair garage on the subject property.

PURPOSE

The applicant is requesting the approval of a Specific Use Permit (SUP) for the expansion of an existing minor auto repair garage (*i.e. Kwik Kar*).

ADJACENT LAND USES AND ACCESS

The subject property is located at 2581 Horizon Road [FM-3097]. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is a hardware store (*i.e. Lowes Improvement Store*) followed by Steger Towne Drive, which is identified as a *Minor Collector* on the City's Master Thoroughfare Plan. Beyond this is a commercial shopping center (*i.e. Steger Towne Crossing*) followed by IH-30, which is a TxDOT6D *(Texas Department of Transportation, principle arterial, six [6] lane, divided roadway)* on the City's Master Thoroughfare Plan. These areas are zoned Commercial (C) District.

South: Directly south of the subject property is Horizon Road [FM-3097], which is identified as a *TxDOT4D (Texas Department of Transportation principle arterial, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan. Following this roadway is a financial institution (*i.e. Well Fargo Bank*) and a rehabilitation facility (*i.e. Horizon Ridge Rehabilitation Management*). These areas are zoned Commercial (C) District and Planned Development District 9 (PD-9) for General Retail (GR) District land uses.

East: Directly east of the subject property is a restaurant (*i.e. Sonic*) followed by several commercial businesses (*e.g. National Tire & Battery, Standard Service, Bel Fiore Salon*). Beyond

this is Ralph Hall Parkway, which is identified as a M4D (*major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan. These areas are zoned Commercial (C) District.

West: Directly west of the subject property is a car-wash facility (*i.e. Horizon Car Wash*) followed by Horizon Road [FM-3097], which is identified as a TxDOT4D (*Texas Department of Transportation principle arterial, six [6] lane, divided roadway*) on the City's Master Thoroughfare Plan. Beyond this there are several commercial businesses (*e.g. Bank of America, Pizza Hut, Kroger*). These areas are zoned Commercial (C) District and Planned Development District 9 (PD-9) for General Retail (GR) District land uses.

CHARACTERISTICS OF THE REQUEST

According to Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), a minor auto repair garage is permitted with a Specific Use Permit (SUP) in a Commercial (C) District. Currently, there is an 8,431 SF building on the subject property and the applicant is proposing to construct a second building that will be approximately 1,440 SF and located behind the existing building. According to the applicant, the new structure will match the existing structure with regard to design and materials. Since this is a substantial change from the approved Specific Use Permit (SUP) [*Ordinance No. 05-20*], the applicant is required to amend the Specific Use Permit (SUP).

CONFORMANCE WITH THE CITY'S CODES

According to Subsection 4.05, *Commercial (C) District*, of Section 4, *Commercial Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), the Commercial (C) District is the "…proper zoning classification for most types of commercial development…" and "…excludes land uses that are not compatible with retail shopping…" The Unified Development Code (UDC) goes on to state that the Commercial (C) District is a "…general business zoning and is intended to service most commercial land uses…" In this case, since the minor auto repair garage is a general commercial operation, the applicant's request appears to conform to the district development standards stipulated in the Unified Development Code (UDC).

STAFF ANALYSIS

Currently, there is an existing minor auto repair garage on the subject property. The applicant is proposing to expand the current facility by constructing a second building in order to manage the volume of vehicles being serviced. The proposed facility will be located behind the existing building and will match the existing building with regard to design and materials. Given the proposed layout, design and the adjacent automotive land uses, the applicant's request does not appear to negatively impact the subject property or adjacent properties. Staff should note, approval of a Specific Use Permit (SUP) is a discretionary decision for the City Council, pending a recommendation from the Planning and Zoning Commission. Should this request be approved, the applicant would be required to submit a site plan for approval by the Architectural Review Board (ARB) and the Planning and Zoning Commission.

NOTIFICATIONS

On July 26, 2019, staff notified 32 property owners/residents within 500-feet of the subject property. There are no Homeowner's Associations (HOA's)/Neighborhood Programs located with 1,500-feet of the subject property and participating in the Neighborhood Notification Program. At the time this report was written, staff had not received any notices concerning this request.

CONDITIONS OF APPROVAL

If the City Council chooses to approve the applicant's request, then staff would propose the following conditions of approval:

(1) The minor auto repair garage shall generally conform to the concept plan and building elevations depicted in Exhibits '*B*' and '*C*' of the attached ordinance;

(2) Vehicles, equipment, parts, and/or inventory shall not be stored outside overnight.

(3) All work must be performed within an enclosed building.

(4) The addition shall match the design and materials of the existing buildings.

(5) A ten (10)-foot landscape buffer consisting of ground cover, a built-up berm and/or shrubbery or a combination thereof along the entire length of the frontage.

(6) Any construction resulting from the approval of this zoning change shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION

On August 13, 2019, the Planning and Zoning Commission's motion to recommend approval of the Specific Use Permit (SUP) with staff's conditions of approval passed by a vote of 7-0,

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE (UDC) OF THE CITY OF ROCKWALL, ROCKWALL COUNTY TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A *MINOR AUTO REPAIR GARAGE,* IN A COMMERCIAL (C) DISTRICT, SITUATED ON A 1.1107-ACRE PARCEL OF LAND, IDENTIFIED AS LOT 4, BLOCK 1, HORIZON VILLAGE ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Greg Wallace of Mershawn Architects on behalf of the owner for the approval of a Specific Use Permit (SUP) to allow a *minor auto repair garage* in a Commercial (C) District on a 1.1107-acre parcel of land being described as Lot 4, Block 1, Horizon Village Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 2581 Horizon Road [FM-3097], and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED** by the City Council of the City of Rockwall, Texas;

SECTION 1. That the approval of this ordinance shall supersede all requirements stipulated by *Ordinance No. 05-20*.

SECTION 2. That the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *minor auto repair garage* as stipulated by Section 1, *Land Use Schedule,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*], on the *Subject Property*; and,

SECTION 3. That the Specific Use Permit (SUP) shall be subject to the requirements set forth in Subsection 4.4*, Commercial (C) District,* of Section 4*, Commercial Districts,* of Article V*, District Development Standards,* of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as

DRAFT 08.13.2019

heretofore amended and as may be amended in the future, and shall be subject to the following:

3.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *minor auto repair garage* on the *Subject Property* and conformance to these stipulations is required for continued operations:

1) The *minor auto repair garage* shall generally conform to the concept plan and building elevations depicted in *Exhibits 'B'* and *'C'* of this ordinance;

2) Vehicles, equipment, parts, and/or inventory shall *not* be stored outside overnight.

3) All work must be performed within an enclosed building.

4) The addition shall match the design and materials of the existing buildings as depicted in *Exhibit 'C'* of this ordinance.

5) A ten (10)-foot landscape buffer consisting of ground cover, a built-up berm and/or shrubbery or a combination thereof shall be installed along the entire length of the frontage of the subject property.

3.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 4. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 5. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 6. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 7. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full

DRAFT ORDINANCE 08-20-19

force and effect.

SECTION 8. That this ordinance shall take effect immediately from and after its passage.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF SEPTEMBER, 2019.

CITY OF ROCKWALL

CITY COUNCIL MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Mayor and City Council
CC:	Rick Crowley, *City Manager* Mary Smith, *Assistant City Manager* Joey Boyd, *Assistant City Manager*
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	August 19, 2019
SUBJECT:	Legislative Update for Planning and Zoning Related Bills

During the 86th Legislative Session several planning and zoning related bills were approved by the legislature that have major impacts to the City's zoning codes, and that could affect development and the growth of the community in the future. The two (2) bills that impose the greatest changes and restrictions on the zoning codes are HB2439 and HB3167. HB2439 prohibits a City's ability to -- *directly or indirectly* -- regulate the use of building materials for residential and commercial buildings, and HB3167 establishes a 30-day *shot clock* for action on all site plan and platting submittals. To address the changes imposed by the legislature, City staff held a work session with the City Council on *July 15, 2019* to discuss strategies and changes to the zoning code that would continue to ensure the City of Rockwall demands the highest quality development while also bringing the City codes into compliance by the effective date of the bills (*i.e. September 1, 2019*). At the work session, the City Council directed staff to employ all the presented strategies, and to commence the process of amending the code. A subsequent work session was held on *July 15, 2019* to also discuss moving the City's fence standards from the Municipal Code of Ordinances to the Unified Development Code (UDC), and bring front yard fences under the purview of the Planning and Zoning Commission utilizing the City Council as an appeals board. The City Council also directed staff to incorporate this change into the proposed text amendment.

Staff has completed a review of the City's zoning codes and prepared a text amendment employing the strategies outlined in the work session. Staff also incorporated changes that address HB1545, which deals with changes to the Texas Alcohol Beverage Commission's (TABC's) Alcoholic Beverage Code. Staff has also identified several other minor changes that resulted from the changes made to address the legislator's actions. A summary of these changes are as follows:

Major Changes Relating to HB2439, HB3167 & HB1545

(1) *Building Materials.* Staff removed all references to building material/exterior material percentage requirements from Article IV, *Permissible Uses*, and Article V, *District Development Standards*, of the UDC for commercial and residential buildings. After re-reviewing the language contained in HB2439 and reading a *Legal Q&A* briefing from the Texas Municipal League (TML) staff is confident that the bill excludes the City's *General Industrial Standards*, and that the City can continue to regulate building materials for industrial buildings. Staff also conferred with the City Attorney about this approach, and the City Attorney concurs with staff's assessment of the bill. This means moving forward the City is able to regulate building materials in the City's Overlay Districts, the Downtown (DT) District, Planned Development District 32 (PD-32), and industrial buildings being constructed in a Light Industrial (LI) or Heavy Industrial (HI) District. Based on the work session and the City Council's position, staff will also continue to regulate building materials in existing Planned Development Districts and explore the possibility of incorporating material requirements in new Planned Development Districts when the applicant agrees with incorporating these standards into the zoning ordinance.

(2) <u>*Established Subdivisions.*</u> A new land use -- *Residential Infill in or Adjacent to an Established Subdivision* -- was created in Article IV, *Permissible Uses*, of the UDC to require all residential infill development be required to apply for a Specific Use Permit (SUP). This will only affect subdivisions that [*1*] consist of five (5) or more lots, [*2*] are 90% developed, and [*3*] that have been in existence for a period greater than ten (10) years. The strategy behind this change in the code is to protect subdivisions that are [*1*] not protected under a Planned Development District or [*2*] that are not covered by deed restrictions (*typically the City's older subdivisions*) from potential infill development that is not aesthetically similar to existing development within the subdivision. Staff should note that the City Attorney has ruled that Specific Use Permits (SUP's) are exempt from the material requirement exemptions of HB2439. For the City Council's reference staff has included a map showing all residential subdivisions in the City that have: [*1*] deed restrictions with material requirements, [*2*] deed restrictions with no material requirements, and [*3*] subdivisions that staff was unable to find deed restrictions or that have no deed restrictions. Staff should point out that these neighborhoods would not be covered by any building material requirements in cases where an addition is being proposed for an existing structure or where the exterior of an existing structure is being re-cladded in a new exterior material. Staff anticipates that this strategy will add an estimated 15-25 additional Specific Use Permit (SUP) cases each year based on previous permitting numbers (*i.e. in 2018 the City issued 23 infill permits and in 2019 the City issued 14 infill permits to date that meet the new requirements*).

(3) <u>*Residential Accessory Buildings.*</u> In 2018, the UDC was amended to no longer require Specific Use Permits (SUPs) for accessory buildings/structures. In replacement of this requirement the Planning and Zoning Commission was charged with approving material exceptions for accessory buildings/structures, and the Board of Adjustments (BOA) was charged with approving variances to the density and dimensional requirements (*i.e. size and height*) for accessory buildings/structures. Based on the changes of HB2439, staff changed the zoning code back to requiring SUPs for these types of structures. In addition, staff reduced the size requirements for all accessory buildings/structures that can be permitted without a SUP. Staff should reiterate that this strategy is not tied to building materials, but is tied to ensuring that [*1*] any development within an existing subdivision is aesthetically similar to existing development within the subdivision, and [*2*] to ensure that a public hearing process is retained in approving structures that due not conform to the permitted standards. Staff anticipates based on previous case volumes (*i.e. the code previously required SUP's for accessory buildings prior to changes in 2018*) that this will add an additional five (5) to ten (10) SUP cases per year. This was based on the number of SUP's that were processed in 2016 (*ten [10] cases*) and 2017 (*four [4] cases*) for accessory buildings

(4) <u>*Development Review Procedures.*</u> Staff moved all references relating to the City's development processes to Article XI, *Development Applications and Review Process*, of the UDC (*formerly Zoning Related Applications*). In addressing the requirements of HB3167 staff reviewed all of the City's development processes for compliance to the approved legislative bill. Upon review staff noticed that the zoning code had multiple sections duplicated through out the document (*with some inconsistencies from section to section*), and that the majority of the processes were divided between Article II, *Authority and Administrative Procedures*, and Article XI, *Zoning Related Applications*, of the UDC. In addition, Article XI, *Zoning Related Applications*, -- *despite the name of the article* -- did not contain information relating to zoning cases. Based on this staff consolidated the City's processes relating to development applications in Article XI, *Zoning Related Applications*, removed duplicated sections, and renamed the Article XI, *Development Applications and Review Process*. Article II, *Authority and Administrative Procedures*, was also renamed to Article II, *Development Review Authority*, and only contains information relating to the authority of boards, commissions, the City Council, and administrative staff.

(5) <u>*Residential Standards.*</u> Staff increased the *General Residential District Standards* contained in Article V, *District Development Standards*, of the UDC not pertaining to building material requirements. Specifically, staff increased the *Anti-Monotony* standards contained in this section

to match the *Anti-Monotony* standards being required within the City's Planned Development Districts. This will ensure -- *at a minimum* -- that the front facades of homes in a new subdivision will be required to vary with more regularity. The idea behind this strategy is to vary exterior materials, articulation, garage locations, and the number of stories to create more variation, which will bring the final product closer to the City's expectations for residential development.

(6) *Commercial Standards.* Staff increased the *General Commercial District Standards* contained in Article V, *District Development Standards*, of the UDC to include roof design standards similar to the roof design standards required for development in the City's overlay districts. This strategy requires that all buildings be required to have either a pitched roof with a minimum 6:12 roof pitch, or a parapet or mansard roof design. Requiring this roof pitch coupled with the City's existing articulation requirements should make it difficult to established pre-manufactured metal buildings in the City's commercial zoning districts.

(7) *Screening Standards.* Staff increased the screening standards contained in Article V, *District Development Standards*, and Article VIII, *Landscape and Fence Standards*, of the UDC to better define the types of screening necessary to screen loading docks, outside storage areas, trash/recycling container enclosures, utility equipment, aboveground storage tanks and residential adjacency. The purpose behind increasing these standards is to [*1*] ensure commercial uses that are established adjacent to residential subdivisions and/or properties are better screened, and [*2*] to provide a discretionary process for alternative screening plans that can be reviewed by the Planning and Zoning Commission in conjunction with all proposed site improvements. This strategy is also tied to the changes made to the variance and exception process detailed in *Section 9* below.

(8) *Landscaping Requirements.* Staff increased the landscaping requirements -- *including the amount of landscaping required for each district* -- contained in Article VIII, *Landscape and Fence Standards*, of the UDC as part of a strategy to make better use of the new language created for exceptions and variances detailed in *Section 9* below.

(9) *Variances and Exceptions.* Staff created a new *Exceptions and Variances* section that calls for [*1*] applicants to provide written justification for all variances and exceptions, and [*2*] provide a minimum of two (2) compensatory measures (*e.g. increased landscaping, building materials equal to the current code requirements, underground utilities, etc.*) in order to request a variance and/or exception. This incentivizes voluntary conformance to the City's material requirements or provides other compensatory measures that can be employed to off-set a request for a variance and/or exception. Staff should note that the City Attorney has reviewed the language in this section and has stated that since this strategy is tied to voluntary actions made by the applicant that it does not conflict with the requirements of HB2439. In addition, staff increased the voting requirements for all variances and exceptions to match the voting requirements for variances in overlay districts (*i.e. ¾-majority vote for approval, with a minimum of four [4] votes in the affirmative*). Staff also added a $100.00 fee for variance and exception requests that are not tied to site plans. The purpose of the fee is to cover administrative review costs associated with processing these cases. Currently, no fee exists for these types of cases.

(10) *Alcohol Related Land Uses.* Based on HB1545 -- *which made numerous changes to the Texas Alcohol Beverage Code and that allows breweries to have package sales for off-premise consumption* -- staff has changed the requirements for the *Craft/Micro Brewery, Distillery and/or Winery* land use to be in compliance with this legislation by removing the section that states "..retail package sales of on-site manufactured product for off-premise consumption shall be permitted for wineries, but prohibited for breweries, as permitted by Sections 12, 14, and 16 of the Texas Alcohol Beverage Commission's (TABC's) Alcoholic Beverage Code…" and replacing it with "… retail package sales of on-site manufactured product for off-premise consumption shall be allowed as permitted by the Texas Alcohol Beverage Commission's (TABC) Alcoholic Beverage Code."

(11) *Planned Development Districts.* Staff made changes to Article X, *Planned Development District Regulations*, of the UDC removing the material requirements for residential Planned Development Districts, and tying commercial Planned Development District regulations to the *General Overlay District Standards* contained in Article V, *District Development Standards*, of the UDC. This change was to address the changes of HB2439. In addition, staff amended the size requirements for Planned Development Districts to allow more properties requesting zoning changes to be permitted to request Planned Development District zoning. This was done to allow greater discretion for the Planning and Zoning Commission and City Council when examining zoning cases and establishing the requirements that can be incorporated into a zoning ordinance.

Minor Changes Identified by Staff through the Amendment Process.

(1) *Fence Standards.* The fence standards contained in Article XI, *Fences*, of Chapter 10, *Building and Building Regulations*, of the Municipal Code of Ordinances were rewritten and moved to Article VIII, *Landscape Standards*, of the UDC. This necessitated a change to the title of the article from *Landscape Standards* to *Landscape and Fence Standards*. This change puts front yard fence exceptions under the purview of the Planning and Zoning Commission and makes the City Council a review board for the Planning and Zoning Commission's decisions. This is similar to the changes made to address the variance and exception process in 2018. In addition, staff removed all other references to fences from other articles and consolidated them into Article VIII, *Landscape Standards*, of the UDC.

(2) *Site Plan Content.* The UDC currently contains a list of submittal requirements for site plan applications in Article XI, *Zoning Related Applications*. This list needs to be adjusted from time to time to ensure that it is up to date. To avoid unnecessary text amendments in the future, this list of requirements was removed from the article and new wording for this section was added allowing the Director of Planning and Zoning to maintain and provide the list of requirements in the development application. This will allow staff to make changes to the list of technical requirements for submittals without needing to go through an amending process.

(3) *Landscape Planting Materials.* The list of acceptable landscaping materials is currently duplicated in Article VIII, *Landscape Standards*, and Appendix F, *Landscape Guidelines and Requirements*, of the UDC. To avoid having duplicated sections in the UDC staff removed the list of acceptable planting materials from Article VIII, *Landscape Standards*, and placed a reference referring the reader to Appendix F, *Landscape Guidelines and Requirements*. In addition, the minimum size of landscape shrubs was increased from two (2) gallons to five (5) gallons in the *General Overlay Districts Standards* of Article V, *District Development Standards*, of the UDC and the minimum tree size was increased from three (3) inches to four (4) inches in Article VIII, *Landscape and Fence Standards*, of the UDC. These additions were made to make the City's standards uniform across all zoning districts/overlay districts.

(4) *Small Matching Grants/Building Permit Fee Waiver Programs.* The requirements for the small matching grants and building permit fee waiver programs were adopted via resolution; however, these requirements were never codified into the zoning code. As a result, staff codified these processes into Article XI, *Development Applications and Review Procedures*, of the UDC.

(5) *Fee Schedule.* The current Article II, *Authority and Administrative Procedures*, of the UDC has references to a fee schedule; however, no fee schedule currently exists in the UDC. To address this staff has created a fee schedule based on the City's current development application/Historic Preservation Advisory Board application fees and codified it into Article XI, *Development Applications and Review Procedures*, of the UDC.

(6) *Definitions*. All definitions were removed from the current Article IV, *Permissible Uses*, and Article VIII, *Landscape Standards*, of the UDC and placed into Article XIII, *Definitions*, of the UDC. In

addition, staff has defined all land uses contained in the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the UDC and placed them into a new section contained in Article XIII, *Definitions*, of the UDC.

(7) *Exhibits.* As part of the amendment, staff has updated or included new technical drawings that better convey the standards contained in the UDC.

(8) *Permissible Use Charts.* The *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the UDC were reformatted to make them easier to read, and references were added to the land use definitions and conditional use standards. These are intended to be links to help staff, citizens and developers understand what each use is and the requirements associated with establishing the use. In addition, the overlay district land use requirements were added to the *Permissible Use Charts* to make it easier for staff, citizens and developers to know what would be required on a particular property located within an overlay district. Staff also reviewed the *Permissible Use Charts* and deleted duplicated land uses and made minor corrections to where land uses were permitted based on the text contained in the article.

Staff should point out that due to the expediency in which these amendments were prepared, staff is requesting that the City Council allow staff to bring back a subsequent amendment addressing any additional changes or further clarifications needed to achieve compliance with the legislative mandates; however, staff is confident that the proposed amendment will bring the City's UDC into conformance/compliance with all legislative actions resulting from the 86th Legislative Session. In addition, the changes that were made to the UDC that were not tied to legislative actions are intended to clarify the zoning code and make it easier for staff, citizens and developers to understand and interpret the code. With this being said the approval of any text amendment to the UDC is a discretionary decision for the City Council, and any changes to the amendment requested by the City Council can be drafted between the first and second reading of the proposed draft ordinance.

On August 13, 2019, staff took the proposed amendment to the Planning and Zoning Commission for a recommendation to the City Council. Based on the submitted materials the Planning and Zoning Commission approved a motion to recommend approval of the amendment as written by a vote of 7-0. Staff has also sent out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC. This notice was published on *July 26, 2019*. Should the City Council have any questions concerning the legislative bills or the proposed text amendment, staff and the City Attorney will be present at the meeting on *August 19, 2019*.

AN ACT

relating to consent annexation requirements.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

ARTICLE 1. REPEAL OF TIER SYSTEM

SECTION 1.01. The following provisions of Chapter 43, Local Government Code, are repealed:

(1) Sections 43.001(2), (3), (4), and (5);
(2) Section 43.011;
(3) Subchapter B;
(4) Section 43.0505(b);
(5) Section 43.052;
(6) Section 43.053;
(7) Section 43.056(q);
(8) Section 43.0561;
(9) Section 43.0562;
(10) Section 43.0563;
(11) Section 43.0564;
(12) Section 43.061(b);
(13) Section 43.066;
(14) Section 43.067;
(15) Section 43.068;
(16) Section 43.069;
(17) Section 43.0751(o);
(18) Section 43.0752;
(19) Section 43.103;
(20) Section 43.105; and
(21) Subchapter Y.

SECTION 1.02. The heading to Subchapter C-2, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C-2. GENERAL ANNEXATION AUTHORITY AND PROCEDURES REGARDING CONSENT ANNEXATIONS[~~: TIER 2 MUNICIPALITIES~~]

SECTION 1.03. The heading to Subchapter C-3, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C-3. ANNEXATION OF AREA ON REQUEST OF OWNERS[~~: TIER 2 MUNICIPALITIES~~]

SECTION 1.04. The heading to Subchapter C-4, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C-4. ANNEXATION OF AREAS WITH POPULATION OF LESS THAN 200 BY PETITION [~~: TIER 2 MUNICIPALITIES~~]

SECTION 1.05. The heading to Subchapter C-5, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C-5. ANNEXATION OF AREAS WITH POPULATION OF AT LEAST 200 BY ELECTION [~~: TIER 2 MUNICIPALITIES~~]

SECTION 1.06. Section 43.1025(c), Local Government Code, is amended to read as follows:

(c) The area described by Subsection (b) may be annexed under the requirements prescribed by Subchapter C-3, C-4, or C-5, as applicable [~~to a tier 2 municipality~~], but the annexation may not occur unless each municipality in whose extraterritorial jurisdiction the area may be located:

(1) consents to the annexation; and
(2) reduces its extraterritorial jurisdiction over the area as provided by Section 42.023.

SECTION 1.07. Section 43.1211, Local Government Code, is amended to read as follows:

Sec. 43.1211. USE OF CONSENT PROCEDURES [~~AUTHORITY OF CERTAIN TIER 2 MUNICIPALITIES~~] TO ANNEX FOR LIMITED PURPOSES. Except as provided by Section 43.0751, beginning December 1, 2017, a [~~tier 2~~] municipality described by Section 43.121(a) may annex an area for the limited purposes of applying its planning, zoning, health, and safety ordinances in the area using the procedures

79

under Subchapter C-3, C-4, or C-5, as applicable.

ARTICLE 2. CONFORMING CHANGES

SECTION 2.01. The following provisions of the Special District Local Laws Code are repealed:

(1) Section 8374.252(a);
(2) Section 8375.252(a);
(3) Section 8376.252(a);
(4) Section 8377.252(a);
(5) Section 8378.252(a);
(6) Section 8382.252(a);
(7) Section 8383.252(a);
(8) Section 8384.252(a);
(9) Section 8385.252(a); and
(10) Section 8477.302(a).

SECTION 2.02. Section 43.0116(a), Local Government Code, is amended to read as follows:

(a) Notwithstanding any other law and subject to Subsection (b), a municipality may annex all or part of the area located in an industrial district designated by the governing body of the municipality under Section 42.044 under the procedures prescribed by Subchapter C-1 [~~the requirements applicable to a tier 1 municipality~~].

SECTION 2.03. The heading to Subchapter C, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C. LIMITATIONS AND REQUIREMENTS REGARDING ANNEXATIONS EXEMPTED FROM CONSENT ANNEXATION PROCEDURES [~~PROCEDURE FOR AREAS ANNEXED UNDER MUNICIPAL ANNEXATION PLAN; TIER 1 MUNICIPALITIES~~]

SECTION 2.04. Section 43.0505(a), Local Government Code, is amended to read as follows:

(a) This [~~Except as provided by Subsection (b), this~~] subchapter applies only to an annexation under Subchapter C-1 [~~a tier 1 municipality~~].

SECTION 2.05. Sections 43.056(a), (b), (j), and (k), Local Government Code, are amended to read as follows:

(a) This section applies to a service plan under Section 43.065 [~~Before the first day of the 10th month after the month in which the inventory is prepared as provided by Section 43.053, the municipality proposing the annexation shall complete a service plan that provides for the extension of full municipal services to the area to be annexed. The municipality shall provide the services by any of the methods by which it extends the services to any other area of the municipality~~].

(b) The service plan, which must be completed [~~in the period provided by Subsection (a)~~] before the annexation, must include a program under which the municipality will provide full municipal services in the annexed area no later than 2-1/2 years after the effective date of the annexation, in accordance with Subsection (e), unless certain services cannot reasonably be provided within that period and the municipality proposes a schedule for providing those services, and must include a list of all services required by this section to be provided under the plan. If the municipality proposes a schedule to extend the period for providing certain services, the schedule must provide for the provision of full municipal services no later than 4-1/2 years after the effective date of the annexation. However, under the program if the municipality provides any of the following services within the corporate boundaries of the municipality before annexation, the municipality must provide those services in the area proposed for annexation on the effective date of the annexation of the area:

(1) police protection;
(2) fire protection;
(3) emergency medical services;
(4) solid waste collection, except as provided by Subsection (o);
(5) operation and maintenance of water and wastewater facilities in the annexed area that are not within the service area of another water or wastewater utility;

80

(6) operation and maintenance of roads and streets, including road and street lighting;

(7) operation and maintenance of parks, playgrounds, and swimming pools; and

(8) operation and maintenance of any other publicly owned facility, building, or service.

(j) The proposed service plan must be made available for public inspection and explained to the inhabitants of the area at the public hearings held under Section 43.063 [~~43.0561~~]. The plan may be amended through negotiation at the hearings, but the provision of any service may not be deleted. On completion of the public hearings, the service plan shall be attached to the ordinance annexing the area and approved as part of the ordinance.

(k) On approval by the governing body, the service plan is a contractual obligation that is not subject to amendment or repeal except that if the governing body determines at the public hearings required by this subsection that changed conditions or subsequent occurrences make the service plan unworkable or obsolete, the governing body may amend the service plan to conform to the changed conditions or subsequent occurrences. An amended service plan must provide for services that are comparable to or better than those established in the service plan before amendment. Before any amendment is adopted, the governing body must provide an opportunity for interested persons to be heard at public hearings called and held in the manner provided by Section 43.063 [~~43.0561~~].

SECTION 2.06. The heading to Subchapter C-1, Chapter 43, Local Government Code, is amended to read as follows:

SUBCHAPTER C-1. ANNEXATION PROCEDURE FOR AREAS EXEMPTED FROM CONSENT [~~MUNICIPAL~~] ANNEXATION PROCEDURES [~~PLAN: TIER 1 MUNICIPALITIES~~]

SECTION 2.07. Section 43.061(a), Local Government Code, is amended to read as follows:

(a) Unless otherwise specifically provided by this chapter or another law [~~Except as provided by Subsection (b)~~], this subchapter applies only to an annexation under:

(1) Section 43.0115 (Enclave);

(2) Section 43.0116 (Industrial District);

(3) Section 43.012 (Area Owned by Type-A Municipality);

(4) Section 43.013 (Navigable Stream);

(5) Section 43.0751(h) (Strategic Partnership);

(6) Section 43.101 (Municipally Owned Reservoir);

(7) Section 43.102 (Municipally Owned Airport); and

(8) Section 43.1055 (Road and Right-of-Way) [~~area that is proposed for annexation by a tier 1 municipality and that is not required to be included in a municipal annexation plan under Section 43.052(h)~~].

SECTION 2.08. Section 43.062(b), Local Government Code, is amended to read as follows:

(b) This subsection applies only to an area that contains fewer than 100 separate tracts of land on which one or more residential dwellings are located on each tract [~~described by Section 43.052(h)(1)~~]. Before the 30th day before the date of the first hearing required under Section 43.063, a municipality shall give written notice of its intent to annex the area to:

(1) each property owner in an area proposed for annexation, as indicated by the appraisal records furnished by the appraisal district for each county in which the area is located;

(2) each public entity[~~, as defined by Section 43.053,~~] or private entity that provides services in the area proposed for annexation, including each:

(A) municipality, county, fire protection service provider, including a volunteer fire department, and emergency medical services provider, including a volunteer emergency medical services provider; and

(B) municipal utility district, water control and improvement district, or other district created under Section

52, Article III, or Section 59, Article XVI, Texas Constitution; and

(3) each railroad company that serves the municipality and is on the municipality's tax roll if the company's right-of-way is in the area proposed for annexation.

SECTION 2.09. Section 43.0715(c), Local Government Code, is amended to read as follows:

(c) At the time notice of the municipality's intent to annex the land within the district is first given in accordance with Section [~~43.052,~~] 43.0683[~~,~~] or 43.0693, as applicable, the municipality shall proceed to initiate and complete a report for each developer conducted in accordance with the format approved by the Texas Commission on Environmental Quality for audits. In the event the municipality is unable to complete the report prior to the effective date of the annexation as a result of the developer's failure to provide information to the municipality which cannot be obtained from other sources, the municipality shall obtain from the district the estimated costs of each project previously undertaken by a developer which are eligible for reimbursement. The amount of such costs, as estimated by the district, shall be escrowed by the municipality for the benefit of the persons entitled to receive payment in an insured interest-bearing account with a financial institution authorized to do business in the state. To compensate the developer for the municipality's use of the infrastructure facilities pending the determination of the reimbursement amount, all interest accrued on the escrowed funds shall be paid to the developer whether or not the annexation is valid. Upon placement of the funds in the escrow account, the annexation may become effective. In the event a municipality timely escrows all estimated reimbursable amounts as required by this subsection and all such amounts, determined to be owed, including interest, are subsequently disbursed to the developer within five days of final determination in immediately available funds as required by this section, no penalties or interest shall accrue during the pendency of the escrow. Either the municipality or developer may, by written notice to the other party, require disputes regarding the amount owed under this section to be subject to nonbinding arbitration in accordance with the rules of the American Arbitration Association.

SECTION 2.10. Sections 43.0751(b) and (h), Local Government Code, are amended to read as follows:

(b) The governing bodies of a municipality and a district may negotiate and enter into a written strategic partnership agreement for the district by mutual consent. [~~The governing body of a municipality, on written request from a district included in the municipality's annexation plan under Section 43.052, shall negotiate and enter into a written strategic partnership agreement with the district. A district included in a municipality's annexation plan under Section 43.052:~~

[~~(1) - - may not submit its written request before the date of the second hearing required under Section 43.0561; and~~

[~~(2) - - must submit its written request before the 61st day after the date of the second hearing required under Section 43.0561.~~]

(h) On the full-purpose annexation conversion date set forth in the strategic partnership agreement pursuant to Subsection (f)(5), the land included within the boundaries of the district shall be deemed to be within the full-purpose boundary limits of the municipality without the need for further action by the governing body of the municipality. The full-purpose annexation conversion date established by a strategic partnership agreement may be altered only by mutual agreement of the district and the municipality. However, nothing herein shall prevent the municipality from terminating the agreement and instituting proceedings to annex the district, on request by the governing body of the district, on any date prior to the full-purpose annexation conversion date established by the strategic partnership agreement

under the procedures prescribed by Subchapter C-1 [~~applicable to a tier 1 municipality~~]. Land annexed for limited or full purposes under this section shall not be included in calculations prescribed by Section 43.055(a).

SECTION 2.11. Section 43.07515(a), Local Government Code, is amended to read as follows:

(a) A municipality may not regulate under Section 43.0751 [~~or 43.0752~~] the sale, use, storage, or transportation of fireworks outside of the municipality's boundaries.

SECTION 2.12. Section 43.101(c), Local Government Code, is amended to read as follows:

(c) A municipality may annex the [~~The~~] area described by this section [~~may be annexed~~] without the consent of any owners or residents of the area under the procedures prescribed by Subchapter C-1 [~~applicable to a tier 1 municipality by:~~

[~~(1) a tier 1 municipality; and~~

[~~(2)~~] if there are no owners other than the municipality or residents of the area[~~, a tier 2 municipality~~].

SECTION 2.13. Section 43.102(c), Local Government Code, is amended to read as follows:

(c) A municipality may annex the [~~The~~] area described by this section [~~may be annexed~~] without the consent of any owners or residents of the area under the procedures prescribed by Subchapter C-1 [~~applicable to a tier 1 municipality by:~~

[~~(1) a tier 1 municipality; and~~

[~~(2)~~] if there are no owners other than the municipality or residents of the area[~~, a tier 2 municipality~~].

SECTION 2.14. Section 43.1055, Local Government Code, is amended to read as follows:

Sec. 43.1055. ANNEXATION OF ROADS AND RIGHTS-OF-WAY [~~IN CERTAIN LARGE COUNTIES~~]. Notwithstanding any other law, a [~~tier 2~~] municipality may by ordinance annex a road or the right-of-way of a road on request of the owner of the road or right-of-way or the governing body of the political subdivision that maintains the road or right-of-way under the procedures prescribed by Subchapter C-1 [~~applicable to a tier 1 municipality~~].

SECTION 2.15. Section 43.141(a), Local Government Code, is amended to read as follows:

(a) A majority of the qualified voters of an annexed area may petition the governing body of the municipality to disannex the area if the municipality fails or refuses to provide services or to cause services to be provided to the area:

(1) if the area was annexed under Subchapter C-1 [~~municipality is a tier 1 municipality~~], within the period specified by Section 43.056 or by the service plan prepared for the area under that section; or

(2) if the area was annexed under Subchapter C-3, C-4, or C-5 [~~municipality is a tier 2 municipality~~], within the period specified by the written agreement under Section 43.0672 or the resolution under Section 43.0682 or 43.0692, as applicable.

SECTION 2.16. Section 43.203(b), Local Government Code, is amended to read as follows:

(b) On receipt of the district's petition, the governing body of the municipality shall enter into negotiations with the district for an agreement to alter the status of annexation that must:

(1) specify the period, which may not be less than 10 years beginning on January 1 of the year following the date of the agreement, in which limited-purpose annexation is in effect;

(2) provide that, at the expiration of the period, the district's annexation status will automatically revert to full-purpose annexation without following procedures provided by Section [~~Sections~~] 43.014 [~~and 43.052 through 43.055~~] or any [~~other~~] procedural requirement for annexation not in effect on January 1, 1995; and

(3) specify the financial obligations of the district during and after the period of limited-purpose annexation for:

83

(A) facilities constructed by the municipality that are in or that serve the district;

(B) debt incurred by the district for water and sewer infrastructure that will be assumed by the municipality at the end of the period of limited-purpose annexation; and

(C) use of the municipal sales taxes collected by the municipality for facilities or services in the district.

SECTION 2.17. Section 43.905(a), Local Government Code, is amended to read as follows:

(a) A municipality that proposes to annex an area shall provide written notice of the proposed annexation to each public school district located in the area proposed for annexation within the period prescribed for providing the notice of, as applicable:

(1) the hearing under Section 43.0673; or

(2) the first hearing under Section [~~43.0561,~~] 43.063, [~~43.0673,~~] 43.0683, or 43.0693[~~, as applicable~~].

SECTION 2.18. Sections 43.9051(a) and (b), Local Government Code, are amended to read as follows:

(a) In this section, "public entity" includes a county, fire protection service provider, including a volunteer fire department, emergency medical services provider, including a volunteer emergency medical services provider, or special district described[~~, as that term is defined~~] by Section 43.062(b)(2)(B) [~~43.052~~].

(b) A municipality that proposes to annex an area shall provide to each public entity that is located in or provides services to the area proposed for annexation written notice of the proposed annexation within the period prescribed for providing the notice of, as applicable:

(1) the hearing under Section 43.0673; or

(2) the first hearing under Section [~~43.0561,~~] 43.063, [~~43.0673,~~] 43.0683, or 43.0693[~~, as applicable, to each public entity that is located in or provides services to the area proposed for annexation~~].

ARTICLE 3. HEARING REQUIREMENTS FOR CERTAIN CONSENT ANNEXATIONS

SECTION 3.01. Section 43.0673, Local Government Code, is amended to read as follows:

Sec. 43.0673. PUBLIC HEARING [~~HEARINGS~~]. (a) Before a municipality may adopt an ordinance annexing an area under this subchapter [~~section~~], the governing body of the municipality must conduct one [~~at least two~~] public hearing [~~hearings~~].

[~~(b) The hearings must be conducted not less than 10 business days apart.~~]

(c) During the [~~first~~] public hearing, the governing body:

(1) must provide persons interested in the annexation the opportunity to be heard; and

(2) [~~. During the final public hearing, the governing body~~] may adopt an ordinance annexing the area.

(d) The municipality must post notice of the hearing [~~hearings~~] on the municipality's Internet website if the municipality has an Internet website and publish notice of the hearing [~~hearings~~] in a newspaper of general circulation in the municipality and in the area proposed for annexation. The notice for the [~~each~~] hearing must be:

(1) published at least once on or after the 20th day but before the 10th day before the date of the hearing; and

(2) [~~. The notice for each hearing must be~~] posted on the municipality's Internet website on or after the 20th day but before the 10th day before the date of the hearing and must remain posted until the date of the hearing.

ARTICLE 4. TRANSITION AND EFFECTIVE DATE

SECTION 4.01. (a) Except as provided by Subsections (b) and (c) of this section, the changes in law made by this Act apply only to an annexation of an area that is not final on the effective date of this Act. An annexation of an area that was final before the effective date of this Act is governed by those portions of Chapter 43, Local Government Code, that relate to post-annexation

procedures and requirements in effect immediately before the effective date of this Act, and that law is continued in effect for that purpose.

(b) The changes in law made by this Act do not apply to the annexation of an area for which the governing body of a municipality has adopted a resolution to direct the municipality's city manager to prepare a service plan for the area on or before the effective date of this Act. An annexation of an area for which the governing body adopted a resolution to direct the municipality's city manager to prepare a service plan for the area before the effective date of this Act is governed by Chapter 43, Local Government Code, as it existed on January 1, 2019.

(c) Until the fourth anniversary of the date that final judgment in an action described by this subsection is rendered, the changes in law made by this Act do not apply to an annexation of an area described by this subsection, and an annexation of an area described by this subsection is governed by Chapter 43, Local Government Code, as it existed on January 1, 2019. This subsection applies only to an area that is:

(1) wholly located in a county that:

(A) borders the Gulf of Mexico; and

(B) contains an international border; and

(2) proposed to be annexed by a municipality that is a named party in an action:

(A) involving issues of fact or law relating to the annexation; and

(B) commenced before January 1, 2019.

SECTION 4.02. This Act takes effect immediately if it receives a vote of two-thirds of all the members elected to each house, as provided by Section 39, Article III, Texas Constitution. If this Act does not receive the vote necessary for immediate effect, this Act takes effect September 1, 2019.

_____ _____

President of the Senate Speaker of the House

I certify that H.B. No. 347 was passed by the House on April 9, 2019, by the following vote: Yeas 133, Nays 14, 1 present, not voting; and that the House concurred in Senate amendments to H.B. No. 347 on May 13, 2019, by the following vote: Yeas 131, Nays 9, 1 present, not voting.

_____

Chief Clerk of the House

I certify that H.B. No. 347 was passed by the Senate, with amendments, on May 8, 2019, by the following vote: Yeas 25, Nays 6.

A BILL TO BE ENTITLED
AN ACT

relating to certain regulations adopted by governmental entities for the building products, materials, or methods used in the construction or renovation of residential or commercial buildings.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Title 10, Government Code, is amended by adding Subtitle Z to read as follows:

SUBTITLE Z. MISCELLANEOUS PROVISIONS PROHIBITING CERTAIN GOVERNMENTAL ACTIONS

CHAPTER 3000. GOVERNMENTAL ACTION AFFECTING RESIDENTIAL AND COMMERCIAL CONSTRUCTION

Sec. 3000.001. DEFINITIONS. In this chapter:

(1) "National model code" has the meaning assigned by Section 214.217, Local Government Code.

(2) "Governmental entity" has the meaning assigned by Section 2007.002.

Sec. 3000.002. CERTAIN REGULATIONS REGARDING BUILDING PRODUCTS, MATERIALS, OR METHODS PROHIBITED. (a) Notwithstanding any other law and except as provided by Subsection (d), a governmental entity may not adopt or enforce a rule, charter provision, ordinance, order, building code, or other regulation that:

(1) prohibits or limits, directly or indirectly, the use or installation of a building product or material in the construction, renovation, maintenance, or other alteration of a residential or commercial building if the building product or material is approved for use by a national model code published within the last three code cycles that applies to the construction, renovation, maintenance, or other alteration of the building; or

(2) establishes a standard for a building product, material, or aesthetic method in construction, renovation, maintenance, or other alteration of a residential or commercial building if the standard is more stringent than a standard for the product, material, or aesthetic method under a national model code published within the last three code cycles that applies to the construction, renovation, maintenance, or other alteration of the building.

(b) A governmental entity that adopts a building code governing the construction, renovation, maintenance, or other alteration of a residential or commercial building may amend a provision of the building code to conform to local concerns if the amendment does not conflict with Subsection (a).

(c) This section does not apply to:

(1) a program established by a state agency that requires particular standards, incentives, or financing arrangements in order to comply with requirements of a state or federal funding source or housing program;

(2) a requirement for a building necessary to consider the building eligible for windstorm and hail insurance coverage under Chapter 2210, Insurance Code;

(3) an ordinance or other regulation that:

(A) regulates outdoor lighting for the purpose of reducing light pollution; and

(B) is adopted by a governmental entity that is certified as a Dark Sky Community by the International Dark-Sky Association as part of the International Dark Sky Places Program;

(4) an ordinance or order that:

(A) regulates outdoor lighting; and

(B) is adopted under Subchapter B, Chapter 229, Local Government Code, or Subchapter B, Chapter 240, Local Government Code;

(5) a building located in a place or area designated for its historical, cultural, or architectural importance and significance that a municipality may regulate under Section 211.003(b), Local Government Code, if the municipality:

(A) is a certified local government under the National Historic Preservation Act (54 U.S.C. Section 300101 et seq.); or

(B) has an applicable landmark ordinance that meets the requirements under the certified local government program as determined by the Texas Historical Commission;

(6) a building located in a place or area designated for its historical, cultural, or architectural importance and significance by a governmental entity, if designated before April 1, 2019;

(7) a building located in an area designated as a historic district on the National Register of Historic Places;

(8) a building designated as a Recorded Texas Historic Landmark;

(9) a building designated as a State Archeological Landmark or State Antiquities Landmark;

(10) a building listed on the National Register of Historic Places or designated as a landmark by a governmental entity;

(11) a building located in a World Heritage Buffer Zone; and

(12) a building located in an area designated for development, restoration, or preservation in a main street city under the main street program established under Section 442.014.

(d) A municipality that is not a municipality described by Subsection (c)(3)(A) or (B) may adopt or enforce a regulation described by Subsection (a) that applies to a building located in a place or area designated on or after April 1, 2019, by the municipality for its historical, cultural, or architectural importance and significance, if the municipality has the voluntary consent from the building owner.

(e) A rule, charter provision, ordinance, order, building code, or other regulation adopted by a governmental entity that conflicts with this section is void.

Sec. 3000.003. INJUNCTION. (a) The attorney general or an aggrieved party may file an action in district court to enjoin a violation or threatened violation of Section 3000.002.

(b) The court may grant appropriate relief.

(c) The attorney general may recover reasonable attorney's fees and costs incurred in bringing an action under this section.

(d) Sovereign and governmental immunity to suit is waived and abolished only to the extent necessary to enforce this chapter.

Sec. 3000.004. OTHER PROVISIONS NOT AFFECTED. This chapter does not affect provisions regarding the installation of a fire sprinkler protection system under Section 1301.551(i), Occupations Code, or Section 775.045(a)(1), Health and Safety Code.

Sec. 3000.005. SEVERABILITY. If any provision of a rule, charter provision, ordinance, order, building code, or other regulation described by Section 3000.002(a) is held invalid under this chapter, the invalidity does not affect other provisions or applications of the rule, charter provision, ordinance, order, building code, or other regulation that can be given effect without the invalid provision or application, and to this end the provisions of the rule, charter provision, ordinance, order, building code, or other regulation are severable.

SECTION 2. This Act takes effect September 1, 2019.

AN ACT

relating to county and municipal approval procedure for land development applications.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Section 212.001, Local Government Code, is amended by amending Subdivision (2) and adding Subdivision (3) to read as follows:

(2) "Plan" means a subdivision development plan, including a subdivision plan, subdivision construction plan, site plan, land development application, and site development plan.

(3) "Plat" includes a preliminary plat, general plan, final plat, and replat.

SECTION 2. Subchapter A, Chapter 212, Local Government Code, is amended by adding Section 212.0085 to read as follows:

Sec. 212.0085. APPROVAL PROCEDURE: APPLICABILITY. The approval procedures under this subchapter apply to a municipality regardless of whether the municipality has entered into an interlocal agreement, including an interlocal agreement between a municipality and county under Section 242.001(d).

SECTION 3. The heading to Section 212.009, Local Government Code, is amended to read as follows:

Sec. 212.009. APPROVAL PROCEDURE: INITIAL APPROVAL.

SECTION 4. Section 212.009, Local Government Code, is amended by amending Subsections (a), (b), (c), and (d) and adding Subsections (b-1) and (b-2) to read as follows:

(a) The municipal authority responsible for approving plats shall approve, approve with conditions, or disapprove [~~act on~~] a plan or plat within 30 days after the date the plan or plat is filed. A plan or plat is [~~considered~~] approved by the municipal authority unless it is disapproved within that period and in accordance with Section 212.0091.

(b) If an ordinance requires that a plan or plat be approved by the governing body of the municipality in addition to the planning commission, the governing body shall approve, approve with conditions, or disapprove [~~act on~~] the plan or plat within 30 days after the date the plan or plat is approved by the planning commission or is [~~considered~~] approved by the inaction of the commission. A plan or plat is [~~considered~~] approved by the governing body unless it is disapproved within that period and in accordance with Section 212.0091.

(b-1) Notwithstanding Subsection (a) or (b), if a groundwater availability certification is required under Section 212.0101, the 30-day period described by those subsections begins on the date the applicant submits the groundwater availability certification to the municipal authority responsible for approving plats or the governing body of the municipality, as applicable.

(b-2) Notwithstanding Subsection (a) or (b), the parties may extend the 30-day period described by those subsections for a period not to exceed 30 days if:

(1) the applicant requests the extension in writing to the municipal authority responsible for approving plats or the governing body of the municipality, as applicable; and

(2) the municipal authority or governing body, as applicable, approves the extension request.

(c) If a plan or plat is approved, the municipal authority giving the approval shall endorse the plan or plat with a certificate indicating the approval. The certificate must be signed by:

(1) the authority's presiding officer and attested by the authority's secretary; or

(2) a majority of the members of the authority.

88

(d) If the municipal authority responsible for approving plats fails to approve, approve with conditions, or disapprove [~~act on~~] a plan or plat within the prescribed period, the authority on the applicant's request shall issue a certificate stating the date the plan or plat was filed and that the authority failed to act on the plan or plat within the period. The certificate is effective in place of the endorsement required by Subsection (c).

SECTION 5. Subchapter A, Chapter 212, Local Government Code, is amended by adding Sections 212.0091, 212.0093, 212.0095, 212.0096, 212.0097, and 212.0099 to read as follows:

Sec. 212.0091. APPROVAL PROCEDURE: CONDITIONAL APPROVAL OR DISAPPROVAL REQUIREMENTS. (a) A municipal authority or governing body that conditionally approves or disapproves a plan or plat under this subchapter shall provide the applicant a written statement of the conditions for the conditional approval or reasons for disapproval that clearly articulates each specific condition for the conditional approval or reason for disapproval.

(b) Each condition or reason specified in the written statement:

(1) must:

(A) be directly related to the requirements under this subchapter; and

(B) include a citation to the law, including a statute or municipal ordinance, that is the basis for the conditional approval or disapproval, if applicable; and

(2) may not be arbitrary.

Sec. 212.0093. APPROVAL PROCEDURE: APPLICANT RESPONSE TO CONDITIONAL APPROVAL OR DISAPPROVAL. After the conditional approval or disapproval of a plan or plat under Section 212.0091, the applicant may submit to the municipal authority or governing body that conditionally approved or disapproved the plan or plat a written response that satisfies each condition for the conditional approval or remedies each reason for disapproval provided. The municipal authority or governing body may not establish a deadline for an applicant to submit the response.

Sec. 212.0095. APPROVAL PROCEDURE: APPROVAL OR DISAPPROVAL OF RESPONSE. (a) A municipal authority or governing body that receives a response under Section 212.0093 shall determine whether to approve or disapprove the applicant's previously conditionally approved or disapproved plan or plat not later than the 15th day after the date the response was submitted.

(b) A municipal authority or governing body that conditionally approves or disapproves a plan or plat following the submission of a response under Section 212.0093:

(1) must comply with Section 212.0091; and

(2) may disapprove the plan or plat only for a specific condition or reason provided to the applicant under Section 212.0091.

(c) A municipal authority or governing body that receives a response under Section 212.0093 shall approve a previously conditionally approved or disapproved plan or plat if the response adequately addresses each condition of the conditional approval or each reason for the disapproval.

(d) A previously conditionally approved or disapproved plan or plat is approved if:

(1) the applicant filed a response that meets the requirements of Subsection (c); and

(2) the municipal authority or governing body that received the response does not disapprove the plan or plat on or before the date required by Subsection (a) and in accordance with Section 212.0091.

Sec. 212.0096. APPROVAL PROCEDURE: ALTERNATIVE APPROVAL PROCESS. (a) Notwithstanding Sections 212.009, 212.0091, 212.0093, and 212.0095, an applicant may elect at any time to seek approval for a plan or plat under an alternative approval process adopted by a municipality if the process allows for a shorter approval period than the approval process described by Sections 212.009, 212.0091,

89

212.0093, and 212.0095.

(b) An applicant that elects to seek approval under the alternative approval process described by Subsection (a) is not:

(1) required to satisfy the requirements of Sections 212.009, 212.0091, 212.0093, and 212.0095 before bringing an action challenging a disapproval of a plan or plat under this subchapter; and

(2) prejudiced in any manner in bringing the action described by Subdivision (1), including satisfying a requirement to exhaust any and all remedies.

Sec. 212.0097. APPROVAL PROCEDURE: WAIVER PROHIBITED. A municipal authority responsible for approving plats or the governing body of a municipality may not request or require an applicant to waive a deadline or other approval procedure under this subchapter.

Sec. 212.0099. JUDICIAL REVIEW OF DISAPPROVAL. In a legal action challenging a disapproval of a plan or plat under this subchapter, the municipality has the burden of proving by clear and convincing evidence that the disapproval meets the requirements of this subchapter or any applicable case law. The court may not use a deferential standard.

SECTION 6. Section 212.014, Local Government Code, is amended to read as follows:

Sec. 212.014. REPLATTING WITHOUT VACATING PRECEDING PLAT. A replat of a subdivision or part of a subdivision may be recorded and is controlling over the preceding plat without vacation of that plat if the replat:

(1) is signed and acknowledged by only the owners of the property being replatted;

(2) is approved[~~, after a public hearing on the matter at which parties in interest and citizens have an opportunity to be heard,~~] by the municipal authority responsible for approving plats; and

(3) does not attempt to amend or remove any covenants or restrictions.

SECTION 7. Section 212.015, Local Government Code, is amended by adding Subsections (a-1), (f), and (g) and amending Subsection (b) to read as follows:

(a-1) If a proposed replat described by Subsection (a) requires a variance or exception, a public hearing must be held by the municipal planning commission or the governing body of the municipality.

(b) Notice of the hearing required under Subsection (a-1) [~~Section 212.014~~] shall be given before the 15th day before the date of the hearing by:

(1) publication in an official newspaper or a newspaper of general circulation in the county in which the municipality is located; and

(2) by written notice, with a copy of Subsection (c) attached, forwarded by the municipal authority responsible for approving plats to the owners of lots that are in the original subdivision and that are within 200 feet of the lots to be replatted, as indicated on the most recently approved municipal tax roll or in the case of a subdivision within the extraterritorial jurisdiction, the most recently approved county tax roll of the property upon which the replat is requested. The written notice may be delivered by depositing the notice, properly addressed with postage prepaid, in a post office or postal depository within the boundaries of the municipality.

(f) If a proposed replat described by Subsection (a) does not require a variance or exception, the municipality shall, not later than the 15th day after the date the replat is approved, provide written notice by mail of the approval of the replat to each owner of a lot in the original subdivision that is within 200 feet of the lots to be replatted according to the most recent municipality or county tax roll. This subsection does not apply to a proposed replat if the municipal planning commission or the

90

governing body of the municipality holds a public hearing and gives notice of the hearing in the manner provided by Subsection (b).

(g) The notice of a replat approval required by Subsection (f) must include:

(1) the zoning designation of the property after the replat; and

(2) a telephone number and e-mail address an owner of a lot may use to contact the municipality about the replat.

SECTION 8. Subchapter A, Chapter 232, Local Government Code, is amended by adding Section 232.0023 to read as follows:

Sec. 232.0023. APPROVAL PROCEDURE: APPLICABILITY. The plat application approval procedures under this subchapter apply to a county regardless of whether the county has entered into an interlocal agreement, including an interlocal agreement between a municipality and county under Section 242.001(d).

SECTION 9. The heading to Section 232.0025, Local Government Code, is amended to read as follows:

Sec. 232.0025. APPROVAL PROCEDURE: TIMELY APPROVAL OF PLATS AND PLANS.

SECTION 10. Section 232.0025, Local Government Code, is amended by amending Subsections (d), (f), (g), (h), and (i), and adding Subsection (d-1) to read as follows:

(d) Except as provided by Subsection (f), the commissioners court or the court's designee shall approve, approve with conditions, or disapprove [~~take final action on~~] a plat application[~~, including the resolution of all appeals,~~] not later than the 30th [~~60th~~] day after the date the [~~a~~] completed [~~plat~~] application is received by the commissioners court or the court's designee. An application is approved by the commissioners court or the court's designee unless the application is disapproved within that period and in accordance with Section 232.0026.

(d-1) Notwithstanding Subsection (d), if a groundwater availability certification is required under Section 232.0032, the 30-day period described by that subsection begins on the date the applicant submits the groundwater availability certification to the commissioners court or the court's designee, as applicable.

(f) The 30-day [~~60-day~~] period under Subsection (d):

(1) may be extended for a [~~reasonable~~] period not to exceed 30 days, if:

(A) requested and agreed to in writing by the applicant and approved by the commissioners court or the court's designee; or

(B) [~~(2) may be extended 60 additional days if~~] Chapter 2007, Government Code, requires the county to perform a takings impact assessment in connection with the [~~a~~] plat application; and

(2) [~~(3)~~] applies only to a decision wholly within the control of the commissioners court or the court's designee.

(g) The commissioners court or the court's designee shall make the determination under Subsection (f)(1) [~~(f)(2)~~] of whether the 30-day [~~60-day~~] period will be extended not later than the 20th day after the date a completed plat application is received by the commissioners court or the court's designee.

(h) The commissioners court or the court's designee may not require [~~compel~~] an applicant to waive the time limits or approval procedure contained in this subchapter [~~section~~].

(i) If the commissioners court or the court's designee fails to approve, approve with conditions, or disapprove a plat application [~~take final action on the plat~~] as required by this subchapter [~~Subsection (d)~~]:

(1) the commissioners court shall refund the greater of the unexpended portion of any [~~plat~~] application fee or deposit or 50 percent of an [~~a plat~~] application fee or deposit that has been paid;

(2) the [~~plat~~] application is granted by operation of law; and

(3) the applicant may apply to a district court in the

91

county where the tract of land is located for a writ of mandamus to compel the commissioners court to issue documents recognizing the plat application's [~~plat's~~] approval.

SECTION 11. Subchapter A, Chapter 232, Local Government Code, is amended by adding Sections 232.0026, 232.0027, 232.0028, 232.00285, and 232.0029 to read as follows:

Sec. 232.0026. APPROVAL PROCEDURE: CONDITIONAL APPROVAL OR DISAPPROVAL REQUIREMENTS. (a) A commissioners court or designee that conditionally approves or disapproves of a plat application under this subchapter shall provide the applicant a written statement of the conditions for the conditional approval or the reasons for disapproval that clearly articulates each specific condition for the conditional approval or reason for disapproval.

(b) Each condition or reason specified in the written statement:

(1) must:

(A) be directly related to the requirements of this subchapter; and

(B) include a citation to the law, including a statute or order, that is the basis for the conditional approval or disapproval, if applicable; and

(2) may not be arbitrary.

Sec. 232.0027. APPROVAL PROCEDURE: APPLICANT RESPONSE TO CONDITIONAL APPROVAL OR DISAPPROVAL. After the conditional approval or disapproval of a plat application under Section 232.0026, the applicant may submit to the commissioners court or designee that conditionally approved or disapproved the application a written response that satisfies each condition for the conditional approval or remedies each reason for disapproval provided. The commissioners court or designee may not establish a deadline for an applicant to submit the response.

Sec. 232.0028. APPROVAL PROCEDURE: APPROVAL OR DISAPPROVAL OF RESPONSE. (a) A commissioners court or designee that receives a response under Section 232.0027 shall determine whether to approve or disapprove the applicant's previously conditionally approved or disapproved plat application not later than the 15th day after the date the response was submitted under Section 232.0027.

(b) A commissioners court or designee that conditionally approves or disapproves a plat application following the submission of a response under Section 232.0027:

(1) must comply with Section 232.0026; and

(2) may disapprove the application only for a specific condition or reason provided to the applicant for the original application under Section 232.0026.

(c) A commissioners court or designee that receives a response under Section 232.0027 shall approve a previously conditionally approved or disapproved plat application if the applicant's response adequately addresses each condition for the conditional approval or each reason for the disapproval.

(d) A previously conditionally approved or disapproved plat application is approved if:

(1) the applicant filed a response that meets the requirements of Subsection (c); and

(2) the commissioners court or designee that received the response does not disapprove the application on or before the date required by Subsection (a) and in accordance with Section 232.0026.

Sec. 232.00285. DEVELOPMENT PLAN REVIEW. (a) In this section, "development plan" includes a preliminary plat, preliminary subdivision plan, subdivision construction plan, site plan, general plan, land development application, or site development plan.

(b) Unless explicitly authorized by another law of this state, a county may not require a person to submit a development plan during the plat approval process required by this subchapter. If a county is authorized under another law of this state to require approval of a development plan, the county must comply with the

92

approval procedures under this subchapter during the approval process.

Sec. 232.0029. JUDICIAL REVIEW OF DISAPPROVAL. In a legal action challenging a disapproval of a plat application under this subchapter, the county has the burden of proving by clear and convincing evidence that the disapproval meets the requirements of this subchapter or any applicable case law. The court may not use a deferential standard.

SECTION 12. Section 232.0025(e), Local Government Code, is repealed.

SECTION 13. The change in law made by this Act applies only to a plat application filed on or after the effective date of this Act. A development or plan application filed before the effective date of this Act is governed by the law in effect immediately before the effective date of this Act, and that law is continued in effect for that purpose.

SECTION 14. This Act takes effect September 1, 2019.

_____ _____

President of the Senate Speaker of the House

I certify that H.B. No. 3167 was passed by the House on May 2, 2019, by the following vote: Yeas 119, Nays 18, 1 present, not voting.

DEED RESTRICTIONS - SOUTH

ARTICLE II, DEVELOPMENT REVIEW AUTHORITY, UDC

SECTION 1: BOARDS, COMMISSIONS, AND ADMISTRATIVE STAFF

All meetings of any Board or Commission shall be open to the public. Each Board or Commission shall keep accurate minutes of each meeting, which shall be forwarded to the City Secretary within ten (10) days following each meeting. Such Board or Commission shall keep an accurate record of the names of the members who are present and absent from their meetings. When public hearings are necessary or required, notice of the public hearings and the conduct of the public hearing will be in compliance with the requirements of all federal, state and local laws.

Each Board or Commission may establish its own attendance rules, regulations, and method of enforcement unless in conflict with state law, or this Article. Each member of a Board or Commission shall be at least 18 years of age.

SECTION 2: CITY COUNCIL

SUBSECTION 2.01: AUTHORITY

The City Council shall hold a meeting, conduct a public hearing -- *if required by this Unified Development Code* -- and make determinations on the following matters:

(A) Text amendments to this Unified Development Code.
(B) Zoning changes and map amendments including the reclassification of zoning designations on land, Specific Use Permits (SUP), and Planned Development Districts.
(C) Appeals related to the Planning and Zoning Commission's decision on special exceptions, variances, or waivers related to site plans for development.
(D) Amendments to the Comprehensive Plan.
(E) Amendments to the Master Thoroughfare Plan.
(F) Amendments to the Master Open Space Plan Master Plans.

(Ord. No. 06-14, 4-17-2006; Ord. No. 18-24, § 1, 5-7-2018; Ord. No. 18-47, § 1, 11-19-2018)

SECTION 3: PLANNING AND ZONING COMMISSION

SUBSECTION 3.01: CREATION AND MEMBERSHIP

(A) *Membership*. The members of the Planning and Zoning Commission shall be appointed for a term of three (3) years on a rotating basis and removable for cause by the City Council. The terms of office shall expire on the last day of July or until their successor has been appointed. Any member of the Planning and Zoning Commission may be reappointed by the City Council upon completion of a full term.

(B) *Residency*. Each member of the Planning and Zoning Commission shall be a resident of the City of Rockwall at the time of his appointment. A member of the Planning and Zoning Commission ceasing to reside in the City during his term of office shall immediately forfeit the office.

(C) *Removal*. Any member of the Planning and Zoning Commission may be removed from office for any cause deemed by the City Council to be sufficient for removal of the member. If a vacancy should exist in the Planning and Zoning Commission membership due to removal from office, resignation, death, refusal or inability to serve, the City Council shall appoint a new member to fill the vacancy for the unexpired term.

(Ord. No. 10-04, § 1, 2-1-2010; Ord. No. 10-14, § 2, 7-6-2010)

SUBSECTION 3.02: POWERS AND DUTIES

The Planning and Zoning Commission shall have the following powers and duties:

(A) To advise the City Council and make recommendations concerning adoption of, or amendments to, zoning regulations and the zoning map;
(B) To advise the council and make recommendations concerning adoption of, or amendments to the City's Comprehensive Plan, Master Thoroughfare Plan, and Parks and Recreation Master Plan and implementation thereof;
(C) To oversee the City's regulations governing the platting and recording of subdivisions, including matters pertaining to the dedication of public facilities, and to advise the council on matters pertaining to public improvements, traffic, utility extensions and the provision of public facilities and services, in order to implement the City's Comprehensive Plan;
(D) To undertake such actions as are necessary to exercise its delegated powers, as indicated by adopted ordinance;
(E) To approve certain matters relating to platting and recording of subdivisions as dictated by the City's ordinances and the Unified Development Code (UDC);
(F) To select a Planning and Zoning Commission Chair;
(G) To call public hearings to initiate zoning changes; and
(H) Other duties as may be prescribed by ordinance or state law.

SUBSECTION 3.03: PROCEDURES

(A) *Attendance*. If a Planning and Zoning Commissioner has three (3) consecutive absences that are not excused by the Planning and Zoning Commission, or is absent from more than 25%of the meetings, he or she may be removed from the Planning and Zoning Commission; however, if absent from 50%of the meetings in any calendar year, the member will automatically be removed from the Planning and Zoning Commission.

(B) *Officers*. Pursuant to the Charter § 9.01, the Planning and Zoning Commission shall elect a chair and vice-chair at the first meeting in August for a term of one (1) year. The vice-chair is to preside in the absence of the chair. Both the chair and the vice-chair shall vote on every item unless prohibited by law. The Director of Planning and Zoning shall be secretary of the Planning and Zoning Commission.

(C) *Meetings*.

(1) *Open to the Public.* All meetings of the Planning and Zoning Commission shall be open to the public. The Planning and Zoning Commission shall keep minutes of its proceedings showing the vote of each member upon each question, or if absent or failing to vote, indicating such fact, and shall keep record of its examinations and other official actions, all of which shall be filed in the office of the commission and shall be a public record. The Director of Planning and Zoning of the City of Rockwall shall be the custodian and possessor of the records and minutes of the Planning and Zoning Commission.
(2) *Calling of Meetings.* Meetings of the Planning and Zoning Commission may be held as often as necessary to conduct the business coming before the Planning and Zoning Commission at the call of the chair and at such other times as the commission may determine.
(3) *Quorum*. Any four (4) members shall constitute a quorum for the transaction of the business. The affirmative vote of a majority of those attending any meeting at which there is a quorum present shall be necessary to pass any motion, recommendation or resolution of the Planning and Zoning Commission.

(Ord. No. 10-14, § 3, 7-6-2010)

SUBSECTION 3.04: APPROVAL AUTHORITY

The Planning and Zoning Commission shall make decisions, or make recommendations to the City Council, on the following matters:

(A) Decisions on Site Plans, Building Elevations, Photometric Plans, Landscape Plans, Tree Preservation Plans (*i.e. Tree Mitigation Plans and Tree Removal Plans*), and Open Space Master Plans as may be required.
(B) Recommendations to City Council on all plats (*e.g. master plats, preliminary plats, replats, finals plats, etc.*) as required by Chapter 38, *Subdivisions*, of the Municipal Code of Ordinances.
(C) Recommendations to City Council regarding text amendments to the Unified Development Code.
(D) Recommendations to City Council regarding zoning changes and map amendments, including reclassification of the zoning designations on land, Specific Use Permits (SUP), and Planned Development Districts.
(E) Decisions regarding variances and special exceptions to this Unified Development Code.
(F) Recommendations to City Council regarding amendments to the Comprehensive Plan.
(G) Recommendations to City Council regarding amendments to the Master Thoroughfare Plan.
(H) Recommendations to City Council regarding amendments to the Parks and Recreation Master Plan.

(Ord. No. 18-24, § 1, 5-7-2018; Ord. No. 18-47, § 1, 11-19-2018)

SECTION 4: BOARD OF ADJUSTMENTS (BOA)

SUBSECTION 4.01: ORGANIZATION

(A) *Membership.* The Board of Adjustments (BOA) is created in accordance with the provisions of article 1011g of the Revised Civil Statutes of Texas [*V.T.C.A., Local Government Code § 211.008*]. The Board of Adjustments (BOA) shall consist of five (5) members who are residents and taxpayers of the City, each to be appointed by the City Council for two (2) years and removable for cause by the appointing authority upon written charges and after public hearing. Vacancies shall be filled for the unexpired term of any member whose place becomes vacant for any cause, in the same manner as the original appointment was made.

(B) *Alternate Members.* The City Council shall provide for the appointment of four (4) alternate members of the Board of Adjustments (BOA) who shall serve in the absence of one (1) or more of the regular members. Alternate members, when appointed, shall serve for the same period as the regular members, which is for a term of two (2) years, and any vacancy shall be filled in the same manner and they shall be subject to removal the same as the regular members.

(C) *Chief Building Official.* The Chief Building Official, or his authorized representative, shall be an ex-officio member of the zoning Board of Adjustments (BOA) without power of vote and as an ex-officio member of such board shall act as secretary of the Board of Adjustments (BOA) and shall set up and maintain a separate file for each application for appeal, special exception and variance received and shall record therein the names and addresses of all persons, firms and corporations to whom notices are mailed, including the date of mailing and further keep a record of all notices published as required herein. All records and files herein provided for shall be permanent and official files and records of the City.

Charter reference— Board of Adjustments (BOA), § 9.06.
State Law reference— Board of Adjustments (BOA), V.T.C.A., Local Government Code § 211.008.

SUBSECTION 4.02: PROCEDURES

(A) *Adopting Procedural Rules*. The Board of Adjustments (BOA), by majority vote, shall adopt such procedural rules as are necessary to execute its duties.

(B) *Election of Officers*. The Board of Adjustments (BOA) shall annually select one (1) of its members to be the chair, and the vice chair to act in the absence of the chair.

(C) *Quorum*. All cases before the Board of Adjustments (BOA) must be heard by at least four (4) members.

(D) *Calling Meetings*. Meetings of the Board of Adjustments (BOA) shall be held at the call of the chair, and at such other times as the Board of Adjustments (BOA) may determine. Such chair, or in his absence the acting chair, shall administer oaths and compel attendance of witnesses.

(E) *Meetings Open to the Public*. All meetings of the Board of Adjustments (BOA) shall be open to the public.

(F) *Keeping of Minutes*. The Board of Adjustments (BOA) shall keep minutes of its proceedings showing the vote of each member upon each question, or if absent or failing to vote, indicating such fact, and shall keep records of its other official actions, all of which shall be filed in the office of the Board of Adjustments (BOA) and shall be a public record.

The secretary of the Board of Adjustments (BOA) shall forthwith notify in writing the City Council, the Planning and Zoning Commission and the City's Chief Building Official of each decision, interpretation, special exception and variance granted under the provisions of the Unified Development Code.

(G) *Attendance*. If a member has three consecutive absences that are not excused by the Board of Adjustments (BOA), or is absent from more than 25% of the meetings, he may be removed from the Board of Adjustments (BOA); however, if absent from 50% of the meetings in any calendar year, the member will automatically be removed from the Board of Adjustments (BOA).

(Ord. No. 10-14, § 4, 7-6-2010)

SUBSECTION 4.03: JURISDICTION

(A) When in its judgment, the public convenience and welfare will be substantially served and the appropriate use of the neighboring property will not be substantially or permanently injured, the Board of Adjustments (BOA) may, in specific cases, after public notice and public hearing, and subject to appropriate conditions and safeguards, authorize the following special exceptions to the regulations herein established:

(1) *Appeal of an Administrative Decision*. Consider an appeal from any person aggrieved by a decision of any administrative officer with authority over any matter regulated by the Unified Development Code or by any officer, department, board or division of the City affected by any decision of the administrative officer. Such appeal shall be received within 15 calendar days after the decision has been rendered by the administrative officer, by filing with the officer whose decision is being appealed and with the Board of Adjustments (BOA), a notice of appeal specifying the grounds of the appeal and the City's required fee.

(2) *Appeal of a Code Decision*. Consider an appeal from any person aggrieved by orders, decisions or determinations made by the building official, fire official or city engineer relative to the application and interpretation of the International Residential Code, International Building Code, International Plumbing Code, International Mechanical Code, International Energy Conservation Code, International Fuel Gas Code, International Fire Code, International Existing Building Code, and National Electrical Code.

The officer from whom the appeal is taken shall forthwith transmit to the Board of Adjustments (BOA), all papers constituting the record from which the action appealed was taken. An appeal shall stay all proceedings of the action which has been appealed, unless the officer from whom the appeal is taken, certifies to the Board of Adjustments (BOA) that a stay would, in the officer's opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed unless there is a restraining order granted by the Board of Adjustments (BOA) or by a court of competent jurisdiction on application, and notice is given to the officer whose decision is the subject of appeal.

(B) *Odd Shaped Parcels*. Permit such modifications of the height, yard, area, coverage and parking regulations as may be necessary to secure appropriate development of a parcel of land which differs from other parcels in the district by being of such restricted area, shape, or slope that it cannot be appropriately developed without such modification.

(C) *Non-Conforming Use*. Permit the expansion or enlargement of a building occupied by a non-conforming use on the lot or tract occupied by such building, provided such reconstruction does not prevent the return of such property to a conforming use. Upon review of the facts, the Board of Adjustments (BOA) may establish a specific period of time for the occupancy to revert to a conforming use.

(D) *Change of Non-Conforming Use*. To authorize a change of use from one non-conforming use to another nonconforming use, provided that such change is to a use of the same or more restricted classification. In the event that a non-conforming use is changed to a nonconforming use of a higher or more restrictive classification, the building or structure containing such nonconforming use shall not later be reverted to the former lower or less restricted classification. The Board of Adjustments (BOA) may establish a specific period of time for the conversion of the occupancy to a conforming use.

(E) *Discontinuance of a Non-Conforming Use*. Require the discontinuance of nonconforming areas of land or structures under any plan whereby the full value of the structure and facilities can be amortized within a definite period of time, taking into consideration the general character of the neighborhood and the necessity for all property to conform to the regulations of the Unified Development Code.

(1) All actions to discontinue a nonconforming use of land or structure shall be taken with due regard for the property rights of the persons affected when considered in the light of the public welfare and the character of the area surrounding the designated nonconforming use and the conservation and preservation of property.
(2) The Board of Adjustments (BOA) shall from time to time on its own motion or upon cause presented by interested property owners inquire into the existence, continuance or maintenance of any nonconforming use within the City.

(F) *Structure for a Legal Non-Conforming Use*. Permit the construction, reconstruction, enlargement or addition of a structure occupied by or for a use, normally ancillary to a single-family residential use, when such single-family residential use or structure, is legally nonconforming; provided, however, such construction, reconstruction, enlargement or addition does not prevent the return of such property to a conforming use.

(G) *Non-Conforming Structure*. To authorize the reconstruction and occupancy of a nonconforming structure, or a structure containing a nonconforming use, where such structure has been damaged by fire or other causes to the extent of more than 50%, but less than the total, of the replacement cost of the structure on the date of the damage. Such action by the Board of Adjustments (BOA) shall have due regard for the property rights of the person or person affected, and shall be considered in regard to the public welfare, character of the area surrounding such structure, and the conservation, preservation and protection of property.

(H) *Expansion of a Non-Conforming Structure*. To authorize the enlargement, expansion or repair of a nonconforming structure in excess of 50% of its current value. In such instance, the current value shall be established at the time of application for a hearing before the Board of Adjustments (BOA). If such expansion or enlargement is approved by the Board of Adjustments (BOA), all provisions of the district in which such structure is located shall apply to the new construction on the lot or parcel.

(I) *Occupation of an Abandoned Non-Conforming Structure*. To authorize the occupancy of an abandoned nonconforming structure. Such action by the Board of Adjustments (BOA) shall have due regard for the property rights of the person or persons affected, and shall be considered in regard to the public welfare and safety, character or the area surrounding such structure, and the conservation, preservation and protection of property.

(J) *Violation of Other Ordinances*. The Board of Adjustments (BOA) is not authorized to permit or approve any request that would be in violation of any other ordinances or city regulations that would prohibit such improvement or construction to be made.

(Ord. No. 18-13, § 2, 3-5-2018)

SUBSECTION 4.04: CRITERIA FOR GRANTING VARIANCES

The City's Board of Adjustments (BOA), pursuant to the powers conferred upon it by state law, the ordinances of the City, and this article may grant variances to the provisions of the Unified Development Code upon finding that:

(A) Such variance will not substantially or permanently injure the appropriate use of adjacent property in the same district;
(B) Such variance will not adversely affect the health, safety or general welfare of the public;
(C) Such variance will not be contrary to the public interest;
(D) Such variance will not authorize the operation of a use other than those uses specifically authorized for the district in which the property for which the variance is sought is located;
(E) Such variance will be in harmony with the spirit and purpose of the Unified Development Code;
(F) Such variance will not alter the essential character of the district in which is located the property for which the variance is sought;
(G) Such variance will not substantially weaken the general purposes of the zoning regulations established for the district in which the property is located;
(K) Due to special conditions, a literal enforcement of the Unified Development Code would result in unnecessary hardship;
(H) The plight of the owner of the property for which the variance or exception is sought is due to unique circumstances existing on the property, including, but not limited to, the area, shape or slope, and the unique circumstances were not created by the owner of the property and are not merely financial, and are not due to or the result of general conditions in the district in which the property is located;
(I) The variance or exception is not a self-created hardship; and
(J) The variance is clearly identified as a variance to the City's standards on the concept plan, site plan or text of the Unified Development Code.

(Ord. No. 10-14, § 5, 7-6-2010)

SUBSECTION 4.05: ACTIONS OF THE BOARD

(A) In exercising its powers, the Board of Adjustments (BOA), may, in conformity with the provisions of the Local Government Code, revise or reform, wholly or partly, or may modify the order, requirement, decisions, or determination appealed from, and shall have all the powers of the officer from whom the appeal is taken including the power to impose reasonable conditions to be complied with by the applicant.

(B) The concurring vote of four (4) members of the Board of Adjustments (BOA) shall be necessary to revise any order, requirements, decision or determination of any such administrative official, or to decide in favor of the applicant on any matter upon which it is required to pass under the Unified Development Code or to affect any variance in the Unified Development Code.

(C) Any special exceptions authorized by the Board of Adjustments (BOA), either under the provisions of the Unified Development Code or under the authority granted to the Board of Adjustments (BOA) under the statutes of the state, shall authorize the issuance of a building permit or a Certificate of Occupancy (CO) or other relief as the case may be for a period of 90-days from the date of the favorable action on the part of the Board of Adjustments (BOA), unless the Board of Adjustments (BOA) in its minutes shall, at the same time, grant a longer period.

(D) If a building permit or Certificate of Occupancy (CO) has not been applied for or issued within a 90-day period or as the Board of Adjustments (BOA) may specifically grant, the special exceptions shall be deemed waived; and all rights hereunder terminated. The Board of Adjustments (BOA) may grant one or more extensions to this time period upon the applicant's request and if due cause is shown.

(E) Such termination and waiver shall be without prejudice to a subsequent appeal to the Board of Adjustments (BOA) in accordance with the rules, and regulations regarding appeals.

SUBSECTION ~~411~~.06: APPEALS ON SAME MATTER

No appeal to the Board of Adjustments (BOA) shall be allowed concerning the same matter prior to the expiration of six months from a ruling of the Board of Adjustments (BOA) on any appeal to such body unless other rulings on the same or similar subject matter have, within such six-month period, been altered or changed by ruling of the Board of Adjustments (BOA), in which case such change of circumstances shall permit the allowance of an appeal, but shall in no way have force in law to compel the Board of Adjustments (BOA), after a hearing, to grant such subsequent appeal, but such appeal shall be considered on its merits as in all other cases.

SUBSECTION ~~411~~.07: EFFECTIVE DATE

A decision on a variance shall be effective upon approval by the Board of Adjustments (BOA).

SUBSECTION 4.08: APPEAL FROM BOARD

Any person aggrieved by any decision of the Board of Adjustments (BOA) or any officer, department, or board of the municipality pursuant to this section, may present to a court of competent jurisdiction, a petition, duly verified, setting forth that such decision is illegal, in whole or in part, and specifying the grounds of such illegality.

Such petition shall be presented to the court within ten days after the filing of the decision complained of in the office of the City secretary and not thereafter.

No appeal from a Board of Adjustments (BOA) decision under its jurisdiction, as set out in the Unified Development Code, shall be heard by the City Council.

(Ord. No. 10-14, § 6, 7-6-2010)

SECTION 5: HISTORIC PRESERVATION ADVISORY BOARD

SUBSECTION 5.01: ORGANIZATION

(A) *Membership*. There is hereby created a Historic Preservation Advisory Board (HPAB) which shall serve as an advisory body to the City Council. Such board shall consist of seven members to be appointed by the City Council.

(B) *Term of Office; Qualifications*. The members shall be appointed for a term of two (2) years with staggered terms and shall be removable by the City Council. Their terms of office shall expire on the last day of July or when their successor has been appointed. In the event that a vacancy occurs prior to the expiration of a full term, the City Council shall appoint a new member to complete the unexpired term. Any member may be reappointed by the City Council upon completion of a term to which he has been appointed. The membership shall include:

(1) An architect, planner or representative of a design profession;
(2) A member of the Rockwall County Historical Foundation;

(3) A general contractor;
(4) An owner of property within a historic district;
(5) Three citizens of Rockwall interested in historic preservation.

All board members, regardless of background, shall have a known and demonstrated interest, competence of knowledge of historic preservation within the City. All members must be residents of Rockwall County.

(C) *Duties.* The duties of the Historic Preservation Advisory Board (HPAB) are as follows:

(1) Provide professional recommendations to the City Council and Planning and Zoning Commission as required, regarding site plans, building alternatives, and building plans proposed within the City Historic Overlay (HOV) District. The Historic Preservation Advisory Board (HPAB) shall review site plans and building elevations placed before them within the time frame allowed for processing applications prior to submission to the Planning and Zoning Commission or City Council. The Historic Preservation Advisory Board (HPAB) shall prepare a written assessment of the proposed project regarding compliance with approved guidelines for development within the district, and its applicability in preserving and enhancing the history and culture of the district.
(2) Research, document and maintain in the official files of the City detailed information regarding the original construction and architecture of the district.
(3) Develop and maintain guidelines regarding development and redevelopment within the district including architectural design, materials selections, building styles and other pertinent design considerations. The proposed guidelines shall be submitted to the Planning and Zoning Commission and City Council for approval.
(4) Adopt rules and procedures as necessary to provide for the orderly conduct of board meetings.
(5) Recommend the boundaries of historic districts.
(6) Increase public awareness of the value of historic, cultural, and architectural preservation by encouraging and participating in public education programs developed by the historic preservation office.
(7) Provide recommendations to the Planning and Zoning Commission and City Council concerning the historic preservation impact of proposed, announced or commenced actions by federal, state or local authorities that affect streets, alleys, publicly-maintained utilities and any other public spaces, areas, improvements, other features or zoning within, around or through any district.
(8) Make recommendations to the City for the employment of staff and professional consultants as necessary to carry out the duties of the HPAB.
(9) Review and take action on the designation of landmarks and the delineation of districts, which shall be ratified by the City Council.
(10) Recommend and confer recognition upon the owners of landmarks or properties within districts by means of certificates, plaques, or markers.
(11) Review and recommend to City Council and other applicable city boards and commissions all proposed changes to the Unified Development Code (UDC), building code, general plan or other adopted policies of the City than may affect the purpose of the article.
(12) Conduct public hearings and provide comment on buildings, objects, sites, structures, and districts for nomination to the National Register of Historic Places to the Texas Historic Commission. Such recommendations shall be guided by the criteria established in the National Historic Preservation Act of 1966, as amended.
(13) Implement and maintain a system of survey or inventory of significant historic, architectural, and cultural landmarks and all properties located within designated districts located in the City. Such information shall be maintained securely, made accessible to the public and should be updated at least every ten years.
(14) Monitor and report to the Texas Historical Commission all actions affecting any recorded Texas historic landmark, state archaeological landmark, national register property and any locally designated landmark, as deemed necessary.
(15) Create sub-committees from among its membership and delegate to these committees' responsibilities to carry out the purposes of this article.

(16) Maintain written meeting minutes which are recorded by staff and demonstrate all actions taken by the HPAB and the reasons for taking such actions.
(17) Increase public awareness of the value of historic, cultural, and architectural preservation by developing and participating in public education programs.
(18) Review and take action on all certificates of appropriateness applications for compliance with adopted design guidelines pursuant to this article.
(19) Review and take action on all appeals on action taken by the HPO regarding the administrative review of certificates of appropriateness applications for compliance with adopted design guidelines pursuant to this article.
(20) Develop, prepare and adopt specific design guidelines which shall be ratified by the City Council, for use in the review of all certificates of appropriateness applications.
(21) Prepare and submit annually to the City Council a report summarizing budget costs, goals and objectives and work completed during the previous year, as well as anticipated budgetary requests.
(22) Provide recommendations to the City concerning the utilization of state, federal, or private funds to promote the preservation of landmarks and districts within the City.
(23) Recommend to City Council the acquisition of endangered landmarks by demolition where its preservation is essential to the purpose of this article and where private preservation is not feasible.
(24) Propose incentive program(s) to City Council for local property owners of historic landmarks or within local districts.
(25) Review and take action on all city preservation-related incentive program applications involving work on landmarks and districts for compliance with adopted design guidelines pursuant to this article.
(26) Accept on behalf of the City government donations of preservation easements and development rights as well as any other gift of value for the purpose of historic preservation, subject to the approval of City Council.

(D) *Officers.* The Historic Preservation Advisory Board (HPAB) shall elect a chair and vice chair at the first meeting in August or at the first meeting thereafter for a term of one (1) year. The Historic Preservation Officer shall be secretary of the Historic Preservation Advisory Board (HPAB) and an ex-officio member.

(E) *Voting; meetings.* Each member in attendance shall have a vote on plans submitted to the Historic Preservation Advisory Board (HPAB) with that vote reported to the Planning and Zoning Commission. Any member professionally or financially involved in matters pending before the Historic Preservation Advisory Board (HPAB) shall abstain from any discussion, consideration or vote on that item and shall leave the room during such discussion and consideration. Meetings of the Historic Preservation Advisory Board (HPAB) shall be called as needed by the historic preservation officer.

(F) *Attendance.* If a member has three consecutive absences that are not excused by the Historic Preservation Advisory Board (HPAB), or is absent from more than 25% of the meetings, he or she may be removed from the Historic Preservation Advisory Board (HPAB); however, if absent from 50% of the meetings in any calendar year, the member will automatically be removed from the historic preservation board.

(Ord. No. 10-14, § 7, 7-6-2010; Ord. No. 12-25, § 1, 10-1-2012)

SUBSECTION 5~~12~~.02: DESIGNATION OF LANDMARKS IN THE CITY

(A) The Historic Preservation Advisory Board (HPAB) may recommend to the Planning and Zoning Commission and the City Council that certain properties be “landmark districts” and that specific areas be designated as “historic districts” as provided for in Subsection 6.2 of Article V, *District Development Standards*.

(Ord. No. 12-25, § 1, 10-1-2012)

SUBSECTION 5.03: CERTIFICATES OF APPROPRIATENESS (COA)

For requirements concerning Certificates of Appropriateness (COA) see Section 6, *Certificates of Appropriateness (COA)*, of Article XI, *Development Applications and Review Procedures*.

SECTION 6: ARCHITECTURAL REVIEW BOARD

SUBSECTION 6.01: CREATED

There is hereby created an Architectural Review Board (ARB) of review which shall serve as an advisory body to the Planning and Zoning Commission. Such board shall consist of seven members to be appointed by the City Council after recommendation of the Planning and Zoning Commission.

SUBSECTION 6.02: TERM OF OFFICE; QUALIFICATIONS

(A) Term. The members shall be appointed for a term of two years with staggered terms and shall be removable for cause by the City Council. Their terms of office shall expire on the last day of July or when their successor has been appointed. In the event that a vacancy occurs prior to the expiration of a full term the City Council shall appoint a new member to complete the unexpired term. Any member may be reappointed by the City Council upon completion of a term to which he has been appointed.
(B) Qualifications. At least one member shall be a registered architect in the State of Texas. Other members are chosen for qualifications and training in related fields such as landscape architecture, interior or exterior design, municipal planning, municipal government and other professions with related disciplines or civic interest.
(C) Attendance. If a member has three consecutive absences that are not excused by the architectural review board, or is absent from more than 25% of the meetings, he may be removed from the Architectural Review Board (ARB); however, if absent from 50% of the meetings in any calendar year, the member will automatically be removed from the architectural review board.

(Ord. No. 14-52, § 1, 12-1-2014)

SUBSECTION 6.03: DUTIES

The purpose of the Architectural Review Board (ARB)is to provide professional recommendations to the Planning and Zoning Commission and the director of planning regarding site plans and building elevations submitted within any zoning district as may be required. Meetings of the Architectural Review Board (ARB) shall be called as needed. The Architectural Review Board (ARB) shall review site plans and building elevations placed before them within the time frame allowed for processing applications prior to submission to the Planning and Zoning Commission. The review shall evaluate compatibility with existing topography, scenic corridors and landscaping, and with the goals and objectives established in the applicable Overlay District and/or Planned Development District, the comprehensive plan and applicable provisions of the urban design guidelines. The Architectural Review Board (ARB) shall make recommendations on design changes based on its professional experience and knowledge. The Planning and Zoning Commission shall consider the Architectural Review Board's (ARB's) recommendations in its deliberation of the proposed development. The commission may include recommended changes in the proposed building elevations and site plan based upon the recommendations of the Architectural Review Board (ARB) in its recommendation to the City Council, if applicable.

(Ord. No. 06-14, 4-17-2006)

SUBSECTION 6.04: OFFICERS

The Architectural Review Board (ARB) shall elect a chair and vice chair at the first meeting in August or at the first meeting thereafter for a term of one year. The Director of Planning and Zoning shall be secretary of the Architectural Review Board (ARB) and an ex officio member.

(Ord. No. 10-14, § 8, 7-6-2010)

SUBSECTION 6~~13~~.05: VOTING

Each member in attendance shall have a vote on plans submitted to the Architectural Review Board (ARB) with that vote being reported to the Planning and Zoning Commission. Any member professionally or financially involved in matters pending before the Architectural Review Board (ARB) shall abstain from any discussion, consideration or vote on that item and shall leave the room during such discussion and consideration.

SECTION 7: DIRECTOR OF PLANNING

SUBSECTION 7.01: QUALIFICATIONS

(A) The Director of Planning and Zoning must be a member in good standing of AICP, AIA or PE.
(B) The Director of Planning and Zoning or his/her designee shall serve as the *Zoning Administrator*.

SUBSECTION 7.02: POWERS AND DUTIES

(A) The Director of Planning and Zoning shall have the following powers and duties:

(1) To make recommendations and provide assistance to the City Council and Planning and Zoning Commission concerning exercise of their responsibilities under the Unified Development Code;
(2) To develop and recommend to the Planning and Zoning Commission, and the City Council, a Comprehensive Plan for the City or any amendments to the plan and to propose actions to implement the plan;
(3) To coordinate all planning relating to the City's Comprehensive Plan;
(4) To submit recommendations to the Planning and Zoning Commission and City Council on request for zoning changes, variances and exceptions;
(5) To render such administrative decisions as are required of the Director of Planning and Zoning by the Unified Development Code;
(6) To perform such other duties as may be prescribed by ordinance or directed by the City Council or Planning and Zoning Commission.

SECTION 8: HISTORIC PRESERVATION OFFICER

SUBSECTION 8.01: APPOINTMENT

The City Manager shall appoint a qualified staff person, to serve as Historic Preservation Officer (HPO). This officer shall administer the historic preservation provisions of the Unified Development Code and advise the Historic Preservation Advisory Board (HPAB) on matters submitted to it.

(Ord. No. 12-25, § 1, 10-1-2012)

SUBSECTION 8.02: POWERS AND DUTIES

In addition to serving as a representative to the Historic Preservation Advisory Board (HPAB), the Historic Preservation Officer (HPO) shall:

(A) Coordinate the City's preservation activities with those of state and federal agencies and with local, state, and national non-profit preservation organizations.
(B) Administer the Unified Development Code (UDC) and advise the HPAB on matters submitted to it.

(C) To maintain and hold open for public inspection all documents and records pertaining to the provisions of this article.
(D) Receive and review all applications pursuant to this article to ensure their completeness.
(E) Review and take action on all Certificates of Appropriateness (COA) applications subject to administrative review pursuant to this Article.
(F) Review and forward with any recommendations all applications for certificates of appropriateness subject to review by the HPAB pursuant to this article.
(G) Ensure proper posting and noticing of all HPAB meetings, schedule applications for HPAB review, provide packets to its members prior to the meetings, record meeting minutes and facilitate all HPAB meetings.
(H) Review and help coordinate the City's preservation and urban design activities with those of local, state and federal agencies and with local, state, and national preservation organizations in the private sector.

(Ord. No. 12-25, § 1, 10-1-2012)

SECTION 9: CHIEF BUILDING OFFICIAL

SUBSECTION 9.01: QUALIFICATIONS

The Chief Building Official must:

(A) Be a licensed architect or engineer in good standing; or
(B) Have a bachelor's degree in urban planning, or related field; supplemented by a minimum six (6) years in a supervisory/management capacity in the field with a municipal or other governmental organization, to include development and implementation of budgetary functions; or an equivalent combination of education, training, and experience which includes the following knowledge, skills, and abilities:

(1) Comprehensive knowledge of modern principles and practices of community development administration.

(2) Thorough knowledge of the federal, state, and local ordinances, laws and regulations relating to departmental activities.

(3) Thorough knowledge of principles of effective administration, to include planning, directing, evaluating, and coordinating.

SUBSECTION 9.02: POWERS AND DUTIES

The Chief Building Official shall have the following powers and duties:

(1) To issue permits in accordance with the Unified Development Code;
(2) To issue Certificates of Occupancy (CO) in accordance with the Unified Development Code;
(3) To enforce the provisions of the Unified Development Code;
(4) Such other powers and duties as may be lawfully delegated.

The City Council may designate the City Engineer or Director of Planning and Zoning to perform the duties of the Chief Building Official.

ARTICLE IV, PERMISSIBLE USES, UDC

SECTION 1: LAND USE SCHEDULE

SUBSECTION 1.01: USE OF LAND AND BUILDINGS

Buildings, structures, and land uses shall be in conformance with the permitted uses depicted in Subsection 1.02, *Land Use Schedule*, and in compliance with Subsection 2.03, *Conditional Land Use Standards*. The following is the legend for the *Land Use Schedule* contained in Sebsection1.02:

	Land Use *NOT* Permitted
P	Land Use Permitted *By-Right*
P	Land Use Permitted with Conditions
S	Land Use Permitted Specific Use Permit (SUP)
X	Land Use Prohibited by Overlay District

SECTION 2: CONDITIONAL LAND USE STANDARDS AND DEFINITIONS

SUBSECTION 2.01: DETERMINATION OF LAND USES

Land uses shall be permitted in a zoning district as indicated in Section 1, *Land Use Schedule*, provided the land use meets the below conditional land use standards and the land use definitions established for such use. Should a new land use -- *not listed in Section 1, Land Use Schedule* -- request to be established in the City, the Director of Planning and Zoning or his/her designee shall determine the closest or most appropriate land use based on the following land use definitions and conditional land use standards. If the Director of Planning and Zoning is unable to classify a land use based on the land uses listed in *Section 1, Land Use Schedule*, then the Director of Planning and Zoning shall defer the decision to the City Council to either [*1*] direct staff to amend the code to incorporate the new land use, or [*2*] deny the request to establish the unlisted land use.

SUBSECTION 2.02: LAND USE DEFINITIONS

For land use definitions see Section 2.02, *Land Use Definitions*, of Article XIII, *Definitions*.

SUBSECTION 2.03: CONDITIONAL LAND USE STANDARDS

(A) *Agricultural and Animal Related Land Uses*

(1) *Animal Boarding/Kennel with Outside Pens.*

(a) Animals shall be permitted to be in outside pens or kennels.
(b) The outside pens or kennels shall be behind the primary structure and shall be screened from view of adjacent properties, public right-of-way, and parks and open space.

(2) *Animal Boarding/Kennel without Outside Pens.*

(a) Animals shall not be permitted to be in outside pens or kennels.

(3) *Animal Clinic for Small Animals without Outdoor Pens.*

(a) All *Animal Clinics for Small Animals* that incorporate a kennel shall be limited to short-term boarding.
(b) Boarding/kennel land uses should be accessory or incidental to the primary land uses (*i.e. animal clinic*).

(4) *Barn or Agricultural Accessory Building.*

(a) A *Barn or Agricultural Accessory Building* shall be a minimum of 2,000 SF and a maximum of 4,999 SF in total size (*i.e. under roof*).
(b) The *Barn or Agricultural Accessory Building* shall be located behind the front façade of the primary structure, and be subject to the same building setbacks as the primary structure.

(5) *Commercial Horse Corral or Stable.*

(a) This use requires a minimum of ten (10) acres to be established.
(b) The ground accumulation of manure shall be collected and properly disposed of so as not to create offensive odors, fly breeding, or in any way pose a health hazard or nuisance to humans and animals.
(c) Fences or pens, corrals or similar enclosures shall be of sufficient height and strength to properly retain the animal.

(6) *Private Horse Corral or Stable.*

(a) All *Private Horse Corrals or Stables* shall comply with the standards specified in *Subsection 3.01, Farm Animals and Horses*.

(7) *Community Garden.*

(a) *Community Gardens* are permitted in the Agricultural (AG) District *by-right*; however, a Specific Use Permit (SUP) shall be required for any on-site retail sales.
(b) *Community Gardens* are permitted in all other zoning districts by Specific Use Permit (SUP) only, and are subject to the additional following conditions:

(1) The *Community Garden* must comply with the lot and building standards for the zoning district in which the subject property is located.
(2) Any structure(s) for a *Community Garden* shall be reviewed as part of the Specific Use Permit (SUP), including the size and intended use.
(3) All chemicals and fuels shall be stored in an enclosed, locked structure when the site is unattended.
(4) Sales and donation of ~~only~~ whole, uncut, fresh food and/or horticultural products grown in the *Community Garden* may occur on-site, but may not occur on residentially zoned or used property.
(5) Retail sales and all other public use of the *Community Garden* shall begin no earlier than 7:00 AM and must end by 7:00 PM every day of the week.
(6) One temporary sign advertising only food or horticultural products grown on-site may be displayed during sale~~s~~ hours. The sign must be on-site, non-illuminated, and must not exceed six (6) square feet in area or three (3) feet in height.
(7) The applicant shall provide a *Community Garden Management Plan* that addresses any probable impacts to the subject property or surrounding properties and which includes any proposed mitigation measures. The plan shall include: [*1*] a site plan, [*2*] a description of the type of equipment necessary for all operations of the *Community Garden*, [*3*] the anticipated frequency and duration of use of any equipment used on-site, [*4*] a disclosure statement of any intent to spray or otherwise apply chemicals or pesticides, [*5*] the anticipated frequency and duration of the application of chemicals or pesticides, and [6] a disclosure statement of any land-disturbing activity that could otherwise require drainage improvements per the *Engineering Standards of Design and Construction* manual.

(8) *Urban Farm.*

(a) *Urban Farms* are permitted in the Agricultural (AG) District *by-right*; however, a Specific Use Permit (SUP) shall be required for any on-site retail sales.
(b) *Urban Farms* are permitted in all other zoning districts by Specific Use Permit (SUP) only, and are subject to the additional following conditions:

(1) A site area of not less than one (1) acre and not more than five (5) acres is required, unless otherwise approved by City Council.
(2) Only mechanical equipment designed for residential use may be used.
(3) Retail sales and all other public use of the *Urban Farm* shall begin no earlier than 7:00 AM and must end by 7:00 PM every day of the week.
(4) Commercial deliveries and pickups are limited to one (1) per day. On-site sales are not considered commercial pickups.
(5) One identification sign not exceeding 144 square inches in area is permitted.
(6) Any structure(s) for urban farms in residential districts shall be reviewed as part of the SUP, including size, building materials and intended use.
(7) The applicant shall provide a *Urban Farm Management Plan* that addresses any probable impacts to the subject property or surrounding properties and which includes any proposed mitigation measures. The plan shall include: [*1*] a site plan, [*2*] a description of the type of

equipment necessary for all operations of the *Community Garden*, [*3*] the anticipated frequency and duration of use of any equipment used on-site, [*4*] a disclosure statement of any intent to spray or otherwise apply chemicals or pesticides, [*5*] the anticipated frequency and duration of the application of chemicals or pesticides, and [6] a disclosure statement of any land-disturbing activity that could otherwise require drainage improvements per the *Engineering Standards of Design and Construction* manual.

(c) *Urban Farms* are permitted in non-residential zoning districts by Specific Use Permit (SUP) only and are subject to the additional following conditions:

(1) A minimum site area of one (1) acre is required.
(2) Retail sales and all other public use of the *Urban Farm* shall begin no earlier than 7:00 AM and must end by 7:00 PM every day of the week.
(3) Any structure(s) for a *Community Garden* shall be reviewed as part of the Specific Use Permit (SUP), including the size and intended use.
(4) The applicant shall provide a *Urban Farm Management Plan* that addresses any probable impacts to the subject property or surrounding properties and which includes any proposed mitigation measures. The plan shall include: [*1*] a site plan, [*2*] a description of the type of equipment necessary for all operations of the *Community Garden*, [*3*] the anticipated frequency and duration of use of any equipment used on-site, [*4*] a disclosure statement of any intent to spray or otherwise apply chemicals or pesticides, [*5*] the anticipated frequency and duration of the application of chemicals or pesticides, and [6] a disclosure statement of any land-disturbing activity that could otherwise require drainage improvements per the *Engineering Standards of Design and Construction* manual.

(B) *Residential and Lodging Land Uses*

(1) *Residential Accessory Building or Structure.*

(a) See Subsection 7.04, *Accessory Structure Development Standards,* of Article V, *District Development Standards*.

(2) *Bed and Breakfast.*

(a) The *Bed and Breakfast* land use is permitted in the Old Town Rockwall (OTR) Historic District *by-right.*
(b) A *Bed and Breakfast* may only be established on an owner-occupied, single-family lot.
(c) In addition to the single-family parking requirements, one (1) parking space per bedroom shall be provided.
(d) No signage and/or outside advertising shall be permitted for a *Bed and Breakfast* unless located in a non-residential zoning district or as permitted by a Specific Use Permit (SUP).
(e) *Bed and Breakfast* shall be required to meet all applicable City Fire Codes, including providing a smoke alarm system.
(f) A *Bed and Breakfast* shall be subject to an annual inspection by the Fire Department.
(g) All applicable hotel/motel taxes shall be paid.
(h) The maximum length of a guests stay ~~is~~ shall be limited to 14 consecutive days in any 30-day period.
(i) A Specific Use Permit (SUP) for a Bed and Breakfast shall be reviewed six (6) months after the adoption of the Specific Use Permit (SUP) and annually thereafter unless otherwise stipulated by the Specific Use Permit (SUP) ordinance.

(3) *Duplex.*

(a) Duplexes shall be limited to two (2) dwelling units (*i.e. two [2] families*) per lot or parcel of land.
(b) See the standards for the Two-Family (2F) District Subsection 7.01, *Residential District Development Standards,* of Article V, *District Development Standards*.

(4) *Attached Garage.*

(a) See Section 7.04, *Accessory Structure Development Standards,* of Article V, *District Development Standards*.

(5) *Detached Garage.*

(a) See Section 7.04, *Accessory Structure Development Standards,* of Article V, *District Development Standards*.

(6) *Guest Quarters/Secondary Living Unit.*

(a) *Guest Quarters* or *Secondary Living Units* may be allowed on a property in a residential zoning district provided that it is ancillary to a single-family home.
(b) The area of such quarters shall not exceed 30 percent of the area of the main structure.
(c) No such use may be sold or conveyed separately without meeting the requirements of the zoning district and the subdivision ordinance.
(d) *Guest Quarters* or *Secondary Living Units* not meeting the requirements stated above shall require a Specific Use Permit (SUP).

(7) *Home Occupation.*

(a) The *Home Occupation* use must clearly be incidental and secondary to the primary use of the property as a residence.
(b) No person outside the family may be employed in the *Home Occupation* use.
(c) There shall be no exterior display, signage, exterior storage of materials, and/or other exterior indication of the *Home Occupation* use or variation from the residential character of the principal building.
(d) No traffic shall be generated by such *Home Occupation* than would normally be expected in the neighborhood.
(e) No nuisance, offensive noise, vibration, smoke, dust, odors, heat, glare, or electrical disturbance shall be generated.
(f) A *Home Occupation* may not be interpreted to include facilities for the repair of motor vehicles, repair of small motors, or a daycare center.

(8) *Full-Service Hotel.*

(a) The minimum room count for a *Full-Service Hotel* shall be 250-rooms.
(b) Each guestroom shall have a minimum square footage of 380 SF.
(c) A *Full-Service Hotel* shall have a full-service restaurant and kitchen that provides service to the general public.
(d) A *Full-Service Hotel* shall have staff that is present 24-hours a day, seven (7) days a week.
(e) A *Full-Service Hotel* shall have the following minimum amenities: [*1*] a minimum 10,000 SF meeting or conference room, and [*2*] a swimming pool with a minimum area of 1,000 SF.

(9) *Multi-Family Structure or Development.*

(a) See Subsection 7.02, *Multi-Family District Development Standards,* of Article V, *District Development Standards*.

(10) *Portable Building.*

(a) See Subsection 7.04, *Accessory Structure Development Standards,* of Article V, *District Development Standards*.

(11) *Residential Infill in or Adjacent to an Established Subdivision*.

(a) For the purposes of this Article, an *Established Subdivision* shall be defined as a subdivision that consists of five (5) or more lots, that is 90% or more developed, and that has been in existence for more than ten (10) years.
(b) All proposed residential infill housing that is located within an *Established Subdivision* or a lot or tract of land that is located with 500-feet of an *Established Subdivision* shall be required to apply for a Specific Use Permit (SUP).
(c) As part of the Specific Use Permit (SUP) request the applicant shall be required to submit a residential plot plan or site plan, landscape plans, and building elevations of the proposed home.
(d) In reviewing the proposed Specific Use Permit (SUP), the Planning and Zoning Commission and City Council shall consider the proposed size, location, and architecture of the home compared to the existing housing in the *Established Subdivision*.
(e) All housing proposed under this section shall be constructed to be architecturally and visually similar or complimentary to the existing housing in the *Established Subdivision*.

(12) *Single-Family Attached Structure*.

(a) See Section 3, *Residential Districts,* of Article V, *District Development Standards*.
(b) See Subsection 7.01, *Residential District Development Standards,* of Article V, *District Development Standards*.

(13) *Single-Family Detached Structure*.

(a) See Section 3, *Residential Districts,* of Article V, *District Development Standards*.
(b) See Subsection 7.01, *Residential District Development Standards,* of Article V, *District Development Standards*.

(14) *Single-Family Zero Lot Line Structure*.

(a) A five (5) foot maintenance easement is required on the non-zero-lot-line side of the structure.
(b) See Section 3, *Residential Districts,* of Article V, *District Development Standards*.
(c) See Subsection 7.01, *Residential District Development Standards,* of Article V, *District Development Standards*.

(15) *Townhouse*.

(a) See Section 3, *Residential Districts,* of Article V, *District Development Standards*.
(b) See the standards for the Two-Family (2F) District Subsection 7.01, *Residential District Development Standards,* of Article V, *District Development Standards*.

(16) *Urban Residential*.

(a) *Urban Residential* includes residential development that at least partly face streets, public sidewalks, or common open space, and/or which are located above retail, office or service uses.
(b) Ground floor urban residential should have direct access to a sidewalk via a stoop or landing, and a majority of parking should be located in a structure.

(C) *Institutional and Community Service Land Uses*

(1) *Assisted Living Facility.*

(a) These facilities shall include establishments that accommodate seven (7) or more residents. For facilities with six (6) or fewer residents see *Group or Community Home* in Subsection 2.04(11).

(2) *Church/House of Worship*.

(a) Significant accessory uses such as schools, coffee houses, daycare centers, bingo parlors and halls may only be allowed in a zoning district that allows such uses.

(3) *Congregate Care Facility/Elderly Housing.*

(a) A *Congregate Care Facility/Elderly Housing* facility may have up to two (2) units for on-site managers, which contain full kitchen facilities.
(b) Full-time medical or nursing care shall not be provided by the facility; however, medical and nursing care may be privately arranged for individual residents on a part-time or temporary basis (*e.g. visiting nurse or home health care*).
(c) These facilities shall incorporate special safety, accessibility and convenience features that may include but are not limited to emergency call systems, grab bars and handrails, and/or special door hardware, cabinets, appliances, passageways and doorways designed to accommodate wheelchairs.

(4) *Daycare with Seven (7) or More Children*.

(a) An adequate pickup and drop-off area providing a minimum cuing space for four (4) standard sized vehicles shall be provided.

(5) *Group or Community Home*.

(a) The facility must be a operated by:

(1) The Texas Department of Mental Health and Metal Retardation (MHMR);
(2) A Community Center organized under Subchapter A, *Community Centers*, of Chapter 534, *Community Services*, of the Health and Safety Code, that provides services to persons with disabilities;
(3) An entity subject to the Texas Non-Profit Corporation Act; or
(4) An entity certified by the Texas Department of Human Services as a provider under the medical assistance program service persons in intermediate care facilities for persons with mental retardation; or
(5) An entity operating an Assisted Living Facility licensed under Chapter 247, *Assisted Living Facilities*, of the Texas Health and Safety Code, and with six (6) or fewer residents. For an assisted living facility with more than six (6) residents see *Assisted Living Facility* in Subsection 2.04(1).

(b) When the facility is located within a residential zoning district:

(1) The exterior structure must retain compatibility with the surrounding residential dwellings, and
(2) Not more than six (6) persons with disabilities and two supervisors may reside in the facility at the same time. The limitation on the number of persons with disabilities applies regardless of the legal relationship of those persons to one another.

(c) A *Group or Community Home* may not be established within one-half (½) mile of an existing *Group or Community Home* unless a Specific Use Permit (SUP) is approved by the City Council.

(d) The residents of a *Group or Community Home* may not keep for the use of the residents of the home, either on the premises or on a public right-of-way adjacent to the home, motor vehicles in numbers that exceed the number of bedrooms in the home.

(6) *Halfway House*.

(a) These facilities shall not be located within a 1,000-foot radius of another *Halfway House* (as measured from parcel to parcel). A Specific Use Permit (SUP) shall be required for any facility located closer than 1,000-feet.
(b) Such facilities shall be licensed as a Community Residential Facility under Chapter 508, Parole and Mandatory Supervision, of the Texas Health and Safety Code.

(7) *Public or Private Primary School*.

(a) Adequate pick-up and drop-off areas shall be provided to ensure that street traffic/neighborhood traffic is not impeded. This shall be determined by the Director of Planning and Zoning or his/her designee at the time of site plan.

(8) *Public or Private Secondary School*.

(a) The school shall be located on a *Minor Collector* or larger roadway.
(b) Adequate pick-up and drop-off areas shall be provided to ensure that street traffic/neighborhood traffic is not impeded. This shall be determined by the Director of Planning and Zoning or his/her designee at the time of site plan.

(9) *Temporary Education Buildings for a Public or Private School*.

(a) The City Manager or his/her designee may approve temporary educational buildings for a public school pending the submission of a letter from the independent school district indicating the duration the buildings will remain on-site. The City Manager or his/her designee may also require the temporary buildings to adhere to the procedures and requirements of Subsection 2.04(23)(A)(b) below.
(b) All other applications of temporary educational buildings will require a Specific Use Permit (SUP) that shall be approved by the Planning and Zoning Commission and City Council, and that shall include the following operational conditions:

(1) The buildings shall be screened from the view of adjacent properties, public right-of-way, and parks and open space by the primary structure or landscape screening that incorporates three (3) tiered screening (*i.e. small to mid-sized shrubs, large shrubs or accent trees, and canopy trees*).
(2) The applicant shall provide a plan indicating the expected phasing-out of all temporary structures.
(3) The Specific Use Permit (SUP) shall be valid for a period not to exceed five (5) years.

(D) *Office and Professional Land Uses.*

(1) *Financial Institution with Drive-Through.*

(a) Drive-throughs shall not be located on a property adjacent to a residentially zoned or used property. Drive-throughs shall be separated from residentially zoned or used properties by an intervening building or parcel of land.
(b) Drive-throughs shall not have access to local residential streets.
(c) Stacking lanes for drive-through service windows shall accommodate at least six (6) standard sized motor vehicles per lane, unless specifically approved by the Planning and Zoning Commission.

(E) *Recreation, Entertainment and Amusement Land Uses.*

(1) *Temporary Carnival, Circus, or Amusement Ride*.

(a) The duration of these temporary uses shall not exceed 14-days.

(b) Carnival, circus and amusement ride uses shall be no closer than 300-feet to a residentially zoned or used property unless otherwise approved by the Planning and Zoning Commission and City Council.
(c) Such events must obtain a permit from the City of Rockwall.

(2) *Indoor Commercial Amusement/Recreation*.

(a) Exemptions to this use include:

(1) Skill or coin-operated machines kept in private residences or apartments and used without charge by members of the family or bona fide guests.
(2) Skill or coin-operated machines on the premises of religious, charitable, educational or fraternal organizations for the use of members or their guests, and not for private profit, although a charge is made for playing.
(3) Billiard or pool tables on the premises of publicly owned facilities.

(Ord. No. 10-14, § 17, 7-6-2010)

(3) *Outdoor Commercial Amusement/Recreation.*

(a) *Outdoor Commercial Amusement/Recreation* includes uses that provide outdoor entertainment (*e.g. amusement parks, golf courses, outdoor music venues, batting cages, miniature golf etc.*), but excludes drive-in movie theaters.
(b) *Outdoor Commercial Amusement/Recreation* includes temporary structures (e.g. tents, canopies, etc.) for events; however, temporary in this case does not include structures intended to serve uses for longer than 14-days.
(c) *Outdoor Commercial Amusement/Recreation* shall be a minimum of 300-feet from all residentially zoned or used property unless otherwise approved by the Planning and Zoning Commission and City Council.

(4) *Temporary Fundraising Events by Non-profit.*

(a) Such events must obtain a *Special Event Permit* from the City of Rockwall.

(5) *Indoor Gun Club with Skeet or Target Range.*

(a) All activities shall be done inside an enclosed building.

(6) *Private Club, Lodge or Fraternal Organization.*

(A) *Private Club.*

(a) *Setbacks from Other Uses*. The club must be located not less than 300-feet from a church, public school, or public hospital. For a church or public hospital, the 300-feet shall be measured along the property lines of the street fronts and from front door to front door, and in a direct line across intersections. For public schools, the measurement of distance shall be in direct line from the property line of the public school to the property line of the private club and in a direct line across intersections.
(b) *Exterior Signs*. There shall be no exterior signs advertising the sale of alcoholic beverages, provided this does not prohibit using established trademark names (*e.g. Steak and Ale*).
(c) *Alcoholic Sales Revenue*. Revenues from the sale of alcoholic beverages shall not exceed 40 percent of the gross revenues derived from the sale of food and beverages. In the hotels and motels, the gross receipts shall include all restaurants and club operations in the facility as well as room rental charges. The City shall be provided with copies of the reports submitted by the establishment to the Texas Comptroller of Public Accounts and the Texas Alcoholic Beverage

Commission within 30-days of the end of each quarter. Combined sales as reflected on the reports for the last two (2) reported quarters shall be used to determine if the sales of alcohol exceeds the maximum allowed percentage.

(d) *Club Boundaries*. The boundaries of a private club are hereby defined to be the building in which the private club is located, or in the case of a multi-tenant building such as a shopping center, only that portion of the building in which the private club is located which is separately leased or owned, or with contiguous internal access should such floor area be leased to more than one party.

(e) *Certificate of Occupancy.* A copy of the permit approved by the state shall be submitted to the city prior to issuance of a Certificate of Occupancy (CO) to ensure that the permit complies with the provisions of the zoning.

(f) *Allowed uses*. No uses meeting the terms and definitions of *Sexually Oriented Business* as defined in Article XI, *Sexually Oriented Businesses*, of Chapter 12, *Businesses and Sales*, of the Municipal Code of Ordinances, as it is currently adopted or as it may hereafter be amended, shall be located in a private club unless such uses are approved as a part of the Specific Use Permit (SUP) authorizing the *Private Club*. Any such approved use shall be in compliance with all requirements of this permit, all applicable requirements of the Unified Development Code (UDC), and any other applicable ordinances.

(7) *Sexually Oriented Businesses.*

(a) *Sexually Oriented Businesses* shall not be permitted within any Overlay District in the City of Rockwall.

(F) *Retail and Personal Service Land Uses Conditions.*

(1) *Portable Beverage Service Facility*.

(a) The service shall be limited to snow cone stands, beverage stands serving non-alcoholic beverages such as coffee, juices or sodas.

(b) The maximum time limit of such temporary use shall not exceed 150-days annually or a time limit otherwise approved by the City Council. At the end of the time period, the structure shall be removed from the property.

(c) Any temporary power poles will be removed on the date of or immediately following the termination date of the permit.

(d) No additional freestanding signage shall be permitted.

(e) The temporary portable structure or trailer shall meet all health and electrical codes off the City.

(f) Any such temporary facility shall not reduce the number of required parking spaces of any nearby building or use.

(g) Any such temporary facility shall have permanent restrooms for employees available within 300-feet of the door of the portable beverage facility. Written permission from the permanent building owner for restroom use must be submitted to the building official; no portable restroom facility is allowed.

(h) Any such temporary facility shall be located on an all-weather (*i.e. asphalt or concrete*) parking surface with adequate space for parking and circulation, unless alternatively approved by the City Council.

(2) *Temporary Christmas Tree Sales Lot and Similar Uses.* A building or land area that provides seasonal uses such as the sale of Christmas trees, pumpkins, and other temporary uses which occur at certain times of the year.

(a) Any such temporary facility of lot shall be limited to the seasonal sales of Christmas trees.

(b) The maximum time limit of such use shall not exceed 45-days annually. At the end of the 45-day period, the structure and other facilities related to the use shall be removed from the property.

(c) Any temporary power poles will be removed on the date of or immediately following the termination date of the permit.

(d) No additional freestanding signage shall be permitted.
(e) Any such temporary facility shall not reduce the number of required parking spaces of any nearby building or use.
(f) Any such temporary facility shall have permanent restrooms for employees available within 300-feet for which written permission from the permanent building owner for restroom use must be submitted to the Chief Building Official; no portable restroom facility is allowed.

(3) *Craft/Micro Brewery, Distillery and/or Winery.*

(a) A *Craft/Micro Brewery* areas shall be less than 12,000 SF in total building area.
(b) A maximum of 40 percent of the total floor areas can be dedicated to the direct sale of on-site manufactured product.
(c) A craft or micro-brewery, distillery and/or winery may include the following accessory uses (*in accordance with any applicable land use standards and requirements*): [*1*] a tasting room to dispense beer, wine, and/or spirits for on premise consumption, [*2*] meeting/banquet facilities, [*3*] restaurants, and/or [*4*] retail package sales of on-site manufactured product for off-premise consumption shall be allowed as permitted by the Texas Alcohol Beverage Commission's (TABC) Alcoholic Beverage Code.
(d) A facility that does not have a manufacturing component (*i.e. only provides tasting or retail sales of alcoholic beverages*) shall not be considered a craft or micro-brewery, distillery and/or winery and shall be prohibited.

(4) *Incidental Display.*

(a) Outdoor sales and displays are permitted only in areas designated on the Site Plan filed with the City.
(b) Outdoor sales and display may not exceed five (5) percent of the adjacent building floor area (*building area is defined as the entirely enclosed portion of the primary building*).
(c) Outdoor sales and display may occupy up to 30 percent of a covered sidewalk that is located within 20-feet of the building. Such display shall not impede pedestrian use of the sidewalk and at least a five (5) foot passable distance shall be maintained.
(d) Any outside sales and display not located on a covered sidewalk must be screened from view of adjacent roadways, public areas and adjacent properties. Such screening must:

(1) Be a minimum of eight feet high or one foot taller than the materials being displayed, whichever is greater.
(2) Include a minimum of 20 percent solid screening matching the material of the primary building. The remainder may be solid evergreen planting, or wrought iron or decorative metal fence.

(e) Any outside sales and display not located on a covered sidewalk must be located immediately adjacent to or connected to the primary structure.
(f) No outdoor sales and display may be located in any portion of a parking lot.
(g) Christmas tree sales are exempted from these standards, and such trees may be stored outdoors for sale beginning one week before Thanksgiving and ending December 31st (see *Temporary Christmas Tree Sales and Similar Uses*).
(h) The accessory seasonal display of plants and related landscape materials such as fertilizer, peat moss, and ornamental landscape items by a permitted retail use may be displayed upon approval by the building inspector only under the following conditions:

(1) The plants and related materials shall be located on an all-weather surface.
(2) All of the plants and related materials shall be located behind the building line.
(3) The storage area for display of plants and related materials shall not occupy any required parking spaces. Excess, parking spaces may be used if all other requirements are met.
(4) The storage area for display of plants shall not occupy more than five percent of the total lot area.

(i) The restrictions above shall be construed to prohibit the storage and display of rental trailers and trucks except in districts where such uses are indicated as permitted uses.

(5) *Food Truck/Trailer.*

(a) The *Food Truck/Trailer* shall be located on an improved surface (*i.e. concrete or asphalt*) on private property where an existing business is currently operating with a valid certificate of occupancy (CO). Operation within the public right-of-way is prohibited.
(b) *Food Trucks/Trailers* shall only operate between the hours of 7:00 AM and 10:00 PM, and the *Food Truck/Trailer* shall be required to be removed from the property during non-operation hours (*i.e. overnight storage on the site is prohibited*).
(c) The *Food Truck/Trailer* shall be equipped with trash receptacles approved by the city health inspector and that comply with all other applicable city codes. The outside storage of trash shall be prohibited.
(d) The *Food Truck/Trailer* shall have permanent restrooms (*i.e. public or private*) for employees available within 300-feet of the facility. Portable restrooms facilities are not permitted to meet this requirement.
(e) The *Food Truck/Trailer* shall have access to a minimum of two (2) dedicated parking spaces and shall not reduce the required parking for the existing building/land use.
(f) All noise and lighting shall be subject to the requirements of the Municipal Code of Ordinances and the Unified Development Code. In addition, no lights associated with the operation of a *Food Truck/Trailer* may be directed towards an adjacent property or onto a public right-of-way.
(g) All signage must be attached to the *Food Truck/Trailer* with the exception of one freestanding menu board no greater than eight SF placed adjacent to the *Food Truck/Trailer*.
(h) *Food Truck/Trailer* shall be prohibited from locating within the Downtown Square (*i.e. the properties bounded by N. Alamo Street, E. Interurban Street, S. Fannin Street, and E. Washington Street*); however, the city council may consider allowing a food truck/trailer to locate within the Downtown Square on a *case-by-case* basis through the approval of a Specific Use Permit (SUP).

(6) *General Personal Service.*

(a) Outside storage shall be prohibited with this land use.

(7) *Permanent Cosmetics.*

(a) It includes electrolysis, but does not include ornamental tattoos.

(8) *Rental Store without Outside Storage and/or Display.*

(a) Outside storage and/or display is prohibited for this land use.

(9) *Restaurant with Less Than 2,000 SF with Drive-Through or Drive-In.*

(a) Drive-through lanes shall not have access to a local residential street.
(b) Additional landscape screening shall be installed adjacent to drive-through lanes to impair the visibility and impact of head-lights from motor vehicles in the drive-through lane on adjacent properties, rights-of-way, parks and open space.
(c) Unless otherwise approved by the Planning and Zoning Commission, stacking lanes for a drive-through service window shall accommodate a minimum of six (6) standard sized motor vehicles per lane.

(10) *Restaurant with 2,000 SF or More with Drive-Through or Drive-In.*

(a) Drive-through lanes shall not have access to a local residential street.
(b) Additional landscape screening shall be installed adjacent to drive-through lanes to impair the visibility and impact of head-lights from motor vehicles in the drive-through lane on adjacent properties, rights-of-way, parks and open space.
(c) Unless otherwise approved by the Planning and Zoning Commission, stacking lanes for a drive-through service window shall accommodate a minimum of six (6) standard sized motor vehicles per lane.

(Ord. No. 07-31, 8-20-2007; Ord. No. 10-14, § 19, 7-6-2010; Ord. No. 10-32, § 2, 12-6-2010; Ord. No. 15-23, § 1, 8-3-2015; Ord. No. 18-04, § 1, 1-2-2018; Ord. No. 18-27, § 1, 6-4-2018; Ord. No. 18-37, § 1, 9-4-2018)

(G) *Commercial and Business Services Land Uses.*

(1) *Building and Landscape Material with Outside Storage.*

(a) Outside storage shall be permitted in accordance with the requirements for outside storage contained in Article IV, *Permissible Uses*, and Article VIII, *Landscape and Fence Standards*.
(b) All outside storage must be screened from adjacent properties, public right-of-way, and parks and open space.

(2) *Building and Landscape Material with Limited Outside Storage.*

(a) Outdoor sales and displays are permitted only in areas designated on the site plan filed with the City.
(b) Outdoor sales and display may not exceed five (5) percent of the adjacent building floor area (*Building area is defined as the entirely enclosed air-conditioned portion of the primary building*).
(c) Outdoor sales and display may occupy up to 30 percent of a covered sidewalk that is located within 20-feet of the building. Such display shall not impede pedestrian use of the sidewalk and at least a six (6) foot passable distance shall be maintained.
(d) Any outside sales and display not located on a covered sidewalk must be screened from view of adjacent roadways, public areas and adjacent properties. Such screening must:

(1) Be a minimum of eight (8) feet high or one (1) foot taller than the materials being displayed, whichever is greater.
(2) Include minimum of 20 percent solid screening matching the material of the primary building. The remainder may be solid evergreen planting, or wrought iron or decorative metal fence.

(e) Any outside sales and display not located on a covered sidewalk must be located immediately adjacent to or connected to the primary structure.
(f) No outdoor sales and display may be located in any portion of a parking lot.

(3) *Building Maintenance, Service, and Sales with Outside Storage.*

(a) Outside storage shall be permitted in accordance with the requirements for outside storage contained in Article IV, *Permissible Uses*, and Article VIII, *Landscape and Fence Standards*.
(b) All outside storage must be screened from adjacent properties, public right-of-way, and parks and open space.

(4) *Furniture Upholstery/Refinishing and Resale*.

(a) In the Commercial (C) District, the furniture upholstery refinishing or resale land use is only permitted as an ancillary use to a general retail store (*i.e. a business whose primary purpose is to sell finished goods*) by Specific Use Permit (SUP).

(5) *Temporary On-site Construction Office*.

(a) Only one (1) construction or field office shall be allowed per construction site, unless specifically approved by the Chief Building Official.
(b) Temporary construction offices shall be limited to the period of construction with a two (2) year initial period and one (1) year extensions being authorized by the Chief Building Official.

(Ord. No. 18-26, § 1, 6-14-2018)

(H) *Auto and Marine-Related Land Uses.*

(1) *Major Auto Repair Garage*.

(a) Garage doors shall not face a public right-of-way, park or open space, or residentially zoned or used property.
(b) Vehicles, equipment, parts or inventory shall not be stored outside overnight unless granted by the Planning and Zoning Commission and City Council through a Specific Use Permit (SUP). If permitted all stored items shall be screened from public right-of-way, sidewalks and open space, and any residentially zoned or used property in accordance with the requirements of Article IV, *Permissible Uses*, and Article VIII, *Landscape and Fence Standards*.

(2) *Minor Auto Repair Garage*.

(a) The replacement of any part or repair of any part that does not require removal of the engine head or pan, engine transmission or differential; incidental body and fender work, minor painting and upholstering service. It also includes *quick lube* type businesses. This applies to only to passenger automobiles and trucks not in excess of 7,000 pounds gross weight.
(b) In a General Retail (GR) District, a *Minor Auto Repair Garage* is permitted as an accessory to a retail use, when the gross floor area of the auto repair and related storage does not exceed 30 percent of the retail sales floor area. If it is a stand-alone use, it shall require a Specific Use Permit (SUP).
(c) In a Commercial (C) District, a *Minor Auto Repair Garage* is permitted as an accessory to a retail use, provided all work is conducted wholly within a completely enclosed building. If it is a stand-alone use, it shall require a Specific Use Permit (SUP).
(d) Garage doors or bays shall not face the street or a residential lot.
(e) Vehicles, equipment, parts or inventory shall not be stored outside overnight unless granted by the Planning and Zoning Commission and City Council through a Specific Use Permit (SUP). If permitted all stored items shall be screened from public right-of-way, sidewalks and open space, and any residentially zoned or used property in accordance with the requirements of Article IV, *Permissible Uses*, and Article VIII, *Landscape and Fence Standards*.
(f) A site plan must be approved prior to issuance of any building permit.
(g) In the Downtown (DT) District a *Minor Auto Repair Garage* shall not be located within 500-feet of the Historic Courthouse property.

(3) *Boat and Trailer Dealerships (New and Used)*.

(a) The area to be used for outside storage and display shall not exceed 50 percent of the total lot area within 100-feet of any adjacent street.
(b) All such outside storage and display areas must be permanently paved to City standards.
(c) All such outside storage and display areas must be screened along all road frontages with a solid evergreen landscape screen a minimum of three (3) feet in height.
(d) All such outside storage and display areas may be lighted with directed exterior lighting that does not glare onto any adjacent roadways.
(e) A site plan and landscape plan shall be approved prior to issuance of any building permit.
(f) Such uses shall only be permitted along IH-30 and other arterials, as identified on the City's Master Thoroughfare Plan, but shall be excluded within the Scenic Overlay (SOV) District and along FM-740 and SH-66.

(4) *Car Wash (Full-Service or Self-Service).*

(a) Entrances and exits to the car wash shall not directly face any public right-of-way. On corner sites, car wash entrances or exits shall not open toward the street with the highest traffic volume, or as determined by the Director of Planning and Zoning.
(b) The carwash shall be set back a minimum of 50-feet from any street frontage.

(5) *New and/or Used Indoor Motor Vehicle Dealership/Showroom*.

(a) The sales/storage facility must be a completely enclosed building.
(b) Outside display or storage of vehicles shall be prohibited. This includes storing vehicles under canopies/awnings or similar covered structures.
(c) All activities shall remain inside the building *(i.e. no detailing, sales activities, et cetera shall be performed outside the building*).
(d) Accessory uses may be allowed in compliance with Section 1, *Land Use Schedule*.

(6) *New Motor Vehicle Dealership for Cars and Light Trucks.*

(a) All outside display of vehicles must be on an approved concrete, or enhanced concrete surface.
(b) All vehicle display areas must meet the landscape standards for parking areas.

(7) *Used Motor Vehicle Dealership for Cars and Light Trucks.*

(a) Used vehicles may only be sold as an ancillary use to new vehicle sales.

(8) *Service Station*.

(a) Service station does not include any premises where retail sales space exceeds 25 percent of the total building area or 500 SF of gross floor area, whichever is less.

(9) *Towing and Impound Yard*.

(a) A towing and impound yard must comply with all requirements, including definitions and permitting procedures for wrecking and towing services, that are specified in Article VI, *Wrecker and Towing Services*, of Chapter 12, *Businesses and Sales*, of the Municipal Code of Ordinances, unless otherwise approved by the Planning and Zoning Commission and City council as part of the Specific Use Permit (SUP) approved for the use.

(10) *Towing Service without~~, no~~ Storage*.

(a) A towing storage with no outside storage must comply with all requirements, including definitions and permitting procedures for wrecking and towing services, that are specified in Article VI, *Wrecker and Towing Services*, of Chapter 12, *Businesses and Sales*, of the Municipal Code of Ordinances,

(11) *Truck Stop with Gasoline Sales and Accessory Services*.

(a) Entrances and exits to the service bays shall not directly face any public street. On corner sites, service bay entrances or exits shall not open toward the street with the highest traffic volume, or as determined by the Director of Planning and Zoning.
(b) The location of access drives from adjacent streets shall be determined by the Director of Planning and Zoning.

(Ord. No. 06-14, 4-17-2006; Ord. No. 10-14, § 20, 7-6-2010; Ord. No. 11-13, § 2, 4-13-2011; Ord. No. 14-52, § 1, 12-1-2014)

(I) *Industrial and Manufacturing Land Uses.*

(1) *Asphalt or Concrete Batch Plant*.

(a) Any *Asphalt or Concrete Batch Plant* shall meet environmental standards established by Unified Development Code (UDC) and state and federal agencies.

(2) *Temporary Asphalt or Concrete Batch Plant*.

(a) A permit from the Chief Building Official stating any special conditions relating to its siting and reduction of potential impacts on adjacent uses, shall be required for this use.
(b) *Temporary Asphalt or Concrete Batch Plants* are limited to the period of construction if was constructed to serve.
(c) Any *Asphalt or Concrete Batch Plant* shall meet environmental standards established by Unified Development Code (UDC) and state and federal agencies.

(3) *Brewery or Distillery*.

(a) A brewery or distillery may include a tasting room to dispense beer for on premise consumption as an accessory use (in accordance with any applicable land use standards and requirements).

(4) *Environmentally Hazardous Materials*.

(a) Any land use which involves environmentally hazardous materials shall meet environmental standards established by Unified Development Code (UDC) and state and federal agencies.
(b) A permit from the Chief Building Official stating any special conditions relating to its siting and reduction of potential impacts on adjacent uses, shall be required for this use.

(5) *Mining and Extraction (Sand, Gravel, Oil and Other)*.

(a) Any mining and extraction activity shall meet environmental standards established by Unified Development Code (UDC) and state and federal agencies.
(b) A permit from the Chief Building Official stating any special conditions relating to its siting and reduction of potential impacts on adjacent uses, shall be required for this use.

(6) *Winery*.

(a) A winery may include the following accessory uses (in accordance with any applicable land use standards and requirements): [*1*] a tasting room to dispense wine for on premise consumption, [*2*] meeting/banquet facilities, [*3*] restaurants, and/or [*4*] retail sales of wine for off-premise consumption.

(Ord. No. 18-27, § 1, 6-4-2018)

(J) *Wholesale, Distribution and Storage Land Uses.*

(1) *Mini-Warehouse.*

(a) The number of storage units per acre shall not exceed 125, the minimum number of storage units shall be ten (10), and the maximum site area shall be five (5) acres.
(b) Only single-story units are allowed; however, no multistory buildings will be permitted unless an exception is approved by the Planning and Zoning Commission and City Council. If necessary, the office/caretaker residence-unit may exceed one (1) story, but shall not be greater than 36-feet in height.
(c) A minimum of two (2) parking spaces shall be required for the on-site manager (*i.e., caretaker, resident or otherwise*).

(d) No direct access from FM-740, SH-205, SH-66, SH-276, FM-3097, FM-552, FM-549 and John King Boulevard. The City Council may consider granting direct access from the above-mentioned roadways after review and determination of the availability of access to the specific property.
(e) Perimeter walls shall be provided which face the front, rear and side property lines. Overhead doors shall not face adjacent streets. Perimeter walls facing the front yard shall incorporate architectural features to break up the long repetitive nature of self-storage buildings (e.g. offsets in buildings, variation of materials, and/or variation of heights, etc.). No gutters and downspouts shall be incorporated in the perimeter walls facing the front property line.
(f) The front, side and rear building set back areas shall be landscaped. Landscaping should be clustered, creating interesting relief from the long repetitive nature of self-storage buildings.
(g) The facilities shall incorporate the use of perimeter gates that limit access to the storage areas to customers only. Special access for fire and police personnel shall be provided as required.
(h) All screening fences shall be wrought iron with landscaping/living screen or masonry walls in accordance with the screening requirements contained in Subsection 5.02, *Landscape Screening*, of Article VIII, *Landscape and Fence Standards*. See-through fencing should be wrought iron, or similar. Chainlink fencing of any kind shall be prohibited.
(i) Buildings and see-through fencing should be oriented in a manner to restrict the visibility of interior overhead doors and drives from public right-of-way. The color(s) of the garage doors, as well as other doors within the facility, shall compliment the exterior colors of the main building(s).
(j) The commercial operation of rental trucks and trailers shall be prohibited.
(k) Businesses shall not be allowed to operate in the individual storage units.
(l) No outside storage of any kind shall be allowed (*including the outside storage of boats, recreational vehicles, and motor or self-propelled vehicles*).
(m) Concrete shall be used for all paving.
(n) Roofs shall have a minimum pitch of 1:3 and be constructed with a metal standing seam. Mechanical equipment shall be screened with the roof structure or parapet walls.
(o) Lighting standards shall be limited to a maximum of 20-feet in height.
(p) The residential unit as an accessory to the permitted use shall not exceed 1,600 SF.

(2) *Outside Storage and/or Outside Display*.

(a) *Outside Storage and/or Outside Display* shall adhere to the requirements of Subsection 1.05, *Screening Standards*, of Article V, *District Development Standards*.
(b) No outside storage shall be allowed in any zoning district adjacent to IH-30. However, on property that is zoned Light Industrial (LI) District and adjacent to IH-30, a Specific Use Permit (SUP) may be considered on a *case-by-case* basis to allow for *Outside Storage and/or Outside Display* in conjunction with a use that is permitted under Section 1, *Land Use Schedule*. A Specific Use Permit (SUP) approved for this use may be subject to time limitations, site/landscaping or building enhancements, or other restrictions deemed appropriate by the Planning and Zoning Commission and City Council.
(c) *Incidental Display*, as defined in Subsection 2.07(11), shall not be considered *Outside Storage and/or Outside Display*, and shall be subject to the requirements of Subsection 2.07(11).

(Ord. No. 11-47, § 2, 12-5-2011)

SUBSECTION 2.12: UTILITIES, COMMUNICATIONS AND TRANSPORTATION LAND USES

(1) *Antenna as an Accessory.*

(a) The antenna installation shall comply with the height and area regulations of the applicable zoning district.
(b) Administrative approval of the antenna installation shall be required.
(c) The antenna will meet all applicable requirements of Subsection 3.06, *Antennas*.

(2) *Commercial Antenna.*

(a) Located entirely within a non-residential structure as allowed under the applicable zoning district regulations:

(1) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within the principal building on the property or in an underground vault.
(2) Any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six (6) feet at maturity or a masonry screening wall at least eight (8) feet in height, compatible in color with the principal building and the equipment building.
(3) At least one (1) paved parking space with paved access thereto shall be provided at the antenna location; said parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property.
(4) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.
(5) No more than three (3) separate equipment buildings shall be located on a single lot.
(6) The antenna will meet all applicable requirements of Subsection 3.06, *Antennas*.

(3) *Antenna for an Amateur Radio.*

(a) Amateur antenna support structures, antenna, or support wires must be located behind the front facade of the main building, and no amateur antenna support structure, antenna, or support wires may be located in the required rear or side yard setback.
(b) No amateur antenna support structure or antenna may be greater than the maximum height of the underlying zoning district. However, the height of such antenna support structure or antenna may be increased up to 70-feet provided the setback from side and rear setback lines is increased by one (1) foot for every foot the height exceeds the limit specified in the underlying zoning district. In addition, the City Council may consider approval of a Specific Use Permit (SUP) for any amateur antenna support structure or antenna that is proposed to exceed these height limits.
(c) Only one (1) amateur radio support structure may be erected on a residential lot. Additional antenna support structures may be allowed with the approval of a Specific Use Permit (SUP).
(d) The antenna will meet all applicable requirements of Subsection 3.06, *Antennas*.

(4) *Antenna Dish.*

(a) Dish antennas shall not be located within front or side yards, and shall be fully screened from view from streets and public or common open areas. In all cases, they must be screened to minimize the visual impact from adjacent properties.
(b) In residential districts, they shall be located only in rear yards. However, dish antennas 20-inches or smaller may be roof mounted provided that they are located behind a transverse roof ridge line and screened from adjacent properties.
(c) In commercial districts, if located on ground level, dish antennas shall be screened to the full height of the structure with landscaping. They may also be allowed on roof tops provided that they are located and screened so as to minimize visual impact from other properties in the area.
(d) In industrial districts, dish antennas may be ground or roof mounted but must be screened to minimize the visual impact from adjacent properties.
(e) If the standards above are not reasonably achievable, a Specific Use Permit (SUP) shall be obtained prior to installation of a dish antenna.
(f) The antenna will meet all applicable requirements of Subsection 3.06, *Antennas*.

(5) *Commercial Freestanding Antenna.*

(a) *Commercial Freestanding Antenna* attached to a utility installation or a light pole in a public park or on public school property:

(1) The height of the utility installation or light pole upon which the antenna is attached shall be greater than 75-feet but no more than 150-feet.
(2) The antenna shall extend no more than ten feet above the maximum height of the utility structure.
(3) A minimum clearance of 15-feet shall be maintained from the ground to the lowest element of the antenna.
(4) A minimum setback of 20-feet shall be maintained from the utility installation, light pole or any equipment building to the lot line of the nearest property developed for residential occupancy.
(5) Any necessary equipment building may be constructed of metal with a baked-on or pre-painted surface and shall not exceed seven feet in height and 75 SF in area. The exterior surfaces shall be covered in paint or a similar coating; or the building may be built of a material allowed by the applicable zoning district for the principal building; or the necessary equipment may be contained entirely within a principal building on the property or in an underground vault. All equipment buildings shall be maintained free from graffiti.
(6) At least one (1) paved parking space with paved access may be required at the antenna location; this parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property, if any.
(7) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.
(8) No more than three separate antennas and three (3) equipment buildings shall be located on a single lot or structure.
(9) The antenna will meet all applicable requirements of Subsection 3.06, *Antennas*.

(b) *Commercial Freestanding Antenna* that is *not* attached to a utility installation or a light pole in a public park or on public school property:

(1) The antenna installation shall comply with the height and area regulations of the applicable zoning district and the support structure shall not exceed 125-feet in height.
(2) The antenna shall not extend more than ten (10) feet above the maximum height of the support structure.
(3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.
(4) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six feet at maturity or by a masonry screening wall at least eight (8) feet in height, compatible in color and character with the principal building and the equipment building.
(5) At least one (1) paved parking space with paved access may be required at the antenna location; this space need not be reserved exclusively for use in conjunction with the antenna facility and may be one (1) of the spaces required for the principal use on the property.
(6) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.
(7) No more than three (3) separate antennas and three equipment buildings shall be located on a single lot or structure.
(8) The antenna will meet all applicable requirements of Subsection 3.06, *Antennas*.

(c) *Replacement of an Existing Freestanding Antenna* that is not been permitted this Article -- *but that is considered to be a legally recognized, non-conforming structure or facility* --, the replacement of the antenna installation may be approved by the City Council on a *case-by-case basis* through a Specific Use Permit (SUP) pending the request conforms to the following criteria:

(1) The replacement of any legally recognized, non-conforming antenna installation shall only be permitted within the Heavy Commercial (HC) District, Light Industrial (LI) District, and Heavy Industrial (HI) District.

(2) The replacement antenna installation shall be set back a minimum distance equal to the height of the proposed structure from any residential property or residentially zoned property.
(3) The existing antenna installation shall be removed from the property within 14-days of the completion of the proposed replacement antenna installation.
(4) The height of the replacement installation shall be equal to or less than the existing antenna installation, and any additional antennas added to the structure shall not exceed the height of the replacement installation.
(5) Any necessary equipment buildings associated with the replacement installation shall be of a material allowed by the applicable zoning district and be similar in color and character to the principal building on the site. As an alternative, the necessary equipment can be contained entirely within the principal building on the property or in an underground vault.
(6) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a landscape screening that will achieve a height of at least six (6) feet at maturity. As an alternative a masonry screening wall at least eight (8) feet in height, compatible in color and character with the principal building may be used.
(7) At least one (1) paved parking space with paved access may be required at the antenna location. This parking space does not need to be reserved exclusively for the replacement tower use and may be one of the spaces required for the principal use on the property.
(8) The antenna will meet all applicable requirements of Subsection 3.06, *Antennas*.

(6) *Mounted Commercial Antenna.*

(a) *Mounted Commercial Antenna* that 12-feet or less in height, on non-residential structures allowed under the applicable zoning district regulations:

(1) The total height of the structure, including the antenna, shall not exceed the maximum height of the zoning district by more than 12-feet.
(2) A minimum clearance of 15-feet shall be maintained from the ground to the lowest element of the antenna.
(3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.
(4) The antenna and any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge, which will achieve a height of at least six (6) feet at maturity or a masonry screening wall at least eight (8) feet in height, compatible in color and character with the principal building and the equipment building.
(5) At least one (1) paved parking space with paved access thereto shall be provided at the antenna location; said space need not be reserved exclusively for use in conjunction with the antenna facility and may be one of the spaces required for the principal use on the property.
(6) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.
(7) The antenna will meet all applicable requirements of Subsection 3.06, *Antennas*.

(7) *Solar Energy Collector Panels and System.*

(a) Solar energy collector panels installed on a pitched roof shall be of a flat configuration and shall be subject to the following requirements:

(1) Configuration of pitched roof solar energy collector panels shall be a regular quadrangular shape, flat to the roof or integrated with the roof, and aligned with the natural roof edges.
(2) The surface of the solar energy collector panel shall not be more than six inches above the surface of the pitched roof.

(b) Solar energy collector panels installed on a flat roof, whether rack-mounted or flat-mounted, shall be screened from public view.

(1) The height of such screening, at the minimum, shall be the height of the solar energy collector panel.
(2) The screening may be by a parapet or screening wall replicating the materials of the building.

(c) Reflective flare of solar energy collector panels shall be minimized by the positioning of the solar collector panels or by the use of nonglare glazing.
(d) Piping, wiring and other mechanical accessories shall be concealed within a roof mounted solar energy collector panel. If some portion of the piping, wiring or other mechanical accessories cannot be practically concealed then those portions shall be painted so as to blend with the roofing material.
(e) Ground mounted or pole mounted solar energy collector panels shall be located behind the primary building, and shall be fully screened from public view by a solid screening fence or wall that meets all code requirements of the city.
(f) The maximum overall height of ground mounted or pole mounted solar energy collector panels shall not exceed 12-feet.
(g) In residential zoning districts, the total coverage area of solar energy collector panels shall not exceed 1,000 SF on a single lot.
(h) Any solar energy collector panels or systems not meeting these requirements, or any installation of solar energy systems as the principal use on any property, shall require approval of a Specific Use Permit (SUP).

SECTION 3. - OTHER SPECIAL USE STANDARDS

SUBSECTION 3.01: FARM ANIMALS AND HORSES

(A) Grazing animals. In the SF-E and SF-1 Districts, grazing animals 500 pounds or greater, including horses and cattle must have a minimum fenced or enclosed area of 40,000 square feet per animal. Grazing animals of less than 500 pounds, including sheep and goats, must have a minimum fenced or enclosed area of 15,000 square feet per animal.
(B) Other animals. An SUP is required for other farm animals, including chickens and swine (except for “potbellied pigs” as defined in section 6-1 of the Code of Ordinances), and for a reduction in the land area required for grazing farm animals. The city shall not grant an SUP for any farm animal unless it is convinced that the presence of such animals will not injure the use and enjoyment of neighboring properties, including the impact of dust, flies and odor.
(C) General conditions. Notwithstanding the conditions above,

(1) Ground accumulations of manure shall be collected and properly disposed of so as not to create offensive odors, fly breeding, or in any way pose a health hazard or nuisance to humans and animals;
(2) Fences or pens, corrals or similar enclosures shall be of sufficient height and strength to properly retain the animal; and
(3) In SF-E and SF-1 [Districts], no swine or fowl are permitted, except for “potbellied pigs” as defined in section 6-1 of the Code of Ordinances.
(4) In the Agricultural District or on unplatted tracts of land of five acres or more, standards for animals are found in section 6-162 of the Code of Ordinances.

(Ord. No. 06-14, 4-17-2006; Ord. No. 07-18, 6-4-2007; Ord. No. 10-14, § 26, 7-6-2010)

SUBSECTION 3.02: TEMPORARY ACCOMMODATION FOR EMPLOYEES, CUSTOMERS AND VISITORS

(A) Temporary accommodations. Temporary accommodation for employees, customers and visitors may be provided as an ancillary use in commercial zoning districts provided that:

(1) Such accommodation is clearly in support of the business operation;

(2) No rental of such facilities to the general transient public occurs;
(3) Accommodation is for temporary stays, not to exceed 30 days; and
(4) No more than five percent of the building area is utilized for this ancillary use.

SUBSECTION 3.03: UTILITY DISTRIBUTION LINES

All utility distribution lines shall be placed underground. Utility distribution lines placed above-ground shall require special approval of the city council based upon a recommendation of the planning and zoning commission.

SUBSECTION 3.04: FLAG POLES

Flag poles are permitted in all districts, but must meet the building height and setback requirements for each district. (See article V [of this Unified Development Code], District Standards.)

SUBSECTION 3.05: ALCOHOLIC BEVERAGE SALES

(A) *Restaurants with alcoholic beverage sales.*

(1) Restaurants may serve alcoholic beverages for on-premises consumption by right if they are located on property that was within the city limits as of November 14, 2007, and are located in a zoning district allowing such use. For restaurants located on property that was annexed after November 14, 2007, a private club permit must be obtained for the ability to serve alcohol and must be located in an appropriate zoning district that allows such use.
(2) Restaurants that sell alcoholic beverages for on-premises consumption shall be subject to compliance with the Texas Alcoholic Beverage Code, as it exists or may be amended and must be located not less than 300 feet from a church, public school, private school (as defined by the Texas Alcoholic Beverage Code) or public hospital. For a church or public hospital, the 300 feet shall be measured along the property lines of the street fronts and from front door to front door, and in a direct line across intersections. For public schools or private schools, the measurement of distance shall be in direct line from the property line of the public school or private school to the property line of the restaurant and in a direct line across intersections. If the permit or license holder is located on or above the fifth story of a multistory building, in a direct line from the property line of the public or private school to the property line of the place of business, in a direct line across intersections, and vertically up the building at the property line to the base of the floor on which the permit or license holder is located.

   (Ord. No. 10-14, § 27, 7-6-2010)

   The city council may grant a variance to the distance regulations if the city council determines that enforcement of those regulations in a particular instance is not in the best interest of the public, constitutes waste of inefficient use of land or other resources, creates an undue hardship on an applicant for a license or permit, does not serve its intended purpose, is not effective or necessary, or for any other reason the city council, after consideration of the health, safety, and welfare of the public and the equities of the situation, determines is in the best interest of the community.
(3) Restaurants that sell alcoholic beverages for on-premises consumption shall be subject to compliance with the Texas Alcoholic Beverage Code, as it exists or may be amended and shall not be permitted to have exterior signs advertising the sale of alcoholic beverages other than those authorized under the Texas Alcoholic Beverage Code and chapter 32 of the Code of Ordinances, pertaining to signs.

(B) *Retail establishments with alcoholic beverage sales.*

(1) Retail establishments may sell beer and wine for off-premises consumption by right if they are located on property that was within the city limits as of November 14, 2007, and are located in a zoning district allowing such use. Retail establishments located on property that was annexed after November 14, 2007, may not engage in the selling of beer and wine for off-premises consumption.

(2) Retail establishments engaged in the selling of beer and wine to the general public for off-premises consumption shall be subject to compliance with the Texas Alcoholic Beverage Code, as it exists or may be amended and must be located not less than 300 feet from a church, public school, private school (as defined by the Texas Alcoholic Beverage Code) or public hospital. For a church or public hospital, the 300 feet shall be measured along the property lines of the street fronts and from front door to front door, and in a direct line across intersections. For public schools or private schools, the measurement of distance shall be in direct line from the property line of the public school to the property line of the retail establishment and in a direct line across intersections. If the permit or license holder is located on or above the fifth story of a multistory building, the measurement shall be in a direct line from the property line of the public or private school to the property line of the place of business, in a direct line across intersections, and vertically up the building at the property line to the base of the floor on which the permit or license holder is located.

(Ord. No. 10-14, § 27, 7-6-2010)

The city council may grant a variance to the distance regulations if the city council determines that enforcement of those regulations in a particular instance is not in the best interest of the public, constitutes waste of inefficient use of land or other resources, creates an undue hardship on an applicant for a license or permit, does not serve its intended purpose, is not effective or necessary, or for any other reason the city council, after consideration of the health, safety, and welfare of the public and the equities of the situation, determines is in the best interest of the community.

(3) Retail establishments engaged in the selling of beer and wine for off-premise consumption shall be subject to compliance with the Texas Alcoholic Beverage Code, as it exists or may be amended and shall not be permitted to have exterior signs advertising the sale of alcoholic beverages other than those authorized under the Texas Alcoholic Beverage Code and chapter 32 of the Code of Ordinances, pertaining to signs.

(Ord. No. 08-05, 1-22-2008)

(C) *Drive-through sales of pre-packaged beverages, convenience stores, retail sales with gasoline.*

(1) An establishment may not offer drive-in, drive-up, drive through, or walk-up sales or service of pre-packaged, sealed, unopened beverages.
(2) A convenience store may not contain less than 1,000 square feet of retail space.
(3) For purposes of this section, the terms “drive-in,” “drive-up,” “drive-through,” and “walk-up” do not prohibit the service of food or beverages to customers:

(a) Who must physically leave their vehicles and enter a building in order to make a purchase; or
(b) As part of a drive-through restaurant in connection with the sale or service of food to the customer.

(Ord. No. 10-14, § 27, 7-6-2010)

State Law reference— Location restrictions, V.T.C.A., Alcoholic Beverage Code § 109.33.

SUBSECTION 3.06: ANTENNAS

(A) *Construction and Maintenance Requirements*. All antenna masts, towers and antenna supports used for television and radio reception or transmission shall be constructed and maintained in accordance with the current National Electrical Code and the Building Code of the City.

(B) Permit Required. Any person desiring to erect or have erected an antenna more than 25-feet in height above ground level, or an antenna mast 25-feet or less in height but not erected as required by this section, shall make written application to the building inspection department for a permit to erect same. Sufficient plans and specifications, as determined by the Chief Building Official, must accompany each application. It shall

be unlawful and a violation of this division to erect, or cause to be erected, or to maintain, or cause to maintain, such antenna mast without first having obtained a permit. It shall be the duty of the permittee to request a final inspection upon completion of the antenna system. Domestic TV antennas are exempt from this section.

(C) Restrictions and Limitations. All antenna systems constructed and maintained under the provisions of this section shall be subject to the following restrictions and limitations:

(1) No such antenna system shall be more than 99-feet in height.
(2) The location on the lot of such antenna system shall comply with the requirements of this Unified Development Code insofar as the front building line and side yard building line and requirements are concerned. No portion of an antenna system shall extend beyond the front building line on any lot, and on corner lots the side yard setback requirements shall be adhered to on the side adjacent to a public street, and where the front and side yard requirements are applicable, all portions of such structures shall be within the limits fixed by such requirements.
(3) All antenna systems constructed under the provisions of this section shall be maintained so as to at all times comply with the requirements of this section.
(4) The regulations contained herein shall not apply to the extent that they have been preempted by specific regulations of the FCC to the contrary.

(D) Roof-Mounted Equipment. All roof-mounted equipment, including fans, vents, air conditioning units and cooling towers, should be screened to eliminate the view from the ground level of adjacent properties. The screen shall be constructed of materials approved by the director of planning. Roof-mounted equipment should be placed and finished in a manner which minimizes its visibility from overhead views from nearby buildings and elevated thoroughfare sections.

(1) The overall screening height will be the height of the tallest element of roof-mounted equipment.
(2) The outside of the screening device should be painted or finished in a similar color to the building facade, trim or roof surface to minimize the visibility of the equipment and screen the view from ground level.
(3) Roof-mounted equipment and the inside of the screening device should be painted similar to the color of the roof surface in order to minimize the visibility of the equipment and screening device from overhead views.

SECTION 4. - FLOODPLAIN AREAS

SUBSECTION 4.01: PERMITTED USES

The following uses shall be permitted within that portion of a district which is designated as being within a floodplain by the city engineer, provided they are allowed in the underlying zoning, and that they meet any additional requirements established in the city's floodplain regulations in chapter 20 of the Code of Ordinances:

(Ord. No. 10-14, § 28, 7-6-2010)

(A) *Agriculture.* Agricultural activities including the ordinary cultivation of land or legal forms of animal husbandry.
(B) *Utilities.* Local utilities.
(C) *Parks and recreation.* Public or private parks, community centers, playgrounds, public golf courses.
(D) *Private recreation.* Private commercial open area amusements such as golf courses, driving ranges, archery courses and similar uses when approved by a specific use permit.
(E) *Private open space.* Private open spaces as part of a Planned Development (PD) District, provided such use does not interfere with the continuity of the city's open space system.

SUBSECTION 4.02: DUMPING, EXCAVATING OR FILLING FLOODPLAIN

Any dump, excavation, storage or filling operation within that portion of a district having a floodplain designation shall require a permit, which must be approved by the city council, before such operation is begun. However, if those operations in the floodplain were specifically approved as part of a site plan approval by the city council, then a permit may be issued by the city engineer.

SUBSECTION 4.03: LOCAL FLOODING MAY OCCUR IN OTHER AREAS

The fact that land or property is or is not within a district having a floodplain designation shall not constitute assurance that such land or property is not subject to local flooding and the designation of floodplain in this [Unified Development Code] shall not be so interpreted.

SECTION 5. - TEMPORARY USES AND STRUCTURES

SUBSECTION 5.01: TEMPORARY USES

(A) This subsection includes by reference all temporary uses listed in the land use chart.
(B) The temporary use shall not be intrusive or inconsistent with existing land uses in area, or with anticipated land uses that may be constructed during the life of the temporary use.

SUBSECTION 5.02: TEMPORARY STRUCTURES

All buildings or other structures which are erected or located on the property in connection with the temporary use shall be removed not later than ten days after the expiration of the time period for which the use was approved or as set forth in the conditions of approval.

SECTION 6. - NONCONFORMING USES, STRUCTURES AND SITES

SUBSECTION 6.01: INTENT

Within the zoning districts established by this [Unified Development Code], there may exist lots, structures and uses of land which were lawful before the effective date of the ordinance from which this Unified Development Code is derived, or amendment thereto, and which would be prohibited, regulated, or restricted under this [Unified Development Code]. It is generally the intent to permit these nonconformities to continue until they are removed or abandoned, or until such earlier time as they are ordered to be removed, but not to encourage their survival. It is further the intent that such nonconforming lots, buildings, or uses shall not be enlarged upon, expanded or extended, except as otherwise specifically provided, and that such nonconforming lots, buildings or uses may not be used as justification for adding other lots, buildings or uses prohibited elsewhere in the same zoning district. Except as otherwise provided, nonconforming uses are declared to be incompatible with permitted uses in the same zoning districts.

SUBSECTION 6.02: APPLICABILITY

The provisions of this section shall apply to lots, uses and buildings which become nonconforming by reason of the adoption of, or an amendment to, the ordinance from which this Unified Development Code is derived, as of the effective date of such amendment.

SUBSECTION 6.03: NONCONFORMING USES

(A) Exceptions.

(1) Except as specified below, any use, building, or structure lawfully existing at the time of the enactment of this [Unified Development Code] or at the time of annexation into the city may be continued, even though

the use, building or structure may not conform to the provisions of this [Unified Development Code] for the district in which it is located.

(2) The right to continue nonconforming uses shall be subject to regulations prohibiting the creation of a nuisance and regulations reasonably protecting adjacent property.

(B) *Cessation of nonconforming use.* For the purposes of this subsection, a use shall be deemed to have ceased or been abandoned when it has been discontinued for 180 days during any three-year period whether with the intent to abandon the use or not.

(C) *Expansion of nonconforming use.* No existing building or premises devoted to a use that is not permitted by this [Unified Development Code] in the district in which such building or premises is located shall be enlarged or altered in a way which increases its nonconformity, except when required to do so by law or order, unless the use is changed to a use that is permitted in the district in which the building or premises is located, and except as follows:

(1) If no structural alterations are made, a nonconforming use of a building may be changed to another nonconforming use of a more restrictive classification when authorized by the board of adjustment; or it may be changed to a conforming use.

(2) Whenever a nonconforming use has been changed to a conforming use, the use shall not thereafter be changed to a nonconforming use.

(3) When authorized by the board of adjustment, enlargement or completion of a building devoted to a nonconforming use may be made upon the lot occupied by the building, where the extension is necessary and incidental to the existing use of the building and does not exceed 25 percent of its original area of nonconformity.

(4) When authorized by the board of adjustment, a nonconforming use may be extended throughout those parts of a building which were manifestly designed or arranged for such use prior to the date on which the use of the building became nonconforming, if no structural alterations except those required by law, are made.

SUBSECTION 6.4: NONCONFORMING BUILDING OR SITES

(A) City-created nonconformity of structures. In the event that the city takes an act or action which transforms a previously conforming structure for purposes of front, side and rear yard setback requirements into a nonconforming structure for the purposes of front, side and rear yard setbacks, then such structure shall be deemed to be in conformance with the required setback prescribed in this [Unified Development Code]. (For land use nonconformity, see article IV, Permissible Uses, section 7.)

(B) Use of nonconforming buildings, structures or land.

(1) No building or structure which was originally designed for or used as a nonconforming use shall again be put to a nonconforming use, where such use has ceased for 180 days or more during any three-year period.

(2) The use of land, structures, and/or buildings involving individual structures with a replacement cost of $1,000.00 or less, which does not conform to the provisions of this [Unified Development Code] shall be discontinued within six months from the enactment of this [Unified Development Code]. The nonconforming use of land and/or buildings involving individual structures with a replacement cost of $1,000.00 or less, which becomes nonconforming by reason of subsequent amendments to this [Unified Development Code] shall be discontinued within six months from the date of such amendment.

(C) Construction approved prior to [Unified Development Code]. Nothing in this [Unified Development Code] shall be construed to require any change in the overall plans, construction, or designated use of any development, structure, or part thereof, where official approval and the required building permits were granted before the enactment of this [Unified Development Code], or any amendment thereto, where construction, conforming with the plans, shall have been started prior to the effective date of the ordinance from which this Unified Development Code is derived or such amendment, and where such construction shall have been completed

in a normal manner within the subsequent 12-month period, with no interruption, except for reasons beyond the builder's control.

(D) Damage due to acts of God. Any nonconforming structure which is damaged more than 75 percent of its then appraised tax value above the foundation, by fire, flood, explosion, wind, earthquake, war, riot or other calamity or act of God, shall not be restored or reconstructed and used as it was before the damaging event. If such structure is damaged less than 75 percent of its then appraised tax value above the foundation, it may be restored, reconstructed, or used as before, provided that the restoration or reconstruction is completed within 12 months of the damaging event. The 12-month period does not include any necessary litigation.

(E) Repair of unsafe buildings, structures and sites. Nothing in this [Unified Development Code] shall be construed to prohibit the strengthening or repair of any part of any building or structure declared unsafe by proper authority, unless such repairs exceed 50 percent of the replacement cost of the building. If the repairs exceed 50 percent, the building shall be brought into conformity with all requirements of the zoning district in which it is located.

(F) General repairs and maintenance.

(1) On any nonconforming structure or portion of a structure containing a nonconforming use, no work may be done in any period of 12 consecutive months on ordinary repairs, or on repair or replacement of non-load-bearing walls, fixture, wiring, or plumbing to an extent exceeding ten percent of the current replacement cost of the nonconforming structure or nonconforming portion of the structure as the case may be.
(2) If 50 percent or more of a nonconforming structure containing a nonconforming use becomes physically unsafe or unlawful due to lack of repairs or maintenance, and is declared by a duly authorized official to be unsafe or unlawful by reason of physical condition, it shall not thereafter be restored, repaired or rebuilt except in conformity with the regulations of the district in which it is located.

(G) Moving of a nonconforming building or structure. No nonconforming building or structure shall be moved in whole or in part to any other location on the lot, or on any other lot, unless every portion of the building or structure is made to conform to all the regulations of the district.

(H) Nonconforming lot sizes. All lots used for storage that do not require a building and the use of such lot is made nonconforming by this [Unified Development Code] or amendments thereto shall cease to be used for such storage within six months of the date of adoption of the ordinance from which this Unified Development Code is derived, or amendments [thereto].

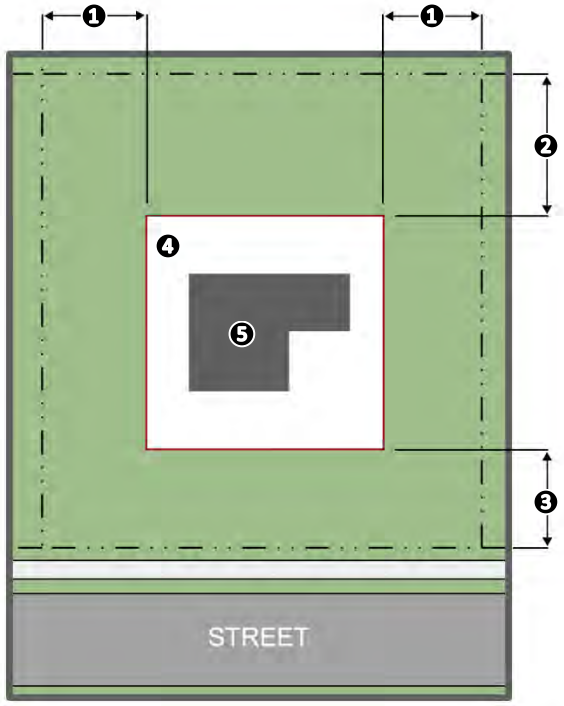
ARTICLE V, DISTRICT DEVELOPMENT STANDARDS, UDC

SECTION 1: GENERAL STANDARDS

SUBSECTION 1.01: OPEN SPACE

(A) *Purpose.* The City of Rockwall is a rural and recreation-oriented community with open space that ties into a regional framework of open space, trails, and corridors. Open space corridors link all major areas of the city using primarily floodplain and drainage areas. Since open space and recreational amenities are vital to the City's commercial and residential developments, all projects must provide open space in accordance with the City's *Comprehensive Plan* and the *Parks, Recreation, and Open Space Master Plan*.

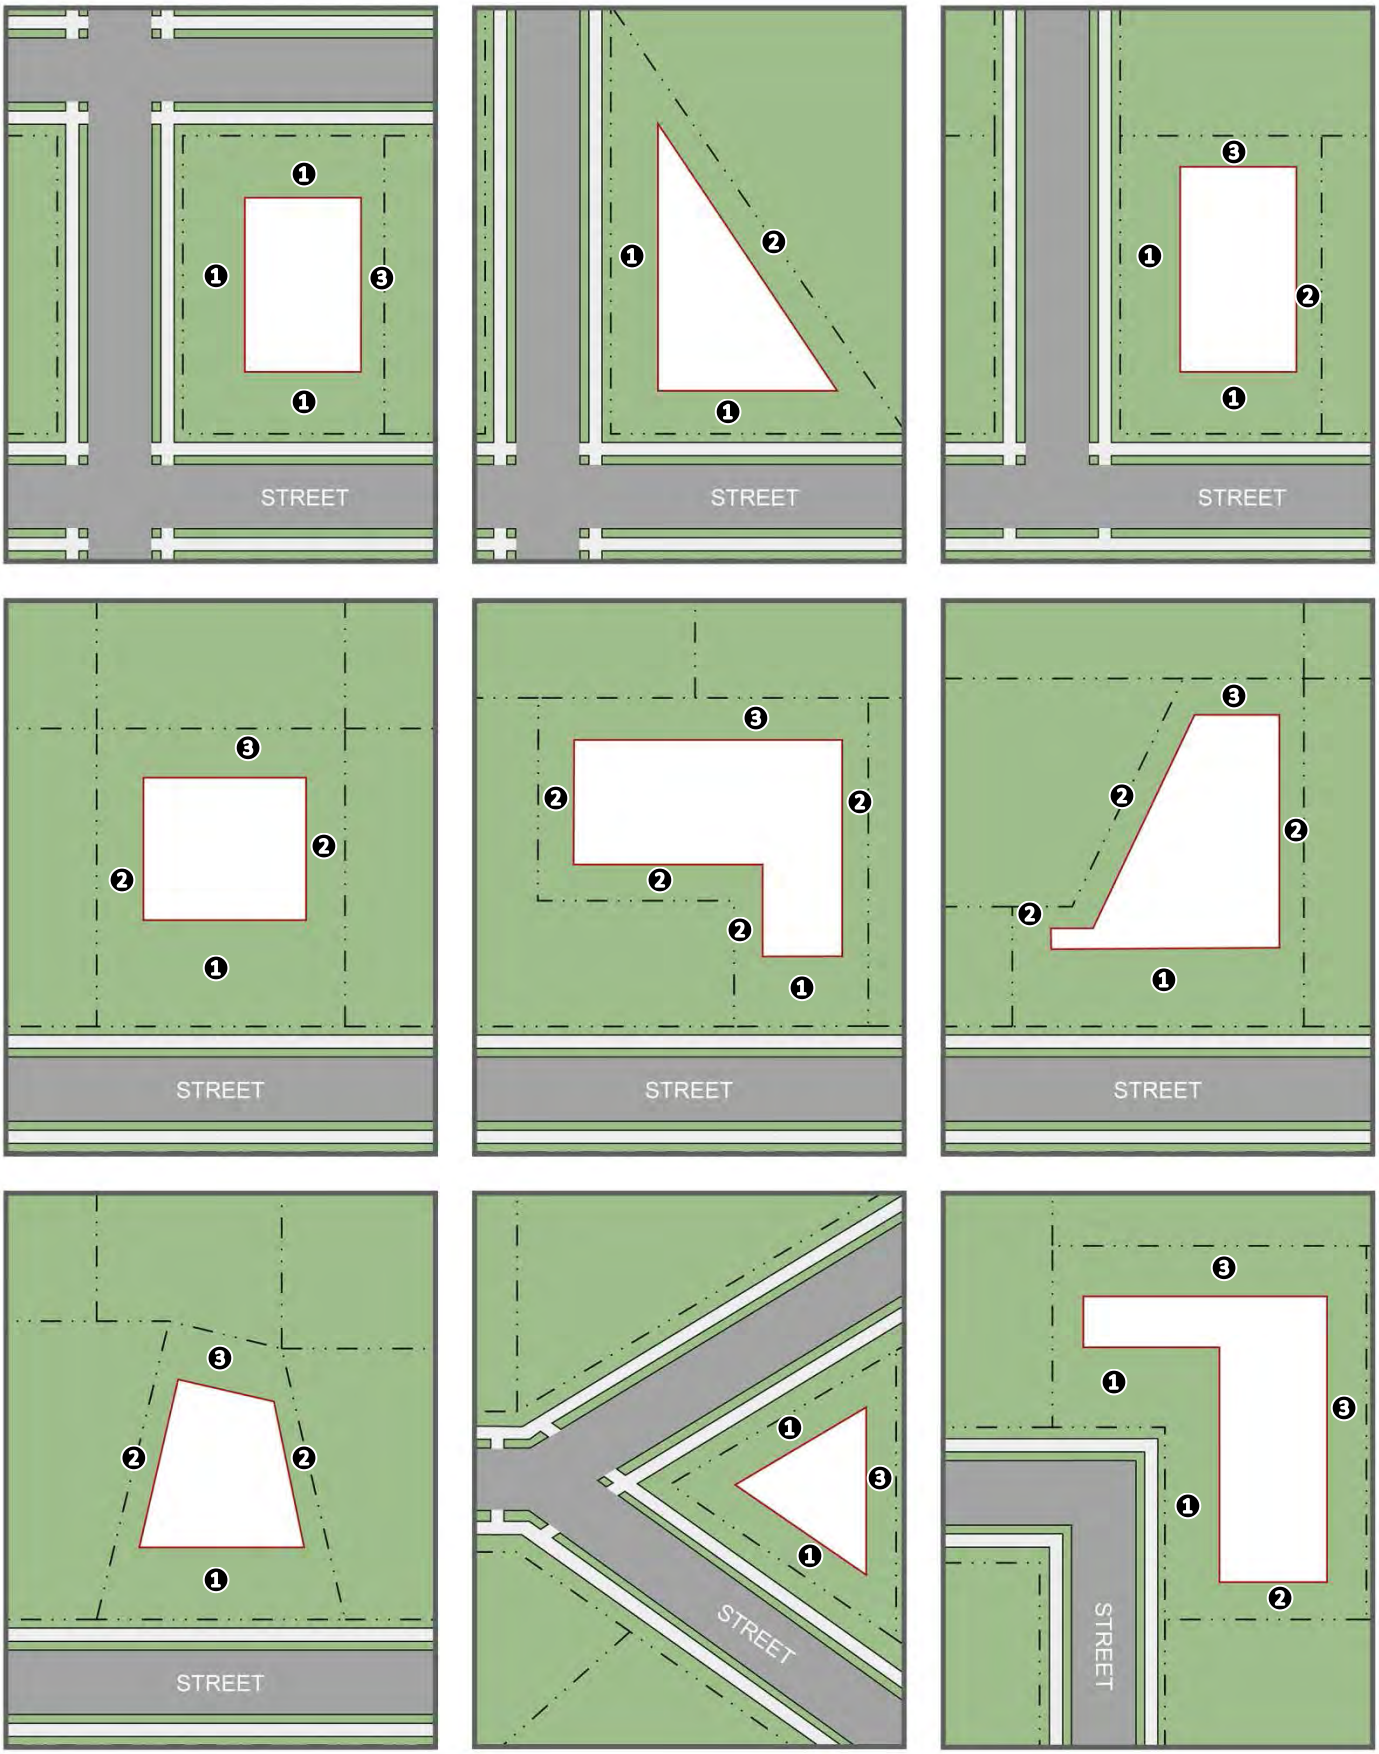
(B) *Requirements.* All projects in the city must reserve, dedicate and/or develop public and private open spaces consistent with the requirements of the following sections:



(a) *Residential*. Subsection C, *Open Space,* of Section 3.01, *General Residential District Standards*
(b) *Commercial*. Subsection D, *Open Space Guidelines,* of Section 4.01, *General Commercial District Standards*
(c) *Industrial*. Subsection D, *Open Space Guidelines,* of Section 5.01, *General Industrial District Standards*

SUBSECTION 1.02: SITE PLANS

All development in the City of Rockwall -- *with the exception of single lot single-family and duplex developments* -- shall require the approval of a site plan in accordance with the requirements of Article XI, *Development Applications and Review Procedures*.



SUBSECTION 1.03: LOT CONFIGURATIONS

(A) *Lots with a Single Street Frontage*. Where lots have a single street frontage, the required setbacks should generally adhere to the following diagram:

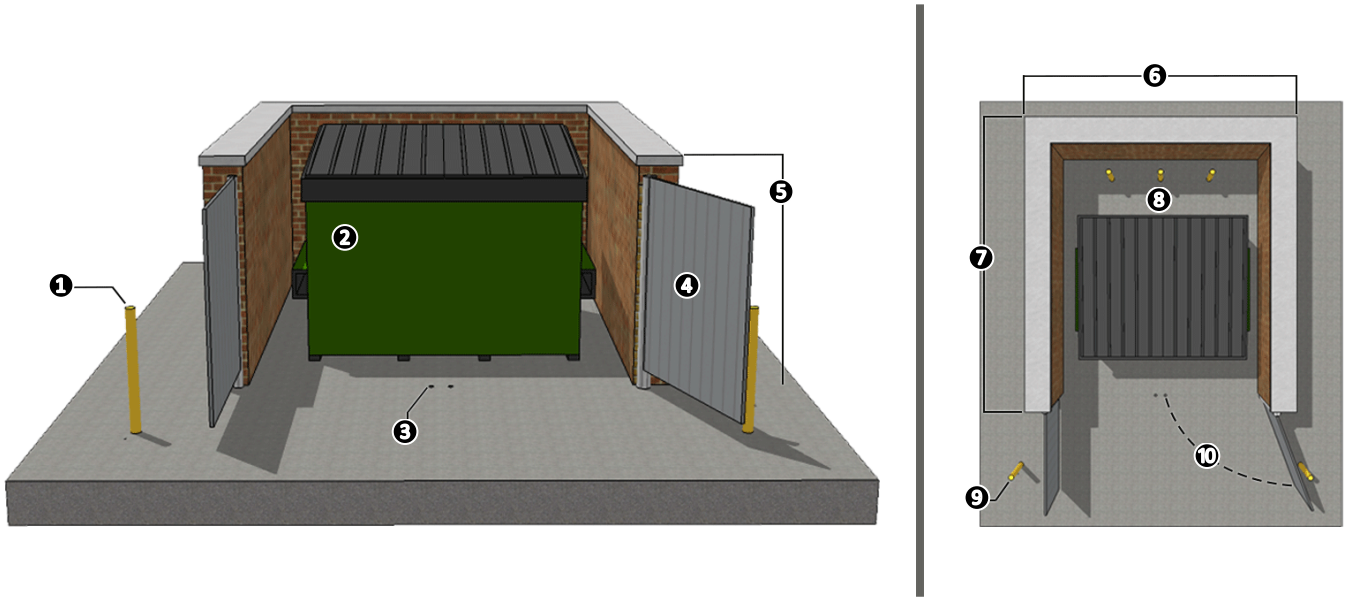
❶: Required Side Yard Setback
❷: Required Rear Yard Setback
❸: Required Front Yard Setback
❹: Buildable Area
❺: Building Coverage

(B) *Lots with Multiple Street Frontages*. Where lots have multiple street frontages on one (1) or more streets, the required setbacks should generally adhere to the following diagram:

❶: Front Yard; ❷: Side Yard; ❸: Rear Yard

147

SUBSECTION 1.04: CALCULATION OF DENSITY



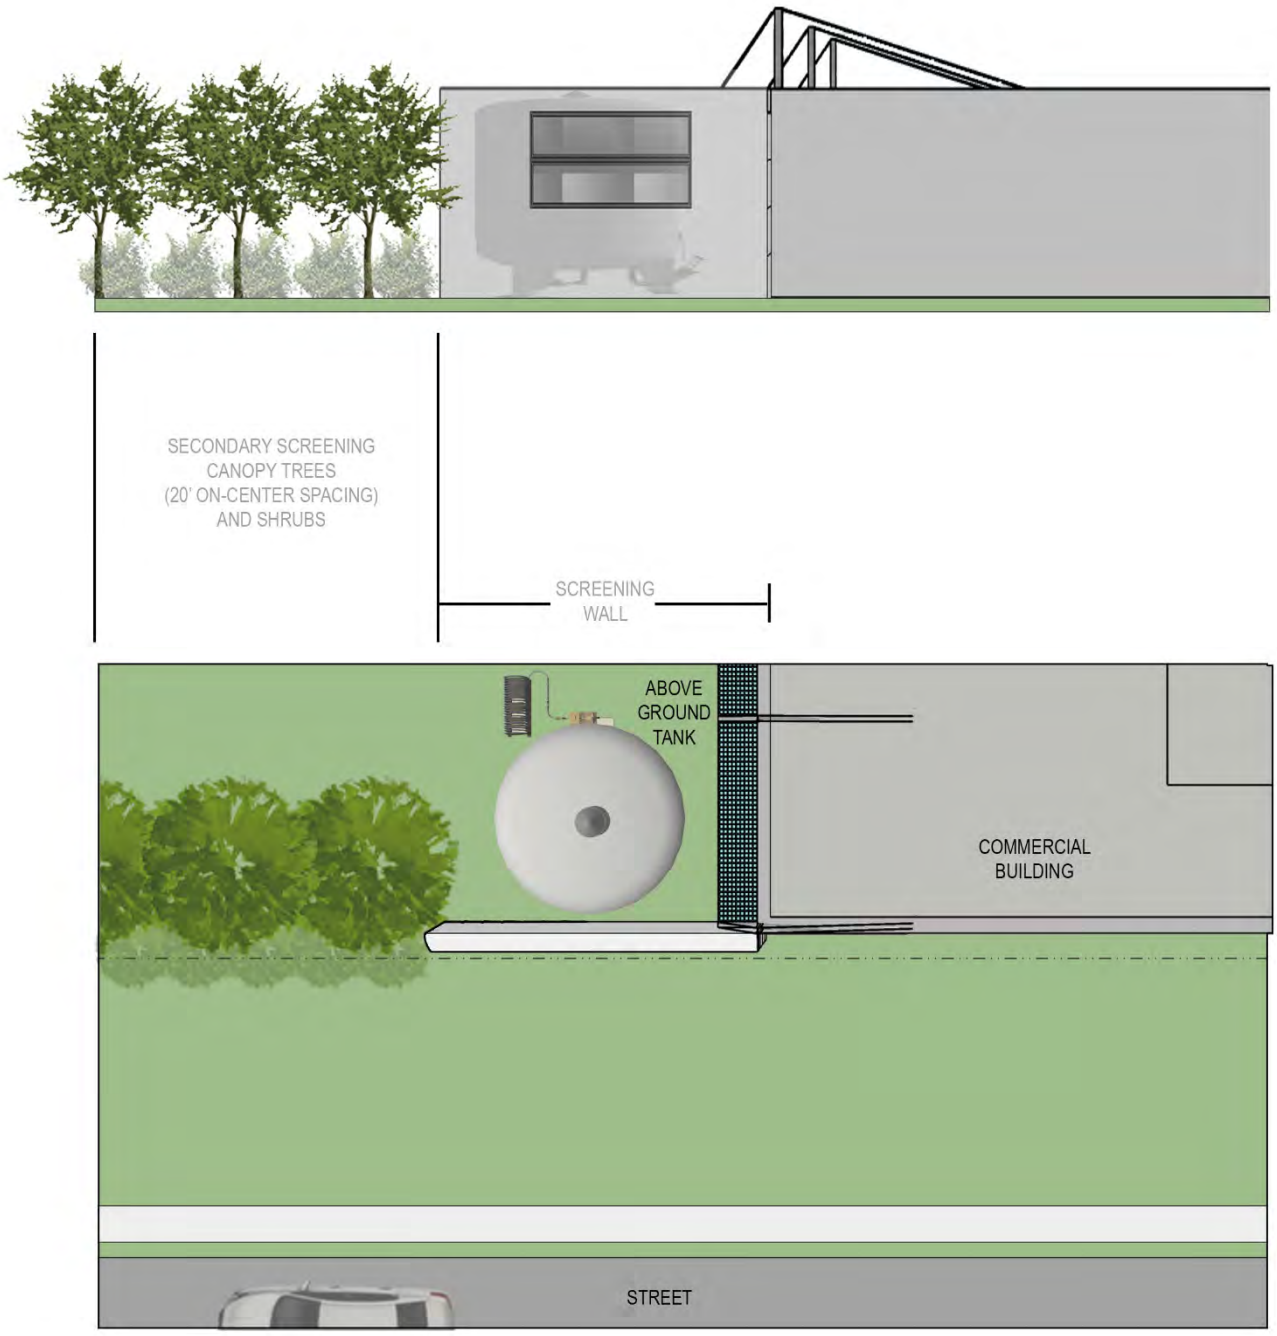
The calculation of the allowable density for residential developments shall be based on the gross site area including right-of-way, floodplain, open space and public/private parks that will be dedicated to the city or preserved and maintained by some other mechanism. Despite this calculation requirement, other provisions of this Unified Development Code may limit the actual density allowed on any given property.

SUBSECTION 1.05: SCREENING STANDARDS

All development shall adhere to the following screening standards:

(1) *Loading Docks.* Off-street loading docks must be screened from all public streets, any residential zoning district or residentially used property, and any parks and open space that abuts or is directly across a public street or alley from the subject property. The screening must be at least six (6) feet in height and shall be provided by using a masonry wall (*excluding tilt wall or concrete masonry units [CMU] unless integral to the buildings design and otherwise approved by the Planning and Zoning Commission*) and *Canopy Trees* on 20-foot centers. As an alternative, the Planning and Zoning Commission may approve a screening method in accordance with Subsection 5.02, *Landscape Screening Standards*, of Article VIII, *Landscape Standards*.

(2) *Trash/Recycling Enclosures*. Trash/Recycling enclosures shall be four (4) sided. These receptacles shall be screened by a minimum six (6) foot, solid masonry dumpster enclosure that utilizes the same masonry materials as the primary building and incorporates an opaque, self-latching gate. The opaque, self-latching gate shall not be constructed utilizing wood fencing materials. If the primary building does not use masonry materials, a masonry material that is complimentary in color and scale shall be utilized. These enclosures shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building. All trash/recycling enclosures shall be constructed in conformance to the diagram below, unless otherwise approved/required by the City and/or its contractor for trash services.



❶: Concrete Filled Steel Protected Pole
❷: Standard End Loading Container
❸: Deep Recesses for Gate Cane Bolts [*If Necessary*]
❹: Opaque Screening Gate
❺: Six (6) Feet in Height [*Eight (8) Feet in Overlay Districts*]
❻: Ten (10) Feet in Width
❼: 12-Feet in Length
❽: Three (3) Concrete Filled Steel Protected Poles
❾: Concrete Filled Steel Protected Pole
❿: 120 Degree Swing on Opaque Screening Gate

148

(3) *Utility Equipment and Air Condition Units.* Pad or roof mounted utility equipment and air conditioning units shall be screened from the view from of any adjacent public streets or properties. Roof mounted utility equipment and air conditioning units shall be screened using a parapet wall that completely impairs the visibility of the equipment, and is constructed on all sides of the building. Ground mounted ~~Utility~~ equipment and air conditioning units shall be screened utilizing plantings, berms, walls matching the main structure, or an architectural feature that is integral to the building's design.

(4) *Aboveground Storage Tanks.* Aboveground storage tanks shall be screened utilizing walls matching the main structure. Screening plans for above ground storage tanks shall generally conform to the diagram below (*i.e. incorporate primary screening -- screening wall -- and secondary screening*) and be approved by the Planning and Zoning Commission in conjunction with a site plan.

(5) *Outside Storage.* Outside storage of materials or vehicles shall be screened from all public streets, any residential zoning district or residentially used property, and parks and open space that abuts or is directly across a public street or alley from the subject property. The screening must be at least one

(1) foot taller than the material or vehicles being stored and shall be achieved using a masonry wall (*excluding tilt wall or concrete masonry units [CMU] unless otherwise approved by the Planning and Zoning Commission*) and *Canopy Trees* on 20-foot centers. As an alternative, the Planning and Zoning Commission may approve a screening method in accordance with Subsection 5.02, *Landscape Screening Standards*, of Article VIII, *Landscape Standards*.

(Ord. No. 06-14, 4-17-2006)

SUBSECTION 1.06: RESIDENTIAL ADJACENCY STANDARDS

Subsection 1.06, *Residential Adjacency Standards*, is omitted from this ordinance change, but is retained in its entirety.

SUBSECTION 1.07: PROJECTIONS INTO REQUIRED YARD OR COURT

(A) Every part of a required yard within a building setback shall be unobstructed and open from its lowest point to the sky, except for the ordinary projections of sills, belt courses, cornices, chimneys, buttresses, ornamental features and eaves; provided, however, that none of the above projections shall extend into a court more than six (6) inches nor into a required yard by more than 30-inches; and provided existing open porches extending into the required yard shall not be enclosed.

An open fire escape may project into a required yard by not more than half the width of the setback, but not more than four (4) feet from the building. Fire escapes, solid floored balconies and enclosed outside stairways may project into a rear yard by a maximum of four (4) feet.

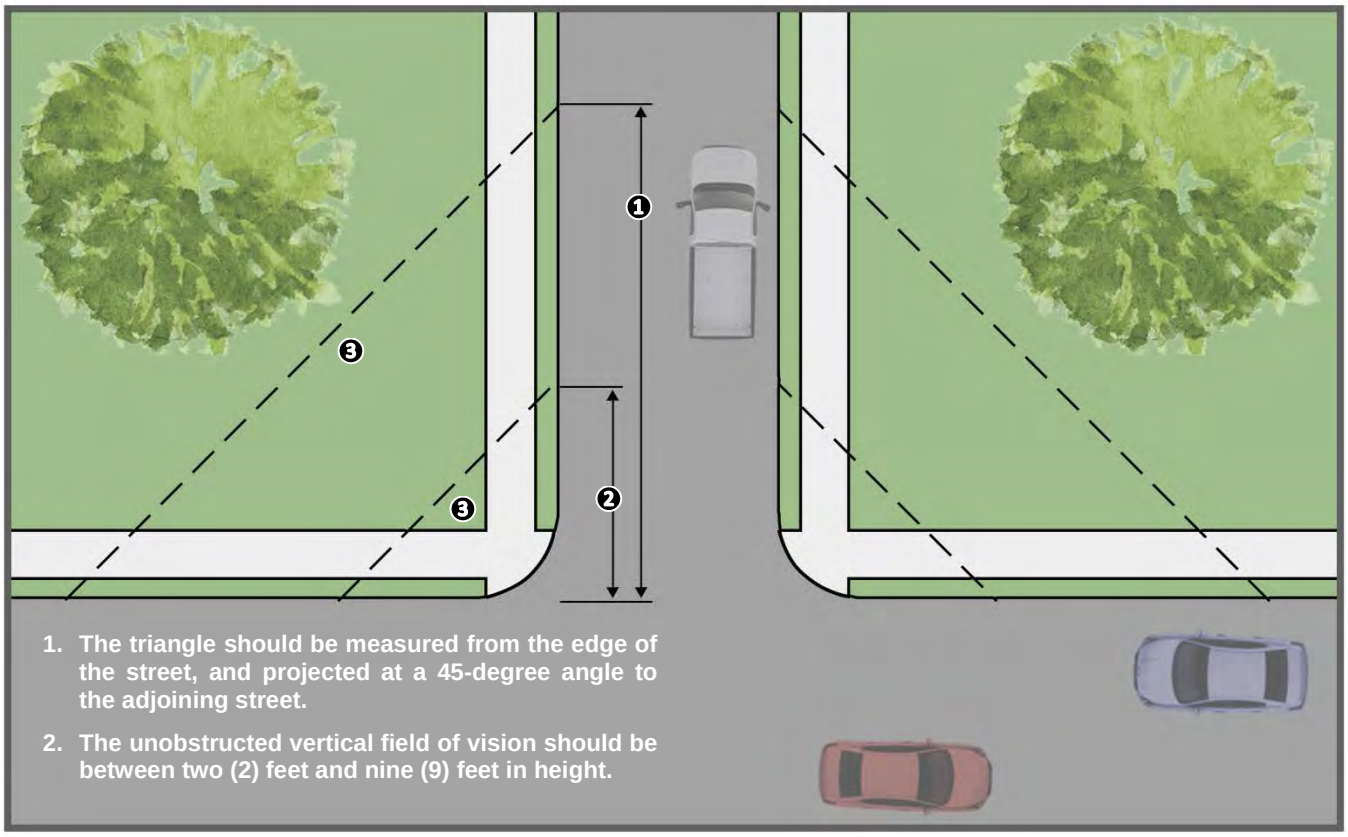
(B) Where a lot abuts a right-of-way line has been established for the future widening or opening of a street or highway, then the depth or width of a yard shall be measured from such right-of-way line to the required building setback.

(Ord. No. 06-14, 4-17-2006)

SUBSECTION 1.08: PUBLIC RIGHT-OF-WAY VISIBILITY

(A) *Street/drive intersection visibility obstruction triangles.* A landscape plan showing the plan of the street on both sides of each proposed drive/street to the proposed development with the grades, curb elevations, proposed street/drive locations, and all items (both natural and manmade) within the visibility triangles as prescribed below shall be provided with all site plans, if they are not on engineering plans that are submitted at the same time. this plan shall show no horizontal or vertical restrictions (either existing or future) within the areas defined below.

(B) *Obstruction/interference triangles defined.* No fence, wall screen, billboard, sign face, tree or shrub foliage, berm, or any other item, either manmade or natural, shall be erected, planted, or maintained in such a position or place so as to obstruct or interfere within the following minimum standards; however, on non-residentially zoned lots, a single pole for mounting a sign may be placed within this area provided the pole does not exceed 12-inches in diameter, and provided every portion of the sign has a minimum height clearance of nine (9) feet:



(1) *Visibility Triangles*. Vision at all intersections which intersect at or near right angles shall be clear at elevations between 24-inches and nine (9) feet above the top of the curb elevation, within a triangular area formed by extending the two (2) curblines from their point of intersection, for the following minimum distances for the applicable intersection, and connecting these points with an imaginary line, thereby making a triangle. If there are no curbs existing, the triangular area shall be formed by extending the property lines from their point of intersection for a distance as prescribed below, and connecting these points with an imaginary line, thereby making a triangle as shown below.

(2) *Intersection of two (2) public streets*. The minimum required distance from the curb shall be 30-feet and the minimum distance from the property line on streets without a curb shall be 20-feet.

(3) *Intersection of a public street and an alley*. The minimum required distance measured from the property line shall be 15-feet, or 25-feet from street curb.

(4) *Intersection of private drive and public street*. The minimum required distance from the curb shall be 15-feet and the minimum distance from the property line on streets without a curb shall be ten (10) feet.

(C) *Sight distance requirements.* The city hereby adopts the standards for both vertical and horizontal sight distance requirements set forth in the latest edition of AASHTO green book "a policy on geometric design of highways and streets" for the construction of both public street intersections and private drive intersections, unless otherwise approved by the city engineer. If, in the opinion of the city engineer, a proposed street or drive intersection does not meet these standards, additional engineering information exhibiting how the standards have been addressed may be required for submission and approval by the city's engineer.

❶: 30-Foot for Arterials and Collectors and 20-Foot for Residential Distance from Intersection for Streets
❷: 10-Foot Distance from Intersection for Alleyways
❸: Visibility Triangles

SECTION 2: AGRICULTURAL DISTRICTS

SUBSECTION 2.01: AGRICULTURAL (AG) DISTRICT

(A) *Purpose*. The Agricultural (AG) District is a zoning designation used for land that is reserved for the anticipated future growth of the city. This district is intended to be used for raw land or land with agricultural land uses, and is intended to be held in these conditions as long as practical and reasonable to promote the orderly growth of the community. This zoning designation is suitable for areas where development is premature due to lack of utilities, capacity, or service. The Agricultural (AG) District is also used to protect areas that are unsuitable for development due to physical

constraints or safety issues (*e.g. topography, floodplain, ecologically sensitive areas, etc.*), or to protect green belts, natural areas and/or open space that might otherwise be developed.

(B) *Permitted Uses*. All land uses permitted within the Agricultural (AG) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within an Agricultural (AG) District shall conform to Subsection 3.01, *General Residential District Standards*, and the related standards listed within Subsection 7.01, *Residential District Development Standards*.

SECTION 3: RESIDENTIAL DISTRICTS

SUBSECTION 3.01: GENERAL RESIDENTIAL DISTRICT STANDARDS

All residential development shall conform to the following standards:

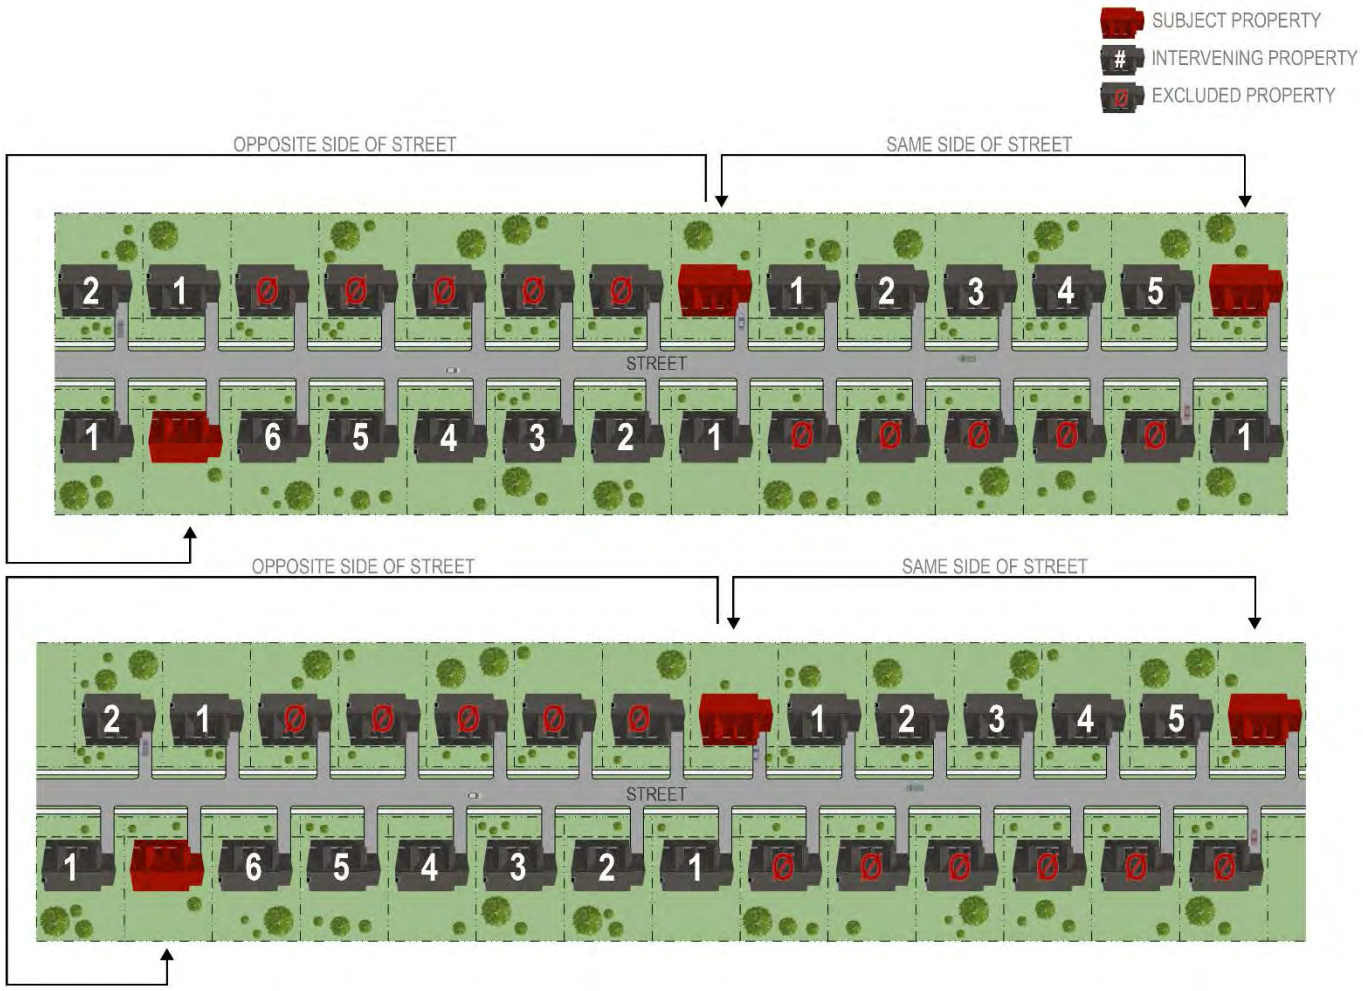
(A) *Construction Standards.*

(1) *Roof Pitch*. All residential structures shall be constructed with a minimum *3:12* roof pitch.
(2) *Concrete Foundation*. All residential structures shall be permanently attached to an engineered concrete foundation.

(B) *Accessory Structures.*

(1) *Accessory Structure Standards.* All accessory structures shall conform to the related standards listed within Subsection 7.04, *Accessory Structure Development Standards*.

(C) *Open Space.* On all new subdivisions, ten (10) lots or greater, that are not infill projects (*i.e. projects going into an established area as determined by the Director of Planning and Zoning or his/her designee*) the following open space requirements shall be applied:



(1) Unless otherwise provided by this Unified Development Code, a minimum of 20% of the gross land area within a residential subdivision that is five (5) acres or greater shall be devoted to open space. Where floodplain exists in a proposed subdivision, the floodplain may be used to meet the 20% requirement at a rate of one-half (½) acre for every one (1) acre of floodplain dedicated to open space. Open space requirements for subdivisions may be satisfied by public open space/parkland, or by a combination of public and private open space. Public open space/parkland shall be dedicated to the city, and shall be approved by the Parks and Recreation Board and the City Council during the platting process. Open space requirements specified in this subsection are in addition to requirements for site landscaping and buffering.

(2) To encourage the provision of open space, the minimum lot sizes in a residential subdivision may be reduced by up to 20% in order to preserve additional public and/or private open space, provided that the lots being reduced face onto a single loaded street (*i.e. a street with open space and/or a public park on one side of the street and lots on the other side of the street*). This requirement shall be approved by the City Council at the time of preliminary plat, final plat, or site plan whichever comes first.

(D) *Anti-Monotony.* The front building elevations of a home shall not repeat along any block face without at least five (5) intervening homes of differing appearance on the same side of the street and six (6) intervening homes of differing appearance on the opposite side of the street (*see Examples 1 & 2 below*). The rear elevation of homes backing to open spaces or thoroughfares shall not repeat without at least five (5) intervening homes of differing appearance. Identical building material blends and colors may not occur on adjacent (*side-by-side*) properties. Homes are considered to differ in appearance if any three (3) elements are different:

(a) The number of stories of the home.

(b) The garage location/orientation on the home.
(c) The roof type and layout of the home.
(d) The articulation of the front façade of the home.

(E) *Fencing.* All residential fencing shall be subject to the requirements stipulated by Section 8, *Fence Standards*, of Article VIII, *Landscape and Fence Standards*.

SUBSECTION 3.02: SINGLE-FAMILY ESTATE 1.5 (SFE-1.5) DISTRICT

(A) *Purpose*. The Single-Family Estate 1.5 (SFE-1.5) District is the proper zoning classification for rural, estate lots that are a minimum of 1½-acres in size. These lots are typically in areas that are located in the City's hinterland, away from higher density residential developments and non-residential development. While these properties are on the City's periphery, they should still be provided with access to public roadways, water, wastewater, and drainage.

(B) *Permitted Uses*. All land uses permitted within the Single-Family Estate 1.5 (SFE-1.5) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements.* All development within a Single-Family Estate 1.5 (SFE-1.5) District shall conform to Subsection 3.01, *General Residential District Standards*, and the related standards listed within Subsection 7.01, *Residential District Development Standards*.

SUBSECTION 3.03: SINGLE FAMILY ESTATE 2.0 (SFE-2.0) DISTRICT

(A) *Purpose*. The Single-Family Estate 2.0 (SFE-2.0) District is the proper zoning classification for rural, estate lots that are a minimum of two (2) acres in size. These lots are typically in areas that are located

in the City's hinterland, away from higher density residential developments and non-residential development. While these properties are on the City's periphery, they should still be provided with access to public roadways, water, wastewater, and drainage.

(B) *Permitted Uses*. All land uses permitted within the Single-Family Estate 2.0 (SFE-2.0) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements.* All development within a Single-Family Estate 2.0 (SFE-2.0) District shall conform to Subsection 3.01, *General Residential District Standards*, and the related standards listed within Subsection 7.01, *Residential District Development Standards*.

SUBSECTION 3.04: SINGLE FAMILY ESTATE 4.0 (SFE-4.0) DISTRICT

(A) *Purpose*. The Single-Family Estate 4.0 (SFE-4.0) District is the proper zoning classification for rural, estate lots that are a minimum of four (4) acres in size. These lots are typically in areas that are located in the City's hinterland, away from higher density residential developments and non-residential development. While these properties are on the City's periphery, they should still be provided with access to public roadways, water, wastewater, and drainage. Developers wishing to restrict their subdivision to a lot size greater than four (4) acres shall be required to use restrictive covenants.

(B) *Permitted Uses*. All land uses permitted within the Single-Family Estate 4.0 (SFE-4.0) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements.* All development within a Single-Family Estate 4.0 (SFE-4.0) District shall conform to the related standards listed within Subsection 7.01, *Residential District Development Standards*.

SUBSECTION 3.05: SINGLE-FAMILY 1 (SF-1) DISTRICT

(A) *Purpose*. The Single-Family 1 (SF-1) District is the proper zoning classification for larger, single-family lots that are a minimum of one (1) acre in size or clustered developments that have a gross density of one (1) dwelling unit per acre. Cluster developments should conserve open space, floodplains, tree groupings, natural slopes and wildlife habitats to achieve the desired density. The Single-Family 1 (SF-1) District is also intended to be used for developments that incorporate public/private parks, denominational and private schools, and churches that are essential in creating the basic neighborhood unit. These developments are typically in the City's hinterland, away from higher density residential developments and non-residential developments; however, they may be used in areas closer to the periphery of the City's developed areas, where they will serve as a logical transition to an estate or rural area. These developments should provide access to public roadways, water, wastewater, and drainage.

(B) *Permitted Uses*. All land uses permitted within the Single-Family 1 (SF-1) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Single-Family 1 (SF-1) District shall conform to Subsection 3.01, *General Residential District Standards*, and the related standards listed within Subsection 7.01, *Residential District Development Standards*.

SUBSECTION 3.06: SINGLE-FAMILY 16 (SF-16) DISTRICT

(A) *Purpose*. The Single-Family 16 (SF-16) District is the proper zoning classification for larger lot, single-family developments. This zoning district also accommodates public land uses, denominational and private schools, churches, and public/private parks essential to creating the basic neighborhood unit. These developments are typically in areas buffered from non-residential land uses, and where they will serve as a logical transition from higher to lower density residential zoning districts. These developments should provide access to public roadways, water, wastewater, and drainage.

(B) *Permitted Uses*. All land uses permitted within the Single-Family 16 (SF-16) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Single-Family 16 (SF-16) District shall conform to Subsection 3.01, *General Residential District Standards*, and the related standards listed within Subsection 7.01, *Residential District Development Standards*.

SUBSECTION 3.07: SINGLE-FAMILY 10 (SF-10) DISTRICT

(A) *Purpose*. The Single-Family 10 (SF-10) District is the proper zoning classification for the majority of the City's existing single-family residential development, and is the appropriate zoning classification for single-family developments with medium sized lots. This zoning district also accommodates public land uses, denominational and private schools, churches, and public/private parks essential to creating the basic neighborhood unit. These developments are typically in areas buffered from non-residential land uses, and where they will serve as a logical transition from higher to lower density residential zoning districts. These developments should provide access to public roadways, water, wastewater, and drainage.

(B) *Permitted Uses*. All land uses permitted within the Single-Family 10 (SF-10) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Single-Family 10 (SF-10) District shall conform to Subsection 3.01, *General Residential District Standards*, and the related standards listed within Subsection 7.01, *Residential District Development Standards*.

SUBSECTION 3.08: SINGLE-FAMILY 8.4 (SF-8.4) DISTRICT

(A) *Purpose*. The Single-Family 8.4 (SF-8.4) District is the proper zoning classification for areas of undeveloped land remaining in the City deemed appropriate for medium sized, single-family lots. This zoning district also accommodates public land uses, denominational and private schools, churches, and public/private parks essential to creating the basic neighborhood unit. These developments are typically in areas buffered from non-residential land uses, and where they will serve as a logical transition from higher to lower density residential zoning districts. These developments should provide access to public roadways, water, wastewater, and drainage.

(B) *Permitted Uses*. All land uses permitted within the Single-Family 8.4 (SF-8.4) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Single-Family 8.4 (SF-8.4) District shall conform to Subsection 3.01, *General Residential District Standards*, and the related standards listed within Subsection 7.01, *Residential District Development Standards*.

SUBSECTION 3.09: SINGLE-FAMILY 7 (SF-7) DISTRICT

(A) *Purpose*. The Single-Family 7 (SF-7) District is the proper zoning classification for single-family developments with smaller lots. This zoning district also accommodates public land uses, denominational and private schools, churches, and public/private parks essential to creating the basic neighborhood unit. These developments are typically in areas adjacent to low intensity non-residential land uses, in and around the Old Town Rockwall (OTR) Historic District, and/or where they will serve as a logical transition from higher to lower density residential zoning districts. These developments should provide access to public roadways, water, wastewater, and drainage.

(B) *Permitted Uses*. All land uses permitted within the Single-Family 7 (SF-7) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Single-Family 7 (SF-7) District shall conform to Subsection 3.01, *General Residential District Standards*, and the related standards listed within Subsection 7.01, *Residential District Development Standards*.

SUBSECTION 3.10: ZERO LOT LINE (ZL-5) DISTRICT

(A) *Purpose*. The Zero Lot Line (ZL-5) District is the proper zoning classification for medium-density residential developments that are on separate lots (*i.e. single-family*), and are typically owner occupied. This zoning district also accommodates public land uses, denominational and private schools, churches, and public/private parks essential to creating the basic neighborhood unit. These developments are typically in areas buffered from non-residential land uses, adjacent to low intensity non-residential land uses, and/or where they will serve as a logical transition from higher to lower density residential zoning districts. These developments have increased requirements for public roadways, water, wastewater, and drainage due to their density.

(B) *Permitted Uses*. All land uses permitted within the Zero Lot Line (ZL-5) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Zero Lot Line (ZL-5) District shall conform to Subsection 3.01, *General Residential District Standards*, and the related standards listed within Subsection 7.01, *Residential District Development Standards*.

SUBSECTION 3.11: TWO-FAMILY (2F) DISTRICT

(A) *Purpose*. The Two-Family (2F) District is the proper zoning classification for medium-density, duplex developments (*i.e. two [2] dwelling units per lot*). This zoning district accommodates low to medium-density developments and allows public land uses, denominational and private schools, churches, and public/private parks essential to creating the basic neighborhood unit. These developments are typically in areas buffered from non-residential land uses, but may be located directly adjacent to low intensity non-residential land uses. These areas are also located where they will serve as a logical transition from higher to lower density residential zoning districts. These developments have increased requirements for public roadways, water, wastewater, drainage, open space and fire protection due to their density.

(B) *Permitted Uses*. All land uses permitted within the Two-Family (2F) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Two-Family (2F) District shall conform to Subsection 3.01, *General Residential District Standards*, and the related standards listed within Subsection 7.01, *Residential District Development Standards*.

SUBSECTION 3.12: MULTI-FAMILY 14 (MF-14) DISTRICT

(A) *Purpose*. The Multi-Family 14 (MF-14) District is the proper zoning classification for higher density developments. This zoning district should be located within 1,200-feet of retail and other services, and should not contain more than 500-units within one (1) mile of another multi-family development. These standards are intended to create a strong market for multi-family units, and provide for the ongoing reinvestment in these types developments while helping to ensure that inappropriate concentrations of higher density residential developments are not created. The downtown area shall be exempted from the spacing requirements.

The Multi-Family 14 (MF-14) District allows high density developments that are extremely amenitized, and that necessitate additional requirements for public roadways, water, wastewater, drainage, open space and fire protection. These types of developments should not run traffic through single-family neighborhoods, and should be located close to an arterial or collector street that is capable of carrying the additional traffic.

(B) *Permitted Uses*. All land uses permitted within the Multi-Family 14 (MF-14) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Multi-Family 14 (MF-14) District shall conform to Subsection 4.01, *General Commercial District Standards*, and the related standards listed within Subsection 7.02, *Multi-Family District Development Standards*.

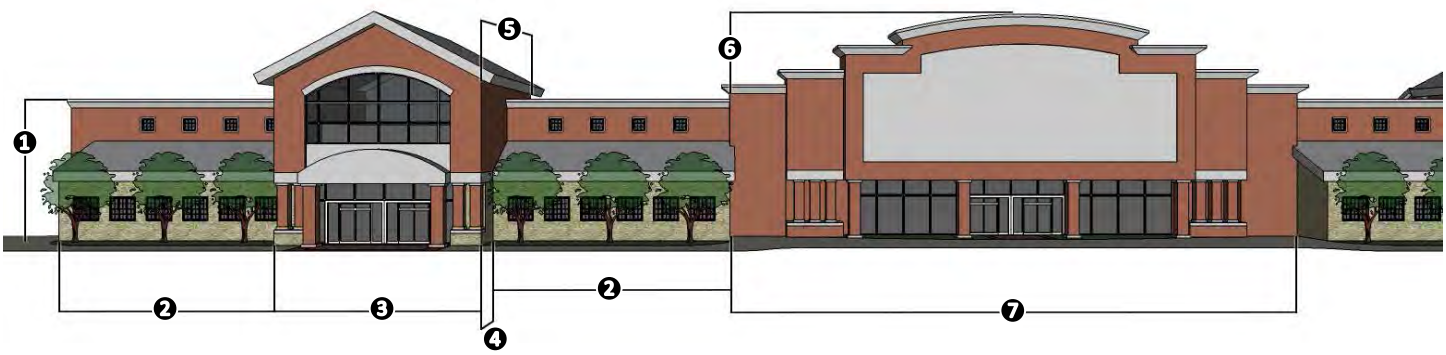
SECTION 4: COMMERCIAL DISTRICTS

SUBSECTION 4.01: GENERAL COMMERCIAL DISTRICT STANDARDS

All commercial development shall conform to the following standards:

(A) *Construction Standards.*

(1) *Roof Design Standards*. All structures shall have the option of being constructed with either a pitched (*minimum of a 6:12 roof pitch*), parapet, or mansard roof system as long as the roof system is enclosed on all sides. Metal roofs with lapped seam construction, bituminous built-up roofs, and/or flat membrane-type roofs that are visible from adjacent properties or public right-of-way shall be prohibited. Projecting elements and parapets that are visible from adjacent properties or public right-of-way shall be finished on the interior side using the same materials as the exterior facing wall.



(B) *Maximum Building Height.*

(1) *Setback Exceptions for Building Height in Commercial Districts*. All structures shall conform to the height requirements specified for the zoning district of the subject property as stipulated by Subsection 7.03, *Non-Residential District Development Standards*; however, the following features may be constructed 12-feet higher than the maximum height requirement if they [*1*] are not more than 33% of the total roof area, and [*2*] are setback from the edge of the roof a minimum of two (2) feet for every one (1) foot that the feature extends above the surface of the roof:

(a) Chimneys, Church Spires, Elevator Shafts, and similar appendages not intended as places of occupancy and/or storage.
(b) Flag Poles.
(c) Solar Collectors and/or Similar Equipment, Fixtures, and Devices.

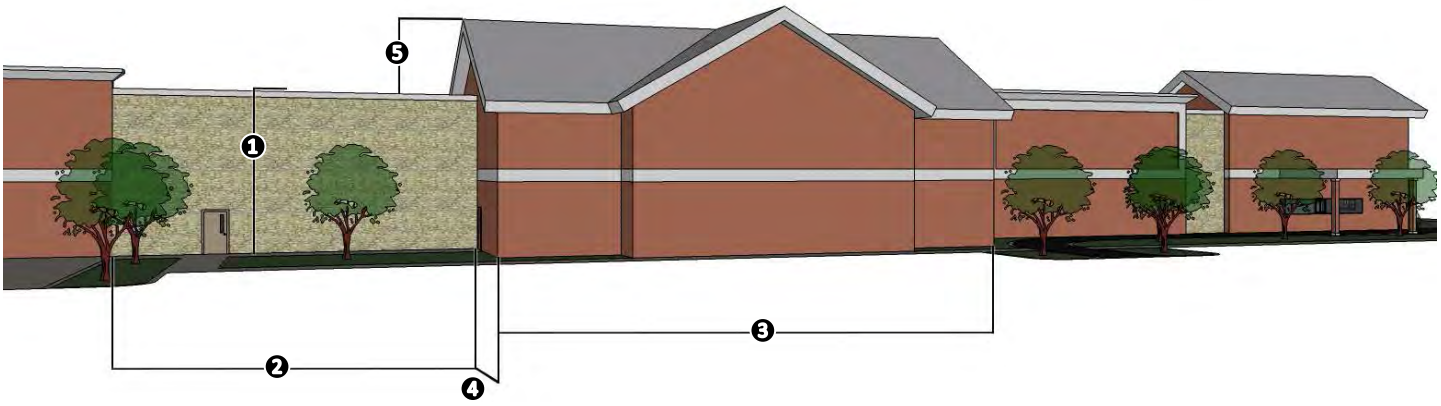
(C) *Building Articulation.*

(1) *Primary Building Façades.* A primary building façade is any building façade that has a primary entryway for a business or that has an adjacency to a public right-of-way, open space/green space, public/private park, and/or a residential zoning district or residentially used property. All commercial buildings shall meet the following standards for articulation on primary building façades:

❶: *Wall Height*. The wall height shall be measured from grade to the top of the wall.

❷: *Wall Length*. The maximum wall length shall not exceed three (3) times the wall height (*i.e. 3 x* ❶ ≥ ❷).

❸: *Secondary Entryway/Architectural Element Length*. The minimum length of the secondary entryway or projecting architectural element shall be 25% of the wall length *(i.e. 25% x* ❷ ≤ ❸).



❹: *Wall Projection*. The minimum wall projection for a primary and/or secondary entryway/architectural element shall be 25% of the wall height (*i.e. 25% x* ❶ ≤ ❹).

❺: *Primary and/or Secondary Entryway/Architectural Element Width*. The minimum width of the primary and/or secondary entryway/architectural element shall extend for twice the required wall projection (*i.e. 2 x* ❹ ≥ ❺).

❻: *Projection Height*. The primary and secondary entryways/architectural element shall extend a minimum of 25% of the wall height above the top of the wall (*i.e. 25% x* ❶ ≤ ❻).

❼: *Primary Entryway/Architectural Element Length*. The primary entryway/architectural element shall meet all of the same projections as the secondary entryway/architectural element, but shall extend for a minimum of twice the length of the secondary element (*i.e. 2 x* ❸ ≥ ❼).

(2) *Secondary Building Façade.* A secondary building façade is any building façade that does not have a primary entryway or an adjacency to a public right-of-way, open space/green space, public/private park, and/or a residential zoning district or residentially used property. All commercial buildings shall meet the following standards for articulation on secondary building façades:

❶: *Wall Height*. The wall height shall be measured from grade to the top of the wall.

❷: *Wall Length*. The maximum wall length shall not exceed three (3) times the wall height (*i.e. 3 x* ❶ ≥ ❷).

❸: *Secondary Entryway/Architectural Element Length*. The minimum length of the secondary entryway or projecting architectural element shall be 15% of the wall length *(i.e. 15% x* ❷ ≤ ❸).

❹: *Secondary Entryway/Architectural Element Width*. The minimum wall projection for a secondary entryway/architectural element shall be 15% of the wall height (*i.e. 15% x* ❶ ≤ ❹).

❺: *Projection Height*. The secondary entryway/architectural element shall extend a minimum of 15% of the wall height above the top of the wall (*i.e. 15% x* ❶ ≤ ❺).

(D) *Open Space Guidelines.* Commercial land uses should be designed to be integrated with adjacent land uses, as opposed to separating land uses using physical barriers or screening walls (*unless necessary*). This should be achieved by making commercial developments pedestrian-oriented and easily accessible to adjacent developments through the use of natural buffers, open space and trails. This involves creating trails that connect commercial and residential developments, using landscape buffers that incorporate berms and landscaping to separate residential and non-residential land uses, and utilizing building design to create compatibility with surrounding land uses.

(E) *Commercial Buildings 25,000 SF or Greater.*

(1) *Applicability.* These criteria shall apply to new retail/commercial building construction in all commercial zoning districts. This criteria shall not be applied to the use, re-use, modification or consolidation of existing retail and/or commercial space developed on or before April 2, 2001, or to the expansion of retail space in existence on or before April 2, 2001, that is being expanded by less than ten (10%) percent of the existing floor area.

(2) *Loading Docks.* Loading docks shall not be oriented towards a residential zoning district or residentially used property. Where loading areas are located parallel to a residential zoning district or residentially used property, they must be screened by an architecturally integrated masonry screening wall that is a minimum 14-foot in height and that runs the entire length of the loading space. As an alternative, the Planning and Zoning Commission may approve the use of a berm in conjunction with landscape screening standards detailed in Subsection 5.02, *Landscape Screening*, of Article VIII, *Landscape and Fence Standards*, if it is determined that this screening method will [*1*] provide a suitable substitute to a masonry wall, and [*2*] if the screening method will completely screen the proposed loading docks.

(3) *On-Site Circulation Guidelines*.

(a) On-site circulation standards should try to minimize the conflict between pedestrians and vehicles by placing driveways and service areas in locations that reduce the chance of interrupting on-site vehicle movement.
(b) Buildings should be placed in a manner that screens the drive-through lane and creates pedestrian pathways and spaces.
(c) In order to maintain on-site circulation, each drive-through lane is to be separate from pump islands and from routes necessary for entering and exiting the property.

(4) *Residential Adjacency Standards*. Where the property immediately abuts a residential zoning district or residentially used property -- *unless separated by an M4D (major collector, four [4] lane, divided roadway) or larger thoroughfare* -- a minimum 25-foot wide landscaped buffer must be installed for buildings with a building footprint of 25,000 SF to 49,999 SF in area, a minimum of a 50-foot wide landscaped buffer for buildings with a building footprint of 50,000 SF or greater. This shall be in place of the buffer required by Subsection 5.02, *Landscape Screening Standards*, of Article VIII, *Landscape and Fence Standards*. The landscaped buffer must include a combination of berm and evergreen shrubs in addition to the requirements of Subsection 5.02, *Landscape Screening Standards*, of Article VIII, *Landscape and Fence Standards*. Planting may be grouped if approved by the Planning and Zoning Commission.

(5) *Outside Storage*. Open storage areas shall be connected to the building and screened with a wall that is constructed of the same building materials as the remainder of the primary structure.

(6) *Adaptive Reuse Standards*. For those buildings over 80,000 SF in area, the applicant must demonstrate that the building can be subdivided in a reasonable manner by submitting a plan indicating potential entrances and exits and loading areas for multiple tenants. This plan will need to be submitted at the time of site plan.

(E) *Exceptions.* The Planning and Zoning Commission may consider exceptions to the *General Commercial District Standards* pending a recommendation from the Architectural Review Board (ARB), and in accordance with Section 9.01, *Exceptions to the General Standards*, of Article XI, *Development Applications and Review Procedures*.

(Ord. No. 14-52, § 1, 12-1-2014)

SUBSECTION 4.02: RESIDENTIAL-OFFICE (RO) DISTRICT

(A) *Purpose*. The Residential-Office (RO) District is a zoning district intended to recognize the existence of older residential areas of the city, where larger houses have been or can be converted from single-family and multi-family residences to low-intensity office uses in order to extend the economic life of

these structures, and to allow the owners to justify the expenditures for repairs and modernization. The intent of this district is to allow for low intensity office development providing professional, medical and other office services and limited retail businesses to residents in adjacent neighborhoods. The Residential-Office (RO) District shall have principle access to major or secondary thoroughfares, and may serve as an area of transition between residential and high-intensity, non-residential uses or busy arterial thoroughfares.

(B) *Permitted Uses*. All land uses permitted within the Residential-Office (RO) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Residential-Office (RO) District shall conform to Subsection 4.01, *General Commercial District Standards*, and the related standards listed within Subsection 7.03, *Non-Residential District Development Standards*.

SUBSECTION 4.03: NEIGHBORHOOD SERVICES (NS) DISTRICT

(A) *Purpose*. The Neighborhood Services (NS) District is a zoning district intended to provide limited retail land uses near neighborhoods for the purpose of supplying the *day-to-day* retail and personal service needs of residents. The Neighborhood Services (NS) District is typically located at limited corner locations on arterials in existing developments, and is intended to serve small service areas. The average site is from one-half (½) acre to a maximum of two (2) acres. Since these sites are typically small and surrounded by residential development they can appear to be spot zones; however, the Comprehensive Plan acknowledges the need to create neighborhood units, which involve the need for limited retail and service uses in close proximity to neighborhoods. These convenience centers should be constructed to a residential scale, and be visually and dimensionally compatible to adjacent residential developments. The Neighborhood Services (NS) District should not contain uses that create excessive amounts of traffic, noise, litter or that would not be conducive to residential adjacency. Due to the residential adjacency of this zoning district, increased landscaping and buffering requirements are necessary.

(B) *Permitted Uses*. All land uses permitted within the Neighborhood Services (NS) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Neighborhood Services (NS) District shall conform to Subsection 4.01, *General Commercial District Standards*, and the related standards listed within Subsection 7.03, *Non-Residential District Development Standards*.

SUBSECTION 4.04: GENERAL RETAIL (GR) DISTRICT

(A) *Purpose.* The General Retail (GR) District is a zoning district intended to provide limited retail and service uses for one (1) or more neighborhoods. The land uses specified in this district include most types of retail and office activity, and are typically located on/at the intersections of major thoroughfares. This district does ***not*** include strip commercial/retail centers, large shopping centers, wholesaling operations, lumberyards, contractor yards, and/or warehouses with high volumes of commercial truck traffic. The General Retail (GR) District is not a major commercial/retail district, and should try to avoid intensive commercial land uses that carry large volumes of retail traffic. The noise, traffic, litter, late night hours, and other influences that could be harmful to residential areas require adequate buffering and screening from residential areas. Traffic from land uses in this district should not pass through residential areas, except on arterial or major collectors. There are restrictions on access to prevent traffic congestion or an adverse effect on major thoroughfares adjacent to residential areas. Areas should not be zoned General Retail (GR) District unless they are located on or close to an arterial or major collector that is capable of carrying increased traffic. Since the General Retail (GR) District will be located close to residential areas, the development standards are stringent and require high standards of development similar to the Residential-Office (RO) and Neighborhood Services (NS) Districts.

(B) *Permitted Uses.* All land uses permitted within the General Retail (GR) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a General Retail (GR) District shall conform to Subsection 4.01, *General Commercial District Standards*, and the related standards listed within Subsection 7.03, *Non-Residential District Development Standards*.

SUBSECTION 4.05: COMMERCIAL (C) DISTRICT

(A) *Purpose*. The Commercial (C) District is the proper zoning classification for most types of commercial development (*e.g. larger shopping centers at major intersections, commercial strips along arterial roadways, etc.*). The land uses specified for the Commercial (C) District include most types of office and retail activity with some special provisions for wholesale land uses. This district mostly excludes land uses that are not compatible with retail shopping (*e.g. lumberyards, contractor yards, warehousing, or other land uses with high volumes of truck traffic and low volumes of retail traffic*). The noise, traffic, litter, late night hours, and other influences that could be harmful to neighborhoods require adequate buffering and mitigating factors when locating adjacent to residential areas. Areas should not be zoned to Commercial (C) District unless they are located on or close to an arterial or major collector that is capable of carrying the additional traffic generated by land uses in this district. In addition, these areas may require increased water, fire protection, wastewater and drainage capacity. The Commercial (C) District is a general business zone, and is intended to service most commercial land uses, with the exception of land uses that would fall into the Heavy Commercial (HC) District. Since the Commercial (C) District is general in nature, the development standards are less stringent and do not require as high of standards of development as the Residential-Office (RO), Neighborhood Services (NS) and General Retail (GR) Districts.

(B) *Permitted Uses*. All land uses permitted within the Commercial (C) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Commercial (C) District shall conform to Subsection 4.01, *General Commercial District Standards*, and the related standards listed within Subsection 7.03, *Non-Residential District Development Standards*.

(D) *Special District Requirements.*

(1) *Business Operations and Storage*. All business operations including storage shall be conducted within a completely enclosed building unless specifically authorized for the use as stipulated in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*. This excludes off-street parking and loading, incidental display of retail items for sale, retail outlets where gasoline products are sold and drive-in businesses.

SUBSECTION 4.06: HEAVY COMMERCIAL (HC) DISTRICT

(A) *Purpose*. The Heavy Commercial (HC) District is the proper zoning classification for commercial establishments that may involve uses that would not be suitable in the other commercial zoning districts. Included in this district are commercial uses that involve large volumes of commercial truck traffic, outside operations, outside storage of materials and equipment, excessive noise from heavy service operations, and/or any other possibly adverse operations. The Heavy Commercial (HC) District is commercial in nature, but has some aspects that are similar to industrial land uses. The zoning district allows noise, traffic, litter, late night hours, outside storage of materials and equipment, and other influences that could be harmful if directly adjacent to residential areas, and will require adequate buffering and other mitigating factors if such an adjacency exists. Areas should not be zoned to Heavy Commercial (HC) District unless they are located on or close to an arterial that is capable of carrying large volumes of commercial truck traffic. Businesses locating in the Heavy Commercial (HC) District should work with the City to ensure that water, wastewater, and drainage capacity is adequate before locating on a particular property, and that streets in and adjacent to this district are of a size and strength to accommodate commercial truck traffic.

(B) *Permitted Uses*. All land uses permitted within the Heavy Commercial (HC) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Commercial (C) District shall conform to Subsection 4.01, *General Commercial District Standards*, and the related standards listed within Subsection 7.03, *Non-Residential District Development Standards*.

(D) *Special District Requirements.*

(1) *Outside Storage*.

(a) All outside storage shall be placed behind the front facade of the main structure. This does not apply to uses that allow incidental display, in which case only the amount of goods necessary for display purposes shall be exempt from this requirement.
(b) All outside storage shall be screened from streets and public areas in accordance with the requirements of Subsection 1.05, *Screening Standards*.

SUBSECTION 4.07: DOWNTOWN (DT) DISTRICT

Subsection 4.07, *Downtown (DT) District*, is omitted from this ordinance change, but is retained in its entirety.

SECTION 5: INDUSTRIAL DISTRICTS

SUBSECTION 5.01: GENERAL INDUSTRIAL DISTRICT STANDARDS

All industrial development shall conform to the following standards:

(A) *Construction Standards*.

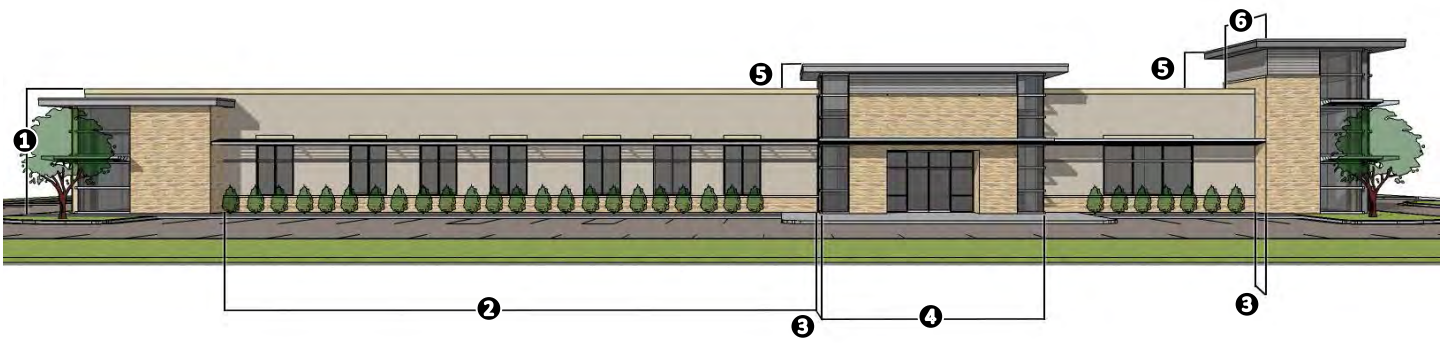
(1) *Materials and Masonry Composition*. Each exterior wall of a building's façade shall consist of a minimum of 90% *Primary Materials* and/or a maximum of 10% *Secondary Materials* -- *excluding doors and windows* -- as defined below.

(a) *Primary Materials*. *Primary Materials* shall include stone, brick, glass curtain wall, glass block, tile, and custom Concrete Masonry Units (CMU) (*i.e. CMUs that have been sandblasted, burnished or that have a split face -- light weight block or smooth faced CMU shall be prohibited*). Specific requirements for *Primary Materials* are as follows:

(1) *Stone.* A minimum of 20% stone (*i.e. natural or synthetic/cultured*) is required on all building façades.
(2) *Cementitious Materials.* The use of cementitious materials (*e.g. stucco, cementitious lap siding, or similar materials approved by the Director of Planning or his/her designee*) shall be limited to 50% of the building's exterior façade; however, stucco shall not be used within the first four (4) feet from grade on a building's façade. The use of concrete tilt-up walls may be permitted on a case-by-case basis in accordance with the exception requirements outlined below.
(3) *Accent Brick and Stone.* Each building shall incorporate accent brick or stone, or brick and stone patterns and materials that create contrast through color, shape, size, and/or texture to the planes of the primary brick or stone materials used on each building elevation.

(b) *Secondary Materials*. *Secondary Materials* are any material that is not deemed to be a *Primary Material* as defined above. This includes materials like aluminum composite materials, metal panels, acrylic products (*i.e. EIFS products*) cast stone, or other materials identified by the Director of Planning and Zoning or his/her designee.

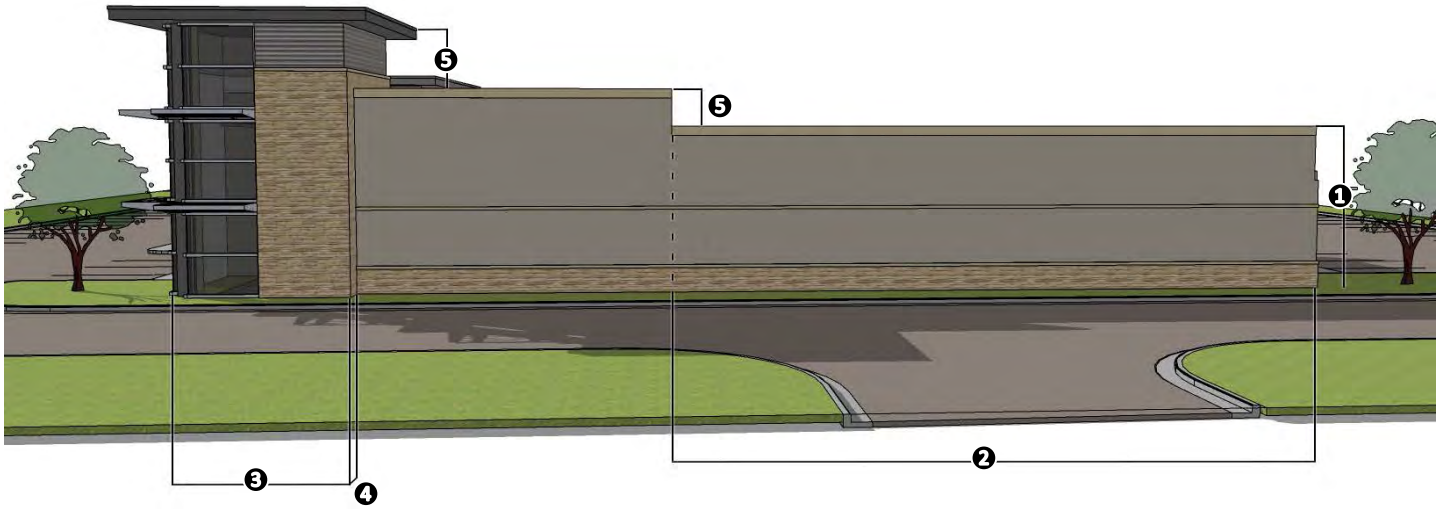
(2) *Roof Design Standards*. All structures shall have the option of being constructed with either a pitched (*minimum of a 6:12 roof pitch*), parapet, or mansard roof system as long as the roof system is enclosed on all sides. Metal roofs with lapped seam construction, bituminous built-up roofs, and/or flat membrane-type roofs that are visible from adjacent properties or public right-of-way shall be prohibited. Projecting elements and parapets that are visible from adjacent properties or public right-of-way shall be finished on the interior side using the same materials as the exterior facing wall.



(B) *Maximum Building Height.*

(1) *Setback Exceptions for Building Height in Industrial Districts*. All structures shall conform to the height requirements specified for the zoning district of the subject property as stipulated by Section 7.03, *Non-Residential District Development Standards*; however, the following features may be constructed 12-feet higher than the maximum height requirement if they [*1*] are not more than 33% of the total roof area, and [*2*] are setback from the edge of the roof a minimum of two (2) feet for every one (1) foot that the feature extends above the surface of the roof:

(a) Chimneys, Church Spires, Elevator Shafts, and similar appendages not intended as places of occupancy and/or storage.
(b) Flag Poles.
(c) Solar Collectors and/or Similar Equipment, Fixtures, and Devices.



(C) *Building Articulation.*

(1) *Primary Building Façades.* A primary building façade is any building façade that has a primary entryway for a business or that has an adjacency to a public right-of-way, open space/green space, public/private park, and/or a residential zoning district or residentially used property. All industrial buildings shall meet the following standards for articulation on primary building façades:

❶: *Wall Height*. The wall height shall be measured from grade to the top of the wall.
❷: *Wall Length*. The maximum wall length shall not exceed four (4) times the wall height (*i.e. 4 x* ❶ ≥ ❷).
❸: *Wall Projection*. The minimum wall projection for an entryway/architectural element shall be 25% of the wall height (*i.e. 25% x* ❶ ≤ ❸).
❹: *Entryway/Architectural Element Length*. The minimum entryway/architectural element length shall be 33% of the wall height (*i.e. 33% x* ❷ ≥ ❹).
❺: *Projection Height*. The entryways/architectural elements shall extend a minimum of 25% of the wall height above the top of the wall (*i.e. 25% x* ❶ ≤ ❺).
❻: *Entryway/Architectural Element Width*. The minimum width of the entryway/architectural element shall extend for twice the required wall projection (*i.e. 2 x* ❸ ≥ ❻).

(2) *Secondary Building Façade.* A secondary building façade is any building façade that does not have a primary entryway or an adjacency to a public right-of-way, open space/green space, public/private park, and/or a residentially zoned district or residentially used property. All industrial buildings shall meet the following standards for articulation on secondary building façades:

❶: *Wall Height*. The wall height shall be measured from grade to the top of the wall.
❷: *Wall Length*. The maximum wall length shall not exceed three (3) times the wall height (*i.e. 3 x* ❶ ≥ ❷).
❸: *Secondary Entryway/Architectural Element Length*. The minimum length of the secondary entryway or projecting architectural element shall be 15% of the wall length *(i.e. 15% x* ❷ ≤ ❸).
❹: *Secondary Entryway/Architectural Element Width*. The minimum wall projection for a secondary entryway/architectural element shall be 15% of the wall height (*i.e. 15% x* ❶ ≤ ❹).
❺: *Projection Height*. The secondary entryways/architectural elements shall extend a minimum of 15% of the wall height above the top of the wall (*i.e. 15% x* ❶ ≤ ❺).

(D) *Open Space Guidelines*. Industrial land uses should be designed to be integrated with adjacent land uses, as opposed to separating land uses using physical barriers or screening walls (*unless necessary*). This should be achieved by making industrial developments pedestrian-oriented and easily accessible to adjacent developments through the use of natural buffers, open space and trails. This involves creating trails that connect commercial and residential developments, using landscape buffers that incorporate berms and landscaping to separate residential and non-residential land uses, and utilizing building design to create compatibility with surrounding land uses.

(E) *Exceptions.* The Planning and Zoning Commission may consider exceptions to the *General Industrial District Standards* pending a recommendation from the Architectural Review Board (ARB), and in accordance with Section 9.01, *Exceptions to the General Standards*, of Article XI, *Development Applications and Review Procedures*.

SUBSECTION 5.02: LIGHT INDUSTRIAL (LI) DISTRICT

(A) *Purpose*. The Light Industrial (LI) District is a zoning district intended to create a limited industrial zone that provides for modern types of industrial land uses. With the exception of hazardous materials/manufacturing, this zone allows the same uses as the Heavy Industrial (HI) District. Limitations have been placed on the uses in this district to significantly restrict outside activities and the storage of materials, noise, vibration, smoke, pollution, fire and explosive hazards, glare and any other potentially adverse externalities. The Light Industrial (LI) District is intended for industrial parks and larger, cleaner types of industries. The manufacturing uses should be conducted within a totally enclosed building, and any activities conducted outside should be screened and buffered to ensure no external effects (*e.g. excessive noise or odor*) extend beyond the property lines. The locations for these types of industrial land uses are typically a minimum of two (2) acres and average of five (5) to ten (10) acres. These types of development also incorporate open space and significant amounts of land dedicated to landscaping.

Since this zoning district accommodates limited industrial activities that require substantial screening and buffering requirements, the Light Industrial (LI) District is a suitable zoning designation for high visibility locations (*e.g. IH-30 and SH-276*) or within a reasonable distance of residential areas as long as they are separated by an appropriate amount of open space. Residential uses should be discouraged from locating directly adjacent to or near the Light Industrial (LI) District to protect these types of businesses from excessive complaints about performance standards. Areas should not be zoned to Light Industrial (LI) District unless they are located on or close to an arterial capable of carrying commercial truck traffic. In industrial parks, internal streets should be of a size and strength to accommodate commercial truck traffic. Businesses locating in the Light Industrial (LI) District should work with the City to ensure that water, wastewater, and drainage capacity is adequate before locating on a particular property.

(B) *Permitted Uses*. All land uses permitted within the Light Industrial (LI) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Light Industrial (LI) District shall conform to Subsection 4.01, *General Industrial District Standards*, and the related standards listed within Subsection 7.03, *Non-Residential District Development Standards*.

(D) *Special District Requirements.*

(1) *Manufacturing Operations and Storage*. All business and manufacturing operations including storage shall be conducted within a completely enclosed building unless specifically authorized for the use as listed in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

SUBSECTION 5.03: HEAVY INDUSTRIAL (HI) DISTRICT

(A) *Purpose*. The City of Rockwall recognizes that some industrial uses cannot be conducted within a totally enclosed building, are not visually attractive, may involve hazardous materials, and could have adverse impacts to adjacent land uses due to noise, odor, pollution, and truck traffic. The Heavy Industrial (HI) District is intended to provide adequate space and site diversification for these types of developments. The development standards in the Heavy Industrial (HI) District are minimal, and allow both large and small industrial uses either on separate small lots or as part of a larger industrial park. Some screening is required, but because of the potential for hazardous or possibly adverse uses, this district should not be located close to residential areas of any type. Areas should not be zoned Heavy Industrial (HI) District unless they are located on or close to an arterial roadway capable of carrying commercial truck traffic. Internal streets in the Heavy Industrial (HI) District should be of a size and strength to accommodate commercial truck traffic. Businesses locating in the Heavy Industrial (HI) District should work with the City to ensure that water, wastewater, and drainage capacity is adequate before locating on a particular property.

(B) *Permitted Uses*. All land uses permitted within the Heavy Industrial (HI) District are outlined in Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*.

(C) *Area Requirements*. All development within a Heavy Industrial (HI) District shall conform to Subsection 4.01, *General Industrial District Standards*, and the related standards listed within Subsection 7.03, *Non-Residential District Development Standards*.

SECTION 6: OVERLAY DISTRICTS

SUBSECTION 6.01: OVERLAY DISTRICTS

Overlay districts are applied to land that has a traditional zoning district designation already applied to it. It establishes additional uses and standards, which may be either more or less restrictive than the underlying zoning district. The overlay district governs in all cases where it sets out a particular use or standard that conflicts with other sections of this Unified Development Code (UDC). In cases where the overlay district does not specifically address a standard or requirement, the underlying zoning district will govern.

SUBSECTION 6.02: GENERAL OVERLAY DISTRICT STANDARDS

(A) *Applicability*. The *General Overlay District Standards* shall be applied to the following overlay districts:

- ☑ IH-30 Overlay (IH-30 OV) District
- ☑ SH-205 Overlay (SH-205 OV) District
- ☑ Scenic Overlay (SOV) District
- ☑ SH-66 Overlay (SH-66 OV) District
- ☑ SH-205 By-Pass Overlay (SH-205 BY OV) District
- ☑ North SH-205 Overlay (N. SH-205 OV) District
- ☑ East SH-66 Overlay (E. SH-66 OV) District
- ☑ FM-549 Overlay (FM-549 OV) District
- ☑ SH-276 Overlay (SH-276 OV) District

All other overlay district standards are detailed in Sections 6.03 – 6.15.

(B) *Special Use Standards.* Development within the Scenic Overlay (SOV) District and the SH-66 Overlay (SH-66 OV) District shall comply with the *Land Use Schedule* contained in Article IV, *Permissible Uses*, of this Unified Development Code (UDC); however, the following land uses may be considered on a case-by-case basis through a Specific Use Permit:

a. Retail Store with Gasoline Sales (*Any Amount of Dispensers or Vehicles*)
b. Car Wash (*Any Type*)
c. Structures Over 36-Feet in Height

(C) *Architectural Standards.*

(1) *Materials and Masonry Composition*. Each exterior wall of a building's façade shall consist of a minimum of 90% *Primary Materials* and/or a maximum of 10% *Secondary Materials* -- *excluding doors and windows* -- as defined below.

(a) *Primary Materials*. *Primary Materials* shall include stone, brick, glass curtain wall, glass block, tile, and custom Concrete Masonry Units (CMU) (*i.e. CMUs that have been sandblasted, burnished or that have a split face -- light weight block or smooth faced CMU shall be prohibited*). Specific requirements for *Primary Materials* are as follows:

(1) *Stone.* A minimum of 20% natural or quarried stone is required on all building façades; however, the Planning and Zoning Commission, upon recommendation from the Architectural Review Board (ARB), may grant the use of a high quality manufactured or cultured stone in lieu of natural or quarried stone if it is determined that the application of the manufactured or cultured stone will be complimentary and integral to the design of the building. In making this determination, both the Architectural Review Board (ARB) and the Planning and Zoning Commission should consider the shape, texture, size, quality and warranty of the product being proposed.
(2) *Cementitious Materials.* The use of cementitious materials (*e.g. stucco, cementitious lap siding, or similar materials approved by the Director of Planning or his/her designee*) shall be limited to 50% of the building's exterior façade; however, stucco shall not be used within the first four (4) feet from grade on a building's façade.
(3) *Accent Brick and Stone.* Each building shall incorporate accent brick or stone, or brick and stone patterns and materials that create contrast through color, shape, size, and/or texture to the planes of primary brick or stone materials in an elevation.

(b) *Secondary Materials*. *Secondary Materials* are any material that is not deemed to be a *Primary Material* as defined above. This includes materials like aluminum composite

materials, metal panels, acrylic products (*i.e. EIFS products*) cast stone, cultured stone or other materials identified by the Director of Planning and Zoning or his/her designee.

(2) *Roof Design Standards*. All structures that have a building footprint of less than 6,000 SF shall be constructed with a pitched roof. Those structures having a footprint 6,000 SF or greater shall have the option of being constructed with either a pitched, parapet, or mansard roof system as long as the roof system is enclosed on all sides. Standing seam metal roofs shall be constructed of a factory-treated, non-metallic, matte finish to avoid glare. Metal roofs with lapped seam construction, bituminous built-up roofs, and/or flat membrane-type roofs that are visible from adjacent public right-of-way shall be prohibited.

(3) *Mechanical Equipment Screening*. All buildings shall be designed so that no HVAC, satellite dishes, appurtenances and/or any other mechanical equipment visible from any direction. This shall include equipment located on the roof, on the ground, or otherwise attached to the building or located on the site.

(a) Screening of rooftop mechanical equipment and/or other rooftop appurtenances shall be accomplished by either the construction of [*1*] a roof system described in the *Roof Design Standards* above, or [*2*] an architectural feature that is integral to the building's design and ensures that such rooftop mechanical equipment is not visible from any direction. Fencing or the enclosing of individual mechanical units shall not be permitted.

(b) All rooftop mechanical equipment or architectural features shall be shown on the required building elevations and submitted along with the site plan for review by City Staff, the Architectural Review Board (ARB), and the Planning and Zoning Commission.

(4) *Required Architectural Elements.* All buildings that are less than 50,000 SF shall be designed to incorporate a minimum of four (4) architectural elements, buildings over 50,000 SF shall include a minimum of six (6) architectural elements, and buildings over 100,000 SF shall include a minimum of seven (7) architectural elements. The accepted architectural elements for all buildings are as follows:

- ☑ Canopies, Awnings, or Porticos
- ☑ Recesses/Projections
- ☑ Arcades
- ☑ Peaked Roof Forms
- ☑ Arches
- ☑ Outdoor Patios
- ☑ Display Windows
- ☑ Architectural Details (*e.g. Tile Work and Moldings*) Integrated into the Building's Facade
- ☑ Articulated Ground Floor Levels or Bases
- ☑ Articulated Cornice Line
- ☑ Integrated Planters or Wing Walls that Incorporate Landscape and Sitting Areas
- ☑ Offsets, Reveals or Projecting Rib Expressing Architectural or Structural Bays
- ☑ Varied Roof Heights

<u>*NOTE*</u>: Other architectural features maybe approved by the Director of Planning and Zoning or his/her designee.

(5) *Four (4) Sided Architecture.* All buildings shall be architecturally finished on all four (4) sides utilizing the same materials, detailing, articulation and features. In addition, a minimum of one (1) row of trees (*i.e. four [4] or more accent or canopy trees*) shall be planted along perimeter of the subject property to the rear of the building.

(6) *Windows.* The color of all windows shall be reviewed by the Architectural Review Board (ARB), and shall have a maximum visible exterior reflectivity of 20%.

(7) *Office Parks, Shopping Centers and Mixed Use Centers.* All buildings within a common retail, commercial or office development shall incorporate complementary architectural styles, materials, and colors. Staff may require a conceptual façade plan and/or sample boards for these types of developments to ensure consistency and compatibility for all buildings within a proposed development. Conceptual façade plans will be used only to ensure compliance to the minimum standards.

(8) *Corporate Identity.* A company's building corporate identity that conflicts with the *General Overlay District Standards* shall be reviewed *case-by-case* basis as a variance in accordance with the requirements of Subsection 9.02, *Variances to the General Overlay District Standards*, of Article XI, *Development Applications and Review Procedures*.

(D) *Site Design Guidelines and Standards.*

(1) *Building Setbacks*. The building setbacks adjacent to the *Primary Roadway* (*i.e. IH-30, SH-205, FM-740, SH-66, FM-549, John King Boulevard and SH-276*) shall be as follows:

(1) Scenic Overlay (SOV) District: 15-feet
(2) SH-66 Overlay (SH-66 OV) District: 15-feet
(3) IH-30 Overlay (IH-30 OV) District: 25-feet
(4) SH-205 Overlay (SH-205 OV) District: 25-feet
(5) North SH-205 Overlay (N. SH-205 OV) District: 25-feet
(6) SH-205 By-Pass Overlay (SH-205 BY OV) District:

- ☑ Residential Land Uses: *See* *Section 6.3.5, SH-205 By-Pass Overlay (SH-205 BY OV) District*
- ☑ Retail/Commercial Land Uses: 15-feet
- ☑ Industrial/Office/Technology Land Uses: 50-feet

(7) East SH-66 Overlay (E. SH-66 OV) District:

- ☑ Residential Land Uses: 25-feet
- ☑ Retail/Commercial Land Uses: 15-feet
- ☑ Industrial/Office/Technology Land Uses: 50-feet

(8) FM-549 Overlay (FM-549 OV) District:

- ☑ Residential Land Uses: 25-feet
- ☑ Retail/Commercial Land Uses: 15-feet
- ☑ Industrial/Office/Technology Land Uses: 50-feet

(9) SH-276 Overlay (SH-276 OV) District:

- ☑ Residential Land Uses: 25-feet
- ☑ Retail/Commercial Land Uses: 15-feet
- ☑ Industrial/Office/Technology Land Uses: 50-feet

All other building setback regulations shall be the same as set forth in the underlying zoning district.

(2) *Parking Restrictions*. No more than one (1) full row of parking (*i.e. two rows of parking with a drive aisle*) shall be allowed between the primary building façade and the right-of-way of the *Primary Roadway* (*i.e. IH-30, SH-205, FM-740, SH-66, FM-549, John King Boulevard and SH-276*).

(3) *Access/Ingress/Egress*. In an effort to minimize potential vehicular and pedestrian conflicts, special attention must be given to the location of median breaks along major thoroughfares, the number and location of driveways providing ingress/egress, the design of driveways providing

ingress/egress in relation to the parking areas and sight/visibility distances. Taking this into consideration it is important to review all site plans for the following guidelines:

a. Driveways should be spaced a minimum of 100-feet from the intersection of any major thoroughfare.
b. The ingress/egress driveways shall have a minimum radius of 30-feet;
c. Driveways should maintain an appropriate visibility triangle at ingress/egress driveways.
d. Main entrances should generally be located at median breaks that provide left turn access into the site.
e. Main entrances should connect to a *straightaway* aisle that does not dead end or require an immediate turn to approach the main building.
f. Aisles intersecting with entrance drives should be spaced at a minimum of 20-feet from the property line to provide for smooth turning movements.

(4) *Cross Access*. *Cross Access Easements* may be required by the Planning and Zoning Commission at the time of site plan approval to ensure access to future median breaks and to reduce the number of curb cuts needed along roadways.

(5) *Shared Parking.* In all office parks, shopping centers and mixed-use centers cross access and shared parking agreements may be required by the City Council along with final plat approval.

(6) *Loading and Service Areas*. All loading and service areas shall be located on the rear and side of buildings where possible. In the event that a loading or service area faces towards the *Primary Roadway* (*i.e. IH-30, SH-205, FM-740, SH-66, FM-549, John King Boulevard and SH-276*), additional screening of the loading and service area may be required by the Architectural Review Board (ARB) and Planning and Zoning Commission. A minimum of a ten (10) foot masonry screening wall shall be required to screen the view of loading docks and loading spaces intended for tractor/semi-trailer delivery from any public right-of-way. This ten (10) foot masonry screening wall must screen the entire loading dock or loading space. Screening materials shall utilize similar masonry materials as the front façade of the primary building. The accommodation of adequate access for service delivery trucks shall be evaluated to determine the extent of screening required.

(7) *Trash/Recycling Receptacles and Dumpster Enclosures*. Trash/Recycling Enclosures shall be four (4) sided. These receptacles shall be screened by a minimum eight (8) foot, solid masonry dumpster enclosure that utilizes the same masonry materials as the primary building and incorporates an opaque, self-latching gate. These enclosures shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building.

(8) *Play Structures*. Play structures shall not be placed between the primary building façade and a public right-of-way.

(9) *Plan Review*. In addition to the other processes and factors established by this Unified Development Code (UDC), all concept plans, development plans and site plans for property situated within an established overlay district shall be reviewed for the following:

(a) The conformance of the proposed site plan to the site design guidelines and standards.
(b) The conformance of the proposed landscape plan to the intent of the landscaping and screening requirements.
(c) The conformance of the building elevations to the intent of the architectural standards.
(d) The provision of sufficient cross access and circulation on the site plan.
(e) The provision of sufficient visibility triangles to avoid congestion at ingress/egress driveways.

(E) *Landscape Standards*.

(1) *Landscape Buffers*. The minimum landscape buffer adjacent to *Primary Roadways* (*i.e. IH-30, SH-205, FM-740, SH-66, FM-549, John King Boulevard and SH-276*) [*outside of and beyond any required right-of-way dedication*] shall be as follows:

(1) Scenic Overlay (SOV) District: 20-feet
(2) SH-66 Overlay (SH-66 OV) District: 20-feet
(3) IH-30 Overlay (IH-30 OV) District: 20-feet
(4) SH-205 Overlay (SH-205 OV) District: 20-feet
(5) North SH-205 Overlay (N. SH-205 OV) District: 20-feet
(6) SH-205 By-Pass Overlay (SH-205 BY OV) District:

- ☑ Residential Land Uses: 50-feet
- ☑ Retail/Commercial Land Uses: 25-feet
- ☑ Industrial/Office/Technology Land Uses: 50-feet

(7) East SH-66 Overlay (E. SH-66 OV) District:

- ☑ Residential Land Uses: 25-feet
- ☑ Retail/Commercial Land Uses: 15-feet
- ☑ Industrial/Office/Technology Land Uses: 50-feet

(8) FM-549 Overlay (FM-549 OV) District:

- ☑ Residential Land Uses: 25-feet
- ☑ Retail/Commercial Land Uses: 15-feet
- ☑ Industrial/Office/Technology Land Uses: 50-feet

(9) SH-276 Overlay (SH-276 OV) District:

- ☑ Residential Land Uses: 25-feet
- ☑ Retail/Commercial Land Uses: 15-feet
- ☑ Industrial/Office/Technology Land Uses: 50-feet

All landscape buffers shall incorporate ground cover, a *built-up* berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, two (2) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage along the *Primary Roadway*. In the E. SH-66 Overlay (E SH-66 OV), FM-549 Overlay (FM-549 OV), and SH-205 By-Pass Overlay (SH-205 BY OV) Districts the required landscape buffer shall incorporate one (1) additional cedar tree per 100-feet of linear of frontage along the *Primary Roadway*.

(2) *Plant Material Sizes and Selection*. All canopy trees, accent trees, shrubs and ground cover proposed to be planted in any overlay district shall be in conformance to the tables depicted in Appendix F, *Landscaping Guidelines and Requirements*, of this Unified Development Code (UDC) and shall be subject to the following sizes:

a. *Canopy Trees* shall be a minimum of four (4) caliper inches at DBH.
b. *Accent Trees* shall be a minimum of four (4) feet in total height.
c. *Deciduous Shrubs* shall be a minimum of five (5) gallons in size.
d. *Evergreen Shrubs* shall be a minimum of five (5) gallons in size.

(3) *Erosion Control/Retaining Walls.* Any slope embankments or retaining walls within the public right-of-way or within the required landscape buffer must be terraced every four (4) feet in height (maximum) with a minimum of a two (2) foot planting area provided between each vertical plane. Materials used for the vertical elements shall be natural stone or any masonry material, which matches the masonry materials used on the primary structure. The planting area must incorporate shrubs, ground cover and grasses.

(F) *Signs.* All signage requirements and variances to these requirements shall conform to Chapter 32, *Signs*, of the Municipal Code of Ordinances; however, approval of any variance to the sign standards for property situated within an established overlay district shall require approval by the City Council by a supermajority vote (*i.e. a three-fourths vote of those members present*), with a minimum of four (4) votes in the affirmative required for approval.

(G) *Lighting Standards.* No light standard, light fixture, light pole, pole base or combination thereof shall exceed 20-feet in total height in any overlay district with the exception of the IH-30 Overlay (IH-30 OV) District, which shall be limited to a maximum height of 30-feet.

(H) *Utility Placement.* All overhead utilities within any overlay district shall be placed underground.

(I) *Residential Standards.* No screening walls shall be erected adjacent to the *Primary Roadway* (*i.e. IH-30, SH-205, FM-740, SH-66, FM-549, John King Boulevard and SH-276*) in conjunction with any residential development. In addition, *eyebrow drives* with clusters of lots (*i.e. 5 – 12 homes*) shall be utilized along the *Primary Roadway* for residential developments. In lieu of *eyebrow drives,* a 50-foot landscape buffer may be utilized as an alternative. Farm fencing, including wood rail type and metal pipe and cable fencing, is allowed within the 50-foot landscape buffer. For residential developments within the SH-205 By-Pass Overlay (SH-205 BY OV) District, see *Section 6.3.5, SH-205 By-Pass Overlay (SH-205 BY OV) District*.

SUBSECTION 6.03: HISTORIC OVERLAY (HO) DISTRICT

Subsection 6.03, *Historic Overlay (HO) District*, is omitted from this ordinance change, but is retained in its entirety.

SUBSECTION 6.04: NORTH GOLIAD CORRIDOR OVERLAY (NGC OV) DISTRICT

Subsection 6.04, *North Goliad Corridor Overlay (NGC OV) District*, is omitted from this ordinance change, but is retained in its entirety.

SUBSECTION 6.05: SOUTHSIDE RESIDENTIAL NEIGHBORHOOD OVERLAY (SRO) DISTRICT

Subsection 6.05, *Southside Residential Neighborhood Overlay (SRO) District*, is omitted from this ordinance change, but is retained in its entirety.

SUBSECTION 6.06: IH-30 OVERLAY (IH-30 OV) DISTRICT

(A) *Purpose.* The intent of the IH-30 Overlay (IH-30 OV) District is to provide for consistent development of office, retail and commercial areas in concert with the most efficient and aesthetically pleasing appearance of the frontage, which serves as the initial impression to those visiting and passing through the City of Rockwall. In order to ensure that the visual impact of development does not detrimentally affect the area in which it is proposed, landscaping plans, building elevations and site plans are required. Architectural compatibility will be reviewed through the Architectural Review Board (ARB). These development requirements shall apply to non-residential and multi-family land uses only, single-family land uses shall be excluded from these standards except as otherwise stated.

(B) *Application and Boundaries.* The IH-30 Overlay (IH-30 OV) District includes the entirety of all properties which adjoin or are located within 500-feet of the future right-of-way of IH-30. The IH-30 Overlay (IH-30 OV) District spans east to west along IH-30 from the eastern city limits (approximately 3,600-feet east of FM 549), west to the western city limit line along Lake Ray Hubbard. The standards and regulations set forth in the IH-30 Overlay (IH-30 OV) District are superimposed and shall supersede the standards and regulations of any underlying zoning district which are in conflict.

(C) *Overlay District Standards*. If any portion of a property is situated within the boundaries of the IH-30 Overlay (IH-30 OV) District, the entire property shall be subject to the requirements of Section 6.01, *General Overlay District Standards*.

SUBSECTION 6.07: SH-205 OVERLAY (SH-205 OV) DISTRICT

(A) *Purpose.* The intent of the SH-205 Overlay (SH-205 OV) District is to provide for consistent development of office, retail and commercial areas in concert with the most efficient and aesthetically pleasing appearance of the frontage, which serves as the initial impression to those visiting and passing through the City of Rockwall. In order to ensure that the visual impact of development does not detrimentally affect the area in which it is proposed, landscaping plans, building elevations and site plans are required. Architectural compatibility will be reviewed through the Architectural Review Board (ARB). These development requirements shall apply to non-residential and multi-family land uses only, single-family land uses shall be excluded from these standards except as otherwise stated.

(B) *Application and Boundaries.* The SH-205 Overlay (SH-205 OV) District includes the entirety of all properties which adjoin or are located within 200-feet of the future right-of-way of SH-205. The SH-205 Overlay (SH-205 OV) District spans north to south along SH-205 from the intersection point of SH-205 and FM 740, south to the southern city limits (*approximately 2,800-feet south of FM-1139*). The standards and regulations set forth in the SH-205 Overlay (SH-205 OV) District are superimposed and shall supersede the standards and regulations of any underlying zoning district which are in conflict.

(C) *Overlay District Standards*. If any portion of a property is situated within the boundaries of the SH-205 Overlay (SH-205 OV) District, the entire property shall be subject to the requirements of Section 6.01, *General Overlay District Standards*.

SUBSECTION 6.08: SCENIC OVERLAY (SRO) DISTRICT

(A) *Purpose.* The Scenic Overlay (SOV) District is a specialized overlay district along FM-740 which has been identified in the Comprehensive Plan as a scenic thoroughfare. The identified scenic aspects of FM-740 include views of the lake, existing natural topography, and existing natural landscaping. The district has been established to protect scenic or historic qualities through the use of additional development criteria and by requiring uses compatible with both existing uses and with the visual environment. The development requirements for non-residential uses are more restrictive than in other commercial classifications in order to encourage development that will protect and enhance the existing views, topography, landscape and quality of development. This district is designed to be primarily an office and retail/commercial shopping district with an intensity of uses normally found along major thoroughfares; however, these uses may be located close to residential areas. The type of allowed uses and the more restrictive development requirements provide protection for residential areas. In order to ensure that the visual impact of development does not detrimentally affect the area in which it is proposed, landscaping plans, building elevations and site plans are required. Architectural compatibility will be reviewed through the Architectural Review Board (ARB).

(B) *Application and Boundaries.* The Scenic Overlay (SOV) District shall apply to all property located within the established boundary along FM-740 (*as set forth in Ordinance No. 87-64*). Property that has been zoned, platted and site planned at the time of adoption of the ordinance, from which this section is derived, shall be exempted from the provisions of this section unless and until an application for zoning, platting, or site planning is re-submitted on the property. All property developed within the Scenic Overlay (SOV) District must meet both the terms and requirements of the underlying zoning classification applicable to the property and the provisions set forth in the Scenic Overlay (SOV) District. The most restrictive requirement applicable to the property shall apply.

(C) *Overlay District Standards*. If any portion of a property is situated within the boundaries of the Scenic Overlay (SOV) District, the entire property shall be subject to the requirements of Section 6.01, *General Overlay District Standards*.

SUBSECTION 6.09: SH-66 OVERLAY (SH-66 OV) DISTRICT

(A) *Purpose.* The SH-66 Overlay (SH-66 OV) District is a specialized overlay district along SH-66 and Washington Street between Lake Ray Hubbard and SH-205, which has been identified as one of the important entry points into the City of Rockwall. The identified important scenic aspects of this corridor include views of the lake, existing natural topography, and existing natural landscaping adjacent to residential neighborhoods. The district has been established to protect scenic or historic qualities through the use of additional development criteria, and by requiring uses compatible with both existing uses and with the visual environment. The development requirements for non-residential uses are more restrictive than in other commercial classifications in order to encourage development that will protect and enhance the existing views, topography, landscape and quality of development. This district is designed to be primarily an office and retail/commercial shopping district with an intensity of uses normally found along major thoroughfares; however, these uses may be located close to residential areas. The type of allowed uses and the more restrictive development requirements provide protection for residential areas. In order to ensure that the visual impact of development does not detrimentally affect the area in which it is proposed, landscaping plans, building elevations and site plans are required. Architectural compatibility will be reviewed through the Architectural Review Board (ARB).

(B) *Application and Boundaries.* The SH-66 Overlay (SH-66 OV) District shall apply to all property located within the established boundary along SH-66 and Washington Street, between Lake Ray Hubbard and SH-205 (*as set forth in Ordinance No. 01-18*). Property that has been zoned, platted and site planned at the time of adoption of the ordinance, from which this section is derived, shall be exempted from the provisions of this section unless an application for zoning, platting, or site planning is resubmitted on the property. All property developed within the SH-66 Overlay (SH-66 OV) District must meet both the terms and requirements of the underlying zoning classification applicable to the property and the provisions set forth in the SH-66 Overlay (SH-66 OV) District. The most restrictive requirement applicable to the property shall apply.

(C) *Overlay District Standards*. If any portion of a property is situated within the boundaries of the SH-66 Overlay (SH-66 OV) District, the entire property shall be subject to the requirements of Section 6.01, *General Overlay District Standards*.

SUBSECTION 6.10: SH-205 BY-PASS OVERLAY (SH-205 BY OV) DISTRICT

(A) *Purpose.* The intent of the SH-205 By-Pass Overlay (SH-205 BY OV) District is to provide for consistent development of office, retail and commercial areas in concert with the most efficient and aesthetically pleasing appearance of the frontage, which serves as the initial impression to those visiting and passing through the City of Rockwall. In order to ensure that the visual impact of development does not detrimentally affect the area in which it is proposed, landscaping plans, building elevations and site plans are required. Architectural compatibility and plan review shall be conducted through the Architectural Review Board (ARB). These development requirements shall apply to non-residential and multi-family uses only. All other residential uses shall be excluded from these standards except as otherwise stated.

(B) *Application and Boundaries.* The SH-205 By-Pass Overlay (SH-205 BY OV) District includes the entirety of all properties which adjoin or are located within 500 feet of the current and future right-of-way of John King Boulevard. The SH-205 By-Pass Overlay (SH-205 BY OV) District ~~Zone~~ extends along the current and future right-of-way of John King Boulevard. to the existing city limits. The standards and regulations set forth in the SH-205 By-Pass Overlay (SH-205 BY OV) District are superimposed and shall supersede the standards and regulations of any underlying zoning district which are in conflict.

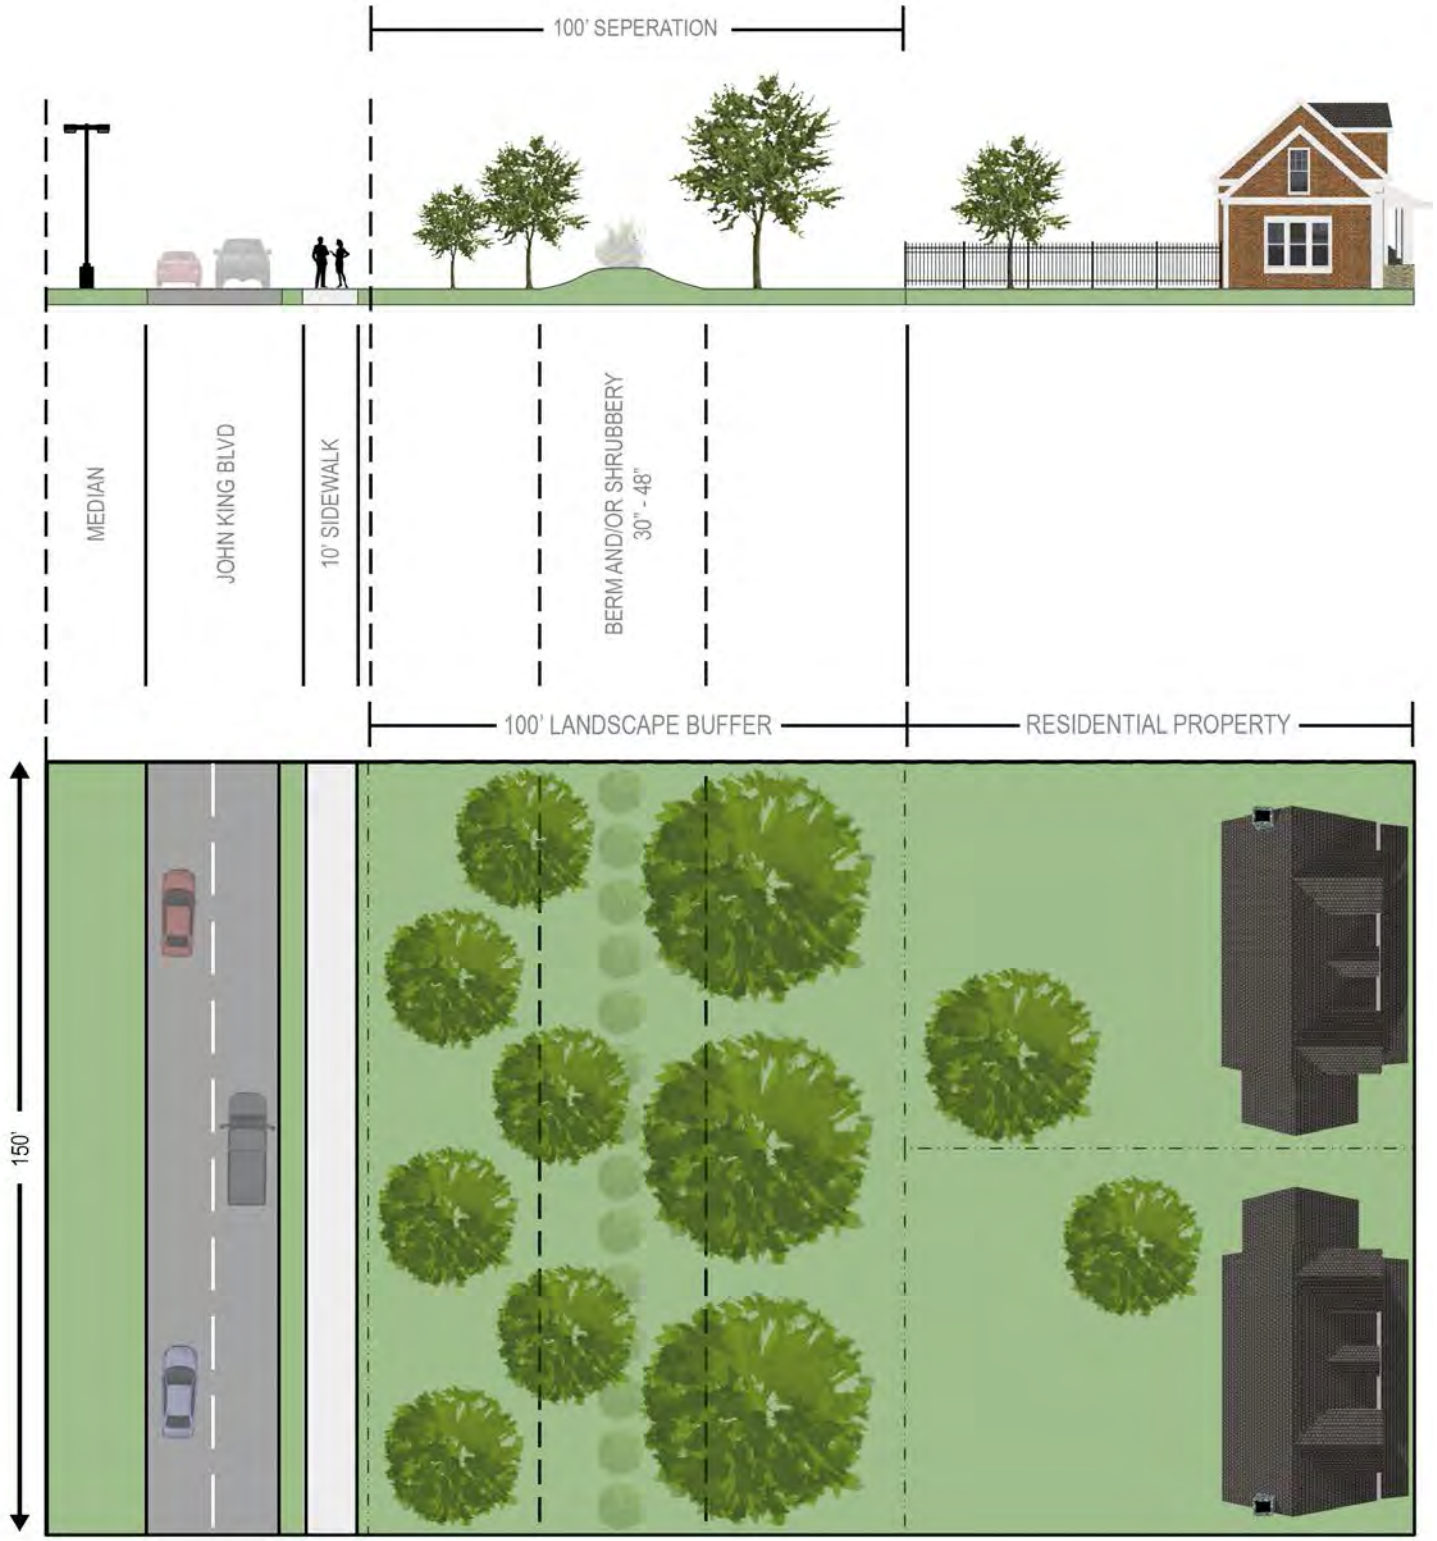
(C) *Overlay District Standards*. If any portion of a property is situated within the boundaries of the SH-205 By-Pass Overlay (SH-205 BY OV) District, the entire property shall be subject to the requirements of Section 6.01, *General Overlay District Standards*.

(D) *Special District Requirements*.

(1) *Residential Frontage Requirements*. To ensure proper separation of residential land uses from John King Boulevard all residential developments that have direct frontage on John King Boulevard shall

utilize one (1) or a combination of the following design alternatives along the entire frontage of John King Boulevard:

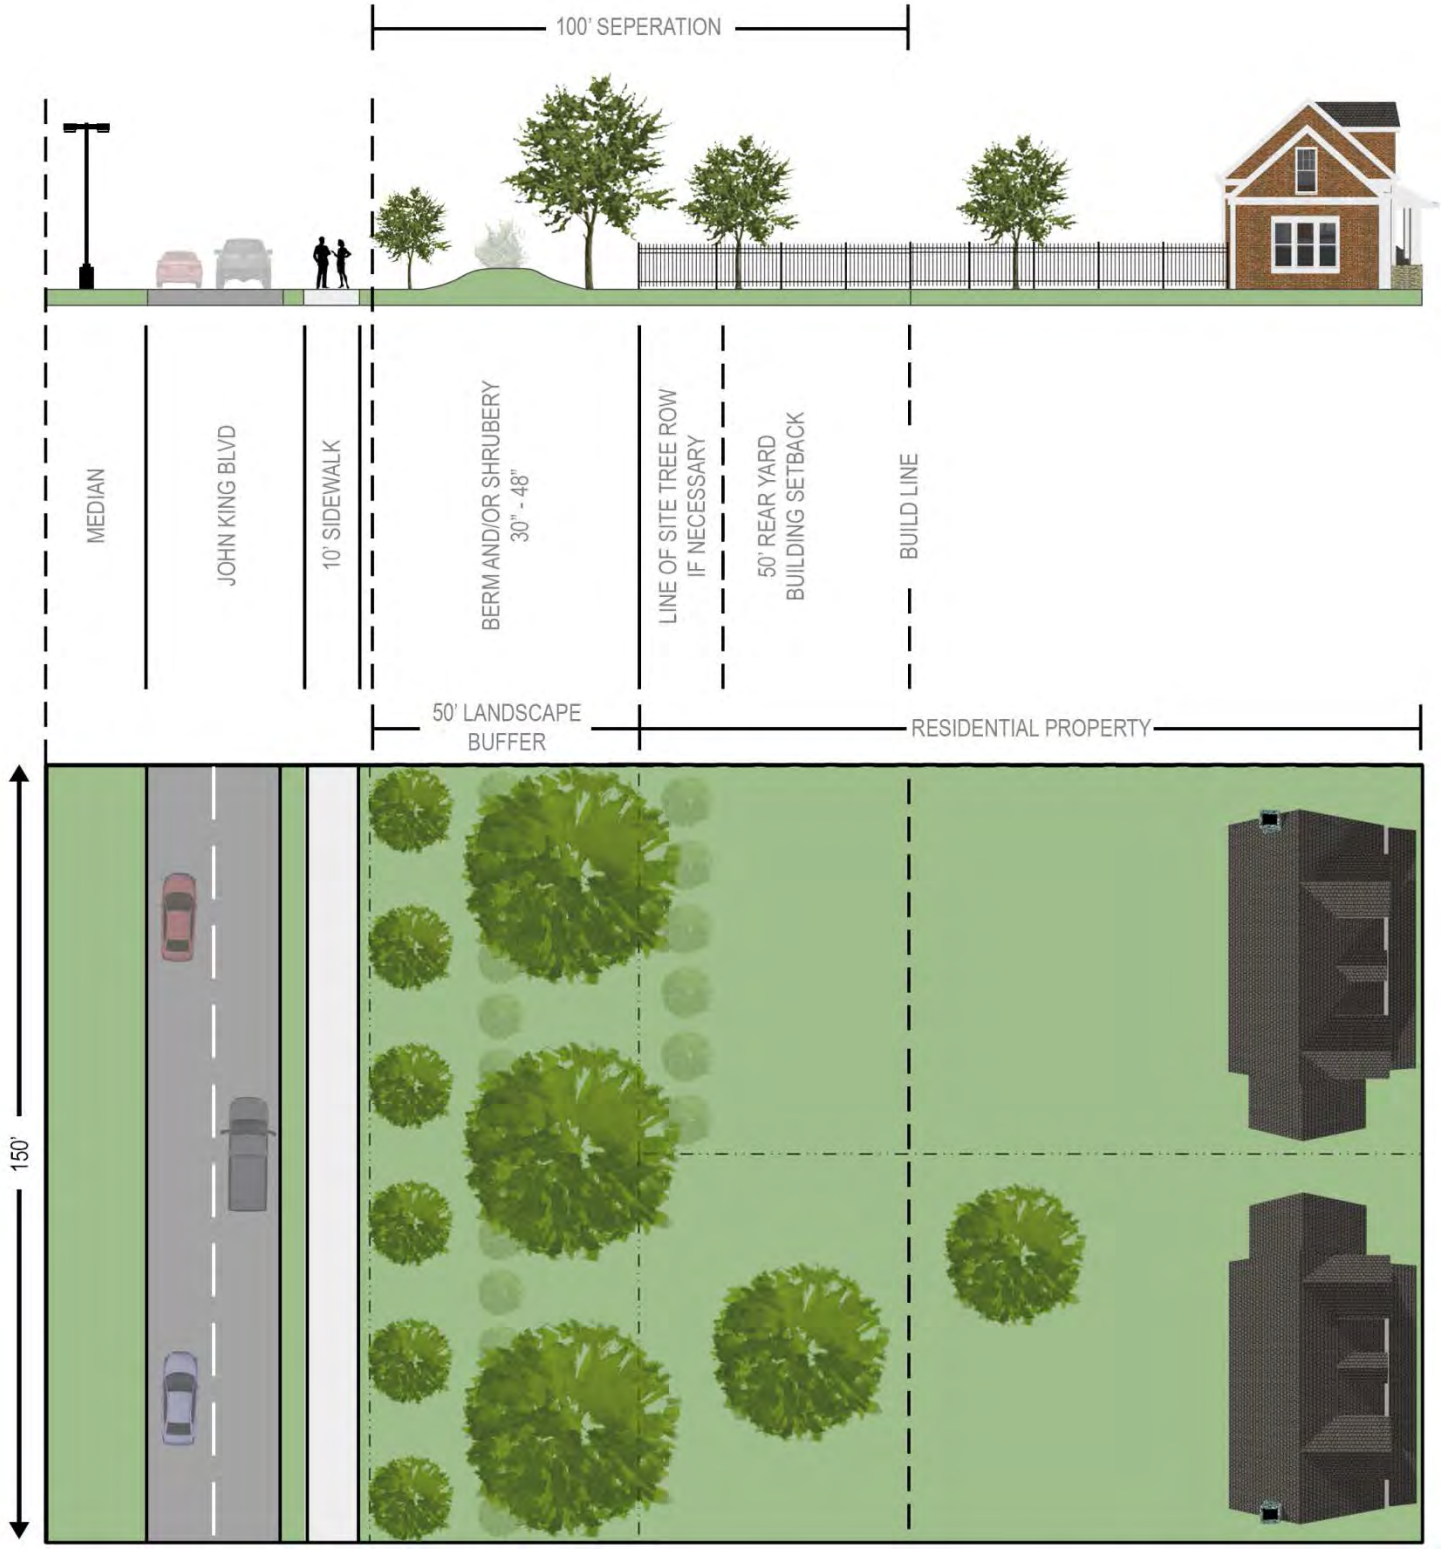
a. *Increased Landscape Buffer*. A minimum of a 100-foot landscape buffer maybe substituted for the required landscape buffer as depicted in *Design Alternative #1*.



b. *Increased Rear Yard Building Setback*. A minimum of 50-foot rear yard building setback may be incorporated adjacent to the required landscape buffer as depicted in *Design Alternative #2.*

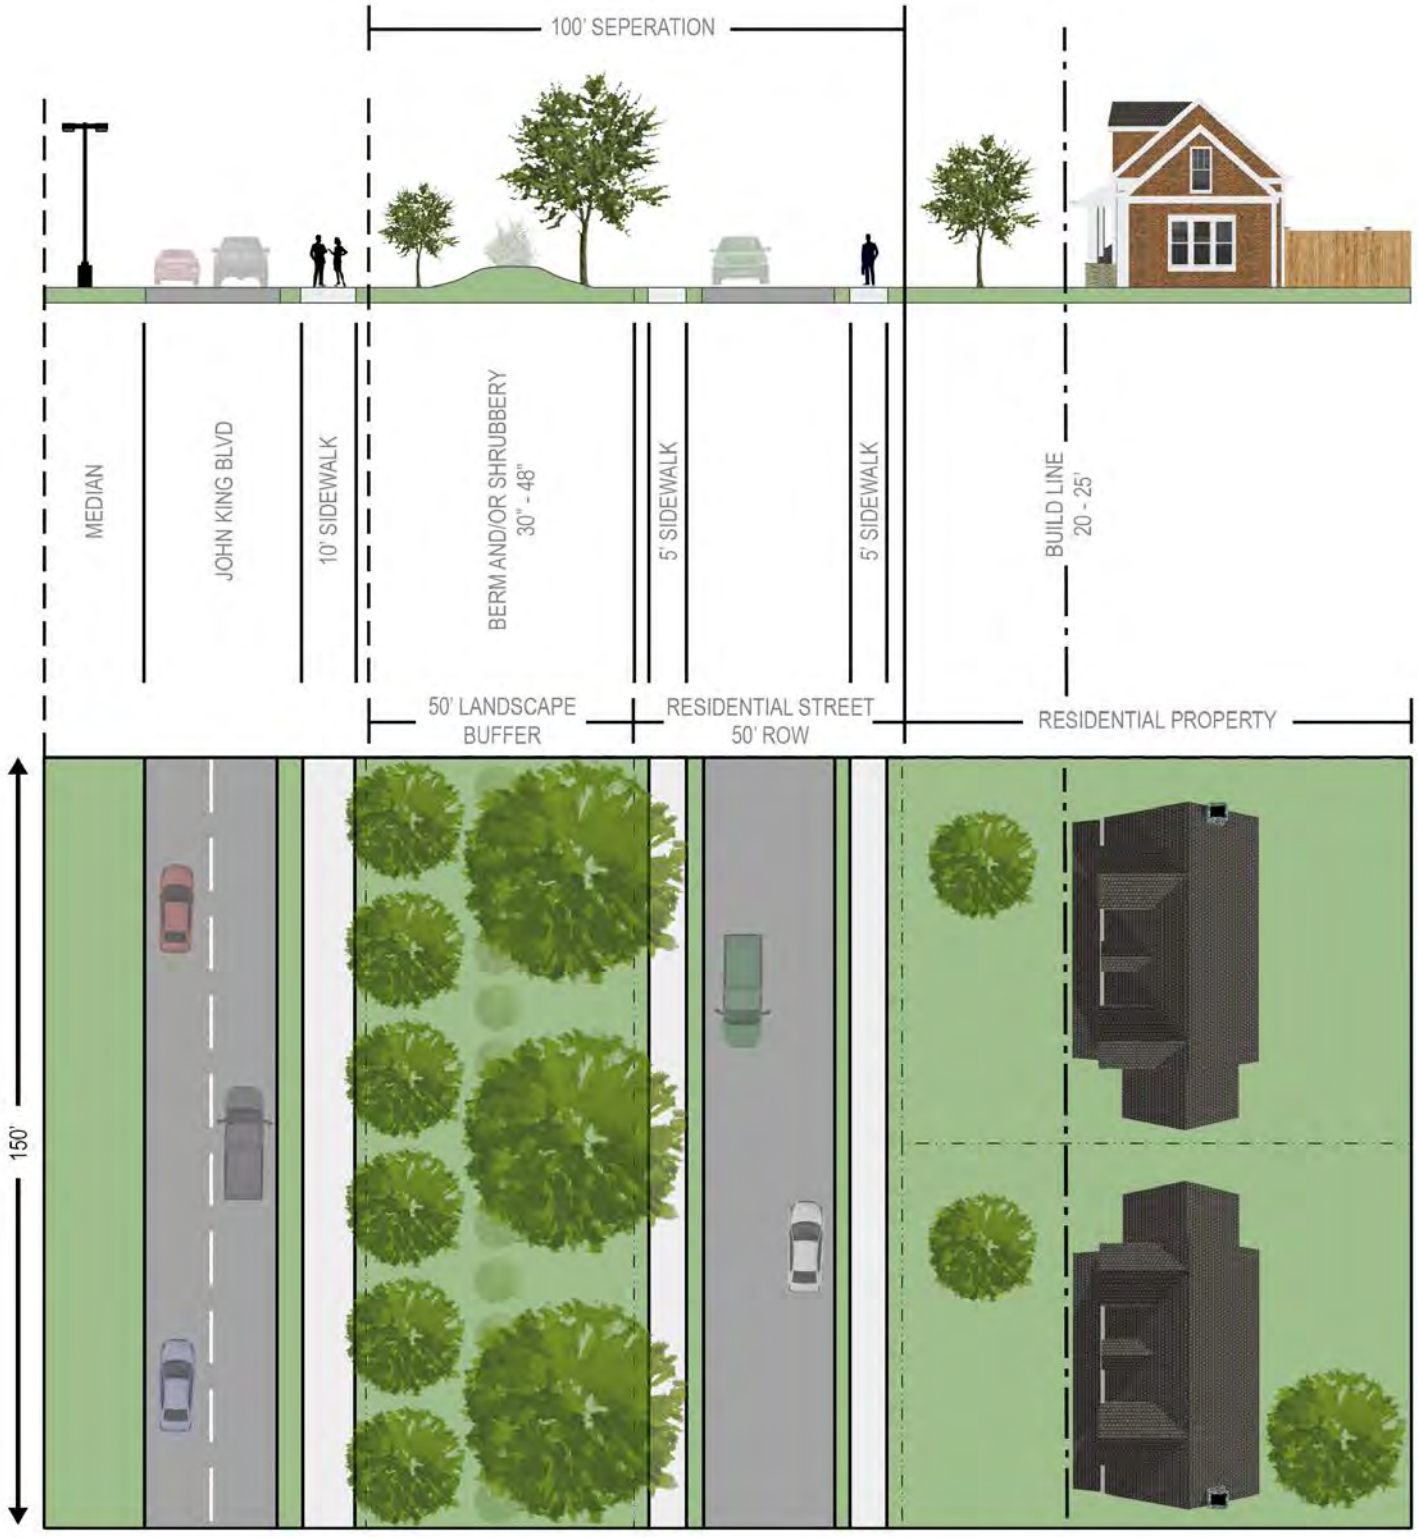
b. *Incorporation of a Slip Street*. A slip street -- *meeting the Engineering Department's requirements for right-of-way design* -- may be incorporated adjacent to and running parallel with the required landscape buffer. Homes are permitted to front or side to the slip street. Examples of this design alternative are depicted in *Design Alternative #3* and *Design Alternative #4.*

c. *Incorporation of an Eyebrow*. An eyebrow street meeting the -- *Engineering Department's requirements for right-of-way design* -- with a minimum cluster of five (5) homes and a maximum cluster of 12 homes can be incorporated with a 30-foot landscape buffer. All homes should front onto the eyebrow street and have a minimum of a 25-foot front yard building setback. An example of this design alternative is depicted *Design Alternative #5.*



(2) *Design Alternatives.*

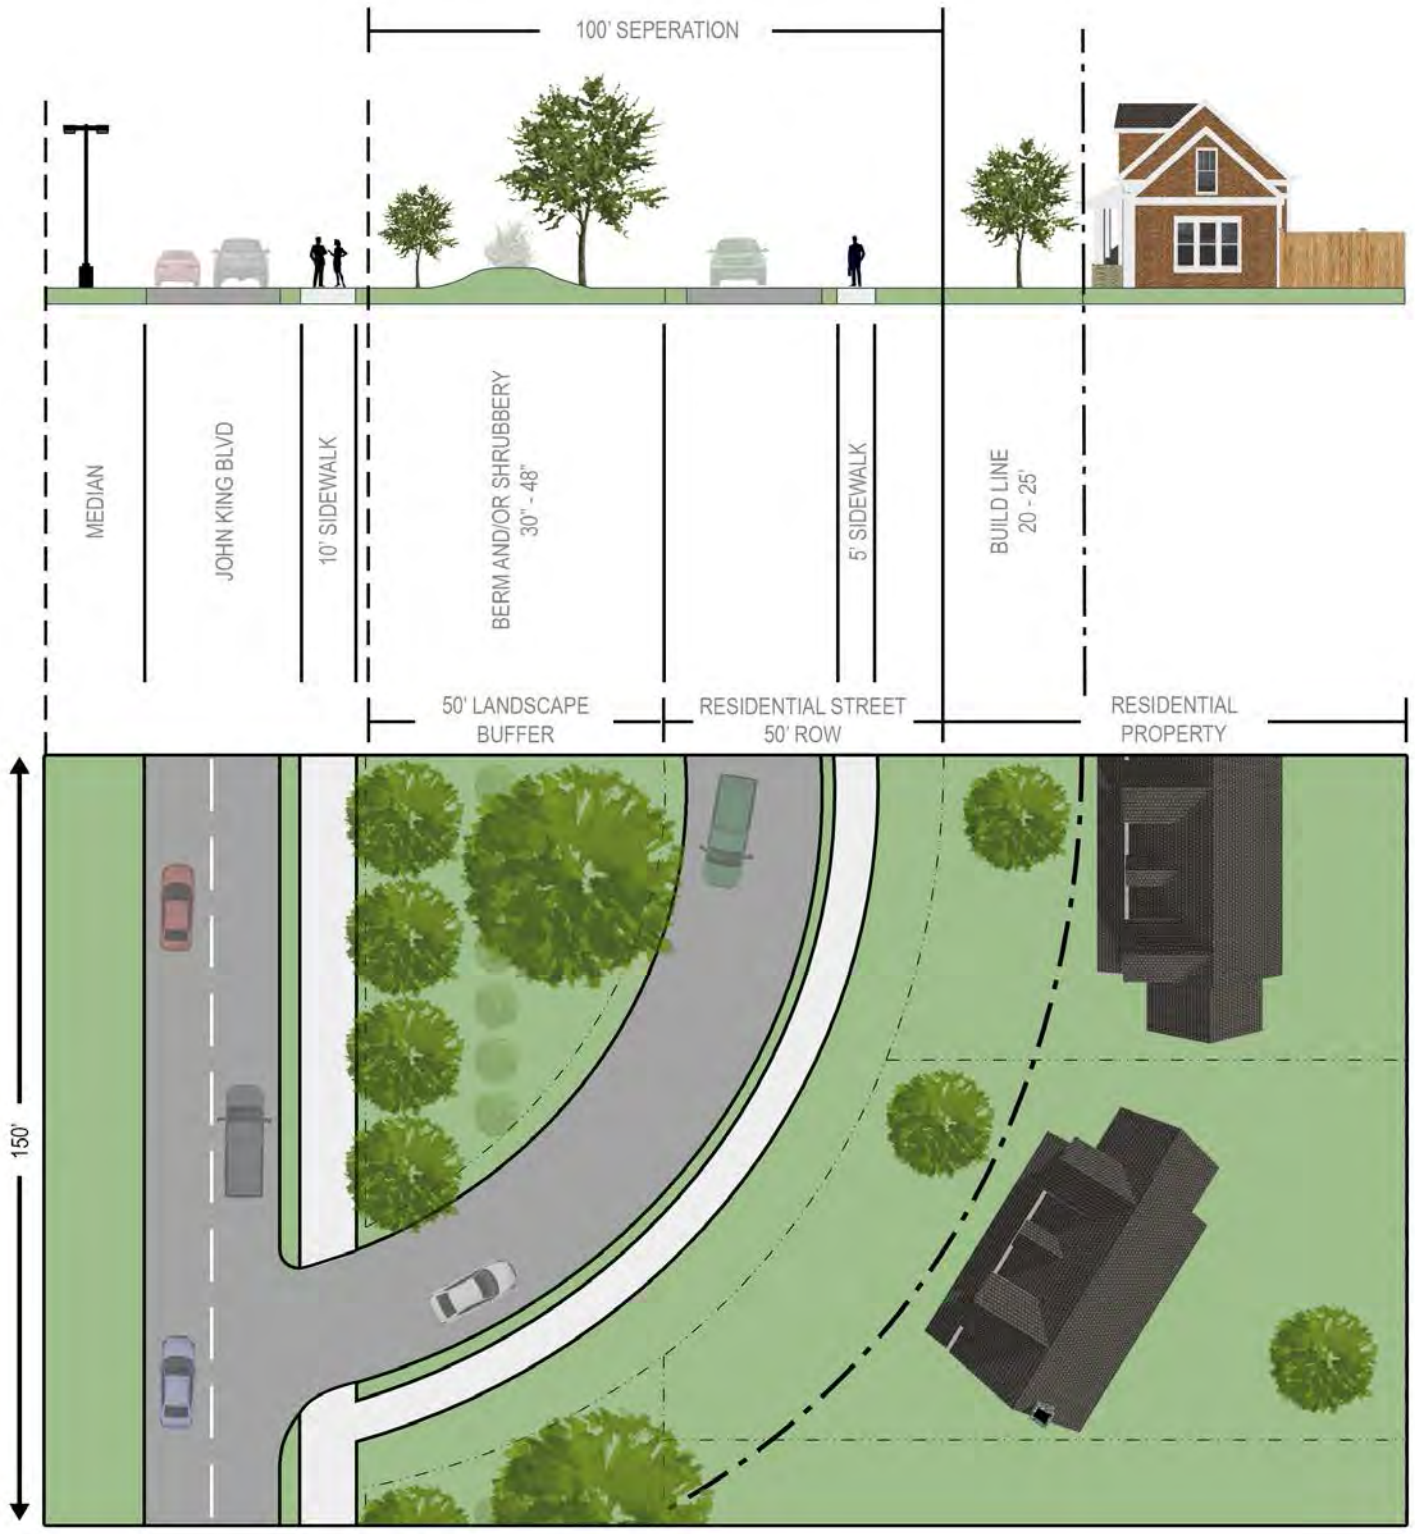
Design Alternative #1



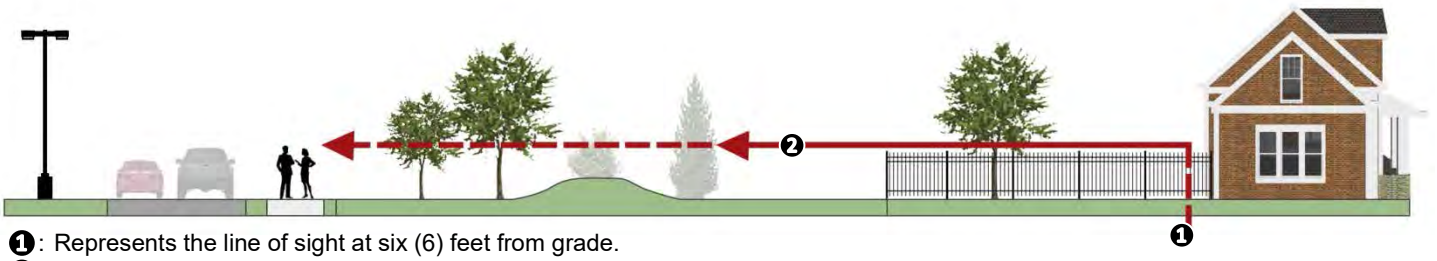
175

Design Alternative #2

Design Alternative #3



Design Alternative #4



178

Design Alternative #5

(3) *Line of Sight Requirements*. Homes that back to a required landscape buffer should be built in such a manner where the required berm visually impairs visibility to John King Boulevard. In cases where a berm proves to be ineffective at screening traffic from John King Boulevard (*due to topography, height, etc.*) the developer shall be responsible for incorporating additional landscaping to provide sufficient screening in the required landscape buffer. This will be reviewed by the Planning and Zoning Commission at the time of site plan.

❶: Represents the line of sight at six (6) feet from grade.
❷: The solid red line shows that visibility is impaired from John King Boulevard by [*1*] a row of trees or [*2*] a berm and/or row of shrubbery.

SUBSECTION 6.11: NORTH SH-205 OVERLAY (N. SH-205 OV) DISTRICT

(A) *Purpose.* The intent of the North SH-205 Overlay (N. SH-205 OV) District is to provide for consistent development of office, retail and commercial areas in concert with the most efficient and aesthetically pleasing appearance of the frontage, which serves as the initial impression to those visiting and passing through the City of Rockwall. In order to ensure that the visual impact of development does not detrimentally affect the area in which it is proposed, landscaping plans, building elevations and site plans are required. Architectural compatibility will be reviewed through the Architectural Review Board (ARB). These development requirements shall apply to non-residential and multi-family land uses only, single-family land uses shall be excluded from these standards except as otherwise stated.

(B) *Application and boundaries.* The North SH-205 Overlay (N. SH-205 OV) District includes the entirety of all properties which adjoin or are located within 500-feet of the current or future right-of-way of N. SH-205. The North SH-205 Overlay (N. SH-205 OV) District spans north to south along SH-205 from the northern city limits (approximately 4,200-feet north of FM-552), south to the intersection point of SH-205 and Heath Street. The standards and regulations set forth in the North SH-205 Overlay (N. SH-205 OV) District are superimposed and shall supersede the standards and regulations of any underlying zoning district which are in conflict.

(C) *Overlay District Standards*. If any portion of a property is situated within the boundaries of the North SH-205 Overlay (N. SH-205 OV) District, the entire property shall be subject to the requirements of Section 6.01, *General Overlay District Standards*.

SUBSECTION 6.12: EAST SH-66 OVERLAY (E. SH-66 OV) DISTRICT

(A) *Purpose.* The intent of the East SH-66 Overlay (E. SH-66 OV) District is to provide for consistent development of office, retail and commercial areas in concert with the most efficient and aesthetically pleasing appearance of the frontage, which serves as the initial impression to those visiting and passing through the City of Rockwall. In order to ensure that the visual impact of development does not detrimentally affect the area in which it is proposed, landscaping plans, building elevations and site plans are required. Architectural compatibility will be reviewed through the Architectural Review Board (ARB). These development requirements shall apply to non-residential and multi-family land uses only, single-family land uses shall be excluded from these standards except as otherwise stated.

(B) *Application and boundaries.* The East SH-66 Overlay (E. SH-66 OV) District includes the entirety of all properties which adjoin or are located within 500-feet of the current or future right-of-way of E. SH-66. The East SH-66 Overlay (E. SH-66 OV) District extends from FM-1141 to the east approximately 2,700-feet, and on property that lies within 500-feet of the south right-of-way line of SH-66 beginning at a point

approximately 2,700-feet east of FM-1141 and then continuing east to FM-549. The standards and regulations set forth in the East SH-66 Overlay (E. SH-66 OV) District are superimposed and shall supersede the standards and regulations of any underlying zoning district which are in conflict.

(C) *Overlay District Standards*. If any portion of a property is situated within the boundaries of the East SH-66 Overlay (E. SH-66 OV) District, the entire property shall be subject to the requirements of Section 6.01, *General Overlay District Standards*.

SUBSECTION 6.13: FM-549 OVERLAY (FM-549 OV) DISTRICT

(A) *Purpose.* The intent of the FM-549 Overlay (FM-549 OV) District is to provide for consistent development of office, retail and commercial areas in concert with the most efficient and aesthetically pleasing appearance of the frontage, which serves as the initial impression to those visiting and passing through the City of Rockwall. In order to ensure that the visual impact of development does not detrimentally affect the area in which it is proposed, landscaping plans, building elevations and site plans are required. Architectural compatibility will be reviewed through the Review Board (ARB). These development requirements shall apply to non-residential and multi-family land uses only, single-family land uses shall be excluded from these standards except as otherwise stated.

(B) *Application and boundaries.* The FM-549 Overlay (FM-549 OV) District includes the entirety of all properties which adjoin or are located within 500-feet of the current or future right-of-way of FM-549. The FM-549 Overlay (FM-549 OV) District extends from SH-276 to a point approximately 800-feet north of IH-30 and on property that lies within 500-feet of the west right-of-way line of FM-549 from a point approximately 800-feet north of IH-30 to SH-66. The standards and regulations set forth in the FM-549 Overlay (FM-549 OV) District are superimposed and shall supersede the standards and regulations of any underlying zoning district which are in conflict.

(C) *Overlay District Standards*. If any portion of a property is situated within the boundaries of the FM-549 Overlay (FM-549 OV) District, the entire property shall be subject to the requirements of Section 6.01, *General Overlay District Standards*.

SUBSECTION 6.14: SH-276 OVERLAY (SH-276 OV) DISTRICT

(A) *Purpose.* The intent of the SH-276 Overlay (SH-276 OV) District is to provide for consistent development of office, retail and commercial areas in concert with the most efficient and aesthetically pleasing appearance of the frontage, which serves as the initial impression to those visiting and passing through the City of Rockwall. In order to ensure that the visual impact of development does not detrimentally affect the area in which it is proposed, landscaping plans, building elevations and site plans are required. Architectural compatibility will be reviewed through the Architectural Review Board (ARB). These development requirements shall apply to non-residential and multi-family land uses only, single-family land uses shall be excluded from these standards except as otherwise stated.

(B) *Application and boundaries.* The SH-276 Overlay (SH-276 OV) District includes the entirety of all properties which adjoin or are located within 500-feet of the current or future right-of-way of SH-276. The SH-276 Overlay (SH-276 OV) District extends from SH-205 east to the eastern city limits, as may be extended with future annexation(s). The standards and regulations set forth in the SH-276 Overlay (SH-276 OV) District are superimposed and shall supersede the standards and regulations of any underlying zoning district which are in conflict.

(C) *Overlay District Standards*. If any portion of a property is situated within the boundaries of the SH-276 Overlay (SH-276 OV) District, the entire property shall be subject to the requirements of Section 6.01, *General Overlay District Standards*.

SUBSECTION 6.15: LAKE RAY HUBBARD TAKELINE OVERLAY (TL OV) DISTRICT

Subsection 6.15, *Lake Ray Hubbard Takeline Overlay (TL OV) District*, is omitted from this ordinance change, but is retained in its entirety.

SUBSECTION 6.16: VARIANCES TO THE GENERAL OVERLAY DISTRICT STANDARDS

See Subsection 9.02, *Variances to the General Overlay Districts Standards, of Article IX, Development Applications and Review Procedures*.

SECTION 7: DISTRICT DEVELOPMENT STANDARDS

Residential District Development Standards Zoning Districts → Development Standards ↓		Single-Family Estate 1.5 (SFE-1.5) District	Single Family Estate 2.0 (SFE-2.0) District	Single-Family Estate 4.0 (SFE-4.0) District	Single-Family 1 (SF-1) District	Single-Family 16 (SF-16) District	Single-Family 10 (SF-10) District	Single-Family 8.4 (SF-8.4) District	Single-Family 7 (SF-7) District	Zero Lot Line (ZL-5) District	Two-Family (2F) District	Agricultural (AG) District
Abbreviation		SFE-1.5	SFE-2.0	SFE-4.0	SF-1	SF-16	SF-10	SF-8.4	SF-7	ZL-5	2F	AG

Building Height (Feet)		36	36	36	36	36	36	36	32	30	32	36
Maximum Lot Coverage (%)		35	35	35	45	45	45	45	45	50	45	*N/A*
Required Parking Spaces [7]		2[8]	2[8]	2[8]	2[8]	2[8]	2[8]	2[8]	2[8]	2[9]	2[10]	2[8]

ADDITIONAL REQUIREMENTS:

[1]: The Single Family 1 (SF-1) District allows for one (1) unit per gross acre.

[2]: Frontage on a Public Street

[3]: The side setback adjacent to a street is treated the same as a front yard building setback.

[4]: Minimum maintenance easement is ten (10) feet. Minimum maintenance easement on the non-zero lot line side, when adjacent to another lot in the same zoning district is five (5) feet (*this easement shall be maintained as an open space except upon a finding by the building official that the proposed improvements do not impede the use of said easement for maintenance of the adjoining structure*).

[5]: Abutting structures separated by fire retardant walls.

[6]: Townhouses separated by firewall meeting the requirements of the building code may build to the property line where such structures abut.

[7]: Minimum length of driveway pavement from public right-of-way for rear and side yard is 20-feet.

[8]: An enclosed garage shall not be considered in meeting the off-street parking requirements. For all other uses see Article VI, *Parking and Loading*.

[9]: A two (2) car garage is required.

[10]: Two (2) off-street parking spaces plus one (1) garage parking space for each dwelling unit is required.

[11]: A minimum lot size of ten (10) acres is required for the construction of any single-family dwelling.

Multi-Family District Development Standards Zoning Districts → Development Standards ↓		Multi-Family 14 (MF-14) District [1]
Abbreviation		MF-14
Dwelling Units/Acre		14.0[2]
Minimum Lot Requirements	Site Area (Square Feet)	10,000
	Lot Area (Square Feet)	2,000 (*Per Unit*)
	Width (Feet)[3]	60
	Depth (Feet)	100
Minimum Setbacks	Front (Feet)	25
	Rear (Feet) w/ Residential Adjacency (Feet)[3 & 8]	One Story = 25 Two Stories = 50 Three Stories = 75
	Rear (Feet)	10
	Side w/ Residential Adjacency (Feet)[4 & 8]	One Story = 25 Two Stories = 50 Three Stories = 75
	Side (Feet)	One Story = 10 Two or More Stories = 15
Between Buildings (Feet)		Main to Accessory = 10 Two Main Buildings w/ Doors or Windows in Facing Walls = 20 Two Main Buildings w/o Doors or Windows in Facing Walls = 15
Building Height (Feet)		36
Maximum Lot Coverage (%)		45[5]
Minimum Landscaping (%)[7]		30% of Total Lot Area w/ 30% of Total Required in the Front and Alongside Buildings w/ Street Frontage [6]
Required Parking Spaces		See Article VI, *Parking and Loading*

ADDITION REQUIREMENTS:

[1]: Duplexes shall meet the requirements of the Two-Family (2F) District, with only one (1) duplex per lot.

[2]: Density is calculated by gross acre.

[3]: Unenclosed carports may be built within five (5) feet of any property line that abuts an alley, but no closer than 20-feet from any street intersection.

[4]: Side on street is treated the same as a front yard building setback.

[5]: Each development containing over 100 dwelling units shall provide 300 SF of open space per two (2) and three (3) bedroom units, with at least one (1) open area with the minimum dimensions of 200-feet by 150-feet. Swimming pools, tennis courts and other recreational facilities can be counted toward the overall open space requirement, but not toward the required 200-feet by 150-feet area.

[6]: Any parking lot with more than two (2) rows of parking spaces shall have a minimum of two (2) percent of the interior of the parking lot landscaped. Such landscaping shall be counted toward the landscaping requirement.

[7]: All required landscaped areas shall be permanently maintained and shall have an irrigation system installed meeting all applicable city codes.

[8]: Lots with more than five (5) dwelling units that are contiguous to a residential zoning district, must be separated by a buffer as established in Article VIII, *Landscape Standards*.

Non-Residential District Development Standards *: For development in the Downtown (DT) District see the standards in Section 4.8, *Downtown (DT) District*. Zoning Districts → Development Standards ↓		Residential-Office (RO) District	Neighborhood Services (NS) District	General Retail (GR) District	Commercial (C) District	Heavy Commercial (HC) District	Light Industrial (LI) District	Heavy Industrial (HI) District

NOTES:
Blue: When adjacent to Interstate 30.
H: Building Height
1/2*H*>36: One-Half the Building Height Over 36-Feet
FRW: Fire Retardant Wall
w/o FRW: Without Fire Retardant Wall

ADDITIONAL REQUIREMENTS:

185

[1]: A maximum building size of 5,000 SF in area, unless otherwise approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.

[2]: A maximum building size of 25,000 SF in area, unless otherwise approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.

[3]: Maximum lot area is 43,560 SF.

[4]: From future right-of-way as shown on the adopted Master Thoroughfare Plan or as actually exists, whichever is greater.

[5]: Parking should not be located between the front façade and the property line.

[6]: Lots with non-residential uses that have a side or rear yard contiguous or separated only by an alley, easement, or street, from any residential district must be separated from such residential district by a buffer as defined in Article VIII, *Landscape Standards*, or as approved by the Planning and Zoning Commission.

[7]: Not to exceed 50-Feet.

[8]: Building height may be increased up to 60-feet if approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.

[9]: Building height may be increased up to 240-feet if approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.

[10]: (or) as approved by Planning and Zoning Commission.

[11]: A minimum of seven (7) percent of the interior of the parking lot -- *not including the setback and landscape buffer* -- shall be pervious land area with additional plantings to create an amenity open space.

[12]: Parking shall not be permitted in the required setback.

[13]: Building height may be increased up to 120-feet if approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.

SUBSECTION 7.04: ACCESSORY STRUCTURE DEVELOPMENT STANDARDS

Accessory Structure Development Standards Zoning Districts or Accessory Structure Type → Development Standards ↓		Accessory Structures & Accessory Buildings [1 & 3]					Portable Accessory Building 0 SF – 120 SF [8]	Detached Garage [8 & 9]	Carports [7 & 8]
		Single Family Estate 1.5 (SFE-1.5) District	Single Family Estate 2.0 (SFE-2.0) District	Single Family Estate 4.0 (SFE-4.0) District	All Other Single Family Zoning Districts (i.e. SF-7, SF-8.4, SF-10, SF-16 & SF-1)	Two Family (2F) District			
Number of Accessory Structures or Number of Specific Accessory Structure		2[2]	2[2]	2[2]	2	1	1	1	1
Maximum SF of Accessory Structure [5]		1,000[2]	1,000[2]	1,250[2]	144[6]	100	120	625	500
Minimum Setbacks	Rear (Feet)	10	10	10	3	3	3	10	10
	Rear w/ Alleyway (Feet)	20[4]	20[4]	20[4]	3	3	3	20[4]	20
	Side (Feet)	See Zoning District	See Zoning District	See Zoning District	See Zoning District	3	3	See Zoning District	See Zoning District
Between Buildings (Feet)		10	10	10	6	3	3	10	10
Building Height (Feet) [8]		15	15	15	15	10	10	15	15

ADDITIONAL REQUIREMENTS:

1: Accessory buildings and accessory structures shall be accessory to a residential use and located on the same lot. Unless stipulated above, only two (2) accessory structures are permitted per single-family lot; excluding carports that are integrated into the main accessory structure.

2: If more than one (1) accessory building is proposed or if an accessory building, 625 SF or less, is existing then the maximum accessory building that can be constructed is 400 SF. If there is an existing accessory building greater than 625 SF no additional accessory buildings or structures are permitted.

3: Accessory buildings and structures shall be architecturally compatible with the primary structure, and be situated behind the front façade of the primary structure.

4: If the accessory building does not have garage doors facing the alleyway the setback is the same as the base zoning district.

5: Accessory buildings and structures not meeting the size requirements stipulated by this section shall require a Specific Use Permit (SUP).

6: Each property shall be permitted one (1) detached garage up to 625 SF and one (1) accessory building up to 144 SF.

7: In residential districts, carports must be open on at least two (2) sides, architecturally integrated into the primary structure, and be located 20-feet behind the corner of the front façade and meet the garage setback adjacent to an alley. Porte-cocheres are not considered carports, and are allowed, if they are attached and integral with the design of the house.

8: Two (2) story accessory buildings or structures shall be prohibited.

9: Shall include a minimum of one (1) garage bay door large enough to pull a standard size motor vehicle through.

ARTICLE VIII, LANDSCAPE AND FENCE STANDARDS, UDC

SECTION 1: PURPOSE

The purpose of Article VIII, *Landscape and Fence Standards*, is to create standards for landscaping and fencing that will complementary to the design and location of existing buildings, streets, sidewalks, and open spaces in the City of Rockwall. By doing this, this Article acknowledges the unique natural beauty of the City, its environment, and the existing vegetation and tree canopy, and sets forth standards that ensure their protection. This article also strives to create natural barriers and soft transition for land uses through the use of natural screening methods and non-transparent fencing.

SECTION 2: APPLICATION OF ARTICLE

SUBSECTION 2.01: APPLICABILITY

(A) *Landscape and Screening.*

(1) The landscape and screening provisions of this Article shall apply to:

(a) All new residential or non-residential development within the corporate limits of the City of Rockwall with the exception of the exemptions listed in Subsection 2.01.(A)(2).
(b) The expansion of a non-residential building or structure that increases the existing floor area by 30% or that adds 2,000 SF of floor area.
(c) The expansion of a non-residential parking lot that increases the existing impervious area by 30% or that adds 2,000 SF of impervious coverage.

(2) The landscape and screening provisions of this Article shall ***not*** apply to:

(a) Any property with a Landscape Plan and/or Site Plan that was approved prior to the adoption of this Article, unless an amended Landscape Plan and/or Site Plan is required by the requirements of Subsection 2.01.A or Article XI, *Development Applications and Review Procedures*.
(b) The restoration of a building or structure that has been damaged by fire, flood, explosion, riot, act of the public enemy, natural disaster, or accident of any kind and is permitted by Section 8, *Non-Conforming Uses, Structures, and Sites*, of Article IV, *Permissible Uses*. For the purposes of this exemption restoration is defined as repairing a building or structure to return it to its former state.
(c) Properties containing only single-family and/or duplex land uses.
(d) Properties zoned Downtown (DT) District, as defined by Subsection 4.07, *Downtown (DT) District*, of Article V, *District Development Standards*.

(B) *Fences.*

(1) The fence provisions of this Article shall apply to:

(a) The construction of all new residential or non-residential fences.
(b) The repair of an existing residential or non-residential fence that requires the replacement of 25-linear feet or more.
(c) The repair of an existing residential or non-residential fence that requires the replacement of five (5) or more posts.

(2) The fence provisions of this Article shall ***not*** apply to:

(a) The repair of a residential or non-residential fence that does not require a fence permit and that is not subject to the requirements of Subsection 2.01.B(1).

(C) *Overlay Districts.* In addition to the requirements contained in this Article, properties within an establish Overlay District shall be subject to the requirements stipulated by Subsection 6.02, *General Overlay District Standards*, of Article V, *District Development Standards*. In instances where the requirements of this Article conflict with the requirements of the *General Overlay District Standards*, the more restrictive standard will apply.

(D) *Planned Development Districts.* The landscaping requirements contained in this Article shall be incorporated into all new or amended Planned Development Districts, unless otherwise approved by the City Council upon recommendation from the Planning and Zoning Commission.

SUBSECTION 2.02: EXCEPTIONS TO THE LANDSCAPING STANDARDS

The Planning and Zoning Commission may grant an exception to the landscaping standards contained in this Article upon a finding that the resulting landscaping or landscaping plan will be equivalent to or exceed the requirements stipulated by this Article, and provide an improvement to the aesthetics of the surrounding area. All exceptions to these requirements will be subject to the approval criteria and voting requirements of Section 9.01, *Exceptions to the General Standards*, of Article XI, *Development Applications and Review Procedures*.

SUBSECTION 2.03: EXCEPTIONS TO THE FENCE STANDARDS

All exceptions to the fence standards contained in this Article will be subject to the requirements of Section 8, *Fence Standards*.

SECTION 3: LANDSCAPE PLAN

SUBSECTION 3.01: LANDSCAPE PLAN SUBMITTAL

(A) *Submittal of a Landscape Plan*. A Landscape Plan is required to be submitted as part of an application for a Site Plan or an Amended Site Plan as stipulated by Section 3, *Site Plans*, of Article XI, *Development Applications and Review Procedures*.

(B) *Landscape Plan Content*. The Director of Planning and Zoning or his/her designee shall establish and maintain a list of the required criteria necessary for the submittal of a Landscape Plan.

(C) *Preparation of a Landscape Plan*. Landscape Plans shall be prepared by a *Landscape Architect* or a member in good standing of the American Society of Landscape Architects (ASLA) unless otherwise permitted by the Director of Planning and Zoning.

SUBSECTION 3.02: APPROVAL OF A LANDSCAPE PLAN

(A) *Administrative Approval*. Landscape Plans that are submitted in conjunction with a Site Plan or an Amended Site Plan that can be reviewed and acted upon at an administrative level -- *as defined in Section 3, Site Plans, of Article XI, Development Applications and Review Procedures* -- may be approved, approved with condition, or denied by the Director of Planning and Zoning or his/her designee.

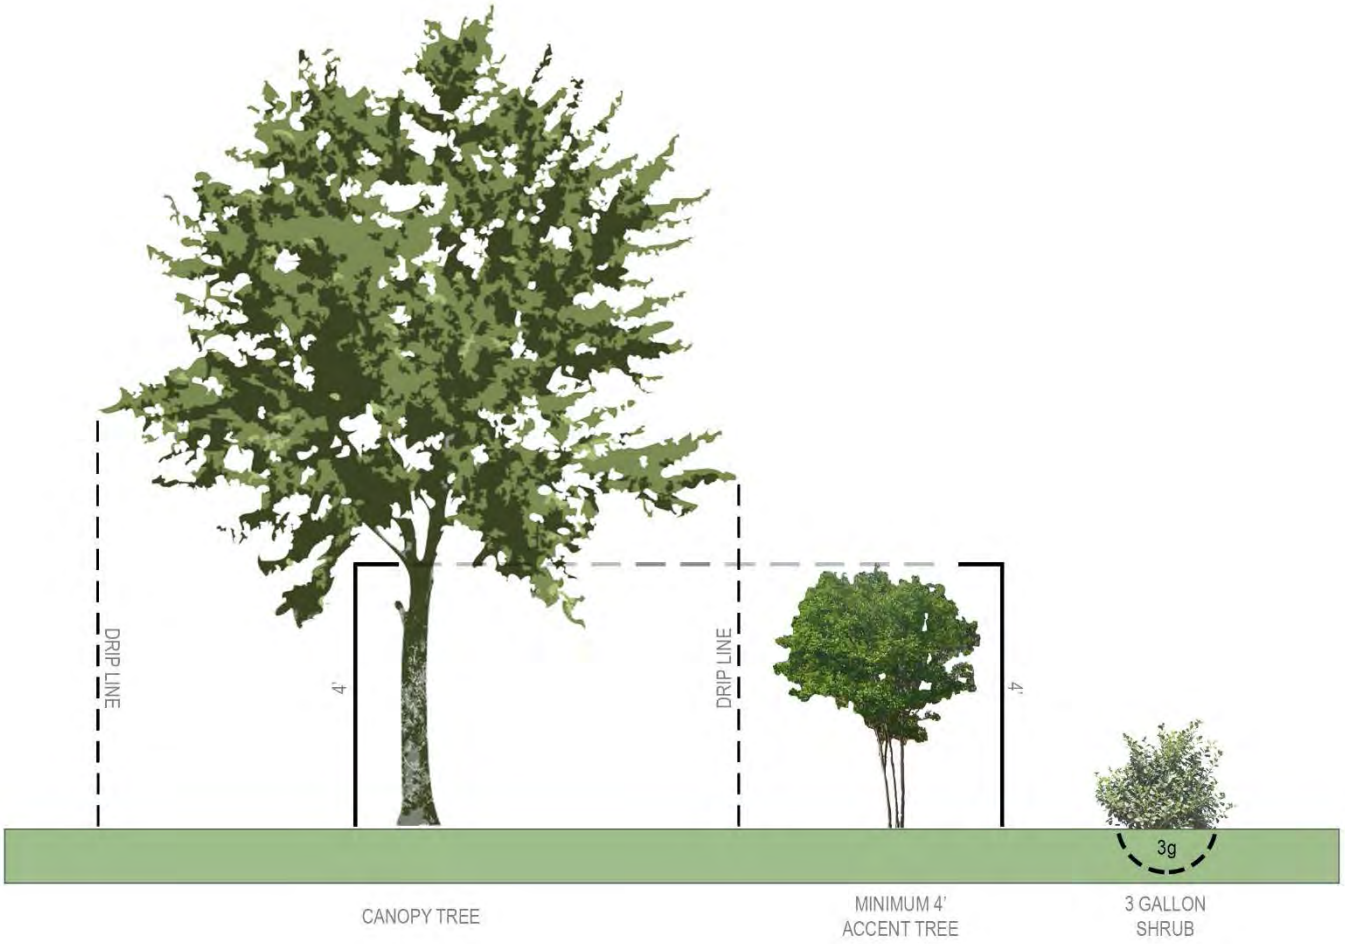
(B) *Approval by the Planning and Zoning Commission*. The Planning and Zoning Commission may approve a Landscape Plan in accordance with the procedures for approving a Site Plan or an Amended Site Plan as stipulated by Section 3, *Site Plans*, of Article XI, *Development Applications and Review Procedures*.

SECTION 4: APPROVED LANDSCAPING MATERIALS

In satisfying the landscape requirements of this Article, it is recommended that all landscaping utilize high-quality, hardy plant materials. Such plant materials shall adhere to the following requirements:

(A) *Approved Planting Materials*.

(1) All planting materials should conform to the recommended planting materials outlined in Appendix F, *Landscape Guidelines and Requirements*; however, alternative tree, shrub, and grass varieties may be approved by the Director of Planning and Zoning pending the submission of a Landscape Plan and/or a written request.



(2) Unless otherwise noted in this Unified Development Code (UDC), the minimum tree and shrub size at the time of installation shall be as follows:

(a) *Canopy Trees* shall be a minimum of four (4) caliper inches at DBH.

(b) *Accent Trees* shall be a minimum of four (4) feet in total height.

(c) Shrubs shall be a minimum of three (3) gallons in size.

Figure 1: Approved Planting Materials and Sizes

(3) For the purposes of this section, the height of an Accent Tree shall be measured from the root flare or from the soil level if still in the container.

190

(4) DBH or *Diameter at Breast Height* is the standard dendrometric measurement for trees, and is measured at a height of four (4) feet above grade.

(5) The City of Rockwall encourages developments to incorporate xeriscaping/smartscaping to promote reduced water usage through the use of drought tolerant plants. The City's *Xeriscaping/Smartscaping Standards and Guidelines* are outlined in Section 5.05, *Xeriscaping and Smartscaping Standards*.

(B) Prohibited Planting Materials.

(1) Artificial or synthetic plant materials (*e.g. artificial grass, turf, trees shrubs*) shall be prohibited.

SECTION 5: LANDSCAPE STANDARDS

SUBSECTION 5.01: LANDSCAPE BUFFERS

The minimum requirements for landscape buffers shall be as follows:

(A) *Residential Landscape Buffers in Subdivisions*.

(1) *Abutting a Collector Street*. A minimum of a ten (10) foot wide landscape buffer shall be required along the entire length of any residential lot or subdivision that abuts a collector street. All residential lots adjacent to a collector street shall incorporate one (1) canopy tree per 50-linear feet of frontage along the collector street inside the required landscape buffer. Clustering of trees shall be permitted as long as all required trees are situated within the landscape buffer.

(2) *Abutting a Perimeter Collector Street or Arterial Roadway*. A minimum of a ten (10) foot wide landscape buffer shall be required along the entire length of any residential lot or subdivision that abuts a perimeter collector street or arterial roadway. All landscape buffers adjacent to a perimeter collector street or arterial roadway shall incorporate ground cover, a *built-up berm* and shrubbery along the entire length of the frontage. Berms and shrubbery shall have a total minimum height of 30-inches. In addition, one (1) canopy tree and one (1) accent tree shall be required to be planted in the required landscape buffer per 50-linear feet of frontage along the perimeter collector street or arterial roadway. Clustering of trees shall be permitted as long as all required trees are situated within the landscape buffer.

Figure 2: Residential Landscape Buffers Example

(B) *Non-Residential Landscape Buffers.*

(1) *Abutting a Public Right-of-Way*. A minimum of a ten (10) foot wide landscape buffer shall be required along the entire length of any non-residential lot that abuts a public right-of-way (*i.e. collector street, arterial roadway, or alleyway*) or a residentially zoned or used property that is located directly across a

public street (*regardless of the size of the street*). All landscape buffers adjacent to a public right-of-way shall incorporate ground cover, a *built-up berm* and shrubbery along the entire length of the frontage. Berms and shrubbery shall have a total minimum height of 30-inches. In these areas a minimum of one (1) canopy tree and one (1) accent tree shall be incorporated into the landscape buffer per 50-linear feet of frontage along the adjacency. Clustering of trees shall be permitted as long as all required trees are situated within the landscape buffer.

(2) *Abutting Residential*. A minimum of a 20-foot wide landscape buffer shall be required along the entire length of any non-residential lot that abuts a residentially zoned or used property. For planting requirements in these landscape buffers see Subsection 5.02(B), *Screening from Residential*.

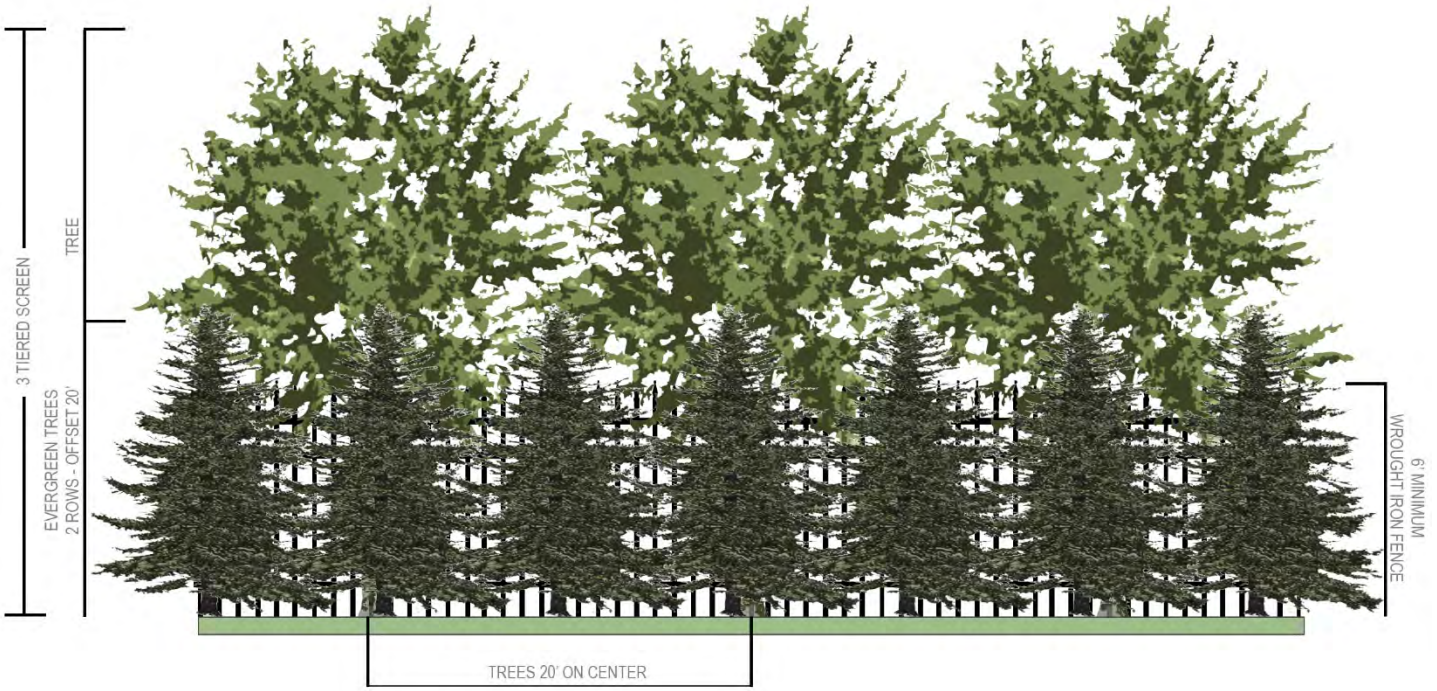
Figure 3: Commercial Landscape Buffers Example

193

(C) *Buildings and Paving within a Required Landscape Buffer.* Buildings and paving (*e.g. parking lots*) shall not be permitted within any required landscape buffer; however, sidewalks and trails shall be permitted.

SUBSECTION 5.02: LANDSCAPE SCREENING

(A) *Loading Docks and Outside Storage Areas.* Off-street loading docks and outside storage areas shall be screened from all public streets, open space, adjacent properties and any residential zoning districts or residentially used properties that abut or are directly across a public street or alley from the loading dock or outside storage area in accordance with the requirements of Subsection 1.05, *Screening Standards*, of Article V, *District Development Standards*. As an alternative, the Planning and Zoning Commission may approve an alternative screening method that incorporates one (1) of the following options:



(1) *Alternative #1*. A wrought iron fence and three (3) tiered screening (*i.e. small to mid-sized shrubs, large shrubs or accent trees, and canopy trees*) along the entire length of the adjacency. The canopy trees shall be placed on 20-foot centers.

Figure 4: Alternative #1

(2) *Alternative #2*. A wrought iron fence with a mix of two (2) rows of staggered mature evergreen trees and one (1) row of deciduous canopy trees (*a minimum six [6] caliper inches*) along the entire length of the adjacency. All trees will be planted on 20-foot centers.

Figure 5: Alternative #2

(B) *Screening from Residential.* Any non-residential or multi-family land use or parking area that has a side or rear contiguous to any residentially zoned or used property shall be screened with a masonry fence a minimum of six (6) feet in height with canopy trees planted on 20-foot centers (*as depicted in Figures 6 & 7 below*). As an alternative, the Planning and Zoning Commission may approve an alternative screening method that incorporates a wrought iron fence and three (3) tiered screening (*i.e. [1] small to mid-sized shrubs, large shrubs or accent trees, and canopy trees or [2] evergreen trees and canopy trees*) along the entire length of the adjacency (*as depicted in Figure 8, 9, & 10 below*). The canopy trees shall be placed on 20-foot centers.

195

Figure 6: Masonry Fence with Canopy Trees in Plan View

Figure 7: Masonry Fence with Canopy Trees in Perspective View

197

Figure 8: Wrought Iron Fence with Three (3) Tiered Screening in Plan View

198

Figure 9: Alternative #1 (Wrought Iron Fence with Three (3) Tiered Screening in Perspective View)

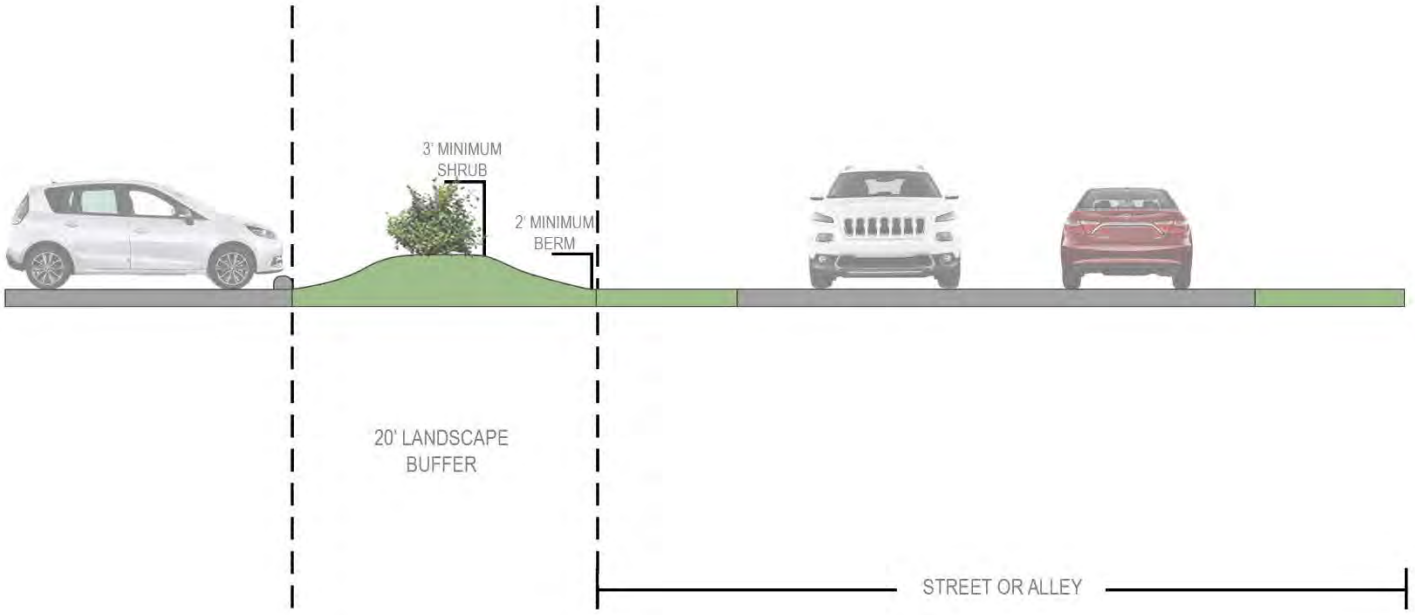


Figure 10: Alternative #2 (Wrought Iron Fence with Three (3) Tiered Screening in Perspective View)

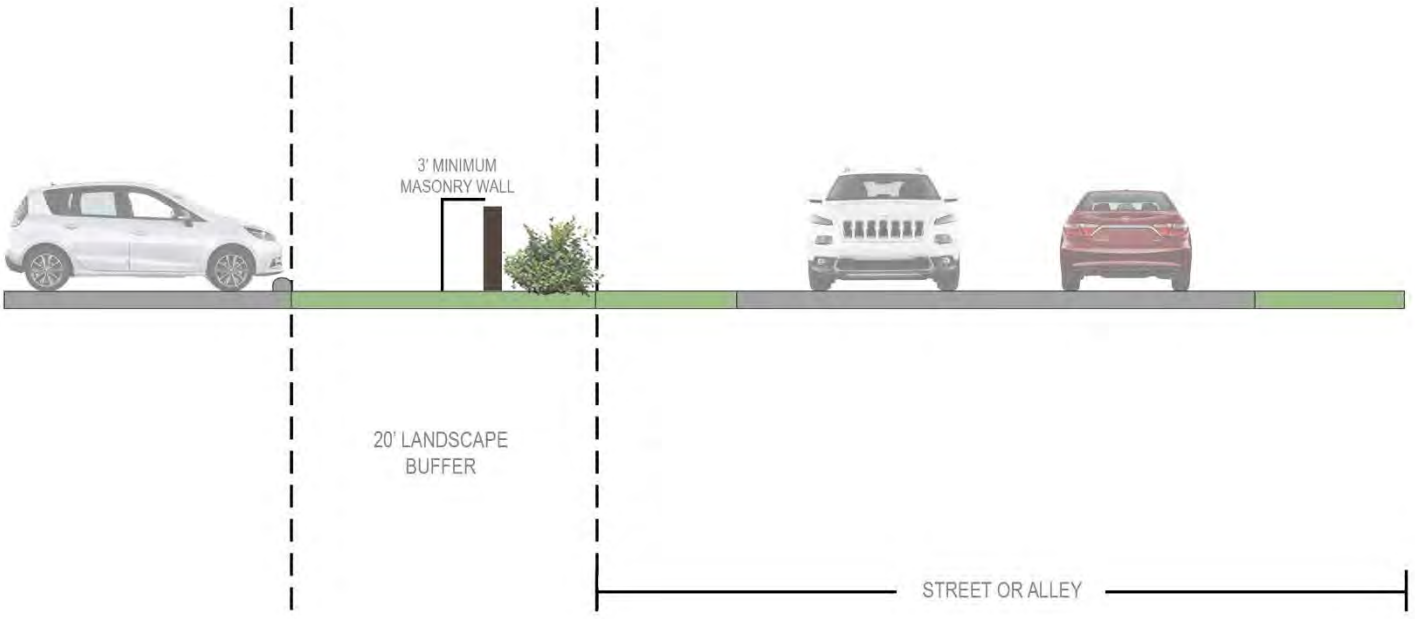
(C) *Headlight Screening.* Head-in parking adjacent to a street shall incorporate one (1) of the following screening methods to mitigate the potential hazard that headlights may pose for on-street vehicular traffic:



(1) *Alternative #1.* A minimum of a two (2) foot berm with mature evergreen shrubs along the entire adjacency of the parking areas.

Figure 11: Alternative #1 (Headlight Screening using Landscaping and a Berm)

(2) *Alternative #2.* A minimum of a three (2) foot masonry wall with mature shrubs situated between the wall and the right-of-way along the entire adjacency of the parking areas.

Figure 12: Alternative #2 (Headlight Screening using a Masonry Wall and Landscaping)

(D) *General Screening Requirements.* All screening shall meet the following requirements:

(1) *Approval of a Screening Plan.* Prior to construction of any required screening, a site plan and landscape plan shall be approved by the Planning and Zoning Commission showing the type of screening, the proposed materials, and the plant spacing. In approving screening plans, the Planning and Zoning Commission shall determine:

(a) If the proposed screening plan will adequately screen the non-residential land use.

(b) If the proposed screening plantings will withstand the pressures of time and nature.

(2) *Certificate of Occupancy (CO)*. Prior to the issuance of a Certificate of Occupancy (CO), the proposed screening shall be installed and verified by the Director of Planning and Zoning or his/her designee.

SUBSECTION 5.03: LANDSCAPE REQUIREMENTS

(A) *Amount of Landscaping.* The following landscaping percentages shall be required and shall apply to the total site area to be developed:

ZONING DISTRICT	REQUIRED LANDSCAPING (%)	REQUIRED LANDSCAPING WITH MAXIMUM ELIGIBLE CREDITS (%)
Multi-Family 14 (MF-14) District	35	22½
Downtown (DT) District	See Subsection 4.07, *Downtown (DT) District*, of Article V, *District Development Standards*	
Residential Office (RO) District	30	17½
Neighborhood Services (NS) District	25	12½
General Retail (GR) District	20	7½
Commercial (C) District	20	7½
Heavy Commercial (HC) District	15	2½
Light Industrial (LI) District	15	2½
Heavy Industrial (HI) District	10	2½

(B) *Location of Landscaping.* A minimum of 50% of the required landscaping shall be located in the front of and along the side of buildings with street frontage in the Multi-Family 14 (MF-14), Residential Office (RO), Neighborhood Services (NS), General Retail (GR) and Commercial (C) Districts. A minimum of 100% of the total required landscaping shall be located in front of and along the side of buildings with street frontages in the Heavy Commercial (HC), Light Industrial (LI), and Heavy Industrial (HI) Districts.

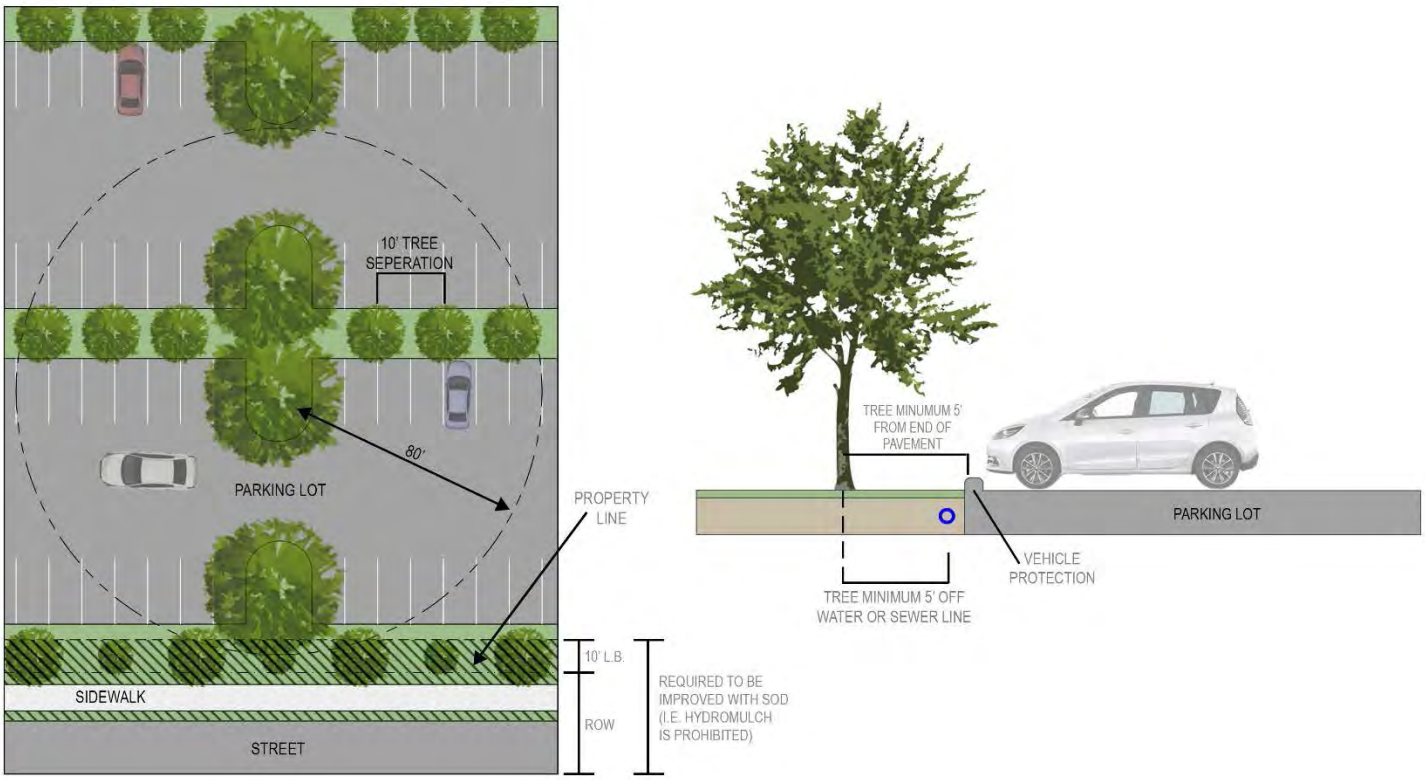
(C) *Minimum Size of Required Landscape Areas.* All required landscaping shall be no less than five (5) feet wide and be a minimum of 25 SF in area unless it is within ten (10) feet of a building on the same lot.

(D) *Detention Basins.* Detention basins shall be landscaped in a natural manner using ground cover, grasses, shrubs, berms, and accent and canopy trees. There shall be a minimum of one (1) Canopy Tree per 750 SF and one (1) Accent Tree of detention area.

(E) *Parking Lot Landscaping.* The following landscape requirements will apply to parking lots:

(1) Parking lots with more than two (2) rows of parking spaces (*i.e. one [1] drive isle with rows of parking on either side*) shall have a minimum for five (5) percent or 200 SF of landscaping -- *whichever is greater* -- in the interior of the parking lot area. Such landscaping shall be counted toward the total required landscaping.

(2) If the parking and maneuvering space exceeds 20,000 SF, one (1) large canopy tree for every ten (10) parking spaces shall be required to be planted internal to the parking areas.



(3) No tree shall be planted closer than five (5) feet to the edge of pavement or five (5) feet from any water or wastewater line that is less than 12-inches. Water and wastewater lines that are 12-inches and greater require trees to be planted a minimum of ten (10) feet from the centerline of the pipe.

(4) No required parking spaces may be located more than 80-feet from the trunk of a canopy tree.

(F) *Protection of Landscape Areas*. Required landscape areas must be protected from vehicular traffic through the use of a concrete curb, or other permanent barrier.

(G) *Landscaping in Landscape Buffers and Public Right-of-Way.* All landscape buffers and public right-of-way located adjacent to a proposed development shall be improved with grass (*i.e. sod -- hydro mulch shall be prohibited in these areas*) prior to the issuance of a Certificate of Occupancy (CO). In addition, it shall be the responsibility of the developer to design the irrigation system within the lot to ensure that the grass placed in public right-of-way is watered and maintained, and to ensure that minimal water will be shed on to the street. The designer of the irrigation system shall base the systems design on the ultimate proposed width of the street. The plans for design of the irrigation system shall be approved by the Building Inspections Department prior to installation and acceptance of the project.

Figure 13: Landscape Requirements

SUBSECTION 5.04: IRRIGATION REQUIREMENTS

A. *General Irrigation Requirements*. The owner shall be responsible for the health and vitality of plant material through the irrigation of all landscaped areas, turf and plant materials, and shall:

(1) Provide a moisture level in an amount and frequency adequate to sustain growth of the plant materials on a permanent basis.
(2) Be in place and operational at the time of the landscape inspection for Certificate of Occupancy (CO).
(3) Be maintained and kept operational at all times to provide for efficient water distribution.

B. *Irrigation Methods*.

(1) *Landscaped Areas*. One (1) of the following irrigation methods shall be used to ensure adequate watering of plant material in landscaped areas:

(a) *Conventional System*. An automatic or manual underground irrigation system that may be a conventional spray or bubbler type heads.
(b) *Drip or Leaky-Pipe System*. An automatic or manual underground irrigation system in conjunction with a water-saving system such as a drip or a leaky pipe system.

(c) *Temporary and Aboveground Watering*. Landscape areas utilizing xeriscape plants and installation techniques, including areas planted with native grasses and wildflowers, may use a temporary and above ground system, and shall be required to provide irrigation for the first two (2) growing seasons only.

(2) *Natural and Undisturbed Areas*. No irrigation shall be required for undisturbed natural areas or undisturbed existing trees.

(3) *Compliance with State Law*. All irrigation systems shall comply with the irrigation code of Chapter 10, *Buildings and Building Regulations*, Article XVI, *Irrigation Code*, of the City of Rockwall Code of Ordinances, and all applicable state laws, as may be amended.

(Ord. No. 09-23, 6-15-2009)

SUBSECTION 5.05: XERISCAPING/SMARTSCAPING STANDARDS

(A) *Purpose*. The purpose of this section is to promote the establishment of water conscious landscaping through the implementation of xeriscaping/smartscaping principles. Additionally, this section is intended to provide an alternative to the typical landscape requirements for commercial properties.

(B) *Principles*. All xeriscaping/smartscaping plans submitted to the city should demonstrate conformance with the following principles:

(1) *Planning and Design*. Landscape designs and plans should take into account the regional and microclimatic conditions of the site, its existing vegetation and topographical conditions, the intended use, and the zoning (*i.e. vegetation zone*) of plant materials according to their unique water needs. Plans should take into account the various heights of landscaping materials. If the landscape plan is proposed in phases, to account for optimum planting times, all future phases should be included on the submitted landscape plan. In reviewing plans to ensure proper site planning and design, staff shall ensure that the plan: [*1*] preserves and protects existing vegetation, [*2*] preserves and protects topsoil, [*3*] stabilizes and covers all bare soil areas, and [*4*] incorporates energy/water conservation.

(2) *Soil Improvement*. Since soil tends to vary from site to site all soil should be analyzed to determine what plants are suitable to include on the landscape plan and if any soil amendments are required. Soil may require additional organic material be added to ensure the continued health of plants.

(3) *Appropriate Plant Selection*. Plant selection should be based on the plant's adaptability to the existing site conditions and need for supplemental watering. Most xeriscape/smartscaping plants will not require supplemental watering. In selecting plant materials, mature plants and shrubs should be used to ensure establishment after installation. A list of plants that are native and acceptable within the city has been provided in Appendix F, *Recommended Plantings*; however, staff may approve alternate plantings if they are deemed appropriate for the site. In reviewing plans for conformance to this principle staff will consider the: [*1*] diversity of the plant species being proposed, [*2*] size, maturity and water requirements of the selected plantings, and [*3*] variation of height, spread and color.

(4) *Practical Turf Areas*. The type and location of turf areas are considered to be a major design element in xeriscape/smartscaping plans. Turf in this case involves typical varieties of Bermuda, St. Augustine, Ryegrass blends, etc. The maintenance needs of turf can be minimized by the shape, area, irrigation equipment, and turf type selected. Drainage areas and sloped areas are especially suited to the use of native grasses as opposed to turf. In reviewing plans to ensure that the turf areas being proposed are practical staff will review: [*1*] the design of the turf areas (with rounded, compact turf areas being more efficient), [*2*] turf areas should be designed to be on a separate zone from other landscaping, [*3*] turf should be appropriate for the selected location, [*4*] turf should be avoided on slopes and drainage areas in favor of native grasses, and [*5*] minimize turf areas by using native grasses, hardscape elements and alternatives.

(5) *Efficient Irrigation*. All landscaping is required to have an irrigation system that is designed by a licensed irrigator. Additionally, all irrigation systems should be designed to be water efficient utilizing low-flow irrigation equipment. The plan should show that turf areas should be watered separately, and plants should be grouped in separate zones based on water need. Finally, all irrigation systems are required to be maintained in proper working order.

(6) *Use of Mulches*. Mulches minimize evaporation, reduce weed growth, slow erosion and help maintain soil temperature. In reviewing the use of mulches in xeriscape/smartscaping plans staff shall ensure: [*1*] the use of a deep layer of mulch in planting beds (*typically three to four inches*) is utilized, and [*2*] mulches should be locally or regionally derived materials. Additionally, mulches may include the use of pea gravel, crushed granite, rock or pebbles in unplanted areas.
